Mr. Chairman, most of the private volunteer organizations are opposed to this legislation, and I have to admit that I was a cosponsor of it until I studied it and saw what we were doing. So I would urge that we do not move forward at this time but have a careful study of the issue.

Mr. SIMON. Mr. Chairman, I yield myself the balance of my time.

The CHAIRMAN pro tempore. The gentleman from Illinois (Mr. SIMON) is recognized for 2 minutes.

Mr. SIMON. Mr. Chairman, let me make several points very quickly.

No. 1, I would love to do this in a foreign aid authorization, but we know how frequently they come up.

No. 2, my distinguished colleague—and I have great respect for the chairman of the committee—says that AID says that it is going to cost $45 million in administrative costs to do this. If that is the case, they are not living up to the law right now because the law says they ought to be primarily helping the poor, and we are trying to put some teeth into the law.

Third, I want to underline what my colleague, the chairman of the subcommittee, the gentleman from Maryland (Mr. LONG), said. It is not a question of whether we hand out fish or whether we teach people how to fish. What we are saying is, let us teach the poor to fish and not simply the wealthy in some of these countries how to fish. That is what it is all about. That is where we ought to be targeting this money.

Mr. GILMAN. Mr. Chairman, will the gentleman yield?

Mr. SIMON. I am glad to yield to my colleague, the gentleman from New York.

Mr. GILMAN. Mr. Chairman, much has been said about the bureaucratic assistance that this amendment would require. This measure is trying to avoid unnecessary and costly bureaucracy that is tied to the present AID measures. Too many of the development projects that AID finances provide for studies and consulting with Government bureaucracies and do not directly assist the poor.

As a matter of fact, as I understand it, USAID is now spending over $700,000 to help the Government of Sierra Leone to collect more taxes. How does that help the poor?

Similarly, $5.6 million is being spent to provide surveys, assessments, and seminars to help the Government of Mauritania improve its administrative procedures. That expenditure certainly does not help the poor.

Mr. Chairman, this amendment is trying to avoid just that kind of unnecessary bureaucracy and that is why we are giving it favorable consideration.

Mr. LONG of Maryland. Mr. Chairman, will the gentleman yield?

Mr. SIMON. I yield to the gentleman from Maryland.

Mr. LONG of Maryland. Mr. Chairman, let me say that the complaint here of the authorizing committee is that this is not authorized. But the Rules Committee settled that by allowing the amendment.

Let me point out in addition; that for 18 years now I have been on this committee and I have heard this stuff about how we ought to be helping the poor. The authorizing committee has still not gotten a handle on it or has not even tried. It was up to them a long time ago to try to deal with the problem. They have not done it. Most of our aid goes to the well-to-do, the well-invested the military and not to the poor who represent the real reason why we are voting foreign aid.

The CHAIRMAN pro tempore. The time of the gentleman from Illinois (Mr. SIMON) has expired.

Mr. ZABLOCKI. Mr. Chairman, I yield myself 30 seconds.

Mr. Chairman, I must resent the remark that the Foreign Affairs Committee was not cognizant of or was not interested in this issue.

Where was the gentleman from Maryland when the gentleman from Wisconsin was in the forefront in supporting the New Direction program, when AID programs for the poor majority were started?

As I have pointed out, this amendment would be counterproductive because it would not do what the gentleman from Maryland or the gentleman from Illinois wants to do, but it would be spent for bureaucracy and paperwork.

The CHAIRMAN pro tempore. The time of the gentleman from Wisconsin (Mr. ZABLOCKI) has expired.

Mr. ZABLOCKI. Mr. Chairman, I yield the remainder of my time to the gentleman from Wisconsin (Mr. OBEY).

The CHAIRMAN. The gentleman from Wisconsin (Mr. OBEY) is recognized for 1½ minutes.

Mr. OBEY. Mr. Chairman, I would strongly urge that the committee reject the amendment offered by the gentleman from Illinois (Mr. SIMON).

It is meant to do a good thing, and the gentleman who offers it generally does good things when he offers his amendments on this floor. But the fact is that we do not know how the gentleman's proposal is going to be defined. We do not know from whom that money is going to be taken. We do know that what the gentleman is proposing is going to be extremely expensive administratively, and, therefore, because we do not know the specific impact, we should not be dealing with this kind of an issue on a continuing resolution. We ought to be dealing with it on a regular authorization bill or, if we can get one, perhaps on the regular appropriations bill. But this is not the place to do it.

So far as I know, our committee has held no hearings on this proposal, and I would suggest that there is also something very basically wrong with the amendment. It is fine to say emotionally that we want our AID program to help the poorest of the poor. Ideologically, that is where I come from but the fact is that many times items in the foreign aid bill which do the poorest the most good in the long run, do not start as AID programs directed primarily at the poor.

For example, let us take agricultural research. Are we going to have the poorest of the poor conduct the agricultural research, or are we going to have that agricultural research conducted by the people who know the most about growing food?

□ 1245

I just think the gentleman's proposal is well-meaning. It certainly sounds good. I can understand why groups would want to do it if they think they are going to get some of the money directed their way.

Since we are in favor of sound development, this is not the procedural way to go and it certainly is not the substantive way to go. And because of the incredible expense of administrative cost it is going to hurt the very people we want to help.

● Mr. PICKLE. Mr. Chairman, I rise in support of the Simon amendment to House Joint Resolution 631, which proposes to target existing development assistance funds toward the poorest peoples in the world. This is the right way to go, it is a compassionate way to go, it is the sensible way to go.

We are a great nation, enormously rich by comparison with other nations of the world; and I find it commendable that we have such a generous foreign assistance program. I find it commendable that we at least share a small portion of our wealth in an effort to relieve suffering in other parts of the world. But in recent years, we have discovered that our foreign aid program has not been all that effective in many areas. Perhaps of most pressing concern today is the lack of any measurable improvement in our battle against world hunger.

One area of the world warrants our immediate and special concern—the sub-Saharan region of Africa—an area in which population growth rates are increasing while food production is declining. This is a region of 20 or more poor underdeveloped countries which remain for the most part unable to benefit from technological advances, nor able to reach minimal standards of living for the masses of the people who reside there. The amendment which we are considering today would target U.S. efforts and moneys toward productive agricultural activities. Food distribution systems would be strengthened in countries which can neither produce enough food to feed their people, nor obtain the necessary foreign exchange to purchase food on the world market. Hunger is a global problem Mr. Chairman, but it is most urgent and most immediate in sub-Saharan Africa. Our attention and our efforts should be focused on the pressing needs which present themselves in this region of the world.●

● Mr. RAHALL. Mr. Chairman, at a time when many domestic programs are being axed at the expense of vast increases in foreign aid, it is imperative that Congress scrutinize the use of our taxpayers' dollars, and in all cases ask for what purpose U.S. made weapons are being used. I regret that we must approach foreign assistance appropriations without being able to closely scrutinize the objectives of our foreign assistance program.

At a time when unemployment in our country is over 10 percent with over 12 million people out of work, we must ask ourselves how we can authorize increases in foreign aid while so many of our own people are unemployed. The authorization to the State of Israel calls for an increase of $300 million in foreign military assistance and a "forgiveness" of some additional $200 million in loans over the fiscal year 1982 level. The levels for this aid are authorized in the continuing appropriations resolution under H.R. 6370. This legislation was reported to the House on May 17, 1982. No action was taken on this legislation, it was never debated before the full House and now it is being used to authorize funding levels for foreign assistance to Israel and Egypt. It is unfortunate that the Members of this body were not given the opportunity to debate this important legislation before it was added to such a crucial appropriations resolution.

Furthermore, the levels of aid to the State of Israel exceed those requested by the President. It is ironic that while U.S. taxpayers are suffering from a deep recession, we are at the same time unwillingly financing an Israeli policy of expanding West Bank settlements that doom President Reagan's peace initiative in the Middle East. It is ironic that Israel receives from the United States $627 per citizen while the citizens of Lebanon, trying to rebuild and recover from an invasion at the hands of Israel and financed by U.S. tax dollars, receive from the United States $7.45 per citizen.

Any further widening of the gap in U.S. aid to Israel and aid to friendly Arab States, will most certainly hurt the United States in working with Egypt, Jordan, and the friendly Arab States for the implementation of President Reagan's peace initiative.●

● Mr. OTTINGER. Mr. Chairman, I rise in support of the amendment to the continuing appropriations bill for fiscal year 1983 offered by my distinguished colleague from Illinois, Representative PAUL SIMON. The amendment would require that at least 50 percent of Agency for International Development bilateral assistance funds must be used to finance projects which directly benefit people living below the "absolute poverty line" established by the World Bank.

Some 800 million people—40 percent of the developing world's population—live in absolute poverty. Yet only about one quarter of U.S. development aid is directed toward helping these people become more productive and self-sufficient. The vast majority of U.S. bilateral assistance funds are directed at bureaucracies in recipient countries. The New York Times recently noted:

Aid is often squandered at the national level where bureaucracies soak up resources and money never reaches the intended rural areas.

The respected group, Bread for the World, which has been leading the fight for effective food assistance programs and the targeted development aid amendment in particular, concurs with the Times, noting:

AID empasizes a bureaucratic trickle-down strategy rather than assisting poor people themselves. Recent AID policy statements indicate a new shift away from poverty oriented projects.

The Simon amendment seeks to focus the emphasis of bilateral development assistance programs directly to the absolute poor. It would require that 50 percent of AID's development funds go to finance productive facilities and other goods and services to be primarily used by those most greatly devastated by poverty. Examples include food and food distribution, irrigation facilities, roads, health clinics, and credit for poor people to encourage private sector income generating projects.

In addition to effectively benefiting the developing world, this amendment is in our national interest. It will strengthen the economic, political, and social structures of developing countries and thus lend stability and peace to volatile regions of the world. It will promote healthy economic growth and thus create and expand new markets for U.S. exports which will directly improve our economy and ease our balance-of-payments deficits.

The targeted development aid amendment is an important and necessary measure to deliver more assistance to those who most desperately need it. I urge my colleagues to support the amendment.●

The CHAIRMAN. The question is on the amendment offered by the gentleman from Illinois (Mr. SIMON).

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. SIMON. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device and there were—ayes 227, noes 184, not voting 22, as follows:

□ 1500

The Clerk announced the following pairs:

On this vote:

Mr. Beilenson for, with Mr. Fary against.

Messrs. PERKINS, HUNTER, VOLKMER, TAUZIN, PANETTA, FRENZEL, and MARRIOTT changed their votes from "no" to "aye."

Mr. SNYDER changed his vote from "aye" to "no."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

ANNOUNCEMENT BY THE CHAIRMAN PRO TEMPORE

The CHAIRMAN pro tempore (Mr. PEYSER). The Chair will remind visitors in the gallery that they are here as guests of the House, and there will be no display concerning the actions taken on the floor.

AMENDMENT OFFERED BY MR. TAUZIN

Mr. TAUZIN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. TAUZIN: At the end of title I, add the following new section:

SEC. . No funds provided under this joint resolution shall be used to deny or reduce SSI benefits because of assistance provided by a private nonprofit organization, or any entity whose revenues are primarily derived on a rate-of-return basis regulated by a State of Federal governmental body, if the appropriate State agency has certified that such assistance was based on need as determined by such organization or entity.

Mr. TAUZIN. Mr. Chairman, the amendment Congressman WYDEN and I are offering is not a complicated one. But it is, nonetheless, very important to low-income persons and senior citizens who receive supplemental security income (SSI) benefits.

A recent interpretation of Federal law, by Health and Human Services Secretary Schweiker, will result in a reduction of SSI benefits to any recipient who accepts energy assistance from a nonprofit organization or from a utility company.

Our amendment would prohibit the enforcement of that interpretation of the Social Security Act which would label such assistance as income for purposes of determining SSI eligibility and payment amounts.

The winter heating months are here. The strain on Government sponsored energy assistance programs is overwhelming. Frankly, without voluntary help, many SSI recipients could face a cruel choice between food and fuel. The Department's ruling, in effect, prohibits SSI recipients from getting voluntary help that is already on line.

All across the Nation, utility companies and private nonprofit organizations have been working together to provide emergency assistance to low-income and elderly people, to help them pay ever-increasing utility bills. More than 25 investor owned utilities already have energy assistance programs with millions of dollars that could be used to help these people. Many other utilities are developing similar programs.

But Federal law is standing in the way.

We can act, however, and get the obstacles out of the way of voluntary efforts to assist the neediest people in our society.

I hope you will join me in support of this amendment. After all, private sector initiatives to voluntarily assist the Nation's poor and elderly deserve to meet with success, and not obstacles in Federal law.

Mr. BIAGGI. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from New York.

□ 1510

Mr. BIAGGI. I thank the gentleman for yielding.

I take this opportunity to commend him for this very sensitive, humane, and necessary amendment. Clearly it is an opportunity for the private sector to make a contribution to the needs of those who need it most, the SSI recipients. The interpretation that Secretary Schweiker has put on it only redounds to the disadvantage of the SSI recipients. It limits them to their present meager sums of money. Obviously the private sector is aware of the need and they are responding. The Government should not be so cruel as to benefit as the result of the generosity of the private sector.

Further it would discourage voluntary participation by the private sector if this interpretation were to stand.

I commend the gentleman once again. It is an amendment that I urge the Members of the House to pass and pass overwhelmingly.

As an original member of the House Select Committee on Aging I wish to commend my colleague for his amendment which may mean the very survival for many of this Nation's poorest elderly in this winter that is now upon us.

Many of us on the east coast experienced our first taste of winter this past weekend with a major snowfall and cold snap. The onset of winter brings fear and apprehension to many of our senior citizens who do not know whether they will have enough funds to pay for heating costs.

This is an obvious national problem and was the subject of a front page article in this past Sunday's New York Times. The headline read—"Utility Shut Offs Reported on Rise." The article contends that there may be as many as 300,000 involuntary gas disconnections during this upcoming winter season. Already in the State of Ohio, there are more than 25,000 homes without either heat or electricity and the numbers are on the rise all over the Nation. The one-two punch of higher energy prices and reductions in Federal aid are producing misery for thousands of elderly today and will affect thousands more during the balance of the winter.

Clearly among those who will face utility cutoffs this winter will be senior citizens. I recall that in 1978 I conducted a series of national hearings of my Subcommittee on Human Services, House Select Committee on Aging. The topic was the need for the establishment of a Federal low-income energy assistance program. I learned at these hearings how senior citizens—never wanting to be delinquent in paying their bills would come up with their utility bills and then give up eating for several days to compensate. As a result of these findings, Congress was compelled to create the low-income energy assistance program.

Yet today this very program is in the horns of a dilemma. Its funding level has remained constant between this year and last—yet heating costs for almost all forms of heating have risen and demand is increasing due to the current recession.

Let us remember that this amendment is aimed at helping the absolutely poorest of our elderly citizens—those who are subsisting on SSI. These are men and women who through necessity are compelled to stretch scarce dollars in a week by week survival battle. What this amendment would do is reverse an archaic and cruel Government policy which would reduce the SSI benefit of an older person if they should receive some form of assistance from a private nonprofit organization or charity. This is wrong and we must not be a party to its ratification.

This amendment will last for the duration of the continuing appropriations bill or until March 15 of next year. I would hope that during this time period we will be able to adopt a more permanent bill to abolish this policy before it does any more harm to poor and needy seniors in our Nation.

Mr. TAUZIN. I thank the gentleman for his comments.

I want to point out that amending this act will take care of the immediate problem of the 25 utilities and many others who want to start such programs. We are going to need permanent legislation to deal with this issue.

Mr. ROSTENKOWSKI. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Illinois.

Mr. ROSTENKOWSKI. I thank the gentleman for yielding.

Mr. Chairman, I commend my colleague, the gentleman from Louisiana, for offering this temporary fix in the tax law.

Mr. Chairman, the amendment offered by my colleague from Louisiana is a temporary response to an issue under the supplemental security income (SSI) program.

Under current SSI law, any emergency aid given to an aged, blind, or disabled SSI recipient by any nonpublic organization is counted as income and therefore results in a reduction in or loss of SSI benefits. This includes, for example, emergency assistance provided by a church to help an SSI

recipient pay rent, or assistance from a utility company fuel fund to help an aged or disabled individual pay heating costs. However, if a State or local government provides this same kind of emergency aid, it is not counted under SSI.

The Tauzin amendment provides that this kind of assistance furnished by a church or other nonprofit organization, or a government-regulated entity such as a utility company, would not be considered as income under the SSI program, if the State certifies that the organization furnished the assistance on the basis of a determination of need. The amendment is in effect only for the duration of the continuing appropriations legislation before us today. A permanent resolution of this issue will require an amendment to title XVI of the Social Security Act, which is under the jurisdiction of the Committee on Ways and Means.

I am going to support the Tauzin amendment. I do not think Federal law should discourage churches and other organizations in their voluntary efforts to aid the needy in this Nation. Immediate action is necessary so that needy SSI recipients can begin to receive any emergency fuel assistance that is available to them.

I intend to encourage the chairman of our Subcommittee on Public Assistance and Unemployment Compensation, Mr. FORD, of Tennessee, to begin working on a permanent solution to this matter as soon as possible.

Mr. TAUZIN. I thank the gentleman.

Mr. WYDEN. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Oregon.

Mr. WYDEN. I thank the gentleman for yielding.

Mr. Chairman, I rise today to urge my colleagues to join Mr. TAUZIN and me in our efforts to promote the volunteer spirit and to keep senior citizens and other low-income individuals warm this winter.

As Mr. TAUZIN has explained, private utilities across the country have kicked off a fundraising drive designed to help low-income senior citizens and others pay for their fuel bills this winter. It is my understanding that the utilities have already raised $10 million for this project—and that members of the public who have been asked to contribute have responded enthusiastically.

But now this project—which is really only in its infancy—has been threatened. Instead of supporting this exciting demonstration of voluntarism—as they should be at a time when benefits are being cut across the board—Health and Human Services has proposed to strangle it.

As Mr. TAUZIN has indicated, the Secretary of Health and Human Services has decided to uphold a regional HHS ruling stipulating that any assistance received by the elderly under this project would be applied against supplemental security income and other Government benefits.

I am outraged by this decision, and I know other Americans will be too. We are talking about some of the most vulnerable people in our society. We are talking about people who are falling between the cracks—literally walking an economic tightrope on which they must balance food against fuel, and fuel against their medical care. We are talking about people who are facing the coldest months of the year with nowhere else to turn for help.

Instead of being sympathetic to these needs—and supportive of the volunteer spirit that made this country great—Health and Human Services officials have proposed to leave the elderly and the low income out in the cold.

That is not only cruel—it is hypocritical. The administration has trumpeted the value of private sector voluntarism to meet our serious social needs. And now it is proposing actions that would stifle efforts to move in that direction—actions that would discourage needy individuals from taking advantage of the volunteer program because of the fear they will be penalized for doing so.

I do not believe Americans will stand for this. Americans do not want the Government to play Scrooge to older Americans and other needy persons at this time of year. Americans want Government to support private, volunteer efforts—not stifle them.

This is not an issue that can wait to be decided until the 98th Congress convenes. We must act now if millions of older Americans are to stay warm this winter—and if the spark of voluntarism that has been ignited is to be allowed to grow into full flame.

That is why Mr. TAUZIN and I have introduced this amendment to specifically exclude such private assistance payments from counting as income in SSI-eligibility determinations. And that is why we are asking for your support.

Many of these private assistance projects, such as Project Help in my own district, are just getting off the ground. Notices are just now going out to customers and employees of the utilities asking them to help out.

Let us not nip this wonderful display of voluntarism in the bud. Let us not tell our citizens and our business community that the Government owns the candy store. Let us encourage this spirit of giving, and hope that it spreads to other aspects of our society—helping needy citizens and relieving pressures on the bloated Federal budget.

I urge my colleagues to support our amendment.

Mr. TAUZIN. I thank the gentleman for his statement and for his assistance on this worthwhile amendment.

Mr. PANETTA. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from California.

Mr. PANETTA. I thank my colleague for yielding.

Mr. Chairman, this amendment is similar to legislation that I have introduced that is before the Committee on Ways and Means. I appreciate the comments of the chairman of the Committee on Ways and Means because what we need here is permanent legislation to deal with this inequity. You cannot at one point argue for reductions in SSI benefits and at the same time urge voluntary efforts to try to fill the gap, but if there are voluntary efforts that means there is that much less in terms of SSI benefits.

We have a real contradiction as it is now being interpreted by the administration. This amendment seeks to clarify that inequity, and hopefully what we will have with the help of the chairman of the Committee on Ways and Means is permanent legislation to deal with this inequity.

Mr. TAUZIN. I thank the gentleman. I want to commend him for the work he has done on that bill and offer my personal support for a permanent correction in the law.

Ms. OAKAR. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentlewoman from Ohio.

Ms. OAKAR. I thank the gentleman for yielding.

Mr. Chairman, I just simply want to commend the gentleman and the gentleman from Oregon (Mr. WYDEN) for this very fine piece of legislation.

There are many discriminatory practices toward SSI recipients. And this would be especially ironic if we did not correct the problem with respect to our businesses who want to make a contribution to the plight of our most vulnerable people who happen to be in this case I believe the elderly and women who are heads of households.

I really want to compliment the gentleman. I hope we get unanimous support for the gentleman's amendment.

Mr. TAUZIN. I thank the gentlewoman.

Mr. GLICKMAN. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Kansas.

Mr. GLICKMAN. I thank the gentleman for yielding.

Mr. Chairman, SSI recipients are usually the poorest of the poor. This amendment corrects an inequity. If natural gas prices keep going up at their current levels, we will all be eligible for SSI and we will all need these kinds of payments.

I would encourage my colleagues not only to support the amendment by the gentleman from Louisiana, but also to support efforts to restrict the rise of prices of natural gas.

Mr. TAUZIN. I thank the gentleman. I think a good free market would do that.

Mr. McCURDY. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Oklahoma.

Mr. McCURDY. I thank the gentleman for yielding.

Mr. Chairman, I appreciate the work the gentleman has done on this amendment. I rise in support of the amendment to the continuing appropriations bill offered by my colleague, Mr. TAUZIN, which would allow supplemental security income (SSI) recipients to receive assistance from private nonprofit organizations or public utilities, to help them pay their monthly utility bills, without having their SSI benefits reduced.

SSI recipients are among our poorest and neediest citizens and with skyrocketing home heating costs, these Americans may soon be forced to choose between food and fuel. I applaud the administration's efforts to urge the private sector to assist the elderly and truly needy. In fact, nearly 25 utility companies have developed programs designed to help low-income people with their home heating bills. Unfortunately, a recent interpretation of the law by Health and Human Services Secretary Richard Schweiker will reduce SSI benefits to individuals who accept energy assistance from private nonprofit organizations or public utilities. This action will serve to discourage rather than encourage private sector assistance of our poor and elderly and push the needy closer to despair.

Mr. TAUZIN's amendment would prohibit the enforcement of this interpretation of Federal law and I urge my colleagues to join me in supporting this sensitive and humane amendment.

Mr. ECKART. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Ohio.

Mr. ECKART. I thank the gentleman for yielding.

Mr. Chairman, I, too, would like to join the previous speakers in commending the gentleman in the well for his work on this issue and rise in support of his amendment as well as the efforts of my colleagues from California.

In northern Ohio we have witnessed substantial increases in our primary heating source which is natural gas. We have also witnessed a tremendous increase in the number of voluntary organizations expressing support and concern for the elderly, disabled, and needy who are less capable of affording those increases. This is an important first step. I am convinced that the Ways and Means Committee will conduct serious hearings to make it permanent.

I commend the amendment, its sponsor, and urge its adoption.

Mr. TAUZIN. I thank the gentleman.

In one utility alone the response was 70 percent of its customers wanted the ability to check off that dollar contribution to help their neighbors in times of need. That is the American spirit I think we ought to be acknowledging today.

Mr. FORD of Tennessee. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Tennessee.

Mr. FORD of Tennessee. I thank the gentleman for yielding.

Mr. Chairman, I would like to rise in strong support of the amendment now before the House and say as chairperson of the Committee on Public Assistance we plan to look at this matter in the new session, and hopefully we can come to some resolution in making this permanent because we know that the resolution will only be for the life of the continuing resolution which we are going to adopt today hopefully.

We will take the matter up and hopefully we can make it a permanent law, that the recipients will have this when the continuing resolution ends.

Mr. TAUZIN. I thank the gentleman and salute him for that hope also. It is a hope we share.

Mr. NATCHER. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Kentucky.

Mr. NATCHER. I thank the gentleman for yielding.

Mr. Chairman, as pointed out by the chairman of the Committee on Ways and Means, this is a matter that is principally under the jurisdiction of that committee. This amendment has the substantive effect of changing the income and assets test under the supplemental security income program. It prohibits the Social Security Administration from reducing or terminating SSI benefits to disabled individuals because of assistance provided to them by nonprofit agencies. An example of this would be privately funded fuel assistance programs; that would be one instance.

The amendment is effective only during the period of this continuing resolution, as the author knows. While it is a little unusual, Mr. Chairman, for an amendment such as this to come at this time on a continuing resolution, we have no objection to the amendment, and on this side we would accept the amendment.

□ 1520

Mr. CONTE. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield.

Mr. CONTE. Mr. Chairman, I want to commend the gentleman in the well for his amendment. As one who has been vitally concerned with low income fuel assistance, I am pleased that we passed a $1.85 billion level of funding in the HHS appropriation bill here a couple weeks ago. This is a good sound amendment and the minority has no objection to it.

Mr. FRENZEL. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman.

Mr. FRENZEL. Mr. Chairman, the minority on the Ways and Means Committee, which would normally have jurisdiction over this matter, has the same feeling as that expressed by its distinguished chairman, now in the chair of this committee, particularly our ranking member, the distinguished gentleman from New York (Mr. CONABLE) who suggested this earlier and put it into the report of the Commission of Private Sector Initiatives has been a strong supporter of this amendment.

We approve of the amendment and hope that it is speedily adopted.

Mr. PEPPER. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Florida.

Mr. PEPPER. Mr. Chairman, I would like to have a brief colloquy between me and the distinguished gentleman from Kentucky. Would the gentleman yield for that purpose?

Mr. TAUZIN. I certainly yield; yes.

Mr. PEPPER. Mr. Chairman, the bill provides $542,152,000 for refugee and entrant assistance activities administered by the Department of Health and Human Services. The gentleman and members of his committee have repeatedly given assurances that it intends to fund 100 percent of eligible costs associated with these aliens. May I assume that the gentleman's committee intends to maintain its 100 percent reimbursement policy during the period covered by this resolution?

Mr. NATCHER. Mr. Chairman, will the gentleman yield to me momentarily?

Mr. TAUZIN. I yield.

Mr. NATCHER. Mr. Chairman, the distinguished gentleman from Florida, is correct.

Mr. PEPPER. I thank the gentleman.

May I ask one other question? There is considerable concern among State officials that this funding level will not be sufficient. While we are relying on the committee's judgment to determine these levels, can the gentleman assure me that should this appropriation not be sufficient to cover 100 percent of eligible refugee and entrant costs, the gentleman's committee will

seek a supplemental appropriation to fund the balance.

Mr. NATCHER. Mr. Chairman, as the gentleman in the well knows, we have always followed matter concerning the refugee money carefully. This is a right important matter, not only for the gentleman's State, but for all the States on the east and west coast. The gentleman is correct.

Mr. PEPPER. Mr. Chairman, I thank the gentleman very much.

Mr. MILLER of Ohio. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Ohio.

Mr. MILLER of Ohio. Mr. Chairman, I thank the gentleman for yielding.

I have one question. I know in the gentleman's amendment he is saying that the SSI recipient would be receiving some funds from nonprofit organizations.

Now, the Federal Government certainly is not for profit with a $1 trillion debt, but we do have the low income energy assistance program. Now, if people are receiving some assistance from that program, will that change their SSI?

Mr. TAUZIN. No; the SSI payments are not reduced currently with any contribution from Federal, State, or local governments.

The CHAIRMAN. The time of the gentleman from Louisiana (Mr. TAUZIN) has expired.

Is there any opposition to the amendment?

If not, the question is on the amendment offered by the gentleman from Louisiana (Mr. TAUZIN).

The amendment was agreed to.

The CHAIRMAN. Pursuant to the rule, the gentleman from California (Mr. FAZIO) is recognized for 15 minutes to offer an amendment and a Member opposed will be recognized for 15 minutes.

The Chair recognizes the gentleman from California (Mr. FAZIO).

AMENDMENT OFFERED BY MR. FAZIO

Mr. FAZIO. Mr. Chairman, I offer an amendment made in order by the rule and duly printed in the RECORD of December 13, 1982.

The CHAIRMAN. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. FAZIO: On page 27, after line 9, insert the following:

SEC. 129. (a) Section 101(e) of Public Law 97-276 is amended by striking out "December 17, 1982," and inserting "September 30, 1983,".

(b) In lieu of payment of salary increases of up to 27.2 percent as authorized by law for senior executive, judicial, and legislative positions (including Members of Congress), it is the purpose of this section to limit such increases to 15 percent. Notwithstanding the provisions of section 306 of S. 2939 made applicable by subsection (a) of this section, nothing in subsection (a) shall (or shall be construed to) require that the rate of salary or pay payable to any individual for or on account of services performed after December 17, 1982, be limited to an amount less than the rate (or maximum rate, if higher) of salary or pay payable as of such date for the position involved increased by 15 percent and rounded in accordance with 5 U.S.C. 5318.

(c) Nothing in this section shall be construed as specifically authorizing the obligation or expenditure of funds for salary increases for positions subject to section 140 of Public Law 97-92.

Mr. FAZIO. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, it is that time again. We seem to so regularly face the most momentous and difficult decision that we have to make during any session of Congress and that is the issue of whether or not we are going to compensate ourselves at a higher rate of pay. It is never a good time to do it and, obviously, right now we face a very high rate of unemployment; but as I look back at the way we behaved in regard to this issue in the recent past, I find we have found many other excuses not to deal with it, not to take it up front and not to discuss it even with ourselves and our constituents.

We have always found that perhaps this is not the right time because we had not reduced taxes or perhaps because we had reduced subsidies or someone's entitlement. Perhaps we complain that it is an election year. We can find numerous excuses as to why we should not deal with it; but I think it is time that we focus to some degree on perhaps what we have done to ourselves in the process of not facing up to the impact that our lack of forthright decisionmaking has had on us as individuals.

I would like to use these charts to indicate to the Members, and perhaps to our constituents, what has happened to Members of Congress as compared to other people in our society, other occupational groups during the last decade. Certainly in terms of our purchasing power, we have lost far more than any other group in our society. White collar workers have over the last decade lost some 9 percent of their purchasing power as of 10 years ago. Members of Congress have lost four times that, 36 percent of our purchasing power.

There are a number of managerial groups in our society: Banking, retailing, and the aerospace industry, where people have had absolute gains despite the inflation that we have been wracked with over the last decade, gains in their purchasing power. Why is that? Because if we look at the salary increases that various classes of workers and types of managers have received, we find that Members of Congress have been far behind.

The cost of living has gone up over the last decade over 125 percent. Members of Congress have had a pay increase of 42.7 percent, far below every other class that we can compare with.

Production workers and white-collar workers have done far better on the average.

Now, we are not asking to be compared, we are not asking to receive the same level of compensation as our constituents, but I think it is important that we provide for some adjustment. We have in the last 5 years failed to take some 27 percent of the 32½ percent which Federal workers have been given.

It is important to realize that my amendment will reduce the amount that is due for cost-of-living adjustment—the 27 percent. The bill before us would provide a $77,300 salary; my amendment would reduce that to $69,800.

What I hope we do today is to take back some of that 27 percent and then begin in the future to take whatever we think we can afford to pay our white-collar workers. They are an important element in this, because there are some 32,000 of them who have been impacted by our frustration, by what some would term our vindictiveness, by our decision to make the imposition of a pay cap almost an annual affair.

I think it is important to point out that a number of people who are concerned about how this body operates have taken a look at our behavior and have urged us in recent days to do something about it, not just because of the impact is will have on those of us as individuals who have a need for additional compensation, but because it is hurting this institution. We demean ourselves in the manner in which we handle it. In addition, because it is importantly hurting the managers of the Federal Government that we rely on to run the programs that we regularly appropriate funds for, we do the people of this country a lot of harm by denying them a fair wage.

We have had the United Auto-workers, the Business Round Table, the AFL-CIO, the National Association of Manufacturers, the National Association of Realtors, Common Cause, and many other commentators and analysts say, "Congress, give yourself a modest increase." The Washington Post and the New York Times added their support this morning.

I think it is important to point out that one of the reasons we have not had an increase is because there is an increasing reliance on outside income to provide a replacement for it. Members of the other body, no longer governed by any rule, are able to take outside income from honorariums that now we know range well over $50,000. There will be in this year, when the maximum allowable honorarium has gone to $2,000, many Members of the other body who will probably equalize their pay in outside income.

I do not think our constituents are aware of why they have an interest in our voting for pay raises, that in terms of real dollars after the 50-percent tax bracket is applied, amount to less than some Members can earn in one single honorarium.

□ 1530

So I think it is time for us to focus a little bit of our attention on trying to provide some information to the people who will judge us by our actions.

We have only had 10 pay raises in the history of the House of Representatives, and yet there are those who assume we get one once a year. In fact, I do not understand where these free haircuts that someone talked about come from. I pay at least $8.50 for one in the Rayburn Building, when I do not tip.

I understand my constituents feel very deeply about the need to keep us equivalent, and they ask me regularly, "Why don't you just take the cost of living or what Federal workers get?" I have to tell them we fail to do that year after year because we are afraid of their reaction.

Today we are lagging some 57.5 percent behind the cost-of-living index based on the increase from 1977 to the present which has been 62½ percent. We had a 5.5-percent raise to compensate for that 62.5 percent inflation. If we go back to 1969, the cost of living has gone up 171 percent since then and we have lagged 130 percent behind.

I think on the merits, the case is there. I hope people appreciate the fact at this time we have used the upfront, direct approach. There can be no process argument against our behavior in this body. We have responded to our critics who always oppose us because of our approach.

Mr. Chairman, for the benefit of the Members and the public, under leave which I have obtained, I would like to insert several graphs, tables, and other source material which amplify what I have said.

EXPLANATION OF THE FAZIO AMENDMENT

This amendment partially lifts the freeze which is currently applied to the salaries of approximately 32,000 senior-level Federal employees and officials. As it has been reported to the House, House Joint Resolution 631 contains no pay cap; thus, unless reduced, these salaries would go to their statutory rates which, in some cases, would result in a 27-percent salary increase. The amendment reimposes a salary cap on these senior-level employees, but provides that a 15-percent cost-of-living adjustment may be given, in lieu of the 27.2 percent due to the most senior people. This equates to less than the increase given to all other employees during the 96th Congress, and none of the increases given to all other employees during the 97th Congress.

The first paragraph restores the current pay cap on senior-level people as it was approved in the first continuing resolution. The second paragraph partially lifts the cap and provides an increase up to 15 percent, based on cost-of-living adjustments already provided to other Federal employees under title 5 of the United States Code. A rounding rule is also included. The third paragraph provides that there shall be no adjustment for those positions covered by section 140 of Public Law 97-92.

SENIOR LEVEL SALARIES

[Capped, uncapped, and partially capped rates]

Executive schedule	Current salary (Capped)	Under the continuing resolution (H.J. Res. 631) legal salary (Uncapped)	Under the Fazio amendment (Partial cap)
Level I (includes Cabinet)	$69,630.00	$88,600	$80,100
Level II (includes Members)	60,662.50	77,300	69,800
Level III	59,500.00	70,500	68,400
Level IV	58,500.00	67,200	[1] 67,200
Level V	57,500.00	63,800	[1] 63,800

[1] The salaries for these positions would be at their legal rates.

Note.—In addition to the approximately 1,700 covered by the executive level rates enumerated above, the salaries of an additional 30,500 Senior Executive Service and other senior-level general schedule or comparable employees have been capped. If the cap is removed, most of these salaries would be adjusted identical with the Level V adjustment.

TITLE: PERCENTAGES OF SALARY INCREASES FOR MEMBERS OF CONGRESS AND SELECTED OCCUPATIONS COMPARED WITH COST-OF-LIVING INCREASES

Category	Years spanned	Percent increase
CPI (cost of living)	1971–81	124.6
Executives:		
Aerospace	1971–81	1,000.1
Retailing	1971–81	161.2
Banking	1971–81	127.5
Advertising	1971–81	94.6
Production workers	1969–82	158.4
White collar	1969–82	155.0
Members	1971–81	42.7

Data to be presented in this order from left to right of graph. Years spanned to appear under bar for each occupation. All bars blue except Members. Members bar red.

[Note.—Graphs not printed in RECORD.]

Changes in purchasing power of Members of Congress and selected other occupations, 1971–81

Category	*Percent loss or gain*
Executives:	
Aerospace	+389.8
Retail	+16.3
Banking	+1.3
Advertising	−13.0
Production workers	−10.7
White collar	−9.0
Members of Congress	−36.0

KEY INDICATORS

[Percent changes since]

	1969	1977
CPI	171.6	62.5
Hourly earnings index	167.3	54.2
Average general schedule	138.0	43.5
Members of Congress	42.7	5.5

COMPARISON CHART OVER PAST 5 YEARS

[In percent]

	CPI	Federal employees	Private (Census Bureau)		Congressional pay increases
			White collar	Blue collar	
1978	9.8	5.5	6.6	9.2	0
1979	13.3	7.02	9.3	7.8	5.5
1980	12.4	9.11	7.5	7.8	0
1981	8.9	4.8	8.7	7.9	0
1982	6.97	4.0	9.5	7.2	0

Note.—Members salaries under various formulas since 1977: (1) If adjusted by Federal wage increases since 1977 = $82,995.19. (2) If adjusted by CPI since 1977 = $99,235.57. (3) If adjusted by average private sector wage increases since 1977 = $89–979.18.

Members salaries under various formulas since 1970: (1) If adjusted by Federal wage increases since 1970 = $92,675.52. (2) If adjusted by CPI since 1970 = $113,252.74. (3) If adjusted by average private sector wage increases since 1970 = $101,781.44.

Members actual salaries: (1) 1977—$57,500. (2) 1979—$60,662.50. (3) 1982—$60,662.50.

Year	Salary level for Members of Congress	Percent of adjustment in salaries	Percent of Federal employee pay adjustment	CPI	Percent of private sector wage increases	Quadrennial Commission recommendation	President's recommendation based on Quadrennial Commission
1970	$42,500.00	0	6	5.5	4.6		
1971	42,500.00	0	5.96	3.4	6.2		
1972	42,500.00	0	10.64	3.4	7.5		
1973	42,500.00	0	4.77	8.8	6.2	$53,500	
1974	42,500.00	0	5.52	12.2	6.4		[1] $52,800
1975	44,600.00	5.0	5	7.0	5.7		
1976	44,600.00	0	5.17	4.8	7.3	57,500	
1977	57,500.00	29.0	7.05	6.8	7.7		57,500
1978	57,500.00	0	5.5	9.8	7.8		
1979	60,662.50	5.5	7.02	13.3	8.0		
1980	60,662.50	0	9.11	12.4	6.9	85,000	
1981	60,662.50	0	4.8	8.9	8.6		70,900
1982	60,662.50	0	4	6.97	7.5		

[1] Over 3 years.

Note.—Members' salaries under various formulas: $82,995.19 if adjusted by Federal wage increases since 1977. $99,235.57 if adjusted by CPI since 1977. $89,979.18 if adjusted by average private sector wage increases since 1977. $92,675.52 if adjusted by Federal wage increases since 1970. $113,252.74 if adjusted by CPI since 1970. $101,781.44 if adjusted by average private sector wage increases since 1970.

[3] Scheduled salary rate listed is the maximum rate allowed by law for these positions. The actual scheduled salary rate may be higher or lower for some positions.

COMPTROLLER GENERAL
OF THE UNITED STATES,
Washington, D.C., December 10, 1982.

B-210039.

Hon. VIC FAZIO,
Chairman, Subcommittee on Legislative Branch, Committee on Appropriations, House of Representatives

DEAR MR. CHAIRMAN: On November 29, 1982, you asked for our decision on the exact effect of section 130(c) of the Act of October 1, 1981, Public Law 97-51, 95 Stat. 958, 966, should the Congress fail to enact a continuation of the pay cap as imposed until December 17, 1982, by section 101(e) of the Act of October 2, 1982, Public Law 97-276, 96 Stat. 1186, 1189.

Section 130(c) makes a permanent appropriation "for 'Compensation of Members' * * * as authorized by law and at such level recommended by the President for Federal employees for that fiscal year * * *." That section also provides: "such sums when paid shall be in lieu of any sums accrued in prior years but not paid."

Funds are thus appropriated by section 130(c) to pay Members' pay as otherwise authorized by law, but that section does not modify the legal rates of pay prescribed for Members. The provision that payments made from that appropriation will be in lieu of sums accrued and not paid has the effect of voiding claims of Members for backpay—pay which was not paid in prior years by virtue of appropriation pay limitations.

In keeping with that analysis of section 130(c) we find that, under the provisions of statutory law, the scheduled rate of pay for Members is now $77,300.[1] Appropriated funds have been denied to pay Members more than $60,662.50,[1] but that appropriation limitation expires December 17, 1982. If the appropriation limitation expires and a limitation is not otherwise enacted, the pay of Members will automatically increase to the $77,300 rate authorized by law. In terms of section 103(c) this rate is derived from the $74,300 rate which was in effect during fiscal year 1982 as increased by 4 percent, which was the level of increase recommended by the President for Federal employees for fiscal year 1983.

The legal rates of pay for Members are derived from the application of the Act of December 16, 1967, Public Law 90-206, Title II, 81 Stat. 42, as amended, 2 U.S.C. 351-361 and the provisions of the 1975 comparability increase legislation. The Act of August 9, 1975, Public Law 94-82, Title II, 89 Stat. 421, 2 U.S.C. 31. The appropriation limitations which have kept the pay of Members at $60,662.50 have not changed the provisions of those statutes. They have withheld a part of the pay otherwise due under the applicable provisions of law, but the appropriation limitations do not alter the statutory rates otherwise prescribed. See *United States* v. *Will*, 449 U.S. 200 (1980).

The language "such sums when paid shall be in lieu of any sums accrued in prior years but not paid" was included on the premise that absent that provision there would have remained an open question as to the liability of the Government on claims for backpay of Members once the appropriation pay restriction was removed. The inclusion of the provision resolves the issue and voids claims of Members for backpay. In arriving at this result we have considered not only the language of section 130(c) but also its legislative history, including the debates in the House and Senate.

Accordingly, we find that if the pay cap language is not retained after December 17, 1982, the pay of Members will automatically increase to $77,300, unless some other provision of law is enacted to prevent that result.

[1] We have used the figures $77,300 and $60,662.50 in this letter as a matter of convenience. We recognize that those rates apply to Members generally but that higher rates of pay apply to the President Pro Tempore of the Senate, the Majority and Minority Leaders of the House and Senate and the Speaker of the House.

The impact figures which you requested will be submitted to you by separate letter.

Sincerely yours,

CHARLES A. BOWSHER,
Comptroller General of the United States.

AMERICAN FEDERATION OF LABOR AND CONGRESS OF INDUSTRIAL ORGANIZATIONS,
Washington, D.C., December 14, 1982.

DEAR REPRESENTATIVE: The AFL-CIO believes that members of Congress are deserving of a pay adjustment and should have the opportunity to vote for or against such a proposal during consideration of the continuing resolution. When H.J. Res. 631 comes to the House floor this week, the AFL-CIO urges members to vote against reimposing the pay ceiling and for recoupment of the real wage loss members have experienced over the past several years.

In 1980 a federal pay commission stated, "The purchasing power of congressional salaries is reaching the point that it may deter from seeking office those who must support themselves and their families on salary alone." The AFL-CIO is concerned that the extraordinary expenses of serving in the U.S. Congress may make the job prohibitively expensive for many otherwise qualified persons and may result in candidates for Congress coming from and increasingly narrow stratum of our society.

In 1980 the Commission on Executive, Legislative and Judicial Salaries recommended that congressional salaries be increased to $85,000. President Carter reduced that recommendation to $70,853 before forwarding it on to Congress with his endorsement. In 1982 congressional salaries are still capped at $60,662.50.

Not only is the pay cap creating a genuine hardship on many members serving in the Congress, but top-level government jobs are also capped and therefore often insufficiently attractive to the most highly qualified potential applicants.

The AFL-CIO urges the Congress to abide by the 1975 law which coupled congressional pay raises with federal white-collar pay raises and to vote down the reimposition of the pay cap.

Sincerely,

RAY DENISON,
Director,
Department of Legislation.

NATIONAL ASSOCIATION OF MANUFACTURERS,
Washington, D.C., December 14, 1982.

DEAR CONGRESSMAN: Today, the House will be asked to consider the issue of pay raises for the Legislative and Executive Branches. Under the continuing resolution which expires on December 17, the cap limiting Congressional salaries and those of senior Executive Branch officials will expire.

The National Association of Manufacturers believes that an increase in salaries for both the Congressional and senior officials in the Executive Branch is warranted. We are aware that "options" range from 4 to 27 percent for Members of Congress with a similar range for the Executive Branch. While we believe a salary adjustment is warranted in both cases, we would urge that the Congress identify a specific increase within the range of options for its members.

While Congressional pay scales have for all practical purposes been frozen since 1977, we believe that selecting the high end of the range is inappropriate, particularly in view of the nation's current high unemployment and large budget deficits. We believe, however, that an increase of a lesser and more reasonable amount is both warranted and would be acceptable to the nation's citizens.

We trust the Congress will exercise wisdom and political courage when this measure is brought up for debate and resolution.

With kind regards,

Sincerely,

JERRY J. JASINOWSKI,
Senior Vice President and Chief Economist.

THE BUSINESS ROUNDTABLE,
Washington, D.C., December 14, 1982.

DEAR REPRESENTATIVE: The House and Senate will be faced again with the politically difficult question of a Congressional pay raise. The Business Roundtable supports appropriate pay increases for Members of Congress as well as for officials in the Executive and Judicial branches.

Since 1977, the Consumer Price Index has increased by 62.5 percent, while Members have only received one raise of 5.5 percent in 1979. A recent report by the Commission on Executive, Legislative and Judicial Salaries stated that "in 1969 dollars, the purchasing power of salaries for Members of Congress has declined to $25,800."

The Business Roundtable has testified in the past in support of pay increases for the legislative, executive, and judicial branches of government. We urge you and your colleagues to vote in support of a pay raise this week which we believe is in the public interest.

Sincerely,

JOHN POST,
Executive Director.

COMMON CAUSE,
Washington, D.C., December 10, 1982.

DEAR REPRESENTATIVE: The House and Senate will soon once again be faced with the extremely important but politically difficult question of what to do about congressional pay. Common Cause strongly supports appropriate pay increases for Members of Congress as well as for officials in the Executive and Judicial branches.

We recognize that this is a particularly difficult issue at this time because of the severe economic conditions in the country. Unfortunately, however, there never seems to be a right time for increasing congressional pay.

Since 1969, according to the Joint Economic Committee, the Consumer Price Index (CPI) has risen 168 percent. Pay for Members of Congress during this same period has risen 43 percent (from $42,500 to $60,662). This has resulted in congressional pay over the last thirteen years running 125 percent behind inflation. Since 1977 the CPI has increased 62 percent while Members of Congress have received only one of 5.5 percent—in 1979. The report of the Commission on Executive, Legislative and Judicial Salaries pointed out in 1980 that "in 1969 dollars, the purchasing power of salaries for Members of Congress has declined to $25,800."

Because congressional pay winds up linked with other government salaries, the inability to deal rationally with this issue has had a negative impact on the Executive and Judicial branches as well.

As an organization Common Cause has opposed backdoor means of enhancing congressional salaries that increase conflicts of interest and inequitably use the tax code. Common Cause worked against lifting the limits on honoraria and other outside income and for repeal of the special congressional tax break. But we also strongly believe that Members should be appropriately compensated through their congressional salaries.

Obviously $60,662 does not represent a marginal annual income. But it is far below the salaries of those in top level positions in major corporations and law firms and many other enterprises in the private sector. In addition, a study conducted for the 1980 Pay Commission showed that between 1969 and 1980 private sector executives with "responsibilities roughly comparable to those of top federal executives" received salary increases of more than 116 percent.

There are clearly other rewards in congressional service that are not monetary in nature and certainly no one expects that government salaries will or should be directly comparable with the private sector. But Members of Congress have been chosen by the people as our national leaders to make the public policy decisions that will affect the direction of our country and the lives of all Americans. It is essential that they be adequately and fairly compensated. Members should not be expected to see congressional pay in real in real dollars decline year after year.

Many Members have independent wealth or other major sources of additional income while others—a majority in the House of Representatives—basically live on their congressional salaries. We urge those Members who have independent financial resources to think long and hard about denying their colleagues pay increases to which they are clearly entitled and which are in the public's best interest.

We understand this is a very difficult issue politically and that the temptation is there to reject any efforts at increasing congressional pay. We strongly urge you, however, to resist this temptation and to support an appropriate pay raise for Members of Congress.

Sincerely,

FRED WERTHEIMER,
President.

At this time, Mr. Chairman, I would like to yield to my good friend and colleague from California, the ranking member of the subcommittee which I chair, Mr. BURGENER.

Mr. BURGENER. I thank the gentleman for yielding.

Mr. Chairman, I strongly support adequate pay for adequate work. We ought not to be talking today about what is good for Members of Congress; we ought to talk about what is good for the public.

How will the public interest best be served? I submit it will be best served if we build and strengthen this Congress and if we build and strengthen the executive branch. I maintain that good pay is essential to good government.

Unfortunately, the Senior Executive Service in the executive branch of Government is tied to congressional pay. I think they ought not to be. I think they never should have been, but they are. I submit that because of that, bad pay is leading to bad government.

Let me give you some evidence. The Navy just conducted a study of the Senior Executive Service. They now have an average of 4½ years of experience on the job. Prior to these pay caps, they had 7½ years of experience on the job. That is bad, and we are driving people to early retirement when they are still productive.

What happens to the public interest? What happens to the taxpayers when we do that?

First of all, we start paying them retirement with annual cost-of-living adjustments attached that the private sector does not have. Their retirement pay begins to escalate over the years. Then we hire a replacement for the early retirees. Now we have in effect, two salaries to pay. Does that serve the public interest? It does not.

Every year we procrastinate and every year we fail to address this issue and we drive good people out of Government. We drive them out of the House, we drive them out of the executive branch at great cost to the public.

I would vote aye. There are about three options available to us today. We can reimpose the cap and stay where we are, with a pay cap, not a good action for the public interest.

We can take the full raise or we can take some intermediate position.

In the interest of success, I guess, I would personally choose the intermediate position, but I would certainly vote for the full raise if that were the only option.

In an effort to get help, we created the Commission on Executive, Legislative and Judicial Salaries to take the onus off of us and in an effort to remove it from this arena. What did the Commission do in 1980? They reported and recommended that we be paid $85,000 a year. President Carter, after careful consideration, reduced that recommendation. He had every right to do that. He reduced it to $70,830. That was his recommendation and we still failed. We rejected it.

The Washington Post today said no one should get rich from this job. I do not know of anyone who has. But they further said no one should get poor from it, either.

Honorariums are a poor substitute for adequate pay. They are fraught with conflicts of interest. They are dangerous and they are not in the public interest. I have suggested in past messages on this floor that if we continue to neglect adequate pay for this body, we are going to end up with two kinds of people in this House: a combination of millionaires and ne'er-do-wells, and once in a while you get them in the same package.

Let us think of the public interest. Let us build a better House and a better Government. Let us face it head on with a recorded vote, and vote for better Government.

Mr. FAZIO. I thank the gentleman for his comments.

The CHAIRMAN. The gentleman from California (Mr. FAZIO) has consumed 11 minutes.

Mr. FAZIO. Mr. Chairman, I yield 2 minutes to the gentlewoman from New Jersey (Mrs. FENWICK).

Mrs. FENWICK. I thank my colleague for yielding.

Mr. Chairman, I rise in hearty support of this amendment. I am leaving the Congress. It will have nothing to do with me, but I tell you, my colleagues, I have watched and I have listened to my colleagues, and we cannot go on like this.

One after another of my colleagues, independent of this amendment or any other chance of raising their salaries, have told me that they are digging into their life savings in order to stay here. When you are one of a two-earner couple, it is very different and I plead with my colleagues who are married to a good businesswoman or a good lawyer or a good businessman not to take that as an excuse and say, "Well, we can live perfectly well on what we have."

There are many people who are married to someone who does not work, who have children, trying to maintain a mortgage on their home in the district, pay rent here, and pay dentists bills. We have lost good people in this House.

The turn foreman from Armco Steel came down here. Why did he go home? Because he simply could not pay the bills on what we were paying him. He had a wife and children who were miles out in the country where he could afford housing for them.

We cannot go on like this. We are not doing the right thing. People have seen me on this floor. I have objected to any backdoor effort to raise benefits for Members of Congress, but I feel that the public must support us in a responsible, open, and honest way of arriving at something that must be done in the public interest, and I hope very much my colleagues will vote for this amendment.

Mr. FAZIO. I thank the gentlewoman.

● Mr. DERWINSKI. Mr. Chairman, the issue of Government pay rates is one of the most crucial and misunderstood issues facing Congress. As the senior Republican on the Post Office and Civil Service Committee, I have been in the position, year after year, of seeing this issue overemphasized by the media or ignored by Members.

The truth is that a detailed review of existing Government compensation laws—salary, retirement, and fringe benefits—would calm the popular indignation against pay raises, starting with the most basic fallacy of all: that taxpayers are saving money in the long run by denying top Federal employees and Members salaries which are competitive with their private sector counterparts.

It does not take an actuarial genius to figure out why more and more of our top level Federal employees are leaving Government at the earliest opportunity to pursue more lucrative careers in private enterprise. It should be very apparent that it is costing the public more to fund retirement annuities and cost-of-living increases in retirement income than it would cost us to keep top Government managers in active employment at higher pay.

Furthermore, the more salaries are compressed, the less incentive there is for top managers to assume additional responsibilities.

We cannot continue this foolish practice if we want the Federal Government to function in an effective and efficient manner. However broad or narrow you feel the Government's role should be, you are not solving the problem, making no real savings, and frankly, making no sense by refusing to adjust the salary ceiling.

In 1978, we passed the landmark Civil Service Reform Act of 1978. The centerpiece of that legislation was the creation of a Senior Executive Service with tenure conditioned more on performance than seniority. The response to that provision of the new law was encouraging, but all of the promised incentives for enlisting in the SES have not materialized because riders to certain appropriations have restricted funds and reduced the opportunities for proper compensation. It has been a somewhat discouraging development not only for top Federal managers but for those of us whose committees are responsible for stemming the brain drain which is threatening the civil service systems from the top.

Federal salaries have to be competitive if we are to retain our talented and experienced executives. Service in top Government positions offers a nationwide forum for talent. It would be a tragedy if executives in the private sector were discouraged from this forum because they had children in college or because they could not maintain the fruits of their hard-earned success on Government salaries.

Recruiters for both present and past administrations will tell you it is becoming increasingly difficult to attract competent persons to top Government positions because of the salary levels.

We have another opportunity here today to reverse an illogical trend and in the process make it possible for the Government to attract the type of expert, qualified personnel who will assist in making the Government responsible and responsive to the taxpayers.●

● Mr. SENSENBRENNER. Mr. Chairman, I would like to go on record at this time as being opposed to a pay increase in congressional salaries. While I applaud the committee's action in forcing an open and direct vote on the floor on this issue, I think it is irresponsible to bring the matter up in this manner. The amendment offered by Mr. FAZIO permits a situation where Members can vote themselves an increase by voting either yes or no on the amendment. A yes vote would mean a 15-percent increase where a no vote would mean a 27-percent increase. While I oppose this way of handling the issue, I will vote for a reduced level of increase.

Shortly, Mr Speaker, there will be another amendment offered by Mr. TRAXLER, to replace the pay cap on Members of Congress salaries. This is the kind of action which is responsible and will show the American people that Congress is really serious about sharing the economic burdens equally. It will also show that we, as their elected Representatives, are willing to share in the sacrifices needed to get our economy back on the right track.●

● Mrs. SCHNEIDER. Mr. Chairman, I intend to vote for the Fazio amendment to the continuing resolution, and I urge my colleagues to as well, but not for the reason that he offers it. Mr. Chairman, I cannot support a pay increase for Members during a time of such economic stress. My motive in supporting the Fazio amendment is to limit the amount granted in the bill in the unlikely and unfortunate case that the Traxler amendment fails. The Traxler amendment, which would retain the present cap on Members' salaries, is the appropriate approach at this time. We are sending the wrong signal to the country if we vote ourselves a raise at a time when the deficit is so large and so many people are out of work, not to mention during a lameduck session fully 2 years from the next election.

Legislation I have cosponsored calls for open, unambiguous votes on Members' compensation, and would insure that no increase is actually made without an intervening election. I urge the committee and my colleagues to accept this commonsense approach.●

The CHAIRMAN. Is there further debate on the amendment?

The question is on the amendment offered by the gentleman from California (Mr. FAZIO).

The question was taken; and the Chairman announced that the ayes appeared to have it.

RECORDED VOTE

Mr. FAZIO. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 303, noes 109, not voting 21, as follows:

[Roll No. 445]

□ 1550

Messrs. SILJANDER, FIELDS, BROWN of Colorado, ARCHER, LAGOMARSINO, and McEWEN changed their votes from "aye" to "no."

Messrs. WILLIAMS of Ohio, LONG of Maryland, DUNN, PHILIP M. CRANE, and DANIEL B. CRANE, and Ms. MIKULSKI changed their votes from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. TRAXLER

Mr. TRAXLER. Mr. Chairman, I offer an amendment which has been in order by the rule and duly printed in the RECORD. It is amendment No. 1.

The Clerk read as follows:

Amendment offered by Mr. TRAXLER: On page 27, after line 9, strike out the section added to the resolution by the amendment offered by Mr. Fazio, and insert in lieu thereof the following:

SEC. 129. Section 101(e) of Public Law 97-276 is amended by striking out "December 17, 1982," and inserting in lieu thereof "March 15, 1983,".

The CHAIRMAN. Pursuant to the rule, the gentleman from Michigan (Mr. TRAXLER) will be recognized for 15 minutes, and a Member opposed to the amendment will be recognized for 15 minutes.

The Chair recognizes the gentleman from Michigan (Mr. TRAXLER).

Mr. TRAXLER. Mr. Chairman, we have an issue with which we are all familiar. We have been around this track a number of times.

I am aware of the arguments in favor of a congressional pay raise, as well as for executive staff and for the judges and the President. I am not unmindful of the fact that the Congress has run about 125 percent behind the inflation rate since 1969. I am aware that since 1977 the Consumer Price Index has increased some 62 percent while the salaries of the President and members of the Judiciary and the Congress have increased 5½ percent. Furthermore, I also know that there are prominent and very worthwhile organizations and media, such as Common Cause, the Washington Post, and the New York Times, and others, that support some reasonable approach to salaries. But I am compelled, in view of the dire economic circumstances in my State, 17 percent unemployed, to offer this amendment and to plead with the Members to recognize that while the need may be there, the time is not here. The timing is very poor, and I would urge this body to defer the issue until the economy has made a recovery and keep faith with the less fortunate than we are, the unemployed in my State and in this Nation. Please cast your vote for my amendment which keeps the present cap, thus allowing no raise for the President, Federal judges, executive personnel, and Members of Congress.

Mr. VOLKMER. Mr. Chairman, will the gentleman yield?

Mr. TRAXLER. I yield to the gentleman from Missouri.

Mr. VOLKMER. Mr. Chairman, I would just like to echo the remarks of the gentleman from Michigan (Mr. TRAXLER) and rise in support of the amendment.

Mr. Chairman, I rise to state my total opposition to any pay increase for Members of Congress. I opposed the Fazio amendment to stress this point. The intent of the amendment was to increase the amount of the pay for Members of Congress by approximately $9,000.

Mr. Chairman, I remind my colleagues that our country is in a very serious depression, only surpassed by the Great Depression. Twelve million Americans are out of work, and heat-

ing costs are making millions of Americans, especially the poor and elderly face the decision of having adequate heat or adequate food. I cannot with good conscience even consider increasing the pay for Members of Congress with these problems facing my constituents. I am sure most of you have similar situations in your district.

Mr. Chairman, I urge my colleagues to think very seriously about the impact of increasing pay at a time when our country and its people are fighting to survive. I say to you that it will be a positive sign that we are aware of the problems and are willing to lead the way toward economic recovery if we do not increase pay for Members of Congress.

Mr. Chairman, I support the Traxler amendment to continue the pay cap and will vote in that manner.

Mr. HILLIS. Mr. Chairman, will the gentleman yield?

Mr. TRAXLER. I am pleased to yield to my distinguished colleague, the gentleman from Indiana.

Mr. HILLIS. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I find myself in a difficult position. I recognize, as the gentleman has stated, the equity in the case for a congressional pay raise. But I join with the gentleman in questioning the timing of a pay raise at this particular time.

There are two serious problems, it seems to me. First of all, there is no good time for a pay raise. We have all experienced that before, and I have voted for them and I have voted against them. But at this particular time I think it does two things. First of all we have a tremendous rate of unemployment, 10.8 percent, a record rate since the Depression years of 40 years ago.

□ 1600

Many, many people in addition to that are teetering on the edge of losing their business or losing their jobs. In view of these economic times I think that it is almost unbelievable that we sit here in Congress and raise our pay.

Second, I feel that it destroys the credibility of us with these constituents and also it undermines their public confidence in an institution such as this one, going forward in these economic times and voting ourselves this raise in our pay.

So it is with regret that I have to rise and express my opinion but certainly I think it should be considered.

I thank the gentleman for yielding.

Mr. TRAXLER. I thank my distinguished colleague for his contribution.

Mr. FAZIO. Mr. Chariman, I rise in opposition to the amendment.

At this time I yield such time as he may consume to the gentleman from South Carolina (Mr. HOLLAND).

Mr. HOLLAND. Mr. Chairman, among the issues I have confronted in my 8 years in Congress, the most volatile, the most troublesome, has been the recurring question of congressional pay. This matter sends Members searching for reasons to defy reason itself. It causes the press to literally foam at the mouth for its nature as a tasty morsel waiting to be devoured by all readers. It has generated into the congressional offices a class of mail unequaled in angry rhetoric.

How many times I have stood on the House floor to have my colleagues tell me they need the money, it is the right thing to do, but they fear the political consequences of voting for a pay raise for themselves. There are a few hearty souls who have enough political strengths and candor to support pay increases, but they do not come near a majority. I number myself among that minority, although I must confess that I have never felt comfortable with setting my own pay at the public expense. My approach has been to try to convince my constituents that they are getting their money's worth. After all, my salary amounts presently to 12 cents per constituent per year.

There is much misinformation at work upon the public mind about the cost of government generally and the Congress in particular. Recently, The State published an editorial saying that each Congressman cost the public $2.6 million. The source quoted was Tax Foundation, Inc., a Washington-based interest group of dubious repute. I called this organization and requested, several weeks ago, a copy of the study from which this figure was derived. That request was repeated last Friday, and has not yet been honored.

The fact is that the $2.6 million amount is so flagrantly false that it cannot be supported. The Tax Foundation, Inc., is a liar. The State, without any analysis or examination, republished this absurdity. The public became upset, and I don't blame anyone for being incensed. But Congress got another bad mark and its elected Members got more wary about their status as an important branch of our Government.

Another source of misinformation surrounding congressional pay is an element among the Members themselves. There is a tendency to exploit this issue for political gain. After all, we love to hear a Congressman talk about how he or she singlehandedly saved the taxpayers a bundle of money. Too many, I suppose, have gained a seat in Congress by running against and running down the institution.

The ones who make me weary are those who are independently wealthy, who should serve without pay, who always vote against pay increases, who make high-fidelity speeches opposing, and who then accept the money and put it in the bank along with their dividends, rent income, interest, and various pension payments.

As a lawyer in Camden seeking my first term in Congress, I shared the general public attitude about this matter. At that time the pay was $42,500 per year. I had never examined the higher cost of living in Washington, had no reason to wonder about the cost of maintaining two residences, one in the world's second highest real estate market, our Nation's Capital, and honestly considered that pay level to be adequate.

Soon after arriving in Washington, I discovered that one-bedroom apartments rentable in Columbia for $250 could be occupied for $800 to $1,200 a month. The first breakfast I bought myself in Washington was $8.50 (one egg, toast, coffee, bacon, no grits).

Once, we purchased a three-bedroom frame house with two baths (both indoors) on a small lot in a subdivision 8 miles down the congested freeway from the U.S. Capitol. I might mention that the neighbors were not overly friendly to a Member of Congress and none ever came over just to say, "Welcome to the old warm and friendly neighborhood." One man came by as we were moving out a year later to offer his help since we were leaving.

This house could have been purchased in South Carolina for between $30,000 and $35,000. Our bargain-basement cost: $90,000, because the owner had to make a quick sale. The annual property tax on this mansion—$1,134.

After selling the Washington residence, I became famous for sleeping in my office as a protest against the $600 to $800 rent on roach-infested, dust-filled basement apartments. My protest, however, did nothing to bring down rent in D.C. One constituent expressed pride that his Congressman was the only one who ever gained any publicity for sleeping alone.

Following my failed rent protest, Congress enacted a law allowing Members to deduct the costs of living in Washington. I then rented a one-bedroom apartment because the ability to deduct its full cost was some help. A great furor erupted in the press and the public became aroused. Congress caved in. The result: Congress looks weak-kneed and I have a tax deduction I can't take.

Next year, when I become a private citizen with a Washington apartment, I will be able to deduct the cost of even the most lavish apartment as a cost of doing business in Washington. There's something out of place when Congress would not be allowed to have equal treatment under the law.

The law that allows Congressmen to deduct $3,000 a year was enacted in 1952. Consider, also, these statistics:

Since 1969, the Consumer Price Index has risen 176 percent. Members' pay has risen from $42,500 in 1969 to $60,662.50, for a percentage increase of 42.7 percent. That is a difference of 134.3 percent.

Since 1977, the CPI has increased (1977 to Oct. 1982) by 62.5 percent. Members have only received one raise of 5.5 percent in 1979.

Since 1977, civil servants have received the following increases: 1977, 7.5 percent; 1978, 5.5 percent; 1979, 7.02 percent; 1980, 9.11 percent; 1981, 4.8 percent; 1982, 4.0 percent, total, 37.48 percent. This compares with 5.5 percent for Members.

It is a well-known fact that I have some friends in the entertainment business. One of my friends is paid $50,000 per night for two shows in which he sings songs (no dancing). Kenny Rogers, I read, made $30 million last year. The professional football players' strike obtained each player a $40,000 increase.

Now, I have nothing but admiration for these singers and athletes. However, I am not ready to turn the Government over to them. I don't think they could manage it. What we ought to do, though, is examine our priorities. I do not think we would exchange our form of representative government for any other system, and we should be prepared to pay for what we are fortunate enough to enjoy.

My retirement from Congress will enable me to provide for my children's education. Then I will reenter politics at some level. I am proud to have served my country in this way and would do it again with one exception: I would have been a much better Representative had I not suffered the worry and indignity of financial problems.

In government as in all things, we get whatever quality we pay for. I am afraid we Americans are short-changing ourselves in this area and should take on a new attitude about this matter.

Next week I will vote for a congressional pay raise again, although I am not to be affected by it. Whatever my Congressman costs me as a taxpayer is a good deal.

Mr. FAZIO. Mr. Chairman, I yield 3 minutes to the gentleman from Wisconsin (Mr. OBEY).

Mr. OBEY. Mr. Chairman, I think it is crazy for us to vote on our own pay because it is inherently a conflict of interest. But the Constitution requires it.

As the Members know, the law provides that Members of Congress are supposed to get the same amount of pay increases annually as other Federal workers. We have turned those down in 5 out of the last 6 years. The result has not been that this place is any better off or that the taxpayers are better off. The result has been that Congress has found other ways, at least some Members have found other ways (such as speaking fees from special interests or special tax breaks) to go through the back door for pay raises which are less healthy for the institution than when we do it through the front door. That hurts the integrity of the entire House.

I personally think 15 percent is too high. As the Members know, I have been arguing for a smaller figure. But anybody who believes that the 15 percent figure is too high can solve that problem by simply turning back to the Treasury the amount which they think is excessive.

Over the last 6 years, salaries in the private sector have risen 46 percent, salaries for other Federal workers have increased 37 percent. Congressional salaries have risen 5½ percent.

I simply want to say, unless you believe that Members of Congress ought never get a pay increase, that some raise is justified just as almost every other group in society has had some raise over the last 4 and 5 years.

I ask you to do that, not to vote for zero because everybody knows in this place, in their hearts, that that is not the responsible thing to do for this institution. Do what you know is right for the integrity of this institution and do it through the front door today.

I also ask that in the future you be prepared, and this is terribly important, that you be prepared to vote on an annual basis to provide the same kind of adjustment for Members of Congress that the President provides for other Federal employees so that Congress avoids large increases every 5 years or so. That in the long run serves the taxpayers best. It will help keep this place a cleaner and a more honorable institution. It will help us resist the pressure for backdoor gimmicks.

We are entitled to the same raises as other Federal employees. That is fair. Congress should not be depending upon special interests to supplement and increase congressional pay through honoraria or other tax gimmicks.

I ask my colleagues to do what is right for the long term independence of this institution and to vote against the Traxler amendment.

Mr. TRAXLER. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Texas (Mr. SAM B. HALL, JR.).

Mr. SAM B. HALL, JR. Mr. Chairman, I rise in support of the Traxler amendment. I voted in favor of the amendment that came forward a moment ago in order to get on the Record the fact that it was the lesser of the two evils to vote for that amendment.

In any event, the vote then was to increase your pay a certain amount but less than the evil we would have if we voted against that amendment.

This amendment would be to restore the cap.

Maybe some of you can justify a vote to raise your salaries. I would be the last one in the world to say maybe in some instances it might not be justified.

But in my district, the First District of Texas, I cannot go back in good faith and tell 3,500 men and women who were let off from Lone Star Steel at Lone Star, Tex., last August, who are living on a meager existence of approximately $250 every 2 weeks and maybe not that much, that it is time for me to raise my salary as a Member of this House. I cannot do that.

I do not believe, regardless of all the publicity that has come our way lately with reference to what Martin Agronsky and his people said, what Common Cause said and what others have said, that now is the time to increase our salaries.

So I respectfully request that those who are getting ready to vote to vote to extend the pay cap and leave our salaries as they are at this time.

Mr. KAZEN. Mr. Chairman, will the gentleman yield?

Mr. SAM B. HALL, JR. I yield to the gentleman from Texas.

Mr. KAZEN. I wish to associate myself with the remarks of the gentleman. I, too, support this amendment.

I made commitments to vote against a pay raise during my last campaign and I mean to keep them. I am against the pay raise and therefore will vote for the amendment.

Mr. FAZIO. Mr. Chairman, I yield 3 minutes to the chairman of the Committee on Rules, the gentleman from Missouri (Mr. BOLLING).

Mr. BOLLING. Mr. Chairman, I had not planned to speak to the House again before I retired. I had not been aware that this matter was going to come up because I had been ill for a number of weeks. I hope you recognize that I am no longer ill, that I am feeling fine.

I am feeling so fine that I am delighted to have an opportunity to take on this issue which I consider one of the most important issues that faces the Congress this or any other year.

I think our inability as an institution to deal with this issue has put us on the road to destroying the democratic process. I know that our people often think, unless they are met with honest answers, that it is ridiculous for us to think that we should be paid more than $60,000 a year.

But I have had an experience with a district in the center of the country that was always represented by a conservative with 2 years' exception over a 40-year period until I became the Representative from that district.

I have voted for every pay increase that has ever been before this institution. I have been proud of that vote

and I have taken it back to my people. Rather clever people with a good deal of financing have tried to beat me with that issue and it has never even begun to take hold.

This is something that is a test of the courage of the Members of Congress. If we have not the courage to deal with our own pay, what makes anybody think we have the courage to deal with the great issues of the world?

That is what we are responsible for dealing with.

It seems to me imperative that we defeat this proposition and stand by the one that has passed in the hands of the gentleman from California (Mr. FAZIO).

□ 1610

I do not know of anything more important than that we have the character, the courage, the guts, whatever you want to call it, to explain to our constituents why it is important for Members of Congress not to be paid what good ones are worth—they would be paid as are the great executives of great corporations—but be paid a living wage so that they do not have to be ashamed if they do not have money beyond their pay, they do not have to be ashamed of the education they give their children or the status that their wives have.

I do not think there could be a more important thing that this Congress could do than to support what it is has already supported overwhelmingly by defeating this proposition.

I urge the Members to recognize that they can face up to their constituents. I urge the Members to recognize that it is not pertinent that there are a large number of unemployed today. They would like us to have a decent pay. They would like to have decent pay for themselves.

Mr. TRAXLER. Mr. Chairman, I yield such time as she may consume to the gentlewoman from California (Ms. FIEDLER.)

Ms. FIEDLER. Mr. Chairman, I rise in support of the amendment.

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to the gentleman from Nebraska (Mr. DAUB).

Mr. DAUB. Mr. Chairman, today, the House will attempt to vote itself an increase in its own pay—and I plan to adamantly oppose this action.

At a time of high unemployment and hard times, a pay raise for Congressmen would send the wrong signal to the taxpayer and the American public.

Until the fiscal health of Government and the economy is restored, Congress does not merit an increase in its own pay.

The reason for this is clear.

The American people understand that the cost of living in Washington is high and the expense of maintaining a residence at home and in Washington is prohibitive. But they also understand that this Congress has refused over and over again to act in their best interests to bring spending under control.

As we wind up the 97th Congress, we having witnessed at best a small decrease in the rate of growth in Government spending.

I intend to vote against every attempt at an increase in congressional pay and benefits until such time as Congress respects the will of the American people to bring spending under control and restore the health and vitality to the American economy.

It is unconsionable for this body to consider an increase in its pay while the American public continues to suffer from its unwillingness to address the economic problems we face in this country.

Mr. TRAXLER. Mr. Chairman, I yield such time as she may consume to the distinguished gentlewoman from Maine (Mrs. SNOWE).

Mrs. SNOWE. Mr. Chairman, I rise in support of the Fazio amendment which places a cap on congressional pay at $69,800, thus preventing a possible 27 percent pay raise.

Since my election to Congress, I have consistently supported a pay cap whenever it has come to the floor for a vote. I urge my colleagues in the House to join with me in limiting what would otherwise be an unacceptable increase. I do not know how the figures translate to every State in our Nation, but I do know that if this amendment does not pass, the potential $17,000 pay raise would be nearly $5,000 more than the average Mainer earned during all of 1981. With nearly 11 percent of our Nation's work force out of work, to vote otherwise would be unconscionable.

I plan to support the Fazio amendment now. I will also support the Traxler amendment to cap our pay at its current level. I urge my colleagues to do likewise.

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to my distinguished colleague, the gentleman from Idaho (Mr. CRAIG).

Mr. CRAIG. Mr. Chairman, I rise in support of the amendment. Unemployment in this Nation is nearly 11 percent. In some counties in my district, it is twice that amount and more.

We have looked to every aspect of our Federal system to reduce the burden of growing Federal expenditures. We have looked for waste, cut programs and reduced Federal employment by about 100,000.

I am not saying that a raise is not deserved. There are those who perform their duties in such a manner that they deserve a great deal more than is being considered here today. But these are not the times to be raising congressional pay. We should lead this country. We should not ask the people of this Nation to "do as we say, not as we do." That is not leadership, it is hypocrisy.

A great many Members have stood before this body today and compared the salaries of Members of Congress to salaries paid to executives in private enterprise. Repeatedly, they have drawn from that comparison that Members are underpaid. Well, if we are going to liken ourselves to these executives, let us take the comparison further and compare the performance of those companies to the manner in which this Government is run. Frankly, any executive serving a company that loses $100 billion each year, would not get a raise. He would get fired.

I compliment the House for bringing this issue to the floor for a full and open vote. It was the fair and honorable thing to do. While I would agree that a discussion of equitable congressional compensation is long overdue, I cannot return home and explain how a raise at this time is justified, no matter how well deserved you might think it is. The builders in my district deserve to be building houses. The miners standing idle deserve to be in the mines working. The loggers, the farmers, the real estate agents, all deserve better compensation than they are receiving now. They cannot vote themselves a raise. They must earn it, and they will, when we earn ours and put this Nation back on its economic feet again.

Leadership begins at the top. We are facing a true test of that leadedrship now. I am in support of continuing the congressional pay cap and ask that you vote in favor of the Traxler amendment.

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to my distinguished colleague, the gentleman from Wisconsin (Mr. PETRI).

Mr. PETRI. Mr. Chairman, I rise in support of the amendment.

I have consistently supported the proposition that Congress should not vote itself a pay raise without an intervening election so that the people can decide whether or not to rehire their representatives at the new rate. Therefore, I am opposed to any congressional pay raise at this time, and if any is passed, I will donate mine to charity.

A $9,000 or $17,000 congressional pay raise under current economic conditions would be clearly excessive even if we had passed it before the election.

I do not know about your district, but in the sixth District of Wisconsin either $9,000 or $17,000 is a lot of money. Many of my constitutents would be happy to be earning $9,000, much less getting a $9,000 raise. When people are hurting in Wisconsin and all across the country due to the cur-

rent economic climate, it is unconscionable that Congress should seek to reward itself in this manner.

This raise is both untimely and excessive, and I urge my colleagues to support the amendment in order to retain the current cap on congressional pay.

Mr. TRAXLER. Mr. Chairman, I yield to the distinguished gentleman from Florida (Mr. McCOLLUM).

Mr. McCOLLUM. Mr. Chairman, I rise in support of the Traxler amendment which continues the freeze on pay for Members of Congress at the level of $60,662.50.

Certainly a good case can be made for the need to have a fair and appropriate housing allowance to offset the enormous and burdensome cost to Members who maintain homes in their districts and also have to live in Washington during session, and even an occasional cost-of-living pay increase may be justified. However, this is absolutely the worst time to be considering such matters. Estimates for the deficit next year go as high as $200 billion; the public debt of our country has accumulated to the point now that it is well in excess of $1 trillion, and the interest on this debt exceeds $100 billion a year. Unemployment is raging at a post-World War II high, and all indications are that we are a long way from a return to traditionally good economic times. All of this is due to the failure of this Congress and past Congresses to balance the budget and bring about a sound fiscal policy necessary to give us low interest rates and high employment and productivity in the private sector without runaway inflation. The public knows this, and for Congressmen to vote a pay raise for themselves under these conditions is a slap in the face to the taxpayers who sent them here.

The straightforward manner in which this matter has been presented and is being debated is commendable, but now is simply not the time to even be considering a pay increase. I strongly urge my colleagues to join me in voting for the Traxler amendment to freeze our pay at the present level.

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to my colleague on the committee, the gentleman from Maryland (Mr. LONG).

Mr. LONG of Maryland. Mr. Chairman, I rise in support of the amendment.

Although Members of Congress have not had a pay raise for 4 years and certainly deserve one, this is the wrong time to approve one. The national unemployment rate is 10.8 percent, the highest since the 1930's. Unemployment in Dundalk and Essex in my district is 20 percent—nearly twice the national average. Thousands of laid-off workers have already exhausted or are quickly running out of unemployment benefits. Many have no means at all of providing for their families; meeting their monthly home, car, and utility bills; or bringing food to the table.

In the face of these economic calamities, how can I vote for a pay raise?

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to the distinguished gentleman from Alabama (Mr. NICHOLS).

Mr. NICHOLS. Mr. Chairman, I rise in support of the amendment to remove the proposed 4-percent pay increase to Members of Congress and senior level Federal employees. Unless we act today, Members of Congress will receive pay increases when millions of our constituents cannot even find gainful employment.

The issue has been around for a long while and the arguments will be made that Members of Congress have not had much of a pay raise for quite a long time. Traditional arguments will be made pointing up that Washington is one of the Nation's most expensive cities in which to live and that a Member's salary just does not go far nowadays. Mr. Chairman, I have heard all of these arguments before and, while I am in agreement with many of the facts surrounding this issue, I must remind my colleagues that not one of us was forced to run for this job. For my part, I consider that I made a contract with my constituents to work for them in the Congress for the next 2 years at the current pay scale.

In the past few weeks our offices in Alabama and my office here in Washington have received considerable mail on this subject. I believe it would be fair to say that the tone of all of these letters is virtually unanimous. My people are opposed to a pay raise and rightfully so. Unemployment in my State of Alabama today is the highest of any State in the Nation and many of those employed are on the short-time 3-day work weeks and some are working a week on and a week off. There is a real squeeze on many families in my district to put food on the table and it will be a lean Christmas in many homes in my district.

At a time, Mr. Chairman, when virtually every segment of the economy is feeling a pinch in the purse strings, I must say to my colleagues that the larger increase being suggested is completely asinine and, even the smaller figure, the 4-percent increase, which in many Members' minds is acceptable, in my judgment, would be sending the wrong signal to thousands of Americans who are being asked to accept short-time layoffs and curtailment of salary increases in these severe economic times.

This Member of Congress opposed the congressional salary increase back in 1977 and I also voted against pay raises again in 1978, 1980, and 1981. I hope this legislative body will support the amendment being offered to remove any and all increases in congressional pay from this continuing resolution. In the event we fail to remove this feature of the continuing resolution, Mr. Chairman, I shall be forced to oppose passage of the resolution.

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to the gentleman from Pennsylvania (Mr. WALGREN).

Mr. WALGREN. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I want to urge my colleagues to join me in maintaining the present freeze against congressional pay raises.

At a time of devastating unemployment and economic hardship, I believe it is critical for the Congress to set an example—an example of extending ourselves toward others—not reaching for a benefit for ourselves.

With 11.5 percent of Pennsylvania's workers unemployed, over 135,000 people are out of work in the Pittsburgh area. Millions of Americans face their unemployment benefits ending and face the prospect of being unable to meet mortgage payments or rising heating bills. For these Americans to see the Congress raise its own salaries above the current $60,600 level is, in my view, very damaging to the national spirit that is necessary to see many people through these hard times.

I understand the difficulties that many Members experience because of the high cost of living in Washington. But Members of Congress choose to run for office knowing the salary levels. And their economic inconvenience must take a back seat to public confidence in Government.

Those supporting the pay raise in this debate today have pointed out that congressional pay has fallen well behind inflation over the last 10 years and that the Congress has refused to take any "automatic" cost-of-living increases in 5 of the last 6 years. At some point, they argue, pay for Members of Congress must be adjusted to take account of inflation or we will find ourselves governed by mediocre people who accept other "outside" income from special interest groups.

I believe the public would support adjustments in pay for Members of Congress because the Nation and good government are best served when Government service is attractive. But in my 6 years in the Congress, I have yet to see a proposal that did not make any increase in pay effective immediately, if not before. We should follow the wisdom of the Founding Fathers when in proposing the 11th amendment to the Constitution in 1786, they included the requirement that no change in pay for Members of Congress be valid unless "an election intervened."

Clearly only Congress can change congressional pay because Congress is the highest legislative authority we have. But increasing pay after an election can only be seen as cynical by people who live and support families on the amount of money proposed as a "raise."

I want to share just two of the many letters about the proposed pay raise that I have received. One is from a man in the north hills of Pittsburgh. He writes:

After having watched the 11 o'clock news the other night, I came away in disbelief—not quite sure what I had just seen and heard. I saw old people weeping and crying in anguish—people who are disabled. Why? They had been informed of the probability of losing social security disability benefits. At that same moment, the local newspapers were again informing readers of another blitz cooking in Congress. What does it take to get a point across to the Congress? Once again it seems the greedy in Washington are determined to increase their salaries. We have people out here existing way below the poverty level—and not of their own choosing.

"Look around you," this citizen asks the Congress, "where is your conscience?"

An 85-year-old senior citizen from the east suburbs of Pittsburgh makes the same point about the irony of increasing congressional pay at a time of great pain throughout the country.

"I live on $460 a month from social security," this senior citizen writes:

Property taxes on my home take $106 a month. After other expenses, which keep going up, there's really nothing left. I am only one person in thousands who do not get pay raises. To pay for raises of our Congressmen and Senators is like taking food and lodging from the less fortunate. We all have to cut expenses where we can—there is a limit.

As many of you know, I have been outspoken in my opposition to backdoor attempts to disguise pay raises through special tax breaks and to hide pay increases in bills on totally unrelated subjects.

Today the House leadership should be commended for giving Members an opportunity to vote on the pay raise issue alone, up or down, in an honest, open manner. The Traxler amendment gives Members a clear opportunity to register their opposition to this pay raise.

I hope we have seen the last of congressional subterfuges designed to increase Members' pay without full debate and opportunity for recorded votes.

Earlier this year, I joined in a bipartisan effort to correct this problem once and for all. The Congressional Pay Reform Act was not considered by this Congress, but I—and I hope many others—intend to introduce this bill again in the next Congress.

The bill sets five important principles:

First. No Congressman would ever be eligible for a pay raise or change in tax treatment during his current term of office;

Second. No change in congressional pay or benefits could be made without a recorded vote;

Third. No change in pay or benefits could be joined with any other legislation but must be voted on by itself;

Fourth. No Congressman would ever be exempt from IRS audits; and

Fifth. No Congressman would ever be eligible for automatic cost-of-living increases.

When it comes to congressional pay, the integrity of Congress is at stake. I appreciate this opportunity to register my strong opposition to this proposed pay increase, and I urge my colleagues to join me in voting to freeze congressional pay at present levels.

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to the gentleman from Ohio (Mr. MILLER).

Mr. MILLER of Ohio. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I support this amendment which would strike the language of the previously adopted amendment and would reinstate the pay cap, thereby preventing a pay raise for Members of Congress.

Those who support a congressional pay raise had a tactical advantage in today's debate. Because the bill we are considering does not contain a provision extending the pay cap, we have a situation in which Members of Congress would be eligible for a 27-percent pay increase.

The previous amendment, offered by the gentleman from California, gave us only the chance to vote for a 15-percent pay increase instead of the 27 percent. I oppose even a 15-percent pay increase, but voted for the previous amendment as the lesser of two evils—15 percent is bad, but 27 percent is even worse. Therefore I gave reluctant support to the previous amendment.

Now, however, we have an amendment which I can wholeheartedly support. This amendment would supersede the previous one, and in place of the 15-percent increase just adopted, it would restore the pay cap. This would mean that Members of Congress would not receive any pay raise.

As my colleagues know, the parliamentary rule governing consideration of this bill provided that these two amendments could be considered only in the order in which they were presented on the floor today. So as I said earlier, proponents of a pay raise had a tactical advantage in dealing with this issue.

Nevertheless, those of us who oppose any pay raise at all can still prevail if we will stand firm and vote "yes" on this amendment. A "yes" vote now will undo the 15-percent amendment previously adopted, and will return us to our current situation, in which we have a pay cap in place preventing us from obtaining a pay raise.

In this Congress just drawing to a close, we have seen repeated efforts to get increased pay, benefits, and tax breaks for Members of Congress. Time and time again I have criticized these efforts and have asked how we could in good conscience vote to improve our own economic circumstances at taxpayer expense while we are calling upon the American people to make sacrifices.

We simply must not vote ourselves a pay raise during these difficult economic times. I urge my colleagues to vote for no pay increase by voting "yes" on this amendment that keeps a cap on congressional pay.

Mr. TRAXLER. Mr. Chairman, I yield such time as she may consume to the gentlewoman from Nebraska (Mrs. SMITH).

Mrs. SMITH of Nebraska. Mr. Chairman, I rise in support of the amendment offered by the gentleman from Michigan to cap the pay of Members of Congress at the current rate of $60,662. This is simply not the time for Members to be raising their own pay.

I just voted against the amendment offered by the gentleman from California to increase Members' pay by 15 percent. While I think the House was taken a step forward by having a recorded vote on this issue, I think that it is wrong for Congress to raise its own pay when workers across the country are taking pay cuts to keep their jobs, or are losing their jobs, or working more than one job just to make ends meet. I cannot go back to my district in Nebraska and tell the people who have just been laid off from the Lockwood Corp., Great Western Sugar, Midwec Corp., or the Co-op Refinery that I have increased by own pay 15 percent.

So many people around the country today are wondering where their next dollar will come from. They are struggling to make ends meet. Farm income is at its lowest since the Great Depression. The effects of a devastated farming industry can be seen on Main Street. Farm implement dealers, auto dealers, feed and grain merchants, and many more of the businesses that support the farm community are hurting like never before. They are looking to the Congress to find a solution to this country's economic problems. What does Congress do? Congress attempts to raise its pay. At the very least this is bad timing.

Pay for Members of Congress is an issue that can be decided by the next Congress. It should not be decided in this lameduck session. The country has so many problems to be solved and so many other important issues before

it that should take precedence. We met in this lameduck session to finish up the people's business because we were unable to do so earlier in the year as we should have. Now we have left the people's business behind and turned to raising our own pay.

I urge the adoption of the amendment by the gentleman from Michigan to cap our pay at the current rate of $60,662.

Mr. TRAXLER. Mr. Chairman, I yield 2 minutes to the distinguished gentleman from Texas (Mr. COLLINS).

Mr. COLLINS of Texas. Mr. Chairman, the gentleman from Michigan has introduced one of the most important amendments of this session, and it brings up the need that we have in this House to review the ethics bill. As I am leaving after 8 terms, I hope that early next session the House realizes that you need to eliminate and remove the so-called ethics bill. It has a good name, but the bill stifles initiative and the opportunity of Members to work. The ethics bill limits Members adversely.

I remember 4 years ago, when a gentleman from New York, Mr. Pike, stood here on the floor, and he said: "I am leaving this House." And he said: "You will not let me go home on weekends to practice law on small cases and earn a few thousand dollars, but if I wrote a book, I could make $100,000. It is ethical to be a writer, but not ethical income to work as a lawyer."

This ethics bill has no equity, there is no fairness to it.

I can draw dividends when I am here, and that is considered equitable. But if you owned a hardware store and you made $20,000 salary, that is considered unethical.

What we need to do is to change that ethics bill and for you all to go home more and work hard. You know, this Congress meets too much. The more we meet, the more laws we pass and the more Congress spends. In Texas the legislature meets 4 months every 2 years. That is saying the government of Texas manages the State with 2 months of legislating each year. Congress should cut our meeting time in half. Send the Members back home and allow them to work so they can earn a living. It would be the greatest thing in the world for the country. It would balance our financial reponsibilities. Let us meet less in Congress. Let us go home and earn salaries on the weekends. But we cannot consider raising salaries while our budget is so large, and America faces severe unemployment.

Mr. TRAXLER. Mr. Chairman, I yield 2 minutes to the gentleman from Illinois (Mr. PHILIP M. CRANE).

Mr. PHILIP M. CRANE. I thank the gentleman for yielding, and I would like to indicate my support for the amendment and to join in the remarks made by my distinguished colleague, the gentleman from Texas.

I have fought from its very inception the limitation on outside earned income. That is a decision, it seems to me, for our constituents to make. I happen to have eight children. To me it is more important to try to increase my income. I am willing to invest a whale of a lot of time and energy to do that, and I think any Member of this body has a perfect right to do it.

To suggest that in any way there is some sort of conflict of interest in doing that, it seems to me is absurd. My brother, the gentleman from southern Illinois, was a practicing dentist before coming to this body, and I challenge anyone to show me a single vote we have made on this floor that would constitute a conflict of interest if he continued to draw earned income from the practice of dentistry. I lectured professionally before getting to this body, and that, it seems to me, is one of the legitimate ways in which I can augment my income. If it means the diversion of too much time from my duties in this body or if there is a concern over the magnitude of outside earned income, that is a decision for my constituents to make.

The worker indeed is worth his salt. But I submit to you that the way to address this problem is: First, by eliminating that restriction on outside earned income; and second, lifting that stupid $3,000 deduction for expenses that goes back to 1952 and treating us the way you treat any businessman in this country. This would resolve any of these economic problems without necessitating a pay increase.

Mr. FAZIO. Mr. Chairman, I yield 2 minutes to the gentleman from Missouri (Mr. COLEMAN).

Mr. COLEMAN. Mr. Chairman, for the benefit of the membership, I would like to list the following salaries, paid with public funds. They all exceed the $60,700 received by Members of Congress. In my own city of Kansas City, the director of public works, a nonelected position, makes $61,800; the finance director makes $61,200. In the city of Los Angeles, the director of the bureau of sanitation—we are talking garbage here—makes $69,500 a year; the deputy director of the city of Los Angeles, bureau of sanitation, makes more than anybody in this room, he makes $64,164. That is the No. 2 man in garbage in Los Angeles. The chief of administration in the State of Wyoming, not a populus State, makes $69,200. The chief of mental health of the State of Arizona makes $93,000. And there is a school superintendent in White Plains, N.Y., who has 5,500 students under his control, who makes $64,500. A more detailed list is as follows:

City positions:	
Corporate counsel for Chicago	90,000.00
Administrative officer of Chicago city government	81,000.00
First assistant to corporate counsel for Chicago	68,796.00
Chief administrative officer for Detroit	64,900.00
City manager of Kansas City	70,980.00
City manager of Fort Worth, Tex	72,612.00
City attorney of Cincinnati	62,082.00
Public works director of Kansas City	61,800.00
City attorney for Kansas City	63,960.00
Finance director for Kansas City	61,200.00
Director, bureau of sanitation, L.A	69,572.16
Assistant director, bureau of sanitation, L.A	64,164.24
County position: Prince Georges County executive, Maryland	67,659.00
State positions:	
Chief of administration for Connecticut	67,624.00
Chief of banking of Alaska	64,452.00
Chief of agriculture for New York	65,700.00
Chief of administration for Wyoming	69,216.00
Chief of budget for Washington State	66,800.00
Chief of health for Alabama	68,003.00
Chief of health for Arizona	77,349.00
Chief of mental health for Arizona	93,078.00
School positions:	
Superintendent for Indiana schools	74,000.00
Superintendent for Montgomery County schools	70,000.00
Superintendent for White Plains, N.Y., schools—approximately 5,500 students	64,500.00
Superintendent of schools, Chicago—does not include pension funding	120,000.00
Deputy superintendent of schools, Chicago	63,747.00
Chief finance officer for Chicago School Board	100,000.00

Mr. FAZIO. Mr. Chairman, I yield 2 minutes to the gentleman from Michigan (Mr. BRODHEAD).

Mr. BRODHEAD. I thank the gentleman for yielding.

Mr. Chairman, I had not intended to support a pay raise, but I have changed my mind. I had thought originally that because of the hard times that our country is going through, and particularly the district and the State that I represent, that this was not the time for a pay raise. But having thought about it and reflected on the fact that I am leaving this body, and thinking about what is in the interest of the institution, I really and truly believe, Mr. Chairman, that it is in the interest of this institution and in the interest of the whole country and in the interest of the unemployed people, in the interest of the business people and the working people who are suffering from this recession, that we attract and keep the best people that we can in this body.

I think, as Chairman BOLLING said, it is a test of our courage, yes, but I think it is also a test of our honesty and a test of our wisdom, a test of our

honesty in the sense that if this were a secret ballot I think we would get a pay raise, because I think most Members will say, the majority of the Members will say, that we need to have it. It is a test of our wisdom, I think, because we know that this institution is under attack, and we know that this institution, the House and the Senate, the Congress of the United States, is one of the most precious assets of our country. We must protect that institution, protect it by holding and keeping the best people, protect it by trying to do something about the problem of the ethics of the Members and the attacks on our ethics from the outside. And that can only be done when we receive a decent rate of pay.

□ 1620

Now, you say that it is not the time for the pay raise. Of course this is not a good time. But in the 8 years I have been in this body it has never been a good time. It has been because, well, there is high rate of inflation, or we are cutting the budget, or the President has called for austerity. There is always a reason why it is not the time.

But there must be a time. There must be a time for a pay raise. And I submit that this is the time.

This is our opportunity to act with courage and with wisdom and with honesty and to do it as we are doing it in a straightforward and up front manner and go back and talk to our people about it and say, yes, this is in the interests of the whole country.

I urge a "no" vote.

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to the gentleman from Virginia (Mr. PARRIS).

Mr. PARRIS. Mr. Chairman, once again the House of Representatives is forced to consider a resolution on continuing appropriations without having an opportunity to vote on the individual items which it contains. Obviously, we must approve a resolution to keep the Government operating beyond this Friday, but the House leadership has done a disservice to us all by including pay raises for Members of Congress in this measure. We make a mockery of what we are trying to accomplish when we address congressional pay in this manner.

If Members of Congress are to be given a pay increase, there should be a separate vote so we can consider that idea on its merits. For too long we have penalized senior executives in the Federal Government by linking their pay increases with that of Members of Congress. As a result, we are no longer able to attract and retain qualified individuals to serve in Government. This is clearly reflected in the GAO determination that the executive turnover rate is over 90 percent—producing a disastrous brain drain.

Pay raises for executives in the Federal Government should not be tied up with pay increases for Members of Congress. By treating pay this way, we hold every Member of this body up to ridicule by the people of this Nation, and I might add, rightfully so.

No wonder the average American thinks Members of Congress are dishonest. We act like we are. We demonstrate our dishonesty for every American to see, when we fail to cast separate, recorded votes on issues of fundamental importance. We deserve the criticism and scorn we so frequently and generously receive.

Let us no longer hide behind senior executives on the pay issue but instead show the public that we have the courage to consider congressional pay raises, separately, on their merits.

Mr. TRAXLER. Mr. Chairman, I yield 2 minutes to the gentleman from California (Mr. BURGENER).

Mr. BURGENER. Mr. Chairman, I will not repeat my earlier speech. But I do hope my colleagues would reject this amendment. This amendment would reimpose the pay cap and leave us right where we are. I have never questioned another Member's vote or their motivations. And I am not going to start now. I have great respect for my colleagues who differ with me very strongly on this issue. But for those of may colleagues who believe that good pay is essential to good government, and I do, and I think the gentleman from Missouri (Mr. BOLLING) pointed that out very strongly, this is one of the most important votes we are going to cast.

If you believe that good pay means good government, you owe it to the people you represent to vote for that, even if it is not very popular at the moment. We owe them our industry. And the public interest demands a better institution, and particularly a better senior executive service.

I said earlier that by forcing early retirement on senior executives, we are paying double. We pay their retirement pay, with the cost-of-living adjustments, then we pay for their replacement. That just is not good sense. And we are getting less experienced people in the senior service. And we are losing good people from Congress.

I urge my colleagues, in the interests of their constituents, to reject this amendment.

Mrs. FENWICK. Mr. Chairman, will the gentleman yield?

Mr. BURGENER. I yield to the gentlewoman from New Jersey.

Mrs. FENWICK. I thank the gentleman for yielding.

Mr. Chairman, I would like to suggest to Members of the House, those of you who may hesitate to take this pay raise in the face of such suffering in the country, you do not have to take it, nobody has to know whether you take it or not. You can return the money to the Treasury. If you do not approve of taking it under these conditions, you can return the money to the Treasury and you will not have profited yourselves.

So if that is causing a hesitation, I hope in the interests of the whole, it will not cause a "yea" vote for this amendment.

Mr. TRAXLER. Mr. Chairman, I yield such time as he may consume to the gentleman from Pennsylvania (Mr. WALKER).

Mr. WALKER. Mr. Chairman, I rise in favor of the amendment.

Mr. Chairman, I rise in support of this amendment and in opposition to raising congressional pay.

We are here as representatives. If you represent your district, ask yourself how they would vote. And there is little doubt that your constituents would oppose this pay increase. As their voice in Washington, do you not have a responsibility to see that their views get represented? I think so, and I think it is a responsibility that should not be ignored.

The Traxler amendment should be supported because it says what the country believes.

● Mr. PURSELL. Mr. Chairman, during my entire career in public service, as a member of the Wayne County Board of Commissioners, as a member of the Michigan Senate and as a U.S. Congressman from Michigan's Second Congressional District, I have never supported an increase in my own salary. During a period of severe economic decline in Michigan and the United States, action by the Congress to increase the salaries of its Members is totally inappropriate.

In Michigan, for example, the unemployment rate exceeds 17 percent. For almost 36 consecutive months, Michigan's unemployment has been in double digits. Until workers in Michigan and other industrial States experience better employment opportunities, it is unreasonable for the Congress to vote itself any increase in pay.

During House consideration of this matter, I vcted against an increase in congressional salaries and for an amendment to cap congressional salaries at current levels.●

● Mr. COURTER. Mr. Chairman, regardless of whether or not one chooses to support a pay raise, we must certainly be opposed to the way that this pay raise has been proposed to the Chamber. I was outspoken against previous attempts in 1980 and 1981 to increase Members salaries specifically because of the manner in which these raises were enacted. In addition, I was one of a number of Members who sponsored legislation to repeal the increased benefits we gave ourselves last year. I am, in fact, amazed that, after the public uproar surrounding last year's controversial and back-door ap-

proach to raising our salaries, we would again attempt to increase our earnings in the same secretive fashion.

I am not opposed to a pay raise per say. Our salary increases fall well below the rise in the CPI, and this alone is reasonable justification for additional income. However, the experience of last year's pay-raise fiasco should have taught us, once and for all, that this is an issue of importance to our constituencies. While it is true that any attempt to raise our salaries will be unpopular with some sector of the population, we can never hope to win public approval of such measures until we are willing to argue straightforwardly as to why we feel we are warranted in requesting more of the taxpayers' money. It would have been far more appropriate to vote on this issue prior to the elections. We then would have demonstrated that we truly believe in the need for a pay raise by showing our willingness to go to the polls on this issue. But by waiting until after the election, when everyone can feel secure in his position for the next 2 years, we are sending the signal that we ourselves are not convinced of the fairness of this raise.

Members of Congress are in the position of being constitutionally empowered to determine their own salaries. This is an unusual, some might claim enviable situation. However, with this position comes a great responsibility not to betray the public trust. I believe it is possible for us to provide ourselves with the salaries that this demanding job warrants and still maintain the respect and support of the individuals we represent. But this can be achieved only if we are forthright and straightforward in debating this issue, and only if we are willing to take responsibility for our actions through the democratic process.●

● Mr. BEDELL. Mr. Chairman, the issue of compensation for Members of Congress has caused controversy since the first Congress in 1789. It should come as no surprise therefore that in recent years a number of efforts have been taken to defuse the dilemma of dealing with congressional pay by establishing compensation commissions, automatic cost-of-living raises or backdoor tax breaks. I have been opposed to all of these approaches. It is my strong belief that there is only one way that the issue of compensation for Members of Congress can be addressed and that is out in the open with a public debate and a recorded vote.

There may be justification for a reasonable cost-of-living increase for Members of Congress. Since 1977, according to the Joint Economic Committee, the Consumer Price Index (CPI) has risen 62 percent while pay for Members of Congress during this same period has risen just once by 5.5 percent in 1979.

However, Mr. Chairman, I plan to vote against the pay increase for Members of Congress because it is my opinion that the pay raise contained in the continuing resolution is excessive and unjustified in these austere times. Instead, I plan to vote to continue the pay cap for Members of Congress.

As I began to study this issue I was willing to consider the merits of a reasonable cost-of-living adjustment. I recognized the arguments that my colleagues have raised on this issue since it it true the Congress has denied themselves a pay raise for the last 3 years. Furthermore, a cap on our salaries extends over to a cap on the salaries of our senior career executives who make substantially less than similar executives in private industry according to a recent study.

However, it must be noted that our Nation faces the worst unemployment since the Great Depression. There are currently more than 12 million Americans out of work. Net farm income for farmers has fallen. Students are unable to obtain adequate college financial assistance. Our elderly live in fear of their monthly utility bill, and small businesspersons must face the possibility of prolonged hard times and even bankruptcy.

In light of these facts can we justify a 15-percent increase in pay for ourselves? I cannot support such a proposal. I believe this pay increase is too large and should be defeated. Furthermore, at this time I think we should approve the proposal to cap our salaries until a more reasonable increase can be presented to the Congress for debate and a recorded vote.●

Mr. TRAXLER. Mr. Chairman, I have no further requests for time, and I yield the balance of my time to the distinguished gentleman from California (Mr. FAZIO).

The CHAIRMAN. There are 8 minutes remaining.

Mr. FAZIO. Mr. Chairman, I yield 2 minutes to the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Chairman, I do not want to repeat the points that have been made by other Members. But as one of the younger Members with a family who has revered the institutions of this democracy, I think the remarks of the gentleman from Missouri about whether or not we owe it to the institution are important to consider.

I simply think this decision is one that has to be made in a professional or a personal manner. It seems to me that a professional looks at the evidence in front of them and then makes a decision. If you look at comparability, there is no question if this were before a committee we would say, yes, it needs to be done. If we looked at it in terms of other laws that impinge upon our ability to earn money, then let us look at these other laws later, outside income, $3,000 depreciation, but these are not before us now. We have to look at the issue before us now.

It seems to me if the majority leader of the other body has said that he believes that Congress is institutionally incapable of setting its own salary, it is a challenge to this institution. If people have personal reasons for voting no, for example, if they want to return it to this institution, then I think they ought to find personal ways in which to evidence their beliefs. The gentlewoman from New Jersey indicated a very appropriate way for these personal responses.

It seems to me that we have to vote professionally. We have to vote for the institution, and the professional institutional vote is no.

Mr. FAZIO. Mr. Chairman, I yield 1 minute to the gentleman from California (Mr. MCCLOSKEY).

Mr. MCCLOSKEY. Mr. Chairman, 15 years ago today I was sworn in as a freshman Member of Congress in this well. At that time the salary was $30,000 a year. Today the salary has doubled, but the cost of living has tripled. I hope our colleagues will reject this amendment and have faith in yourselves.

I can tell the Members in going back to private life that I recognize that many of my colleagues with whom I have served are among the ablest men and women in the United States. You are also entrusted with the greatest responsibility in the United States, that of managing a budget in excess of $800 billion. If any of us were shareholders in a company, we would insist that the people managing the company were the individuals most qualified to protect our interests and were paid accordingly. You are those people. And I would ask that you have faith in yourselves and vote yourselves a salary that is at least one-third to one-half what any of you of ability would be earning on the outside. It seems to me as one of your constituents that is what I should ask you to do as I retire from this body.

I want to make one further point. If any of you face an election candidate, whether you be Democrat or Republican, 2 years hence who campaigns against you on this issue, I will come to your district 2 years from now and campaign for you on that issue. I wish you luck.

Mr. FAZIO. Mr. Chairman, I yield 1 minute to the gentleman from Maryland (Mr. HOYER).

Mr. HOYER. Mr. Chairman, there is little that I can add to the remarks of the chairman of the Rules Committee, the gentleman from Missouri (Mr. BOLLING), with respect to this institution. As a new Member, however, I am made more confident in my remarks

by his long-standing support of this issue and his long tenure in this body.

Let me say that this vote has ramifications far beyond just this body; far beyond the effect of our action or us individually.

I stood on this floor last year and discussed our ability to manage this Federal Government and to effectively provide competent personnel for our defense establishment. Last week we passed a budget of approximately $232 billion for defense because we believed that the defense of this country was very important. This amendment will directly relate to the ability of our Government to hire and retain the kind of people with the kind of ability and quality that is necessary to effectively administer that kind of responsibility and to manage each and every program that this Congress has established.

When we hear of the sanitation director of Los Angeles and his deputy making more than any of us or our own Federal managers and of the mental health director in Arizona making $93,000, when we hear of General Motors hiring at similar levels, we must realize that it is our responsibility to provide salaries which are competitive and fair and that will allow us to retain and recruit the best people that our country has to offer.

Mr. Chairman, I trust and urge that this amendment be defeated and that we act to provide compensation for our senior executives and ourselves consistent with the private sector, good management of our Federal Government, and with equity.

Mr. FAZIO. Mr. Chairman, I yield 1 minute to the gentleman from California (Mr. ROUSSELOT).

Mr. ROUSSELOT. Mr. Chairman, I rise in opposition to this amendment. I believe it is time that we paid the Members of the House what they are worth. I really sincerely believe they are worth $100,000 a year. I think it has been a shame that we have brought our salaries down far below the Cabinet officers. We are supposed to be coequal.

I do not doubt for a minute that if we took a poll of the wives or spouses of the Members, that the pay increase would pass overwhelmingly. Each of you just go home and check and see if that is not true.

The real reason I rise is I believe there is a constitutional issue here. We have allowed Members of the House and Senate to be paid less than the Cabinet officers and other top people in this Government. I think it is time we brought ourselves up to the proper level and truly become a coequal branch of Government. I would vote against this amendment.

Mr. FAZIO. Mr. Chairman, I yield 1 minute to the gentleman from Georgia (Mr. GINN).

Mr. GINN. Mr. Chairman, I was greatly impressed by the comments of my dear friend, the gentleman from Missouri (Mr. BOLLING). He said that he had served here for many years and had never voted against a salary increase for Members of Congress. I have served here now for 10 years and I do not recall ever voting for one.

□ 1630

In fact, I have returned salary increases to the Treasury. I did not take advantage of the cost-of-living tax deduction.

Mr. Chairman, I came here 10 years ago in debt and I am leaving this institution in debt. Now, I hope that proves I have been honest, but I also hope that like myself today, you can mount the courage and do what we ought to do for this institution. It is definitely in the best interests of this institution that this modest salary increase for Members of Congress pass. You simply cannot maintain two homes and send children to college on the present salary.

Therefore, Mr. Chairman, as one of the last votes that I will cast as a Member of this body, I want it to be for the good of this institution.

I want to see all Americans be able to run for Congress and be able to live on the salary—and be independent. That is why this matter is so important to this institution.

Mr. FAZIO. Mr. Chairman, I yield myself the remaining time.

Mr. Chairman, we now have come to the final hour. We now know the facts. I think there is no question we all understand the need for this. We understand that the vast majority of the people here on the floor believe we should have a reasonable raise.

The question is whether our pride in the way this institution has handled this issue now will be matched by our pride in the way we conduct ourselves when it comes to casting a vote.

In the past in order to make our constituents feel that we are empathetic with their problems, that we have understood their concerns, that we wanted them to know we cared about their economic condition, we have denied raises to ourselves in order to placate them. That denial at some point turns against us. It turns us into a body that I think we all understand is less than we should be. It is often said that Members of Congress as individuals are improving with each election but when added together we add up to far less than the institution really ought to amount to, far less than the whole.

I see this opportunity as a chance to redeem ourselves in that context, to show we not only have the courage to deal with social security and a complex defense budget that is difficult for all of us to deal with, but that we also have the courage to own up to our own personal needs and to be willing to stand before our constituents as human beings with real needs. We do not want to be on a pedestal. We want them only to understand us and our personal situation, the need to support two homes for example. We want them to understand us as real people who have families with bills to pay.

I do hope the Members will have the courage and take the opportunity to do what we know is right. I urge you to reject the amendment and to take a modest increase in pay for the next Congress.

● Mr. LONG of Maryland. Mr. Chairman, I rise in support of the Traxler amendment prohibiting an increase in the present salary of Members of Congress.

Although Members of Congress have not had a pay raise for 4 years and certainly deserve one, this is the wrong time to approve one. The national unemployment rate is 10.8 percent, the highest since the 1930's. Unemployment in Dundalk and Essex in my district is 20 percent—nearly twice the national average. Thousands of laid off workers have already exhausted or are quickly running out of unemployment benefits. Many have no means at all of providing for their families, meeting their monthly home, car, and utility bills, or bringing food to the table.

In the face of these economic calamities, how could I vote for a pay raise?●

The CHAIRMAN. The question is on the amendment offered by the gentleman from Michigan (Mr. TRAXLER).

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. MILLER of Ohio. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 208, noes 208, not voting 18, as follows:

[Roll No. 446]

Messrs. VENTO, JOHNSON, and NAPIER changed their votes from "aye" to "no."

Mr. LANTOS and Ms. MIKULSKI changed their votes from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

□ 1650

AMENDMENT OFFERED BY MR. COUGHLIN

Mr. COUGHLIN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. COUGHLIN: On page 10, line 3, before the period insert: ": *Provided further,* That no funds made available by this joint resolution shall be obligated or expended for research and development, design, or construction of the Clinch River breeder reactor project: *Provided further,* That appropriations made available in this joint resolution for the Clinch River breeder reactor project shall be available for the termination of contractual instruments for that project previously entered into pursuant to section 106 of Public Law 91-273 as amended.

Mr. COUGHLIN (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The CHAIRMAN. Pursuant to the rule, the gentleman from Pennsylvania (Mr. COUGHLIN) will be recognized for 15 minutes, and a Member opposed to said amendment will be recognized for 15 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. COUGHLIN).

Mr. COUGHLIN. Mr. Chairman, this amendment to eliminate funding for the Clinche River breeder reactor is offered on behalf of myself, Mr. BROWN of California, Mr. WOLPE of Michigan, and a bipartisan coalition of Members.

I yield 2 minutes to the gentleman from California (Mr. BROWN).

Mr. BROWN of California. Mr. Chairman, I rise in support of this amendment. I want to make it clear that I am a supporter of the breeder reactor program. I have been for the last 20 years. I supported breeder reactor research and development on the Joint Committee on Atomic Energy. I have supported breeder programs on the Science Committee. I believe that it is essential that this country have a breeder reactor program, but not that we build Clinch River at this time. I will give the Members several good reasons.

First, Clinch River was proposed at a time, 10 years ago, when we estimated that we would need 1,200 gigawatts of nuclear power by the year 2000. That estimate has now been changed down to about 250 or 300. When we approved the project, we were told that we were running out of uranium, that uranium costs would go sky high. They have actually dropped. We have a supply of uranium well into the next century. Uranium mining companies are going broke because they cannot sell uranium in today's market.

We were told that we needed the program at Clinch River because the Europeans were building a similar kind of plant. The latest issue of Science has a story headlined, "Europe's Fast Breeders Move to Slow Track."

The fact is, the Europeans, as they did on the Concorde, are beginning to back away their breeder program at this time. It is not necessary, nor is it economical, even in Europe, to generate electricity by breeder reactors. So we do not need to fear that they will preempt global markets in a bright new technology.

But, the most convincing reason is that the longer we continue this project the more of a burden on the taxpayers does it become. The GAO has estimated that when this plant has been finished it will still cost about $100 million a year, above operating income just to continue it. This plant, if built, will not even pay its operating costs, to say nothing of the interest on invested capital. If we do not approve this amendment offered by the gentleman from Pennsylvania we commit ourselves not to the $200 million for Clinch River that is in this budget, but to another $200 million a year, or more, including costs, for the next 30 years. That is what led David Stockman to oppose Clinch River in his more rational hours here in the House.

Mr. BEVILL. Mr. Chairman, I yield myself 2 minutes.

The CHAIRMAN. Is the gentleman opposed to the amendment?

Mr. BEVILL. I am in opposition to the amendment, Mr. Chairman.

The CHAIRMAN. The gentleman from Alabama (Mr. BEVILL) is recognized for 2 minutes.

Mr. BEVILL. Mr. Chairman, this is an unusual situation for the Energy and Water Development Subcommittee. I say unusual because usually we have one of the first appropriations bills through the Congress. This year we had our regular appropriation bill ready before the recess. The bill has been approved by the House Appropriations Committee. It is ready for consideration by this House.

But Mr. Chairman, this bill is a continuing resolution, providing interim funding for a few weeks, until our regular bills can get out. Certainly it is wrong to try to deal with such an important issue as the Clinch River project with limited debate and no opportunity for substitute amendments or other measures to perfect the will of this body.

Let me also point out that our Energy and Water Development Subcommittee has followed this project closely. We have heard all the testimony, reviewed all the facts from everyone knowledgeable about this project—both nationally and internationally. We believe strongly you should support it.

You should know that Clinch River is a national project. It involves jobs from California to Massachusetts. It involves the skills of many highly trained technical personnel, as well as skilled craftsmen. Over 3,500 jobs are at stake on this vote.

The project has the support of the President, the great majority of our leading scientists and engineers and most energy experts who look to our future. It is supported by the leading labor and business organizations. Maybe you saw the statement in today's Washington Post.

More than that, the project is a necessary project if we are to provide the energy this country will need after the turn of the century. Let me give you a few facts.

First, a breeder reactor system can use the energy available from our uranium resources 60 times more efficiently than today's light water reactors. Certainly this ought to interest those of you devoted in energy conservation.

Second, the energy available from the uranium already mined and stored above ground as "tails" from our enriching plants for today's light water reactors is roughly equal to all our unmined coal and 3 times the energy in OPEC oil reserves.

Third, even at a very modest growth rate, the Nation will need to have twice the amount of electricity supply that we now have by the first decade in the 21st century. The long time required for developing this technology and the tremendous investment in people and facilities would make it costly to the Nation and foolish to interrupt this development now. We would lose the benefit of over $1.3 billion invested to date in this project.

Let me address five issues.

First, CRBR is foremost a research and demonstration effort. It represents the state-of-the-art of liquid metal fast breeder reactor technology in the world. Over 1,000 engineering changes have been made since the conceptual design was completed, incorporating the latest technological developments and improvements in safety systems, mechanical components, core design, and fuels.

Second, CRBR is the most economical means of developing breeder technology by the turn of the century. The site is now being cleared. The design is 90 percent complete. Over $1.3 billion has been invested and 70 percent of the plant equipment is ready or on order.

Third, the CRBR effort has assembled an impressive team of people and facilities which are at the forefront of American breeder reactor development; 753 private utilities are partners in CRBR development.

Fourth, the current total cost estimate from the Department of Energy for CRBR is $3.6 billion, including the $1.3 billion already invested. This includes all engineering, design, procurement, and construction costs and accounts for current inflation estimates.

Finally, the CRBR may provide revenues far beyond its cost after it is operating as an NRC licensed powerplant and will contribute much to the public utilities knowledge of breeder safety and operations.

Let me strongly urge you to support the committee and vote "no" on this amendment.

□ 1700

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to the gentleman from Kentucky (Mr. HOPKINS).

Mr. HOPKINS. Mr. Chairman, Clinch River is a budget buster in the classic sense. Estimated to cost less than $700 million when first authorized, Clinch now threatens to put the Government another $8.8 billion in debt. When we are facing a Federal deficit looming as large as $200 billion, this is simply unacceptable.

Certainly it is important to fund alternative research and development to secure long-term solutions to our energy problems. This particular project, however, does not fall into this category. The Department of Energy's own blue ribbon panel on energy priorities agrees with this assessment. Nothing can be clearer than their own report language:

The Energy Research Advisory Board believes that the construction of a breeder reactor demonstration at this time is not an urgent priority and thus, under current budget constraints, recommends that a demonstration be delayed until a future time.

It is hard to understand why we are being asked to ignore such excellent advice. As the General Accounting Office and other critics have pointed out. Clinch River stands virtually no chance of recovering its outlandish costs, despite the loud but hollow claims to the contrary. Industry realizes that the breeder would not be economical until the year 2050 and does not want to waste its money. That is why the taxpayers are being asked to foot the bill.

It is time to vote with the people who elected us and for sound budget policy against this large, uneconomical subsidy for the breeder lobby.

Mr. COUGHLIN. Mr. Chairman, I yield such time as he may consume to the gentleman from New York (Mr. MCGRATH).

Mr. McGRATH. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, once again we have the opportunity to eliminate the funding for the Clinch River breeder reactor, and I want to urge my colleagues to support the amendment of the gentleman from Pennsylvania.

It seems that each year we vote on this project, and the boondoggle seems to survive by a smaller margin every year. I hope that this time, a majority of my colleagues will see this project for what it really is: an unnecessary, uneconomic energy project which is totally inconsistent with the free market approach to energy development.

At a time when we are being forced to economize in so many other areas, it makes no sense to me to build this enormously expensive demonstration project. Clinch River will demonstrate nothing; the French have already constructed a commercial breeder, and long before Clinch River is finished they will have completed a new and larger version. Both have turned out to be uneconomic.

Clinch River will never fulfill the promise of endless, cheap energy. Consumers are being asked to finance through taxes an energy project which will not solve this Nation's energy problems. Perhaps the Wall Street Journal put it best:

Industry realizes that breeder technology won't be economical before the year 2030 (or later) and doesn't want to waste its money. That's why the taxpayers are being asked to foot the bill . . . Government generally has no business in the energy market. We see no reason to change that assessment in the case of Clinch River. (Wall Street Journal, 11/20/82)

In summary, I want my colleagues to note that the assumptions on which the CRBR was originally planned are no longer valid. The project was authorized on the assumption of a 7-per-

cent annual increase in the demand for electric power and a shortage of uranium to operate the less expensive capital intensive light water reactors that we have today. Electric growth is now expected to be 3 percent per year or less. The price of uranium continues to go down and the DOE estimated price for the year 2020 is half the figure needed to make breeders economical.

Now is the time to put a stop to this blatant abuse of the taxpayers funds. I urge my colleagues to support the amendment of the gentleman from Pennsylvania.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from Minnesota (Mr. WEBER).

Mr. WEBER of Minnesota. Mr. Chairman, as a member of the Science and Technology Committee which, contrary to the points made by the previous speaker, is among the committees of Congress that did vote to halt funding for the Clinch River breeder reactor, I think it is important for the Members to understand that the reasons why we should terminate VRBR are very simple to understand.

Simply put, the economics of this project have changed drastically since its inception. Demand for electricity is not increasing at the rate it was when the project was initiated, and proven uranium deposits have nearly doubled, leading to a decline in uranium prices. Those two facts make the project noncompetitive commercially. Members should understand, however, exactly what a vote in favor of Clinch River means in terms of the future of breeder technology. Members will be asked to vote for still additional breeder reactor projects in the future because the electric utilities industry clearly admits that a near sized prototype will need to be completed before this technology, even by the industry's own view, is competitive.

Mr. Chairman, if our Government continues to subsidize the construction of this and future breeder reactors, without any chance that those reactors will be commercially competitive, we will soon have, in effect, "nationalized" the nuclear energy industry.

I urge my colleagues to support the Coughlin amendment.

Mr. BEVILL. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Indiana (Mr. MYERS).

Mr. DUNCAN. Mr. Chairman, will the gentleman yield?

Mr. MYERS. I yield to the gentleman from Tennessee.

Mr. DUNCAN. Mr. Chairman, I rise in opposition to the amendment to delete funding for the Clinch River breeder reactor. This project has suffered long enough at the hands of opponents who have labeled it a "pork barrel politics." These individuals complain about the cost of the project, charge that the design is outdated, and claim the reactor is behind schedule. Each of these alleged reasons for killing this project is a direct result of the delays its opponents have brought about since 1974. Had this project proceeded on schedule it would not face the increased costs inflation has brought about over the past 8 years. Despite these delays it has managed to incorporate the latest in breeder technology in its design.

The opponents of the Clinch River project ignore the benefits it promises in the future, as well as the jobs, and energy it will provide. The chief benefit comes in the energy technology this project will provide. It is impossible to imagine how we can expect to broaden our energy options without creating and testing a breeder model. Six nations have preceded us in the movement toward breeder technology.

We have a responsibility to prepare for the future. We cannot expect the current oil glut to continue. The breeder program will provide the technology, research, and model we need to prepare for our future energy needs. To scrap this project would not only be a waste of money, but also a waste of the human resources of time, experience, and hard work which has been invested. And we could not hope to recapture this loss in the future, so we would stand unprepared in the face of the next energy crunch.

I would urge my colleagues to keep the future in mind when they vote on this amendment. With the Clinch River breeder reactor we can look forward to a new technology, jobs, and a new energy option. Without it we will stumble about in the dark seeking the energy to light our way. I hope my colleagues will vote against this amendment.

Mr. MYERS. Mr. Chairman, I rise in opposition to the amendment. Mr. Chairman, I say to the Members of the Committee this afternoon that the chairman of the Subcommittee on Energy and Water Development of the Committee on Appropriations, the gentleman from Alabama (Mr. BEVILL), and I have been on this subcommittee for several years. Certainly Clinch River is nothing new to us, and most of the Members in this Chamber this afternoon know that we have been up and down this road a number of times.

If we are really serious about finding a new source of energy for the future so we will not have brownouts, it would be very impressive this afternoon if we were able by some technique to dim the lights down somewhat like we do in the summertime here, and we would dramatize that we do have an energy problem facing our country sometime in the future.

This is what Clinch River is all about. It certainly is not an answer all by itself. But if we in the United States are really serious about solving our own problems, we cannot afford to turn our backs upon using some of the waste that is now being generated in the generating reactors around the country that burn nuclear. We are going to use the tailings here in the Clinch River reactor. It is the first generation, but it is a very, very important generation.

Mr. Chairman, if Members are concerned about our children and grandchildren having adequate energy in the future, they will vote against this particular amendment.

Mr. COUGHLIN. Mr. Chairman, I yield such time as he may consume to the gentleman from New York (Mr. LUNDINE).

Mr. LUNDINE. Mr. Chairman, I rise in support of this amendment to delete funds for the Clinch River breeder reactor. As a member of the House Science and Technology Committee with primary jurisdiction over our energy research and development program, I am convinced that to proceed with this project is not in the best interests of a balanced energy program and that breeder technology will not be commercially feasible until at least the year 2030.

As you all are aware, we are facing a serious budget crunch that has forced drastic cuts in the area of energy research as well as many other areas of the budget. Funds for coal, solar, other nuclear projects, and conservation have all experienced major budget cutbacks over the past 2 years. While we have cut these other aspects of our energy program, funding for basic breeder research and the Clinch River reactor has been preserved. Currently, this one Clinch River project and the basic breeder research program consume over 35 percent of our energy research and development funds. It is important that our energy program be balanced and we not put all of our "eggs in one basket." Research and development of other nuclear systems, fusion, coal, solar, and conservation must receive adequate attention in our research program.

At the same time, one might be able to make a case for large expenditures on both breeder technology and the CRBR if there were convincing arguments that the CRBR was critically needed to solve our energy problem. But, the fact of the matter is that breeder reactors will not be commercially viable until well into the next century, at the earliest.

Consider these facts. Utilization of breeders for energy will be more expensive than the current use of light-water reactors—no one disputes this fact. Because of rising costs of light-water reactors and falling electricity demand, 69 light-water reactors were cancelled from 1975 to 1982 in this country. There has not been a single new order for a light-water reactor in

this country since 1978. While there are several reasons why nuclear orders have been cancelled, it remains true that the major justification for breeder technology is valid only if uranium to supply light-water reactors is no longer available at a reasonable price.

What we find, however, when we examine the status of uranium supply and price is that the estimates regarding both supply and price for uranium were greatly underestimated when the need for early commercialization of breeder technology was first conceived. In 1974, it was estimated by the Federal Government that there was 1.7 million pounds of proven and probable reserves of uranium, which is about enough to fuel 340 light-water reactors over their lifetime. In 1980, the Department of Energy reported that there is actually about 3.5 million pounds of proven and probable reserves of uranium, or enough to fuel 700 light-water reactors over their lifetimes. The latest estimates from the Department of Energy further reflect that we will probably have about 165 light-water reactors operating by 2000 and 285 by the year 2020. Accordingly, early commercialization of breeder technology cannot be justified on a basis of a shortage of uranium supply.

Now, let us examine the price of uranium. Uranium is the only nonrenewable fuel whose price has declined since 1979, when the last hike in OPEC oil prices occurred. Currently, uranium is selling for about $18 per pound. A recent Los Alamos study found that the price of uranium would have to reach $185 per pound before breeder reactors could be competitive with light-water reactors. According to DOE's own figures, such a uranium price will not be reached until well into the next century. Therefore, on the basis of uranium price, early commercialization of breeder technology cannot be justified.

There are other problems with the Clinch River project which should send a signal of caution against further support for this project. A recent analysis by the General Accounting Office has indicated that the final cost for construction and operation of the CRBR may ultimately reach $11 billion. This estimate should not be taken lightly or easily dismissed by any of us during a time of severe fiscal restraint. While the point is often made that some of our European friends are proceeding with a breeder commercialization program, the fact that these programs are experiencing serious cost overruns is ignored. It might indeed represent a preferable strategy for our Nation to learn from the mistakes of our European friends while continuing to advance the state of basic research on nuclear technology.

I support a strong and aggressive energy program for our country. But, I believe this program must be a balanced one. We must support energy efforts to insure that we can burn coal more cleanly, to develop synthetic fuels, to advance solar energy, to implement energy conservation, and to improve the efficiency and operation of our light-water reactors in the short and mid term.

As was recently pointed out in a Washington Post article, "Nuclear Power Isn't Scary—These Reactors Are," by S. David Freeman, Director of the Tennessee Valley Authority:

> What we should be doing is fundamentally reexamining the nuclear option. Is there an inherently better technical option than the apparently "unforgiving" reactor design we have today?

Freeman goes on to point out that we need more research into modifications of the basic light-water reactor designs such as has recently occurred in Sweden and in other alternate reactor concepts such as the high-temperature, gas-cooled reactor. This Member of Congress is deeply concerned that if we concentrate our resources on CRBR, we will not be able to explore these other nuclear options that may be capable of breathing some life back into a dying nuclear industry.

Over the long term, I believe we must continue to pursue basic research in breeder technology—which would not be cut by this amendment today—development of fusion energy, and research into advanced solar utilizations. The decision regarding which one or ones of these long-term energy sources will be adopted for future use is not ready to be made. Commercialization of breeder technology is premature—and CRBR is the first step to commercialization. I urge you to have the insight to terminate this ill-advised project today before we indeed are too far down the road to turn back.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from Michigan (Mr. WOLPE).

Mr. WOLPE. Mr. Chairman, The gentleman from Pennsylvania (Mr. COUGHLIN) and I are offering this amendment today because the Clinch River breeder reactor has become synonymous with waste in the Federal budget. It is, quite simply, the MX of our Nation's energy policy.

The Clinch River breeder reactor has no economic or technical justification. It is a horrendous subsidy to special interests who have so little confidence in the project that they will only assume 3 percent of its cost. That leaves the American taxpayer picking up the tab for 97 percent of the project's $8.5 billion total cost.

How can we, in good conscience, continue this kind of wasteful expenditure when 11 million Americans are out of work, and we are asking Americans everywhere to make tremendous sacrifices? It is not fair. It is not right.

The Clinch River breeder reactor is waste—pure and simple. It deserves the same fate on the floor of this House that the MX missile received last week.

Mr. BEVILL. Mr. Chairman, I yield 2 minutes to the gentlewoman from Tennessee (Mrs. BOUQUARD).

Mrs. BOUQUARD. Mr. Chairman, I rise in opposition to this amendment.

When all the trappings and all the rhetoric are stripped away from this debate, only one issue remains. It is whether or not the United States of America will continue to have a viable nuclear option for the generation of electricity. You will hear many experts quoted by both sides, but one fact is irrefutable. Without Clinch River, nuclear power is of only very limited use to this Nation. It is facetious to argue that you will have a breeder program without building a breeder.

There are many among the opponents of this project who have argued that while they support nuclear power and even the breeder reactor, they are troubled by the costs of this project. Let me point out that by adopting the Coughlin amendment, you will have precluded any consideration of alternative financing arrangements which could very well resolve legitimate concerns over the Federal investment required for the project.

We face a troubled economy, and that is a concern for all of us. Yet, despite the obvious relationship between economic progress and the availability of energy, we are debating a proposal which would sacrifice the only energy technology currently available which could meet the electrical power requirements of this Nation and this economy for the foreseeable future. And, in the final analysis, when we talk about economic progress, we are really talking about the quality of life and the right to economic opportunity that are the hallmarks of this Nation.

Many issues have been raised during the course of the debates on the rule, general debate, and now during the brief time we are permitted under the rule to discuss this amendment. The issues are far too complex to cover in the brief time I have. But, let me make just one or two observations. The opponents of this project have offered nothing as a replacement for this project. Indeed, I believe they recognize there are no other alternatives that can meet both the feasibility and affordability standards.

Second, they argue that there is no need for an alternative. Let me ask you how history would judge a Congress which in the late 1960's or even the early 1970's, had provided for a technology to replace liquid hydrocarbon fuels, even though, as everyone then knew, there was at least a 40-

years supply of such fuels at the prices charged back then.

I suggest to you that such an action would have been deemed both farsighted and statesmanlike. You have the same choice today. You can provide for the energy to run our economy in an economically efficient, environmentally sound, and militarily secure fashion. You can run the same risks—only for higher stakes—that this country ran with oil imports 15 years ago.

I think that there is only one responsible choice and that is to defeat this amendment and commit America to a future worthy of her past.

Mr. BAILEY of Pennsylvania. Mr. Chairman, will the gentlewoman yield?

Mrs. BOUQUARD. I yield to the gentleman from Pennsylvania.

Mr. BAILEY of Pennsylvania. Mr. Chairman, I thank the gentlewoman for yielding.

Mr. Chairman, I also rise in very strong opposition to the amendment.

I hope that we will recognize here that the Nation has a finite supply of uranium-235. All that breeder technology means to us is the ability to extend that supply through modifying another uranium isotope that enables us to use an otherwise inactive but potential nuclear fuel, uranium-238.

In practical terms it means a transitional technology that will carry us from the fossil fuel or chemical age to the nuclear fusion age. It is vital. Without this amendment our Nation will lack any commercial breeder program. Without it we will be purchasing this technology most assuredly in the future—probably from France. Please defeat this amendment. There is not a better example of a justifiable nor necessary investment in our future.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentlewoman from Rhode Island (Mrs. SCHNEIDER).

Mrs. SCHNEIDER. Mr. Chairman, last Monday Madison Avenue became the newest supporter of the Clinch River project, beginning with this $23,000 full page ad featured in the Wall Street Journal. Please reflect on the misinformation we have been fed during this advertising campaign.

You have been told that fiscal conservatives support this project, yet it is opposed by the Heritage Foundation, the National Taxpayers Union, the Conservative Caucus, and the Council for a Competitive Economy, to name a few.

You have been told that industry supports this project. If that is so, then why is the taxpayer footing 97 percent of the project? Why does industry not put its money where its mouth is?

You have been told that the project will cost $3.6 billion. Then why is the GAO reporting a cost of $8.5 billion?

You have been told that the real energy experts—whatever that means—support Clinch River. If that is so, then why did DOE's own Energy Research Advisory Board recommend postponing construction?

Let us face facts. There is no way this project could survive without the well-heeled army of industry lobbyists that are paid to scare Congress into thinking that our country will go down the drain if we do not build this boondoggle.

The cynics say that Congress cannot withstand the kind of pressure reflected by this advertisement. But, we are looking at a whopping $180 billion deficit.

We are in a pinch. We must cut Clinch.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from Washington (Mr. MORRISON).

Mr. MORRISON. Mr. Chairman, we are going to hear a great deal today about the General Accounting Office report. I would like to point out that in its opening statement the General Accounting Office mentioned that the Clinch River breeder reactor is a research and demonstration project and we should not judge its merits solely on cost or revenue estimates.

Let us remember that our goal is energy independence. Our stockpile of 24,000 cannisters of depleted uranium represents a valuable resource, fuel that represents an energy equivalent value of $70 trillion when used in a breeder reactor like Clinch River.

□ 1710

Let me repeat that; with oil at $30 per barrel, taxpayers own $70 trillion worth of potential energy if we take advantage of the breeder reactor.

Where are we with Clinch River? The official total cost is $3.6 billion. We have spent $1.4 billion. The cost to complete is $2.2 billion spread over a number of years. The cost to the taxpayers if terminated is $1.7 billion with nothing to show for it; $742 million worth of equipment has already been purchased. The site is being prepared and excavation has begun.

Those who say we are technologically buying something that is obsolete have not reviewed the features of the Clinch River project. It has distinct technological advantages over the breeder programs of Japan, France, United Kingdom, West Germany, and the Soviet Union. This is not the time to abandon our best shot at energy independence. Vote against the move to halt the progress of Clinch River.

Mr. COUGHLIN. Mr. Chairman I yield 1 minute to the gentleman from Maryland (Mr. MITCHELL).

Mr. MITCHELL of Maryland. Mr. Chairman, our Nation now faces two serious economic problems: A Federal deficit that is approaching $200 billion a year, and an unemployment rate that is approaching 11 percent.

Some supporters of the Clinch River breeder reactor project claim that it must be continued because of the jobs that will be created.

An examination of the $8.5 billion Clinch River project indicates that it will add billions of dollars to the Federal deficit, while creating only 8,000 jobs.

Let me repeat: $8.5 billion to create 8,000 jobs. That is over $1 million for every job created! The Clinch River project not only fails to effectively create jobs, it diverts our limited capital resources away from investments that could create jobs in a cost-effective manner.

I urge every Member of Congress who is concerned about the growing Federal deficit, and growing unemployment lines, to support the Coughlin-Wolpe amendment to eliminate funding for the Clinch River breeder reactor.

Mr. BEVILL. Mr. Chairman, I yield 2 minutes to the distinguished chairman of the Water Resources Subcommittee of the Committee on Public Works and Transportation, the gentleman from New Jersey (Mr. ROE).

Mr. ROE. I thank the gentleman for yielding.

I sit here in amazement. I guess it really is not Christmastime. Maybe it is Halloween. Because it seems to me anybody that is against anything in this House they use the following words: "We are going to have plutonium that is going to blow up the world; it is a porkbarrel project, it is job creation, it is a kneejerk policy."

Here we ask the American people to spend $1.5 billion and more. We have all of the experts who have never attended a public hearing on this issue, most of them the same people who have spoken here today who talk about $1 million a job but they do not talk about the point of a technological advance that this country needs.

We are on our hands and knees economically in this country because we failed to foresee what was going to happen in energy. We have transferred billions of our resources to the Middle East.

That is what has really happened. The cost of production is increasing day in and day out, day in and day out.

Here we are talking about creating new jobs and spending $5 billion to do it. We are going to knock out 8,000 jobs here. It does not make sense.

Mr. Chairman, we are entering yet another phase of what has been a prolonged debate on the Clinch River breeder reactor project. I believe it is important to examine the viewpoint of our European allies regarding the role of the fast breeder reactor in their energy supply strategies and, more particularly, their view on the importance of the Clinch River project.

The media coverage of European breeder activities has of late tended to emphasize the slowing down of these efforts because of various difficulties. These allegations are overstatements of the true situation. In fact, for the most part, these doomsayers' psuedoscenarios are pure baloney.

This coverage has overlooked the fact that these governments are funding breeder development at very healthy levels in the midst of a major economic recession.

The French breeder program, certainly the largest and most advanced effort in the free world, is quite healthy. It is supported by an integral part of the French Government's program to expand technology development efforts in that country. There have been technical difficulties, but they have either been resolved or are resolvable. The Government as well as the scientists, engineers, and others directly involved in the Super Phenix work are committed to begin plant operation.

Even the German program, in spite of political difficulties not too dissimilar to our own apparent penchant for self-mutilation, has maintained their financial commitment to Super Phenix. In addition, they are more than 50-percent complete in the construction of their 300-megawatt breeder plant.

To sum up the view of our French and German colleagues vis-a-vis Clinch River, I have a letter recently sent to the Department of Energy from Mr. Rapin of the French Commissariat a l'Energie Atomique (CEA) and Dr. Popp of the German Bundesministerium fur forschung and Technologies (BFT). I request that this letter be included in the RECORD. The two senior officials express their interest in a proposed cooperative venture among our respective countries. Clearly this letter is solid evidence of the international communities' confidence in the U.S. breeder development program—and, in particular, demonstrates their conviction that the Clinch River breeder reactor design is on the forefront of world breeder technology and is certainly worthy of completion:

A L'ENERGIE ATOMIQUE,
FÜR FORSCHUNG UND TECHNOLOGIE,
November 26, 1982.

DEAR DR. BREWER: This is to acknowledge receipt of your letter of 11/22nd and to express our interest in working with you to seek areas of mutual interest in which to expand on breeder reactor collaborative relationship.

The area of plant experience is of obvious interest to all fast breeder reactor development programs, and cooperation becomes more appropriate as the CRBR plant proceeds to the construction phase.

The Clinch River Breeder Reactor represents an outstanding milestone for the future of fast breeders in the world. It incorporates technological feature and innovation of great interest to the French and German side and its partners and we believe that interesting opportunities for cooperation exist which should be fully exploited. Based on your letter, we proposed the establishment of a plant experience working group under the existing agreements to work out the details of an exchange of the important technical information both sides have to offer.

Successful development of the breeder reactor and its fuel cycle will be advanced by closer international cooperation. This will be important in accelerating progress as well as achieving economies in development. We in France and the Federal Republic of Germany look forward to continued cooperation with the United States in breeder industrialization.

Sincerely,

MICHEL RAPIN,
Directeur de l'Institut de Recherche Technologique et de Développement Industriel.

DR. MANFRED POPP,
Ministerial dirigent.

Mr. STRATTON. Mr. Chairman, will the gentleman yield?

Mr. ROE. I am happy to yield to the gentleman from New York.

Mr. STRATTON. I appreciate the gentleman yielding to me. It has been just 10 years since we suffered the oil embargo in the Middle East and people have forgotten that we are still not totally independent on energy.

This is a program for growth and development of our country, and I certainly oppose the amendment.

Mr. ROE. I thank the gentleman.

The costs keep going up on technology in America because every time we turn around somebody else has a new idea. Some coalition gets together. But look at the coalitions. Are they building? Do they speak to creation of wealth of the country? Do they talk about building a reservoir or a dam for a water supply or power? No. It is always opposed, opposed, opposed, opposed.

The most difficult thing in America is to get anything done.

What the American people are saying to the people of this country and to this Congress is "For God's sakes, stop the talking, making up your mind what you are going to do and go on and do something about it."

That is what we ought to do and I ask you and urge you to oppose this amendment.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from Massachusetts (Mr. CONTE), the distinguished ranking minority member of the Appropriations Committee.

Mr. CONTE. Mr. Chairman, the Clinch River breeder reactor is just like a nuclear version of the supersonic transport (SST), which I was pleased to help kill nearly 10 years ago.

Just because breeder technology can be developed, does not mean that it should be. And it especially does not mean that it should be developed at the expense of the American taxpayers.

In the early 1970's when we stopped massive federally subsidized research on the SST, the private sector lost interest as well. Private industry went on to build the successful B-747 and L-1011, while the French and British Governments got stock with the Concorde, a flying white elephant that is too expensive to fly.

The French are now repeating their mistake by subsidizing their own breeder reactor, in effect creating a nuclear concorde. They will likely end up with a reactor that can only produce electricity at a price higher than anyone could afford. We do not have to follow their example.

At a cost of over $8.8 billion, we can ill-afford to develop a technology that is no longer useful in a period of increasing uranium supplies and decreasing demand for electricity.

Instead, at a fraction of the cost, we can continue to develop uranium efficiency improvements for conventional reactors which can produce electricity at reasonable prices and also conserve uranium.

I urge the deletion of funding for Clinch River.

Mr. BEVILL. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Kansas (Mr. WINN).

Mr. WINN. Mr. Chairman, I rise in support of the Clinch River breeder reactor project and in opposition to the amendment. This is simply a continuation of the support I have given this project and this concept in the past.

We have heard all the arguments why the Clinch River project should be terminated: too expensive, obsolete, electric power unneeded, unmanageable process, and poor design. These points have been tossed about with little or no regard for facts. Such claims distract from the impressive amount of innovative, dedicated, creative science, and engineering which have been applied to breeder process development during the last two decades.

On the other hand, during the past 20 years the Committee on Science and Technology and its predecessors have received expert testimony on the need for alternate energy producing processes, the need for looking ahead to the Nation's future, and the need for greater reliance on this Nation's mental and physical resources.

It is extremely discouraging that we make calm, ordered, scientific judgments of technology, carefully innumerating and quantifying the hazards and the capabilities of a process. Then we submerge this evaluation in a flood of emotional rhetoric.

We should remember that the breeder process has been evaluated at a small scale and must be demonstrated on a larger scale before the private sector can justify substantial invest-

ment. Until that time of successful demonstration the economic risk is too great to attract industry and utility capital. That is why continued Federal support is needed at this time. We have already provided significant support in process development, major equipment procurement, and site preparation. Failure to complete commitments will be wasteful and will raise questions of our integrity, perception, and vigor.

I am firmly convinced that if we fail to support the Clinch River project, we will be showing complete disregard for our responsibility to prepare this Nation for the future.

Mr. Chairman, I strongly urge my colleagues to join me in the support of the Clinch River breeder reactor project. We have the opportunity to design, construct, and operate breeder technology which has the ability to use our own resources, to utilize our own expertise, to expand our Nation's capabilities, to strengthen our energy alternatives, and to regain control of our energy future.

Mr. BEDELL. Mr. Chairman, will the gentleman yield?

Mr. WINN. I yield to the gentleman from Iowa.

Mr. BEDELL. Mr, Chairman, today we are debating what has become one of the most controversial energy-related matters pending before Congress: Whether or not to continue funding for the Clinch River breeder reactor. I find this controversy somewhat disconcerting. Unemployment has reached 10.8 percent, the national deficit is an unprecedented $110 billion, and the income gap between the rich and the poor is widening at a brisk pace. In the face of this economic situation, in which the administration continues to call for cuts in low-income energy assistance, I do not believe there should be any need to debate the obvious—we cannot afford this exorbitant and unnecessary program.

Setting aside for the moment the important question of the affordability of this nuclear research project, we must question whether or not this program is necessary for the long-term energy security of the United States. In this period of energy instability, our Nation must continue to prepare realistically and intelligently for the energy needs we will face in the coming century. If it were a fact that the Clinch River breeder reactor (CRBR) were necessary to this security, I would be the first Member to join in supporting this program.

However, the fact remains that the Clinch River breeder reactor is not needed at this point in time. Though some scientists argue that our Nation's energy future will include breeder reactor technology in the distant future, they also agree that we do not need to develop this costly project within the short term.

The Department of Energy makes periodic projections of nuclear energy demand upon which to base calculations on the need for research projects.

The Department's projections for nuclear energy demand have dropped by 25 percent since 1980, evidencing the drastic change in expectations for nuclear power growth since the CRBR was initially authorized. Since the mid-1970's, 61 domestic nuclear power projects have been canceled; only 6 plants have been ordered since 1974; no new nuclearpower plants have been ordered since 1978.

A recent GAO study entitled, "The Liquid Metal Fast Breeder—Options for Deciding Future Pace and Direction," cites Government figures which conclude that breeder reactor technology would not become a factor in our Nation's energy security until well after 2020. It explains that our domestic uranium reserves alone, thus discounting the many sources of uranium available from our closest allies, will be able to provide our nuclear industry with plenty of uranium until at least 2020. With these sufficient reserves, we have no urgent need for breeder technology, so attractive in its ability to make more fuel than it consumes.

In addition, the GAO report goes on to explain that breeder reactors will not be able to provide competitive electricity until some point between 2025 and 2035. The Clinch River breeder reactor program as authorized would develop an operating demonstration plant by 1990, some 40 years before it could be used economically.

Finally, the Department of Energy's Energy Research Advisory Board has determined that the construction of the Clinch River breeder reactor is not an urgent priority and recommended that such a demonstration project be delayed until some future date.

Present economic difficulties press upon us the need for fiscal responsibility. The Department of Energy's budget already displays a short-sighted imbalance toward the nuclear power industry. The administration proposed cutting low-income energy assistance programs by some 30 percent this year, and has expressed its intentions to do so again for fiscal year 1984. When the administration considers it important to cripple a vital energy program for economic reasons, it makes absolutely no sense to continue funding an unnecessary, and extremely expense program which overshadows the relative expensive of energy assistance.

Mr. Chairman, I hope my colleagues will join me in supporting the Coughlin amendment to delete funding for the Clinch River breeder reactor and help our Nation return to an intelligent energy policy.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from New York (Mr. OTTINGER).

Mr. OTTINGER. Mr. Chairman, I rise in strong support of the amendment offered by the gentleman from Pennsylvania (Mr. COUGHLIN) and the gentleman from Michigan (Mr. WOLPE) to delete funds for the Clinch River Breeder Reactor.

I have heard all of the hearings. I sit on the Science and Technology Committee. I am chairman of the relevant energy subcommittee of the Energy and Commerce Committee.

The evidence is overwhelming that this project is not needed. We are overloaded with uranium up to our ears. In fact, the uranium industry sought restrictions on imports of uranium in the NRC bill because we have too much uranium. This means that we can be sure of continuing with fission reactors, and without breeders, well into the next century. In addition, new technology exists which permits fission reactors to use uranium 30 percent more efficiently.

Clinch River has nothing to do with energy independence for the United States contrary to what the opponents of the amendment have claimed. The energy crisis we had was an imported oil shortage, and only 7 percent of our oil goes to produce electricity. Nuclear reactors just produce electricity and will therefore have an insignificant effect on our energy security.

This project just produces electricity and it is desired only by the utility industry as a Federal Government bailout. It ought to be soundly rejected. There is no need for it.

The worst thing of all is that Clinch River gets us into a serious problem of proliferation. One core load of the Clinch River breeder reactor contains enough plutonium to make 200 nuclear weapons. Once we get into sending plutonium around the world, there will be no security for anyone.

Another compelling argument against CRBR has now emerged.

On December 10, the General Accounting Office provided Congress with its most recent and most convincing estimates of the truly staggering costs which the taxpayers of this Nation will have to bear if Clinch River is not terminated. According to the GAO, more than $8.5 billion will be needed just to build CRBR and another $2.6 billion will be required to operate it for 25 years.

These cost estimates conflict sharply with DOE claims that the Clinch River breeder will cost a mere $3.6 billion to build and will earn $8.2 billion over its 30-year life through the sale of the power it produces.

The GAO report clearly shows the project would lose over $2 billion if it is allowed to operate.

In light of budget deficits of upward to $200 billion in the coming budget year, how can we in the Congress in good conscience continue to appropriate funds for this unneeded pork barrel project which will cost taxpayers billions of dollars now and more in the future?

The project's supporters are now arguing that because more than $1 billion has already been spent on Clinch River, the project should proceed. But incredible as it sounds, $1 billion amounts to only 10 percent of the more than $10 billion additional which Clinch River will cost the taxpayers of this country if the project is built and operated as DOE plans.

The choice is simple; we must act today. By terminating the Clinch River breeder reactor now, we can save an additional $10 billion cost in the future. I urge you to support the Coughlin/Wolpe amendment and terminate Clinch River once and for all.

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to the distinguished chairman of the Armed Services Committee, the gentleman from Illinois (Mr. PRICE).

□ 1720

Mr. PRICE. Mr. Chairman, I rise in opposition to the amendment. Again we are required to consider the issue of support for the Clinch River breeder reactor. We provided the first authorization leading toward this project in 1969. It is truly a sad testimonial that this project has not been completed and is not now developing the sound base we must have to solve our critical energy supply problem.

I have many times on this floor presented the facts concerning our inevitable need for the breeder reactor system. None of the fundamental facts have changed. Our only solution still lies with coal use to the maximum degree practicable and the phasing in of nuclear sources as soon as we can build up the technology and hardware base. I never thought two such adverse developments would be encountered in efforts to dispose of our foreign dependency on energy fuels: These are the resistance in some quarters to the greater use of coal and the vacillation in developing and shifting our dependence to nuclear fuels. We can help get these efforts on track by providing the support the Clinch River breeder reactor needs today.

I would like to invite my colleagues attention to a statement made by labor, industry, and other organizations concerned and responsible for the solution of our energy problem which was printed today in the Washington Post. I am including the statement at the conclusion of my remarks since it succinctly states the facts supporting the need for the Clinch River project.

[Advertisement From the Washington Post, Dec. 14, 1982]

WE DON'T USUALLY AGREE . . . BUT ON CLINCH RIVER WE DO.

18 labor unions . . . the NAACP . . . the U.S. Chamber of Commerce . . . the General Federation of Women's Clubs . . . the National Conference of Black Mayors . . . the National Association of Manufacturers . . . along with more than a dozen other business, labor, minority, scientific and professional organizations, we have formed the "Committee on Jobs, Environment and Technology." We have done so because we all agree on one vital issue:

The Clinch River Breeder Reactor must be included in any responsible planning to supply future generations with the affordable energy they will need.

In real terms, America is still dependent on foreign sources of energy. A sudden increase in the price of oil or a cutback in OPEC production could again wreak havoc with our economy. Therefore, we have a responsibility to pursue policies that will help free America from the grip of foreign energy sources and enable us to regain control over our own energy and economic destiny.

Without available and affordable energy supplies, there can be no sustained economic growth, no abundant employment opportunities, no world leadership status.

While CJET will ultimately concern itself with a range of issues, our first priority is completion of the Clinch River Breeder Reactor Project. The result of a 20 year alliance between the federal government and private industry, this project represents the spirit of innovative research and development that has characterized U.S. history at its best.

Consider these facts:

Even using conservative growth estimates of 1 percent or 2 percent per year, America will still have to double its electrical energy capacity by early in the next century.

Breeder reactors produce more fuel than they consume and represent an energy potential that exceeds all U.S. coal reserves or three times OPEC oil reserves. They will use already mined uranium valued at $17 trillion, which has no other use to mankind.

Completion of Clinch River will cost the government $2 billion over the $1.3 billion already invested. Thus the total cost, including the unprecedented utility investment of $340 million, will be $3.6 billion . . . a figure confirmed by the General Accounting Office.

Some opponents claim that the final cost will be $8 billion without explaining that that figure includes "imputed interest" . . . something never included in any previous government R & D project cost estimates.

Termination will cost the government at least $300 million, plus the $1.3 billion already spent. Completing the plant will enable the government to recoup its investment through the sale of the plant's electricity.

75 percent of the equipment is either now on site or on order at a fixed price. The design of the plant is almost 90 percent complete and site preparation has begun.

Japan, Germany, Great Britain, France and the Soviet Union are pushing ahead with breeder programs because they know that those who lead the world in energy development will lead the world economically and politically.

Clinch River is not just another government project. It is a vital and prudent technological demonstration project that will help assure future generations of adequate energy supplies, a secure economy and jobs.

America has always been a world leader in developing advanced technologies to benefit current and future generations.

Now is no time to turn back. The future depends on us.

(Sponsored by the Committee on Jobs, Environment and Technology; Robert Georgine, Chairman; President, Building and Construction Trades Department, AFL-CIO.)

Mr. BEVILL. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Mississippi (Mr. WHITTEN), chairman of the Committee on Appropriations.

Mr. WHITTEN. Mr. Chairman, if I could have the attention of the Members, I wish they would think about this one point: This provision is for the duration of this continuing resolution, March 15. The minute March 15 arrives we are going to have to deal with it again. So if you start tying it

down between now and March 15 and the new Congress should say, "Don't cut it," I think it is very unwise to do it at this point. Whatever you wish to do, do it in the regular order, because this would be for only the period to the end of this resolution. So I hope you will defer action on this because it could prove very, very costly acting now.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from New York (Mr. FISH).

Mr. FISH. Mr. Chairman, I hope this is the end of the road, Mr. Chairman, because I have stood and supported for the last 8 years the similar amendments offered by my colleague, the gentleman from Pennsylvania. What we have said in the past is even more justified today.

As the ranking minority member on the Subcommittee on Energy Development and Applications of the Science and Technology Committee, which brings you the nonnuclear energy alternatives, let me say that the issue before us today is whether we can recognize the wisdom of what is needed and what is not needed. And Clinch River is clearly not needed. Our full committee turned this matter down a year ago, and we just have not been allowed to vote on it this year prior to the Appropriations Committee's consideration. That is why this Congress did not kill this project earlier this year.

The only new factor in this debate is that the cost estimates today have risen to between $8 billion and $12 billion for a project that has not yet been stopped. There is not a single bit of construction started; only a little bit of land has now been cleared, and that just in recent weeks.

The proliferation risks, enormous costs, environmental concerns, and safety problems with this project have been discussed on this floor many times over the years. Much time has been spent on discussing the menace of huge stockpiles of plutonium created by the development of a breeder reactor, and the dangers are well known. In 1977, the NRC halted the licensing process for Clinch River with over 100 unresolved safety issues which still remain. Before we build a breeder, substantially more research is needed to comprehend, evaluate, and control the safety risks that will accompany the use of this technology.

In 1973, we were promised a breeder demonstration program after 6 years, or in 1979. Let us now look at what has happened. In 1982, after spending over $1 billion, we are now promised a demonstration project in 1990—8 more years along the road. Clearly, we are losing ground here. If the NRC licensing process requires an alternative site, the project could be set back another 4 years to 1994, at significantly higher costs.

Overall, this would be an 11- to 15-year delay. Instead, in the more than 10 years since Clinch River was first authorized, we have gone forward with a strong base breeder program. This base program will not be jeopardized by cancellation of Clinch River.

in light of this inglorious history, the project bears a high burden of proof if it is to again receive more funding for the future. After much deliberation, the Science Committee believes and has recommended that this project be terminated. I strongly agree.

Mr. Chairman, one of the key reasons for the Clinch River project in the past has been our need to satisfy projected large increases in electric power demand during the next three decades. Under this scenario, breeders would be essential to help us meet our growing electrical power needs. Yet, we have all recently heard form many experts that these projected increases will probably not occur. From 7.8 percent in early 1970, the current rate is 2 to 3 percent.

The Science Committee has held several hearings on the future of energy utilities. During these hearings, we heard from many witnesses that we should now expect significantly lower electricity growth rates in the future. Utility and Commission forcasts indicate that electric demand in the 1980's will probably grow at only half the rate of the 1970's.

Another claimed need for Clinch River has been that the breeder will soon be needed because of our diminishing supply of uranium. Clinch River was originally authorized in order to anticipate this shortage and to extend our uranium supplies farther into the future.

However, by all accounts, we have now dramatically underestimated our supplies of uranium. Utilities have encountered numerous licensing difficulties for new nuclear plants, causing the cancellation of many of these plants, and corresponding less use of uranium. Preliminary reports from the NURE program have also indicated that we have more uranium than we originally thought. Thus, the original breeder demonstration schedule no longer makes technical sense. As a result, I believe that we should now reexamine the Clinch River program before we further invest in it.

In a time of severe fiscal constraints, we should ask ourselves whether we need the breeder now. We need to seriously consider whether it is more important to devote our limited taxpayers' money to this project or to some other worthy program that is deserving of our immediate attention. I admit that the breeder is one of the so-called inexhaustible forms of energy, along with our fusion and solar energy resources, that may well be needed in the next century. But right now, we need to examine whether the breeder will be helpful in the short term.

The answer to this critical question is "No." Our immediate interest is to reduce our dependence on petroleum. The breeder cannot satisfy these immediate needs. At the present time, only a limited amount—close to 9 percent—of our annual oil consumption is used to generate electricity. Moreover, much of that oil is specifically used to fire small backup generators to meet peak load requirements. The size and scale of breeder reactors will always make them uneconomical for such intermittent applications. Thus, the Clinch River project will have virtually no impact on our present oil import problem.

It will be well into the 21st century before the breeder reactor even begins to look commercially attractive. By that time, oil-fired central power stations will long since have been replaced by coal and conventional nuclear powerplants. We hope to have other forms of inexhaustible energy supplies, such as fusion and solar, on line by then. A viable synfuels industry will also have been developed.

Many technical issues have again been recently raised about the Clinch River project. A recent General Accounting Office report strongly criticized the Department of Energy's plan to install steam generators before even testing a prototype. This report went out to say that this plan was financially risky and recommended that it be dropped. With such a significant expenditure of funds at stake, it would seem to me that the Department would at least proceed as technically prudently as possible.

As my colleagues may be aware, the prestigious Energy Research Advisory Board (ERAB) has also recently had a chance to review this project. In determining our Nation's overall energy priorities, this distinguished scientific panel has indicated that the Clinch River project was not a high-priority item. After careful consideration, the ERAB panel concluded that the construction of a breeder reactor demonstration project was not "an urgent priority" at this time, and recommended that "such a demonstration be delayed until a future time" in light of current budget constraints.

I urge my fellow colleagues to recognize the economic realities of our present situation. There is no doubt that we will have to devote a great deal more money to Clinch River in future years if we go ahead with this project. Funding problems in these years will certainly be even more serious, as the administration tries to balance our budget in 1983 and 1984 with more difficult cuts.

The estimated costs of the Clinch River project have increased more

than sevenfold, from an original estimate in 1969 of over $400 million to today's estimate of over $3 billion. Unfortunately, there is no guarantee that these exorbitant costs will not continue to escalate. In fact, I understand that the General Accounting Office has recently estimated the total cost for Clinch River at $8.9 billion, possibly going as high as $11 billion.

Furthermore, it is unreasonable for the Federal Government to be responsible for all of these increasing costs. Our taxpayers' liability in this project has grown from about $100 million to now over $3 billion—more than 30 times the original estimate. According to recent estimates, the utility and industry share of today's costs for Clinch River had dwindled from 50 percent to about 9 percent of total costs. This is certainly not a wise course to follow.

Mr. Chairman, many of my colleagues are concerned that we will severely restrict our Nation's ability to develop the breeder option if we do not build Clinch River. This is surely not the case. Even without Clinch River, we will still have an aggressive breeder program. The base breeder program that the administration has proposed, and which has been authorized by the Science Committee, will provide for a strong breeder program that will, in fact, enhance the program by calling for a more rational design.

In a recent report to the members of the Energy and Commerce Committee, the staff also recommended that we evaluate alternative nuclear reactor programs before we continue to support Clinch River. They recommended that technical audits be performed on major alternative programs, even including safety and reliability improvements in the use of our conventional nuclear light-water reactors, as well as more efficient use of our uranium resources.

This is the way to go. We have the time. Given our serious funding problems, I believe that there are certainly much better ways to spend the money authorized for Clinch River than on the controversial type of breeder design that it would now demonstrate. In my opinon, it certainly would be better to go forward with research and development activities, including the development of all of the breeder technologies, at this time.

Mr. Chairman, it is time for us to put aside projects that have only symbolic meaning. We cannot affort to devote our limited taxpayers' money to the demonstrations of technologies that have limited merit if any.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from Iowa (Mr. HARKIN).

Mr. HARKIN. Mr. Chairman, I rise in support of the Coughlin-Wolpe amendment.

When I first came on the Science and Technology Committee in 1975, one of our first witnesses that year was Admiral Rickover. And I was quite shocked when he appeared before our committee and in testimony on Clinch River said that it was outdated technology and that it ought not to be built. At that time I began to investigate. I thought this person supported everything in nuclear energy. And then I found out that what he was saying was absolutely correct.

That is why the Science and Technology Committee which has heard all of this evidence, as the gentleman from New York (Mr. FISH) said, this session of Congress turned it down because we know that this is indeed a turkey.

One of the earlier speakers said that those of us who are opposed to Clinch River are always saying "no" to everything, "no" to jobs, "no" to progress, "no" to everything. Absolutely false.

I for one say "yes" to hydropower, "yes" to windpower, "yes" to solar power, "yes" to synthetics, "yes" to alcohol and biomass, "yes" to photovoltaics, "yes" to conservation. Take the $8.5 billion from this white elephant and put it in those, and we will be able to tell OPEC what to do with its oil.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from Illinois (Mr. PORTER).

Mr. PORTER. Mr. Chairman, we have all heard the arguments for and against the Clinch River breeder reactor. This project has been debated ad nauseum for years and I hope that a majority of the Members share my view that we should resolve this issue once and for all and put this project out to pasture at last.

The project proponent's justifications are well known to everyone. But for those who have missed the reams of "Dear Colleagues" that have floated across our desks we had only to open the Washington Post or the New York Times to view the full page ads loudly proclaiming the urgent need for the Clinch River project. By those in the private sector who ought to be the ones paying for it, but who will not.

I have reviewed it all and I am a strong supporter of safe nuclear power and continue to reach the same conclusion: The Clinch River breeder is an example of a wasteful project at its worst. It is expensive, inordinately so at $8.5 billion at a time when the Federal Government is faced with a deficit approaching $200 billion.

There is also the question of uranium supply. At one time, it was expected that nuclear power would be the major source of electrical generating capacity in this country and, as a consequence, uranium to run the plants would be in limited supply. But, Mr. Chairman, there will be no practical application of this technology in the next 50 or 100 years, because the electrical demand is not there and uranium is readily available and projected to be for a long time to come. The Clinch River breeder should be eliminated. I urge a "yes" vote on the Coughlin amendment.

Mr. COUGHLIN. Mr. Chairman, I yield such time as she may consume to the gentlewoman from New Jersey (Mrs. ROUKEMA).

Mrs. ROUKEMA. Mr. Chairman, I rise in opposition to the amendment to delete funding for the Clinch River breeder reactor.

There are a number of points overlooked by those who would simply eliminate Government participation in this demonstration project. First, the utilities have not backed down from their $300 million commitment to the project. Second, with much of the project's design complete and its components on order, costs will not rise to the extent that critics charge. Third—and most importantly—we would be more seriously wasting the Government's money if we canceled participation in the project now; $1.3 billion has already been spent; cancellation could cost anywhere from $300 to $500 million. Furthermore, if we remain committed to Clinch River we will finish a project that is designed to become part of the Tennessee Valley Authority and ultimately pay for itself. How many Government projects can make that claim these days?

It would be a mistake to cancel when, according to the Department of Energy, 96 percent of the research and development for the Clinch River is completed, 86 percent of the project design is done, and 60 percent of the major components are completed or on order. More than 3,500 people are employed throughout the United States on the project. Furthermore, the United States faces an uncertain energy future and it would, in my judgment, be extremely shortsighted to cut ourselves off from this energy option. It may or may not be possible to rely upon other forms of alternative energy, but who can be certain? I would suggest that the energy crises of the past decade are a somber reminder that the U.S. Government, in partnership with the private sector, must encourage—not discourage—development of all feasible alternative energy sources.

Therefore, I urge a "no" vote on this amendment. The role of Government is not to develop, market and sell new alternative energy sources. It does, however, have a major responsibility as a catalyst toward the initial development and demonstration of worthwhile projects. This investment could pay major dividends to the American people before the end of the decade.

Mr. COUGHLIN. Mr. Chairman, I yield 1 minute to the gentleman from Illinois (Mr. PHILIP M. CRANE).

Mr. PHILIP M. CRANE. I thank the gentleman for yielding.

Mr. Chairman, I think this project may have had some good arguments behind it at the time of its inception when we were talking about a $700 million total cost. The cost overrun since that time, coupled with the delays that have attended increasing Government and bureaucratic bungling in the process, have pyramided those estimated costs to completion to about $8.5 billion, according to GAO.

If we were to shut the project down right now, with close-down costs estimated by the Science and Technology Committee, it is a $1.5 billion expenditure.

I submit to the Members that if the private sector were to look at some kind of a project of this nature, they would have long since made the decision they are not going to throw good money after bad.

Further, when we are talking about energy for our Nation, we do not have to be nay sayers. I would hope that my good colleague, the gentleman from Iowa, would join with me, with the support of many others in this body, to deregulate natural gas. ERDA estimated back in 1975 that we have an estimated potential supply of 2,000 years, and that is a better substitute and we will not have to depend upon the taxpayer to fund it.

Mr. COUGHLIN. Mr. Chairman, I reserve the balance of my time to conclude debate.

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to the gentleman from New Mexico (Mr. SKEEN).

Mr. SKEEN. Mr. Chairman, I support the timely completion of the Clinch River breeder reactor (CRBR) plant. I ask your assistance in speeding the project to completion. As the debate of timing for the completion of a demonstration breeder continues, it is important to look at a number of essential facts in light of our past experience in nuclear energy. Opponents of the project say that we are building the demonstration plant too soon.

First, we must remember that the issue of timing depends in part on the availability of abundant uranium to meet our long-term needs. It took 20 years to commercially deploy light water reactors from the operation date of the first demonstration plant, the Shippingport reactor in Pennsylvania. Using the same pattern of plant size escalation and with the understanding that it now takes about 10 to 14 years to build a replicated commercial light waterplant, we can get a clear picture of the time needed to deploy commercial breeders. If we worked full speed ahead now to complete the Clinch River plant, it would be operational by 1989 or 1990. After 5 years of operation, we would commit the prototype and optimistically construct it in 12 years. After another 5 years of operation we could commit a commercial plant and bring it online in 10 years by the year 2020.

This scenario optimistically assumes all the plants work so well that utilities are so attracted to the idea of building breeders that they order plants before a single commercial breeder operates. Given such prior commitments, we could then start deploying commercial plants in quantity by the year 2025.

We must also remember that not building the breeder expeditiously means that we must continue to mine and utilize the fissionable uranium-235 that is available for use only in current light water reactors. Following this path means we run the very real risk of allowing our resources to dwindle until it is too late. With fuel for the breeder—uranium-238—already mined and milled, we need only use it to extend energy resources for hundreds of years. And we must secure the technology now to insure that we have the capability to do so. What we need is certainty in supply of energy sources. The breeder will provide this certainty and allow us time to explore numerous other promising alternatives.

I urge my colleagues to support the timely completion of the Clinch River breeder reactor project and defeat this amendment.

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to the gentleman from Pennsylvania (Mr. GAYDOS).

Mr. GAYDOS. Mr. Chairman, the Clinch River breeder reactor encompasses exactly the choice this Congress and the next one will have to face dozens of times if this Nation is to get from here to there, from a beleaguered and declining present to a secure and rising future.

Clinch River is an asset, a capital investment, a key. It is not the total of what we must do, but it is an important element. It is a place where knowledge will be put to practical use and more knowledge will be accumulated, where ideas will be tested and more suggested.

And this testing and creation of ideas is the key to high technology development, the kind of thing even those opposed to Clinch River are counting on to keep this Nation going.

But if we throw away Clinch River, we throw away an important key.

As for energy, the opponents say there never will be a shortage of nuclear fuel.

This reminds me of things I heard 15 years ago when everybody was dead certain the era of cheap energy would go on forever.

Opponents greatly stretch the facts and claim to find what they call a true cost of $8.4 billion, and they claim the price is too high. To get this figure they use accounting tricks never before used on a project of this kind.

But how does even this exaggerated sum compare with the hundreds of billions we sent overseas as a result of the energy shortage created by the OPEC gang?

What if we had spent $8 billion 15 years ago—in the era of cheap energy? Invested in things like this and in synfuels, in all the other things we are exploring now with some desperation.

If Clinch River is killed after going this far, I hope I am alive 15 or 20 or 30 years from now when America is at a greater disadvantage for energy.

Why, I expect I would hear even some of the staunchest contemporary opponents calling for a hang-the-expense crash project to make up the disadvantage.

The technology is developing. The world will use it. And the major industrial nations of the world are going ahead with it.

It is far better for the United States to learn to handle breeder rectors now than to try to learn under emergency conditions.

It is far better to learn to do it now in the right way, when there is time, rather than to do it badly with far greater potential for harm when the emergency comes.

Everyone knows that economic growth cannot be sustained without available and affordable energy. Everyone knows that what you do not have, you have to buy when the need comes.

If we fall behind here, we will buy it from the Japanese or the Germans or the Frency. And as its use develops in the world, everybody else will be buying it—buying it from the Japanese and the Germans and the French.

And we extend—in one area—a declining present into a declining future.

The choice I mentioned is timeless. It was no less stark for those who explored the new world than it is for us today.

Do we draw back in fear and wither? Or do we move forward into the future and find the winning edge that is the result of solid preparation and investment?

We should move forward now; and move forward with this project while there still is time to do it right.

Mr. BEVILL. Mr. Chairman, I yield the balance of my time to the gentleman from Texas (Mr. WRIGHT), the distinguished majority leader.

The CHAIRMAN pro tempore (Mr. BAILEY of Pennsylvania). The gentleman from Texas (Mr. WRIGHT), the majority leader, is recognized for 4½ minutes.

Mr. WRIGHT. Mr. Chairman, I earnestly hope that we will do as we have done on 15 or more occasions in the past, and that is to reject these

amendments which would turn back the clock and would scrape all of the work that has gone into this nuclear breeder reactor technology.

We may say all we want about the opposition of certain individuals who have had other technologies that they were advocating; the fact remains that this is the only nuclear breeder reactor project that we have on the books.

Now, our Nation already has invested $1.3 billion in bringing it to its present state. Are we going to drop that? Are we willing to turn the calendar backward and pretend that we no longer have an energy problem? To do so would be to close our eyes to the facts and to turn our backs upon the future.

This Nation faces the incontrovertible need to develop before the beginning of the next century at least twice the capacity in electrical energy that we have today. Is there another way to do it? I know of none. The nuclear breeder reactor is the only thing we have which will generate, that is to say, will produce, more energy than it consumes.

Yes, some of us can talk grandly about some day doing something specific by substituting solar technology. But let us just face the reality of what has been happening in the last 2 years.

□ 1730

Three years ago we were investing $150 million in photovoltaic solar technology, technological research to make us first among the nations of the world in this new emerging industry, $150 million. You know what we are investing this year under the Reagan budget? Fifty million dollars, only one-third what we were investing in that research.

Are we aware that the Japanese are investing almost as much as we are in photovoltaic and solar energy research; they, with half our population? Is that to be our future? Are we to avert our eyes from what this portends for the future?

Are we to say no, there is not any way that we are going to make that dream of peaceful use of nuclear power come true? I do not think we want to do that.

We have one project going. That is the Clinch River breeder reactor. We have invested $1,300 million in it. This is not the time to close the books upon it. It is so far as we are able to determine a successful project. And it is the only successful project that we have in breeder reactors. So let us have the courage to go forward.

It will cost an estimated $2 billion more to complete. But think of its worth. The energy-producing potential of nuclear breeders is greater than all the coal reserves in this country, and they are great. We have one-third of the coal known to be extant throughout the entire world. It has a greater potential than all the oil reserves that are known to exist in the Middle East. And yet we are willing to turn our backs upon it before we have completed our first project? I think not.

Let us in the words of one whose total philosophy I have not embraced, stay the course at least on this project to which we have committed ourselves. Let us vote down this amendment and say to the world, to the future, to our own country, that we are going to see to it that there is sufficient electrical energy output and capacity in this Nation to sustain a growing economy. Because if we do not, there will not be enough power available to us and we shall have to look forward to a declining, shrinking and stagnant economy without the capacity for growth that produces the opportunities and the jobs that our population will deserve and demand and rightly should expect of us. Solomon said where there is no vision the people perish. May that not be the epitaph of our civilization.

Mr. COUGHLIN. Mr. Chairman, I yield such time as he may consume to the gentleman from Ohio (Mr. MCEWEN).

Mr. MCEWEN. Mr. Chairman, I rise in strong opposition to the amendment.

Mr. COUGHLIN. Mr. Chairman, I yield myself the remaining time.

Mr. Chairman, this would terminate the funding for the Clinch breeder reactor except for the approximately $44 million estimated by the Committee on Science and Technology as the funding necessary to pay termination costs, not $1 billion as others claim.

As we in Congress face the prospect of deficits upward of $100 billion, there are those who say we can no longer cut discretionary funding. But the truth is that we have cut everything but the pork.

Here is a piece of pork, the Clinch River breeder reactor, where the Department of Energy's own blue ribbon advisory committee on research says it should be deferred, postponed, and it is of very low priority.

Here is a piece of pork, the Clinch River breeder reactor, which our own auditors, the Congress auditors, the General Accounting Office, says will no longer cost the original estimated $699 million, but will cost $8.5 billion to construct and operate for 5 years.

Here is a project that those auditors, our auditors, say will not earn money even in the remaining 25-year life but will cost the taxpayers an additional $2.6 billion.

Here is a program in which the private investment has declined from initially 60 percent, with a 50-percent commitment, down to 7 percent or 2 percent depending how you figure it. This is welfare and jobs not for people but welfare for public utilities and nuclear engineers. That is what this is.

Here is a demonstration project for technology which even its supporters admit will not be viable until well into the next century. And here is a research and development project presenting potentially obsolete technology when, even without the Clinch River breeder reactor, we will be spending almost half a billion dollars a year on breeder research itself.

Finally, here is a program that is opposed by the authorizing committee of this House—most important. And opposed by such disinterested publications and such diverse publications as the New York Times, the Wall Street Journal, and Human Events; opposed by organizations with no financial interest in the project, from the National Taxpayers Union to the Sierra Club; opposed by such diverse organizations as the United Steel Workers and the American Enterprise Institute.

Have we no conscience? Can we not get rid of at least a little piece of the work? Vote "yes" on the amendment.

● Mr. COURTER. Mr. Chairman, after many hours of personal reflection, I feel compelled to support the amendment to delete continued construction for the Clinch River breeder reactor and instead use available funds to terminate it. In the past I have always given the issue of funding Clinch River my closest consideration, taking into account its effects on our nuclear energy research and development base. My decisions in the past were based on the difficult issues, but on different circumstances and assumptions. I have carefully reviewed all the previous arguments for and against the funding, but have based my difficult decision to oppose continued funding at this time on the following factors:

First, there is reluctance on behalf of public utilities to move ahead with constructing previously planned nuclear powerplants. The commercial nuclear industry has experienced several setbacks unanticipated from earlier years. Utility rates nationwide have gone up markedly, leading to slower rates of growth and demand and, therefore, any projections for commerical application of Clinch River breeder technology must be altered to accommodate the changed circumstances in today's public utility market. Utilities in the near term will continue to reevaluate the future scope of their nuclear generator plans, while considering totally different technologies which may become economically competitive and more desirable.

Second, just 1 year ago the Department of Energy stated that costs for the Clinch River breeder reactor amounted to $1.1 billion for components and that it would take an additional $2.8 billion to complete the

project. In adjusted 1982 dollars, the total project would cost about $3.5 billion, said DOE. However, the Department of Energy may have ignored or greatly underestimated several key expenditures.

While the Department of Energy states that the entire project could be completed within 7 years, its original contingency fund for possible cost overruns is only $200 million. Assuming a 12-percent interest rate, a delay of just 1 year in construction could run the total cost up by $400 million in just that year.

In addition, the Department of Energy did not include the costs of reprocessing Clinch River's own fuel, which could amount to $300 million. As a result of this and other not previously assumed costs, the Clinch River program may now cost substantially more than thought. If any of the cost factors increase or if unforseen costs arise, this project will be beyond the realm of responsible fiscal control. It has been suggested that we can learn the technology of the breeder reactor by purchasing or otherwise sharing French patent rights and knowledge. The French, I understand, have a lead in this technology and we can possibly save enormous amounts of money by placing a small American staff at the French site. The French admit that their breeder reactor costs them 2½ times more to operate than light water reactors.

In conclusion, I oppose the building of the Clinch River breeder reactor because I can see no near term or midterm market for this technology. The General Accounting Office and the Congressional Research Service see a market for this technology in approximately 40 years, which may be reasonable to support research and development but not a justification for a multibillion-dollar demonstration project. New uranium finds, unanticipated costs and electrical demand have all been different in the last 4 years than anticipated; circumstances have changed—and so must my vote.●

● Mr. YOUNG of Missouri. Mr. Chairman, opponents of Clinch River imply that they have a new case against the Clinch River breeder reactor project. Their case is not new. It contains the same old red herrings breeder opponents have used, unsuccessfully, for years—that the project is too expensive, that breeder development can be delayed with no penalty, that uranium is cheap and plentiful and likely to stay that way, and that nuclear power requirements have dwindled to insignificance.

The solution, they say, is to cancel the Clinch River project.

This view is worse than shortsighted. It is clearly dangerous to our energy future. As a proven means of extending a valuable resource of limited availability, the breeder must be developed. It is time to meet the issues head on; to make the decision to complete this vital link to a secure energy future for America and to lower once and for all the antigrowth barriers which jeopardize the future economic well-being of the Nation.

The facts on Clinch River are as follows:

We have already made a substantial investment in the Clinch River project and the supporting technology development necessary to assure its success. This investment—an insurance policy if you will—has amounted to some $6 billion, of which $1.4 billion is the direct investment in Clinch River. All major equipment procurements are essentially completed and the design is more than 90 percent complete. Site preparation also has been approved and is well underway. We would be foolish and indeed the international community would regard us as fools—to allow unfounded allegations and visceral fears to stop us now.

The costs remaining to complete the CRBR construction amounts to some $2.2 billion distributed over a period of about 7 years. Clearly, this level of funding—that is, the insurance premiums on our energy future—is well in line with comparable R&D expenditures this country has made in similar programs of major national importance.

The fact that present U.S. uranium resources appear to be adequate to fuel light water reactors for the next 30 years or so, is a moot point as far as the breeder timetable is concerned. On the present schedule, assuming the expeditious completion of CRBR, commercialization of breeders could not occur for at least 30 years. Those who argue that we can delay the breeder until we need it are devoid of any perception of the technical issues at stake or the associated leadtimes required for technology development and to assemble the related infrastructure. We cannot simply throw a switch and turn on the needed expertise and experience required to implement the technology nor can we wish the hardware into being so that we can one day operate the breeder plants economically.

Clearly, the time for the Clinch River breeder reactor is now. We should prove to ourselves as well as the rest of the world that we stand by our obliation to control our energy future; that we do not vacillate in our conviction that nuclear electric power, through our breeder reactor development program, is an essential part of that future; and that we will not forfeit the investment already made to insure that future.

We urge you to support completion of the CRBR. It is the right plant at the right time.●

● Mr. TAUKE. Mr. Chairman, today, the House will have just the opportunity to reduce or eliminate several excessive, opulent indulgencies of the Federal Government when we consider House Joint Resolution 631, the continuing resolution. Considering our current economic problems, it is important, perhaps now more than ever, to spend our citizen's tax dollars more prudently, and House Joint Resolution 631 presents us with this opportunity. Within this measure, there are several projects of dubious fiscal rationality, and I would like to take just a few minutes to outline my concerns about one of these projects—the Clinch River breeder reactor—and to urge your support for the Coughlin amendment which deletes funding for this project.

The Clinch River breeder reactor was conceived in 1970, under a set of economic projections which are not valid today. Twelve years ago, it was assumed that breeder reactors would be economically competitive by the year 2000. Today, that is not the case. Instead, a dramatic shift in our energy requirements has meant that the Clinch River project will not be cost effective until the 21st century. This shift in our country's energy projection is due primarily to: First, the increased supply of uranium; and second, the decreased demand for electricity. These two changes force us to reevaluate the continuation of the Clinch River breeder reactor. Even the Department of Energy's own energy research advisory board has recommended that we defer construction of the Clinch River plant until the prospects for commercialization improve while maintaining an investment in basic breeder research.

The primary attraction of the breeder reactor in the first place was its efficient use of uranium—much more efficient than the less expensive light water nuclear reactors. If uranium were scarce and expensive, the extra capital costs associated with breeder technology would be offset by the fuel savings. The Clinch River project was begun 12 years ago because it was expected that a rapidly escalating demand for nuclear power would lead to a critical shortage of uranium by the year 2000. But in the past decade, estimates of our nuclear power requirements have been cut to less than one-sixth of the original projections; estimates of our uranium supply have doubled; and the price of uranium has actually declined in real dollars. In fact, the domestic uranium mining industry is on the verge of collapse, due to a lack of demand for its product. The Senate is even considering legislation that would prohibit imports of cheaper uranium from Australia and Canada.

When the Clinch River project was first proposed, energy planners were concerned about both the supply and price of uranium. In 1974, our total

supply of proven and probable reserves were estimated to be about 1.7 million pounds, or enough to provide 340 reactors with a lifetime supply of fuel.

At the time those estimates were made, the Department of Energy began a national uranium resource evaluation (NURE) survey to try to arrive at a better understanding of our uranium resource base. In 1980, NURE reported that our uranium reserves had, in fact, been grossly underestimated, and that our proven and probable reserves were close to 3.5 million pounds—enough to fuel 700 reactors.

In fact, uranium is the only nonrenewable fuel whose price has declined since the last OPEC price hike in 1979. Since that year, uranium has decline by 59 percent; while oil has increased by 146 percent, and natural gas has increased by 74 percent.

As a result of the increase in supply of uranium and a decrease in the price of the uranium market, 9,000 of an estimated 22,000 workers in the uranium mining industry have been laid off, 30 uranium mining complexes have shut down. And 395 uranium exploration projects have been discontinued. One must suspect that the collapse of our uranium mining industry is a direct consequence of the wildly exaggerated predictions for the growth of nuclear power put forth by Government forecasters.

While the uranium resource base has roughly doubled, the demand for its product has decreased sharply, as the predicted boom in the nuclear market has failed to materialize. In 1974, the U.S. Atomic Energy Commission predicted that we would have 1,200 operating nuclear powerplants by the year 2000. The Department of Energy's February 1982 report to Congress projects only 165 operating nuclear reactors by the end of the century and no more than 285 plants by the year 2020.

The expected market for nuclear power has failed to materialize primarily because the demand of electricity has dropped to less than half the level experienced during the early 1970's. Slower electric growth rates are predicted, by both the Department of Energy and the Edison Electric Institute, for at least the next 20 years.

These changes mean that the fuel savings promised by the breeder, in return for the investment in this high-priced, capital-intensive technology will not be needed, or even affordable, until at least the middle of the 21st century. In 1972, it was expected that the rapid growth of nuclear power would shrink the uranium supply fast enough to make the capital-intensive breeder an economical replacement for light-water nuclear reactors by the year 2000. Clearly, this is not the case.

Mr. Chairman, the question is, Why are we ignoring the evidence and rushing to embrace the breeder reactor? Why are we forcing a product on the market before its time? The result of our continuation of the Clinch River breeder system will be an irretrievable loss of billions of dollars, which we cannot afford, to our economy. This is an action we cannot afford to take. I urge you to join with me in support of the Coughlin amendment.●

● Mr. GOLDWATER. Mr. Chairman, we have, as in years past, begun to hear all sorts of claims about the Clinch River breeder reactor; some for it, and some vilently opposed. This time the arguments focus on economics, with the main issues including the total cost of the plant and the amount needed to keep the project going for another year. I have been particularly intrigued with the cost estimates that have been published by both sides on this debate, with the Department of Energy now saying that this reactor's cost has increased to $3.6 billion, and with the project opponents saying no, it is $7, $8 or $12 billion, or whatever number either side cares to pull out of its hat. I have little doubt that next week someone will tell us the cost is $15 billion, or $25 billion if you count—fill in your choice of additional items—or whatever. And frankly, I do not care.

The reason I take this lighthearted approach is a simple one. Although the true cost of Clinch River may be the question to some people, it is not the issue to me. As I see it, the issues that we must address as responsible policymakers are not only how much does the CRBR cost, but what do we get for that cost and is it worth it? To make this decision, I ask you to accept only one premise; that we are using a substantial amount of energy now and will need more in the future. The how much and when are not that important. What is important is to determine how we will find the additional energy sources and supplies which we will surely need for future economic growth.

The answer to that question is also simple. We do it by conducting research and development of course, and since the oil embargo of 1973 we have spent, we in the Congress, over $40 billion of taxpayers' money to develop new energy sources.

What do we have to show for it? Where are the synthetic fuels plants we so earnestly debated a few years ago, and a few years before that? Where are the power-producing windmills that were supposed to be dotting the countryside? Where are the large photovoltaic arrays, the limitless nuclear fusion power supplies or the breeder reactors we promised ourselves, and the American people? Of all these technologies, what have we really built, and what are we in the position to build now? More bluntly, what have we got to show for our $40 billion? And, most importantly, what will we have to show tomorrow when we really need it?

So far, the answer is, not very much. Our success rate has not been very high, and the reasons, technological difficulties, lack of sufficient funding, changing priorities, are all too familiar. But there is one technology we have been spending money on that is almost ready to be brought to the demonstration stage and is now ready to be build in a significant size. That is the breeder reactor, and its demonstration plant is called Clinch River. Over $1 billion has already been spent on CRBR, and an additional $2 billion, more or less, is needed to complete it.

To anyone who really believes we have an energy problem—remember when we used to call it the energy crisis? Has anything really changed since then?—I ask, how can we not proceed into the next phase of development of breeder reactors, our most advanced energy technology? How can we give up now? I know that a $3, $5, or $10 billion price tag is a tremendous amount of money, and that the $250 million we are being asked to spend on Clinch River in fiscal year 1983 will buy a lot of other things if not spent on the development of the breeder. However, I conclude that spending a responsible amount of money on the CRBR is not only warranted, but essential.

We have invested over $200 billion so far in electrical powerplants in this Nation. The money now needed for Clinch River may lead to the technology that will keep our electrical generating capability healthy and growing. The cost of not having sufficient energy available when needed in the future, in terms of economic growth, national security, and social welfare, is more than I care to gamble with.

To put matters in another perspective, consider that Clinch River can be completed at a cost of about 2 weeks that of imported oil. Further, if we do complete this reactor, the revenues from the sale of electricity it will produce over its lifetime will amount to about $8 billion, which will go a long way toward making up for both its capital and operating costs. And finally, and this is the real clincher, the availability of breeder technology will open up to use the $15 trillion equivalent in energy content in depleted uranium ores that can fuel breeder reactors, and that have already been mined and are now in storage at Government facilities. This material, if used in breeder reactors, will have an energy content that is greater than that of all the world's coal and oil. It is ours to use if, and only if, we have the breeder reactor.

And so it is time to return to the question I posed at the start of this letter. Who cares if Clinch River costs

$100 billion? I would care, of course, and know we must do everything possible to keep those costs down. Frankly, I have much more confidence in the $3.6 billion estimate of the Department of Energy than I do in the inflated figures that are being thrown around by those who, as in years past, are trying to come up with whatever fabricated arguments they can to show that breeder reactors are unnecessary, overly expensive, technologically deficient, or evil—remember proliferation, and our total failure to get other nations to abandon their breeder efforts because of this concern.

What it all boils down to is that we have put ourselves in a position of energy insufficiency, and have received as our penalty a parking ticket in terms of our need to build a breeder demonstration plant as a way out. And so I say, pay the $2 billion, and take a necessary and economical step for energy security.●

● Mr. PEASE. Mr. Chairman, once again the Clinch River breeder reactor question is before us. I urge my colleagues to support the Coughlin amendment and reject funds for the breeder reactor.

No matter what party affiliation, political philosophy, or region of the country, all of us have colleagues who oppose this bill. Opposition is not based on a single factor. While objection to the CRBR's cost are the predominant complaint, it is far from the only one.

The venture to produce fuel for light water reactors obviously serves a particular group of clients—those with light water reactors. But a breeder reactor is useless if the credibility of today's light water reactors does not recover. And if reactor operators are not willing to invest a significant amount in development of an operation that benefits them directly why should American taxpayers do the same?

Mr. Chairman, the original cost estimates for the CRBR were less than $700 million. The Department of Energy, which supports the project, with thoroughly questionable methodology—such as using an imputed interest rate of zero percent—recently found the breeder would cost $3.6 billion. The General Accounting Office looked again and estimated $8.9 billion.

Mr. Chairman, I urge my colleagues, in a year when we have made enormous cuts in programs ranging from medicare to energy conservation to business tax incentives, to support the Coughlin amendments to delete funding for the Clinch River breeder reactor.●

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from Pennsylvania (Mr. COUGHLIN).

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. COUGHLIN. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 217, noes 196, not voting 20, as follows:

[Roll No. 447]

AYES—217

□ 1750

Mr. HUNTER changed his vote from "aye" to "no."

Mr. SCHEUER and Mr. MINISH changed their votes from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. BONIOR OF MICHIGAN

Mr. BONIOR of Michigan. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. BONIOR of Michigan: Page 10, line 3, insert: *"Provided further,* That none of the funds appropriated by this Joint Resolution, or by any

other Act, shall be available for any activity relative to the construction of the O'Neill irrigation unit in the State of Nebraska" before the period.

The CHAIRMAN pro tempore (Mr. BAILEY of Pennsylvania). Pursuant to the rule, the gentleman from Michigan (Mr. BONIOR) will be recognized for 15 minutes, and a Member opposed to said amendment will be recognized for 15 minutes.

The Chair recognizes the gentleman from Michigan (Mr. BONIOR).

Mr. BONIOR of Michigan. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman and Members, the amendment I offer is straightforward in its intent. It would simply prohibit the expenditure of funds from any source for construction of the O'Neill irrigation unit in Nebraska.

In the short time I have, let me preface my remarks by noting that a similar amendment was offered by our former colleague, John Cavanaugh, himself a Nebraskan, in 1980. That amendment was defeated by only nine votes. Over 165 Members of the 202 who supported that amendment are still in the House and this amendment is even more justified today.

In the 2 short years since John offered his amendment, the cost of this project has increased by 60 percent—to $368.7 million. That represents an increase of 300 percent over the 1972 authorization level.

Maybe that does not bother you much. You might say the cost of everything has increased. Consider, however, that the benefit-to-cost ratio has fallen from 2.7 to 1.3 and continues to drop.

Consider that this project will benefit only 300 farms at a cost to the Government of $1.2 million per farm. Largest among the affected landholders are the State of Nebraska—5,100 acres—and the Prudential Insurance Co.—4,480 acres.

Consider that the beneficiaries will pay back only $45 million or 12 percent of the cost. The rest will be paid through utility rate increases to the citizens of Colorado, Iowa, Minnesota, Montana, Missouri, Nebraska, North Dakota, South Dakota, and Wyoming even though the O'Neill project would generate no power. Consider further that since the beneficiaries' costs are fixed at $45 million, that all additional or increased cost must be borne by these nine States, eight of which receive no benefits.

Consider that more than 30,000 acres will be taken to irrigate only 77,000 and that 40 percent of those acres have already been irrigated by private wells at an average cost of one-eighth of what the Federal Government will spend per acre.

Consider that 30 percent of the lands to be irrigated are, in the Bureau's own terminology, class III lands of restricted suitability for irrigation.

Consider that one of the areas destroyed by this project is the only known confluence of six different ecosystems in the United States and that endangered whooping cranes have been recently sighted in that area.

Consider that the Bureau of Reclamation has stated that corn will be the dominant crop to be produced in the irrigated lands. This year, Nebraskan farmers destroyed 400,000 acres of corn—five times the amount to be irrigated—to comply with Federal farm programs.

Consider that a statewide poll by the largest newspaper in Nebraska—Omaha World Herald—found its citizens in opposition to this project by a 2-to-1 margin and that 50,000 Nebraskans have signed a petition to stop its construction.

Consider that the cost of the project will not be repaid to the Treasury until the year 2053, that the payments are interest-free while the Federal Government will have to borrow with interest to cover the costs.

Consider that the project is opposed by the National Taxpayers Union, the National Wildlife Federation, Sierra Club, the Nature Conservancy, the Nebraska Water Conservation Council and others.

Consider, finally, that the Bureau of Reclamation has recognized two alternatives having better benefit-cost ratios at half the cost. Two diversion projects: First, to replenish the aquifier; and second, for surface irrigation.

Mr. Chairman, if this body is to have any credibility whatsoever, it must apply the standards and rigors of our current austerity policies consistently and equitably.

How can we decry the increased cost of food stamps which supply sustenance to the needy, and yet avert our eyes from a 2-year, 60-percent increase for a project of such dubious value that it is not even supported by its home State?

How can we tell millions of social security recipients that the few dollars they receive each month jeopardizes the economic health of the country while we provide $1.2 million to each of 300 farmers?

How can we demand the repayment of student loans in full yet ask for only 12 cents on the dollar on benefits provided to a select few?

How in the world can we expect our constituents to trust their economic fate to leaders who would ask them to pay eight times the average costs for irrigation for a crop we will demand be destroyed? They would be entirely justified in questioning our sanity, let alone our competence.

I do not need to tell either side of the aisle that the faith of our people is being tested in the fires of upheaval, loss, insecurity, despondency, and deprivation. A betrayal at this moment, could mean the irretrievable loss of a generation already buffeted by Vietnam and Watergate. Our demands upon our citizens must be judicious, our burdens eminently equitable.

I do not know the outcome of an anticipated vote on the jobs program title of this bill. I cannot imagine "staying the course" with regard to Americans whose only hope is a job while seeking a "safe harbor" for an expensive few. Such a course only erodes our national unity and our harvest is cynacism and apathy.

The money in the bill for this project is only $500,000. However, $5 million exists from previous appropriations and funding reprograming is possible without a vote from the House. Even a small amount of construction would do irreversible environmental damage and create its own perverse justification for continuing.

I want to emphasize to my colleagues that this vote is every bit as important as those which they will cast on the other two projects considered here today. We are talking about 360 miles of canals and a dam that is over 200 feet high and over a mile long. We are talking about the expenditure of at least one-third of a billion dollars. But unlike the other two projects, Members can stop this highly questionable project with very little unrecoverable costs to the country. This project is less than 2 percent completed, no land has been purchased, no environmental damage done.

I ask Members to allow us a year to seek deauthorization of this project and to show the country that all of our expenditures are based upon the same standard: need and merit.

I reserve the balance of my time.

□ 1800

The CHAIRMAN pro tempore. The gentleman from Michigan (Mr. BONIOR) has consumed 8 minutes.

Mr. BEVILL. Mr. Chairman, I rise in opposition to the amendment offered by my good friend and colleague, the gentleman from Michigan.

The CHAIRMAN pro tempore. The gentleman from Alabama (Mr. BEVILL) is recognized for 15 minutes.

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to the gentleman from Missouri (Mr. YOUNG).

Mr. YOUNG of Missouri. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I would like to direct my remarks to Congressman BEVILL, chairman of the Subcommittee on Energy and Water Development, of the Committee on Appropriations.

Mr. Chairman, as you are aware, over the last 10 days the Midwest was subject to one of the worst floods in this century. My own district in Missouri was the site of the most severe flood in recorded history. Thousands

of families have been left homeless and the total damage has been estimated to be several hundred million dollars. One of the areas that was hit hardest by the floodwaters was the area along the Meramec River. Almost a year ago, this Congress passed Public Law 97-128, which deauthorized several Corps of Engineers projects, including the Meramec Park Lake and Dam which would have reduced the damages from the recent flooding.

Public Law 97-128 also included a provision which would provide for flood control prevention consisting of structural and nonstructural measures along the lower Meramec River.

Mr. Chairman, I am aware of the tremendous constraints which the Committee on Appropriations is under in providing for all the different needs of the Members of this body. I am also aware that the energy and water development appropriations bill provided funds to initiate the flood control study which will help prevent the tragic disaster of flooding that has taken place in Missouri. I want to commend the members of the committee for including the funds for the lower Meramec flood control project in the House version of the bill.

Mr. Chairman, on December 10, 1982, the President declared 15 counties in Missouri as Federal disaster areas due to the severe floods and damages that I have discussed. It is absolutely essential that we begin the needed flood control work as soon as possible.

Mr. Chairman, it is my understanding that the Appropriations Committee will include the funds necessary to begin this work in the House version of the energy and water development appropriations bill that will be brought to the floor early in the 98th Congress. Mr. Chairman, I would like to ask if that is your understanding as well.

Mr. BEVILL. That is correct.

Mr. YOUNG of Missouri. I thank the gentleman.

Mr. BEVILL. Mr. Chairman, I oppose this amendment. I do not think that this amendment is in order at this time because this project is in court. The President requested $700,000 for the project in fiscal year 1983. The committee did not put any money in the bill for the project.

I assume what my good friend and colleague from Michigan is seeking to do with his amendment is to stop the court proceeding. That is exactly what would be the result if his amendment passed. It just tells the court, "You cannot go any further."

I say that because if one reads the amendment, it says that none of the funds appropriated by the joint resolution—and there are none—or by any act shall be available for any activity relative to the construction of the O'Neill irrigation unit in the State of Nebraska.

□ 1810

So actually, Mr. Chairman, I would say that this amendment is premature. It should not be here. The court is considering this matter.

This is a multipurpose project. It provides irrigation, recreation, fish and wildlife, and flood control benefits. It is a project that has had considerable study, and considerable study is going on now. If we adopt this amendment, the court cannot act. I think that is wrong. Congress traditionally leaves these matters for the courts to decide when they are in court. We should let the court act on it.

So, Mr. Chairman, I urge that the Members defeat this amendment.

Mr. Chairman, I yield such time as she may desire to the gentlewoman from Nebraska (Mrs. SMITH), who is a valued member of the Subcommittee on Energy and Water Development.

Mrs. SMITH of Nebraska. Mr. Chairman, I thank the gentleman from Alabama for yielding me this time.

I oppose the amendment by the gentleman from Michigan. I speak on behalf of the people of the Third Congressional District of Nebraska with respect to the vital water-conserving project in my district known as the O'Neill Unit of the Pick-Sloan Missouri River Basin development program.

I am here because the gentleman from Michigan is offering an amendment that would deny any further funding for this excellent, desperately needed multipurpose reclamation project.

This amendment would inflict destructive mischief working against the interests of both proponents and opponents of the O'Neill unit.

This is true because the O'Neill unit and the question of its funding is in litigation, with a trial being imminent in the Federal District Court of Nebraska even as I address the House. The issues in that trial are the very ones that have been raised repeatedly already in many hearings and in several debates here in the House and now again in this debate.

The litigation of which I speak could settle all these issues once and for all if the judicial process is allowed to proceed. But if the House again attempts to legislate answers to these issues, the questions will remain, I fear, simply because Congress has repeatedly examined, reexamined, reauthorized, funded, studied, and restudied again as it has repeatedly approved this project for construction every year since 1974.

In 1977, opponents of the project, having failed to persuade either the Congress or the executive branch of the merits of their opposition, turned, as they should, to the courts to seek redress. And that is exactly what should be allowed to proceed in normal fashion to formal decision and thence to appeal. In the meantime, a court order prohibiting construction remains in effect, as it has since March 4, 1977.

Therefore, I implore my colleagues to act responsible and wisely in this matter, to reject this unfair amendment and any other improper and irresponsible legislative amendments relating to the O'Neill unit, and to help me discourage any other restrictive or limiting amendments relating to this project. I am simply asking the House, and later I will ask any other opponents, to let the judiciary work its will on this matter.

How wise a course this would be is strikingly demonstrated by the litigation involving the Garrison project in North Dakota. There, on May 6, 1981, the court ruled, in effect, that construction could not be resumed until Congress reauthorized the project. On November 20, 1981, the House refused by an overwhelming vote of 317 to 67, to overturn the court's ruling. And all for the best, too. Subsequently, on May 7, 1982, an appeals court reversed the lower court's demand for reauthorization, vindicating the House's position, preserving clear separation of powers between legislative and judicial branches, and avoiding setting dangerous precedent in judicial concrete.

In the lawsuit involving the O'Neill unit, if the court rules adversely to the project's supporters, the project almost certainly will face further congressional action aimed at reauthorization or be dropped from further consideration. If the court rules for the project, there will be ample time for the gentleman from Michigan, Delaware, and others to express themselves in regular hearings on this project and the 900 or more others whose funding is considered and recommended annually by my Appropriations Subcommittee on Energy and Water Development.

In brief, the main issue being addressed in the lawsuit of major concern to the Congress is whether Congress must reauthorize the project before construction can be resumed. The project's opponents insist that reauthorization is mandatory because the indexed cost estimate allegedly exceeds the indexed ceiling authorized by the Congress as the result of supposed improper changes in indexing procedures and as a result of ostensibly unauthorized design changes in the project's principal dam. The court also will rule on whether the Bureau of Reclamation has adequately addressed three technical defects in the environmental impact statement.

According to research by the legal division of the Congressional Research Service, Congress has not yet passed any law requiring that a project be re-

authorized when the estimated project cost exceeds the indexed authorized ceiling. Nevertheless, if Federal courts should cloud the legal situation by requiring reauthorization under these circumstances, the Bureau has indicated that it would not engage in construction until Congress acted positively to reauthorize.

Some opponents have suggested that without restrictive amendments, a favorable court order would result in an all-out construction effort of the O'Neill unit before congressional action could halt it. But even if no appeals are taken, the Bureau of Reclamation could not possibly even award construction contracts in less than 1 year even though the authorizing statutes permit the Bureau to shift limited funds from one project to another to avoid costly construction delays.

Furthermore, this continuing resolution provides not even one red cent of new construction funds—just because the court has forbidden further construction, and because the costs of conducting the Government's defense in the suit can be paid out of administrative costs.

But with any amendment prohibiting use of even administrative funds for meeting court costs, a gross injustice would be inflicted upon the U.S. Government and the proponents of the project. It would also be improper interference with the judicial process. The will of Congress and of the executive branch would be thwarted and aborted in a way repugnant to those who cherish fairplay and the hopes that our Government is not only a Government of laws but of orderly, reliable, understandable procedures.

Here is how the will of Congress and of the executive branch has been expressed with respect to the O'Neill unit.

The project was first authorized in 1954 and reauthorized in 1972 by Public Law 92-514, planning funds were made available in 1974, and construction funds in 1976. The Congress, having thus unequivocally in the most positive possible fashion endorsed, supported, and advocated the construction of the O'Neill unit, has in every year since 1976 provided construction funds for the project until fiscal year 1983 because all preconstruction work has been completed permissible under the existing court order.

Even so, the House Appropriations Committee Report No. 97-850 accompanying our bill, H.R. 7145, on page 157 states:

> O'Neill Unit, Neb.—The Committee, without prejudice, has deleted funds contained in the budget for the O'Neill Unit in Nebraska pending resolution of the current court litigation. Because of the litigation, there is no present requirement for funding. If the Court decides in favor of the project, the Bureau of Reclamation may utilize available funds to continue the project.
>
> The Committee wishes to emphasize its continued strong support for the O'Neill Unit and will recommend additional funding as needed in future appropriation bills.

Nevertheless, opponents of the project continue to question the wisdom of Congress in funding its construction in annual appropriations bills—and, of course, that is the way it is supposed to work. Indeed, I note that the gentleman from Michigan has not previously given my subcommittee the benefit of his views on the O'Neill unit in the comprehensive hearings held each spring here in room 2362 of the Rayburn Building, and I invite him and any other colleagues who have views, pro or con, to do so at the very next opportunity. After all, every year, our subcommittee's hearings attract more than 2,000 witnesses, many of whom come thousands of miles at their own expense, to express their views on water projects in every stage of planning, construction, operation, and repair.

In addition to the continued strong support of the U.S. Congress for the O'Neill unit, seven Presidents, including both Jimmy Carter and Ronald Reagan, have endorsed and supported this project not only in their budgets but in testimony by their respective Secretaries of the Interior, the Commissioners of the Bureau of Reclamation, all Governors of Nebraska since the project was authorized in 1954, nearly all Nebraska Members of Congress from the State, the State AFL-CIO trade union organization, dozens of mayors, chambers of commerce, water-planning organizations, the Nebraska State Legislature, and even the Sioux Indians who live adjacent to the project site in north central Nebraska.

Let me emphasize that the AFL-CIO sends a representative at union expense to testify every year in support of the O'Neill unit before our subcommittee because of the enormous economic benefits the project would provide—benefits that are obvious to everyone except the small group of opponents. Here is what the union representative said in his testimony in 1981:

> We represent approximately 12,000 members. Our unemployment is more severe now than ever before. We need some work—not extended unemployment benefits, food stamps, and other Federal assistance!

What he clearly recognized was that the O'Neill unit would create not only construction jobs during the 10 years of construction but others as the $153 million annual economic benefits, estimated by project supporters, ripple throughout the national economy. The union leader's testimony this year was essentially the same, noting additionally that "Our unemployment has not improved, in fact, conditions are worse."

Additionally, I wish to make the committee aware of a test to which the O'Neill unit was subjected—a unique test to which no other similar project has been subjected—and the O'Neill unit came through with flying colors.

The test was agreed to by both proponents and opponents because of the continuing criticism of the project. The House Appropriations Committee in its report on the fiscal year 1982 funding bill, directed that the Bureau of Reclamation conduct a new 120-day reconnaissance study of alternate methods of providing water service to the O'Neill unit area.

The Bureau scrutinized nine proposed alternative plans. The purpose was to see whether, before undertaking major construction, another hard look at the situation might turn up some less expensive plan to achieve the same results in light of the rapidly changing economic situation.

The Bureau's report, issued in October 1981, reveals clearly that the only practical, feasible way to provide vitally needed water to the O'Neill unit project area with certainty and within a reasonable time is through construction of the O'Neill unit as authorized by law.

Perhaps most important of all, the local people in the project area overwhelmingly support the project—voting 77 and 78 percent for it in two separate referendums in 1979—to ratify water repayment contracts and other contractual arrangements for distribution of the water at considerable cost to themselves, and pledging to repay Uncle Sam millions and millions of dollars directly back into the U.S. Treasury.

In spite of all this, the small group of opponents have proven themselves exceedingly successful in making headlines by attacking the O'Neill unit, alleging over and over again that support for the project is fading. There is no hard data to substantiate this allegation.

Indeed, it is quite possible that whenever the project is studied objectively and fairly by openminded disinterested persons, new advocates are won for it.

On February 26, 1982, the Nebraska Legislature's Public Works Committee held a widely publicized hearing on the O'Neill unit. At least 8 individuals and representatives of 45 organizations with memberships and populations totaling more than 296,763 persons from every aspect of the State's political, civic, and economic life crowded into the hearing room in support of the project, representing many, many areas outside the Third Congressional District.

At this hearing, only 13 individuals and 12 representatives of mostly environmental organizations with less than 5,000 members in the State opposed the O'Neill unit.

Nevertheless, in spite of this outpouring of support for the O'Neill unit, despite the Nebraska Legislature's repeated endorsement of the project, one of our State senators had the temerity to write to Chairman WHITTEN and my subcommittee Chairman BEVILL on July 13, 1982, as follows:

Popular support for the project . . . in recent times has eroded here in Nebraska. This year, the Unicameral [that's our legislature] tried, but failed to pass, a formal resolution in support of the O'Neill unit. This is the first time such a resolution was effectively blocked. The significance is obvious. It is abundantly clear that the vast majority of Nebraskans no longer support the project.

The senator did not bother to give me a copy of his letter, but of course Chairman WHITTEN and Chairman BEVILL turned to me for an explanation as the official representative of the district in which the O'Neill unit is located.

For the RECORD I wish to submit both the State senator's letter and responses to Chairman WHITTEN and Chairman BEVILL from two distinguished Nebraska chairmen of legislative committees with jurisdiction over public works in my State, Hon. Loran Schmidt, chairman, agriculture and environment committee, and Hon. John W. DeCamp, chairman, public works committee.

I quote from Chairman DeCamp's letter:

There was no attempt to even take up the resolution (endorsing the O'Neill unit) this session of the Legislature because this session . . . was so tied up with battles over budget matters. . . . There has never been serious opposition at any time to this resolution. . . . There is no doubt . . . that there were the votes to pass the resolution.

Mr. Chairman, as with all important, large-scale undertakings, there are good arguments for and against the O'Neill unit, and reasonable, honest men can disagree over whether the weight of the argument is on one side or the other. I do deeply resent the enormous amount of misinformation and misleading statements that opponents of the O'Neill unit have persisted in distributing among Members of Congress. While it is extremely easy to be against a dam in somebody else's district, with or without reliable information about it, it is extremely difficult for proponents to counter and rebut false allegations.

I know, for example, that the gentleman from Michigan does not mean to oppose the project superficially without careful analysis. I am sure that so far he has relied on trusted counselors, who in this case obviously do not understand the intensifying shortage of water in the West nor the necessity for the measures contemplated in Federal water projects generally and in the O'Neill unit particularly. I regret that the gentleman from Delaware has allowed his name to be used as the author of an article in the Christian Science Monitor on September 22, 1982, filled with the same sort of wrongful assumptions and misinformation as was contained in the State senator's letter to my distinguished chairmen. If he had given me the opportunity, I would have been happy to respond to each concern expressed in the article. I am still glad to do so—if wanted.

Furthermore, while debates in the House on this project are readily available and while I have wearied my colleagues by sending much additional factual material in an effort to counter wrongful information, I stand ready to provide still more information to anyone who asks for it. I would be happy to try to respond to any concern and to any question expressed by Members.

In conclusion, an amendment to deny all funding to the O'Neill unit would in effect establish an unprecedented mechanism for deauthorizing public works projects of the Bureau of Reclamation.

This is an issue that should be dealt with carefully by the authorizing committee through the usual legislative process—certainly not in haste in a "lameduck" session of Congress and most certainly not in this offhand fashion in an appropriations bill.

It is true that the Army Corps of Engineers has an established procedure for deauthorizing its projects. But it is also thru that no Bureau of Reclamation project has ever been deauthorized, and no system exists for doing so.

Therefore, I hold that it is unfair, unjust, and unconscionable to deauthorize the O'Neill unit in the manner contemplated through such a denial of funds without hearings, without giving the people of Nebraska an opportunity to effectively respond to the proposal, and without allowing the time-tested congressional legislative process to be brought fully to bear on the issues.

And now, for the RECORD, I submit a statement containing full information about the O'Neill unit and why the promises of the Federal Government to the people in the project area should be forthwith fulfilled after 27 years of waiting.

The statement follows:

O'NEILL UNIT, PICK-SLOAN MISSOURI BASIN PROGRAM, NEBRASKA

The O'Neill Unit, authorized by the Reclamation Project Authorization Act of 1972, Public Law 92-514, on October 20, 1972, is a multipurpose project to serve the functions of irrigation, recreation, fish and wildlife, and flood control. Norden Dam and Reservoir would be constructed on the Niobrara River to store and divert water. Regulated irrigation releases would supply water to 77,000 acres of irrigable land. Recreation and fish and wildlife enhancement facilities also are included.

The economic justification of the O'Neill Unit is favorable. Based on projected October 1982 price levels, the cost of the unit is estimated to be $364,560,000. The ratio of benefits to costs is estimated to be 1.3 to 1, based on direct benefits only, and 1.6 to 1, based on total benefits. About 95 percent of the cost of the unit will be repaid by direct beneficiaries and Pick-Sloan Missouri Basin Program power revenues.

Numerous alternatives to the O'Neill Unit were examined in the final environmental statement and supplements and the October 1981 Alternatives Study. None of those alternatives proved to be superior to the authorized O'Neill Unit.

Currently, an injunction by the United States District Court of Nebraska is barring construction activities on the O'Neill Unit. Reclamation has provided all of the material requested by the court to set a hearing date. If and when the injunction is lifted, Reclamation intends to proceed with construction of the O'Neill Unit as funds are provided by the Congress in subsequent appropriation bills.

The fiscal year 1982 budget provided $500,000 for the 120 day Alternative Study, O'Neill Unit. The President's budget request for fiscal year 1983, which presently is before the Congress, includes $700,000 for the unit.

The appropriations authorized are $329,728,000 (October 1982). The comparable Federal obligation is $364,560,000. This exceeds the ceiling by more than 5 percent but the differential is less than the amount for contingencies included in the obligation. Appropriate congressional committees have been advised of the estimated ceiling and obligation status for this project. Additional appropriation ceiling will be requested when it appears certain that this cost will exceed the authorized ceiling limitation.

The unit is 2 percent complete. A bridge on the access road to Norden damsite was completed in November 1976. Since the March 4, 1977, injunction by the United States District Court, only limited preconstruction work in compliance with that court order has been undertaken. Upon removal of the injunction, efforts in fiscal year 1983 would be to prepare specifications for the construction of Norden Dam and to improve the county road for access to Norden damsite leading toward the early resumption of construction as directed by Congress.

The O'Neill Unit would supply water to irrigate about 77,000 acres. About 30,000 acres would be required for construction of the O'Neill Unit. Of that amount, about 22,000 acres is for Norden Dam and Reservoir and approximately 8,000 for canals and laterals. Of the 22,000 acres acquired for the dam and reservoir, production from 6,375 acres would be permanently lost due to inundation by water stored in the reservoir. In addition, production for the 8,000 acres needed for canals and laterals would also be lost. The lands from which production would be lost are as follows:

	Reservoir acres	Canals and laterals [1] acres
Cropland	226	[2] 6,000
Grassland	2,482	2,000
Forest	2,382	
Riparian	785	
River water surface	500	
Total	6,375	8,000

[1] Estimated.
[2] Estimated 4,000 acres of dry cropland and 2,000 acres of irrigated cropland—subject to refinement of final alinement of facilities.

Of the remaining 15,700 acres in the reservoir area, about 1,000 acres is cropland. The remainder is grassland (9,800 acres) and forest land (4,900 acres). The cropland would continue to grow crops on a lease agreement as a part of the wildlife management plans. The grassland and forest land would be converted from present uses to wildlife management and recreation areas.

The permanent loss of cropland acres would be about 6,226 acres of which it is estimated the 2,200 acres would be irrigated. About 16,000 acres would be converted from grazing cattle to wildlife management, recreation, and non-use.

Application of irrigation water would have two significant indirect effects—recharge of the declining groundwater table and improvement of groundwater quality. Application of surface water to 69,000 acres in the O'Neill-Atkinson area would recharge the groundwater and sustain irrigation of another 22,000 acres. In addition, average pumping lifts would be reduced from about 200 feet to about 100 feet resulting in a significant energy savings. As groundwater levels in the project area have declined there has been an associated decline in groundwater quality. Recharge of the groundwater would reduce this impact.

By the time the O'Neill Unit is constructed and in operation (10-12 years) the demand for feed grain is expected to increase significantly. Projections show a national increased need for corn production of 10-15 million acres by the year 2000.

The current estimate for costs allocated to irrigation is about $4,500 per acre. Current assessments of market value indicates that the value of other comparable land, after it is provided with a water supply, is about $1,000 per acre, which is below the project's investment cost. However, the direct benefits analysis of irrigation based on farm sizes and crop yields projected to year 2010 indicate that the increased net farm income is greater than the investment costs when both are computed using a 3¼ percent discount rate for a 100-year period of analysis.

The O'Neill Unit is strongly supported by the local people.

Mr. YOUNG of Florida. Mr. Chairman, will the gentlewoman yield?

Mrs. SMITH of Nebraska. I am happy to yield to my good friend and colleague, the gentleman from Florida.

Mr. YOUNG of Florida. Mr. Chairman, I thank the gentlewoman for yielding, and I want to compliment her on her contribution to this debate this afternoon. I remember just a few short years ago when she served with such distinction as a member of the Subcommittee on Foreign Operations, and I recall her helping to develop the information I would like to present to the House at this time.

As we consider the dollars we are spending for an irrigation project in one of our own States, Nebraska, I recall how, thanks to the gentlewoman from Nebraska, we learned that through the World Bank we have helped to finance irrigation and water projects in Afghanistan to the tune of $2 million; in Cameroon, $14.5 million; in India, $126 million; Indonesia, $140 million; Pakistan, $35 million; the Philippines, $150 million; Colombia, $126 million; Guatemala, $72 million; India, an additional $200 million; and Yugoslavia, $73 million. And the list goes on and on.

A lot of those dollars are U.S. dollars, and it just seems to me that if we can be providing irrigation projects for farmers throughout the world, we certainly can be providing much needed water for farmers here at home.

Mrs. SMITH of Nebraska. Mr. Chairman, I thank the gentleman from Florida (Mr. YOUNG).

Mr. ROBERTS of Kansas. Mr. Chairman, will the gentlewoman yield?

Mrs. SMITH of Nebraska. I yield to the gentleman from Kansas.

Mr. ROBERTS of Kansas. Mr. Chairman, I thank the gentlewoman for yielding.

Mr. Chairman, my district and that of my neighbor to the north, represented by the gentlewoman from Nebraska, have a common border of over 200 miles. We both have projects in the Pick-Sloan Missouri Basin plan, and we both share a common problem in our districts of a declining water table.

If we do not begin to take steps right now to really try to preserve our water table, the entire agricultural economy of this area could be placed in jeopardy. We need these projects to help keep the water where it falls and not let it run off.

The O'Neill project is a meritorious project with a high benefit-cost ratio. It deserves our support, and I urge my colleagues to reject the amendment.

Mr. Chairman, we have been down this road before. In 1980 and in 1981 we rejected this proposal during the regular appropriations process. This is the wrong time and it is the wrong place to do this business.

I just heard my colleague, the gentleman from Michigan, make an incredible statement, in which he was describing a $500,000 water research management program in the same context with such issues as our export policy, why farmers are having to tear up their ground due to a farm policy, food stamps, student loans, Watergatge, Vietnam, social security—but he left out the pay raise. We are going to have to give him the Pinocchio award for sticking his nose in other Members' districts.

Mr. Chairman, it is high time that we proceed with this project. But, to begin with, it is not even going to proceed; it is in court. In that regard, this is the wrong way to do business. We should let the courts decide and then proceed.

Mrs. SMITH of Nebraska. Mr. Chairman, I thank the gentleman from Kansas (Mr. ROBERTS).

Mr. REGULA. Mr. Chairman, will the gentlewoman yield?

Mrs. SMITH of Nebraska. I yield to the gentleman from Ohio.

Mr. REGULA. Mr. Chairman, I commend the gentlewoman from Nebraska (Mrs. SMITH) for her efforts to preserve the water supply in her State. In the years to come water is going to be recognized as one of the precious resources of this Nation and will be valued even more highly than presently.

The States that take the initiative in developing water supplies within their boundaries will effectively address what will become an extremely serious problem in the years to come.

It seems to me that this is a project that is directed toward preserving the water that falls in Nebraska and keep it there for the purpose of providing a strong agricultural economy.

We have seen clearly in the debate on the local content bill that one of the key elements in the ability of the United States to work toward a favorable balance of trade is surplus agricultural products that can be sold overseas. Plentiful farm production is dependent on water.

□ 1820

To address a problem in this bill of this magnitude and of this importance to Nebraska and to the gentlewoman's district would be an abuse of the legislative process. This is a continuing resolution. It is designed to keep the Government operating temporarily while we can address these problems in either authorizing or appropriation committees after adequate hearings.

This certainly is not the forum in which we should be taking an amendment that would not have had the proper hearings, that has long-term consequences not only for Nebraska but for the entire United States.

I support the gentlewoman's efforts to oppose this amendment.

Mr. BONIOR of Michigan. Mr. Chairman, I yield 4 minutes to my distinguished colleague from Delaware (Mr. EVANS).

Mr. EVANS of Delaware. Mr. Chairman, I have listened to the debate here and I know the gentlewoman from Nebraska is very much concerned about this project. I realize that there is a water problem in the western part of the United States including Nebraska, but there are cost-effective alternatives with much higher benefit-cost ratios to solve that problem.

A Federal investment of $4,535 per acre is eight times the average amount spent by the private sector to irrigate land. The Federal cost per acre of this particular project is four times, four times the current market value of irrigated land in the project area.

The major crop to be grown is corn, yet Nebraska farmers are participating in acreage reduction programs.

My colleagues, there are approximately 300 beneficiaries under this particular project. Each beneficiary, on average, would in effect be subsi-

dized at a cost of $1.2 million. We simply cannot afford that.

The gentlewoman from Nebraska was absolutely correct in stating that the support for this project in Nebraska was there earlier. It was there earlier, but the benefit-cost ratio has changed substantially and that support has seriously eroded.

In this session of the unicameral legislature in Nebraska, a resolution was introduced to reaffirm the State legislature's support for O'Neill, the project we are discussing.

But what happened? The resolution failed to pass.

I have here a letter from State Senator Don Wesley to Congressman JAMIE WHITTEN, the chairman of the Appropriations Committee, dated July 13, 1982, which says in effect that the lawmakers are not reaffirming their support for this particular project.

The fact that no money is appropriated this year is precisely why we need to act at the present time. The committee report clearly states that if the current injunction is lifted the Bureau of Reclamation may utilize available funds to continue the project.

The O'Neill unit has had its day in court. Now it deserves its day in Congress.

To put it simply, this project costs a lot. It does not help many people. It is environmentally unsound. If I had to put it on a scale of importance ranking from 1 to 10 it would probably have trouble making 1.

I oppose the project not because I have any particular ax to grind or political gain to make. Obviously I do not. The voters have determined that in Delaware.

But I feel strongly about it. I feel that it is not fair for us to spend public money on projects of dubious merit such as this one when we are asking so many Americans to tighten their belts and weather the dark clouds of our economic situation. We are cutting back assistance programs and making other tough decisions all in the name of narrowing the deficit so we can continue our fight to reduce inflation, to reduce the interest rates, and to put Americans back to work. We just cannot talk about getting tough and weeding out unnecessary expenditures in all departments, including the Defense Department, and then go ahead and allow millions of dollars to be spent on a dam we really do not want. That just is not fair.

Mrs. SMITH of Nebraska. I would like to say that the statement about Senator Wesely is not true, and I will refute it in the RECORD by inserting the text of the Senator's letter followed by texts of two letters from Nebraska legislative leaders with jurisdiction over this resolution and this project. The letters follow:

NEBRASKA STATE LEGISLATURE,
Lincoln, Nebr., July 13, 1982.

Hon. JAMIE WHITTEN,
Chairman, Committee on Appropriations, House of Representatives, Washington, D.C.

DEAR MR. CHAIRMAN: Your committee will soon begin acting on the various appropriations bills and the Energy and Water Development Appropriations Bill for FY 83 is expected to contain funding for the O'Neill Unit, a Bureau of Reclamation water project which is part of the Pick-Sloan Missouri Basin Program.

Our Unicameral legislature was asked, by formal resolution, to again support the project. Popular support for the project has existed in previous years, and the legislature has previously endorsed it. Popular support, however, in recent times has eroded here in Nebraska. This year, the Unicameral tried, but failed to pass a formal resolution in support of the O'Neill Unit.

This is the first time such a resolution was effectively blocked. The significance is obvious. It is abundantly clear that the vast majority of Nebraskans no longer support the project.

As a member of the Unicameral who serves on the Public Works Committee, I believe that it is essential that your Committee fully understand the change in the position of the state.

Sincerely,

DON WESELY,
Senator.

NEBRASKA STATE LEGISLATURE,
Lincoln, Nebr., August 4, 1982.

Hon. TOM BEVILL,
Chairman, Subcommittee on Water and Energy Development.
Hon. JAMIE WHITTEN,
Chairman, Appropriations Committee, House of Representatives, Washington, D.C.

DEAR SIRS: Recently you received a letter dated 13 June 1982 from State Senator Don Wesely of the State of Nebraska in which Senator Wesely alleged, "This year, the Unicameral tried, but failed to pass a formal resolution in support of the O'Neill Unit."

Congressman, I want to assure you the letter is totally false and that information is, in the most polite terms, contrary to truth.

There was no attempt to even take up the resolution this session of the Legislature because this session of the Legislature was so tied up with battles over budget matters that I felt it unfair in the last hour of the Legislature to bring the resolution up and put the Legislature into a prolonged debate. There is no doubt in my mind that there were the votes to pass the resolution.

Remember, the Legislature has passed this resolution every timne it has come up in the State of Nebraska. I have been the sponsor each of those times. There has never been serious opposition at any time to this resolution.

Additionally, the legislation necessary for implementation of the O'Neill Project has been passed in previous years, amended as necessary, and always received overwhelming support by the Legislature and a signature by the Governor, be he Republican or Democrat.

The additional statements of Senator Wesely in the letter are equally erroneous. Senator Wesely is an urban senator who knows as much about water and our water needs in out-state Nebraska as a sow does about Sunday. There is no change of position in the State of Nebraska on the Norden Dam and for Senator Wesely to suggest otherwise is irresponsible. It has become popular for a few individuals in the State to campaign in opposition to the project and try to launch their political careers on that basis. It is tragic and unfortunate—but every State has its opportunist—that some of our own people in the State of Nebraska would so eagerly think to cut the throat of agriculture in Nebraska by cutting the throat of the dam.

The purpose of this letter, therefore, is to assure you that the Legislature has done nothing of record except to support the Norden Dam both in the past and up to the present. When and if the Legislature chooses to oppose it, I will be the first to let you know.

Possibly the most important thing to advise you, Congressman, is that when it comes to getting factual information the O'Neill project, the only absolutely reliable source of information at the congressional level is Congresswoman Virginia Smith. This dam has been carefully shepherded through Congress by and through her and I assure you that if anything truly adverse to the interest of the dam were done by the Legislature, she would be the first to know.

Respectfully,

JOHN W. DECAMP.

NEBRASKA STATE LEGISLATURE,
Lincoln, Nebr., August 4, 1982

Hon. TOM BEVILL,
Chairman, Subcommittee on Water and Energy Developments, House of Representatives, Washington, D.C.

DEAR CONGRESSMAN BEVILL: It has been a number of months since you graciously afforded me the opportunity to visit with you in your office about the O'Neill Project here in Nebraska.

I have seen a copy of a letter, dated July 13, 1982, from a colleague of mine—Senator Don Wesely who is an opponent of the O'Neill Project and who has inevitably stated "this year the Unicameral tried but failed to pass a formal resolution in support of the O'Neill Unit. This is the first time such a resolution was effectively blocked. The significance is obvious. It is abundantly clear that the vast majority of Nebraskans no longer support the project."

Senator John DeCamp did not, out of consideration for the serious budget problems which demanded the major portion of our legislative time, attempt to pass the resolution during the 1982 legislative session. There is no doubt in my mind that if he had tried, the resolution would have passed.

Senator Wesely represents the thinking of a small minority of individuals here in Nebraska who are opposed to water storage projects. His thinking is in direct contrast to the thinking of the vast majority of Nebraska citizens. Your colleague and our own Congresswoman Virginia Smith is the single best authority from this state as to the true feelings of Nebraskans on the O'Neill Project. I and most of my colleagues support her wholeheartedly.

We are deeply grateful to you for the support and assistance you have given her on this project which is of vital importance to Nebraska citizens on this issue.

With every best wish, I remain. . .
Sincerely,
Senator LORAN SCHMIT,
CHAIRMAN, COMMITTEE ON
Agriculture and Environment.

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to my friend and colleague, the gentleman from Florida (Mr. GIBBONS).

Mr. BEVILL. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Indiana (Mr. MYERS) the ranking minority member of the appropriations subcommittee.

Mr. MYERS. I thank my chairman for yielding this 1 minute and I will try not to use all of it. I guess everyone says that and few really mean it.

I rise in opposition to this amendment. I shall not speak for the merits of the project. Many people have already addressed that, particularly the gentlewoman from Nebraska who knows this project better than anyone else in this Chamber this afternoon and has done an excellent job in presenting the merits.

The one thing that concerns me is our friend from Michigan I think has gone much further, by reading his amendment here, than he really intends. Chairman BEVILL has spoken of this.

None of the funds appropriated by this joint resolution or by any other Act shall be available for any activity relative to the construction of any irrigation program.

There are no funds in this bill for this project. That is the reason the gentleman had to go beyond this bill. In any other act this particular amendment would be ruled out of order or in any other appropriation, but because the rule provided for it, it has been brought up this afternoon.

But this would deny, as the chairman has said, due process.

This is now in litigation and by denying funds we deny due process. I do not think anyone wants to vote for that.

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to the gentleman from Kansas (Mr. GLICKMAN).

Mr. GLICKMAN. Mr. Chairman, I rise in support of the Bonior amendment.

Mr. BONIOR of Michigan. Mr. Chairman, I yield myself 1 minute just to clarify the remarks that were made by my distinguished chairman of the subcommittee and the gentleman from Indiana (Mr. MYERS).

What we are dealing with here is a continuing resolution and there indeed is money in the continuing resolution for this project because it refers in the energy and water part of the bill to fiscal year 1982 levels. So let us be clear on that.

Second, it has been suggested to me by others that I not stick my nose into other people's districts. My response to that, and I say this with a very kind heart, is that I will stick my nose anywhere in this country where my taxpayers have to pay for projects. They have a right and they demand that I stick my nose into those particular situations.

□ 1830

Third, if I could I would just like to point out to my colleagues that I did come to the committee—the last time I came to the committee I asked them to deauthorize two projects in my own district and they are still there. That is why we have to come to the floor in such unusual situations to address perhaps one of the biggest boondoggles in this bill.

Mr. Chairman, I yield 2 minutes to my distinguished colleague from Iowa (Mr. BEDELL).

Mr. BEDELL. Mr. Chairman, I think it is important that we understand exactly what we are attempting to do here.

First of all, I have the greatest regard for my friend from Nebraska. I have been to the committee. I have talked to my friend from Nebraska. I happen to believe that we have a duty to determine how taxpayers' money is best spent. I believe that is the duty that we have. And the gentleman from Michigan is right. We are going to vote now as to whether we should go ahead with this project or whether we should not go ahead with this project.

We should understand several things. It is said that 90 percent of the money will be paid back. It will be, but not by the irrigators. It will be paid back by users of power and this project generates absolutely no power. The irrigators will pay back 13 percent of the amount of the cost of this. This project will cost some $368 million to irrigate less than 300 Nebraska farms—more than a million dollars per farm. It will cost $4,500 per acre to increase the value of that land by less than $1,000. Does that make any sense at all in expenditures of taxpayers' money?

The purpose of this irrigation is to enable farmers to grow more corn. Mr. Chairman, our problem today is we have too much corn and too much other grain. We are paying farmers to destroy their corn, and taxpayers are paying billions of dollars to store our bulging surplus. Does it make any sense at all to anyone in this Chamber to say that we should spend hundreds of millions of dollars in order to grow more corn and then turn around and pay those same farmers millions and millions of dollars not to grow corn in our society?

Mr. Chairman, this project never did make sense. It makes less sense today. I do not believe we should spend money we do not have to produce corn and other crops that we do not need. Being a long-time opponent of this project, I am pleased to associate myself with this effort.

There are few decisions we must make that are so black and white and few issues where the evidence falls so overwhelmingly on one side. With annual deficits of $175 billion facing the Nation nothing should be so priviledged as to be sacrosanct from the detailed scrutiny necessary to assure fiscal responsibility.

The O'Neill project involves the construction of a dam on the environmentally unique Niobrara River and a 28-mile diversion canal to deliver water to 77,000 acres of land, half of which is already irrigated through private development. Providing irrigation to these 77,000 acres, however, would require inundating 30,000 acres. Only 12 percent of the acreage to be irrigated is class I farmland—land to which irrigation poses only minimal hazards. Nearly one-third is class III land which contains soil that has only marginal ability to hold water, meaning that irrigation water may pass right through the soil, carrying contaminants with it to the ground water below.

The cost of the project has again skyrocketed, this year by over $30 million from fiscal year 1982 to $368 million in fiscal year 1983, which means a taxpayer outlay of more than $1.2 million for each of the less than 1 percent of Nebraska's farms that would benefit from the project. The present projected cost of O'Neill is $4,535 per acre, up from $4,130. It is estimated that the market value of the land will increase by much less than $1,000 per acre. Does it really make sense, Mr. Chairman, for us to spend $368 million of taxpayers' money to irrigate 300 farms and increase the value of the land by far less than 25 cents for every dollar spent?

I would hope that these illuminating figures are enough to convince my colleagues of the necessity for this amendment. There are, however, several important developments that need attention as well.

First and foremost concerns the justification for the project. The major purpose of the project is to provide water for corn production precisely at the same time as Agriculture Secretary Block is desperately attempting to control oversupply and stimulate weak demand. To worsen this bleak situation, the Bureau of Reclamation noted in its project data sheet for this year that "a higher proportion of corn is expected with application of project water." Finally, to add insult to injury and heighten the sheer folly of the need for this project, I call attention to an article in the Omaha World-Herald on August 24. The headline reads "Farmers Destroy 400,000 Acres of Corn." These Nebraska farmers were forced to destroy this corn in order to comply with the administration's set-aside program aimed at re-

ducing the flood of corn the market is drowning in. And according to ASCS, farmers in my State of Iowa had to destroy 554,000 acres during this time in order to comply.

Mr. Chairman, needless to say, our midwest agricultrual economy is devastated. Not since the Great Depression have conditions and future prospects been so dismal, and yet the Interior Department is proposing to spend Federal money we do not have to produce more and more corn we do not need. Funding the O'Neill project distorts the market forces of supply and demand by exacerbating our problems with excessive supply. It also gives an unfair advantage to the less than 1 percent of Nebraska's farms that would receive this heavily subsidized water. The other 99 percent must complete without this substantial advantage.

Second and perhaps equally important, there is no consensus on this project. Intense and organized opposition exists both within the project area and around the State of Nebraska. Additionally, our colleague DOUG BEREUTER conducted a poll in his district and found that only 17 percent favored the project while a majority of 54 percent were opposed.

Mr. Chairman, it is clear to me, and I hope to our colleagues as well, that the O'Neill project is an expensive, unwarranted, and unneeded pork barrel boondoggle. I strongly believe that we must not allow the expenditure of funds for this project during these times of massive budget deficits, especially when no consensus of opinion exists in support of it.

I commend Messrs. BONIOR and EVANS for this worthy and needed amendment, and I urge its adoption.

Mr. BEVILL. Mr. Chairman, I yield 1 minute to the gentleman from Nebraska (Mr. DAUB).

Mr. DAUB. Mr. Chairman, I rise not only in opposition to this amendment but to simply point out that regardless of the merits of the matter before us today, to wake up and see that your constituency is blindsided by a rule that talks about the authorizing language that would not ordinarily belong in an appropriating measure is wrong. It is bad precedent. For that very reason I say let the courts decide, as it is scheduled to be decided in March of next year, and I urge the Members with all due respect to vote this amendment down.

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to the gentleman from Louisiana (Mr. LIVINGSTON).

Mr. LIVINGSTON. Mr. Chairman, I rise in opposition to the amendment and associate myself with the remarks of the gentleman from Nebraska.

Mr. BEVILL. Mr. Chairman, I yield the balance of the time on this side to the chairman, the gentleman from Mississippi (Mr. WHITTEN).

Mr. WHITTEN. Mr. Chairman, this is an example of what your committee was up against in this whole continuing resolution. I do not believe there is a controversy on the Hill on which one side or the other did not try to get us to enlist the Congress on their side of the argument. This matter is in court. And I think to form the policy of interfering where the controversy is in court would be all out of order.

With all due deference to the feelings of our friends, that is what courts are for and we should not enlist this Congress on either side of this issue.

So I hope the amendment is defeated.

Mr. EDWARDS of Oklahoma. Mr. Chairman, will the gentleman yield?

Mr. WHITTEN. I yield to the gentleman from Oklahoma.

Mr. EDWARDS of Oklahoma. Mr. Chairman, I oppose the amendment.

The CHAIRMAN pro tempore. All time has expired.

The question is on the amendment offered by the gentleman from Michigan (Mr. BONIOR).

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

Mr. BONIOR of Michigan. Mr. Chairman, I demand a recorded vote and, pending that, I make the point of order that a quorum is not present.

The CHAIRMAN pro tempore. Evidently a quorum is not present.

The Chair announces that pursuant to clause 2, rule XXIII, he will vacate proceedings under the call when a quorum of the Committee appears.

Members will record their presence by electronic device.

The call was taken by electronic device.

□ 1840

QUORUM CALL VACATED

The CHAIRMAN pro tempore. One hundred Members have appeared. A quorum of the Committee of the Whole is present. Pursuant to rule XXIII, clause 2, further proceedings under the call shall be considered as vacated.

The Committee will resume its business.

RECORDED VOTE

The CHAIRMAN pro tempore. The pending business is the demand of the gentleman from Michigan (Mr. BONIOR) for a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 245, noes 144, not voting 44, as follows:

□ 1850

Mrs. SNOWE and Mr. HANSEN of Idaho changed their votes from "aye" to "no."

Messrs. DOUGHERTY, BIAGGI, BARNARD, and COLLINS of Texas changed their votes from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. CONTE

Mr. CONTE. Mr. Chairman, I offer an amendment which was made in order by the rule and duly printed in the CONGRESSIONAL RECORD.

The Clerk read as follows:

Amendment offered by Mr. CONTE: On page 10, in line 3, after "1982" insert ": *Provided further,* That no appropriation, fund or authority made available by this joint resolution or any other Act shall be used for construction of the Garrison Diversion Unit in North Dakota".

The CHAIRMAN pro tempore (Mr. MITCHELL of Maryland). Pursuant to the rule, the gentleman from Massachusetts (Mr. CONTE) will be recognized for 15 minutes, and a Member opposed to said amendment will be recognized for 15 minutes.

The Chair recognizes the gentleman from Massachusetts (Mr. CONTE).

Mr. CONTE. Mr. Chairman, I yield myself such time as I may consume.

□ 1900

Mr. Chairman, I rise in support of my amendment to stop wasting taxpayers' dollars on the Garrison diversion unit in North Dakota. This kind of Federal boondoggle would have been stopped long ago by commonsense alone, were it not for the fact that in the arena of pork barrel politics, commonsense is often the least common of all the senses.

The Garrison project is a continuing threat to Canadian interests. As this map illustrates, the Garrison project meanders back and forth across the divide between the Missouri River drainage basin, which drains to the south, and the Hudson Bay drainage basin, which drains north into Canada. Seventy-nine percent of the project is north of the divide.

According to the report of the International Joint Commission, which was assigned to investigate Canadian concerns about Garrison pollution of Canadian waters, the Garrison project "would cause significant injury to health and property in Canada as a result of adverse impacts on the water quality and on some of the more important biological resources in Manitoba." There would be increased phosphate and nitrate runoff pollution in the Red and Souris Rivers, and the introduction of American rough fish into Canadian waters. Scientists estimate that once introduced into the Canadian watershed, these fish could absolutely devastate Manitoban commercial and sport fishing in Lake Winnipeg.

The proponents of this project claim that Canadian concerns have been dealt with by moving forward only with phase 1, which includes features only in the Missouri River basin watershed. This is not true.

A number of technical features that are necessary to prevent the transfer of harmful American fish and irrigation pollutants into Canadian waters, such as fish screens and sand filters, have yet to be perfected. In addition, the Bureau of Reclamation has indicated that a proposed siphon that would carry the new Rockford Canal under the Sheyenne River near Devils Lake could, through seepage and routine cleaning and maintenance, result in the transfer of American rough fish to Canadian waters.

Mr. Chairman, at this point I would like to insert letters from the Canadian Ambassador and the premier of Manitoba regarding this project.

CANADIAN EMBASSY,
Washington, D.C., November 29, 1982.

Hon. SILVIO CONTE,
House of Representatives, Rayburn House Office Building, Washington, D.C.

DEAR MR. CONTE: The Premier of the Province of Manitoba, the Honourable Howard Pawley, has asked me to bring to your attention the attached letter which sets out the Province's concern about funds being appropriated for the Garrison water diversion project in fiscal year 1983.

The Government of Canada shares Manitoba's concern. We continue to have apprehensions about the project's potentially adverse transboundary effects as identified by the International Joint Commission. The Commission concluded that the project as now designed would have seriously damaging effects on Manitoba waters in violation of the Boundary Waters Treaty between Canada and the United States.

We deeply appreciate the recognition of Canadian concerns by Congress in previous Garrison appropriation votes in stipulating that funds be spent only on portions of the project not affecting Canada. At the same time, we see danger in continuing construction momentum in the absence of project redesign that would avoid water flows into Canada. I would be grateful if you would bear these Canadian concerns in mind in your forthcoming deliberations on the Garrison Diversion appropriation.

Yours sincerely,

ALLAN GOTLIEB,
Ambassador.

THE PREMIER OF MANITOBA,
Winnipeg, November 29, 1982.

Mr. SILVIO O. CONTE,
House of Representatives, Rayburn Building, Washington, D.C.

DEAR REPRESENTATIVE CONTE: The House of Representatives will be voting soon on the 1983 Energy and Water Development Bill which contains a $4 million appropriation for construction of the Garrison Diversion Project in North Dakota. The Manitoba government is opposed to the appropriation of additional funds for this project before the outstanding issues between Canada and the United States are resolved in accordance with the Boundary Water Treaty.

In June of this year, a Canadian Parliamentary delegation, composed of representatives of both the federal and Manitoba governments and the country's three major political parties, met with members of the House of Representatives. During those meetings, the delegation stated that the inter-basin transfer of water could have a disastrous impact on Manitoba by reducing water quality and destroying the province's multi-million dollar fishing industry. These concerns have been supported by the findings of the studies conducted by the International Joint Commission.

Additional funding for the project at this time would increase momentum toward completion of a project inconsistent with both the treaty signed by our two countries and formal U.S. government assurances that bilateral issues would be resolved before construction proceeds on project features which could affect Manitoba. For these reasons, I urge you not to support additional funding for Garrison at this time so that the project may be redesigned to meet the needs of North Dakotans for water and to eliminate the risk that inter-basin transfer of water creates for Manitobas.

Yours sincerely,

HOWARD PAWLEY.

Mr. Chairman, even if phase I of the Garrison project does not violate our treaty with Canada, the project is still economically absurd. Phase I would require the construction of nearly all Garrison unit reservoirs and pumping stations and 67 percent of the 258

miles of canals, but will irrigate only 34 percent of the original 250,000 acres of land. This would bring the estimated benefit-to-cost ration down to 0.92 to 1 using a 3.125-percent interest rate. With a more realistic 7.625-percent interest rate, the benefit/cost ratio drops to 0.43 to 1.

This type of nonreturn on the taxpayers' investment is even more outrageous when you consider that the total authorized project cost of $207 million in 1965 has now escalated to over a billion dollars.

Finally, Mr. Chairman, this project would result in the greatest single unit loss of prairie wetlands in North Dakota history—over 70,000 acreas of prime prairie waterfowl marshes. It would destroy or damage 13 national wildlife refuge areas, and severely hamper North Dakota's status as the producer of more ducks annually than any State except Alaska. The proponents of this project claim that mitigation efforts are underway, but in fact, Mr. Chairman, the Federal-State Committee created to come up with a migratory waterfowl mitigation plan will not even issue its report until December 30 the end of this year.

Mr. Chairman, this project is only 15 percent complete—only the McCluskey Canal, shown in green on this map, has been finished. The time to stop this travesty is now—before we sink another dime into it. This amendment is endorsed by the Wildlife Management Institute, the National Audubon Society, the National Taxpayers Union, the Coalition for Water Project Review, the Environmental Policy Center, Friends of the Earth, the National Wildlife Federation, the Natural Resources Defense Council and the Sierra Club. I ask that correspondence from these organizations be included in the RECORD, and urge the adoption of this amendment.

WILDLIFE MANAGEMENT INSTITUTE,
Washington, D.C. December 6, 1982.

DEAR CONGRESSMAN: We understand the House of Representatives soon will take up the fiscal year 1983 Energy and Water Appropriations bill. Among the items to be considered will be an amendment by Mr. Conte to delete funding for the Garrison Diversion Project in North Dakota. That amendment deserves your careful attention.

It is estimated that this Bureau of Reclamation project ultimately will cost taxpayers over $1 billion. In addition, there are a number of project costs beyond dollar expression, such as its devastating impacts on fish, wildlife and their habitats. Adverse impacts that should be prevented include—

Garrison will destroy some 70,000 acres of prime wetlands in the State of North Dakota and will degrade or destroy 12 national wildlife refuges—all located in the Central Flyway for migratory birds. Substantial numbers of migratory birds are produced annually in North Dakota, including more ducks than in any other state except Alaska. Garrison will remove prime habitat migratory birds depend on for food, reproduction and survival.

The interbasin transfer of water (from the Missouri River basin to the Hudson Bay watershed) could destroy more than half of the fishery in Manitoba. The International Joint Commission has concluded that the Garrison project would violate the Boundary Waters Treaty between the U.S. and Canada.

Despite these anticipated adverse impacts on national and international resources, plans and actions to avoid the losses or replace the economic resources have been inadequate or lacking. The Department of the Interior at one time concluded that approximately 146,000 acres were needed to replace wildlife habitat losses caused by the project and questioned if that acreage was adequate. To date, only about 8,000 acres have been set aside to replace project-induced losses. There are no plans to add more acreage at this time, even though project construction is moving forward.

We understand the Department of the Interior is working on a re-evaluation of the Garrison project. A revised plan to prevent and compensate for project-induced habitat losses is to be released before the end of 1982. It is obvious that a revised plan is needed.

In view of the inadequate Garrison Diversion Project plans, it is believed that Mr. Conte's proposed amendment deserves support.

Sincerely,

DANIEL A. POOLE,
President.

COALITION FOR
WATER PROJECT REVIEW,
Washington, D.C., November 29, 1982.

Hon. SILVIO CONTE,
House of Representatives,
Washington, D.C.

DEAR REPRESENTATIVE CONTE: The House will soon consider the FY83 Energy and Water Appropriations bill (H.R. 7145). When it does, Congressman Conte will offer an amendment to delete funding for the Garrison Diversion project, a Bureau of Reclamation project in North Dakota. You supported Congressman Conte in a similar effort last year and we strongly urge you to support him again in his effort to halt further spending on the Garrison project until the massive environmental, international and economic problems created by the project are resolved.

In September of this year when it appeared possible that the Energy and Water Appropriations bill might be considered by the full House, several of us wrote you about our specific objections to the project. Copies of letters from the National Wildlife Federation, the National Audubon Society, and the Sierra Club are attached. (Also attached for your information is correspondence from Canada's Ambassador to the United States and the Premier of Manitoba to Members of the House Appropriations Committee expressing Canada's concerns about the project.) We will be happy to supply further information about the project if you so desire.

We'd like to express our thanks to you for voting to cut funding for the Garrison project last year. We look forward to your support again of the Conte amendment to delete funding for Garrison.

Brent Blackwelder, Environmental Policy Center; Dave Conrad, Friends of the Earth; Charlene Dougherty National Audubon Society; Ed Osann, National Wildlife Federation; Greg Thomas, Natural Resources Defense Council; and Jim Elder, Sierra Club.

SIERRA CLUB,
Washington, D.C., September 13, 1982.

DEAR REPRESENTATIVE: On behalf of the membership of the Sierra Club, I am writing to urge your support for an amendment Congressman Conte will offer to the FY83 Energy and Water Appropriations bill to delete funding for the Garrison Diversion Project, a Bureau of Reclamation irrigation project in North Dakota. I understand this bill may reach the House floor for consideration in the near future.

The Garrison Diversion project should not receive further funding unless or until the massive environmental and other problems associated with it are resolved. In this time of economic stress and competing priorities for the allocation of the increasingly scarce federal monies, there cannot be any justification to spend federal funds—no matter how little—on a project such as Garrison.

The Garrison project, as authorized by the Congress in 1965, is designed to irrigate 250,000 acres (6/10ths of 1 percent of the agricultural land) in North Dakota. The Bureau of Reclamation estimates the total cost for the project at just over one billion dollars—a five-fold increase from the original 1965 estimate of $207 million dollars. The Bureau's data show that the federal investment per irrigated acre is $3753, while repayment by the beneficiary is set at $77 per acre. This strikes us as an unconscionable expenditure of federal funds.

The project's "benefits" are quite questionable as well. One of the cited benefits, for example, is that of wildlife enhancement. In reality, the project will have a devastating and deadly effect on wildlife. Presently North Dakota, with its many shallow lakes and prairie wetlands, is one of this nation's more productive wildlife areas. The variety of its waterfowl—geese, ducks, shore birds, and others—is enormous and rich. The wildlife refuges and wetlands located there, besides providing important breeding and nesting areas, are also located on the Central Flyway for North American birds. The Garrison project will adversely affect North Dakota's rich wildlife habitat. It will damage or destroy 12 National Wildlife Refuges and result in the loss of a substantial amount of wetlands acreage in North Dakota—all important habitat for wildlife. Furthermore, virtually nothing is being done to mitigate these wildlife losses.

The project will inflict substantial environmental damage on Canada as well. The International Joint Commission, which investigated the impacts Garrison will have on Canada, determined the project will have significant adverse impacts on Canada's water resources and will violate the Boundary Waters Treaty between the U.S. and Canada. For example, as the project transfers water from the Missouri River Basin across the Continental Divide and into the Hudson Bay Watershed, new and different biota and rough fish will be introduced into Canadian waters. It is estimated that this will result in a loss of 50 to 70 percent of Manitoba's commercial fishery.

There are many other adverse consequences of the Garrison project. But, there is time to take corrective action because much of the damage has not yet occurred. The project is only 15 percent complete. Before allowing construction to gain further momentum, this is an ideal time to halt funding and to determine if there are less damaging alternatives to the authorized project. I would urge Congress to conduct hearings on the present project and request

that alternative courses of action be developed by an objective body before any more federal dollars are wasted on Garrison. With such information at hand, Congress could then determine, what, if any, project should be built.

I would be happy to discuss the project with you further or provide additional information. Thank you for taking our views into consideration.

Sincerely,

JIM ELDER,
Washington Representative.

NATIONAL AUDUBON SOCIETY,
Washington, D.C., September 13, 1982.

DEAR REPRESENTATIVE: The Energy and Water Appropriations bill will be on the House floor in the very near future. Congressman Conte will offer an amendment to that bill to delete fiscal year 1983 funding for the Garrison Diversion unit, a Bureau of Reclamation project in North Dakota. You supported Congressman Conte in a similar effort in July, 1981. On behalf of the nearly one-half million members of the National Audubon Society, I urge you to vote once again in favor of cutting funding for this project.

In the event the energy and water appropriations bill is incorporated into a continuing resolution, we urge you to press for a rule permitting separate votes to be taken on the question of funding certain controversial projects. Several projects, including Garrison, slated for funding in the energy and water appropriations bill have been the subject of very close House floor votes in past years. On such issues where a sizeable segment of the House opposes further funding, we believe it is important, indeed critical, that separate votes be taken. We hope you agree and that you will work to ensure that separate votes are permitted.

Returning to the issue of the Garrison Diversion project, I'd like to point out just a few of the reasons to oppose the project:

If built as authorized, the project will damage or destroy 12 National Wildlife Refuges and will result in the loss of 70,000 acres of prime waterfowl marshes, thereby causing a devastating impact on North Dakota's rich and productive wildlife. (North Dakota produces more ducks annually than any other state except Alaska; its wetlands and refuges are extremely important to migratory birds as well.)

Costs of the project have quintupled since its authorization in 1965 to $1.018 billion, while its cost ratio has dropped. Intended as an irrigation project, 220,000 acres will be taken in order to irrigate 250,000 acres (only 6/10 of 1 percent of North Dakota agricultural land). The federal investment per acre amounts to $3,753 per acre with repayment by the farm beneficiary set at $77 per acre.

If built as authorized, the project will have significant adverse impacts on Canada, including possible destruction of 50-70 percent of Manitoba's commercial fisheries.

The International Joint Commission has determined that the authorized project will violate the Boundary Waters Treaty between the United States and Canada.

Project impacts downstream have not been adequately evaluated and concern over such impacts has caused a group of South Dakota landowners to go to court to demand that these impacts be studied and disclosed before construction continues. (Construction, however, is proceeding pending resolution of the court case.)

I also have great concern about what is now being constructed in North Dakota. The United States has from time to time assured Canada that the U.S. will not build a project which potentially affects Canada's waters. Since nearly 80 percent of the authorized project will affect Canadian waters, I am puzzled about what the Bureau of Reclamation is now building and what the Bureau expects it will be allowed to complete. If the Bureau does not expect to build the entire authorized project because of the potential harm to Canada, then it should so inform the Congress. Such a major shift from the original project to a different, much smaller project with new costs, unevaluated impacts, and different benefits should not be permitted without review and authorization by Congress.

Although authorized in 1965, Garrison is only 15 percent complete. Since its authorization, massive problems—environmental, international and economic—have come to light. Before compounding these problems with further construction, we believe that environmentally, economically and internationally sound alternatives to the existing project should be developed and that Congress should have the opportunity to examine and authorize, if it chooses, an alternative project.

I could list many more reasons why Garrison should not be funded. You have probably heard most of the reasons, but if you would like more information, please contact me or my Washington office (547-9009).

I urge you to continue to actively oppose further funding for the Garrison project and to do what you can to ensure that a review of the existing project and a complete and objective analysis of alternatives to the existing project are undertaken.

Sincerely,

RUSSELL W. PETERSON,
President.

NATIONAL WILDLIFE FEDERATION,
Washington, D.C., September 24, 1982.

DEAR REPRESENTATIVE: When the House considers the Energy and Water Development Appropriations bill for Fiscal 1983, Representative Conte will offer an amendment to delete four million dollars in new construction funds for the Garrison Diversion Unit in North Dakota. The National Wildlife Federation urges you to support this amendment.

There are several reasons why the Congress should reject Secretary Watt's request for $4 million for Fiscal 1983, and any additional construction funds that may be sought for the Garrison project as currently authorized.

The Bureau of Reclamation, and the State of North Dakota, are seeking to build this controversial project in "phases," preferring to deal with unsolved problems such as the impacts on Canadian watersheds and the enormous fish and wildlife mitigation requirements after much of the project is built and hundreds of millions of dollars have been spent;

The Bureau of Reclamation, and the local project sponsor, have refused to replace wildlife habitat lost to the project concurrently with project construction;

At $1.15 billion, the Garrison project is one of the most expensive projects in the entire Reclamation program, and funds for other necessary programs and projects important to the wildlife resources of the nation are proposed for reduction this year.

The Garrison Diversion is plagued with many problems—international, economic, and environmental. One of the most critical of these problems is the project's effect on twelve National Wildlife Refuges—all located on the Central Flyway for migratory birds. North Dakota produces more ducks than any other state in the Lower 48. The health and viability of these populations are dependent on the Wildlife Refuges and the food and habitat that they provide. The Garrison Diversion Unit would destroy 70,000 acres of prime waterfowl marshes and destroy or damage these 12 crucial Wildlife Refuges.

The environmental impacts on the National Wildlife Refuges would be reason enough to examine the Garrison Diversion Unit more closely before appropriating more funds. But when the project's international impacts and economic shortcomings are also considered, your action to support the Conte amendment to strike new construction funds for the Garrison Diversion Unit becomes all the more critical.

Sincerely,

JAY D. HAIR,
Executive Vice President.

NATIONAL WILDLIFE REFUGES ADVERSELY AFFECTED BY GARRISON DIVERSION PROJECT

Audubon NWR established 1956, includes 14,735 acres to provide waterfowl production and migration habitat. Garrison Impacts: 4,174 acres of upland and 490 acres of wetland inundated, reducing nesting islands from 196 to 148. Pronghorn antelope herd eliminated.

Sheyenne Lake NWR established 1935, includes 799 acres water and 210 acres of uplands, to provide waterfowl production and migration habitat. Garrison Impact: to be totally inundated by the proposed Lonetree Reservoir.

Arrowwood NWR established 1935, includes 15,934 acres, to provide waterfowl production and migration habitat. Garrison Impact: to receive nearly a 3-fold increase in James River flows through the refuge, precluding drawdown management for wildlife food production.

J. Clark Salyer NWR established 1935, includes 58,748 acres, to provide waterfowl production and migration habitat. Garrison Impact: to receive increased flows of low quality water in the Souris River through the refuge, possibly carrying carp into the managed pools of the refuge, resulting in destruction of aquatic habitat.

Tewaukon NWR established 1934 includes 8,156 acres, to provide waterfowl production and migration habitat. Garrison Impact: to receive nearly a 2-fold increase in Wild Rice River flows through the refuge, precluding drawdown management for wildlife food production and introducing carp to managed pools.

Upper Souris NWR established 1935, includes 32,085 acres, to provide waterfowl production and migration habitat. Garrison Impact: possible carp introduction resulting in destruction of aquatic habitat.

Sand Lake NWR, South Dakota, established 1935, includes 21,450 acres, to provide waterfowl production and migration habitat. Garrison Impact: reduced summer flows of James River through the refuge, while receiving increased fall and winter flows of low quality water from irrigation drainage. Winter flows may promote overwintering concentrations of migratory waterfowl, resulting in disease and high mortality.

Des Lacs NWR established 1935, includes 18,841 acres, to provide waterfowl production and migration habitat. Garrison Impact: possible carp introduction resulting in destruction of aquatic habitat.

89-059 O-86-32 (Pt. 22)

Lake Alice NWR established 1935, includes 7,539 acres, to provide waterfowl production and migration habitat. Garrison Impact: winter flows may induce overwintering of waterfowl, resulting in disease and high mortality.

Dakota Lake NWR established 1939, includes 800 acres water and 3,100 acres of upland, to provide waterfowl migration habitat. Garrison Impacts: winter flows may induce overwintering of waterfowl, resulting in disease and high mortality.

Wild Rice Lake NWR established 1936, includes 778 acres, to provide waterfowl migration habitat. Garrison Impacts: increased flows of low quality water in the Wild Rice River through the refuge.

Lake Nettie NWR established 1939, includes 2,895 acres, to provide waterfowl production and migration habitat. Garrison Impacts: increased water table from the project has reduced the drying and regeneration of wetland habitat, reducing its value for waterfowl production.

Except where noted, all refuges are located in North Dakota.

SEPTEMBER 10, 1982.

U.S. House of Representatives:

Until the outstanding bilateral issues are resolved, the Manitoba government is strongly opposed to further funding for portions of the Garrison Diversion Unit potentially affecting this Province. As both the Canadian Parliamentary Delegation and citizen sponsored delegations stated during their recent meetings with Members of the U.S. Congress, the interbasin transfer of water could have a disastrous impact on the Province by reducing water quality and destroying the fishery. Additional funding at this time would only increase momentum toward completion of the project in a manner inconsistent with the international boundary waters treaty and formal U.S. Government assurances to Canada that bilateral issues would be resolved before construction proceeds on features of the project which could affect Manitoba.

HOWARD PAWLEY,
Premier of the Province of Manitoba.

CANADIAN EMBASSY,
Washington, D.C., September 13, 1982.

Hon. JAMIE L. WHITTEN,
House of Representatives,
Washington, D.C.

DEAR MR. WHITTEN: The Premier of Manitoba, the Honorable Howard Pawley, has asked me to ensure that the attached telegram, conveying Manitoba's concern over the prospect of an additional appropriation for the Garrison Diversion Unit, is brought to the attention of all members of the House Appropriations Committee. As you know, it is expected that the Committee will shortly have before it for consideration an additional $4 million appropriation requested for the Garrison project as part of the Energy and Water Development Appropriations bill for the 1983 fiscal year.

Canada remains seriously concerned over the potential adverse transboundary impacts of the Garrison Diversion project. The basis of Canadian concern relates to the serious and irreversible damage to Manitoba's multi-million dollar freshwater fishery associated with project-related transfers of different kinds of fish species, diseases and parasites from the Missouri River system into the Hudson Bay drainage basin. Numerous scientific studies, including the two-year examination of the project's transboundary impacts carried out by the International Joint Commission, have substantiated Canadian concerns, and concluded that the project as now designed would seriously affect Manitoba waters with damaging results, in violation of United States obligations to Canada under the 1909 Boundary Waters Treaty.

In recent meetings between Canadian legislators and members of Congress, and in consultations between Canadian and U.S. officials, Canadian representatives have continued to urge that the project be redesigned so as to eliminate all interbasin transfers of water and associated harmful foreign biota. The Canadian and Manitoba governments remain of the view that, consistent with previous formal United States government assurances to Canada, project features potentially affecting Canada should not be built until the outstanding bilateral issues are satisfactorily resolved.

We deeply appreciate the recognition of Canadian concerns shown in past Garrison appropriations votes by the Congress, in stipulating that additional appropriations be spent only on portions of the project not affecting Canada. Your willingness to bear our concerns in mind in your forthcoming deliberations on the Garrison Diversion appropriation requested this year will be very much appreciated.

Yours sincerely,

ALLAN GOTLIEB,
Ambassador.

NATIONAL TAXPAYERS UNION,
Washington, D.C., September 14, 1982.

DEAR REPRESENTATIVE: In the near future, the Energy and Water Appropriations bill for fiscal year 1983 will be on the House floor for your consideration. On behalf of the National Taxpayers Union, I am writing to urge you to support Congressman Conte's amendment to delete funding for the Garrison Diversion project, a Bureau of Reclamation project in North Dakota.

We strongly object to spending any money at all for the Garrison project until the economic, international, and environmental problems associated with it are resolved. The project is only 15 percent complete. The time to solve these problems is now—before we rush to resume construction of this project as we have done so often with other projects in the past. The Garrison project was stopped in 1977 by Court order, and was lifted last May. Yet, it appears that the Department of the Interior, which is now free to resume construction of Garrison this year, is intent on proceeding with a rapid construction schedule which may cause irreparable environmental harm, violate the Boundary Waters Treaty with Canada, and preclude the orderly development and consideration of economic alternatives to the authorized project which could save millions of taxpayer dollars.

The cost of the Garrison project is rapidly escalating. When authorized in 1965, the Bureau of Reclamation estimated the total cost would be in the neighborhood of $207 million. Current estimates are over $1 billion. Garrison, like many other water projects, carries with it a large subsidy to the individual beneficiaries. In this case, the Bureau's own project data sheet shows that the federal cost per irrigated acre to be $3,753 and the repayment by the beneficiary for each acre is only $77. This is nothing less than a federal welfare program for large farmers in North Dakota, at the expense of beleaguered taxpayers throughout the country.

The International Joint Commission concluded that the Garrison project, if built as authorized, would violate the 1909 Boundary Waters Treaty between the United States and Canada. The U.S. State Department has sought to reassure the Canadians that their concerns will be addressed. The Interior Department has stated that they are moving ahead with the project in phases, beginning with an 85,000 acre "first phase." (The authorized project calls for irrigation of 250,000 acres). The Interior Department has further stated that it will not move to the next phase until the concerns of Canada have been met. Since 79 percent of the authorized project will impact upon Canada's waters, it is unlikely that the Bureau will be able to meet Canada's concerns and move on to the next phase. And, if the Bureau knows this—and surely they must—then it should tell the Congress, the taxpayer who is footing the bill and the farmers in North Dakota who will be affected.

As you recall, last year Congress came very close to deleting funds for the project during consideration of the fiscal year 1982 Energy and Water bill. In November, the House overwhelmingly disapproved an attempt by the Senate to order the Department of the Interior to proceed with construction, overruling court orders to the contrary. A group of landowners in South Dakota, concerned about the impact of the Garrison project on the James River and their land, has filed suit. We understand this case is currently pending in court in South Dakota. Canadian citizens, concerned about the potential loss of over half of the commercial fishery in Manitoba as a direct result of the Garrison project, came to Washington several months ago at their own expense to plead for relief. Several farmers from North Dakota have similarly made the long and expensive trek to Washington in an attempt to convince you that they do not want this project.

This year—a year of great economic stress and a time when hard decisions about funding programs must be made—is the time to address the Garrison issue directly. We ask that you not fund this program this year. The Bureau, as late as this spring, had nearly $9 million in previously appropriated but unexpended funds for Garrison. Instead of rushing ahead with construction, we urge you to call for Congressional hearings to examine alternatives to the Garrison project. And if there is an alternative to the project which meets the economic, environmental, and international problems, then the Congress should subject that alternative to the normal Congressional authorization process.

Sincerely,

LEN RIPPA,
Director of Congressional Affairs.

Mr. LAGOMARSINO. Mr. Chairman, will the gentleman yield?

Mr. CONTE. I yield to the gentleman from California.

Mr. LAGOMARSINO. Mr. Chairman, I rise in support of Mr. CONTE's amendment to delete funding for the Garrison diversion project in North Dakota.

When Congress authorized the project back in 1965, many of the problems now associated with the project were not foreseen. It now appears, however, that the project will cause great harm to the environment both in this country and in Canada.

The Garrison project is of special concern to me because it falls within

the interest areas of the House Interior Committee and the House Foreign Affairs Committee. As a member of both committees, I feel a responsibility to do what I can to see that the problems in the bill are resolved by delaying further funding until a thorough review of the project can be conducted to determine if there are alternatives which might be acceptable.

There are several reasons to oppose continued construction of the Garrison project at this time:

First, Canada opposes construction of Garrison, and I do not feel we should let the project go forward until the concerns of Canada have been fully considered. As you recall, in 1976, the International Joint Commission concluded that the project would be in violation of the Boundary Waters Treaty, which should be sufficient reason for us to disapprove funding the project at this time. But we should also consider the impacts the project will have on our neighbors to the North. The irrigation return flows may well pollute their waters. The interbasin transfer of water from the Missouri River to the Hudson Bay Watershed will most likely result in the introduction of rough fish and foreign biota into Canadian waters. It is estimated that this could lead to the destruction of half or more of the commercial fishing in Manitoba and adversely affect the recreation industry there as well.

Second, aside from the impacts on Canada, I am also concerned about the U.S. environmental impacts of the project. The project will ruin thousands of acres of wetlands which are much-needed habitat for the ducks and other wildfowl in the State as well as for the hundreds of thousands of migratory birds which pass through North Dakota. We have all heard before that the project will harm a dozen national wildlife refuges, which would be a great tragedy.

I also urge you not to lose sight of the fact that Garrison is a billion dollar project, even though the fiscal year 1983 appropriation is only $4 million. Future funding requests will most likely be much higher, which we cannot easily afford during this time of fiscal constraints.

Today we have an opportunity to halt this project. There is time to sit back and work out the problems associated with Garrison. Let us stop funding for the time being and reconsider the project now while so little damage has been done and so little money has been expended.

Mr. BEVILL. Mr. Chairman, I rise in opposition to the amendment.

The CHAIRMAN pro tempore. (Mr. MITCHELL of Maryland). The gentleman from Alabama (Mr. BEVILL) is recognized for 15 minutes.

Mr. BEVILL. Mr. Chairman, I yield 5 minutes to the distinguished gentleman from North Dakota (Mr. DORGAN).

Mr. DORGAN of North Dakota. Mr. Chairman, I always find the gentleman from Massachusetts entertaining. However, his accuracy does not match his entertainment. On this issue, the fact is the representation by Mr. CONTE with his map of the Garrison diversion unit is sadly deficient. I would like to clear up some of the misimpressions that I think were left on the floor of the House by that presentation.

I was 2 years old, Mr. CONTE, when the Federal Government told North Dakota that it wanted to strike a bargain with North Dakota. The Federal Government said, "We are tired of the flooding down in Kansas City, Mo., and we would like to do something about that."

The Federal Government said, "We would like downstream navigation capabilities on the Missouri. We would like to do something about that."

The Federal Government said, "We would like cheap hydroelectric electricity in that region, and we would like to do something about that. What we want to do is build a dam. We want to flood 550,000 acres of North Dakota good river bottom land," and in exchange for a flood that came and stayed in North Dakota, "You folks in North Dakota are going to get some benefits. We will give you a water diversion unit if you allow that flood, that 550,000-acre flood, to come and stay.

I was 2 years old when they made that promise to North Dakota. Today, on the floor of the House, we are asking for $4 million. At that rate, it will take 200 years to build that project.

My friend from Massachusetts tells you his facts about the project; the fact is, in the 1940's they promised North Dakota a 1-million acre project. The project that my friend from Massachusetts talked about is a 250,000-acre project. He knows full well that the phase that is now being talked about is only an 85,000-acre project at this point.

Well, I am not willing to let this House forget its promise. I do not think fast shuffles are appropriate in public policy. I think we ought to stick to the commitments and promises that are made to people, and i think we ought to do it based on the facts. It is wrong—wrong to break promises. You promised North Dakota a water diversion program. Where is the justice in coming to the floor of this House with the kind of facts that were represented here, suggesting that we ought to break that commitment?

Let me talk about the facts. The project is going to degrade the environment, my friend from Massachusetts says. That is absolute nonsense. The fact is that a five-member group with two Federal representatives including a Federal Fish and Wildlife official just finished last Friday a mitigation enhancement program that determined that this project will in fact enhance wild waterfowl environment. The waterfowl habitat will be enhanced, not degraded.

There is not another State in this country that has contributed more to waterfowl enhancement and habitat than North Dakota. We have 5.3 million acres, fee-owned or easement, of wetlands in North Dakota.

I am not sure what the gentleman suggests. Does he want North Dakota to be a 70,000 square mile duck nest? We produce 85 percent of the ducks and geese. We do our job in North Dakota. If we become a national duck nest up there, you are not going to be able to eat spaghetti. What we raise up there is Durum wheat, which produces the semolina flour that gives us spaghetti. The fact is, we have a good integration of a farm economy and wildlife habitat and we have good wetlands that produce a tremendous duck and geese population up there.

□ 1910

This project will not degrade the environment. This project will not degrade the wildlife habitat.

On the cost issue, they say it costs too much. The fact is that the costs are going to be paid largely from the hydroelectric power that is being produced by that dam. That was part of the promise.

They say that the Canadians have some concerns. Not one penny of the $4 million is going to be used to build any feature of this project that is going to run water into the Hudson Bay drainage, and that is a fact. The cost, the environment, the Canadian issues that have been raised are all absolute nonsense. The issue is commitment.

The 85,000-acre phase I project is something that this Government owes North Dakota. That flood that came in and stayed up there, we accepted that. Now we want a water resource enhancement program that we were promised.

It is environmentally sound, it is cost-effective, and it makes good sense. And we are not going to violate the boundary waters treaty with Canada.

Mr. Chairman, this project can stand on the facts, and the facts are that his project makes sense for North Dakota's future and this project makes sense for this country's future.

Mr. GEPHARDT. Mr. Chairman, will the gentleman yield?

Mr. DORGAN of North Dakota. I am happy to yield to the gentleman from Missouri.

Mr. GEPHARDT. Mr. Chairman, having talked with the gentleman earlier and having talked to the present

Governor of his State and the prior Governor of his State, I have learned about the fact that the diversion project is almost complete.

Can the gentleman give us some information about how complete it is, what is left to be done, and how much money has been spent so far on this project?

Mr. DORGAN of North Dakota. Mr. Chairman, the diversion project was promised in the 1940's; it was authorized in the mid-1960's. We have worked on portions of the project, including the canals that the gentleman from Massachusetts mentioned. We do have a long way to go, but all along the way we have paid careful attention to environmental concerns.

The CHAIRMAN pro tempore. The time of the gentleman from North Dakota (Mr. DORGAN) has expired.

Mr. BEVILL. Mr. Chairman, I yield 2 additional minutes to the gentleman from North Dakota (Mr. DORGAN).

Mr. STANGELAND. Mr. Chairman, will the gentleman yield?

Mr. DORGAN of North Dakota. I am happy to yield to the gentleman from Minnesota.

Mr. STANGELAND. Mr. Chairman, I rise in opposition to the amendment deleting funding for the Garrison diversion project and ask my colleagues to maintain funding for this long-promised, cost-effective water resource project. Over the years, I have joined with my colleagues in Minnesota's neighboring State, North Dakota, in strongly supporting this project as a means to harnessing the water from the Missouri River and using it to supplement and enhance rivers and lakes in North Dakota for farm and city use. For example, by completing this long-promised water diversion project, it has been estimated by the Bureau of Reclamation that the State's gross farm economy would be supplemented by $85.5 million in income annually.

I want to emphasize that none of the $4 million in this appropriation would effect project water draining into Canada. Rather, this funding would allow construction of various aspects of the project under which all project water would remain in the Missouri River Basin. Moreover, Canada has been assured by the Congress and both State and Interior Departments that the boundary waters treaty will be observed.

In addition to honoring our previous commitments to North Dakota in return for their flooding of 550,000 acres of prime farmland under the 1944 Missouri Flood Control Act, we should approve this project because of its relatively high benefit/cost ratio of 1.3 to 1 in direct benefits and 2.1 to 1 overall. For this reason the project has strong bipartisan support here in the Congress as well as the administration. While my home State of Minnesota will get no direct benefit from this $4 million appropriation, it is important that we honor our earlier promises and work to provide North Dakota with an adequate water irrigation system.

I urge my colleagues to oppose this amendment.

Mr. CONTE. Mr. Chairman, I yield 2 minutes to the gentleman from Minnesota (Mr. OBERSTAR).

Mr. OBERSTAR. Mr. Chairman, I thank the gentleman for yielding me this time.

Mr. Chairman, the Garrison diversion project is about the last of the "Dust Bowl babies" that the Congress is going to be dealing with, and it ought to be reevaluated by the appropriate authorizing committee in the House.

There has got to be a more cost effective way to provide for North Dakota's legitimate water needs. There are some internal contradictions in this project which I would like to touch on, briefly.

Earlier this year, in January to be exact, the Secretary of Agriculture declared set-asides on wheat and feed grains because of overproduction. On the one hand we are paying farmers not to grow crops, and on the other hand, with the Garrison project, we are going to be spending ultimately $1 billion to create new farmlands, and thereby, subsidize the production of the very crops which the Government is paying millions not to produce.

That does not make a lot of sense.

As to the figures, the Garrison project will cost over $3,300 an acre, $810,000 a farm, and fewer than 1,000 farmers will benefit from the project. The irrigators are going to pay back only $19.3 million over the 50-year lifetime of the project, and electric power generation will pay back $810 million, 30 percent of which will be paid by consumers in Minnesota, the beneficiaries of this agriculture and power interests are really the beneficiaries of this whole undertaking.

My principal concern, however, has been over its adverse environmental impacts. The International Joint Commission, which has responsibility over boundary waters between the United States and Canada, has repeatedly expressed concern that Garrison would cause water quality problems between the United States and Canada, and that the project would have an adverse environmental impact on Canada and would ultimately be found to be in violation of the United States-Canada Boundary Waters Treaty. Canadians, both at the Federal and Manitoba provincial levels, have very grave concerns that interbasin transfers of fish and biota from North Dakota waters into Canada would cause unknown and potentially far-reaching effects upon Canadian waters. Canadian members of Parliament, members of the Manitoba Provincial Parliament, and Howard Pawley, Premier of the Province of Manitoba are outspokenly opposed to the continuation of the Garrison diversion project. But apart from that, as one who has been very keenly involved in wetlands preservation for waterfowl production, I find it very disturbing that we will be destroying in this one project more wetlands than we have preserved in the last decade—70,000 acres in one shot. Twelve national wildlife refuges will be lost or damaged in the wake of Garrison; 220,000 acres of dryland farms will be taken, in order to create 250,000 acres of irrigated land, a swamp that has marginal benefit, at best.

On every test, economic, land management, environmental, international relations, Garrison fails. The Conte amendment should be supported by this body. I urge an "aye" vote.

Mr. BEVILL. Mr. Chairman, I yield 1 minute to the distinguished gentleman from Arkansas (Mr. ALEXANDER).

Mr. ALEXANDER. Mr. Chairman, I thank the gentleman for yielding this time to me.

Mr. Chairman, I rise this evening in support of the Garrison diversion project in North Dakota and in opposition to the amendment to strike the funds for that project.

I recall several years ago that a former Member with whom many of us served, Art Link, who went on to become Governor of North Dakota, was speaking about the commitment that had been made to the people of North Dakota to build this diversion project. And again this evening we hear from the gentleman from North Dakota (Mr. DORGAN), who represents that State and who has done a splendid job in representing its people, and he reminds us again of the commitment of the Federal Government to build this diversion project. In 1944, it was definitely promised to the people of North Dakota for the 500,000 acres of prime farmland that were taken away from the State and flooded to build a reservoir and provide downstream benefits for the cities and the States below the State of North Dakota.

I for one am grateful to the people of North Dakota for honoring their commitment and keeping their promises, and I would hope that all of us this evening would stand up for what is right and keep faith with the commitments that have been made in support of this project.

Mr. CONTE. Mr. Chairman, I yield 2 minutes to the gentlewoman from New Jersey (Mrs. FENWICK).

Mrs. FENWICK. Mr. Chairman, I rise in support of the amendment and in opposition to the project.

I wish that the chairman of our Foreign Affairs Committee were here, along with our ranking member, because there are foreign policy consid-

erations that should enter into the consideration of this project.

There was indeed an agreement. I think it was dated in 1954, and some part of that was completed. But there is not a conservation group in this country that approves of this. There is not anybody who cares about our land and what is happening to this planet who is in favor of this project. It will indeed provide benefits, and I can quite understand those who represent this area speaking on behalf of it.

But we are supposed to have a broader view. It will indeed interfere with some of our foreign relations with Canada, which I think would be most unwise.

Mr. Chairman, I caution this House. I think this is a very unfortunate project, and I hope very much that it will be defeated and that the amendment will be supported.

□ 1920

Mr. BEVILL. Mr. Chairman, I rise in opposition to the amendment.

I would like to point out that this project has had much investigation and study in the past. We are talking about $4 million here which is for the purpose of constructing and operating a test area so potential effects on Canadian waters can be evaluated.

This project is being built by an agency of the U.S. Department of Interior. I hope we have not reached the point now in the Department of Interior that when we send funds down there to protect our wildlife that wildlife is not protected. If they are, this country is getting in bad shape.

Our committee has consistently supported this project. We have had hearings and the people from North Dakota have come down here and testified every year for this project. It means a lot to that area, and certainly the North Dakota delegation and the Governor have consistently supported this project.

Mr. Chairman, I yield 2 minutes to my colleague, the gentleman from Indiana (Mr. MYERS), the ranking minority member of this subcommittee.

Mr. MYERS. I thank our chairman for yielding once again.

This is another one of the projects that just keeps coming back. It seems like we have a few of these that have a way of having repetition.

The proponents of this amendment this afternoon that would strike whatever funding might be available to the Garrison diversion project would lead you to believe that all of this is going for destruction of natural wetlands and that there is going to be a huge take of land.

There is a total in the Garrison diversion project of 216,000 acres. One would believe from the proponents that that is going to build dams and lakes and, as the gentleman from Massachusetts said, canals.

The truth of the matter is that two-thirds, 146,000, is going for fish and wildlife mitigation, enhancing the wildlife in North Dakota, 146,000 acres to create more ducks.

My gosh, you cannot kill them all now. I know my friend from Massachusetts tries but he cannot get them all.

We are going to improve the wildlife by the building of this diversion.

Second, the Audubon Society has been mentioned this afternoon. For the past 4 years the Audubon Society has been successful in delaying this project. It has added to the cost by $500 million for the completion of it.

Yet the project will be brought in under index costs, the original index costs.

The last thing, the Audubon Society is now suing in South Dakota, alleging that the water will be destroyed in South Dakota, yet, as our chairman said, the Governor of South Dakota traveled here just a few weeks ago asking that we complete this.

I think it would be only wise if the Congress this afternoon, this committee, refuses this amendment.

Mr. CONTE. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I will try to answer some of the gentleman's questions. I am sorry if I offend the gentleman from Indiana, but thank God there has been somebody in this well trying to protect some of the rich environmental treasures that we have in this great land of ours.

I will take a back seat to no one. I am proud of what I have done in the 24 years I have been here and I am going to fight as long as I have a little breath and a little stamina left in me.

I am not trying to kid anyone or hoodwink anyone on this project. The opponents of this amendment can try to put words in my mouth, but my colleagues will be able to read what I really said in the RECORD.

Let me first try to answer some of the gentleman's arguments.

Mr. Chairman, the first argument that the proponents of the project make is that the people of the United States somehow "owe" North Dakota this billion dollar boondoggle because of North Dakota's participation in the Pick-Sloan project. That argument is ridiculous. Nothing in the 1944 act creating the Pick-Sloan project authorized the Garrison Diversion unit. North Dakota did, indeed, lose some land to the construction of the Mainstem Dams on the Missouri River—but it also gained a supply of hydroelectric power and definite flood control benefits. If the people of North Dakota have any grievance about the loss of their land, surely it is no help to flood an additional 220,000 acres in order to irrigate some 250,000 acres.

Another misconception is that the Garrison project enjoys vast local support. In fact, one county in North Dakota has successfully sued to remove itself from the Garrison Conservancy District, and several other counties are considering similar measures. In the recent November elections, a number of candidates for the State legislature, county commission, and even the Garrison Conservancy District Board of Directors, were elected on platforms in which their opposition to the Garrison diversion project play a prominent role. Mr. Chairman, at this point in the RECORD I ask that I may be permitted to insert copies of several newspaper articles discussing this anti-Garrison sentiment.

The material referred to follows:

[From the Jamestown (N. Dak.) Sun, Nov. 3, 1982]

COMMON GROUND: THE VOTE IS IN . . . ALMOST

(By James Smorada)

With two Jamestown wards still a-counting, the off-year election produced some surprises and hints of possible surprises to come.

One of the trends that seems to be emerging indicates a larger number of electors has second thoughts about the Garrison Diversion project.

Unofficial and incomplete returns in Jamestown and Stutsman County show incumbent Garrison board member and proponent Royal Berstler has been defeated by Darwin Fisher, a man who has campaigned for a place on the board because he opposes the water project.

And county voters may have elected three new commissioners who have said they are "soft on Garrison."

In District 29, voters elected a political newcomer, Wade Williams, who has indicated he feels there needs to be some modifications in the water diversion project.

In the region, voters in Renville, Pierce and McLean counties have elected Garrison board members who have voiced concerns about the project.

The trend suggests voters no longer consider the project an untouchable. Opponents of the project gained political strength on Tuesday—a measure of power in state politics opponents have not had in the past.

The results also suggest it is now possible for a candidate to oppose Garrison Diversion—or just question it—and still be elected to office.

It remains to be seen if the sentiment makes any appreciable difference to the project's future but one thing is clear: if Garrison is to survive, major compromises will have to be considered.

The objections abroad, the cost Washington may not be willing to bear, and the slightly less enthusiastic support the diversion project polled strongly suggests the idea is ripe for compromise.

Perhaps the one-sixth of the board, elected and opposed to Garrison, can play a role redesigning the water project. A growing number of voters seem to be saying the project needs some fresh thinking—not bullheaded reluctance to change.

[From Jamestown (N. Dak.) Sun., Nov. 4, 1982]

HANSON, UNHJEM ELECTED

(By J. P. Furst)

Democrat Lyle Hanson and Republican Mike Unhjem have been reelected to the state House of Representives out of District 48—finally.

Because of 1,800 defective computer ballots, Hanson and Unhjem could not claim victory until county officials had punched out duplicates of the ballots and computed the results.

Both candidates had substantial margins over Democrat Bill Meier and Republican Harold Trautman in the 24 precincts reporting on Tuesday. The 24-hour delay in Wards 2 and 3 simply confirmed the result.

Hanson received 2,517 votes, Unhjem had 2,354, Meier had 2,052 and Trautman had 1,910. Hanson outpolled all three candidates in Wards 2 and 3, as well.

Meier, chairman of the Stutsman County Commission, said he considers his defeat a result of voter sentiment on Garrison Diversion.

The voters provided a landslide victory for Darwin Fisher, a project opponent, in his race for Garrison Diversion Conservancy District director. A pair of county commission candidates who oppose Garrison were also elected.

"Garrison was probably the difference in my election," he said. "The courthouse might have been a factor, but the way other county races went, I think Garrison was the biggest single factor.

"We'll probably have to take another look at Garrison," he said, referring to commission action on the Missouri River project.

Preservation of the 1883 county courthouse was a critical campaign issue in the commission race, contributing to the ouster of two incumbents.

Hanson, a geography teacher at Jamestown Junior High, has served two terms in the House. He carried every District 48 precinct but one.

"Things couldn't be better," he said Thursday. He said the coming session of the Legislature will be "a session of compromise," now that the Democrats have become the majority party in the House.

"We should have better legislation, as a result," Hanson said, "I think the people voted for more balance in their state government. Now they have it."

He said Meier had "a pretty tough race," running against a pair of incumbents. Hanson said he believed the courthouse conflict had a lot to do with Meier's defeat.

He said the rotation of candidate names on the ballot had a strong influence, also.

Unhjem, an official at first National Bank of Jamestown, returns to the House for his fifth term. He said "I'm personally satisfied, but I'm surprised by the extent of Republican losses statewide."

He believes Democrats ran a "misleading" campaign on state spending but the Republicans "never did make a strong clear response." He conceded that he made few responses during his campaign to the charges he considered misleading.

"Having Quentin Burdick and Byron Dorgan at the top of the ballot had an impact," he said, as did "the condition of the farm economy. A lot of people wanted to express their frustration."

[From the Jamestown (N. Dak.) Sun, Nov. 3, 1982]

GARRISON OPPONENT WINS SEAT—FISHER DEFEATS BERSTLER

(By J. P. Furst)

Darwin Fisher of Ypsilanti, a strong opponent of Garrison Diversion, received 60 percent of the vote Tuesday and was elected to the Garrison Conservancy District board.

Fisher defeated Royal Berstler of Jamestown, a Garrison promoter and a member of the board since 1978.

Pierce, McLean and Renville counties also chose Garrison opponents to represent them on the district board, a clear rejection of the $1.2 billion project.

One-sixth of the district board will now be comprised of members who believe Garrison must be changed.

Not counting Wards 2 and 3, Fisher received 3,742 votes. Berstler had 2,656. Fisher also defeated him in the June primary but the magnitude of his victory on Tuesday was surprising.

Fisher said, in his campaign, that he supports a Missouri River project, but not Garrison. He believes it should be modified in favor of a pipeline system.

He presented his candidacy as a referendum on the project. He is chairman of the Committee to Save Stutsman County, a grass-roots organization opposed to Garrison.

Berstler, on the other hand, promoted the project as the only means of keeping Missouri water in the state, out of southern hands.

Fisher was one of a number of Stutsman County candidates calling for modifications in the 250,000-acre project, now under construction.

In Wards 1, 4, 5 and 6, he received 1,894 votes to Berstler's 1,634.

He won every precinct but one—Precinct 10. Berstler won 92-91 in that rural Jamestown precinct. Fisher's margin in other regions, however, was overwhelming.

In Precinct 6 he won 80-33, in Precinct 19 by 121-42, in Precinct 1 by 130-39, and in Precinct 7 by 126-63. Fisher received big margins in Precincts 12, 13, and 16 also.

Fisher went goose-hunting Wednesday morning and was not available for comment. Neither was Berstler or Garrison district manager Homer Engelhorn.

In McLean County, Herb Nathan defeated Reinhold Fwicker 2,592 to 2,452. Nathan farms near the McClusky Canal and has opposed Garrison for years.

In Pierce County, Frank V. Schaan of Balta was defeated by Leroy Johnson, 1,445-945. Schaan has been a Garrison board member for serveral years.

In Renville County, Paul Christianson defeated incumbent Earl Palmer 1,072-396.

But Arnold Seibel of rural Harvey, a Garrison opponent, has probably lost his seat on the board. Seibel leads Garrison promoter Jerry Roble by 300 votes with four major precincts still to be reported in Wells County.

The Harvey and Fessenden precincts are expected to elevate Roble to the post.

J. C. Eaton of Minot, the Ward County incumbent, had a lead of 300 votes over Garrison opponent Lynn Martin with most precincts reporting on Wednesday.

I also ask that I may insert a copy of a letter sent to me my the Wells County Director of the Garrison Diversion Conservancy District. In that letter, Mr. Arnold Seibel states that "operation and maintenance costs on the McClusky Canal have already exceeded $6 million, but seepage continues to cause problems." Apparently the Bureau is continuing with other project features before solving this problem. Mr. Seibel also points out that a number of cities, including Harvey, Fessenden, Turtle Lake, and Mercer have found that Garrison Diversion water is too expensive to use. So much for the much ballyhooed benefit of improving municipal water supplies.

The letter follows:

HARVEY, N. DAK.,
November 30, 1982.

DEAR CONGRESSMAN CONTE: We would like to ask for your help and support in defeating appropriations for North Dakota's Garrison Diversion Project.

We feel that our tax money is simply being wasted. We definitely do not want to see construction begin on Lonetree Dam and the New Rockford Canal. Operation and maintenance costs on the McClusky Canal have already exceeded $6 million, but seepage continues to cause problems. Yet the Bureau of Reclamation, knowing about this seepage and saturation, is planning to let bids on the New Rockford Canal.

Cities, such as Harvey, Fessenden, Turtle Lake, and Mercer have already discovered that Garrison Diversion water is too expensive for their use.

Not all North Dakotans blindly endorse the Garrison Project. Anything you can do will be greatly appreciated.

Thank you,

ARNOLD A. SEIBEL,
Wells Co., Director,
Garrison Diversion, Conservancy District.

Finally, Mr. Chairman, I want to put a stop to the claim that just building phase 1 of this project will take care of the international problems. In fact, there are real questions whether the precautions being taken in phase 1 will be adequate to prevent detrimental transfers of chemical and biological pollutants to Canadian waters. In addition, there is no basis for continuing to build phase 1 of the project to the size of the now contemplated standards, if in fact those features will be used only on phase 1. What we are seeing is a classic example of the "sunk hole" argument in the making, that once we have invested all this money, we might as well finish the project.

Mr. Chairman, so far we have spent almost $160 million on this project, and in my opinion that is $160 million too much. But let us not throw another billion dollars in good money after the bad.

Mr. Chairman, we are opposed to this project because it would destroy the best breeding grounds for ducks in the United States.

We are opposed to this because it is a boondoggle and will cost the taxpayers $1 billion.

We are opposed to this because our Canadian friends to the north do not want any part of this project and are

begging us to stop it. So in all sincerity let us stop this project tonight.

Mr. BEVILL. Mr. Chairman, I yield 30 seconds to the distinguished gentleman from Oklahoma (Mr. WATKINS) a member of the subcommittee.

Mr. WATKINS. Mr. Chairman, I thank the gentleman for yielding and stand in support of the Garrison project. We have a Bureau project in my district, McGee Creek, which would be eligible for additional funding under title II of this act. Is is the intent of the distinguished chairman of the subcommittee that no funds available in fiscal year 1983 shall be expended on construction of the aqueduct unless other elements crucial to local economic benefit, such as the access roads, are started?

Mr. BEVILL. Mr. Chairman, will the gentleman yield?

Mr. WATKINS. I yield to the gentleman.

Mr. BEVILL. The gentleman is correct.

Mr. WATKINS. I thank the Chairman.

Mr. BEVILL. Mr. Chairman, I yield such time as he may consume to the distinguished gentleman from Washington (Mr. BONKER).

Mr. BONKER. Mr. Chairman, I rise in support of the amendment offered by my distinguished colleague, Mr. CONTE, to delete additional funding for the Garrison diversion project.

As chairman of the House Foreign Affairs Subcommittee that oversees international environmental policy, I am especially concerned about the potential effects of this project on wildlife and land and water resources in both the United States and Canada. An interbasin transfer of water could degrade water quality, disrupt or destroy wildlife and its habitat and cause other environmental damage.

The United States-Canadian Boundary Waters Treaty of 1909 clearly states:

> Waters herein defined as boundary waters and waters flowing across the boundary shall not be polluted on either side to the injury of health or property on the other.

The United States-Canada Joint Commission has found that the project would result in a violation of the 1909 treaty and has recommended that those portions which would affect Canada not be built at this time. While the Department of State previously promised Canada that features potentially affecting Canada will not be constructed until our differences have been resolved, the Bureau of Reclamation seems intent on proceeding with aspects that clearly have potential effects on Canada.

Nine million dollars in previously appropriated but unexpended funds exist for the Garrison unit—an amount sufficient to evaluate possible alternatives. New funds should be withheld until the appropriate committees in Congress have reexamined the entire project.

Over the past decade, the United States has been the leader in international efforts to protect the world's environment and natural resources. The United States should not renege on this leadership role by proceeding with a project that could pose serious environmental threats to our neighbors in Canada.

Mr. Chairman, until we have a much better understanding of the nature and extent of possible environmental consequences of the Garrison diversion unit and until we have resolved potential conflicts with Canada, I do not believe $4 million in new construction funds are warranted. I urge my colleagues to support the Conte amendment.

Mr. BEVILL. Mr. Chairman, I yield the balance of my time to the distinguished Member of Congress, the gentleman from North Dakota (Mr. DORGAN).

Mr. DORGAN of North Dakota. Mr. Chairman, once again let me quietly but very respectfully say "nonsense," "nonsense" to the arguments on cost effectiveness, on degradation of the environment, on the Canadian concern.

Let me give my colleagues a few facts.

Here is a diplomatic note from this country to the Canadians. Let me read from it. It talks of the first phase of the Garrison diversion program. It reads:

> "None of the features included in this phase would involve the transfer of water from the Missouri River Basin into Canada."

Four million dollars we are talking about, to help complete the first phase. And it is only a small step in the first phase. This diplomatic note says it all. We are not building features which will send water to Canada under phase 1.

My friend from Minnesota talked about the Garrison diversion issue. My guess is he still wants to keep receiving the cheap hydroelectric power that he gets from the dam they built over there in North Dakota. They get nearly twice as much hydroelectric power in Minnesota from that dam than we do in North Dakota. They get the benefits, we get the cost. The benefits promised us back in the 1940's have not been received, and if some on this floor have their way will never be received by the citizens of North Dakota. That is fundamentally unfair.

Yes, indeed, in the 1940's, in the Pick-Sloane project they anticipated a 1-million-acre diversion program: Not 250,000 acres, as it has been scaled to in the mid-sixties, not 85,000 acres that have been talked about recently, but 1 million acres of water diversion program in North Dakota.

There is a refrain from a song that says, "Take the money and run." I am afraid there are some folks around here who want to do that with projects like this. They want to take the benefits that accrue to their region of the country and then leave the costs someplace else and renege on the commitments and promises. I am just saying that is fundamentally unfair. It is not the right thing to do, not good for the country, certainly not good for the State I am from.

Mr. WILLIAMS of Montana. Mr. Chairman, will the gentleman yield?

Mr. DORGAN of North Dakota. I yield to the gentleman from Montana.

Mr. WILLIAMS of Montana. I thank the gentleman for yielding and say to my colleague that I am a westerner who votes against boondoggle projects. In fact, I am so against them that 3 years ago on the floor of this House I killed one in my own district and almost did not come back because of it. I take a close look at all of them.

As I look at the Garrison diversion project, I find it is not a boondoggle—that unlike boondoggles, this one has a favorable cost-benefit ratio—that it does have some environmentally beneficial factors to it. The one wildlife project that is being flooded is going to be replaced. This project does and will provide inexpensive hydroelectricity. And by the way, this project is paid for out of that hydroelectrical cost.

Finally, it does improve municipal water sources. Yes, some small towns may find that it is impossible to pay for them, and not hook up. But they find that that is true of new municipal water resources that are being built all across this country.

This is a good project, and I am pleased to support it.

Mr. DORGAN of North Dakota. I thank the gentleman.

I have great respect for the gentleman from Massachusetts who has been in this body many, many years, believes in a lot of great things, fights for them very hard on the floor of this House. In my heart I believe he is dead wrong on this issue. I think the people of North Dakota and the people in this country are best served by keeping our commitments to a good project, one that is environmentally sound, economically sound, and one that will be good for our future.

Mr. Speaker, I yield to the gentleman from South Dakota (Mr. DASCHLE).

Mr. DASCHLE. Mr. Chairman, it is with a great deal of reluctance that I today support the Conte amendment to delete $4 million in funding for the Garrison project. Unlike many of my colleagues who will be voting for this amendment, it is not my belief that all water development projects should be automatically regarded as "pork

barrel" ripoffs of the taxpayer. Anyone who has lived in the Dakotas should realize the very real necessity that environmentally sound, locally supported irrigation projects have for our region.

Both North and South Dakota are, in many portions, semiarid States. Both North and South Dakota have given up over 500,000 acres of land apiece so that our downstream States could enjoy the benefits of flood control, navigation, and cheap hydroelectric power. Both North and South Dakota were promised, for their sacrifice, significant assistance from the Federal Government for water development purposes. Both North and South Dakota have been thus far the victim of unkept promises in this regard.

All that being said, however, I must still oppose further funding of the Garrison project for one reason and one reason only. That is the very distinct possibility that construction of the project could have a seriously damaging effect on the residents of South Dakota. There is a distinct possibility that if the project is completed as present plans call for, and absent the possibility of drainage into Canada, the return flows that come into the James River in South Dakota could have serious impacts, at times dewatering the river and at other times flooding it. Also, there exists the likelihood that these return flows could have a serious impact on the quality of the water in the James River.

These negative impacts need not happen, however. In fact, legislation passed this year, and signed into law in H.R. 4347, provides for a study to determine if there is some way that these possible damaging effects can be turned into benefits for both North and South Dakota. At this time, however, that study has not yet started, and there are still no protections written into law that will assure the South Dakota residents along the James River that work on the Garrison project will not have the damaging effects on them that they legitimately fear.

As much as I regret the position this puts me in, and as much as I realize the necessity of my neighbor to the North to develop a beneficial plan for the efficient use of its water supply, I must vote against any further appropriations for the Garrison projects until the necessary safeguards for South Dakota are put into place.

Mr. CONTE. Mr. Chairman, I just wanted to respond to my good friend. I have the same admiration for my good friend, the gentleman from North Dakota. It pains me to fight the gentleman on this project. But deep in my heart, I know I am right.

● Mr. FASCELL. Mr. Chairman, I would first like to commend the gentleman from Massachusetts for taking the initiative and leadership on this important issue.

As chairman of the House delegation to the Canada-United States Interparliamentary Group, I have become familiar with Canadian concerns over the construction of the Garrison diversion project. This water project has become a major issue in United States-Canadian relations. Proponents of the project argue that Canada is protected by an understanding between the two governments that the project will not be completed in a manner that would impact adversely on Canadian waters. However, the U.S. Government has taken no steps to redesign the project so that Canadian waters will not be impacted, and the Canadians are sufficiently knowledgeable of the U.S. political system to know that, once millions of dollars have been poured into the project, pressures for completion may be too strong to resist.

I would like to bring to the Members' attention a letter which I received from Ian Watson and Henry Hicks, the Canadian co-chairmen of the Canada-United States Interparliamentary Group. The letter sets forth the current Canadian perspective on the project and deserves the Members' close scrutiny.

I think that the best solution is that offered by Chairman ZABLOCKI, which is for the United States to redesign the project in a manner which deals with both the Canadian concerns and domestic environmental issues.

I urge the Members to support the Conte amendment as the first step toward forcing a restructuring of the project in a manner that avoids any adverse effect on Canadian waters, deals with the major U.S. environmental concerns, and still meet the needs of the people of North Dakota.

JULY 9, 1982.

Hon. DANTE B. FASCELL,
Co-Chairman, Canada-United States Inter-Parliamentary Group, U.S. Section, Chairman, Subcommittee on International Operations of the House Committee on Foreign Affairs, House of Representatives, Washington, D.C.

DEAR DANTE: As Canadian Co-Chairman of the Canada-United States Inter-Parliamentary Group, we wish to alert you to the continuing concern of Canadian parliamentarians over possible Congressional action in respect to the Garrison Diversion Unit.

As you are doubtless aware, the U.S. Court of Appeals ruled in May 1982 that Congressional re-authorization for the Garrison Diversion Unit was not required as had been contended before a lower court which had earlier granted an injunction against further construction on the project. Consequently, the ruling of the U.S. Court of Appeals means that construction can go ahead using the previously appropriated funds amounting approximately to $9 million. Added to this funding could be the House appropriation request for FY83 for $4 million and the possible addition of $10 million to be diverted from other projects of the Department of Interior, a proposal supported by Senator Burdick. The Secretary of the Interior, James Watt, and U.S. officials indicated in February of this year that construction on the project would proceed.

It will be evident to you from our numerous exchanges on the Garrison project which have taken place at past meetings of the Canada-United States Inter-Parliamentary Group, that these developments cause Canadians considerable concern. You will recall that Canada has opposed the project since its beginnings in the 1960s and the Canadian government has formally advised the United States that Canada cannot accept any Garrison plan which does not effectively guarantee against biota transfer to the Hudson Bay drainage basin.

I know you are also aware that the report of the International Joint Commission (IJC) of 1977 confirmed Canadian apprehensions concerning the transfer of incompatible forms of biota to Canadian rivers and lakes. That report recommended that those portions of the Garrison project which could affect waters flowing into Canada should not go forward as authorized until the question of biota transfer was resolved. The IJC recommendation did not preclude construction of the Lonetree Reservoir provided all outlet works from the Reservoir are located so as to discharge only into the Missouri River Basin and if fishing in the Reservoir were forbidden.

We are aware of efforts of the U.S Administration to devise an approach to the Garrison project which will reduce the risk of water and biota transfer, including the most recent project modification known as the Olson-Janklow plan. We appreciate these efforts and consider that this plan represents a welcome acknowledgement of Canadian concerns. We are also pleased that the United States Administration has indicated it will consult with Canada in developing the plan.

However, it is noted in Canada that the Olson-Janklow plan has no official status and that the only Garrison plan authorized by Congress is the original 250,000 acre project with its attendant risk to Canada. It is under this authorization that additional funds for Garrison are appropriated. We are concerned to know if Garrison proposals (for authorization, funding or construction) will be limited to the modified Olson-Janklow plan currently being proposed? Or, might we be faced with a renewed pressure for the full-scale Garrison or increased support for additional components as a logical outcome of the gradual build-up of various parts of the original plan? Moreover, while the Olson-Janklow plan (which in essence involves a modified part of the original Garrison project plus a second phase providing for increased irrigation along the James River in South Dakota using a portion of the water available from the Garrison project in North Dakota), would seem not to affect Canadian waters, some important questions of a technical nature still remain. Canada is interested in learning more about the design and engineering of certain aspects of this project before it can decide whether the modifications can be developed without serious risk to Canada waters.

What we would urge is that Congress delay any new authorization of funding for the Garrison until the two governments have had a chance to work out the remaining bilateral problem areas and to reach agreement on modifications under the new plan.

The members of the Canadian section of the Canada-United States Inter-Parliamentary Group are aware of your personal sensitivity to Canadian problems over this issue

and are grateful for your help in enlarging understanding of the Canadian viewpoint. We bring our current concerns to your attention in the hope that when the House appropriation vote on this issue is held, you might be able to convey to Congressmen why Canada is not yet completely satisfied that its interests will be protected.

Yours sincerely,

IAN WATSON.

HENRY D. HICKS.●

● Mr. DERWINSKI. Mr. Chairman, I urge my colleagues to support the amendment deleting funds in this resolution for the Garrison diversion unit in North Dakota.

Although there are other domestic arguments for delaying construction on this project until it has been evaluated further, I want to emphasize the reasons why the Garrison diversion unit, as currently envisioned, would adversely affect our relations with Canada.

This project would result in a violation of the 1909 Boundary Waters Treaty between Canada and the United States. Project irrigation would pollute rivers that flow from the United States into Canada, and harmful fish would be transferred into the Canadian watershed. This would have disastrous results for commerical, sport and native people's fisheries in the Province of Manitoba.

The United States-Canadian International Joint Commission has requested a moratorium on the Garrison diversion project, and the Government of Canada has made the same request repeatedly. In my judgment, such a moratorium is justified, and I again urge support of the Conte amendment.●

● Mr. ZABLOCKI. Mr. Chairman, I rise in support of the amendment offered by the gentleman from Massachusetts.

For the past several years funding for the Garrison diversion project has been controversial in this body. There are various outstanding domestic environmental issues, and our Northern neighbor Canada has serious reservations on the impact that the project would have on Canadian waters and aquatic life. This year I attended the annual Canada-United States Interparliamentary Group meeting, and I know from those discussions that the Canadian concerns are strong and genuine.

If we continue on the present path we will be confronted with this controversy every year for the next decade. A lot of money has already been sunk into the project and should not be wasted. The only reasonable course is for the project to be redesigned so as to deal with the prominent domestic environmental issues and to avoid any adverse impact on Canadian waters. To do otherwise is to keep the project mired in controversy, to further delay construction, and maybe even to prevent it from ever reaching completion—that surely is not in the interest of the United States, much less the people of North Dakota.

Mr. Chairman, the best route to insure the redesign of this important water project is to reject the funds in this bill for the Garrison diversion project and thereby force a review of the legitimate criticisms and concerns.

I urge the Members to support the Conte amendment.●

● Mr. CLAY. Mr. Speaker, I rise in support of the amendment to delete funding for the Garrison diversion project in North Dakota.

Many words have been spoken today in an attempt to sway the undecided and perhaps change the minds of others who have voted to continue this project in the past. It is my fervent hope that there will always be Members with open minds who can change their positions, as many noted colleagues have done on this one issue.

With all the many facts and figures and noted champions on the side of Garrison, year after year it rolls on. Congress after Congress continues to appropriate money for it. Each year we come closer to killing this wasteful boondoggle but victory has eluded us. Why? Why do some of us continue to vote for a wasteful and destructive water project of such magnitude that it almost defies description? Why do Members who vote correctly on a whole score of other environmental issues vote for Garrison? Why do Members who otherwise favor good Canadian-United States relations vote for Garrison? And why do Members who categorically vote against high-priced Federal expenditures continue to vote for Garrison?

This country has been coasting along for decades, finding the easiest way to deal with pressures and party lines and problems it to vote money for them. The downhill ride is about to end and I fear a brick wall looms ahead. A wall of economic recession, environmental degradation, and loss of faith with the American people we represent. We must put the brakes on wasteful Government spending now. There is simply no way we can continue to vote for projects like the Garrison diversion unit with equanimity.

I ask that each of you reach down into your conscience and ask a few honest questions: Do we really need this project and its $1 billion price tag? Might there not be a better way, a cheaper way, to give the people of North Dakota the kinds of benefits they need rather than a project that will be a irrigate six-tenths of 1 percent of the land? Is the damage or destruction of 12 congressionally authorized national wildlife refuges not worth considering? And is there any reason we should continue to antagonize our good neighbors in Canada? They are deeply concerned about the intrusion of run off from this project in North Dakota into the Hudson Bay watershed in Manitoba.

Certainly there are no easy answers to these questions. I only say that we must take our responsibilities as representatives of the people seriously enough to ask them and to come up with an answer of no funding for Garrison until some of the harder questions are put to rest.

I hope you will join me in supporting the Conte amendment to cut funding for Garrision in fiscal year 1983.●

● Mr. PEASE. Mr. Chairman, in a year when we have fought tooth and nail to cut needless Federal spending, North Dakota's Garrison Diverson water project has again returned to remind us that not all Federal waste is treated equally.

Conceived as a way to suddenly irrigate historically dry land farms. Garrison Diverson costs and benefits have been shifted, altered and exaggerated since conception. The project, which will barely provide more irrigated farmland that it will take from existing production, is an international embarrassment.

Despite the continued pleas of our friend and neighbor Canada, the supporters of Garrison push on. Since the early 1970's, Canada has made clear that it fears that the new drainage from irrigated North Dakota lands will end up polluting Canadian rivers. The International Joint Commission (IJC), a bilateral body that has overseen United States-Canadian boundary questions for 70 years, recommended that the project not be built at this time—1977—since it would cause significant injury to health and property in Canada. Our State Department has varied its spending commitment to respecting this violation, but of late seems to have forgotten its promises to honor international treaty agreements, at least on this continent.

Garrison, like similar innocent and well meaning projects, was originally expected to cost little, barely over $200 million in 1965. Today less than 25 percent complete, price estimates now exceed $1 billion. Each acre of irrigated land will cost American taxpayers $4,000. Federal belt tightening slips completely on this program.

Mr. Chairman, because of the huge costs involved, the continuing violations of international treaty agreements, and tremendous adverse environmental effects, the Garrision Diverson should be stopped. The Conte amendment to cut H.R. 7145 accordingly should be approved by this House. Our official duplicity over waste should end as it regards the Garrison Diverson and its never ending cost to American taxpayers.

I urge approval of the Conte amendment.●

The CHAIRMAN pro tempore. The question is on the amendment offered

by the gentleman from Massachusetts (Mr. CONTE).

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. CONTE. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 252, noes 152, not voting 29, as follows:

[Roll No. 449]

□ 1950

Messrs. HUNTER, WINN, LUKEN, and BEREUTER changed their votes from "aye" to "no."

Messrs. LEE, GUARINI, HARTNETT, EDWARDS of California, HUGHES, TAUZIN, PRICE BREAUX, and SPENCE changed their votes from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

The CHAIRMAN pro tempore. Under the rule, the Committee rises.

Accordingly the Committee rose; and the Speaker having resumed the chair, Mr. MITCHELL of Maryland, Chairman pro tempore of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the joint resolution (H.J. Res. 631) making further continuing appropriations and providing for productive employment for the fiscal year 1983, and for other purposes, pursuant to House Resolution 626, he reported the bill back to the House with sundry amendments adopted in the Committee of the Whole.

The SPEAKER. Under the rule, the previous question is ordered. Is a separate vote demanded on any amendment? If not, the Chair will put them en gros.

The amendments were agreed to.

The SPEAKER. The question is on the engrossment and third reading of the joint resolution.

The joint resolution was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. CONTE

Mr. CONTE. Mr. Speaker, I offer a motion to recommit.

The SPEAKER. Is the gentleman opposed to the joint resolution?

Mr. CONTE. I am, Mr. Speaker.

The SPEAKER. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. CONTE moves to recommit House Joint Resolution 631 to the Committee on Appropriations, with instructions to that committee to report the resolution back to the House forthwith, with the following amendments: Strike title II.

On page 6, in line 21, after "resolution" insert ": *Provided further*, That the rate for operations for the Board for International Broadcasting, including grants to RFE/RL, Inc., shall be $111,600,000, and the rate for operations for the United States Information Agency shall be $507,547,000".

Mr. CONTE. Mr. Speaker, this motion to recommit would strike out title 2 with only one exception, about which I want to forewarn the House: There are $44 million in here for the Voice of America and Radio Free Europe, Radio Liberty, which was requested by the administration. Otherwise, title I is exactly the same as the resolution reported by the committee, with the pay raise and other amendments as adopted.

Mr. Speaker, this is one of the last major votes of this session. And it will test your loyalties to the principles you have fought for. I urge you to vote for the motion to recommit this resolution with instructions to strike title II.

Those who are concerned with the environment, and who voted to delete funding for the various public works projects this afternoon, should vote for the motion. There is funding for more pork barrel water projects in title II than anything you considered all afternoon long. There is funding for projects like the Red River Water-

way, the central Arizona project, the central Utah project, and yes even the Tennessee Tombigbee. This title gives the Army Corps of Engineers and the Bureau of Reclamation a blank check, and the environmental groups oppose the water projects in this title.

For those of my young progressive colleagues who believe the future of this country lies in investment in high technology, in encouraging creativity and invention, and in training and educating our people for the future, should vote for this motion, because title II is about to invest your capital in old ideas. Imagine what $6 billion could do in building bullet trains, in investing in the latest steel production technology and in providing lasting training to our unskilled workers. Instead, title II invests in canals and Federal buildings and purchase of 15,000 motor vehicles to bail out the automobile industry.

For those of you who have advocated a "pay as you go" approach to new projects in this Congress, should vote for this motion. Title II thumbs its nose at the notion of fiscal responsibility that has marked this Congress, and it harkens back to a time of free spending that is simply counterproductive in this time of record deficits.

And for those of you who believe this Government must take responsible action to deal with the 12 million unemployed people in this country, I urge you to vote for this motion. Somewhere on the way to this forum, this bill got hijacked. In place of jobs for the people, this title substitutes fantasies like small business tree planting services, and hundreds of pork barrel Christmas tree projects that fill pages and pages in the report.

There is very little in this bill for unemployed older Americans, for unemployed teenagers, for unemployed women. They all have very high unemployment levels, and need all the help they can get.

This bill is not a jobs bill. It pays for bulldozers and dams and buildings, projects that will be built over a number of years and not, I repeat, not in the immediate months ahead when we need the jobs for our 12 million unemployed. If anyone thinks this $6 billion is going to relieve the people who need help now, they are misinformed, and worse than that, they are wrong.

Title II offers the 12 million unemployed of this country three things:

A chance to borrow $5.4 billion;

A grab bag of Christmas presents and projects bigger than this Chamber has ever seen; and

A guarantee of being vetoed.

And let me tell you a couple of other things it offers:

A strong probability of putting the Government out of business, when December 17 rolls around, furloughing hundreds of thousands of Government workers; and

The wonderful occasion to spend Christmas and even New Years Eve together trying to push a continuing resolution through and get it signed.

If this were a good bill, worth fighting for, I would be in there with you. But when you realize this bill is a backhanded way to fund every nut and bolt program for the next several years without regard to the budget, in the sheep's clothing of providing jobs, I hope you will get mad and reject these charades.

I can tell you with all honesty that I would be only too pleased to work with my colleagues on both sides of the aisle to produce a bipartisan jobs bill that will be acceptable to Congress and to the administration. We produced a legislative miracle with the tax bill and another on the highway. I think we can produce another. But first we must separate the wheat from the chaff and reject this ill-conceived, and misdirected attempt to bulldoze our way through the national tragedy of our 12 million unemployed Americans.

VOICE OF AMERICA, RADIO FREE EUROPE/RADIO LIBERTY

Mr. Speaker, my motion to recommit includes an amendment to add a total of $44 million for the operations of the Voice of America and Radio Free Europe/Radio Liberty, as strongly requested by the administration. Of this total, $22.7 million is for the Voice of America, and $21.3 million is for Radio Free Europe/Radio Liberty.

These important information tools have been long neglected and are now sadly antiquated. Their importance and impact are testified to time and again by refugees from the Soviet block and other closed societies where accurate information is not available.

Listen to a letter from 181 Soviet seamen regarding these radio efforts:

We send heartfelt thanks to the people of America, the Congress and President Reagan. . . To everyone who makes it possible for us to listen to the voice of truth. We ask you to forgive us that we cannot write our names.

Time does not permit under the limitations of a motion to recommit, but I could read letter after letter similar to this one. We all are aware of the strong support of these radio efforts on the part of the various immigrant groups all over the United States. We have heard from them, the Estonians, the Lithuanians, the Ukrainians, The Russian Jews, all of them and more. Now let us let them hear from us by supporting this motion to recommit, and with it, a much needed boost for the Voice of america and Radio Free Europe/Radio Liberty.

President Reagan's letter follows:

THE WHITE HOUSE,
Washington, D.C., December 9, 1982.

Hon. MARK O. HATFIELD,
Chairman, Committee on Appropriations, U.S. Senate, Washington, D.C.

DEAR MARK: A month ago I sent to the Congress requests for an additional $22.7 million in appropriations for the United States Information Agency and an additional $21.3 million for the Board for International Broadcasting in the current fiscal year. I would like to explain why I have take this step, and to enlist your cooperation in securing passage of this important legislation during the current session.

International broadcasting is vital to our national security. The success of our nation in the international arena depends to a critical degree on how well the actions and intentions of the United States are understood by the rest of the world. By making clear where our country stands on the major issues of our time, and by articulating the ideals and aspirations that underlie our actions, we can gain understanding of and support for American foreign policy. By making available full and unbiased information about world events, we can provide the perspective necessary for intelligent judgments about world affairs.

The importance of international broadcasting and its role in the worldwide competition of ideals is not always well understood. Radio continues to be the primary method of communication in many areas of the world. In some areas—notably, in the Communist world—international radio remains virtually the only source of reliable news and information. For this very reason, the Soviet Union has long sought to prevent reception of these broadcasts. Their efforts have increased measurably in recent years in the wake of the turmoil in Poland. The jamming of Western radio broadcasts by the Soviet Union is now of unprecedented intensity, and for the first time extends to broadcasts intended for other countries—specifically, Poland and Afghanistan.

At the same time, the Soviet Union appears to have launched a campaign of intimidation designed to inhibit Western broadcasting efforts. In a recent conference of the International Telecommunications Union in Nairobi, the U.S.S.R. had one of its allies introduce a resolution that would have legalized jamming of international broadcasts. The Polish government has repeatedly complained that Western broadcasts have interfered illegitimately in that nation's internal affairs, and the Soviets themselves have undertaken a campaign of slander against the principal radio organizations supported by the U.S. Government, the Voice of America and Radio Free Europe/Radio Liberty.

We reject the charge that U.S. international broadcasting operations are in any sense improper. The principle of freedom of information is embodied in a number of international agreements to which the U.S.S.R. and its allies are parties, and deliberate interference with international broadcasting is specifically outlawed under the Convention of the International Telecommunications Union. Soviet accusations that U.S. broadcasts are irresponsible are, in any event, utterly without foundation. The existing charters and guidelines of the Voice of America and of Radio Free Europe/Radio Liberty are sufficient indication of the painstaking efforts that have been undertaken to ensure the accuracy, reliability, and responsibility of our radio stations.

There is nothing provocative about broadcasting the truth.

It is vital that we undertake initiatives now for the modernization and strengthening of our international radio broadcasting operations. The time has come to give these operations—for too long systematically underfunded and neglected—the attention they deserve. The additional funding I am requesting for the Voice of America and Radio Free Europe/Radio Liberty in FY 83 is a critical first step in this direction. These monies are intended primarily to assist rapid modernization of the technical infrastructure of the radios and to rebuild personnel levels in essential areas. Failure to obtain the additional funding in the current session will seriously hinder timely implementation of our overall program. Particularly at this time of critical change in the Communist world, having these improved capabilities as soon as possible is a matter of vital national interest. Please join me in this important effort.

Sincerely,

RONALD REAGAN.

□ 2000

Mr. WHITTEN. Mr. Speaker, I rise in opposition to the motion.

Mr. Speaker, it is with no pleasure that I point out this serious situation which faces our Government and our country. Let me call to the Members' attention just how the situation has deteriorated since we began this new approach.

Unemployment has increased to 10.8 percent on a national basis, reaching a national high of 17.2 percent in the State of Michigan. Bankruptcies have increased to 77,503 from 66,332 last year. Business failures are up 49 percent since last year; only 35.7 percent of the raw domestic steel industry capacity is currently being utilized, which represents the lowest capacity since 1932. American farmers owe $200 billion, and now they want to pay farmers in kind, with commodities that we would not have if we had kept them on the market to feed a starving world. We stored instead of selling it and our competitors sold them.

During the 1975 recession, approximately 76 percent of the unemployed workers were covered by some form of unemployment benefits. Today, only 49 percent are covered. We are now spending over $20 billion a year for unemployment compensation.

May I say to the Members that this committee was asked to come up with what we could do to generate production activities. We have not created jobs. We have pointed out that in this bill we studied the hearings of appropriations subcommittees provided for many of those things that have been requested and are needed. They would strengthen the wealth of this country and also generate jobs. I say to the Members that we have got a situation so very close to what happened before and if Members will go back and study history they would see that our President at the beginning of the Great Depression, said, "Let's look to private business."

We are not ignoring private business. In our recommendations we have called on the Secretary of Commerce and the Secretary of the Treasury to get together and see what can be done to put our folks back in business so that they can compete in world markets. We need to. We are competing not with these automobile companies in Japan, we are competing with the government. Foreign governments have corporations that belong partially to the government and partially to private enterprise. We are asking for a report to the Congress as to what the Congress can do by legislation.

So I say to the Members, we have provided from the hearings in the Appropriations Committee in the past, at the direction of the chairmen, to see what is available, and we ask the Members to go along with it.

I am going to be candid with the Members. It is evident that we have got to have a continuing resolution that will be agreed on by the President, agreed on by the Senate, and agreed on by the House. But, let us stand up here and point out to the people that we are going to have to work to save our own country, or else we are going into the worst depression that we ever saw because all the earmarks are just like what preceded the other depression. I happened to come along in that period, when you could not buy a sack of flour in the State of Mississippi. I do not believe folks will stand in line like they used to, so I ask the Members here not to create jobs, but let us spend money on our own country.

Let me call attention to this: Do the Members realize that we appropriated $230 billion for defense last week; that we committed ourselves on these new weapons to over $400 billion 4 years from now? Do the Members realize that that will not be worth the paper it is written on if the economy keeps going like it is now?

Let me say and call to the attention of the Members that some years ago, President Eisenhower vetoed the public works bill because it had 69 new starts. We failed to override the veto. It came back and we sent it back to him. He said that we owe so much; our situation is so serious, our obligations at home and abroad, that we cannot afford these 69 new starts to strengthen our country. On the second round we overrode his veto. I was honored to make the motion to cut everything by 2.5 percent. We sent the bill back to the President, and that time the Congress overrode his veto. Do the Members know what I used? I used his message. I said, "The more we owe, the greater our problems, the more imperative it is that we look after our own country, for it is on that that all the rest depends."

I want the Members to know that in our committee we believe in stability. We did something about interest rates. But, I want to tell the Members that we draw a distinction between money and national wealth and try to stabilize our money and hold down. Members will recall, in our recommendations last year we rescinded $14.3 billion the first year at his request. Let me say, you can leave your children all the money in the world in a wornout land, and they would never make it.

We ask the Members here, let us point out to our country that we need to go to work here at home to strengthen our economy, because the military is only as strong as the economy at home. With respect to all this money you have been appropriating, let us make it worthwhile by taking care of the basic things in our domestic economy, because, so help me, it is on that that all the rest depends.

● Mr. MILLER of California. Mr. Speaker, the goal of the additional spending in this bill is to stimulate the creation of jobs and economic recovery, which is the most important mandate facing this Congress and our Government.

In recent weeks, much of our attention has focused on the need to create jobs in the construction sector, particularly in the building and repair of our deteriorating roadways, bridges, and public transportation systems. These are important jobs because they will reemploy tens of thousands of workers who have been unemployed because of the deep recession.

But it is also crucial, as we fashion broad jobs legislation, that we pay special attention to the employment needs of women workers, relatively few of whom stand to benefit from jobs in the heavy construction area.

In order to meet the needs of some women who must join the labor force because of economic necessity, I have encouraged the leadership of this House to include in this legislation a special, supplemental child care program. I am very proud that the leadership of the House has recognized that for millions of women throughout this Nation, child care is first and foremost an employment issue and that without child care, millions of women will simply be unable to take the jobs they need to support their families. A large number of women—perhaps as many as 12 to 14 percent—are prevented from assuming full-time jobs because of inadequate child care. The need for employment-related day care is especially great among women between the ages of 18 and 24, non-high-school graduates, minorities, mothers whose families have incomes under $15,000.

Creating education and job training programs, and even jobs, will not benefit many of these women unless we simultaneously provide them with child

care. As the U.S. Commission on Civil Rights has noted last year:

Whether women will be able to enter the labor force or to seek training and education with men will depend, to a great extent, on the types of care that are available, including those provided or fostered by the Federal Government.

Even for those women who are working, inadequate child care remains a most serious constraint on employment. In 1978, nearly one-third of the women interviewed identified inadequate child care as a "major problem."

For these women, working is an essential fact of life. For millions of other women, inadequate child care precludes employment. Rather than being employed, tax-paying citizens, millions of women are condemned to welfare dependency and poverty because of the lack of adequate child care.

In coming years, increasing numbers of mothers will join the work force either by choice or of necessity. By 1990, the number of preschool children who need child care will grow by over 25 percent. By 1990, nearly half the children under the age of 6 will have working mothers, as will 81 percent of children aged 6 to 17. We can also expect the number of children living with only their mothers to grow by more than one-third over the same period.

Yet this administration and this Congress have tried to deny these changing demographics, and have taken actions which cripple employment opportunities for millions of American women across this Nation by eviscerating child care. In the last 2 years, we have dramatically reduced the major source of child care support in Federal law by removing the longstanding $200 million set-aside for child care in title XX and then cutting title XX funding. The result has been predictable: Many States have substantially reduced their child care programs, while many have also raised fees which discourage marginal workers from seeking employment because their wages do not offset the costs of child care.

Our actions in reducing child care have contributed to the unemployment crisis in this country, especially among women. And unless we reverse that senseless and costly trend, millions of women will be unable to participate in job training, education, and employment programs which hopefully this Congress will create to relieve the crushing unemployment rate. In addition, our failure to provide adequate day care for working parents who must work and who want to work will consign millions of young children to inadequate or nonexistent supervision. In both cases, the costs of our failure to provide these services—in continued unemployment, in growing welfare dependency, in increasing costs of essential human service programs, in remedial education and health care, and a multitude of other areas—will be far, far greater than the small amount of these day care services.

House Joint Resolution 631 addresses this great need by providing an additional $50 million for employment-related child care. The Appropriations Committee and others supportive of this section recognize that unless we increase our support for child care, the promise of employment and new jobs for millions of women in this country is nothing but a hollow promise.

At the same time, this additional funding will directly employ 4,000 additional people in the provision of child care services. An additional 33,000 children each month will receive child care services under this legislation. The committee has indicated its intention that these additional $50 million not replace any State or Federal funds currently being expended on day care, but that they rather be used to expand the availability of child care services.

Mr. Speaker, this special effort is just the first step toward creation of a sound child care system in this country which is closely tied to the employment needs and desires of American families. This provision of House Joint Resolution 631 recognizes that child care is not a welfare issue, it is not a Liberal or Conservative issue, it is not a social service issue. Child care is an employment issue because it is the foundation on which millions of eligible and willing Americans will be able to enter, and remain full participants in, the labor force. They will become wage-earners and taxpayers rather than remain dependent on taxpayers for income support and vital services. And we can achieve this goal at a fraction of the per capita cost of most education and job training efforts.

Important as this supplemental appropriation for child care is under these dreadful economic circumstances, it is just a small part of the overall task of assuring that working parents have adequate day care.

While we drastically reduced funding for day care services through title XX and other federally funded programs, we are spending many times that same amount for child care through indirect financing via the day care tax credit. The availability of child care services has the greatest employment effects in the case of lower income wage earners. But over 80 percent of the current credit goes to those earning over $15,000 a year, and nearly half of all the money expended through the credit benefits those earning over $25,000 annually.

Low-income people are not able to take the full benefit of the tax credit because of their small tax obligations. Since the remaining amount of the credit is not refundable, the excess represents a large out-of-pocket expense for low-income workers, frequently more than the differential between working or remaining on public assistance. As currently structured, therefore, the day care credit gives maximum benefits to those for whom day care is not the basis of whether or not to work, while the poorer person who really needs the services in order to get off public assistance and into a job does not receive those benefits.

It is my hope, and I believe the hope of millions of working people throughout this country, that we in Congress will undertake serious efforts to develop a child care policy in this country which meets the employment needs of parents and the day care needs of children. This supplemental child care section of the continuing resolution is an important step in that direction, not only because it provides an additional amount of funding, but because it addresses the child care issue as a means of supporting all Americans who want to work.

DISCUSSION POINTS ON CHILD CARE

Jobs bill should speak to the special employment problem of women: 12 to 14 percent of women cannot work because of unavailability of child care; 30 percent of working women cite day care as a major concern.

Providing day care is far cheaper, on a per capita basis, than job training or employment subsidies.

The provision in this bill will provide an additional 33,000 day care slots, and will provide jobs for 4,000 day care workers.

Growing number of women workers, female headed households, and young children make it imperative that we view child care as employment, not welfare, issue.

The administration and Congress have cut child care by eliminating the $200 million under title XX, by reducing overall title XX funding, and by eliminating CETA workers who staffed many centers. These action multiply the barriers which prevent workers—especially women—from seeking or retaining employment.●

The SPEAKER. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER. The question is on the motion to recommit.

The question was taken; and the Speaker announced that the noes appeared to have it.

Mr. CONTE. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 191, nays 215, not voting 27, as follows:

□ 2030

The Clerk announced the following pairs:

On this vote:

Mr. Fary for, with Mr. Thomas against.

Mr. John L. Burton for, with Mr. Chappie against.

So the joint resolution was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

The SPEAKER. The Chair recognizes the majority leader, the gentleman from Texas (Mr. WRIGHT).

Mr. SMITH of Oregon. Mr. Speaker, I have a preferential motion I send to the desk.

The SPEAKER. The gentleman will be seated. The Speaker has the right of recognition.

Mr. SMITH of Oregon. Mr. Speaker, I have a preferential motion.

Mr. WALKER. Regular order, Mr. Speaker.

□ 2040

The SPEAKER. The Chair recognizes the majority leader, the gentleman from Texas (Mr. WRIGHT).

LEGISLATIVE PROGRAM

Mr. WRIGHT. Mr. Speaker, let me simply announce for the benefit of the Members that it is our intention now to have no further votes tonight. We plan to take up the things that we put off last night in order that Members might go and attend the reception in the White House, the remaining suspension, as was agreed with the Republican leadership and our leadership last night, but we will not have any votes. We will roll the votes until tomorrow, let the votes be the first thing tomorrow.

We will come in at 10 o'clock tomorrow and the first order of business tomorrow then will be votes on the suspensions that have been debated tonight.

I think that is a fair arrangement, trying to accommodate everybody, as was agreed last night when we rose early and those who had suspension on the calendar accommodated the rest of us by postponing their suspension in order that Members and their families might attend the White House party.

Therefore, I would ask your cooperation and your good graces to permit us simply tonight to debate these suspensions and let their votes be rolled until tomorrow morning and they come the first thing tomorrow when we convene at 10 a.m.

PREFERENTIAL MOTION OFFERED BY MR. SMITH OF OREGON

Mr. SMITH of Oregon. Mr. Speaker, I offer a preferential motion.

The SPEAKER. The gentleman will state his preferential motion.

Mr. SMITH of Oregon. Mr. Speaker, I move that the House do now adjourn.

The SPEAKER. The question is on the preferential motion offered by the gentleman from Oregon (Mr. SMITH).

The question was taken, and the Speaker announced that the noes appeared to have it.

Mr. SMITH of Oregon. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The vote was taken by electronic device, and there were—yeas 122, nays 202, not voting 109, as follows:

[Roll No. 452]

□ 2050

Mr. BEDELL and Mr. BOLAND changed their votes from "yea" to "nay."

Mr. HUNTER and Mr. STUMP changed their votes from "nay" to "yea."

So the preferential motion was rejected.

The result of the vote was announced as above recorded.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will make the following statement:

It is the usual and customary practice in this House that when we come to the end of a proceeding, as we did, that the majority leader then announces the program for the remainder of the night. The majority leader had informed me that he was going to make that announcement. Normally it is a unanimous-consent request, and that is what the Chair anticipated that the majority leader would do.

It is the prerogative and the duty of the Speaker of the House to run this body in an expeditious manner and he should be informed when motions are going to be made, whether they are privileged or otherwise, and when he is suddenly confronted with a privileged motion, then it is my opinion, while the Chair appreciates that he follows the rules of the House, it does not improve the decorum of the House. The Speaker at all times tries to be fair, and thought he was being fair with the Members when he was recognizing the majority leader to inform the membership what the program was for the remainder of the evening.

If the minority leader has anything to say, the Chair would be delighted to hear from him at this time.

Mr. MICHEL. The gentleman has nothing to say other than what I understand the agreement to be from this point on, Mr. Speaker, that the five bills in question will be taken up in sequence here and that the votes would be put off until tomorrow, if there is a vote demanded, and those votes would be the first order of business tomorrow.

The SPEAKER. The Chair was about to make that statement, Mr. Minority Leader.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken on Wednesday, December 15, 1982.

□ 2100

PERMISSION TO PRINT IN CONGRESSIONAL RECORD REPORT OF COMMITTEE ON STANDARDS OF OFFICIAL CONDUCT

Mr. STOKES. Mr. Speaker, by direction of the Committee on Standards of Official Conduct, I ask unanimous consent that the report of that committee (H. Rept. No. 97-965) filed today, be printed in today's edition of the CONGRESSIONAL RECORD.

The SPEAKER pro tempore (Mr. MURTHA). Is there objection to the request of the gentleman from Ohio?

Mr. WALKER. Mr. Speaker, reserving the right to object, I do so to inquire of the gentleman whether or not this has been cleared with the minority.

Mr. STOKES. The ranking minority member of our committee was one of the members who voted for the resolution asking that this be done in the House.

Mr. WALKER. I thank the gentleman.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

OREGON WILDERNESS ACT OF 1982

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 7340) to designate certain national forest system lands in the State of Oregon for inclusion in the national wilderness preservation system, and for other purposes, as amended.

The Clerk read as follows:

H.R. 7340

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Oregon Wilderness Act of 1982".

SEC. 2. (a) In furtherance of the purposes of the Wilderness Act, the following lands, as generally depicted on maps, appropriately referenced, dated December 1982 (except as otherwise dated), are hereby designated as wilderness and therefore, as components of the National Wilderness Preservation System—

(1) certain lands in the Mount Hood National Forest, which comprise approximately forty thousand nine hundred acres, are generally depicted on a map entitled "Columbia Gorge Wilderness—Proposed", and shall be known as the Columbia Gorge Wilderness;

(2) certain lands in the Mount Hood National Forest, which comprise approximately fifty-five thousand acres, are generally depicted on a map entitled "Salmon-Huckleberry Wilderness—Proposed", and shall be known as the Salmon-Huckleberry Wilderness;

(3) certain lands in the Mount Hood National Forest, which comprise approximately twenty-seven thousand acres, are generally depicted on a map entitled "Badger Creek Wilderness—Proposed", and shall be known as the Badger Creek Wilderness;

(4) certain lands in the Mount Hood National Forest and the Willamette National Forest, which comprise approximately forty-seven thousand acres, are generally depicted on a map entitled "Hidden Wilderness—Proposed", and shall be known as the Hidden Wilderness;

(5) certain lands in the Willamette National Forest, which comprise approximately twenty thousand acres, are generally depicted on a map entitled "Middle Santiam Wilderness—Proposed", and shall be known as the Middle Santiam Wilderness: *Provided,* That, the Secretary of Agriculture upon enactment of this Act shall terminate all existing contracts for the sale of timber within the Middle Santiam Wilderness as designated by this Act. The Secretary shall compensate the owners of such contracts by offering to sell them similar contracts of approximately equal volumes and values of timber. Such compensatory sales shall be carried out on a negotiated basis;

(6) certain lands in the Siuslaw National Forest, which comprise approximately six thousand five hundred acres, are generally depicted on a map entitled "Rock Creek Wilderness—Proposed", and shall be known as the Rock Creek Wilderness;

(7) certain lands in the Siuslaw National Forest, which comprise approximately eight thousand eight hundred acres, are generally depicted on a map entitled "Cummins Creek Wilderness—Proposed", and shall be known as the Cummins Creek Wilderness;

(8) certain lands in the Umpqua National Forest, which comprise approximately nineteen thousand eight hundred and twenty acres, are generally depicted on a map entitled "Boulder Creek Wilderness—Proposed", and shall be known as the Boulder Creek Wilderness;

(9) certain lands in the Umpqua and Rogue River National Forests, which comprise approximately fifty-five thousand acres, are generally depicted on a map entitled "Rogue-Umpqua Divide Wilderness—Proposed", and shall be known as the Rogue-Umpqua Divide Wilderness;

(10) certain lands in and adjacent to the Siskiyou National Forest, which comprise approximately twenty-two thousand acres, are generally depicted on a map entitled "Grassy Knob Wilderness—Proposed", and shall be known as the Grassy Knob Wilderness;

(11) certain lands in and adjacent to the Siskiyou and Rogue River National Forests, which comprise approximately twenty-six thousand acres, are generally depicted on a map entitled "Red Buttes Wilderness—Proposed", and shall be known as the Red Buttes Wilderness;

(12) certain lands in the Umpqua, Willamette, Deschutes, and Winema National Forests, which comprise approximately one hundred and fifty-five thousand acres, are generally depicted on a map entitled "Diamond-Thielsen Wilderness—Proposed", and which are hereby incorporated in and shall be deemed to be a part of the Diamond Peak Wilderness and designated by Public Law 88-577: *Provided,* That, the existing Diamond Peak Wilderness together with the additions thereto of this Act shall henceforth be known as the Diamond-Thielsen Wilderness;

(13) certain lands in the Rogue River and Winema National Forests, which comprise approximately one hundred and thirteen thousand acres, are generally depicted on a map entitled "Sky Lakes Wilderness—Proposed", and shall be known as the Sky Lakes Wilderness;

(14) certain lands in the Fremont National Forest, which comprise approximatley seven thousand eight hundred and twenty-five acres, are generally depicted on a map entitled "Coleman Rim Wilderness—Proposed", and shall be known as the Coleman Rim Wilderness;

(15) certain lands in the Ochoco National Forest, which comprise approximately seven thousand one hundred acres, are generally depicted on a map entitled "Bridge Creek Wilderness—Proposed", and shall be known as the Bridge Creek Wilderness;

(16) certain lands in the Ochoco National Forest, which comprise approximately fourteen thousand four hundred acres, are generally depicted on a map entitled "Mill Creek Wilderness—Proposed", and shall be known as the Mill Creek Wilderness;

(17) certain lands in the Ochoco National Forest, which comprise approximately thirteen thousand four hundred acres, are generally depicted on a map entitled "Ochoco Canyon Wilderness—Proposed", and shall be known as the Ochoco Canyon Wilderness;

(18) certain lands in the Wallowa-Whitman, Malheur, and Umatilla National Forests, which comprise approximately two hundred and five thousand acres, are generally depicted on a map entitled "North Fork John Day Wilderness—Proposed", and shall be known as the North Fork John Day Wilderness;

(19) certain lands in and adjacent to the Wallowa-Whitman National Forest, which comprise approximately thirty-one thousand acres, are generally depicted on a map entitled "Joseph Canyon Wilderness—Proposed", and shall be known as the Joseph Canyon Wilderness;

(20) certain lands in the Willamette and Mount Hood National Forests, which comprise approximately thirteen thousand five hundred acres, are generally depicted on a map entitled "Mount Jefferson Wilderness Additions—Proposed", and which are hereby incorporated in, and shall be deemed to be a part of, the Mount Jefferson Wilderness as designated by Public Law 88-577;

(21) certain lands in the Willamette and Deschutes National Forests, which comprise approximately six thousand acres, are generally depicted on a map entitled "Mount Washington Wilderness Additions—Proposed", and which are hereby incorporated in, and shall be deemed to be a part of, the Mount Washington Wilderness as designated by Public Law 88-577;

(22) certain lands in the Willamette and Deschutes National Forests which comprise approximately thirty-six thousand acres, are generally depicted on a map entitled "Three Sisters Wilderness Additions—Proposed", and which are hereby incorporated in, and shall be deemed to be a part of, the Three Sisters Wilderness as designated by Public Laws 88-577 and 95-237;

(23) certain lands in the Winema National Forest which comprise approximately three thousand acres, are generally depicted on a map entitled "Mountain Lakes Wilderness Additions—Proposed", and which are hereby incorporated in, and shall be deemed to be a part of, the Mountain Lakes Wilderness as designated by Public Law 88-577;

(24) certain lands in the Fremont National Forest which comprise approximately three thousand seven hundred and thirty acres, are generally depicted on a map entitled "Gearhart Mountain Wilderness Additions—Proposed," and which are hereby incorporated in, and shall be deemed to be a part of, the Gearhart Mountain Wilderness as designated by Public Law 88-577;

(25) certain lands in the Malheur National Forest which comprise approximately thirty-five thousand one hundred acres, are generally depicted on a map entitled "Strawberry Mountain Wilderness Additions—Proposed", and which are hereby incorporated in, and shall be deemed to be a part of, the Strawberry Mountain Wilderness as designated by Public Law 88-577; and

(26) certain lands in the Wallowa-Whitman National Forest which comprise approximately thirty-four thousand three hundred acres, are generally depicted on a map entitled "Eagle Cap Wilderness Additions—Proposed", and which are hereby incorporated in, and shall be deemed to be a part of, the Eagle Cap Wilderness as designated by Public Laws 88-577 and 92-521.

SEC. 3. (a) In furtherance of the purposes of the Wilderness Act, the following lands shall be reviewed by the Secretary of Agriculture as to their suitability for preservation as wilderness. The Secretary shall submit his report and findings to the President, and the President shall submit his recommendation to the Congress of the United States no later than three years from the date of enactment of this Act:

(1) certain lands in the Willamette National Forest which comprise approximately forty thousand acres, are generally depicted on a map entitled "Old Cascades Wilderness Study Area", dated December 1982, and which shall be known as the Old Cascades Wilderness Study Area;

(2) certain lands in the Willamette National Forest which comprise approximately sixty-five thousand acres, are generally depicted on a map entitled "Waldo Lake Wilderness Study Area", dated December 1982, and which shall be known as the Waldo Lake Wilderness Study Area; and

(3) certain lands in and adjacent to the Willamette and Umpqua National Forests which comprise approximately seven thousand five hundred acres, are generally depicted on a map entitled "Hardesty Mountain Wilderness Study Area", dated December 1982, and which shall be known as the Hardesty Mountain Wilderness Study Area.

(b) Subject to valid existing rights, the wilderness study areas designated by this section shall, until Congress determines otherwise, be administered by the Secretary of Agriculture so as to maintain their presently existing wilderness character and potential for inclusion in the National Wilderness Preservation System.

SEC. 4. Subject to valid existing rights, each wilderness area designated by this Act shall be administered by the Secretary concerned in accordance with the provisions of the Wilderness Act: *Provided,* That any reference in such provisions to the effective date of the Wilderness Act shall be deemed to be a reference to the effective date of this Act.

SEC. 5. As soon as practicable after enactment of this Act, a map and a legal description of each wilderness area shall be filed with the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Resources of the United States Senate, and each such map and description shall have the same force and effect as if included in this Act: *Provided,* That correction of clerical and typographical errors in each such legal description and map may be made. Each such map and legal description shall be on file and available for public inspection in the Office of the Chief of the Forest Service Department of Agriculture.

SEC. 6. (a) The Congress finds that—

(1) the Department of Agriculture has completed the second Roadless Area Review and Evaluation program (RARE II); and

(2) the Congress has made its own review and examination of National Forest System roadless areas in the State of Oregon and of the environmental impacts associated with alternative allocations of such areas.

(b) On the basis of such review, the Congress hereby determines and directs that—

(1) without passing on the question of the legal and factual sufficiency of the RARE II Final Environmental Statement (dated January 1979) with respect to National Forest System lands in States other than Oregon, such statement shall not be subject to judicial review with respect to National Forest System lands in the State of Oregon;

(2) with respect to the National Forest System lands in the State of Oregon which were reviewed by the Department of Agriculture in the second Roadless Area Review and Evaluation (RARE II), except those lands remaining in further planning upon enactment of this Act, and those lands designated for wilderness study in section 3 of this Act, that review and evaluation shall be deemed for the purposes of the initial land management plans required for such lands by the Forest and Rangeland Renewable Resources Planning Act of 1974 as amended by the National Forest Management Act of 1976 to be an adequate consideration of the suitability of such lands for inclusion in the National Wilderness Preservation System and the Department of Agriculture shall not be required to review the wilderness option prior to the revision of the initial plans and in no case prior to the date established by law for completion of the initial planning cycle;

(3) areas in the State of Oregon reviewed in such Final Environmental Statement and not designated as wilderness or for study by Congress or remaining in further planning upon enactment of this Act need not be managed for the purpose of protecting their suitability for wilderness designation pending revision of the initial plans; and

(4) unless expressly authorized by Congress the Department of Agriculture shall not conduct any further statewide Roadless Area Review and Evaluation of National Forest System lands in the State of Oregon for the purpose of determining their suitability for inclusion in the National Wilderness Preservation System.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Ohio (Mr. SEIBERLING) will be recognized for 20 minutes, and the gentleman from Alaska (Mr. YOUNG) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. SEIBERLING).

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 7340, the Oregon Wilderness Act of 1982. This bill represents a long overdue solution to the question of which national forest roadless lands in Oregon shall be designated wilderness, and which roadless lands will be made available for uses other than wilderness in accordance with Forest Service land management planning process. In so doing, the bill would add 26 areas in Oregon to the National Forest Service System totaling approximately 1,006,000 acres, and earmark another 112,000 acres for further wilderness study. Of roadless lands reviewed for wilderness potential by the Forest Service, roughly two-thirds would be released for uses other than wilderness.

Mr. Speaker, it is important that we act on this at this time. The Ninth Circuit Court of Appeals has upheld the decision of the district court in a case in California to the effect that the Forest Service, in deciding which lands should be recommended for wilderness designation by Congress, failed to carry out the requirements of the environmental laws, and therefore is going to have to do it all over again. This affects all of the States in that circuit, obviously, and means that all the roadless areas in the national forest will be tied up until such time as the Congress decides which ones should be put in wilderness and which should not. So, it is important that we act on this for purposes of providing the certainty that is needed for further investment in the timber and other industries, and it is also important from the standpoint of ending the long uncertainty that resulted from the failure of the Congress to act in the past on the Oregon wilderness issue.

Mr. Speaker, there are some who have characterized H.R. 7340 as a bill which would add disproportionate amounts of land and timber to wilderness, while ignoring the "development" side of the equation and uses such as timber harvest and mining. Nothing could be further from the truth. If H.R. 7340 is enacted into law, the wilderness and potential wilderness lands in Oregon will amount to roughly 2.5 million acres. Every single Western State, with the exception of the relatively arid States of Nevada, Utah, and Arizona, currently has a larger percentage of its national forest lands designated as wilderness or potential wilderness.

On the other side of the equation, if H.R. 7340 is enacted, roughly 84 percent of the national forest lands in the State will remain available for development type uses and motorized recreation. In terms of timber production, approximately 97 percent of the State's potential yield would remain outside wilderness or potential wilderness. It is also extremely important to bear in mind that the wilderness designations of H.R. 7340 protect uses and values that over the long run may provide more economic benefits to Oregon's economy than would the traditional extractive industries. In particular, many of the wilderness proposals and boundaries of the bill are drawn to provide protection for jeopardized anadromous fish runs and spawning grounds, which contribute millions of dollars annually to the economy. Studies in some areas suggest that the long-term economic values of these fisheries is greater than the timber potential. In addition, the wilderness designation of H.R. 7340 will provide economic benefits by maintaining high quality and quantity water flows for municipal and agricultural use; protecting key use areas for hunters, fishermen and the fast growing primitive recreation industry; and preserving the type of clean and beautiful outdoor environment that attracts high technology industry and workers to States such as Oregon. So I submit that H.R. 7340 makes good sense from an economic, as well as an aesthetic and recreation standpoint.

In summary, Mr. Speaker, I believe H.R. 7340 is a balanced bill which designates critical lands for wilderness protection and "releases" other lands for important uses such as timber harvest. I urge my colleagues support of the bill.

I would say it comes after three separate hearings in Oregon, and field trips by members of the committee, including myself, and it also comes after a full hearing in Washington. It does seem to me that we have an adequate record on which to base our decisions.

I would like to commend the gentleman from Oregon (Mr. WEAVER), a member of our committee, who has taken an active role in promoting a resolution of this, and also the gentleman from Oregon (Mr. AUCOIN) who has similarly taken a leadership role in working out this complicated legislation, as well as a newer Member, RON WYDEN, also from Oregon.

Of course, I also wish to thank the chairman of our committee, the Honorable MORRIS UDALL.

Mr. UDALL. Mr. Speaker, will the gentleman yield?

Mr. SEIBERLING. I will yield to Mr. UDALL.

Mr. UDALL. Mr. Speaker, I want to compliment the Oregon delegation members the gentleman just referred to, and the chairman of the subcommittee, the able gentleman from Ohio. We have a lot of difficulty and slowdown with some of these wilderness bills, but we are gradually and steadily completing this job. It took 20 years to make the studies, or almost 20 years, and we are now in the process of putting the final pieces of the wilderness system together. This is an important bill in that respect. I congratulate the gentlemen for it, and I offer my strong support of the legislation.

Mr. SEIBERLING. I thank the gentleman.

Mr. SMITH of Oregon. Mr. Speaker, will the gentleman yield?

Mr. SEIBERLING. I yield.

Mr. SMITH of Oregon. Mr. Speaker, I wonder if I might have a colloquy with the chairman, the gentleman from Ohio.

How long has this bill been introduced into the House of Representatives?

Mr. SEIBERLING. Well, the bill was only introduced 2 weeks ago. However, as the gentleman knows, the RARE-II recommendations and the whole RARE-II issue have been pending before the committee for several years. This bill simply finally pulls some unanswered issues together and makes a recommended decision on the basis of studies we have made of the whole Oregon National Forest Wilderness issue. Many of the wilderness proposals in this bill are identical to the proposals contained in Senator HATFIELD's bill in the last Congress.

Mr. SMITH of Oregon. I believe it was introduced about the first of December, and I believe we have had one hearing, which was last week, is that not correct, on the bill itself?

Mr. SEIBERLING. That is correct, but as the gentleman knows, we often have extensive hearings on proposed legislation, after which, on the basis of the information thus derived, we put together in final form a bill which we take to the floor. Interestingly enough, we often do that without even the benefit of a further hearing. In this case, after we put together the final version, we then held a hearing in Washington, in which testimony

was given by representatives of this administration, the timber industry and environmental organizations.

Mr. SMITH of Oregon. That hearing was held on the sixth of December; is that right?

Mr. SEIBERLING. I believe that is the correct date.

□ 2110

Mr. SMITH of Oregon. How long was that hearing?

Mr. SEIBERLING. The hearing lasted most of the morning.

Mr. WEAVER. Mr. Speaker, will the gentleman yield?

Mr. SEIBERLING. I yield to the gentleman from Oregon.

Mr. WEAVER. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, I want to say to my good friend—and he is my dear friend—the distinguished gentleman from Oregon (Mr. SMITH) who is one of my colleagues that I cherish, that there were six hearings held in Oregon on the wilderness issue in this session of Congress, three by my subcommittee.

Mr. SMITH of Oregon. Mr. Speaker, will the gentleman yield?

Mr. WEAVER. Mr. Speaker, I am sure the gentleman from Ohio would be delighted to yield to the gentleman in a bit, but first I would like to finish my statement.

Three hearings were held by my Forest Subcommittee, and three were held by my subcommittee chaired by the gentleman from Ohio (Mr. SEIBERLING), all dealing with the economics and specific wilderness areas in Oregon. That is six total hearings in this session of Congress, six hearings in Oregon.

And I say to my dear friend, the gentleman from Oregon, that my dear friend protested those hearings. He attacked me in the press for holding those hearings. He did not even come to those hearings, even though he was invited. He did not even come to the hearing in his own congressional district to represent his district in those hearings. We pleaded with him, we begged him to come to those hearings.

Mr. SMITH of Oregon. Mr. Speaker, will the gentleman yield?

Mr. WEAVER. We asked him to come so we could get his input on the issue, but he refused to come and instead attacked us for holding these field hearings on the issue in Oregon. I am sorry that that had to be the case.

Then Senator HATFIELD in the prior session of Congress held three hearings in Oregon on the wilderness bill he had introduced and passed in the Senate. Then another hearing was held in Washington, D.C., for a total of 10 hearings on this issue, not to mention the dozens of roadless area review studies and administrative hearings held on this issue.

We have been trying to resolve RARE-II for many, many years, and it is essential to our timber economy, which I know the distinguished gentleman from Oregon (Mr. SMITH) cherishes and tries to support just as much as I do. It is essential to the timber industry of Oregon that this issue be resolved. It must be resolved; it has to be. A RARE-II bill must be passed.

Mr. SMITH of Oregon. Mr. Speaker, will the gentleman yield?

Mr. WEAVER. And it has to be done very soon because of the threat of the Ninth Circuit Court of Appeals decision in the State of California case, which at any moment, even tomorrow, could lock up our entire roadless areas of Oregon just like that, without any questions asked, and, therefore, it would bring our entire timber industry to a halt.

So this issue must be addressed. It must be addressed as soon as possible because of the jeopardy our timber industry is in, and I ask the gentleman to simply state what actually happened in terms of the hearings we held in Oregon and the great amount of study we have given to this issue.

Mr. SMITH of Oregon. Mr. Speaker, will the gentleman yield?

Mr. WEAVER. I must return the time to the gentleman from Ohio (Mr. SEIBERLING).

Mr. SEIBERLING. Mr. Speaker, I do not wish to yield at this time. The gentleman will have his time.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as to what we are about to do tomorrow on this bill, it has been badly represented by those who are supporting it. We have been told that there is a great rush and need for this.

I would like to stress this matter and compliment the gentleman from Oregon (Mr. SMITH) for bringing forth the fact that we have had this bill 14 days or less. There have been no actual hearings on this legislation regardless of what my good chairman says. The Governor of Oregon opposes the bill, and the timber industry opposes it. It has created a false emergency. It covers 600 and some odd million acres, more than any other bill had ever imposed, including that of the Senator from Oregon, Mr. HATFIELD. We will lose 200 million board feet of timber per year, and it is valued at $44 to $60 million a year that will be lost.

I think the thing that hurts me the most is that my good friend, the gentleman from Oregon (Mr. WEAVER) has stated these things in his great hearings:

On February 19, in Salem, Oreg., he said:

I will not allow testimony on any specific wilderness areas or forests. That will come when, as I intend to do, I introduce an Oregon wilderness bill that will include specific wildernesses. The hearings will be held of course eventually on the specific forest areas. At that time we will take up what is suitable for each area and which are suitable for inclusion in the forest system.

Today we are concerned primarily with balance.

In Bend, Oreg., on February 20, 1981, the gentleman from Oregon (Mr. WEAVER) said this:

I intend to introduce after these hearings a wilderness bill which will include the actual specific wilderness areas. At that time we will hold hearings throughout Oregon to see the effect of and the desirability of these specific areas in their particular locales.

This hearing will have nothing to do with specific land areas. It is a hearing designed to determine what we think is a decent balance between the various multiple uses of your forest, the timber harvest, the commercial harvest land and wilderness land.

In Medford, Oreg., on February 21, 1981, he said:

With that, I want to say that upon the conclusion of these hearings, and this is the last one, that I will soon be introducing a bill for all of Oregon which will include specific land areas proposed for wilderness.

First, I want to get the moderation, the balance, and then we will go on to specific land areas proposed for wilderness. Then we will come back in several months and hold hearings throughout Oregon on these specific proposals. At that time then we will want testimony as to the effect on each land area, its merit for wilderness, its effect on the local area. We will have full hearings on those, and I can assure you, anyone who wants to testify in these hearings, I will want to hear them.

Mr. WEAVER. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. Mr. Speaker, I sincerely ask the gentleman to listen to what I have just said. This is all in 1981, and we are in 1982. The bill has been introduced, and we have never had any hearings. This is the man who is promoting this.

Mr. WEAVER. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman for just one-half second.

Mr. WEAVER. Mr. Speaker, I just want to say, yes, the first three hearings were on the economic effect of the wilderness and what comprised moderation and balance. They were very helpful hearings, and we arrived at 2 percent of the timber as a modest and balanced amount. That is what we have in this bill.

Mr. YOUNG of Alaska. Mr. Speaker, I will reclaim the balance of my time.

What I am stressing here is full hearings across the State of Oregon, and their effect on the locale. Now, the way this thing has been run tonight is absolutely a disaster as far as I am concerned. First, the gentleman from Oregon was not properly recognized, and he was gaveled down very, very quickly. I think that was wrong. He has a right to protect his interests.

He has not been protected in the committee.

Second, we are here tonight debating the bill, and let us face it, there are not that many around listening to this program, but I hope that the Members remember tomorrow that this used to be a representative forum of government, a body that had representatives that spoke to those people, and they should be listened to. I have heard my good friend, the subcommittee chairman, the gentleman from Ohio, say that collectively and nationally we must consider this. Forget the little man, forget the jobs in the timber industry, forget the local input, and listen to the special interest groups, the Sierra Club, the Friends of the Earth, all these different groups of lobbyists and lawyers out here that camp out in certain Members offices. Forget the people out there who are affected each day.

All I can say is that the gentleman from Oregon, Mr. SMITH, since it affects his district, does not want this bill with his district being affected, nor does the newly elected Member from Oregon want it. If the gentleman from Oregon (Mr. WEAVER) wants it in his district, let us write that area up and I will support him in it.

□ 2120

If the gentleman from Oregon (Mr. AUCOIN) wants it, I will support him in that area. But let us not start taking everybody's name in the national collective interest and putting areas in wilderness.

I am going to do everything in my power, as I said, on tomorrow to defeat this legislation that has been poorly drafted, poorly conceived, and very badly put upon the Members of this House.

I reserve the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I yield 4 minutes to the gentleman from Oregon (Mr. AUCOIN).

Mr. AUCOIN. Mr. Speaker, from those who oppose the bill, with the attacks you have heard on this question of hearings, if you listen to those attacks you would come to the belief that somehow the Oregon delegation as a whole has prevented the people of Oregon from speaking either to the macro questions of wilderness in this or in terms of the total amount of acreage or the specific locations that are candidates for wilderness.

The truth of the matter is that that is just not so. Senator HATFIELD, the dean of this delegation held three field hearings across the length and breadth of Oregon taking testimony on specific issues, specific candidate wilderness areas. The gentleman from Oregon (Mr. SMITH) knows that.

My colleague, Mr. WEAVER, held seven hearings both on the aggregate totals that ought to be appropriate for a wilderness bill and on specific questions. There were a total of 10 hearings.

If anyone in this Chamber believes that the Oregon delegation has been somehow remiss in letting Oregonians speak out on this bill they are sadly mistaken.

MARK HATFIELD, a man I respect, who is from this gentleman's side of the aisle, chairs the Senate Appropriations Committee and he is an honorable man. He is sitting over in the other body tonight waiting for the Oregon bill to be sent over to him. He believes, and the junior Senator believes, that this bill, if passed over there, can be approved at a decent acreage level that all parties can agree to, all reasonable parties can agree to.

We believe there is a majority in the delegation that is reasonable, and that we can get this issue behind us.

We have a bipartisan approach. It is regrettable that the gentleman from Oregon (Mr. SMITH) somehow thinks that we can solve the lockup of the 3 million acres of roadless acres in Oregon by passing release language for all 3 million acres. But anybody in this Chamber who has been through this issue before knows that that is simply not practical.

One can fantasize and believe in his fantasy that it can be done but obviously there are enough votes in the House and in the other body on the part of those who want some degree of acreage for wilderness, there are enough votes among those to cancel out and veto such an approach.

So what, then, is the approach? To unlock 3 million acres of roadless areas that are now totally tied up by a 9th circuit court decision. It does not take a genius to figure it out. It is to strike a balance, to release those acres that makes sense for commercial development.

We release 2 million acres and preserve 1 million acres for wilderness protection.

Time is brief and it is difficult to go through the numbers. But let me conclude by saying in terms of describing what is a reasonable compromise Oregon's national forests have approximately 11 million acres of commercial forest lands in them. This bill, by releasing 2 million acres of roadless areas, increases that amount to 13 million acres, over 13 million acres of multiple use commercial forest lands.

By preserving 1 million acres of pristine areas for wilderness protection we bring the total in Oregon in the wilderness system to 2 million acres of wilderness; 13 million acres on the one hand to logging and use for multiple use and 2 million for the enjoyment of all people, the preservation of wildlife, the preservation of genetic diversity in our national forests, backpacking, the preservation of wild salmon streams, and habitats. I think that 13 million acres figure for commercial lands and 2 million acres figure for wilderness is a reasonable proposition.

It is at least reasonable enough to attract the interest of the two Republican Senators from the State of Oregon and all of the Democrats in the House.

I urge your support of this legislation.

Mr. SEIBERLING. Mr. Speaker, I yield 2 minutes to the gentleman from Oregon (Mr. WYDEN).

Mr. WYDEN. I thank the gentleman for yielding.

Mr. Speaker, I rise today to speak on behalf of legislation which I believe will allow the forest products industry, recreationalists, and environmentalists in Oregon to get about the business of planning a productive, healthy, and environmentally sound future for our State.

When I joined my colleagues, Mr. AUCOIN, and Mr. WEAVER, in introducing the Oregon Wilderness Act of 1982 last week, I described the bill as representing a series of pluses for our State.

I still feel that way.

The Oregon Wilderness Act of 1982 is a plus for those of us committed to protecting Oregon's great natural resources because it sets aside land that will be maintained in its pristine beauty.

This bill will enhance the recreational opportunities available to residents within the State and contribute to Oregon's longstanding appeal to tourists.

It will also preserve headwaters of key streams and rivers indispensable to the long-range enhancement of our salmon runs, a task of utmost priority.

But the bill is also a plus for the forest products industry—an industry which is the economic mainstay of our State, but which has been devastated by the current recession.

The major reason for the downturn in the forest industry's fortunes is a lack of market for its goods. This slowdown in demand has affected not only domestic markets, but Oregon's international market as well.

Opponents of the Oregon Wilderness Act of 1982 would have us believe that it will only make matters worse for the hard-hit industry. I don't believe that's true.

First of all, by resolving the present uncertainty over some 3 million acres of land, the bill increases, not decreases, the amount of land available for use by the wood products industry. Once the timber industry depression ends, the industry would have some 2 million acres of additional land available under this bill.

But second, this bill allows the forest products industry to put its house in order—and it does so at a time when order is desperately needed.

To date, the wilderness debate has been marked by uncertainty—uncertainty as to where the wilderness areas

will be—and how extensive they will be.

That cloud of uncertainty now has been darkened further by the Ninth Circuit Court of Appeal's decision nullifying the Forest Service's resource planning in California.

As Oregon is in the ninth circuit, we must consider the possibility that a ccmpanion suit might be filed, challenging Forest Service planning in Oregon. We must also consider the likelihood that such a suit would prevail—sending the Forest Service back to the drawing board, forcing wilderness advocates and the timber industry alike to once again renew an arduous and time-consuming hearings process that could take well beyond 1985 to complete.

We must remove this cloud of uncertainty for the good of the forest products industry—as much as for the good of the other parties.

If we do not, we increase the risk that court actions could lock up timber needed for local and international markets. We also increase the risk of commercial development that might harm potential wilderness areas.

I believe the Oregon Wilderness Act of 1982 is the hallmark of compromise—and for that, I tip my hat to Mr. WEAVER and Mr. AUCOIN who crafted it.

This bill does not give industry everything it wants, nor, does it give the environmental community all that it wants.

What it does is strike a happy medium. It gives industry an additional 2 million acres of land for its use, and it designates another 1 million acres in Oregon's national forests as wilderness.

The wilderness areas represent only a small amount of usable timber—approximately 2 percent of the total allowable cut. What is more, these protected areas are some of the worst commercial timberlands. That is why many of these areas are still roadless.

In conclusion, Mr. Speaker, I would like to note how appropriate it would be for a lameduck Congress preoccupied with rebuilding our infrastructure to preserve what is one of the central components of our infrastructure—wilderness.

Wilderness is much more than some "playground for the hale and hearty environmentalist." It is the watersheds from which we derive clean drinking water; it is the breeding and wintering grounds for our wildlife, so important to hunters; and it is the spawning grounds for the great salmon of the Pacific Northwest, upon which a $150 million per year commercial fishing industry depends.

I represent the most urbanized district in Oregon—a district which receives the smallest amount of wilderness under this bill. But it is also a district with perhaps the largest number of wilderness advocates.

Many of the city dwellers in my district derive tremendous satisfaction from just knowing such areas exist to "get away from it all". Regardless of whether they actually do get away to wilderness, the pyschic benefit of knowing it is there remains.

Wilderness is a hallmark of American history—there were always new frontiers to be conquered. Now there are no more frontiers to conquer in this country.

But we can act to preserve what land we do have in its natural, pristine state, so generations to come will not be denied the opportunity to share that tradition, to know what the frontier once was and the special role it has played in America's westward movement.

And we can do that without jeopardizing economic development in our State.

I urge my colleagues to support this bill.

Mr. YOUNG of Alaska. Mr. Speaker, prior to yielding to the gentleman from Oregon (Mr. SMITH) I yield myself such time as I may consume.

I would like to ask the gentleman who just preceded me how many acres is in the gentleman's district of this 6 million? How many acres are in the gentleman's district?

Mr. WYDEN. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman.

Mr. WYDEN. My district has a number of areas. I cannot give the gentleman a specific number.

Mr. YOUNG of Alaska. To be specific, the gentleman has 20,000 acres involved out of 1 million. The rest involved is from the district of the gentleman from Oregon (Mr. SMITH) and his area is in the majority, in fact some 700,000-odd acres in two districts.

Mr. Speaker, I yield such time as he may consume to the gentleman from Oregon (Mr. SMITH).

(Mr. SMITH of Oregon asked and was given permission to revise and extend this remarks.)

Mr. SMITH of Oregon. Mr. Speaker, I think this is a very interesting time here where we have created an emergency on something that has been going on in Oregon for a long time. We have held one hearing since this bill was introduced on the first day of December. That was on the 6th of December.

We had field hearings on another bill in Oregon. They were not specific in nature. They did not try to define the lines of what we were going to lock up.

I am proud of the fact that Oregon and Oregonians have taken good care of the land and the trees and the water that we have.

□ 2130

We have a great pride. But we also have people who are involved in trying to make a living in our State, and throughout that State today we have a lot of people unemployed. And I would just like to point out that we also have a lot of people who are employed who are unhappy with this bill.

I would like to start with Gov. Victor Atyieh, who was just reelected for his second term as the chief executive of our State. He is in strong opposition to this locking up, nearly doubling of the wilderness acreage in the State of Oregon. I cannot think of anything worse for our economy or for this Nation today than trying to double the amount of wilderness area, the amount of timber that is pulled out of production.

I would like to read to the House a portion of a letter that was sent by Mr. Jim Bledsoe, who is the executive secretary of the Western Counsel of Lumber Production & Industrial Workers. This was written on the third day of December. I will quote from it. And I would like to put the entire document in the RECORD.

Let me say from the outset that your specious comments regarding this bill have succeeded in deceiving no one in the industry. To tout this bill as an attempt to save our industry, gentlemen, when it will in fact double Oregon's current wilderness acreage is nothing short of conspired subterfuge on your parts. Why not portray the bill's intended purpose—additional resource set asides, and its inevitable consequences, additional unemployment, as they really are. Why the publicity smokescreen. It seems almost trite to have to remind you as Oregon's U.S. Representatives that your State currently faces a 11.5 percent unemployment rate and that such timber dependent counties as Coos and Douglas are plagued with rates of 12 and 15 percent respectively. These figures do not even include the many, many people who have been out of work for two years or more nor the thousand people that exhaust their unemployment benefits in Oregon each and every week.

Gentleman, how is it possible that you propose to exacerbate these moribund statistics. Revenues from timber sales, they have already been halved this year. Do you propose fiscal strangulation next year? Please do not overlook the devastating impact that additional wilderness designations will have on the economies of the specific communities located in their midst.

I understand from further discussion with Mr. Bledsoe that their estimate is that we will lose some 6,000 to 8,000 potential jobs by locking up these specific areas.

The RARE-II recommendations were for 427,000 acres. The proposal we have before us is for 1,120,000 in round numbers, acreage. I think that is atrocious at this particular time.

When I look at the congressional districts, there is—the Speaker talked earlier about a decorum in the House and about the way that we do business. And I am a freshman Member of

this body for the next few days, until the 98th Congress is sworn in. And I do not know all the rules. But I do know that normally the Member whose district is affected is allowed some kind of priority.

I would just point out that in the new redistricting that we have in the State of Oregon we have five districts. District No. 1, which Mr. AUCOIN, who is the sponsor of the bill, represents has zero acres. District No. 2, which my successor, Mr. BOB SMITH, will represent, has 635,000 acres. District No. 3 has approximately 20,000 acres in it. That is Mr. WYDEN's district. District No. 4, which Mr. WEAVER represents, and is a sponsor of the bill, has 245,000 acres. And District No. 5, the district that I will be representing after the 3d of January, has some 105,000 acres. So that it is hard to tell where the boundaries are at this present time. But I represent some 700,000 of these acres. That means that the bulk of the unemployment in our timber industry will be in the present district. And let me say that it is in very dire economic straits.

I think that the way this bill has been railroaded through the House, I recommended in the committee when we lost on a party line vote on Monday that we rename this bill the Oregon antijobs bill of 1982. I cannot think of anything we need less than more wilderness acreage at this time. I fail to see the urgency. I think that my substitute to offer language which would have made the court decision sufficient would have been the way to handle this. We can handle the additional acreage, if that is necessary, in the 98th Congress, where we can hold hearings with the new Members of this body, very carefully being able to look at the situation and help represent the constituents in the second district. At this point I include the following:

WESTERN COUNCIL,
LUMBER, PRODUCTION AND
INDUSTRIAL WORKERS,
Portland, Oreg., December 3, 1982.

To: Congressmen Les AuCoin, Jim Weaver and Ron Wyden.

From: Jim Bledsoe, Executive Secretary, Western Council LPIW.

Subject: Oregon Wilderness Act of 1982.

DEAR SIRS: Once again the LPIW has had to rely on the newspapers in order to get even a few details on yet another injurious wilderness bill. Experience teaches us that surreptitious legislation portends an attempted coup.

Let me say from the outset that your specious comments regarding this bill have succeeded in deceiving no one in the industry. To tout this bill as an attempt to save our industry gentlemen, when it will in fact double Oregon's current wilderness acreage, is nothing short of conspired subterfuge on your parts. Why not portray the bill's intended purpose—additional resource set asides, and its inevitable consequences—additional unemployment as they really are? Why the publicity smokescreen?

It seems almost trite to have to remind you, as Oregon's U.S. Representatives, that your state currently faces an 11.5% unemployment rate and that such timber-dependent counties as Coos and Douglas are plagued with rates of 12% and 15% respectively. These figures do not even include the many, many people who have been out of work for two years or more; nor the thousand people that exhaust their unemployment benefits in Oregon each and every week. Gentlemen, how is it possible that you propose to exacerbate these moribund statistics?

And what about county revenues from timber sales? They've already been halved this year. Do you propose fiscal strangulation next year? Please do not overlook the devastating impact that additional wilderness designations will have on the economies of the specific communities located in their midst.

I am enclosing clippings from our newspaper, *The Union Register*, dated October 15, 1982. This was a special edition and served as the culmination of our Union's efforts to turn out our membership's vote for our political supporters back in November. Each of you will note that you received a Western Council endorsement. I hasten to note that if the Wilderness Bill passes the House, your efforts will be perceived as antiethial to our own, and you will never receive another LPIW endorsement.

One final note. The next time that you take it upon yourselves to ostensibly "help" the forest products industry, please consult with those of us who have an interest in the industry beforehand.

Sincerely,

JAMES S. BLEDSOE,
Executive Secretary.

STATEMENT OF THE ASSOCIATION OF OREGON COUNTIES ON THE OREGON WILDERNESS ACT OF 1982, DECEMBER 8, 1982

The Association of Oregon Counties previously has spoken on the issue of Wilderness expansion in Oregon under the RARE II program. We have supported much of the effort to place in wilderness those areas suitable for wilderness designation. We have opposed efforts to arbitrarily cede as wilderness areas with high other values including timber production and recreation.

Oregon is the nation's number one timber producing state. Thirteen national forests in Oregon cover more than 25% of the entire land area of the state. Of Oregon's 36 counties, 32 receive revenues from national forest harvests. In many of the Oregon counties, national forest revenues provide the major support for schools and roads. Oregon's counties have the most direct interest of any group in programs which would alter or diminish the timber base which supports Oregon's number one industry.

The Association of Oregon Counties has traditionally supported multiple use of public lands. We continue to give vigorous support to this principle. This includes designation of lands for special uses, and that encompasses designation as wilderness. Approximately 1.3 million acres in Oregon are now wilderness areas. We supported the RARE II effort, and endorsed the initial determination and recommendations of the Forest Service which were transmitted to the White House as provided by law. We supported the recommendations of the White House with the exception of the North Fork of the John Day.

As AOC said in its statement of nearly two years ago, it is not a question of whether we are to have wilderness or not, or whether there are additions to present wilderness areas which are desirable. The question is how much and where will new wilderness areas be created, or present areas expanded.

The ADC position continues to support designation of areas with high WARS rating (Wilderness Attribute Rating System) as wilderness. Those areas which have high other values in resources including timber harvest and recreation should be multiple use designation. The WARS system evaluated wilderness areas on a sacle of 4 to 28. In Oregon, the medium level is 20. The top 10% of areas stood at 23. We conclude that those areas with a WARS rating of above 20 should have serious consideration as wilderness, given that other resources values are low. Productivity levels for national forests place a 70 cubic foot per year per acre as a determination of commercial timber land. AOC feels a 50 cf/yr production level is more nearly a reliable and useful standard. Areas with the 50 cf/yr level per acre production should be given serious consideration as multiple use lands.

We cannot support additions to the Wallows-Whitman national forest. That forest already has 18% of its total area in wilderness, and these proposals add 13% more. Additionally, the comprehensive land use plan for Wallows County, approved by the State, and developed with full local participation of federal agencies, provides no further wilderness designations. The EIS notes in this regard, serious eroding of public support for government when local voices are not recognized. Also one of the greatest losses of commercial forest land on a single national forest is the Wallows-Whitman.

It seems to us that in considering wilderness one must look at the professional technical evaluation of the areas. Please note those areas in H.R. 7340 which have low WARS figures: Coleman, Gearhart, Bridge Creek, Rogue-Umpque, Mill Creek, Middle Santiam, Grassy Knob, Hardesty, North Fork John Day, Three Sisters Additions, Salmon-Huckleberry. And there really is no logical way in which wilderness designation can be given to the Middle Santiam, especially considering that it has the highest productivity of all the areas, 140 cubic feet/acre/year. The North Fork John Day is also an area that simply is not suitable for wilderness, not only with a low WARS number, but also an area that has seen logging, extensive mining, construction of cabins and other man-made structures.

We do agree that resolution of the RARE II issues needs to be done. But it makes little sense to give away areas with low wilderness ratings and with high other resource values. What is happening is simply that those interests which for many reasons want areas withdrawn from multiple use, many times in order to have the areas available for small, single use groups, having failed to accomplish their aims in the orderly land use planning process of the Forest Service, have now determined that they can accomplish what they want by the political process of having the Congress merely name the areas wilderness. It makes a mockery of the Wilderness law, and a full rejection of the concept multiple use.

It seems to us that the Congress would be on a much more positive footing if it would determine those areas with high wilderness values, relatively low other resource values, and areas not already duplicated in established wilderness, the struggle is between those interests which merely want to set

land aside, and those who are dependent upon and interested in multiple use.

We appreciate the opportunity to make these comments.

KESS CANNON,
Executive Assistant.

Mr. Speaker, today, we are addressing an issue of great concern to all Oregonians, the Oregon Wilderness Act of 1982. I feel fortunate to live in a State that takes so much pride in the beauty and preservation of its lands. Oregon has done a magnificent job of exercising multiple-use management in taking care of these resources for future generations. Keeping in mind that many of these areas can be managed for multiple use, providing jobs and revenues to support the rural economies in Oregon. I think we should be looking closer at the economic impact to the State should we lock up an additional 1.12 million acres, doubling the size of Oregon's present wilderness areas.

There is strong opposition in Oregon to H.R. 7340. Governor Atiyeh is opposed to the procedure in which the bill is being pushed through the House. The bill was introduced just slightly more than 1 week ago. Labor groups see the efforts of my Oregon colleagues as being at odds to their own and are opposing the bill. The Association of Oregon counties, whose lifeblood depends on revenues from our national forests, are opposed. The forest products industry is opposed to passage of this legislation. Also, the administration is opposed to H.R. 7340; the Forest Service recommendations for RARE II under President Carter were only 427,000 acres that they felt suitable for wilderness. H.R. 7340 more than doubles that amount of acreage.

My Oregon colleagues contend that this measure is of the utmost urgency due to a Ninth Circuit Court of Appeals decision on the RARE II environmental impact statement which said the Forest Service RARE II EIS is inadequate. If urgency is truly the key for pushing through this legislation during the lameduck session, then I, for one, do not understand why my Oregon colleagues did not seek a simpler solution to the problem. I offered a substitute in committee which went directly to the heart of the problem by declaring the legal and factual sufficiency of the RARE II EIS for the State of Oregon. This remedy would have resolved the urgency question and left the issue open for debate in the 98th Congress.

More than 600,000 acres of the land designated for wilderness in this legislation will be in a newly elected Member's district. Locking up this much land will significantly impact many areas in his new district. I believe we should delay just a few weeks more, until the beginning of the 98th Congress, so that the new Member in the Oregon delegation will have an opportunity to evaluate the legislation and state his views accordingly.

My colleague from the State of Oregon feels that sufficient hearings have been held on the legislation, others seem to differ. No hearings on the specific designations outlined in H.R. 7340 have been held except for one subcommittee hearing 1 week ago. I have on record three times where my colleague from Oregon stated in field hearings in February 1981 and I quote:

I will not allow testimony on any specific wilderness areas or forests. That will come when, as I intend to do, I introduce an Oregon wilderness bill that will include specific wildernesses. the hearings will be held of course eventually on the specific forest areas. At that time we will take up what is suitable for each area and which are suitable for inclusion in the forest system.

It seems that one of the primary issues of concern to the Congress during the lameduck session is jobs. LPIW, a labor group in Oregon, roughly estimates that the acreage involved in H.R. 7340 will remove approximately 2 million board feet from annual harvest. They feel this will result in a loss of jobs in the neighborhood of 6,000 to 8,000. Another example I would like to cite is the impact this legislation will have on a particular county in my district. Linn County will lose approximately 1,488 jobs and the unemployment rate in that county is already 11.9 percent. The economic situation in Oregon is so sensitive that it makes no sense at all to be passing legislation like H.R. 7340 which could further devastate the State. This legislation should be relabeled the Oregon antijob bill of 1982.

I urge my colleagues to vote against H.R. 7340. Wait until the beginning of the 98th Congress which is only a few weeks away and give all interested parties an opportunity to evaluate the legislation which was introduced only a little more than a week ago.

The thousands of Oregonians employed by the timber industry now and the thousands who are unemployed because of the severe depression in that industry will join me in saying thanks for your help if we can defeat this bill.

I believe all my colleagues to be highly concerned about unemployment. I urge you to vote against this antijob proposal.

Mr. WALKER. Mr. Speaker, will the gentleman yield?

Mr. SMITH of Oregon. I yield to the gentleman from Pennsylvania.

Mr. WALKER. I thank the gentleman for yielding.

I must admit that I came here this evening without very much understanding of this bill. It does not affect my State in particular. I did not have very much understanding. But I am a little concerned about the procedures I am hearing about here.

Do I understand the gentleman to say that the hearings that we heard about earlier have not really been held, all these hearings that took place? We heard there were hearings in Oregon, that there were hearings before Congress, that these really have not taken place?

Mr. SMITH of Oregon. No. I believe the gentleman from Oregon (Mr. WEAVER) held hearings in the second district and actually throughout the State.

Mr. WALKER. Were those the hearings that did not cover any specifics?

Mr. SMITH of Oregon. He had a bill introduced at that time. But if the gentleman will notice, he also in his record said that he would be back for hearings on the specific boundaries of the potential wilderness areas that he was going to speak to.

Mr. WALKER. So these hearings mentioned in all those statements that were supposed to go on in Oregon about the specifics, those hearings have never been held?

Mr. SMITH of Oregon. Only the gentleman from Oregon (Mr. WEAVER) was in attendance at those hearings in February 1981, I believe, as far as a Member of Congress.

Mr. WALKER. But the specifics in the bill—the people of Oregon have never had a chance to comment on that particular thing, other than this hearing that was held.

Mr. SMITH of Oregon. My colleague is correct.

Mr. WALKER. There was a hearing held in Washington as I understand.

Mr. SMITH of Oregon. There was one hearing held on December 6.

Mr. WALKER. It lasted how many minutes?

Mr. SMITH of Oregon. I believe they said it was about an hour.

Mr. WALKER. Sixty minutes. And then we proceed under the cover of dark of night to run this out onto the floor. We ran it out under a procedure that the Chair defined so we would be assured that hardly anybody would be here to listen to this debate. I think the Members would be a little disturbed to hear a major bill of this significance has 60 minutes of hearings before it is brought to the floor under suspension. I find it appalling.

I would vote against this bill just on the procedure.

Mr. EMERSON. Mr. Speaker, will the gentleman yield?

Mr. SMITH of Oregon. I yield to the gentleman from Missouri.

Mr. EMERSON. I thank the gentleman for yielding.

In regard to the hearings, did the gentleman from Oregon and the committee chairman, the chairman of the Subcommittee on Public Lands, control the witness list?

Mr. SMITH of Oregon. I certainly did not control the witness list. I would have to say I do not know who did control it.

Mr. EMERSON. In other words, they controlled the witness list, they invite who is going to come to the hearings, who is going to testify. Or were these open public hearings?

Mr. SMITH of Oregon. I believe they were testified at open public hearings. But I do not know who had control over the actual list of people who testified. I think we would have to ask the gentleman from Oregon (Mr. WEAVER).

Mr. STATON of West Virginia. Mr. Speaker, will the gentleman yield?

Mr. SMITH of Oregon. I would be happy to yield to my colleague from West Virginia.

Mr. STATON of West Virginia. Mr. Speaker, I understand that the rush for this is to clear up that which is a RARE-2 problem in Oregon, and this will finally put it to rest.

The question I have got for my colleague from Oregon is, Will this bill take into consideration all the proposed wilderness in Oregon, or is there some other wilderness that could be brought out at a later date?

Mr. SMITH of Oregon. Well, I have not been privy to anybody's office but my own. I am not planning on bringing out any more wilderness because I do not think that is appropriate in our kind of economy. I could almost say that the State of Oregon is in a situation where we are in a depression, have been in that for a number of years.

I think if Oregonians had the opportunity to testify at hearings today, they do not want their environment destroyed, but they certainly do not want to have their opportunity for a job destroyed either. And I think for too long we have looked at the wrong side of the coin, or only one side of the coin.

I think it would be appropriate to put this off to the 98th Congress and be able to have the people of Oregon have open hearings.

Mr. STATON of West Virginia. If the gentleman would yield further, is there not another section of wilderness area in Oregon that perhaps another gentleman is planning to introduce as wilderness?

Mr. SMITH of Oregon. I have not heard of any. But again I am not privy to that.

Mr. STATON of West Virginia. I thank my colleague.

□ 2140

Mr. SEIBERLING. Mr. Speaker, I yield myself 1 minute.

I just want to say that the effort to impugn the committee's hearing record is totally off base. I personally chaired three hearings in Oregon on this whole RARE-III issue covering the entire roadless areas in the national forests question.

One of those hearings was in the district of the gentleman from Oregon (Mr. SMITH). I pleaded with him to attend the hearing. He declined to do so. Mr. WEAVER attended all the hearings, Mr. WYDEN testified in one of them.

The overwhelming majority of the witnesses there was in favor of wilderness designations that are in this bill.

I think the impression that has been given here is without foundation.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let us make the record perfectly clear. The hearings that were held in Oregon were not hearings on this legislation, absolutely not. They were hearings on a concept, but not a specific occasion.

The most that was ever recommended at any one time was around 400-and-some-odd-thousand acres. When the Carter administration, that bleeding heart liberal when it comes to conservation, introduced this, at the most, there was no hearing on the specifics of this bill, none whatsoever, including what the gentleman from Oregon (Mr. WEAVER) has introduced, not one specific area.

I do impugn the committee in the way it was handled. If we wanted to solve the problem of the Ninth Court decision, then we should have adopted the recommendation of Mr. Carter, especially the language of Mr. SMITH, and we would have a bill to solve the problem.

This is a grab by the wilderness group of additional land, making it 201 million acres of wilderness within the United States and taking jobs away from, by the way, the people of America.

I am amazed that we stood on this floor today and debated jobs for all those poor people. The Republicans were trying to take away jobs from people and yet here we have a bill that is taking jobs away from people.

The answer on the Democrats' side is to make make-believe jobs, Government jobs, more taxes, more control. The Republican side says, "Listen, let's use our resources to employ our people."

This bill as proposed by the sponsors of the bill is not doing their constituency a favor.

I want to compliment the gentleman from Oregon (Mr. SMITH) for leading this charge, recognizing that Oregon's timber industry is vital. I want to stress this. If this is such an emergency, why is there not any timber industry representative, any labor union, any Governor supporting it? No one is supporting this bill other than the environmentalists, and that is all, the environmentalists, no one else.

It is unfortunate at this late hour, a bill introduced on December 1, that we have to have this debate. This is not the first time this has happened. We have debated these types of bills with nobody around; but if the American public would watch and listen, we are talking about jobs here. We are talking about jobs for people in Oregon in the timber industry and the spinoff of those jobs and the proposal in this legislation of 1-million-some-odd acres will take away from the jobs of the people of America and the people of Oregon.

It is time that this Congress wakes up to the fact that we cannot respond to just the special interest groups who want more locked up, more locked up, and more locked up.

Some people say that we must have this pristine beautiful area, the fish and the trees and the streams. I say that is great and that is grand, but we also need work for people and it is vitally important that we keep records.

Mr. MARLENEE. Mr. Speaker, will the gentleman yield?

Mr. YOUNG of Alaska. I am glad to yield to the gentleman from Montana.

Mr. MARLENEE. Mr. Speaker, in regard to the committee hearing process, may I say to the ranking minority member, in a quick survey of the staff and the members present, I find that none of them recall of having been at any hearing that the gentleman from Oregon (Mr. WEAVER) held in Oregon.

The SPEAKER pro tempore. The time of the gentleman from Alaska has expired.

Mr. SEIBERLING. Mr. Speaker, I yield the balance of my time to the gentleman from Oregon (Mr. WEAVER), but I simply want to say that the gentleman from Oregon (Mr. WYDEN) himself testified at one of those hearings and those hearings covered most of the areas in this bill.

Mr. WEAVER. Mr. Speaker, the hearings were held, three by me on the economics, three by the chairman on the specific wilderness areas; every single boundary that is in this bill was discussed in these hearings.

The timber amounts to 2 percent of all the timber in Oregon. The ninth circuit court has ruled, and may rule against Oregon any day, locking up all our forests unless we pass the bill.

Furthermore, the timber industry right now is pleading to not harvest the timber that we have. They have a bill in Congress asking for termination of the contracts that they now hold on Federal timber.

Therefore, this bill to relieve the dire emergency in Oregon of locking up all 3 million acres, putting only 2 percent of the timber, leaving 97 percent of all the timber in Oregon open for commercial harvest, 1 percent being already in wilderness, is urgently needed for passage today.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. SEIBER-

LING) that the House suspend the rules and pass the bill, H.R. 7340, as amended.

The question was taken.

Mr. YOUNG of Alaska. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 5, rule I, and the Chair's prior announcement, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF S. 1964, DESIGNATING CERTAIN LANDS IN MISSOURI AS A COMPONENT OF THE NATIONAL WILDERNESS SYSTEM

Mr. PEPPER, from the Committee on Rules, submitted a privileged report (Rept. No. 97-966) on the resolution (H. Res. 628) providing for the consideration of the Senate bill (S. 1964) to designate certain lands in the Mark Twain National Forest, Mo., which comprise about 17,562 acres, and known as the Irish Wilderness, as a component of the National Wilderness Preservation System which was referred to the House Calendar and ordered to be printed.

REPORT ON RESOLUTION AMENDING THE RULES OF THE HOUSE OF REPRESENTATIVES TO ESTABLISH AN OFFICE FOR THE BICENTENNIAL OF THE HOUSE OF REPRESENTATIVES

Mr. PEPPER, from the Committee on Rules, submitted a privileged report (Rept. No. 97-967) on the resolution (H. Res. 621) amending the rules of the House of Representatives to establish an office for the bicentennial of the House of Representatives, which was referred to the House Calendar and ordered to be printed.

EFFIGY MOUNDS SITE, INCLUDING TRUMAN HISTORIC SITE

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1661) to authorize the Secretary of the Interior to acquire certain lands by exchange for addition to Effigy Mounds National Monument in the State of Iowa, and for other purposes, as amended.

The Clerk read as follows:

S. 1661

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the Secretary of the Interior is authorized to accept a conveyance of approximately four acres of land adjacent to the Effigy Mounds National Monument in the State of Iowa, and in exchange therefor to convey the grantor, without monetary consideration, approximately three acres of land within the monument, all as described in subsection (b) of this section. Effective upon consummation of the exchange, the land accepted by the Secretary shall become part of Effigy Mounds National Monument, subject to the laws and regulations applicable thereto, and the land conveyed by the Secretary shall cease to be part of the monument and the boundary of the monument is revised accordingly.

(b) The land referred to in subsection (a) which may be accepted by the Secretary is more particularly described as that portion of the southeast quarter of the southeast quarter of section 28 lying south and east of County Road Numbered 561, and the land referred to in subsection (a) which may be conveyed by the Secretary is more particularly described as that portion of the northeast quarter of the northeast quarter of section 33 lying north and west of County Road Numbered 561, all in township 96 north, range 3 west, fourth principal meridian, Allamakee County, Iowa.

SEC. 2. (a) In order to preserve and interpret for the inspiration and benefit of present and future generations the former home of Harry S. Truman, thirty-third President of the United States, the Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized to acquire by donation, purchase with donated or appropriated funds, transfer from another Federal agency, or otherwise, the residence and real property known as 219 North Delaware Street in the city of Independence, Missouri, together with such property adjacent thereto as passed to Bess Wallace Truman upon the death of her husband. The Secretary may also acquire, by any of the above means, fixtures, and personal property for use in connection with the residence.

(b) The property acquired pursuant to subsection (a) is designated as the Harry S. Truman National Historic Site and shall be administered by the Secretary in accordance with the provisions of law generally applicable to units of the national park system, including the Act entitled "An Act to establish a National Park Service, and for other purposes", approved August 25, 1916 (39 Stat. 535; 16 U.S.C. 1-4) and the Act of August 21, 1935 (49 Stat. 666; 16 U.S.C. 461-467). The Secretary is further authorized, in the administration of the site, to make available certain portions thereof for the use of Margaret Truman Daniel subject to reasonable terms and conditions which he may impose.

(c) There is authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.

SEC. 3. Section 401 of the Act entitled "An Act to authorize the establishment of the Voyageurs National Park in the State of Minnesota, and for other purposes", approved January 8, 1971 (16 U.S.C. 160k), is amended by striking out "$26,014,000" and inserting in lieu thereof "$38,314,000".

SEC. 4. Section 9 of the Act entitled "An Act to provide for the establishment of Cape Code National Seashore", approved August 7, 1961 (16 U.S.C. 459b-8), is amended by striking out "$33,500,000" and inserting in lieu thereof "$40,567,575".

SEC. 5. Section 8 of the Act entitled "An Act to provide for the establishment of the Cape Lookout National Seashore in the State of North Carolina, and for other purposes,", approved March 10, 1966 (16 U.S.C. 459g-7), is amended by striking out "$7,903,000" and inserting in lieu thereof "$9,903,000".

SEC. 6. Section 15 of the Act entitled "An Act to establish in the State of Michigan the Sleeping Bear Dunes National Lakeshore, and for other purposes", approved October 21, 1970 (16 U.S.C. 460x-14), is amended by striking out "$57,753,000" and inserting in lieu thereof "$67,449,557".

SEC. 7. (a) For purposes of section 7(a)(3) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601-9(a)(3)), the statutory ceilings on appropriations established by the amendments made by this Act shall be deemed to be statutory ceilings contained in a provision of law enacted prior to the convening of the Ninety-fifth Congress.

SEC. 8. (a) Section 4 of the Act of October 26, 1972 (86 Stat. 1181; 16 U.S.C. 433c note) is amended by striking the phrase "not more than $9,327,000" and inserting in lieu thereof "$9,825,000".

(b) Section 5 of the Act of June 2, 1936 (49 Stat. 1393; 16 U.S.C. 433e) is hereby repealed.

SEC. 9. Notwithstanding any other provision of law, the Secretary of the Interior is authorized to make available to the Smith River Fire Protection District in California the use of lands, consisting of approximately one-half acre adjacent to the town of Smith River, California within the boundary of the Redwood National Park, for construction of a fire station.

SEC. 10. (a) The Pennsylvania Avenue Development Corporation Act of 1972 (86 Stat. 1266, 40 U.S.C. 871) is amended as follows:

(1) by striking out in paragraph (10) of section 6, the figure "100,000,000" and inserting in lieu thereof "120,000,000."; and

(2) by adding at the end of section 17(a) the following: "There are further authorized to be appropriated for operating and administrative expenses of the Corporation sums not to exceed $3,250,000, each, for the fiscal years ending September 30, 1984, September 30, 1985, September 30, 1986, September 30, 1987, and September 30, 1988."

(b) Section 5(e) of the Pennsylvania Avenue Development Corporation Act of 1972 is amended by—

(1) inserting "(1)" after (e);

(2) striking out "The Corporation" in the second sentence thereof and substituting:

"(2) The Corporation"; and

(3) adding the following new paragraph at the end thereof:

"(3) Any alteration, revision, or amendment of the plan and any other action taken by the Corporation which is not a substantial change in the plan within the meaning of paragraph (2) but—

"(A) which is a significant change in the plan, or which is another significant action taken by the Corporation, and

"(B) which relates to housing, any major structure, historic preservation, office space, or retail uses, within the development area

shall not take effect until thirty days after notice of such change or other action has been submitted to the Committee on Interior and Insular Affairs of the United States of House Representatives and to the Committee on Energy and Natural Resources of

the United States Senate, unless prior to the expiration of such thirty day period each of such committees notifies the Corporation in writing that the committee does not object to such change or other action. Such notice to the committees shall include an explanation of the reasons why the change or other action is proposed and a summary of any recommendations received by the Corporation from the Secretary of the Interior, the Mayor of the District of Columbia, or from any other interested agency, organization, or individual."

(c) Section 6 of the Pennsylvania Avenue Development Corporation Act of 1972 is amended by inserting "(a)" after "SEC. 6." and by adding the following new subsection at the end thereof:

"(b) Whenever the Corporation submits any budget estimate or request to the President or the Office of Management and Budget, it shall concurrently transmit copies of that estimate or request to the House and Senate Appropriations Committees and the House Committee on Interior and Insular Affairs and the Senate Committee on Energy and Natural Resources.".

(d)(1) Section 3(c) of the Pennsylvania Avenue Development Corporation Act of 1972 is amended by inserting "(7)" at the beginning of the unnumbered paragraph following paragraph (6).

(2) Section 5(a)(10) of such Act is amended by inserting "a" before "whole".

(3) Section 5(b) of such Act is amended by striking out "Cooperation" and substituting "cooperation".

(e) Section 11 of the Pennsylvania Avenue Development Corporation Act of 1972 is amended by inserting "(a)" after "SEC. 11." and by adding the following new subsections at the end thereof:

"(b) Within six months after the date of the enactment of this subsection, the Corporation shall transmit to the Congress an estimate, for each fiscal year, of the additional funds which will be necessary for the Corporation to carry out the development plan through the fiscal year 1990. Such estimate shall include a detailed statement of the projects and other expenditures for which such funds are proposed to be used, together with an estimate of the projected costs thereof.

"(c) The Corporation shall submit a report annually to the Committee on Interior and Insular Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate discussing in detail the actions it has taken within the reporting period to protect and enhance the significant historic and architectural values of structures within the boundaries of the Corporation's jurisdiction, and indicating similar actions it plans to take and issues it anticipates dealing with during the upcoming fiscal year related to historic and architectural preservation. Such report shall be prepared on a fiscal year basis, shall indicate the degree to which public concern has been considered and incorporated into decisions made by the Corporation relative to historic and architectural preservation, and shall be submitted each January first.".

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Ohio (Mr. SEIBERLING) will be recognized for 20 minutes, and the gentleman from Alaska (Mr. YOUNG) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. SEIBERLING).

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. YOUNG of Alaska. Mr. Speaker, will the gentleman yield?

Mr. SEIBERLING. I yield to the gentleman from Alaska.

Mr. YOUNG of Alaska. Mr. Speaker, to my knowledge, there is no objection to the bill on this side. If the gentleman will try to expedite the process, it would be greatly appreciated.

Mr. SEIBERLING. I will be happy to do that. Let me very briefly state what this bill is all about.

Mr. Speaker, S. 1661 would authorize a land exchange at Effigy Mounds National Monument. As reported, it would also establish the Harry S. Truman National Historic Site in Independence, Mo.; increase authorization funding ceilings at five units of the national park system; allow one-half acre of land in the Redwood National Park to be used for construction of a fire station; and reauthorize appropriations for the Pennsylvania Avenue Development Corporation.

Most of the provisions in the bill are basically housekeeping matters to facilitate better administration of existing parks and historic sites.

The one major new provision is the establishment of the Harry S. Truman National Historic Site. When President Truman's wife, Bess, died in October, her will provided that their home in Independence, Mo., would be donated to the United States, under the direction of the Archivist. However, the Archivist does not have the Federal responsibility or the appropriate organization, for administering national historic sites, a function that is carried out by the National Park Service.

Because of the urgent need to protect this important site, our colleague, Mr. SKELTON, requested the Secretary of the Interior to exercise his authority to designate and administer President Truman's home as a national historic site. The Department refused, and Mr. SKELTON quickly, and wisely, introduced the legislation that is now before us.

The Subcommittee on Public Lands and National Parks held a hearing and markup on December 7. We were astonished to learn that the Truman home was being protected by only one around-the-clock guard, paid for by the Truman estate, to patrol the exterior of the house. Imminent threats to the home include possible vandalism, theft, or fire. The executor of the Truman estate testified that administration of the house as a unit of the national park system would be compatible with the terms of the will.

On December 8, the day after our hearing, the Secretary of the Interior signed a secretarial order designating the home as a national historic site. In addition, the Senate Appropriations Committee has earmarked $160,000 in the budget for the National Park Service to operate, maintain, and protect the site. Authorizing legislation is essential, however, to assure the long-term protection of this important historic site.

None of this would have happened without the untiring efforts of Mr. SKELTON and his quick grasp of what needed to be done. The former home of President and Mrs. Harry S. Truman is truly a special place, and all Americans will benefit from its preservation.

Before closing, I would also like to thank our colleague, Mr. COLEMAN, for his eloquent testimony on behalf of the legislation. And I would like to thank several staff members who worked hard on this legislation, including Loretta Neumann and Clay Peters of the Interior Committee staff and Toni Arnett of Mr. SKELTON's staff.

Mr. Speaker, I urge all Members to support this legislation.

Mr. Speaker, I yield such time as he may consume to the gentleman from Missouri (Mr. SKELTON).

Mr. SKELTON. Mr. Speaker, first I would like to say I appreciate the expeditious manner in which this matter has been handled. I do appreciate it and the citizens of Missouri appreciate it.

This is a national monument, a national shrine, and all Americans are grateful for the expeditious work the gentleman has done.

Also, I would be remiss if I did not say a word of thanks to the gentleman from Missouri (Mr. COLEMAN) who was kind enough in my absence, as Members know, I had a death in the family and I had to be away and the gentleman was kind enough to personally appear before the subcommittee and explain the necessity of this situation.

□ 2150

Mr. Speaker, I rise in support of S. 1661 which contains the language of H.R. 7366, a bill I introduced to authorize the Harry S. Truman National Historic Site. H.R. 7366 was cosponsored by the entire Missouri congressional delegation.

Former First Lady Bess Truman passed away in her hometown, Independence, Mo., on October 18 at the age of 97. In keeping with the Truman's generosity, Mrs. Truman's will bequeathed their home, carriage house, and grounds to the "People of the United States of America." Subsequently, efforts were made by several parties to see to the transfer of this property to the custody of the U.S. Park Service. While those initial attempts encountered unexpected roadblocks at the Interior Department,

Secretary Watt finally capitulated to congressional pressure, and agreed to declare the residence a National Historic Site and to provide temporary security measures at the currently underprotected home.

The Secretary's action does not remove the necessity for the legislation we are considering today. S. 1661 will assure that the Harry S. Truman National Historic Site is managed by the U.S. Park Service as are the homes of 26 other former Presidents. This measure would authorize the Secretary of the Interior to administer the property, provide for its long-term preservation, and to develop it for visitation by the public. Secretary Watt's recent action only meets the immediate security needs of the property.

The home of President Truman and his wife Bess embodies the very essence of Missouri's finest citizens. During his lifetime, Mr. Truman rose to the most powerful position in the Nation, yet he and his family never forgot their roots. They never forgot the importance of home and community. The house which we are considering today was in fact the Truman residence for more than half a century. And that is why this legislation is so important. It is a most accurate reflection of the values and motivations of our beloved President Truman and of what he hoped for his fellow Americans: A simple and serene life, and the strength one can find through his community. I urge my colleagues to support this bill.

Mr. EMERSON. Mr. Speaker, will the gentleman yield?

Mr. SKELTON. I yield to the gentleman from Missouri.

Mr. EMERSON. I thank the gentleman for yielding to me at this time.

Mr. Speaker, I want to commend the gentleman for his leadership on this issue. This is a matter of concern not only to his district in Independence, but to all Missouri and to the United States at large, and I urge its speedy passage, and I hope that we will not have a dissenting vote.

Mr. SKELTON. I thank the gentleman.

Mr. SEIBERLING. Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support the bill now under consideration, S. 1661, a bill which includes a number of miscellaneous provisions. All of these items have been noncontroversial, all are supported by the administration and many of them have previously passed the House as other bills.

I urge the support of this measure by my colleagues.

Mr. Speaker, at this time I yield such time as he may consume to the gentleman from California (Mr. CLAUSEN).

Mr. CLAUSEN. Mr. Speaker, I rise in support of S. 1661, a bill to authorize the Secretary of the Interior to accept approximately 4 acres of land adjacent to the Effigy Mounds National Monument in Iowa in return for 3 acres of land, approximately equal in value, currently within the boundary of the monument but isolated from the main body of parkland by a State highway. The land exchange will regularize the park boundary and will enable park authorities to patrol the boundaries more effectively to prevent poachers from evading State and Federal officials.

A number of amendments were added to the bill by the full Interior and Insular Affairs Committee to address a number of other concerns within other units of the national park system. In particular, an amendment was added by our committee, at my request, to authorize the Secretary to make a small parcel of land within the boundary of Redwood National Park available to the Smith River Fire Protection District for construction of a firehouse.

The Smith River Fire Protection District has recently agreed to annex an area known as Hiouchi and other nearby sites in order to provide them with fire protection. They currently have no 24 hour, year-round fire protection and must rely on service from other communities which are quite some distance away. The long response time has placed property and lives in danger.

The community of Smith River and the Hiouchi area are adjacent to Redwood National Park and the Six Rivers National Forest. Very little private property remains available in the area. As a result, the community turned to the Park Service for assistance in locating a site for the fire station.

When Redwood National Park was established, the northern boundary was drawn in such a way that a number of parcels of land were included which have some development on them. One of these parcels has been identified by the fire district as a possible site for location of the firehouse. The one being considered is actually located on Highway No. 199. The Park Service personnel in the area have studied the problem and agree that the site is appropriate. It has existing structures on it and is not an integral part of the redwood tree groves. I have been assured that no redwood trees will be removed from the property.

Our amendment simply authorizes the Park Service to continue in their ongoing efforts to work out an agreement with the community. It does not require or direct the construction but simply makes it possible if all parties agree. The rights of any holders of a current use and occupancy agreement would be protected. We have also limited the amount of land which can be used for this purpose to one-half acre.

I would like to thank the members of the committee for accommodating the request of the community of Smith River and urge prompt final action on the legislation.

● Mr. COLEMAN. Mr. Speaker, I would like to take this opportunity to once again extend my support for S. 1661, which contains provisions to expedite and facilitate the transfer of the home of former President Harry S. Truman to the National Park Service.

Through the generosity of his beloved wife, the late Mrs. Bess Truman, this beautiful Victorian home was willed to the U.S. Park Service after her passing this past October, to serve as an historical landmark.

Their home is one that belonged both to history and the Trumans, and it was with a deep sense of devotion and history that Mrs. Truman so graciously and unselfishly donated it to the people on her passing.

For over 50 years, this fine building was home to the Truman family. After 7 years of distinguished service in our Nation's highest office, it served as the private home for Bess and Harry Truman. It became a home where they could find privacy from the rest of the world, and a home Mrs. Truman continued to live in for the rest of her life.

Called to the highest office in the land by the death of Franklin Roosevelt, Harry Truman found himself entrusted with awesome decisions both here and abroad. His were the crucial decisions that shaped this Nation and the world community in the postwar era effecting the end of the war in Japan, the stability and prosperity of a war-ravaged Europe, and the maintenance of Western strength in the face of Stalinist ambitions.

The Trumans enjoyed retreating to their "Summer White House" at North Delaware Street often during his term as President. It was here on June 25, 1950, that their vacation was interrupted when President Truman was notified that the North Koreans invaded South Korea. President Truman's decisions regarding the invasion of South Korea as well as other foreign affairs set the pattern for American foreign policy for succeeding decades.

Many distinguished citizens visited the Trumans at their Independence home. Among them were six former Presidents: Lyndon Johnson, Richard Nixon, Gerald Ford, John Kennedy, Jimmy Carter, and Herbert Hoover, in addition to countless other friends and officials that visited the home to seek advice and consultation from the Trumans.

During his time in office, Harry Truman carried with him a keen sense of history, a history his late wife Bess

has so generously offered to share with the rest of the Nation by willing their home to the Park Service as a national landmark.

I was happy to testify in support of this important legislation before the Interior Subcommittee on Public Lands and National Parks last week, and have been heartened by the actions of Secretary Watt to bring the home under the protection of the Interior Department during its consideration by Congress. This action will begin security and maintenance operations vital to insure that the Truman home is preserved. Once action is taken by Congress, the home will join the homes of 26 other Presidents as a historical landmark permanently under the protection of the Interior Department.

I believe it is only fitting that Americans all across our land be given the opportunity to see where Harry Truman spent so much of his life.●

● Mr. YOUNG of Missouri. Mr. Speaker, I rise in support of S. 1661, a bill to acquire the home of President Harry S. Truman for a national historic site.

Today, this body has the opportunity to protect and preserve an important national treasure. I refer, of course, to the home and "Summer White House" of our 33d President, Harry S. Truman. Being a resident of Missouri, I, of course, have an interest in this legislation, but I feel it would be a shame if we let this home, containing as it does so many possessions of the former President, remain unprotected and otherwise outside the public domain.

S. 1661 will assure that the Truman home will become the property of the U.S. Park Service, where its historic value can be shared and enjoyed by all.

I believe that it is only fitting that Americans from all across the Nation will be given the opportunity to visit the home where Harry Truman spent so much of his life. I urge my colleagues to join me in support of this measure.●

Mr. YOUNG of Alaska. Mr. Speaker, I yield back the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. SEIBERLING) that the House suspend the rules and pass the Senate bill, S. 1661, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

VOYAGEURS NATIONAL PARK

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and concur in the amendments of the Senate numbered 2 and 3 to the House amendment to the Senate bill (S. 625) to revise the boundary of Voyageurs National Park in the State of Minnesota, and for other purposes, and concur with an amendment to Senate amendment numbered 1.

The Clerk read as follows:

Page 3, of the House engrossed amendment, strike out lines 19, 20, and 21 and insert:

"(A) makes the tender of a conveyance to the United States, by such instrument and in such manner as are satisfactory to the Secretary, including but not limited to lease or easement, by the State of Minnesota of the lands or interests therein described in paragraph (1) (C) and (D); and

Page 6, line 23, of the House engrossed amendment, strike out "(1)".

Page 7, strike out lines 4 to 8, inclusive of the House engrossed amendment.

House amendment to Senate amendment numbered 1:

In Senate amendment numbered (1) strike out all after "(A)" and insert the following in lieu thereof: "tenders a conveyance of the lands described in paragraph 1 (C) and (D) to the United States by such instrument and in such manner as are satisfactory to the Secretary, including but not limited to lease or easement: *Provided,* That it the interest conveyed is a lease or easement, the State of Minnesota shall substitute therefore a transfer of all right, title and interest in the land by June 30, 1987: *Provided further,* That if the State does not transfer all right, title and interest in such lands by June 30, 1987, the land described in paragraph 1(E) shall revert to the United States for administration by the Secretary as part of the park; and".

The SPEAKER pro tempore. Is a second demanded?

Mr. YOUNG of Alaska. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Ohio (Mr. SEIBERLING) will be recognized for 20 minutes, and the gentleman from Alaska (Mr. YOUNG) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. SEIBERLING).

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 625, a bill to amend the act establishing the Voyageurs National Park in Minnesota passed the Senate on June 10, 1982. On September 24 the House passed the bill with an amendment incorporating the provisions of H.R. 846, a companion bill introduced by Mr. OBERSTAR. On October 1 the Senate concurred in the House amendment with an amendment.

The Senate amendment basically contained two parts: First, a technical matter that is acceptable; the other, a substantive matter that relates to requirements for the exchange of certain lands between the Federal Government and the State of Minnesota.

Over the past few weeks, we have held numerous discussions among those Members who have expressed concern over this issue and have prepared a compromise which is acceptable to us and, I understand, to the affected Senators as well.

Basically the compromise would authorize the Secretary of the Interior to transfer certain lands in the Black Bay area of Voyageurs National Park to the State of Minnesota if, among other things, the State agrees to transfer certain lands to the United States. The Senate amendment would allow such transfer to be made by a lease or easement instead of requiring fee title; the House amendment would specify that if the transfer were made by lease or easement, that the State would substitute this for fee title by June 30, 1987, or else the land in Black Bay would revert to the United States for administration by the Secretary as part of the park.

I think this is an excellent compromise, and I wish to thank my colleagues Mr. OBERSTAR and Mr. VENTO for the excellent work they have done on this issue. I urge the House to approve the bill, as amended.

Mr. Speaker, I reserve the balance of my time.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, first I would like to compliment the gentleman from Minnesota (Mr. OBERSTAR) for supporting this bill. In the late hours of the night, we sometimes forget where we are.

My original objection to this bill does not arise from an objection to the bill itself, although I have little enthusiasm for it. I will support the bill. My objection, of course, over the last few days, has come from, I believe, some of the actions by the committee that I think are unwarranted.

We have a decorum in this body that I think is important. Again, as I have stated publicly, Members should be considered as they represent that district. This is one reason why, although with little enthusiasm, I am supporting the bill for the gentleman from Minnesota (Mr. OBERSTAR). I want to give the gentleman credit for it, and no one else, for leading this great leg-

islation through the House, to the Senate, back to the House, and we would like to see the efforts come to a full fruition.

Mr. Speaker, I rise with little enthusism for the bill now before us, S. 625, which provides for boundary adjustment to Voyageurs National Park in Minnesota.

This bill authorizes some land exchanges and deletions, provides for an authorization ceiling increase to complete additional land acquisition, and reestablishes a date whereupon a wilderness study proposal is to be submitted to Congress.

The bill has two other provisions which I note are strongly objected to by the administration, and I must say that I too, find them difficult to support, particularly in this time of very tight fiscal constraints. Both are study provisions.

The first calls for a quarter-of-a-million-dollar study to develop a tourism plan for the park. While I can sympathize with the rather hard-pressed economic situation in the local community, and while I can understand the local desire to enhance and promote tourism, I do not believe spending a quarter-of-a-million dollars on a study is apt to bring much of a result. Moreover, the language of the bill is very ambiguous as to the desired end product, and I believe it asks for results that are already required by existing law to be accomplished in the form of the park's general management plan. I should point out that the general management plan of which I speak was just completed and approved in 1980.

There is no way that this new tourism plan will be able to promote much significant new development or use in the park itself beyond that which is already identified in the park's general management plan, so I do not really understand what this new quarter-of-a-million dollars is going to go for.

On a similar theme, the bill provides for $75,000 to be appropriate for a study related to road access to the park. I do not really know what this can prove either, as no matter what comes of this study, since the roads are outside of the park, the Secretary of the Interior will have no authority to implement any of the study's recommendations. Moreover, since the park was established to provide a relatively primitive type of visitor experience, I doubt that the Park Service, in this study, will likely advocate much in the nature of significantly enhanced road access. The study objectives and directives are very unclear in the bill, and I consequently fail to find any rationale for this expenditure of funds.

Mr. Speaker, I must say that I do feel that this type of nickel-and-dime spending through many of these little bills that we continue to pass like this one, do tend to add up to quite a considerable amount of money before long. This is the type of situation where we all need to be more responsible and scrutinizing. I do not feel that these two study provisions are very necessary, and it is a shame that they have been attached to this bill.

With that, Mr. Speaker, I yield back the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I yield 5 minutes to the gentleman from Minnesota (Mr. OBERSTAR).

Mr. OBERSTAR. I thank the gentleman for yielding this time to me.

Mr. Speaker, I want to thank the chairman of the subcommittee, the gentleman from Ohio (Mr. SEIBERLING), for the enormous labor that he has devoted to Voyageurs National Park legislation over the past 2 years, and the time he has personally devoted, and that of his staff, to spend time with us two Members from Minnesota who have been most directly involved with this, the two Senators, and particularly Senator DURENBERGER, who has been the principal sponsor in the Senate of this legislation, to work out an acceptable compromise of some very detailed and technical questions that we now come to this point to finally have resolved.

I would also like to thank the gentleman from Alaska, who I know has had a number of internal difficulties in the committee over other matters, and I fully understand that.

Always the gentleman and mighty persuasive advocate for the view he holds, we respect him also for his parliamentary skill both in the Committee on Interior and Insular Affairs and in the Committee on Merchant Marine and Fisheries, on which I have the honor to serve with him.

I thank him for his understanding of the peculiar circumstances surrounding the Voyageurs National Park. The solution we have worked out, which he has come to accept, and in which he has played an important role, and also his staff on that side, I would like to say to my colleagues that this legislation today brings us to the end of about a 14-year odyssey for me. It began on this legislation with my predecessor, John Blatnik, who initiated the Voyageurs National Park legislation, then along with the Governor of Minnesota, Harold LeVander, whose administrative assistant at the time is now the Republican Senator from Minnesota, DAVE DURENBERGER. The four of us have marched a long way.

We come now to the conclusion of a very difficult matter, creating a national park on the United States-Canadian border, making it a viable entity now with this legislation making it something that has really totally generated the enthusiasm of the people of Minnesota, which will realize the economic potential that was advertised for the park when it was first discussed.

So I thank those who participated in this final act, the final chapter of Voyageurs National Park, bringing it to a successful conclusion.

Mr. Speaker, the House and Senate have passed virtually identical bills relating to the boundaries of Voyageurs National Park.

When Congress adjourned on October 2, only one, somewhat technical, difference existed between the two versions. That difference concerned the transfer of land from the State of Minnesota to the National Park Service in exchange for the return of the waters and islands of Black Bay to the State. The State of Minnesota and the Department of the Interior during the Carter administration agreed to the principles of this exchange. In 1980, and again in the first days of the 97th Congress in 1981, Senator DAVE DURENBERGER and I introduced identical legislation to implement this exchange. After thorough hearings in both House and Senate committees and extensive discussions involving the Minnesota congressional delegation, the committee leadership, environmental groups here in Washington and in Minnesota, the Minnesota Department of Natural Resources and the people of northern Minnesota in the area where the park is located, we have reached agreement as to the exact language of legislation.

The gentleman from Ohio (Mr. SEIBERLING) will offer an amendment to the Senate-passed bill which will authorize the return of Black Bay to the State. In return, the State will transfer to the Park Service lands which the Park Service needs for improved management of the park. This transfer could be made by lease or easement, or by outright fee transfer. If the transfer is made by lease or easement, the State must transfer title to the land to the Federal Government by June 30, 1987, or the Federal land transferred will revert back to the Federal Government. This provision is the product of extensive discussions involving all of the major parties to this legislation.

I want to point out to the House that there is probably no other provision of proposed legislation affecting such a small amount of land has received the thorough consideration this provision has received. It has support of the Minnesota Department of Natural Resources, Senator DAVE DURENBERGER, the leadership of the House Interior Committee, my colleague from Minnesota on the committee (Mr. VENTO), and myself. This bill is the result of a carefully crafted compromise between the provision in the House bill requiring immediate fee transfer and that in the Senate bill, as well as in my original bill, which would

have required only a lease or easement without fee transfer at any point.

Passage of this legislation is extremely important to the future of Voyageurs National Park. It will resolve a lingering controversy over the management of Black Bay. It will make an important addition to the park in the area of Black Bay Narrows, which is necessary for the construction of a visitors' facility. In addition, the legislation authorizes an innovative promotion program to increase visitor use of Voyageurs National Park, a beautiful water park, which, unfortunately, has not enjoyed the level of visitor use that it should have.

I particularly want to express my appreciation to my colleague, the gentleman from Minnesota (Mr. VENTO) for cosponsoring my original bill and for his diligence in supporting it in committee, through hearings, markup, and floor action. He has been most helpful in working out some of the complex technical details of the bill and responsive to my concerns and those of the people who live nearest the park. His support has been instrumental in bringing the bill this far. Again, I thank the gentleman (Mr. VENTO) for his help.

I expect that the Senate will act very quickly on this legislation. They have passed virtually identical legislation twice already this year. I hope that by Christmas this legislation will be on its way to the White House for enactment.

Mr. SEIBERLING. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. SEIBERLING) that the House suspend the rules and concur in the amendments of the Senate numbered 2 and 3 to the House amendment to the Senate bill, S. 625, and concur with an amendment to Senate amendment numbered 1.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate amendments to the Senate bill, S. 625, were concurred in.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the legislation just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

□ 2200

EDUCATIONAL MINING ACT OF 1982

Mr. SEIBERLING. Mr. Speaker, I move that the House suspend the rules and pass the Senate bill (S. 1501) entitled the "Educational Mining Act of 1982", as amended.

The Clerk read as follows:

S. 1501

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I

SEC. 101. (a) Subject to the conditions and limitations specified in this section, the Secretary of the Interior (hereinafter referred to as the "Secretary") is authorized and directed to convey to the University of Alaska, all right, title, and interest of the United States in the following described land comprising approximately fifty-seven acres:

FAIRBANKS MERIDIAN, ALASKA

Township 2 North, Range 1 East

Section 8:

East half southeast quarter southwest quarter northeast quarter southeast quarter,

North half southwest quarter southeast quarter northeast quarter southeast quarter,

South half south half southeast quarter northeast quarter southeast quarter,

East half northeast quarter northwest quarter southeast quarter southeast quarter,

Northeast quarter southeast quarter southeast quarter,

North half southeast quarter southeast quarter southeast quarter,

North half south half southeast quarter southeast quarter southeast quarter,

South half southeast quarter southeast quarter southeast quarter southeast quarter,

South half southwest quarter northwest quarter southeast quarter southwest quarter.

Section 9:

West half southwest quarter southwest quarter,

South half southwest quarter northwest quarter northeast quarter southwest quarter southwest quarter,

Southwest quarter northeast quarter southwest quarter southwest quarter,

Southeast quarter southwest quarter southwest quarter,

West half west half southwest quarter southeast quarter southeast quarter southwest quarter,

Southwest quarter southeast quarter southwest quarter,

South half southwest quarter northwest quarter southeast quarter southwest quarter.

(b) Conveyance under this section shall be made only upon the condition that the described land shall be held and used by the University of Alaska and shall not be conveyed by the University.

(c) No conveyance shall be made unless application for conveyance is filed by the university with the Secretary within six months of the date of the approval of this Act.

(d) The Secretary may at his discretion require that he be provided a perimeter survey of the lands to be conveyed under this section. All costs of obtaining such survey shall be borne by the university.

SEC. 102. (a) Notwithstanding the Act of March 4, 1931 (46 Stat. 1530-1548), or any other provision of law, the following described lands, situated in Mono County, California, and comprising approximately 202.167 acres, are withdrawn from settlement, sale, location, or entry under all of the general land laws, including the mining laws: The southeast quarter of the southeast quarter of section 23, the west half of the northwest quarter of section 25, and the north half of the northeast quarter of section 26, all in township 5 south, range 32 east, Mount Diablo meridian, California.

(b) Notwithstanding the first section of the Act of March 4, 1931 (46 Stat. 1530, 1532), the withdrawal accomplished by said Act of March 4, 1931, of the lands described as the southwest quarter of section 34, township 5 south, range 33 east, Mount Diablo meridian, comprising approximately 160 acres, situated in Mono County, California, is hereby modified to the extent that the lands described in this subsection may be exchanged by the Secretary of the Interior in accordance with the directive contained in subsection (c) of this section.

(c) Notwithstanding any other provision of law, the Secretary of the Interior is hereby authorized to exchange the Federal lands described in subsection (b) of this section for the lands described in subsection (a) of this section, the title to the lands to be acquired by the United States to be satisfactory in all respects to the Secretary and to be conveyed by a good and sufficient deed, in recordable form, that is satisfactory to the Secretary.

TITLE II

SHORT TITLE

SEC. 201. This title may be cited as the "American Conservation Corps Act of 1982".

CONGRESSIONAL FINDINGS AND PURPOSE

SEC. 202. (a) FINDINGS.—The Congress finds that—

(1) public lands, resources, and facilities, including parks, rangelands, wildlife refuges, forests, water resources, fishery facilities, historic and cultural sites, and urban and community resources, have become subject to increasing public use and resource production demands;

(2) the condition of many of these lands, resources, and facilities has deteriorated as a result of these increasing uses and demands and as a result of the inability of Government agencies to adequately staff and fund the maintenance necessary to arrest the deterioration;

(3) public land management agencies have a responsibility to assure that public lands and resources are managed—

(A) to assure continued productivity,

(B) to protect public health and safety, and

(C) to assure their wise and economic conservation, maintenance, and use;

(4) a program designed to systematically guide and enhance the conservation, rehabilitation, and improvement of our public lands, resources, and facilities is urgently needed; and

(5) youth conservation programs have proven highly successful and cost effective in providing training and jobs for unemployed youth and in assisting land management agencies at all levels of government to reduce the backlog of neglected public land conservation, rehabilitation and improvement projects and to carry out other public land resource management work.

(b) PURPOSE.—It is the purpose of this title to—

(1) reduce the backlog of conservation, rehabilitation, and improvement work on the public lands, prevent the further deterioration of public lands and resources and facilities, conserve energy and restore and

maintain community lands, resources, and facilities;

(2) establish an American Conservation Corps to carry out a program to improve, restore, maintain, and conserve public lands and resources in the most cost-effective manner;

(3) use such program to assist State and local governments in carrying out needed public land and resource conservation, rehabilitation, and improvement projects;

(4) provide for implementation of the program in such manner as will foster conservation and the wise use of natural and cultural resources through the establishment of working relationships among the Federal, State, and local governments, Indian tribes, and other public and private organizations; and

(5) use this program to increase (by training and other means) employment opportunities for young men and women especially those who are economically, socially, physically, or educationally disadvantaged and who may not otherwise be productively employed.

DEFINITIONS

SEC. 203. For purposes of this title:

(1) The term "Secretary" means the Secretary of the Interior, except where otherwise expressly provided.

(2) The terms "public lands" and "publicly owned lands" mean any lands and waters (or interest therein) owned or administered by the United States or by any agency or instrumentality of a State or local government.

(3) The term "program" means the public lands conservation, rehabilitation, and improvement program established under this Act.

(4) The term "program agency" means any Federal agency or instrumentality with responsibility for the management of any public or Indian lands, any State agency designated by the Governor to manage the program in that State, and the governing body of any Indian tribe.

(5) The term "Indian tribe" means any Indian tribe, band, nation, or other group which is recognized as an Indian tribe by the Secretary. Such term also includes any Native village corporation, regional corporation, and Native group established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1701 et seq.).

(6) The term "Indian" means a person who is a member of an Indian tribe.

(7) The term "Indian lands" means any real property owned by an Indian tribe, any real property held in trust by the United States for individual Indians or Indian tribes, and any real property held by individual Indians or Indian tribes which is subject to restrictions on alienation imposed by the United States.

(8) The term "employment security service" means the agency in each of the several States with responsibility for the administration of unemployment and employment programs, and the oversight of local labor conditions.

(9) The term "chief administrator" means the head of any program agency as that term is defined in paragraph (4).

(10) The term "enrollee" means any individual enrolled in the American Conservation Corps in accordance with section 205.

(11) The term "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territories of the Pacific Islands.

PUBLIC LANDS CONSERVATION, REHABILITATION, AND IMPROVEMENT PROGRAM

SEC. 204. (a) ESTABLISHMENT AND ADMINISTRATION OF PROGRAM.—Not later than ninety days after the enactment of this Act, the Secretary, in cooperation with the Secretary of Agriculture and after consultation with the Secretary of Labor, shall establish and administer a public lands conservation, rehabilitation, and improvement program to carry out the purposes of this title. Under such program, the Secretary shall provide assistance to program agencies for the establishment and operation of residential and nonresidential American Conservation Corps centers and for the implementation by the American Conservation Corps of projects designed to carry out such purposes.

(b) PROJECTS INCLUDED.—The program established under this section may include, but shall not be limited to, projects such as—

(1) forestry, nursery, and silvicultural operations;

(2) wildlife habitat conservation, rehabilitation, and improvement;

(3) rangeland conservation, rehabilitation, and improvement;

(4) recreational area development, maintenance, and improvement;

(5) urban revitalization;

(6) historical and cultural site preservation and maintenance;

(7) fish culture and habitat maintenance and improvement and other fishery assistance;

(8) road and trail maintenance and improvement;

(9) erosion, flood, drought, and storm damage assistance and control;

(10) stream, lake, and waterfront harbor and port improvement, and pollution control;

(11) insect, disease, rodent, and fire prevention, and control;

(12) improvement of abandoned railroad bed and right-of-way;

(13) energy conservation projects and renewable resource enhancement;

(14) recovery of biomass from public lands, particularly forestlands; and

(15) reclamation and improvement of strip-mined lands.

(c) PREFERENCE FOR CERTAIN PROJECTS.—The program shall provide a preference for those projects which—

(1) will provide long-term benefits to the public;

(2) will provide meaningful work experience to the enrollee involved;

(3) will be labor intensive; and

(4) can be planned and initiated promptly.

(d) LIMITATION TO PUBLIC LANDS.—Projects to be carried out under the program shall be limited to projects on public lands or Indian lands except where a project involving other lands will provide a documented public benefit and reimbursement will be provided to the program agency for that portion of the total costs of the program which does not provide a public benefit. Notwithstanding any other provision of law, any reimbursement referred to in the preceding sentence shall be retained by the program agency and shall be used by the agency for purposes of carrying out other projects under the program.

(e) CONSISTENCY.—The Secretary and the chief administrators of other program agencies shall assure that projects selected under this title for conservation, rehabilitation, or improvement of any public lands are consistent with the provisions of law relating to the management and administration of such lands and with all other applicable provisions of law.

(f) CONSERVATION CENTERS.—(1) Each program agency may apply to the Secretary for approval of conservation centers to carry out projects under this title.

(2) Applications for approval of conservation centers shall be submitted to the Secretary in such manner as the Secretary may prescribe. Each application shall contain, in such detail as the Secretary deems necessary—

(A) a comprehensive description of the objectives and performance goals for the conservation center and a description of the types of projects to be carried out, including a description of the types and duration of training (including work experience) to be provided;

(B) a description of the facilities and equipment to be available for use in the center;

(C) an estimate of the number of enrollees and crew leaders necessary for the proposed projects, the length of time for which the services of such personnel will be required, and the services which will be required for their support;

(D) a plan for managing the conservation center, supplying the necessary equipment and material, and administering the payroll; and

(E) such other information as the Secretary shall prescribe.

(3) In approving conservation centers, the Secretary shall give due consideration to the cost and means of transportation available between the center and the homes of the enrollees who may be assigned to those centers. The location and type of conservation centers shall be selected in such manner as will increase the enrollment of economically, socially, physically, and educationally disadvantaged youths, and of youths from areas of high unemployment.

(g) LOCAL GOVERNMENT PARTICIPATION.—Any State carrying out a program under this title shall provide a mechanism under which local governments in the State may be approved by the State to participate in the program and to carry out projects in accordance with the requirements of this Act.

(h) AGREEMENTS.—Program agencies may enter into contracts and other appropriate arrangements with local government agencies and nonprofit organizations for the management of conservation centers under the program.

(i) JOINT PROJECTS.—The Secretary is authorized to develop jointly with the Secretary of Labor regulations designed to allow, where appropriate, joint projects in which activities supported by funds authorized under this title are coordinated with activities supported by funds authorized under employment and training statutes administered by the Department of Labor (including the Comprehensive Employment and Training Act and any successor statutes). Such regulations shall provide standards for approval of joint projects which meet both the purposes of this title and the purposes of such employment and training statutes under which funds are available to support the activities proposed for approval. Such regulations shall also establish a single mechanism for approval of joint projects developed at the State or local level.

ENROLLMENT, FUNDING, AND MANAGEMENT

SEC. 205. (a) ENROLLMENT IN PROGRAM.—(1) Enrollment in the American Conservation Corps shall be limited to individuals who, at the time of enrollment, are—

(A) unemployed;

(B) not less than sixteen or more than twenty-five years of age (except that programs limited to the months of June, July, and August may include individuals not less than fifteen years and not more than twenty-one years of age at the time of their enrollment); and

(C) citizens or lawful permanent residents of the United States or lawfully admitted alien parolees or refugees.

(2) Except in the case of a program limited to the months of June, July, and August, individuals who at the time of applying for enrollment have attained age sixteen but not attained age nineteen, and who are no longer enrolled in any secondary school shall not be enrolled unless they give adequate written assurances, under criteria to be established by the Secretary, that they did not leave school for the express purpose of enrolling.

(3) The selection of enrollees to serve in the American Conservation Corps in any conservation center shall be the responsibility of the chief administrator of the program agency. Enrollees shall be selected from those qualified persons who have—

(A) applied to, or been recruited by, the program agency, a State employment security service, a prime sponsor under the Comprehensive Employment and Training Act (or comparable entity under any successor statutes), community or community-based nonprofit organization, the sponsor of an Indian program, or the sponsor of a migrant or seasonal farmworker program; and

(B) been screened for eligibility and referred to the program agency by the State employment security service.

(4) In the recruitment and selection of enrollees, special consideration shall be given to both—

(A) economically, socially, physically, and educationally disadvantaged youths, and

(B) youths residing in areas, both rural and urban, which have substantial unemployment.

(5)(A) Except for a program limited to the months of June, July, and August, any qualified individual selected for enrollment may be enrolled for a period not to exceed twenty-four months. When the term of enrollment does not consist of one continuous twenty-four-month term, the total of shorter terms may not exceed twenty-four months.

(B) No individual may remain enrolled in the American Conservation Corps after that individual has attained the age of twenty-six.

(b) SERVICES, FACILITIES, SUPPLIES, ET CETERA.—The program agency shall provide such quarters, board, medical care, transportation, and other services, facilities, supplies, and equipment as the Secretary deems necessary for conservation centers. Whenever possible, the Secretary shall make arrangements with the Secretary of Defense to have such logistical support provided by a military installation near the proposed center, including the provision of temporary tent centers where needed. The Secretary shall establish basic standards of health, nutrition, sanitation, and safety for all conservation centers, and shall assure that such standards are enforced.

(c) CONSERVATION CENTER MANAGEMENT.—Every conservation center shall have sufficient supervisory staff appointed by the chief administrator which may include enrollees who have displayed exceptional leadership qualities.

(d) FUNDING.—(1) The Secretary may award grants to, or enter into agreements with, program agencies for the funding and operation of conservation centers approved by the Secretary under this title.

(2) The Secretary shall not make any grant to, or enter into any agreement with any program agency for the funding of any conservation center under this title unless such agency certifies that projects carried out by the conservation center will not—

(A) result in the displacement of individuals currently employed by the program agency concerned (including partial displacement through reduction of nonovertime hours, wages, or employment benefits);

(B) result in the employment of any individual when any other person is in a layoff status from the same or substantially equivalent job within the jurisdiction of the program agency concerned; or

(C) impair existing contracts for services.

(3) Of the sums appropriated to carry out this title for any fiscal year—

(A) not less than 35 per centum shall be made available by the Secretary for expenditure by State program agencies;

(B) not less than 25 per centum shall be made available by the Secretary for expenditure pursuant to agreements with the Secretary of Agriculture;

(C) not less than 25 per centum shall be made available by the Secretary for expenditure by program agencies within the Department of the Interior;

(D) not less than 5 per centum shall be made available by the Secretary for expenditure by the governing bodies of participating Indian tribes; and

(E) the remaining amount shall be made available by the Secretary for expenditure by other Federal program agencies and for demonstration projects or projects of special merit carried out by any program agency or by any nonprofit organization or local government which is undertaking or proposing to undertake projects consistent with the purposes of this title.

10 per centum of the amount disbursed to State agencies under subparagraph (A) (or to local governments within the State where paragraph (4) applies) shall be divided equally among the States and 90 per centum of such amount shall be distributed among such States proportionately according to the total youth population of such States between the ages of fifteen and twenty-five (as determined on the basis of the most recent census). Any State receiving funds under subparagraph (A) for the operation of any conservation center shall be required to provide not less than 15 per centum of the cost of operation of such center. Any State receiving funds under subparagraph (A) for any fiscal year shall provide not less than 10 per centum of such funds to local governments approved by the State under section 4(g) to carry out projects under this Act unless no such local government in that State is approved before the end of such fiscal year. In any case where no such local government is approved before the end of such fiscal year, such 10 per centum may be expended by the State in accordance with this Act.

(4) If, at the commencement of any fiscal year, any State does not have a program agency designated by the Governor to manage the program in that State, then during such fiscal year each local government within such State may establish a program agency to carry out the program within the political subdivision which is under the jurisdiction of such local government. In any such case, the State share (or a reasonable portion thereof) for such State may be made available by the Secretary for expenditure by such local government program agencies to carry out the program within such political subdivisions. Such local government program agencies shall be in all respects subject to the same requirements as State program agencies. Where more than one local government within a State has established a program agency under this subsection, the Secretary shall allocate funds between such agencies in such manner as he deems equitable.

(5) Payments under grants under this section may be made in advance or by way of reimbursement and at such intervals and on such conditions as the Secretary finds necessary.

(6)(A) There is authorized to be appropriated to the Secretary for purposes of carrying out this title $50,000,000 for the fiscal year 1983, and the amount determined under subparagraph (B) for each of the fiscal years 1984 through 1989 from so much of the following amounts as would otherwise be credited to miscellaneous receipts in the Treasury—

(i) all franchise fees estimated to be collected for the fiscal year concerned by the Secretary and Secretary of Agriculture; and

(ii) all receipts estimated to be due and payable to the United States for the fiscal year concerned from (I) permit fees (including fees for special use permits) imposed by the Secretary or the Secretary of Agriculture, (II) sales of timber by the Secretary or the Secretary of Agriculture, and (III) leasing activities of the Secretary and the Secretary of Agriculture other than leasing activities under the Mineral Leasing Act of 1920 (30 U.S.C. 181 et seq.) or under the Mineral Leasing Act for Acquired Lands (30 U.S.C. 351 et seq.).

Such sums shall remain available until expended. Appropriations under this section shall be made without fiscal year limitation.

(B) The amount authorized to be appropriated under subparagraph (A) for each of the fiscal years 1984 through 1989 shall be $250,000,000 plus a percentage increase for each fiscal year based upon the percentage increase in the Consumer Price Index published by the Bureau of Labor Statistics. The increase for each such fiscal year shall be a percentage of $250,000,000 (plus unappropriated balances). Such percentage for any fiscal year shall be equal to the percentage increase of—

(i) the Consumer Price Index for the last calendar year ending prior to such fiscal year, over

(ii) the Consumer Price Index for the calendar year 1982.

(7) No authority under this Act to enter into contracts or to make payments shall be effective except to the extent and in such amounts as provided in advance in appropriations Acts. Any provision of this Act which, directly or indirectly, authorizes the enactment of new budget authority shall be effective only for fiscal years beginning after September 30, 1982.

FEDERAL EMPLOYEE STATUS

SEC. 206. (a) IN GENERAL.—Except as otherwise specifically provided in the following paragraphs, enrollees and crew leaders shall not be deemed Federal employees and shall not be subject to the provisions of law relating to Federal employment:

(1) For purposes of the Internal Revenue Code of 1954 and title II of the Social Security Act, enrollees and crew leaders shall be deemed employees of the United States and any service performed by any person as an

enrollee shall be deemed to be performed in the employ of the United States.

(2) For purposes of subchapter I of chapter 81 of title 5, United States Code, relating to the compensation of Federal employees for work injuries, enrollees and crew leaders shall be deemed civil employees of the United States within the meaning of the term "employee" as defined in section 8101 of title 5, United States Code, and the provisions of that subchapter shall apply, except—

(A) the term "performance of duty" shall not include any act of an enrollee member or crew leader while absent from his or her assigned post of duty, except while participating in an activity authorized by or under the direction and supervision of the Secretary or the conservation center supervisory staff (including an activity while on pass or during travel to or from such post of duty); and

(B) compensation for disability shall not begin to accrue until the day following the date on which the injured enrollee's or crew leader's employment is terminated.

(3) For purposes of chapter 171 of title 28, United States Code, relating to tort claims procedure, enrollees and crew leaders shall be deemed employees of the United States within the meaning of the term "employee of the Government" as defined in section 2671 of title 28, United States Code.

(4) For purposes of section 5911 of title 5, United States Code, relating to allowances for quarters, enrollees and crew leaders shall be deemed employees of the United States within the meaning of the term "employee" as defined in that section.

(b) AMENDMENT OF TITLE 5.—Section 8332(b) of title 5, United States Code, is amended—

(1) by striking out "and" at the end of paragraph (11);

(2) by striking out the period at the end of paragraph (12) and inserting in lieu thereof "; and"; and

(3) by adding after paragraph (12) the following new paragraph:

"(13) service as an enrollee or crew leader only if the enrollee or crew leader in the American Conservation Corps later becomes subject to this subchapter.".

USE OF VOLUNTEERS

SEC. 207. (a) Where any program agency has authority to use volunteer services in carrying out functions of the agency, such agency may use volunteer services for purposes of assisting projects related to conservation centers established under this title and may expend funds made available for those purposes to the agency, including funds made available under this title, to provide for services or costs incidental to the utilization of such volunteers, including transportation, supplies, lodging, subsistence, recruiting, training, and supervision.

(b)(1) The Secretary may recruit, without regard to the civil service classification laws, rules or regulations, the services of individuals contributed without compensation as volunteers for aiding or in facilitating the activities administered by the Secretary through the Bureau of Land Management.

(2) In accepting such services, the Secretary—

(A) shall not permit the use of volunteers in hazardous duty or law enforcement work, or in policymaking processes or to displace any employee; and

(B) may provide for services or costs incidental to the utilization of volunteers, including transportation, supplies, lodging, subsistence, recruiting, training, and supervision.

(3) Volunteers under this subsection shall not be deemed employees of the United States except for the purposes of the tort claims provisions of title 28, United States Code, and subchapter I of chapter 81 of title 5, United States Code, relating to compensation for work injuries.

SPECIAL RESPONSIBILITIES OF THE SECRETARY

SEC. 208. (a) PAY.—The Secretary shall establish standards for—

(1) rates of pay for enrollees which shall be not less than the wage required by section 6(a)(1) of the Fair Labor Standards Act of 1938 (29 U.S.C. 206(a)(1));

(2) rates of pay for crew leaders which shall be at a wage comparable to the compensation in effect for grades GS-3 to GS-7; and

(3) reasonable hours and conditions of employment.

(b) COORDINATION.—The Secretary and the chief administrators of other program agencies carrying out programs under this Act shall coordinate the programs with related Federal, State, local, and private activities.

(c) MILITARY EXEMPTION STUDY.—The Secretary, in consultation with the Secretary of Defense, shall conduct a study to determine the feasibility and desirability of allowing enrollees who have completed a two-year enrollment in the program to be exempt from training and service under the Military Selective Service Act (50 U.S.C. App. 456). A report containing the results of the study shall be submitted to Congress not later than one year after the enactment of this Act.

EDUCATION, GUIDANCE, AND PLACEMENT

SEC. 209. (a) ACADEMIC CREDIT.—Whenever possible, the Secretary shall make arrangements for the award of academic credit by educational institutions and agencies to enrollees for competencies developed from work experience under this title.

(b) STUDY.—Program agencies may provide training and educational materials and services for enrollees and may enter into arrangements with academic institutions for academic study by enrollees during nonworking hours to upgrade literacy skills, obtain equivalency diplomas or college degrees, or enhance employable skills. Whenever possible, an enrollee seeking study or training not provided at his or her conservation center shall be offered assignment to a conservation center providing such study or training.

(c) CERTIFICATION.—The program agencies shall provide certification of the training skills acquired by enrollees who have participated in the program.

(d) GUIDANCE AND PLACEMENT.—The program agency shall provide such job guidance and placement information and assistance for enrollees as may be necessary. Such assistance shall be provided in coordination with appropriate State, local, and private agencies and organizations.

EVALUATION AND PILOT PROJECTS

SEC. 210. (a) RESEARCH AND EVALUATION.—The Secretary shall provide for research and evaluation to—

(1) determine costs and benefits, tangible and otherwise, of work performed under this title and of training and employable skills and other benefits gained by enrollees, and

(2) identify options for improving program productivity and youth benefits, including improved alternatives for: organization, subjects, sponsorship, and funding of work projects; recruitment and personnel policies; siting and functions of conservation centers; work and training regimes for youth of various origins and needs; and cooperative arrangements with programs, persons and institutions not covered under this Act.

(b) DEMONSTRATIONS.—The Secretary may authorize pilot or experimental projects to demonstrate or test new or alternative arrangements or subjects of work and training for programs under this title, which may include alternatives identified under subsection (a)(2).

ANNUAL REPORT

SEC. 211. The Secretary shall prepare and submit to the President and to the Congress at least once each year a report detailing the activities carried out under this Title. Such report shall be submitted not later than December 31 of each year following the date of enactment of this Act. The report shall describe (1) conservation work procedures, accomplishments and benefits; (2) the extent to which youth who are economically, socially, physically or educationally disadvantaged have been enrolled in and benefited by the program; (3) other youth benefits; and (4) problems and opportunities encountered in carrying out the Act which require attention. The Secretary shall include in such report such recommendations as he considers appropriate.

LABOR MARKET INFORMATION

SEC. 212. The Secretary of Labor shall make available to the Secretary and to any program agency under this title such labor market information as is appropriate for use in carrying out the purposes of this title.

EMPLOYEE APPEAL RIGHTS

SEC. 213. In the case of—

(1) the displacement of a Federal employee (including any partial displacement through reduction of nonovertime hours, wages or employment benefits), or the failure to reemploy an employee in a layoff status, contrary to a certification under section 205(d)(2) (A) or (B) of this Act, or

(2) the displacement of a Federal employee by reason of the use of one or more volunteers under section 207(b)(2)(A) of this Act,

such employee is entitled to appeal such action to the Merit Systems Protection Board under section 7701 of title 5, United States Code.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Ohio (Mr. SEIBERLING) will be recognized for 20 minutes, and the gentleman from Alaska (Mr. YOUNG) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. SEIBERLING).

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1501 as reported by the Committee on Interior and Insular Affairs combines one noncontroversial bill which has passed the Senate with two bills which passed the House earlier in this Congress, but which have languished in the Senate.

Title I of the reported bill packages the Senate-passed Educational Mining Act with H.R. 2475, which the House initially passed almost 1 year ago.

The Senate-passed bill transfers the Federal interests in about 56 acres of

land in Alaska to the University of Alaska, for use in the training of mining and geology students. That transfer is included as section 101 of the reported bill.

Section 102 authorizes the acquisition of about 500 acres of privately owned land in the Owens Valley area of California in exchange for Federal lands. The exchange, supported by the administration, the State of California, the University of California, and several environmental groups, will further the protection of the critical habitat of the Owens Valley pupfish, an endangered species. The language is the same as that in H.R. 2475, as passed by the House.

Title II is identical to H.R. 4861 which passed the House by a wide margin (291-102) on June 9, 1982. The bill would provide for the establishment of an American Conservation Corps. The purpose is to accomplish needed conservation work on our public lands and community resources and to provide jobs for our Nation's young people.

The Corps would be administered by the Secretary of the Interior with the cooperation of the Secretaries of Agriculture and Labor. The program would be funded by using certain Federal revenues generated from various leasing and permitting activities—offshore oil and gas leasing, timber cutting, franchise and other fees.

The authorization for appropriations would be limited to $50 million in fiscal 1983 and $250 million annually thereafter through fiscal 1989, with a percentage increase allowed each year based on increases in the Consumer Price Index. Of the total annual appropriations, 35 percent would be distributed to States, 25 percent each to the Departments of Interior and Agriculture, 5 percent to participating Indian tribes and 10 percent to other Federal agencies and for special projects. States would be required to provide 15 percent matching funds and a mechanism (including at least 10 percent of the State's funding share) for local government participation.

Conservation projects would include conservation of forests, fish, wildlife, rangelands and soils; revitalization of urban areas and preservation of historic sites; maintenance of recreational areas; energy conservation and production of renewable resources. Work on private lands must provide documented public benefits and require reimbursement for any nonpublic benefits.

The program would have both a year-round and a summer component. Enrollees must be unemployed and be between the ages of 16 and 25 for the year-round program, and between 15 and 21 for the summer program. Special consideration in the recruitment and selection of enrollees would be given to disadvantaged youth who live in areas of substantial unemployment. Opportunities for training and academic study would be provided and certification granted for skills acquired by enrollees.

Those are some of the highlights of the legislation. Before concluding, however, I do want to emphasize that this program, while relatively modest in terms of funding, would offer much needed help—not only to our Nation's unemployed youth but also to the productivity of our Nation's lands and resources. I urge my colleagues to again support this important legislation.

Mr. YOUNG of Alaska. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of S. 1501, the Educational Mining Act of 1982. Mr. Speaker, this bill is possibly the most appropriately named legislation to come before the House this year. The purpose of the legislation is to transfer some patented mining claims to the University of Alaska at Fairbanks so as to allow the students of geology there to further their academic careers in their chosen field. This bill is exactly like the types that have allowed Michigan Tech and the Colorado School of Mines to further their academic programs through hands on research. This bill simply allows the transfer of some donated mining claims to the university without the necessity of the schools having to go through the formal patent process. These claims are underground mines, outside of Fairbanks, Alaska, where silver has been mined on and off for many years. The donation of these claims and the implementation of these claims through this process will allow students from the United States who attend the University of Alaska to get into a mine, break a few rocks, and perhaps learn something about the noble science of geology.

There is attached to this legislation a provision that would reinstitute the Youth Conservation Corps. In a different form. That is unfortunate, Mr. Speaker, because although the House has passed this legislation, the Senate has failed to do so for some legitimate reasons, and I fear that the future of the students at the University of Alaska will be jeopardized because of this extra baggage. While I understand the concern of the Senate over the Youth Conservation Corps bill, I believe that this Nation needs to foster in its youth an appreciation of, and a love for, the higher principles of multiple-use management that eludes the so-called environmentalists, who feel that the only way to manage our resources is to put them off limits. I think, although it may make my distinguished colleague from Ohio shudder, that if the Youth Conservation Corps is instituted, we may see some real environmentalists emerge, rather than the lockup no growthers that claim to be environmentalists today. I realize the outyear obligations of this rider concern the other body, but I would hope they see the wisdom of getting our young people productive jobs in our productive forests, as well as supporting legislation that will help tomorrow's geologists better understand the nature of the bounty of this Earth that God has given us. I urge the Members' support of this legislation.

● Mr. JEFFORDS. Mr. Speaker, I rise in support of S. 1501 and I commend the Interior Committee for adding to it the provisions of H.R. 4861, the American Conservation Corps Act, which passed the House overwhelmingly earlier this year.

I am greatly disturbed at the turn that debate over the jobs issue has taken. Unemployment continues to rise as the overall rate climbed to 10.8 percent in November. Twelve million Americans are now considered unemployed and many more have given up looking for work. Among youth, this rate is 24.2.

We all agree that these figures constitute a serious problem. But that is where our consensus ends. Tragically, this serious, human problem has been addressed only on political terms. We talk about unemployment and then consider adding $5.4 billion to the continuing resolution for all kinds of programs dear to many of my colleagues, most of which will contribute little or nothing to the solution of the unemployment problem regardless of their other merits.

However, the American Conservation Corps concept is a sound one that would begin to have a constructive effect on youth employment. This bill would create a program to carry out conservation and rehabilitation projects with an emphasis on hiring disadvantaged youth. Projects could be implemented in both rural and urban areas and would be funded by revenues from leases and royalties on Federal lands.

This bill combines concepts from the Young Adult Conservation Corps and the Youth Conservation Corps, both of which have been targeted for elimination. I recognize that these programs have not been perfect and I believe that this bill remedies most of these problems.

There is a considerable backlog of needed conservation work in this country. The American Conservation Corps offers us a way to perform this work at a modest cost and in a way that addresses the serious problem of youth unemployment.

Even though previous youth conservation work programs suffered from a lack of coordination and though they did not focus clearly on conservation, they returned more than $1 in assessed value for each dollar invested. This bill would further improve this

ratio and would better target the program to disadvantaged youth and to those who live in areas of high unemployment. It provides youth with meaningful work, teaches transferable skills and benefits all of us.

Mr. Speaker, I urge my colleagues to support this bill now and to provide an appropriation for the American Conservation Corps as a part of any jobs legislation that may be considered by the Congress. We have an opportunity to not only conserve and improve our national and cultural resources, but also to make a major investment in the future of our youth.●

Mr. Speaker, I yield back the balance of my time.

Mr. SEIBERLING. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. SEIBERLING) that the House suspend the rules and pass the Senate bill, S. 1501, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the Senate bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

PADDY CREEK WILDERNESS ACT OF 1981

Mr. SEIBERLING. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1965) to designate certain lands in the Mark Twain National Forest in Missouri, which comprise approximately 6,888 acres, and which are generally depicted on a map entitled "Paddy Creek Wilderness Area," as a component of the National Wilderness Preservation System.

The Clerk read as follows:

S. 1965

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be known as the Paddy Creek Wilderness Act of 1981.

SEC. 2. In furtherance of the purposes of the Wilderness Act (78 Stat. 890) and the Act of January 3, 1975 (88 Stat. 2096), the following area as generally depicted on a map appropriately referenced, dated December 1981, is hereby designated as wilderness and, therefore, as a component of the National Wilderness Preservation System; certain lands in the Mark Twain National Forest, Missouri, which comprise about six thousand eight hundred and eighty-eight acres, are generally depicted on a map entitled "Paddy Creek Wilderness Area", dated December 1981, and shall be known as the Paddy Creek Wilderness Area.

SEC. 3. As soon as practicable after this Act takes effect, the Secretary of Agriculture shall file a map and legal description of the Paddy Creek Wilderness Area with the Energy and Natural Resources Committee of the Senate and the Interior and Insular Affairs Committee of the House of Representatives, and such description shall have the same force and effect as if included in this Act: *Provided, however,* That correction of clerical and typographical errors in such legal description and map may be made.

SEC. 4. The area designated as wilderness by this Act shall be administered in accordance with the applicable provisions of the Wilderness Act (78 Stat. 890) and the Act of January 3, 1975 (88 Stat. 2096), except that any reference is such provisions to the effective date of such Acts shall be deemed to be a reference to the effective date of this Act.

The SPEAKER pro tempore. Pursuant to the rule, a second is not required on this motion.

The gentleman from Ohio (Mr. SEIBERLING) will be recognized for 20 minutes, and the gentleman from Alaska (Mr. YOUNG) will be recognized for 20 minutes.

The Chair recognizes the gentleman from Ohio (Mr. SEIBERLING).

Mr. SEIBERLING. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker I rise in strong support of S. 1965, which would designate a 6.888-acre Paddy Creek Wilderness in the Mark Twain National Forest in Missouri. The Paddy Creek area was designated by Congress as a wilderness study area in 1976 (Public Law 94-557) with instructions that the area be evaluated to determine whether it should be recommended for addition to the National Wilderness Preservation System. The Forest Service has completed the study and recommended the area for wilderness, and on September 13 President Reagan sent a message to Congress confirming the administration's endorsement of the wilderness proposal. The Subcommittee on Public Lands and National Parks had previously held a hearing on the area on May 24 of this year, and found near unanimous support for wilderness designation.

Mr. Speaker, the outstanding natural attributes of the area are fully described in the House and Senate committee reports, and in the President's message transmitting the wilderness recommendation (see House Document 97-235, part 10, September 13, 1982), so I will not take the time to describe the area here. Suffice it to say that S. 1965 is strongly supported by both Missouri Senators, the administration, and numerous individuals and conservation organizations in Missouri and elsewhere. I urge my colleagues' agreement in passing this excellent legislation which was reported by the committee on December 8.

As a final note, I have conferred with Chairman DE LA GARZA of the Committee on Agriculture and we have agreed that it is the intent of the House in accepting the Senate bill that the Secretary of Agriculture file the official maps of the Paddy Creek Wilderness with the Committee on Agriculture as well as with the Committee on Interior and Insular Affairs. Normally, this requirement would be written into the law, but as this requirement was inadvertently omitted in the Senate bill, we have agreed to this procedure in order to avoid having to amend the bill and send it back to the Senate over such relatively minor matter.

Mr. YOUNG of Alaska. Mr. Speaker, I yield such time as he may consume to the gentleman from Missouri (Mr. BAILEY).

Mr. BAILEY of Missouri. Mr. Speaker, I rise in strong opposition, and will do my utmost, to expedite, as I know the chairman of the subcommittee has, his support. However, the truth of the matter is that the chairman of the subcommittee, the gentleman from Ohio, has said just about all he knows about the Paddy Creek area. The chairman, of course, I suppose, has been no closer than a few thousand miles, or at least a few hundred miles, of Paddy Creek. He may have been in St. Louis at one time going through the airport. But, the point of that, Mr. Speaker, is not that there is any difference in his philosophy if he had been there, but just to point out that he has not been.

□ 2210

And we do not have a philosophical difference, the chairman and I, about our love for the Ozarks and our love of the beauty that is gathered there. I am returning home. These are my last few days in Congress. I am one of those proverbial "lameducks."

But what we do have in strong opposition is the practical and the procedural operations of this Congress in trying to designate Paddy Creek as a wilderness. Paddy Creek, the Oregon wilderness that the gentleman from Oregon (Mr. SMITH) is interested in, and the Irish Wilderness that the gentleman from Missouri (Mr. EMERSON) is interested in have all been conducted without adequate hearings in those districts. Certainly the chairman of the subcommittee has held no hearings on Paddy Creek.

What we have here is an entirely different situation than what we had in Indiana, because the Governor of the State of Missouri does not support Paddy Creek's inclusion as a wilderness, nor does this Member, nor does the other gentleman from Missouri who was speaking and who represents the area close to the Paddy Creek area. We do not have that.

Now, the history of Paddy Creek is not unlike many other of the forestry-owned lands of south central Missouri. The area was cut off with the timber production of one Silvester Paddy, in 1816. He had a large lumbering, timbering operation there in the early 19th century. That is how the area gets the name, Paddy Creek. They cut the trees from Paddy Creek, floated them down Paddy Creek, onto the Gasconade River, down the Missouri River into St. Louis to build homes for the German immigrants who came during the early days of the Arch. "This was the Gateway" to the West period during the early 1800's.

During the Civil War, Mr. Speaker, the area was almost desolate because the Union Forces and the Southern Forces ran the settlers out in Texas County, near Houston, Mo., the largest county in the State, and when the settlers came back after the Civil War to claim their homesteads, there were many losses of lives because of the claims and the counterclaims of the new ownerships.

There was a period of prosperity. My family moved there in the early 1900's. Then in the 1930's during the Great Depression, the U.S. Government bought the land. They bought it for $1 and $2 and $3 an acre from the people who lived there.

Here is the story from the National Geographic:

There were also problems for rangers in the 1930s in the Missouri Ozarks: woodland burnings set almost ritually each spring in the belief they hastened the grasses' greening; struggling peckerwood sawyers who fed their mobile mills with poached timber as an unwritten birthright; moonshiners whose smoking stills could draw an unsuspecting fire-fighting crew into a hail of gunfire.

"The first thing a ranger had to do," said Claude Ferguson, "was to convince the moonshiner he wasn't a 'revenooer.'"

Claude and I grew up in those hills, where, half a century earlier, the straight-grained yellow pine had drawn in big lumber companies. In less than a generation the prime conifers had been logged and hauled along narrow-gauge railroads to the mills, leaving the denuded hills to recloak themselves as best they could. What came back was mostly blackjact oak, and much of the land, considered nearly worthless by private owners, was eventually purchased by the federal government. It was a familiar pattern in our southeastern woods, a rape of the forest and a jilting of the land. But those woods accounted worthless became the nucleus of our national forest lands east of the plains.

The first units of the Mark Twain National Forest were being formed, one of them cradling the valley-and-hill town of Willow Springs, where I was born. With Claude and other friends, I did a lot of growing up in that forest, drawn by an inborn need to hike and camp and swim and fish in it. My dad hunted squirrel and quail in it, and an uncle farmed rocky fields bordering it.

Claude led our forays into the woods by dint of superior woodsman's lore, and went on to a career in the Forest Service, which was inevitability itself.

When I was a high-school senior, I earned a dollar or two from the same service—at 32 cents an hour, as I recall—fighting forest fires. When flames threatened, our school permitted seniors to go help save the Mark Twain's trees. Trading stuffy classrooms for a ride in green trucks into the glories of autumn woods, we seniors could not have been more pleased.

There is testimony from the hearing that was held in Licking, Mo., from a gentleman, Mr. McLaughlin, who talked about the settlements there and how he needed to be able to go back to find his old friends' home places throughout the Paddy Creek area, throughout the forest area, because now, if they block off the roads that are in there and make this a wilderness area, those old settlers will not be able to go back to their old home places.

The Federal Government, as I say, bought the land from the U.S. Forest Service. Here is a map showing the close proximity of the forest areas, one to the other, the wilderness areas that are proposed or suggested for Missouri.

Now, what I want to point out by referring to the map is that we have designated wilderness areas in Missouri already. We have the Mingo Wilderness area with 8,000 acres, the Hercules-Glade Wilderness area with 12,300 acres, the Piney Creek Wilderness area with 8,400 acres, the Devil's Backbone Wilderness area with 6,900 acres, the Bell Mountain Wilderness area with 8,530 acres, and the Rockpile Mountain Wilderness area with 3,820 acres.

In the RARE II area we are considering today, we have the Irish Wilderness with 17,000 acres. Then we have potential wilderness areas: the Lower Rock Creek, Van East Mountain, Smith Creek, Swan Creek, Spring Creek, North Fork, Big Spring, Upper Jacks Fork, and the Cardareva Area.

The point I want to make with that, Mr. Speaker, is that the Devil's Backbone area is only 52 miles from Paddy Creek; Bell Mountain is only 65 miles away; Hercules-Glade is 73 miles; Rockpile Mountain is 88 miles; Piney Creek is 96 miles; Mingo Reserve is 108 miles; Spring Creek is only 42 miles from Piney Creek; Swan Creek is 60 miles; Big Creek is 68 miles; Anderson Mountain is 80 miles; and Irish Wilderness is 68 miles.

We do not need a wilderness in the Ozark Hills every 50 miles, 20 miles on one side of Houston, Mo., and 20 miles on the other side.

This is a basic topographic area that is beautiful. It is the rocky hills of the Ozarks, but it is no different. The springs are the same, the creeks are the same, and the valleys are the same.

Here are the facts, Mr. Speaker. Paddy Creek is about 6,000 acres. That is about 3 miles by 3 miles. It is about 3 miles east and west and 3 miles north and south. There are 28 miles of roads already constructed within this area. There are 18.9 miles of trails, including 700 or 800 blazed trees and a number of signs. There are 160 acres of private land in there.

The point of all this is that it is certainly no pristine area. There are fences. There is a sawmill located inside this wilderness area.

Now, the point is that I doubt if anybody else here knows that because they have not been there. Somebody from the U.S. Forest Service ran up a plan or they ran up a flag, somebody rallied around it and ran over here, and the two U.S. Senators, bless their hearts, said that we have got to have a wilderness in Missouri again, another wilderness area.

It is going to cost something. The gentleman from Oregon (Mr. SMITH) talked about the economic cost. It is the same in my area, only it is a teensy-weensy place with a few people making a small living from timbering in an area that is very small.

But it is going to cost $59,000 to $67,000 annually out of a school district that is called Plato, Mo., with a high school of 35 seniors and with a gymnasium that was built in 1938. It seems a lot to them.

It has got a potential of selling timber. Between 1965 and 1975 there were 11 timber sales, 3 million board feet, enough timber to build 300 homes. The potential growing stock is 21 million feet.

But is it pristine? Let us look at the facts. Thirty-seven percent of the area is covered with stands of saplings and small trees. Only 5 percent of the area has 99-year-old timber, and that is versus a U.S. Forest Service plan that calls for 10 percent of an area to remain in overmature trees.

There are 47 sawmills, headers, and stave mills surrounding the area, evidence of importance to the timber industry.

Is it a pristine area, Mr. Speaker? Guns from Fort Leonard Wood, Mo., the largest engineering training station in the United States, are 4 miles from Paddy Creek and you can hear the guns. You can hear the artillery. Let us not be sold on this bill of goods that this is a pristine area, that this is an area that we have been looking for, or that this is some area that some people have been just clamoring to make into a wilderness. It certainly is not. There are no endangered or threatened species, and there is no deterioration of the water. In fact, it is a beautiful area. It is an area that I am going home to. I am going home to be with it. I am going there, and I am going to say to the Members of the House that the Missourians are going to take care of it and they are going to take care of it better than if it were a wilderness designation.

Mr. H. O. McLaughlin testified at the hearing. I do not know how old he is. I suggest that he is an elderly man. Here is what he said:

H. O. McLaughlin. I'm H. O. McLaughlin, Plato, Missouri, Box 56, and there is something else, my zip code is 65552. My friends, I'm gonna change the tempo of this meeting just for a moment of history. And I'm not so sure that you're all, or probably any of you, are gonna agree with it or you're gonna like it. But there's been certain things said around this meeting that I didn't exactly agree with, and I didn't like it, but I took it on the chin, so that's just what's gonna happen, hah. My friends, in the Thirties, there was a study made and this study was for National Forest in our area. This land at that time and our people who lived in it were a people that had gone through a Depression. Money was so scarce, seventy-five cents a day was top wages, and you'd better be a good hand to be able to stay there ten hours or you couldn't hack it. Along come this Forest Service and led us to believe that they'd buy our land, they'd give us five dollars an acre for it. They bought most of it off the Courthouse steps or off the speculators that speculated on land, if they could buy it today for two dollars an acre and sell it tomorrow for two dollars and a quarter, they didn't give a damn who they sold it to. That's just exactly, they asked no questions. My friends, that encircled our area and many of our people that has died, have already gone, died with a grudge in their hearts that this happened to them because of land that was taken in and around about them that they had sold, dreamed of owning themselves if they ever could possibly. And to their dying day, they never got to own it, it belongs to the United States Government, and, friends, it went on. I know of only one, and they led us to believe at those meetings that, yes, we'll trade you land here where fences are a problem and this, and we'll swap around and we'll make it right with all of you . . . back in the Thirties when we were all broke, during drouths and there was a Depression that we couldn't do anything about, that's when this all started, here in our State of Missouri. And I had a grudge in my heart for a long time for the Forest Service. I couldn't hardly stomach it to save my life. But I've grown in the years to accept it.

□ 2220

He says he wants to be able to go back into the wilderness area. He wants to be able to drive his car, his pickup truck, back to the old home places of his friends in the wilderness area. He wants to be able to visit those places where there is a firebush growing now by an old homestead of the people that he knew and grew up with in the Paddy Creek area.

I think Congress needs to address itself sometimes more to a local constituency than the U.S. Senators do and that is what I am doing here today, Mr. Speaker. I am speaking for the small group of people, a minority if you will, of people who live in the local area of Paddy Creek who do not want this area designated as a wilderness.

Mr. EMERSON. Mr. Speaker, will the gentleman yield?

Mr. BAILEY of Missouri. I am happy to yield.

Mr. EMERSON. I would like to compliment my colleague from Missouri on his remarks. He has made a very eloquent statement about the Paddy Creek which lies in the district which he presently represents.

He and I have very strong feelings about some of the basic rules of comity which are not being applied here in the House of Representatives. I want to compliment the gentleman on his representation of his people and to say that I as one Representative from Missouri speaking to another intends to abide by the rules of comity and support the gentleman's position.

Mr. BAILEY of Missouri. I thank the gentleman very much.

I would like to add as far, of course, as we know the Farm Bureau and the forest products and the mining industries are opposed to this, the Texas County Courthouse, Democrats to a one, the presiding judge and the two associate judges. It is the local support that is unanimous.

Mr. YOUNG of Alaska. Mr. Speaker, will the gentleman yield?

Mr. BAILEY of Missouri. I am happy to yield.

Mr. YOUNG of Alaska. Mr. Speaker, I would like to compliment the gentleman in the well, Mr. BAILEY, and I compliment him because he is speaking on an issue he feels very strongly about. It will probably be the last time he will be on this floor for a period of time and we hope he will come back to us.

Mr. Speaker, I rise in strong opposition to S. 1965, the Paddy Creek wilderness bill. Designation of this 6,700-acre area as wilderness is unnecessary and unwarranted.

As the gentleman from Missouri (Mr. BAILEY) has pointed out, there is no shortage of wilderness areas in Missouri. Five national forest wildernesses already exist totaling 39,575 acres. Four of these areas were designated in 1980 by this Congress. The areas are scattered throughout the State and offer ample opportunities for people to "experience the wilderness." Adding another area will not change this situation but it will lock up an area currently being used by a wide variety of recreational users.

Paddy Creek is not a pristine area and should not have been considered for wilderness designation. There are numreous signs of man's presence in the area—roads, fences, manmade ponds, and evidence of timber harvests. It is time this Congress stopped arbitrarily drawing circles around areas and calling them wilderness when they do not come close to qualifying.

I urge my colleagues to respect the wishes of the gentleman from this area (Mr. BAILEY) and vote against the bill.

Mr. SEIBERLING. Mr. Speaker, I yield 2 minutes to the gentleman from Missouri (Mr. VOLKMER).

Mr. VOLKMER. Mr. Speaker, I rise in strong support of S. 1965, to designate the Paddy Creek area in Missouri as a component of the National Wilderness Preservation System. This area contains about 6,900 acres of land in Texas County, Mo. The land lies around the Little Paddy and Big Paddy Creeks, and is part of the Mark Twain National Forest.

By congressional mandate, the Paddy Creek area was made a wilderness study area in 1976. The 5-year study period has now ended, and the Forest Service has recommended that the area be placed in the wilderness system. I fully support this recommendation, and urge my colleagues to adopt this legislation.

Mr. EMERSON. Mr. Speaker, will the gentleman yield?

Mr. VOLKMER. I yield to the gentleman what little time I have.

Mr. EMERSON. I want to say to the gentleman he is talking about percentages of land and percentages of the national forest and wilderness. I think that is important but I think we also have to look to the views and the attitudes of the local people and what they think about it.

The gentleman here has spoken saying the Texas County Court is in opposition to this. It is the highest elected body in Texas County and I think their opinion ought to have some weight.

Mr. VOLKMER. I would also like to comment there are many people in Texas County who do support this designation and I believe the gentleman from Missouri who spoke previously would have to admit that. I believe if you go back and look at the comments during the time the comment period was opened on the RARE II study it was overwhelmingly in favor of this designation.

Mr. SEIBERLING. Mr. Speaker, I yield myself 3 minutes.

Mr. Speaker, I just want to call attention of the Members again, as emphasized already by the gentleman from Missouri (Mr. VOLKMER) if you looked at the map the gentleman from Missouri (Mr. BAILEY) had beside him when he spoke you can see that the total national forest land in Missouri is a very, very small fraction of the total State of Missouri.

Then if you consider the fact that the proposed wilderness areas when added to all of the other wilderness areas in the State would be only 4.5 percent of that forest land you can begin to see that we are talking about an extremely small percentage.

As the gentleman from Missouri, Mr. VOLKMER, pointed out, it is one-half of 1 percent of the land in Missouri.

But that land is Federal land. It belongs not only to all of the people of Missouri but to all of the people of the United States. It makes a mockery of that to say that we are interfering with the land of the local people. They happen to live there but the land is land that belongs to all of the people of the United States.

This has been supported not only by both Senators from Missouri on both sides of the political aisle but it is supported by other Members of the Missouri delegation in the House. It is supported by most of the newspapers in Missouri. It is supported by the Missouri Wilderness Coalition who has probably more people in it than all of the people that live in the county affected.

But I would like also to say that it is not correct to say that the people in that county are unanimously opposed to this. I have a petition here signed by 44 residents of the area in question. Some of them live within a half a mile of the proposed wilderness.

Here is what it says:

We, the following people of the Roby community would like to see our area known as Paddy Creek protected under the Wilderness Bill for future generations. Some of us work in the timber industry and believe that surely we can afford to set back this 6,858 acre area. We are tired of seeing acre after acre clear cut, we have often thought how nice it would be to have Paddy Creek with all its unique caves, springs, and rock formations set aside for our enjoyment and future generations to come.

Creaston, Ben Craft, Daisy Kimrey, Eula Kimrey, Hugh Becht, Steve Elliott, Phyllis J. Mace, Leon Mace, Harold Elliott, Ollie Elliott, Bess Hutchison, Carl Hutchison, Carmen Elliott, Wilson Elliott.

□ 2230

Now, it is true, as the gentleman has said, that I have not been to Paddy Creek. I would love to go. As the gentleman from Alaska knows, I love to go to wilderness areas, hike in them, see their natural splendor.

But here we have an overwhelming support within his own home State. We have support of both Senators, passed the Senate unanimously. We have support of other members of the delegation. And we have support of people who live in that area.

I respect the gentleman's right to differ in the views of the majority or the minority. But I have to say that this is not an open-and-shut situation. It is one where both local people and people in the State as a whole favor this legislation. And I strongly urge our colleagues to support it.

Mr. YOUNG of Alaska. Mr. Speaker, I know it is late and everything else. Again, I want to state this is supposed to be a representative form of government. I am getting tired of listening to what the Senators want or believe in. This is not the Senate. It is the House. And the Senate has its rights, yes. But this gentleman—the gentlemen here represent those areas.

The key to this type of government, if they do not represent them correctly, they are no longer elected. But to say it is in the collective interest, in the national interest, the senatorial interest, is doing a disservice to the House and the committee I serve on.

It is ironic to me the good chairman, who will refer to the Senators today with great love, but at the same time can say the Senators have done the wrong thing in the committee all the time. You cannot have your cake and eat it too.

This is the responsibility of this House. And the delegate represented from that area, elected from that area, has the responsibility of speaking for those people in the majority, and that is what he is doing, and the majority should be listened to in both cases.

I can just say to my colleague those that signed that petition, if you check out their membership, the Sierra Club or the Friends of the Earth, they belong to them all. That serves their philosophy. They have the right to do that. Let us not kid ourselves in this body. Let us recognize it for what they are.

Mr. Speaker, I strongly oppose this legislation. All I can say is one of the gentleman who spoke in favor of it, I do not believe he has 1 acre in his district in wilderness. It is all in someone else's district. I think that is the incorrect way to handle things. If people want wilderness in their area they should support and promote it, but do not put it in somebody else's backyard.

Mr. SEIBERLING. Mr. Speaker, I also mentioned that Members of the House delegation support this legislation.

Mr. YOUNG of Alaska. No one from the House delegation from that district. And that is the difference. The district the wilderness is being proposed, the district of the gentleman from Missouri (Mr. EMERSON), the district of the gentleman from Missouri (Mr. BAILEY), they oppose it. They are elected by those people. If they did not do the job correctly, then in fact they should be unelected.

Mr. SEIBERLING. If I would follow the reasoning of the gentleman, I would infer the reason Mr. BAILEY will not be with us next year is because he did not support this wilderness.

Mr. YOUNG of Alaska. He carried the county. That ought to tell the gentleman something. He carried the county. They do not want the wilderness area.

Mr. SEIBERLING. I do not make that inference, because I am sure there were other issues. Nevertheless that shows the fallacy of the gentleman's argument.

Mr. YOUNG of Alaska. There is no fallacy. He carried the county. When you have a representative form of government you have to start listening.

Mr. Speaker, I have to say this again and again. This body is slowly evolving into a directed body of dictatorship from those who have the power and not from those who are duly elected from the areas.

"In the national and collective good." I hate that word "collective." There is no such thing as collective good when you have a representative form of government. There is no such thing as national importance when you have a representative form of government.

Now, if we are not going to have a representative form of government, let us forget it. Let us let the White House run the whole thing, or let the Senate run the whole thing. But this body is doing itself a great disservice when we continue to disregard the interest of that specific area, especially in the utilization of resources that affect the employment of people.

It is unfortunate. I have been through this thing for 12 years. I watched my State lose 147 million acres of land in the national interest. The national interest for what? For what? There was no national interest. It was Federal land. It could be federally managed. But, no, we had to make it park and wilderness, and those Alaskans should not have the right to utilize the lands as in the past.

Yes; if they create Paddy Creek Wilderness, those people who want to go back in and see their homesteads will not be allowed to because they cannot walk that far, because they are up in their years. They cannot use those roads or visit those mills. That is what I am objecting to. There is no other value in there, there is no threat to this area.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Ohio (Mr. SEIBERLING) that the House suspend the rules and pass the Senate bill, S. 1695.

The question was taken.

Mr. YOUNG of Alaska. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to the provisions of clause 5, rule I, and the Chair's prior announcement, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mr. SEIBERLING. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the Senate bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

COMMUNICATION FROM CHARLES TIMOTHY FRIEDMAN, JR.

The SPEAKER pro tempore laid before the House the following communication from Charles Timothy Friedman, Jr.:

DECEMBER 13, 1982.

Hon. THOMAS P. O'NEILL, Jr.,
Speaker, House of Representatives,
Washington, D.C.

DEAR MR. SPEAKER: This is to notify you, pursuant to Rule L (50) of the Rules of the House of Representatives, that I have been served with a subpoena issued by the United States District Court for the District of Columbia.

Sincerely,

CHARLES TIMOTHY FRIEDMAN, Jr.

THE NUCLEAR FREEZE DEBATE

Mr. DORNAN of California. Mr. Speaker, I find myself in the closing days of the 97th Congress again in a very frustrating situation because of the last hour and so many of my distinguished colleagues on the House floor desiring to pay respect to some of my hard-working colleagues who are retiring from distinguished service here. I should take the full 60 minutes of this special order because of the critical nature of the subject, the value or feasibility of a nuclear freeze, and past Soviet arms control behavior.

Instead I will endeavor to go speedily through information that I would like to make available to the Members and include an open letter that I wrote to one of the more talented actors in the America firmament of film stars, not our great President, but that fine citizen of Connecticut and California, Mr. Paul Newman. In my letter to Paul I enclosed 67 instances of Soviet violations and deceptions of arms control treaties that are not generally known by even our brightest citizens. The nuclear freeze this summer and fall was based on so much misguided idealism, bad information augmented by deliberate disinformation by citizens not of the United States, that I cannot fault Mr. Newman and other concerned Americans who operate virtually in the blind. The freeze was defeated in Arizona and the vote was close only in California because of the efforts to get the truth out to the American public by well-informed private citizens such as Mr. Martin Coleman from Pacific Palisades. So here are the facts, folks. No more claims of naivete will be accepted.

Mr. Speaker, the nuclear freeze issue and movie star Paul Newman's naive claims on Soviet treaty compliance prompted me to direct my staff to study Soviet ARMS control behavior. This research led to an open letter to Mr. Newman which includes a documented partial list of Soviet violations, deceptions, and other measures to circumvent arms control agreements, tonight, this information is being submited to the RECORD.

U.S. Government policy has been to either deny or accept these constant Soviet efforts to evade arms control limitations. I am urging President Reagan to release any information of Soviet arms control "violations" that will not compromise our intelligence-gathering procedures. It is my belief that if the American people are given the facts, they can informatively evaluate the Soviet past as a guide to help determine the future course of U.S. foreign policy.

America should have realistic expectations about the value of arms control in meeting U.S. national security requirements. Arms Control has three main objectives for the United States: First, lower the chance of war; second, reduce the devastation of war; and third, reduce military budgets. Unfortunately, these objectives can conflict with each other. Giving away a needed system in an arms control agreement may reduce the military budget, but increase the chance of war due to unpreparedness. Agreeing to build a defensive system may lower the chance of war and devastation of war, but it can increase the military budget.

The United States has increased defense needs due to the documented massive Soviet military buildup. This can be countered by reducing Soviet offensive threats and/or by increasing U.S. defenses. Arms control attempts to reduce U.S. defense needs by reducing the Soviet threat. If the Soviets have no desire to reduce their military threat to the United States, a good arms control agreement will be difficult to negotiate and have limited utility. Arms control is only possible in areas where both sides are interested. Limiting the possiblities of accidental war is in both nation's interest and hence agreements in this area are attainable and useful.

The Reagan administration's attempts to achieve worthwhile arms control agreements show good faith and our willingness to reduce—not merely freeze—the defense needs of both sides. Unfortunately, if you look at past Soviet arms control behavior, the possibilities for many mutually beneficial agreements appear remote.

The Soviets have different objectives in arms control than the United States. Rather than use the process to allow for reductions on both sides, the Soviets see arms control as a way to obtain unilateral advantage. Talks are often used as a trap to delay or retard American counters to Soviet actions. Talks can be a stalling tactic. Promising an agreement can help the antidefense groups in the United States.

The Soviets attempt to reduce those categories of arms where the United States has the advantage.

Agreements are signed with every intention of cheating where possible and using all carefully worded loopholes to the utmost advantage.

An agreement may be reached with the United States to stop our momentum in a certain area, luring us into a false sense of security, with every intention of breaking out of the agreement when it appears they can catch up or pass us in doing so. The Soviets did this when they broke the moratorium on testing nuclear weapons in the atmosphere in September 1961.

Another reason for arms control, in the Soviet view, is for information gathering. The Soviets never issued a data base in the SALT I process. A data base is simply a fair statement of what armaments they have. The Soviets learned what we thought they had be negotiating on the basis of U.S. figures.

The point is, it is difficult to get a worthwhile agreement under these circumstances. A good, verifiable, enforceable agreement is desirable. An agreement that lacks any one of these three key elements is not worth the paper it is written on. The naive belief that a nuclear freeze with the U.S.S.R. would make the world safer is not based on these realities but on wishful thinking. A nuclear freeze that is not based on equality lacks all three elements essential for a desirable agreement.

Let us briefly analyze the problem of verifying a freeze.

To put it simply, it is easier to hide than to find—deception, camouflage, mobility, a closed society, the small size of nuclear weapons, and the ability to store components of a nuclear weapon—which could be quickly assembled for a launch—makes adequate verification by national technical means extremely difficult.

An immediate freeze agreement, even if it was verifiable and enforceable, would not be a good idea because of the adverse military imbalance.

Soviet missile advantages are actually understated. So-called experts look only at deployed, SALT-counted launchers. The Soviets have thousands of additional nondeployed ICBM's that could attack the United States.

The point is, although deployed Soviet ICBM numbers appear to remain constant—only the deployed missiles are remaining constant. Nondeployed missiles can be fired and the

Soviets are building 200 ICBM's every year. We are building none.

Comparing U.S. static numbers to U.S.S.R. static numbers is also misleading because Soviet ICBM's are generally larger and more capable—that is, more warheads—than U.S. ICBM's.

Although most people do not see the SS-20 IRBM as a threat to the United States, this missile has the capabilty to hit America, according to former Secretary of Defense Melvin Laird. There are 340 SS-20 launchers deployed with 3 warheads each and at least 1 reload per launcher.

The limited antiballistic missile defense capability around Moscow further increases the Soviet missile advantage. Soviet ABM (antiballistic missle) capable SAM's—surface to air missiles—also reduce U.S. missile penetration capability. Remember, the United States has no ABM's. None.

First strike advantage: Most if not all U.S. ICBM's can today be destroyed by only 25 percent of the deployed Soviet ICBM force. Hence if a war started, the Soviets would have a lot more power than appears on the surface—and the United States would have much less.

Mr. Speaker, Soviet submarine missile strength is also underestimated. The United States has 520 SLBM's (submarine launched ballistic missiles) in the active fleet. The U.S.S.R. is only allowed 950 SLBM's under SALT but actually has more because older SLBM's of the U.S.S.R. are not counted.

The U.S.S.R. also has 50 nuclear-powered and 20 diesel-powered subs that carry cruise missiles. That's right, Mr. Speaker, cruise missiles. Most of these are nuclear capable and could be used against the territory of the United States, but are not considered strategic and are ignored in SALT agreements.

The majority of Soviet SLBM's (SS-N-8 and SS-N-18's) have ranges that allow the subs to launch from protected waters so that it is nearly impossible for U.S. ASW (antisubmarine warfare) to neutralize or destroy them.

The Soviets have over 80 ballistic missile carrying subs and over 150 subs that carry some kind of ballistic missile or cruise missile. The United States has less than 100 nuclear- and diesel-powered attack submarines to hunt down those Soviet subs.

The United States has only 32 ballistic missile carrying subs and no, repeat no, cruise missile subs capable of attacking the Soviet Union. Only 19 of our ballistic missile subs may be out of port at any one time—to be hunted down by over 190 Soviet attack submarines.

Contrary to popular beliefs, the Soviets also have a bomber advantage.

U.S.S.R.: 150 long-range Bear and Bison strategic bombers; 180-plus long-range Backfire strategic bombers (the Soviet B-1); 80-plus other Bear and Bison long-range aircraft; and 740-plus Badger and Blinder medium-range bombers.

United States: 213 B-52's armed for nuclear strategic missions (only some 60 are actually on ground alert with a chance to survive a first strike) and 6 FB-111 medium-range fighter-bombers, actually designed as an all-purpose tactical air command fighter.

What could have been:

B-1 PROCUREMENT PROGRAM, AIR FORCE ESTIMATE

	Buy	Deliveries
Fiscal year:		
1977	3	
1978	5	
1979	13	1
1980	27	4
1981	42	15
1982	48	40
1983	48	48
1984	48	48
1985	6	48
1986		36
Total	240	240

The Soviet bomber advantage is even greater than these numbers because of the asymmetry in air defense. We cannot stop most of their bombers although our Air National Guard and Air Reserve pilots are top notch, as good as active duty pilots. There are simply not enough fighter jocks to go "up and at 'em."

In the 3 years following ratification of the ABM Treaty in 1972, the United States phased out the bulk of its continental air defenses. The Department of Defense stated that with only limited ABM deployment allowed, the utility of air defense in a major attack on the United States is restricted. Our SAM defenses were deactivated years ago and only a token force of 6 USAF squadrons, 108 obsolescent F-106 interceptors, plus some 200 Air National Guard and Canadian aircraft, as Secretary of Defense Donald Rumsfeld said, to "insure the sovereignty of our air space in peacetime." The last SAM site dedicated to the defense of the continental United States was withdrawn from Florida in 1979, just when Cuba was increasing its capability to threaten the southern United States with its new Mig-27 fighter bombers.

The point is hundreds of Soviet bombers are a serious threat to the United States and our allies. The bombers would be essentially unopposed in the United States. It has been estimated that, God forbid it, if war were to strike, almost one-half of the radioactive contamination of the United States would result because the United States has abandoned its air defenses and most Soviet bombers could penetrate unopposed to their targets. Restoration of even a rudimentary air defense would eliminate most of this potential contamination.

In contrast, there are some 10,000-plus SAM launchers and 2,500 interceptor aircraft deployed in the U.S.S.R. These air defenses are continually being modernized.

The effectiveness of the U.S. bomber force depends upon how it is designed to penetrate these Soviet defenses. Because the B-52 has a declining expectancy of penetrating the Soviet air defenses, the B-1 Peacemaker II was specifically designed for this penetration mission. A problem, of course, is that since President Carter killed the B-1, we will not have a new bomber, the B-1B until 1986. While the B-52 must carry us through this decade of vulnerability, the young crews have told me personally that it would be suicide to go into combat in a B-52, virtual U.S. kamikaze missions. Now a brief look at the asymmetry in civil defense.

The importance the Soviets attach to this program is indicated not only by the amount of resources devoted to it, but by the appointment of a Deputy Minister of Defense to head the program. And that was some 10 years ago.

The scope of the civil defense program is such that a very high Soviet official said:

> In our country, there is not one economic branch or area of social endeavor that is not in one way or another associated with civil defense.

The source for this quote is the "Civil Defense Review" hearings by the civil defense panel of the Subcommittee on Investigations of the Committee on Armed Services (U.S. House of Representatives, 1976, p. 191).

The Soviets protect 10 to 15 percent of their people in cities of over 25,000 population with blast shelters. The Soviets plan to evacuate and disperse their unprotected population that is in potential target areas. The evacuees will live in their assigned resettlement area where they will be fed and either provided with a fallout shelter or put to work building an expedient one. Contrary to Soviet propaganda which claims a war is not survivable, translated Soviet civil defense manuals say that this evacuation and dispersal of people can reduce deaths in a nuclear war to 3 to 4 percent of the population.

The Soviets also plan to take strong measures to better protect their industry. Boeing Aircraft Co. ran tests of these measures from translated Soviet civil defense manuals. Boeing found that packing critical machinery in sandbags would be fully adequate for Soviet factories since it would protect against fire, debris, and anything but a direct nuclear explosion—up to 80 psi in that awful nuclear effects lingo.

As far as the recovery asymmetry, it was calculated that the Soviets could recover from a nuclear war, war initiated by the Soviets after taking these

civil defense measures, in 2 to 4 years—it would take the United States 3 to 6 times longer to recover.

The casualty asymmetry is also frightening. The United States would lose 10 to 30 times as many people in such a Soviet initiated war as the U.S.S.R. The exact difference is unknown but there is no doubt though that the Soviets would have millions less die than the United States because they have a civil defense program and we do not, even though they start with a current population of 267½ million citizens to our current 232½ million—35 million more citizens than the United States.

The main point of all this comparison between the United States and U.S.S.R. is too show that the United States which had parity with the U.S.S.R. if not superiority when the SALT process began—has fallen behind. The SALT I "freeze" did not prevent the Soviet buildup. The SALT II call for equal levels of "strategic nulcear delivery vehicles" or launchers did not and could not stop or even slow the Soviet buildup across the whole range of conventional and nuclear weapons.

Mr. Speaker, the arms control approach of the past that compared forces on the basis of launchers is fatally flawed as candidate Reagan said in the 1980 Presidential race. The number of launchers on both sides is meaningless. Counting 318 heavy Soviet ICBM launchers such as the SS-18 as equal to 318 U.S. Minuteman launchers is like having a naval agreement and allowing the Soviets 318 aircraft carriers and allowing the United States 318 coastal PT boats.

This whole arms control approach fails to recognize the dynamics of the offense versus the defense, ignores the fact that the Soviets do not keep these agreements very well, and has limited the ability of the United States to defend itself in the ABM Treaty.

Yes, the United States should do everything possible to attempt to reduce or take away the Soviet military threat—through negotiations—but the threat is real and growing every day. We must act to reduce the threat by maintaining an adequate defense, as we talk, talk, talk, honestly and vigorously in attempts to reduce the threat.

Mr. Speaker, history is our only guide to the future and those who ignore history are condemned to relive it, especially painful and bloody history. The record shows arms control as practiced by the United States over the last 10 years failed to check the ongoing awesome Soviet military buildup. The well-intentioned freeze advocates remind me of Neville Chamberlain's naive offer of the Sudetenland to Hitler in 1938. "Peace for our time" was proclaimed, followed shortly by World War II. "Peace through strength" can be the only way to insure survival of the free world as we move through the unchartered and incredibly dangerous times ahead.

I recommend to my colleagues that they read my letter to Mr. Newman including the partial list of Soviet violations included in my remarks at this point.

OPEN LETTER TO PAUL NEWMAN

Dear Paul, while most people realize that the Soviet Union cannot be trusted to keep arms control agreements, it is understandable why you feel the Soviets abide by treaties. If one were to look only at official U.S. statements on Soviet violations, it may appear that the U.S.S.R. has a good track record in complying with arms control agreements. There are three main reasons why this false impression has persisted and why people of good will such as yourself have been taken for a ride.

First, in order to obtain Soviet agreement on a Standing Consultative Commission (SCC) for airing alleged SALT violations, the U.S. had to agree that the proceedings would be "confidential." Hence, open official U.S. disclosure of Soviet SALT violations is rare.

Second, U.S. intelligence agencies often feel that it is best not to "go public" with successfully determined information of Soviet military activities. Announcing our knowledge of those activities may lead to changes in Soviet camouflage, concealment, and deception (CCD) procedures which could reduce our ability to ferret out such activities in the future.

Third, if an administration supports an arms control agreement, an announcement of Soviet violations would be an admission of a failure in its arms control policy, and hence call into question the success of its overall foreign policy. This leads administrations, Republican or Democratic, toward a policy of ignoring or, much worse, explaining away Soviet violations. For exmple, according to the U.S. Arms Control and Disarmament Agency (ACDA), the Soviets proposed and the U.S. accepted a "Mistakes Understanding" concerning any violations of the Threshold Test Ban Treaty. The understanding was that "one or two slight, unintended breaches per year" are not to be considered violations.

For these three reasons, there are few official and public U.S. Government documentations of Soviet arms control violations. One does not need to look very hard though, to find numerous reports of Soviet violations, deceptions, and calculated measures to circumvent arms control limitations. Soviet activities have been uncovered by many officials, both in and out of our government. So that debate on the value of arms control can be based on reality and not on naive misperceptions, I am enclosing a partial list of Soviet "violations" that have been reported publicly. In addition, there are many violations that are known only by intelligence officials. And obviously, there are additional violations that are unknown even to Allied intelligence officials, i.e. cases where the Soviets have cheated so cleverly that they have not been caught. After all, our intelligence forces are not perfect.

The following list gives a short description of Soviet Violations, Deceptions, and calculated measures to Circumvent arms control limitations (VDC's) and lists sources that report or discuss the specific Soviet action and/or capability. For more information on a particular Soviet VDC, see the relevant arms control agreement and the sources.

The list is organized as follows: Soviet VDC's are presented; then VDC's of other arms control agreements are outlined.

Note that each VDC is numbered for reference purposes only. The numbers represent different types of VDC's, not the total quantity of all VDC's. For example, violation number one mentions the illegal deployment of 18 SS-9 ICBM's. Each SS-9 was a separate violation, for a total of 18 violations.

SALT

Violation: (1) SS-9: illegal deployment of 18 SS-9 heavy ICMBs at Tyuratam test range during SALT I. This violated the SALT I limitation on ICBM launchers.

Source: David S. Sullivan, Soviet SALT Deception, Coalition of Peace Through Strength, 1979, p. 7; Senator Jake Garn, "The Suppression of Information Concerning Soviet SALT Violations by the U.S. Government," Policy Review, No. 9, Summer 1979, p. 23; Senator Gordon J. Humphrey, "Analysis and Compliance Enforcement in SALT Verification," International Security Review, v. 5, Spring 1980, p. 4; "Soviet Violations of Arms Control Agreements," National Security Record, No. 45, May 1982, The Heritage Foundation, p. 2; Senator Steven Symms, Congressional Record, May 27, 1982, p. S 6357.

Violation: (2) SS-11: deployment of this missile at a SS-4 Medium Range Ballistic Missile (MRBM) site is an instance of attempted deception and is a violation of the SALT I Treaty.

Source: Humphrey, p. 6; "Soviet Violations of Arms Agreements," p. 2; Sullivan, p. 7.

Violation: (3) SS-16: deployment of 40-220 of these mobile ICBMs violates SALT II Provisions banning mobile ICBMs and violates SALT II limits on Strategic Nuclear Delivery Vehicles (SNDV's).

Source: Humphrey, pp. 5, 7, 12; Sullivan, Soviet SALT Deception, p. 4; David Sullivan "A SALT Debate: Continued Soviet Deception," Strategic Review, v. 7, Fall 1979, p. 32, David Sullivan, "Lessons Learned From SALT I and II: New Objectives for SALT III," International Security Review, Vol. VI, No. III, Fall 1981, pp. 362, 368; "Soviet Violations of Arms Agreements," p. 2; Garn, p. 31; Michael Getler, "Government Experts Challenge Reports of Sovet SALT Violations," Washington Post, April 9, 1982; Secretary of State Cyrus Vance, "SALT ONE: Compliance," The Department of State Selected Documents, No. 7, February 1978, p. 10; "Soviets Violate SALT II," Human Events, April 17, 1982, p. 3.

Violation: (4) SS-17: this ICBM was one of the heavy missile replacements for the light SS-11 ICBM. The SS-17 carries four times the warheads of a SS-11 and three to four times the throw weight. These replacements violate SALT I provisions prohibiting replacement of light ICBM launchers with heavies.

Source: "Lessons Learned From SALT I and II: New Objectives for SALT III," p. 365; Lawrence K. Orr, "Soviet Violations of SALT I," Issues in Brief, November 16, 1979, pp. 2, 3, 4; Michael B. Donley, ed., The SALT Handbook, The Heritage Foundation, 1979 p. 62; M. Stanton Evans, "How We Ignore Moscow's Treaty Violations," Human Events, June 19, 1982, p. 7; Garn, pp. 14-20; Soviet SALT Deception, p. 3; Humphrey, p. 7.

Violation: (5) SS-18: encoding of telemetry for this missile violates the agreements in both SALT I and SALT II to refrain from

interfering with national technical means of verification.

Source: Soviet SALT Deception, p. 7; "Soviet Violations of Arms Agreements," p. 2.

Violation: (6) SS-18: Rapid reload and refire exercises for the SS-18 have been reported; these exercises violate SALT II provisions prohibiting rapid reloads for ICBM's.

Source: Symms, p. S 6357; Clarence A. Robinson, Jr., "Soviet SALT Violations Feared," Aviation Week, September 22, 1980.

Violation: (7) SS-19: this ICBM was one of the heavy replacements for the light SS-11 ICBM. The SS-19 carries six times the warheads and three to five times the throw weight of a SS-11. Deployment of the SS-19 violates SALT I provisions prohibiting replacement of light ICBM launchers with heavies.

Source: Donley, p. 62; Orr, pp. 2-4; "Lessons Learned From SALT I and II: New Objectives for SALT III." p. 361; Evans; "Soviet Violations of Arms Agreements," p. 2; Vance, p. 5; Robert J. Einhorn, "Treaty Compliance," Foreign Policy, Winter 1981-82, p. 30; Geoffrey Levitt, "Problems in the Verification and Enforcement of SALT Agreements in Light of the Record of Soviet Compliance With SALT I," Harvard International Law Journal, Vol. 22, No. 2, Spring 1981, pp. 385-386; Garn, pp. 14-20; Soviet SALT Deception, pp. 1-3, 5; Humphrey, pp. 3, 4, 7, 8, 14.

Violation: (8) reintroduction of ICBM equipment to deactivated complexes: these measures violate dismantling or destruction requirements of the SALT Treaties.

Source: Humphrey, p. 13; Air Force magazine, January 1979, p. 18; "Soviet Violations of Arms Agreements," p. 2.

Violation: (9) SS-NX-19: this sea launched cruise missile (SLCM) has had its telemetry encoded during tests which violates the agreements in both SALT I and SALT II forbiding interference with the national technical means of verification of the other party.

Source: Symms, p. S 6357; David S. Sullivan, The Bitter Fruit of SALT: A Record of Soviet Duplicity, Texas Policy Institute, (reprinted in the Congressional Record; May 13, 1982, p. S 5178.)

Violation: (10) SS-NX-20: encoding of telemetry for this sea launched ballistic missile (SLBM) violates both the SALT I and SALT II accords on non-interference with national technical means of verification.

Source: "Soviet Violations Feared;" Daniel Southerland, "Are Soviets Violating SALT II Guidelines?" Christian Science Monitor, May 12, 1982, p. 1; Symms, p. S 6357.

Violation: (11) excess old ICBM launchers were not dismantled as required with additional deployments of new SLBM launchers. In 1976 the Soviets admitted they were over the SALT I freeze limit and acted to rectify the situation after much delay. This violation consisted of going over the SALT I freeze limit by 41 launchers.

Source: Orr, pp. 2, 6; "Soviet Violations of Arms Agreements," p. 2; Humphrey, pp. 4-13; Soviet SALT Deception, p. 7; Garn, p. 21; Levitt, p. 390; Vance, p. 7.

Violation: (12) III X launch control silos: the Soviets built 150-200 of these silos in violation of the SALT I freeze on ICBM launchers.

Source: Vance, pp. 4-5; Levitt, p. 386; Clarence A. Robinson, "Soviet Violations Detected," Aviation Week, October 21, 1974; Colin Gray, "SALT I Aftermath: Have the Soviets Been Cheating?" Air Force magazine, November 1975; Garn, p. 22; Humphrey, p. 8; "Soviet Violations of Arms Agreements," p. 2; Orr, pp. 2-3.

Violation: (13) over SALT I limits on nuclear ballistic missile submarines (SSBNs): the Soviet violated the SALT I limit of 62 SSBNs. Some sources say the Soviets have more than 68 strategic submarines.

Source: Orr, pp. 2, 6; "Soviet Violations of Arms Agreements," p. 2; Humphrey, p. 7; Soviet SALT Deception, p. 4.

Violation: (14) SS-N-12: deployment of this sea launched cruise missile (SLCM) violates the protocol to the SALT II Treaty which prohibits deployment of SLCMs with ranges over 600 kilometers.

Source: The Military Balance 1982-1983, The International Institute for Strategic Studies, London, 1982, lists two range figures for this SLCM: 550 kilometers and 1,000 kilometers; perhaps there are two versions of this SLCM.

Violation: (15) SS-N-3: deployment of this SLCM violates the protocol to the SALT II Treaty which prohibits deployment of SLCMs with ranges in excess of 600 kilometers.

Source: The range of this SLCM is 840 kilometers according to Donley, p. 132.

Violation: (16) development of a tactical ABM has violated the ABM Treaty.

Source: Humphrey, p. 2.

Violation: (17) ABM radars on Kamchatka: this 1975 deployment violated the ABM Treaty of 1972. The Soviet Union merely informed the U.S. that Kamchatka had always been an ABM test site, and deployment of ABM radars at ABM tests sites was allowed. The problem here was that the Soviet Union did not tell the U.S. that Kamchatka was an ABM site when the ABM Treaty was signed.

Source: Garn, p. 25; Vance, p. 6; Orr, p. 10; Levitt, p. 383; Humphrey, p. 3; "Soviet Violations of Arms Agreements," p. 2; Soviet SALT Deception, p. 5; William R. Van Cleave, "SALT on the Eagle's Tail," Strategic Review, Spring 1976, p. 50.

Violation: (18) blinding U.S. satellites with ground based lasers: this violates the SALT provisions that prohibit interference with national technical means of verification.

Source: Levitt, p. 388; Vance, pp. 9-10; Orr, pp. 5, 12; Philip J. Klass, "Anti-Satellite Laser Use Suspected," Aviation Week, December 8, 1975, p. 12.

Violation: (19) SA-2: tests of this surface to air missile (SAM) in an ABM mode has violated the ABM Treaty.

Source: Garn, p. 26; Melvin Laird, "Arms Control: The Russians are Cheating," Reader's Digest, December 1977. (Laird was Nixon's first Secretary of Defense.)

Violation: (20) failure to dismantle excess ABM test range launchers as required by the SCC violated the ABM Treaty.

Source: Soviet SALT deception, p. 7; Humphrey, p. 2; Levitt, pp. 389-390; Vance, p. 6.

Violation: (21) testing a movable ABM: these tests violate the ABM Treaty.

Source: Garn, p. 25; Vance, p. 10; Orr, p. 9; Laird, p. 4; "Soviet Violations of Arms Agreements," p. 2; Humphrey, p. 2; Van Cleave, p. 50.

Violation: (22) deployment of ABM battle management radars: introduction of these radars violates the ABM Treaty.

Source: Orr, p. 9; "Soviet Violations of Arms Agreements," p. 2; Humphrey, p. 2.

Violation: (23) SA-5: tests of this SAM in an ABM mode has violated the ABM Treaty.

Source: Humphrey, p. 2; Soviet SALT Violations Feared;" Soviet Violations of Arms Agreements," p. 2; Levitt, p. 381; Orr, pp. 8-9; John D. Lofton, "Top Military Man at SALT Calls it Quits," Battle Line, July 1979; Robert Hotz, "The Case Against Kissinger," Aviation Week, December 8, 1975; Vance, p. 10; Einhorn, p. 30; Garn, p. 26; Laird.

Violation: (24) SA-10: tests of this SAM in an ABM mode has violated the ABM Treaty.

Source: Humphrey, p. 2.

Violation: (25) Backfire: this bomber (which is not counted as a heavy bomber in the SALT II Treaty) has carried the AS-6 strategic (range over 600 kilometers) air launched cruise missile (ALCM); this violates the SALT II provision that prohibits non-heavy bombers from carrying strategic ALCMs.

Source: "Soviet Violations of Arms Agreements," p. 3; "Soviet SALT Violations Feared," Getler; Donley, p. 123.

Deception: (26) SS-11: deployment of this missile at a SS-4 MRBM site is an instance of attempted deception.

Source: Humphrey, p. 6; "Soviet Violations of Arms Agreements," p. 2; Soviet SALT Deception, p. 7.

Deception: (27) SS-16: this mobile ICBM was tested at night (in 1976) for deception purposes. Tests of the SS-16 have occurred above the arctic circle (not a common practice) to conceal information from U.S. monitors.

Source: Soviet SALT Deception, p. 4; Garn, p. 31; Getler; "A SALT Debate: Continued Soviet Deception," p. 32; Southerland, pp. 1, 14; "Soviets Violate SALT II," p. 3; "How Russia Hides Its Missiles," Foreign Report, published by the Economist newspaper limited, London, March 5, 1981, p. 3; "Lessons Learned From SALT I and II: New Objectives for SALT III," pp. 362, 368; Orr, p. 12.

Deception: (28) encoded telemetry: many Soviet missile tests have used this illegal (according to SALT) deception to make it difficult to determine the size number, and type of warheads.

Source: for reports of encoding (or encryption) of telemetry for the SS-18, SS-NX-19 and SS-NX-20 see Soviet SALT Deception, p. 7; "Soviet Violations of Arms Agreements," p. 2; Symms, p. S 6357; The Bitter Fruit of SALT: A Record of Soviet Duplicity, (in the Congressional Record, May 13, 1982, p. S 5178); Southerland, p. 1; "Soviet Violations Feared."

Deception: (29) the Soviet Union falsified the number of SSBNs and SLBMs deployed and under construction at the time of the SALT I freeze.

Source: Humphrey, p. 4; Soviet SALT Deception, p. 3; "A SALT Debate: Continued Soviet Deception," pp. 31-32; "Lessons Learned From SALT I and II: New Objectives for SALT III," p. 362.

Deception: (30) AS-3 and AS-6: Under SALT II, bombers that carry strategic ALCMs must be counted under Multiple Independently targeted Reentry Vehicles (MIRV) limits. The Soviets deceptively made the claim that none of their ALCMs had strategic range, so none of their bombers are counted as MIRVed. This claim is false since the AS-3 and AS-6 ALCMs are both strategic.

Source: Donley, p. 126; Soviet Military Power, the Department of Defense, p. 61; "Soviet Violations of Arms Agreements," p. 3.

Deception: (31) Bear: 105 of these heavy bombers are configured to carry the AS-3 strategic ALMC. The Soviets deceptively

claimed no MIRVed heavy bombers in the SALT II data exchange.

Source: Sullivan, in the Congressional Record, May 13, 1982, p. S5179; Symms, p. S6357.

Deception: (32) concealment of missiles as they leave production plants: this deception circumvents SALT I and SALT II provisions that prohibit certain deliberate concealment measures.

Source: "Soviet Violations of Arms Control Agreements," p. 2; Humphrey, p. 5; "How Russia Hides its Missiles," p. 3.

Deception: other measures to interfere with national technical means of verification include:

Deception: (33) dummy roads, facilities, equipment, and lauch sites.

Source: Orr, p. 10; Jack Anderson, "Soviet Subterfuge a SALT Concern," Washington Post, May 23, 1979; "How Russia Hides Its Missiles," p. 2.

Deception: (34) restriction of electronic emissions for air defense radars to prevent interception of data.

Source: Anderson; Orr, p. 10.

Deception: (35) covered submarines with tarps to conceal the SLBM launcher count.

Source: Orr, p. 10; Evans; "How Russia Hides Its Missiles," pp. 2-3; Levitt, p. 389; Humphrey, p. 5; Soviet SALT Deception, p. 4; "Soviet Violations of Arms Agreements," p. 2.

Deception: (36) tunnels to conceal over 20 submarines.

Source: "Soviet Violations of Arms Agreements," p. 2; Soviet SALT Deception, p. 4; Humphrey, p. 5; "How Russia Hides Its Missiles," p. 2.

Deception: (37) camouflaged factories producing missile and submarine components.

Sources: Orr, p. 10; Garn, p. 30; "How Russia Hides Its Missiles," p. 3; Levitt, p. 388; Clarence A. Robinson, Jr., "Soviets Hiding Submarine Work," Aviation Week, November 11, 1974; Humphrey, p. 5; Soviet SALT Deception, p. 4; "Soviet Violations of Arms Agreements," p. 2.

Deception: (38) camouflaged missile launching sites.

Source: Levitt, p. 388; Vance, pp. 7-8; "How Russia Hides Its Missiles," p. 2; Garn, p. 30; Orr, p. 10.

Deception: (39) construction of dummy submarines.

Source: Garn, p. 30; Evans; "How Russia Hides Its Missiles," p. 2; Humphrey, p. 5; Soviet SALT Deception, p. 4; "Soviet Violations of Arms Agreements," p. 2.

Deception: (40) in addition to sending encoded telemetry back from their missiles, (see number 28) the Soviets may have sent deceptive uncoded telemetry.

Source: Edward J. Epstein, "Soviet Missiles Can Fool Monitors," Wall Street Journal, October 18, 1982.

Deception: (41) refusal to give data in SALT I: this deceptive uncooperative behavior allowed the Soviets to later argue that some alleged violations were based on "faulty" U.S. data. (e.g. see number 17).

Source: according to national security advisor Henry Kissinger's White House press briefing on SALT I, June 15, 1972, "the Soviet Union has been extremely reluctant to specify precise numbers . . ." see SALT I Reconsidered, Institute of American Relations, 1979, p. 77 for these remarks.

Deception: (42) SSBN geographical asymmetry farce: the Soviet Union demanded and was granted the right to build more SSBNs than the U.S. during the SALT I freeze on total ICBM and SLBM launchers. This demand was accepted on the basis of a deceptive claim. The U.S. based some SSBNs overseas. The Soviets claim they should be given more submarines since U.S. submarines could hit Soviet targets while near their bases and Soviet submarines could not hit U.S. territory while near their bases. Soon after the SALT Treaty, the Soviets began testing a new long range SLBM which allows them to hit the U.S. while near home bases. Since the U.S. subsequently withdrew its submarines from overseas bases, the geographical asymmetry is actually the other way.

Source: Soviet SALT Deception, pp. 3-4; "Lessons From SALT I and SALT II: New Objectives for SALT III," p. 362; "A SALT Debate: Continued Soviet Deception," p. 32; Donley, p. 83; the U.S. no longer has overseas home basing of SSBNs according to Senior Chief Riccio, Office of Naval research.

Deception: (43) Backfire: the Soviet Union has been deceptive in describing this bomber as medium range, in its claims that the Backfire does not have and will not be given the capability to strike targets in the U.S., and in the production rate. There is no doubt that the Backfire bomber (which can be refueled inflight) can attack targets in the U.S.

Source: Soviet SALT Deception, p. 7; Humphrey, p. 6; SALT II Reference Guide, The White House, Spring 1979; "Lessons Learned From SALT I and II: New Objectives for SALT III," pp. 364, 368; "A SALT Debate: Continued Soviet Deception," p. 37.

Deception: (44) camouflage, concealment, and deception of ABM deactivization: these measures violate the SALT provisions that prohibit interference with national technical means of verification.

Source: Soviet SALT Deception, p. 7; Humphrey, p. 2; "Soviet Violations of Arms Agreements," p. 2.

Circumvention: (45) SS-7: large numbers of old SS-7 heavy missiles at an unidentified installation circumvents the SALT I provisions requiring destruction or dismantling of old systems as they are replaced.

Source: Soviet SALT Deception, p. 7; Air Force magazine, September 1979, p. 24; Humphrey, p. 6.

Circumvention: (46) SS-16: tests of this mobile ICBM circumvented Brezhnev's pledge to Nixon that the Soviet Union would not deploy a mobile ICBM.

Source: Soviet SALT Deception, p. 4; Garn, p. 31; "How Russia Hides Its Missiles," p. 2; "A SALT Debate: Continued Soviet Deception," p. 32; "Lessons Learned From SALT I and II: New Objectives for SALT III," p. 362; Getler; Orr, p. 12; Garn, p. 31; Humphrey, p. 5.

Circumvention: (47) SS-18: simulated tests of this missile with more than ten warheads circumvents the SALT II limit of ten warheads on an ICBM.

Source: William E. Jackson, Jr., quoted by Southerland, p. 14.

Circumvention: (48) SS-20: the Soviets have circumvented the SALT agreements with this missile which is called an intermediate range ballistic missile (IRBM) but which has ICBM range. The range of this missile (over 5,500 kilometers) should qualify it as an ICBM under SALT definitions. Encryption of the telemetry data in tests of this missile also circumvents the SALT agreements.

Source: "Soviet Violations of Arms Agreements," p. 2; Humphrey, p. 5; Symms, p. S 6357; Levitt, p. 387; Vance, p. 10; Orr, p. 5; Laird.

Circumvention: (49) extra missiles have been stored: when the Soviet Union has replaced old missiles, it has kept them as a strategic reserve. This circumvents the stipulations of the SALT agreements which call for dismantling or destruction of ICBM launchers when replaced by new SLBM launchers.

Source: "Lessons Learned From SALT I and II: New Objectives for SALT III," p. 368; "Whither Arms Control?-II," Wall Street Journal, May 20, 1982, p. 26; Soviet SALT Deception, p. 7; Humphrey, p. 5; "Soviet Violations of Arms Agreements," p. 2; see also the Harold Brown Department of Defense Reports which mention these extra missiles.

Circumvention: (50) Hotel SSBN: these submarines circumvented the SALT I Treaty; although equipped with SLBMs, these submarines were not counted under SALT limits.

Source: for a description of these submarines see Donley, pp. 93-101; the Military Balance 1982-83; or Jane's Fighting Ships.

Circumvention: (51) Golf Ballistic Missile Submarine (SSB): these submarines also circumvented the SALT I limits; although these submarines carried SLBMs, they were not counted toward the Soviet limit of 62 ballistic missile submarines.

Source: for a description of these submarines see Donley, pp. 93-101; the Military Balance 1982-83, or Jane's Fighting Ships.

Circumvention: (52) Cruise Missile Submarines (SSGN and SSG): the Soviets have 50 nuclear powered and 20 diesel powered cruise missile submarines that have circumvented the SALT limits. Most of these cruise missiles are nuclear capable.

Source: Soviet Military Power, p. 40; Donley, p. 132; "Soviet Violations of Arms Agreements," p. 3; "Lessons Learned From SALT II: New Objectives for SALT III," p. 368.

Circumvention: (53) development of two new ICBMs: SALT II only allows the deployment of one new ICBM. These developments then circumvent the SALT Treaty. Deployment of course would violate the treaty.

Source: William E. Jackson, Jr., p. 14.

Circumvention: (54) concealment of missiles as they leave production plants: this deception circumvents SALT I and SALT II provisions that prohibit certain deliberate concealment measures.

Source: "Soviet Violations of Arms Agreements," p. 2; Humphrey, p. 5; "How Russia Hides Its Missiles" p. 3.

Circumvention: (55) Anti-Satellite weapons (ASATs): these ASATs circumvent the SALT provisions that prohibit interfernece with national technical means of verification.

Source: Vance p. 10; Levitt, p. 388; Clarence A. Robinson, Jr., "Soviets Push for Beam Weapon," Aviation Week, May 2, 1977.

Circumvention: (56) Bear: Navy versions of this strategic heavy bomber circumvent SALT II limitations. While these aircraft are not counted, hundreds of junked B-52s are counted.

Source: Donley, p. 109; Soviet Military Power, p. 47; *Soviet SALT Deception*, p. 10.

Circumvention: (57) testing illegal ABM radars (high powered) and developing illegal exotic technologies (e.g. beams and leasers) circumvents the ABM Treaty which prohibits the deployment of these measures.

Source: Orr, p. 8; Evans; Garn, p. 24; Henry S. Bradsher, "Soviet ABM Setup Has Pentagon Concerned," Washington Star, February 16, 1977; Levitt, p. 384; Clarence A Robinson, Jr., "Further violations of SALT

Seen," Aviation Week, February 3, 1975; Clarence A. Robinson, Jr., "Soviets Push for Beam Weapons," Humphrey, p. 2; Van Cleave, p. 50

OUTER SPACE TREATY

Circumvention: (58) Fractional Orbital Bombardment System (FOBs): this is SS-9 heavy ICBMs at the Tyuratam test range were designed to become a FOBs upon launch. This capability circumvented the Outer Space Treaty provisions prohibiting weapons of mass destruction in space.

Source: Soviet SALT Deception, p. 7; Humphrey, p. 6.

ATMOSPHERIC TEST BAN MORATORIUM OF 1958

Violation: (59) over 30 Soviet tests were conducted in the atmosphere in less than two months (beginning September 1, 1961.)

Source: Kathleen Teltsch, "U.N., 87-11, Appeals to Soviet on Test," *New York Times*, October 28, 1961.

1962 CUBAN MISSILE CRISIS AGREEMENT

Violation: (60) a few of the violations of the agreement which prohibits the stationing of offensive arms in Cuba are: ballistic missile submarines visiting Cienfuegos harbor; nuclear capable MIGs being given to Cuba; and a Soviet combat brigade stationed in Cuba.

Source: There are numerous reports of these Soviet and Cuban activities; a few of these sources are: "Soviet Violations of Arms Agreements," p. 2; Humphrey, p. 7; *Soviet SALT Deception*, p. 8; *Air Force* magazine, September 1979, p. 22.

THRESHOLD TEST BAN TREATY

Violation: (61) the Soviets have made many tests in violation of the 150 kiloton limit.

Source: Einhorn, p. 31; "Soviet Violations of Arms Agreements," p. 1; "Soviet SALT Violations Feared;" Humphrey, p. 7; Rowland Evans and Robert Novak, "Violations of the Test Ban?" *Washington Post*, September 1979; *Soviet SALT Deception*, p. 8.

1973 AGREEMENT BETWEEN THE U.S.A. AND THE U.S.S.R. ON THE PREVENTION OF NUCLEAR WAR

Violation: (62) the Soviet Union failed to consult with the U.S. concerning the Arab-Israeli 1973 War and threatened to use force against a U.S. ally (i.e. Israel); these actions were violations of this Agreement.

Source: "Soviet Violations of Arms Agreements," p. 2.

MUTUALLY BALANCED FORCE REDUCTION TALKS (MBFR)

Deception: (63) Soviet deception and fabrication of Warsaw Pact force levels at these negotiations is the norm.

Sources: Soviet SALT Deception, p.7.

BREZHNEV'S SS-20 PLEDGE

Violation: (64) Brezhnev's March 1982 pledge to freeze Soviet deployments of SS-20s was nothing more than a propaganda ploy since the Soviet Union has deployed since the Soviet Union has deployed 40-50 SS-20 since that time and continues to introduce new SS-20 launchers at a rate of one every five days.

Source: Secretary of Defense Weinberger announced this in an October 1982 issue of Il Tempo, an Italian newspaper; see also the Washington Post, October 16, 1982 for this report.

GENEVA PROTOCOL

Violation: (65) Soviet use of lethal nerve gas on populations in Afghanistan violates this Treaty.

Sources: "Soviet Violations of Arms Agreements," p. 3; Chemical Warfare in Southeast Asia and Afghanistan, U.S. Department of State; Gloria Duffy, "Chemical Warfare: The Cloud of Doubt," Christian Science Monitor, January 26, 1982, p. 23.

BIOLOGICAL WEAPONS CONVENTION (BWC)

Violation: (66) a 1979 anthrax epidemic (fatal to thousands) in Sverdlovsk, USSR, gives evidence that this Convention has been violated. An accidental explosion at a military installation that had been a suspected biological weapons production plant caused the epidemic. The Soviets deny this, but refuse to have discussions with the U.S. concerning this violation.

Sources; Einhorn, p. 32.

BIOLOGICAL WEAPONS CONVENTION (BWC)

Violation: (67) the U.S. has put before the U.N. evidence collected in Southeast Asia that lethal chemical and biological warfare toxins have been used by Soviet supplied Vietnamese troops on people in Laos and Cambodia. Use of these toxins called "yellow rain" and "white rain" violate the BWC.

Sources: "Soviet Violations of Arms Agreements," p. 3; Chemical Warfare in Southeast Asia and Afghanistan, Einhorn, p. 32.

□ 2250

TRIBUTE TO HON. GREG CARMAN, HON. JOHN LeBOUTILLIER, HON. GARY LEE, AND HON. DON MITCHELL

The SPEAKER pro tempore (Mr. RATCHFORD). Under a previous order of the House, the gentleman from New York (Mr. HORTON) is recognized for 60 minutes.

GENERAL LEAVE

Mr. HORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the subject of my special order today.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. HORTON. Mr. Speaker, as dean of the New York Republican congressional delegation, I requested this special order to honor four New York Republican Members who will not be returning to the 98th Congress next year. They are Congressmen GREG CARMAN, JOHN LEBOUTILLIER, GARY LEE, and DON MITCHELL. Each of these Members represented the constituents of their respective districts outstandingly well. I know the entire New York delegation, as well as the Members of this House, join me in wishing them success in their future endeavors.

Mr. Speaker, I join with my colleagues today in expressing both my respect and admiration for the work of my friend, Congressman GREGORY CARMAN, and his service to the people of New York's Third Congressional District. GREG was elected to this House on November 4, 1980. In just 2 short years, GREG established himself as a respected and able Member of Congress.

GREG served this House on both the Committee on Banking, Finance and Urban Affairs, and the Select Committee on Aging. To his credit, GREG has earned the respect of a very troubled industry, the financial industry, through his devotion to his committee assignment. I personally have worked with GREG on issues of vital interest to the Northeast-Midwest and can attest to his deep conviction and concern for the well-being of his constituents and this country.

I am disappointed that this House will not be afforded the able and tireless services of my friend, GREGORY CARMAN, during the 98th Congress. I would like to take this opportunity to commend GREG on his fine record of accomplisment and wish him the very best of luck in his future endeavors.

Mr. Speaker, JOHN LEBOUTILLIER was elected to, and actively and effectively participated in, what is already being called a most historic Congress. His successful election bid came 2 years after his graduation from the Harvard Business School, and after he had authored several widely read articles and books on the problems and challenges facing American today. His knowledge of government and business, combined with his candor, diligence, and dedication to the responsibilities of his office earned him the respect and admiration of his colleagues, myself included.

JOHN is an outstanding individual and a colleague whose opinions I value highly. I regret that he will not be here in the 98th Congress, but I wish him the very best in whatever pursuit he should attempt.

Mr. Speaker, GARY LEE is a close friend and has been a trusted colleague throughout our 4 years of service together in the House. He has a solid understanding of the problems facing New York and the Northeast, and has represented the constituents of his 33d Congressional District with tireless energy and dedication. He is an outstanding individual whose presence will be sorely missed in the 98th Congress.

GARY brought to this Congress a wealth of knowledge about State and local government, knowledge which he acquired through a distinguished career of public service which began with his election to the Dryden City Council in 1960. He later served as Dryden town supervisor, member and later chairman of the Thompkins County Board of Supervisors, member of the New York State Assembly, and in 1978 he was elected to the 96th Congress.

In Congress, GARY ably and effectively served on the Energy and Commerce Committee. In 4-short years, he established a solid reputation as an effective, intelligent, and hard-working legislator.

I commend GARY for the work he did in this Congress so outstandingly

well. As I stated earlier, his energy and dedication will be sorely missed.

Mr. Speaker, DON MITCHELL has been a close friend of mine throughout our service together in the House of Representatives. I have valued his friendship, as well as his counsel on any number of issues important to the State of New York and this Nation.

DON and I have worked closely together on a wide variety of endeavors ranging from the New York State Republican congressional delegation to the Canadian-United States Interparliamentary Conferences. During his 10 years of service in the House of Representatives, and his work on the Armed Services Committee, DON has displayed an intense devotion to the needs and best interests of his constituents in the 31st Congressional District of New York, as well as the people of the United States.

DON has a very distinguished record of service to society. DON served in the Navy as an aviator during World War II. Later he became the mayor of Herkimer, N.Y., before moving on to the New York State Assembly. In 1972, DON was elected to the U.S. House of Representatives from New York's 31st District.

Significantly, DON did not confine his efforts on behalf of his fellow man to the political sector. In conjunction with his public service, DON has been extremely active in many private service clubs and organizations, making a very positive contribution to the well-being of his friends and neighbors.

I know that we in this House will miss the intelligence, the commonsense, and the abilities of DON MITCHELL during the 98th Congress. I am sure that the Members join me in wishing DON and his family the very best of luck in the future.

● Mrs. HOLT. Mr. Speaker, DON MITCHELL, a member of the class of the 93d Congress, is leaving this House at the end of the session. I came to Congress with DON and it has been my great pleasure to serve with him on the Armed Services Committee. He is one of the finest gentlemen I have ever met. We will miss his contributions here on the floor, but even more, we will miss his expertise in committee, where he has combined fiscal responsibility with a real understanding of our defense needs. DON has helped to lead the fight to restore our defense capabilities, and we should all thank him for that. I personally will miss him, and I know that Duncan and I wish him and Gretta the best of luck and much happiness.●

● Mr. ERLENBORN. Mr. Speaker, among our colleagues who will be retiring at the end of this Congress is DON MITCHELL of New York. I want to add my good wishes to those others are making to DON for a healthy and happy retirement.

DON has devoted 10 years to serving the people of what has been New York's 31st District, and they can be proud of having voted five times to have him represent them in this body. He is a fine human being who has done his homework and deserves time with his family.●

● Mr. FUQUA. Mr. Speaker, the Honorable DONALD J. MITCHELL of the 31st District of New York will be ending his congressional service when this body adjourns this year and I think this is an appropriate time to recognize the outstanding contributions he has made to our deliberations.

I have always felt that the standard by which a Member of this House should be measured is the contribution he or she makes as we face decisions on the difficult issues which come before us.

DONALD MITCHELL has more than measured up to its standard.

His 10 years of service in the U.S. House of Representatives had been marked by outstanding service to his constituents as well as a deep and abiding concern for the welfare of the Nation.

Having previously served in elective office as a town councilman and mayor and as a State assemblyman in New York, where he rose to the postion of majority whip, DONALD MITCHELL came among us with an intimate knowledge of local and State problems which translated into useful insight for the House of Representatives as we considered programs which affected State and local government.

I consider myself more fortunate than most Members of this House because DONALD MITCHELL has shown the wisdom to purchase property in beautiful Cedar Key, one of the many coastal jewels in my district, and will thus be a constituent of mine.

I wish him great success in all his future endeavors.●

● Mr. BIAGGI. Mr. Speaker, I rise today to pay tribute to a fine gentleman and an extremely capable legislator as well as friend, DON MITCHELL, who has decided to seek his well-earned retirement after 10 years in service to the people of the 31st District of New York.

DON, who was elected to Congress in 1972, has served with distinction as a member of the House Committee on Armed Services. During that time, he has contributed vitally to the improvement of life for our military personnel, while serving as the ranking minority member of the Subcommittee on Military Personnel and Compensation. He has been responsible for major pay increases and important benefits for those who are directly responsible for the freedom and protection of our great country. He has been a friend to our military men and women here and abroad.

DON has shown an active involvement and interest as well in our Nation's civil defense; he has been a staunch supporter of keeping the citizens of the United States informed and alert in the event of a nuclear attack or any major disaster; he has fought to increase authorizations for programs such as FEMA, the agency created to enhance the multiple use of emergency preparedness and resources at the Federal, State, and local levels of government. DON has been the major proponent of civil defense in Congress.

During his tenure in Congress, DON cofounded the Northeast Midwest Congressional Coalition, and has served as part of the Republican leadership, as assistant regional whip for New England and the Middle Atlantic States.

I am sure that DON's work on behalf of national, social, and civic causes he believes in will continue long after he leaves us. While DON is leaving Congress to return to his optometry business part-time and to enjoy the relaxation and less-hectic life that he richly deserves, I hope he knows how much we will miss him. I will miss; he has been a good friend.

May DON, his lovely wife, Gretta, and their family share a fruitful and relaxing future together.●

● Mr. GILMAN. Mr. Speaker, I thank the gentleman from New York for the opportunity to honor our departing colleague, GREGORY W. CARMAN. It is truly our loss that this bright, young talent is leaving the House of Representatives. He has exhibited his expertise on the Banking, Finance and Urban Affairs Committee, where he has also been instrumental in serving his constituents to shore up financial institutions in his district.

Representative CARMAN has been a true representative and fighter for the people of the Third District. As a freshman he boldly worked to stop all present and future dumping of dredged waste in the Long Island Sound through legislation amending the Clean Water Act and the Ocean Dumping Act. He has also distinguished himself in his staunch efforts to keep Grumman a family oriented, community owned, and Long Island operated business by opposing the LTV Corp. takeover attempt and leading a determined fight to this end.

GREG followed through on the trust placed in him in his appointment by the Republican leadership to the Republican Task Force on Crime, as with every task he took on. Perhaps the greatest tribute that we could give GREG is to repeat the honor bestowed on him by the senior citizens of the Woodbury health related facility in his district, who named him "Man of the Year" for his conscientious work on the Select Committee on Aging.

Certainly GREG, as we lament your departure we also wish you good health and joy in the years ahead, knowing that you will continue to use your keen intellect and your determination to take action to improve the quality of life for the benefit of the people of the State of New York and this Nation.●

● Mr. LOEFFLER. Mr. Speaker, with sincere respect—indeed with great affection—I salute my distinguished friend and colleague, GARY LEE of New York.

I had the privilege of serving with GARY in the last Congress on the Energy and Commerce Committee, where he worked diligently in behalf of measures to encourage increased production and conservation of our crucial energy resources. For his efforts, our Nation owes GARY a debt of gratitude.

During this Congress, GARY spoke strongly and wisely in opposing higher taxes, deficit spending, and increased Federal intrusion in our daily lives.

Thank you, GARY, for your dedicated efforts in behalf of our country. We shall miss you. Keep in close touch.●

● Mr. GILMAN. Mr. Speaker, I thank our colleague, the gentleman from New York (Mr. HORTON) for arranging this time for us to bid our farewells to those members of the New York delegation who will not be with us in January. I speak now of JOHN LEBOUTILLIER, who had the privilege of representing the Sixth District of New York, which includes the North Shore of Long Island, and parts of Queens.

When JOHN came to this body 2 years ago, he gained our attention as the youngest Republican Member elected to the 97th Congress. He was a scant 27 years of age—but nonetheless, put all his energies and efforts into his committee assignment, that of Foreign Affairs. I was pleased to have JOHN's input on our committee, and appreciated his diligent work on behalf of our POW's and MIA's. It is a difficult assignment for anyone, since information is so rarely available, and much frustration ensues. But JOHN LEBOUTILLIER persevered in this work, and the entire Foreign Affairs Committee is the better for it.

I know that my colleagues are also aware of JOHN's literary accomplishments as the author of "Harvard Hates America," as well as a novel, and we hope that JOHN will continue to write in the future. I am pleased to join in wishing him best wishes for success and happiness in the months and years ahead, Mr. Speaker, secure in the knowledge that JOHN has gained a wealth of experience from his service in the House of Representatives that will remain with him for a long time.●

● Mr. MARTIN of New York. Mr. Speaker, I am deeply grateful to the dean of our New York State Republican delegation for this opportunity to salute our four departing members.

It comes as no surprise to anyone, Mr. Speaker, to say that the New York congressional delegation has been hard hit by reapportionment, primarily due to population losses in some of our downstate areas. But in addition to that, and in some cases because of it, we are losing not just seats, but flesh-and-blood individuals of high quality.

GREGORY W. CARMAN and JOHN LEBOUTILLIER have been classmates of mine for the past 2 years. Serving in this Congress with them has been most pleasurable, and they can take pride in the spirit and contributions which our class of 1980 has brought to the 97th Congress and the accomplishments we have helped bring about.

Since our first days in Congress. I have been deeply impressed and gratified by GREG CARMAN's knowledge of and concern for my congressional district in the northernmost reaches of the State. Having attended St. Lawrence University in my district, GREG had a most valuable comprehension of our needs as well as those of his own area. This has indeed been a valuable asset to our entire delegation.

JOHN LEBOUTILLIER, of course, is still a young man and has many more valuable contributions to make to his country after his departure from this body. In particular, I hope he will continue to encourage our young people to participate in politics and enter our political system as early in their lives as possible.

In my own area of the State, Mr. Speaker, we are losing two of our most forceful advocates in GARY A. LEE and DONALD J. MITCHELL.

It has been my pleasure to serve with GARY LEE in both the New York State Assembly and here in Congress. I am well aware, therefore, of his keen legislative ability, his dedication to his constituents, and the high degree of energy with which he has practiced both.

As a Navy veteran, an elected official at the local and State levels and an able college administrator, GARY LEE brought to Congress a unique blend and breadth of experience. That experience was an asset to this entire body; I know I personally will miss his always generous and helpful advice.

While I gladly join this tribute to our good friend DON MITCHELL, Mr. Speaker, I refrain, with equal pleasure, from bidding him farewell. Having been assigned, through reapportionment, three of the counties which he has represented so ably over the years, I can look forward to having him as a most distinguished constituent.

As many of our colleagues already know, DON is returning home to the lovely village of Herkimer, N.Y. to resume his optometry practice. He will be looking into my eyes often as I seek him out for his good counsel.

DON MITCHELL, Mr. Speaker, has not been one to "hunt ducks with a brass band." Instead, he has devoted himself quietly to the kind of work that brings honor to this entire body, with ability and experience built up over his years as a Herkimer councilman, mayor, and New York State Assemblyman.

DON's experience in local and State government clearly has contributed immensely to his views on fiscal responsibility in Government, the value of local initiative and the importance of effective constituent service. Just as clearly, his experience as a World War II Navy pilot has contributed to his outstanding—indeed, patriotic—work as a member of the House Armed Services Committee.

Typically, as a member of that panel, DON has tackled the nuts-and-bolts issues, leaving the popular and grand designs to others. We are all in his debt for his efforts on behalf of civil defense and military personnel.

But despite all this, Mr. Speaker, nothing has become DON MITCHELL over his 10 years of congressional service as his deep love for the region in which he and his constituents live.●

● Mr. ERLENBORN. Mr. Speaker, although I am sorry that our colleague, GARY LEE of New York, will not be returning for the 98th Congress, I am pleased to join in this salute to him.

GARY has been an effective legislator, one with whom it has been a pleasure to work. He is a good and decent person, and I wish him success in his new endeavors.●

● Mr. BRINKLEY. Mr. Speaker, DON MITCHELL will be remembered in this body as an uncommon man. He is very practical and at the same time he can make projections into the future which make a lot of sense. Civil defense is one such area which DON has identified as a candidate for improving. Relative costs are low when overall Defense Department costs are considered; such costs would be defensive in nature, and protective in nature, whereas the bulk of defense armament spending is offensive in nature. This is something we would be doing for our own people to save lives in the event of war. Additionally, the peacetime dimension on guard against natural disasters would accrue as a peacetime benefit. That is important and DON MITCHELL will be remembered as a pioneer in this area.

DON, you are a terrific guy, and we wish you well.●

● Mr. GREEN. Mr. Speaker, I rise this evening out of great respect for four of our distinguished colleagues who will not be returning for the 98th Congress. Representatives DONALD MITCHELL, GARY LEE, GREG CARMAN, and JOHN LEBOUTILLIER have contributed

greatly to the workings of this body and they will be missed.

The relationship I have with my good friend DON MITCHELL goes back many years. In fact, he and I first entered the State legislature in Albany together in the same class which was elected in November of 1964. Subsequently, he was elected to the 93d Congress and I renewed our partnership when I joined him here in the 95th.

GARY LEE has demonstrated outstanding leadership on several issues, perhaps most importantly on those regarding railroad and other transportation matters which are so critical to the Northeast.

All four of these gentlemen have served their districts and the Nation with distinction. I will miss them personally, this body will miss their various contributions, and I know that every Member of the house joins me in wishing them well in their future activities.●

● Mr. WORTLEY. Mr. Speaker, although I rarely agreed with him, Walter Lippmann once said:

The final test of a leader is that he leaves behind in other men the conviction and the will to carry on:

In this Mr. Lippmann was correct and there is no finer example of the legacy that men of leadership quality leave behind than is exhibited by four of my retiring fellow New York colleagues; GARY LEE, DON MITCHELL, GREG CARMAN, and JOHN LEBOUTELLIER.

GARY LEE, my colleague with whom I share Onondaga County has made outstanding contributions in both the 96th and 97th Congresses. His service on the Energy and Commerce Committee has earned the respect of fellow committee members and professional staff members. GARY was never afraid to take the point in tough issues that sometimes were viewed as unpopular by the interest groups, and he never stayed away from the tough battles—if he was convinced it was the right battle. I have a great deal of respect for GARY, it has been a tough year for both of us, I consider him a friend and I know that he will always stand up for America, he is a standup guy. He has been good for New York and good for our country. To GARY, his wife Kathleen, and to his children, I wish them the very best.

DON MITCHELL my neighboring colleague to the east has provided me sage wisdom in my first term in Congress and I will dearly miss his advice and counsel. There is no one who is a greater defender of our Armed Services than DON. His service on the Armed Services Committee is marked with achievement at every turn. As an upstate Congressman like myself he has been a big boost to continuing a Defense Department commitment to our area. I understand that when DON leaves the Hill in a few weeks he is returning to the central New York area he loves so much. I do not blame him one bit—perhaps there is a little jealousy there because I understand the attraction and natural beauty of that area so well. I will miss DON but he too leaves behind as Mr. Lippmann said "the conviction and the will to carry on."

GREG CARMAN and I came into the freshman class together this year and we fast became friends as well as colleagues. We were fortunate to share committee assignments on the Banking, Finance and Urban Affairs Committee and the Select Committee on Aging. I was able to observe firsthand the contributions he made in his all-too-brief stay in the 97th Congress. Long Island can be proud that they sent GREG here to represent them, as I am proud to have worked with him these last 24 months.

JOHN LEBOUTELLIER, although a fellow freshman with me this year—he is really about half my age—who brought with him a sense of purpose and dedication to the job that has rarely been exhibited by an incoming Member. JOHN is not afraid to speak out in behalf of his beliefs regardless of political risks. His candid style and openness brought a large dose of fresh air to this body that sometimes suffers from staleness and rigidity. JOHN succeeded in piercing that veil, and by speaking out caused us all to think a little differently, and perhaps a little more candidly. That is JOHN's legacy. His impact on this body will be felt for years to come.●

● Mr. NICHOLS. Mr. Speaker, as chairman of the Subcommittee on Military Personnel and Compensation, I have had the distinct pleasure of working very closely with DON MITCHELL for a number of years. No subcommittee chairman could ask for a finer or more dedicated ranking minority member. Ours is a partnership that has been very important to me, both personally and professionally. I have come to rely on DON frequently for his strong support and wise counsel.

Results speak louder than words. DON MITCHELL has played a major role in the dramatic turnaround we have seen in terms of military manpower during the past 18 months. Two years ago, only slightly more than half of the Army's nonprior-service recruits were high-school graduates. Today that figure is 86 percent. Over 80 percent of today's recruits are in the top three mental categories, compared with just 50 percent in 1980. Retention statistics are similarly impressive.

Obviously, there is no one explanation for this reversal. The state of the economy has played a role, as well as the renewed national pride in military service. However, Congress can take much of the credit as well. The comprehensive improvements in military pay and allowances enacted during 1980-81 literally turned the tide. DON MITCHELL was a principal player in the enactment of that legislation and deserves a great deal of the credit for our current record of success.

In addition to his tireless efforts on behalf of better pay, DON MITCHELL has made a significant contribution to achieving a workable compromise on the legislation enacted in September to protect the rights of divorced military wives. When the Armed Services Committee restructured the compensation for military physicians several years ago, DON MITCHELL's expertise in health care matters was invaluable. He has fought tenaciously over the years to prevent the piecemeal erosion of military benefit.

In September the Council of Military Organizations, composed of a number of associations that represent active duty and retired military personnel, hosted a luncheon to express the thanks and appreciation of their respective memberships to DON. It was a well-deserved tribute. He has always been willing to stand up and be counted on behalf of our Nation's men and women in uniform and their families.

DON, Carolyn joins me in wishing you and Gretta a very happy and prosperous retirement. You have earned it, and I know your optometry practice will keep you extremely busy. You will be sorely missed by the Congess, by the Armed Services Committee, and by the servicemen and women of the Nation.●

● Mr. DICKINSON. Mr. Speaker, there is no question about it: We are going to miss DON MITCHELL greatly. It has been a pleasure to serve with DON on the House Armed Services Committee where he has been a strong and effective advocate of improving our Nation's defense posture.

We have had many lean years for the Defense budget, years when it was not popular to support the expenditures necessary for a strong national defense. DON MITCHELL was not intimidated by the hue and cry of those who were willing to sacrifice national security to meet other short-term goals. He has been willing to stand up and be counted in support of realistic levels of defense spending.

He epitomizes the quote attributed to British Air Marshal Sir John Slessor:

It is customary in democratic countries to deplore expenditure on armaments as conflicting with the requirements of social service. There is a tendency to forget that the most important social service that a government can do for its people is to keep them alive and free.

As a firm believer in civil defense and the acknowledged congressional expert in the field, DON MITCHELL has always been willing to fight for what he believes is right. He has provided strong leadership for an improved pro-

gram to protect the American public in the event of disaster.

DON MITCHELL's name is synonymous with expertise in military personnel matters. He has long been an articulate spokesman for the Nation's soldiers, sailors, airmen, and marines and deserves a great deal of credit for the current success we are experiencing in recruiting and retention. As the ranking minority member of the Subcommittee on Military Personnel and Compensation, DON MITCHELL has worked diligently to protect the rights of service personnel and has provided substantial leadership for improved pay and benefits. He is truly the friend of the man and woman in uniform.

I am pleased to join with my many House colleagues in paying tribute to DON MITCHELL today. He will be missed and leaves big shoes to fill. I wish him Godspeed in his new endeavors.●

● Mr. MONTGOMERY. Mr. Speaker, I want to add my name to the list in this Special Order on Representative DONALD MITCHELL of New York.

After serving 10 years in the House from the 31st District, he announced his retirement. I know many of us here on the Hill will miss his abilities. He has been a most capable and distinguished Congressman.

I have come to know DONALD MITCHELL through our service together on the Armed Services Committee. We served on the Military Installations and Facilities Subcommittee and the Military Personnel and Compensation Subcommittee, where he was the ranking minority member. I can say that he has made a valuable contribution to these committees.

His dedication to service to his country and his fellowman began after graduation from Columbia University. He was a naval aviator from 1942 to 1945 and then served as town councilman and New York State assemblyman before being elected to Congress in 1972.

DON's participation in Red Cross activities as well as scouting, Cancer Society, Kiwanis Club, and so forth, point out his great interest in civic affairs and I know he will return to his district and remain a strong leader in the years to come.

I want to wish him the best. He has earned our respect and we will surely miss him here in the House of Representatives.●

● Mr. LENT. Mr. Speaker, I would like to take this opportunity to pay tribute to four Members of the New York congressional delegation who, unfortunately, will not be returning to the 98th Congress. I refer, of course to my good friends GARY LEE, DON MITCHELL, GREG CARMAN, and JOHN LEBOUTILLIER. Their contributions to the U.S. Congress have been such that we most surely will feel their absence.

Representative DON MITCHELL made his mark as a New York State assemblyman from Herkimer County, N.Y., before being elected to the U.S. House of Representatives in 1972. DON has won subsequent elections without difficulty and in 1978, his popularity was such that he had no opponent. DON's outstanding efforts as a member of the House Armed Services Committee have earned him a reputation as an effective and capable legislator. His constituents know him as a hard working and diligent Representative of New York's 31st District. His legislative abilities and wise counsel will surely be missed by his colleagues in the House.

Representative GARY LEE came to the Congress in 1978 vis-a-vis various local government posts and the New York State Assembly. It has been my privilege to work closely with GARY on a number of major legislative projects in the House Energy and Commerce Committee. GARY was extremely influential in blocking the passage of H.R. 5158, the Telecommunications Act of 1982. GARY and I also worked together on the Lent-Lee compromise which gave the Nation an excellent process for an orderly transfer of the Conrail railroad system—as an entity—to private ownership. His legislative leadership on the committee and within the New York delegation will indeed be missed during the upcoming Congress.

My neighbor in New York's Third Congressional District, GREG CARMAN, has decided to retire and pursue other interests in the private sector. When GREG was elected in 1980, he brought to the Congress a wealth of experience in local government matters as a former councilman for the town of Oyster Bay. As chairman of the Long Island Congressional Caucus, I relied heavily upon GREG's expertise and knowledge of Long Island. I know that he has been a truly effective and diligent Representative for his constituency. I have known GREG for many, many years and hope that he continues to use his many talents at whatever endeavors he chooses to pursue.

Last, but certainly not least, my young colleague JOHN LEBOUTILLIER. JOHN joined our ranks in 1980 and worked hard for the economic principles and policies he so effectively espouses. Knowing JOHN as I do, I believe the Congress has not seen the last of this hard-working, bright and articulate young man. His views and comments have captured the imagination of thousands across the country. My very best wishes to you, JOHN.

Mr. Speaker, it saddens me to see these hard working and able men leave the Congress after many years of distinguished service to the State of New York and this Nation. I know that the Congress will miss their expertise when we convene again in January.●

● Mr. GILMAN. Mr. Speaker, I thank FRANK HORTON for providing us the privilege of honoring our colleague and good friend from New York, DON MITCHELL, who will be leaving us after a long and fruitful career. I know DON's constituents will surely miss him, as I and my colleagues will in these halls. Often so popular with the citizens of the 31st District that they would not even allow an opponent to enter the ring against him, so here, too, he has proved himself a tried and true leader and loyalist to his party and his convictions.

My association with DON MITCHELL precedes our congressional work, when we were both serving as assemblymen in the New York State Legislature from 1966 to 1972.

As the regional whip for New England and the Middle Atlantic States, DON MITCHELL has been a forger of policy and coalitions in order to protect our region and to present its needs and positions most effectively in the Congress. DON was no novice to the duties of whip, having served as minority whip in the New York State Legislature. The Armed Services Committee loses this same outstanding leadership, which DON has consistently exhibited throughout his service in the Congress. His expertise in military affairs and the civil defense needs of the country have enabled him to be an effective advocate of legislation and a man of action on his committees. DON's integrity gained him the respect of all in the Congress. He has been a pace setter and an upholder of our standards. Our loss in these halls is a gain for those who will see more of him in New York.

DON, we will miss your voice of reason and your fighting spirit. Our best wishes go with you and your family in all your new endeavors.●

● Mr. McGRATH. Mr. Speaker, I am pleased to join with my colleagues in paying tribute to four fine Republican Members of the New York delegation who will not be returning to Congress, JOHN LEBOUTILLIER, GREG CARMAN, DON MITCHELL, and GARY LEE.

I came to Congress 2 years ago with JOHN LEBOUTILLIER and GREG CARMAN. Besides being freshmen, we all represented a portion of Nassau County and worked together on the Long Island Congressional Caucus. JOHN, of course, is known by most of us as being an outspoken Member, and in numerous cases he was outspoken on many causes that are special to us—the security of Israel, a strong national defense, and opposition to the expansionist and adventurist policies of the Soviet Union.

GREG CARMAN, by contrast, has quietly been a diligent Member of this body who has effectively represented the people of the Third District of New York. I know GREG's decision not to

seek reelection was a difficult one, but I know I speak for my colleagues when I say we appreciate all he has accomplished in the short time he has been here.

Very few of us have failed to recognize that GARY LEE has been among the most conscientious and best prepared Members of this body, and I would cite particularly his work on the Energy and Commerce Committee. Many of us relied on his sound judgment on some very difficult issues, and we will miss his contributions.

For the past 10 years, DON MITCHELL has effectively served his constituents in the 31st District. He has made a solid contribution to this Nation's defense posture through his service on the Armed Services Committee, and in that capacity he has also served the best interests of the people of his district.

As these four individuals leave the House to enter other fields of endeavor, I want to wish them well. They have served their districts, New York State and the Nation with distinction.●

● Mr. WOLF. Mr. Speaker, I join my colleagues today in special recognition of four Members of the New York delegation who will not be returning for the 98th Congress.

I would like to take this opportunity to express my sincere appreciation to Representatives GARY LEE, DON MITCHELL, GREG CARMAN, and JOHN LEBOUTILLIER for their dedicated service and contributions to this institution. They have served with honor and distinction and the people of New York and this Nation are losing able leaders.

I pay special tribute to two fellow freshmen classmates, GREG CARMAN and JOHN LEBOUTILLIER. It has been a privilege to be in their company in the 97th Congress and I will miss their friendship.

I salute GARY, DON, GREG, and JOHN as outstanding, hardworking and effective public servants and wish them continued success in the years ahead.●

● Mr. LEE. Mr. Speaker, colleagues, I take great pleasure today in joining with you in offering my highest personal regards for my fellow New Yorker and friend, Congressman DON MITCHELL.

Within a matter of days, DON will be retiring from public life and returning to his private business in upstate New York after a decade of outstanding and honorable service. It is vital to remember at this stage that Congress loss is New York's gain.

During his tenure in this House, DON has earned himself a place of respect among his colleagues and his constituents. He has been an ardent and unshakable proponent of the environmental protection laws which will preserve the Adirondack region for the enjoyment and livelihood of generations to come. He has fiercely fought to protect the jobs and stability of his constituents through a decade which saw both private and Government businesses lean toward relocation from the Northeast to the Sun Belt. He has done an outstanding job on the Armed Services Committee.

Here in the Congress, DON will be remembered for his legislative initiatives and for his level-headed approach to this very difficult job we have shared: solving the problems of this country.

Surely, in his decade of service here, no Member of Congress has offered such a stable, commonsense, and respected source of help for his colleagues as DON MITCHELL. He has worked selflessly to help junior Members like myself to understand and make good use of the congressional system. And he has provided a bedrock and reasoned sounding board for senior Members.

Today, I offer DON my most sincere regards and best wishes for the return to private life which he has so richly earned. It has been a high honor to serve with him.●

● Mr. WINN. Mr. Speaker, the House is losing four dedicated Members of Congress when DON MITCHELL, GARY LEE, JOHN LEBOUTILLIER, and GREG CARMAN leave this decisionmaking body. All four have shown loyalty to their country and their party and I wish them well in their new pursuits.

DON MITCHELL worked tirelessly on the Armed Services Committee and was very effective on the floor of the House as well. GARY LEE provided good direction on the Energy and Commerce and House Administration Committees and, I believe, showed a great deal of dignity during his recent election. JOHN LEBOUTILLIER served with me on the Foreign Affairs Committee and was always very acquainted with important foreign policy issues when they came before the committee. GREG CARMAN served admirably on Banking, Finance and Urban Affairs and the Select Committee on Aging.

I will miss all of them. The House is a better place because of their efforts.●

● Mr. GILMAN. Mr. Speaker, I rise to pay tribute to one of our colleagues who will not be with us in the next Congress. I am referring to our distinguished colleague from New York, GARY A. LEE, and I thank the dean of our New York Republican delegation, FRANK HORTON, for providing us this opportunity to say a few words about this dedicated legislator.

Coming to the Congress in 1978, GARY LEE has admirably served the people of the 33d District for the past 4 years. Before coming to Congress, GARY served in the ranks of local and State government and as the director of Cornell University's office of scholarships.

GARY's involvement in his committee work has made him a crucial part of the important Energy and Commerce Committee. Along with serving on this committee he has also served on the House Administration Committee. He has fought many battles on the floor of the House and has come out victorious because of his determination, his knowledge, and his keen intellect.

I am honored to have had the opportunity to work with GARY on New York State issues as part of the New York State delegation. We will miss GARY's presence in this body. I would like to wish GARY, as I am sure we all would, joy and good health in the days ahead and in all his new endeavors.●

● Mr. COURTER. Mr. Speaker, I rise to pay tribute to JOHN LEBOUTILLIER, whose absence from the upcoming Congress will be noticed by Members on both sides of the aisle.

In his 2 years as a Representative, JOHN has demonstrated a great concern for the needs of New York's Sixth District. He has worked exceptionally hard to represent the values of his diverse constituency, and, I believe, has accurately reflected those views in this Chamber.

Perhaps more significant than JOHN's contribution to his district is the contribution he has made to the Republican Party and to all individuals who share his concern for the future of this Nation. JOHN has always been outspoken in his opposition to those policies which he feels are inimical to the welfare of the United States. While some may disagree with his platform, few would fault the sincerity on which his beliefs are founded. I for one have nothing but admiration for JOHN's commitment to making his beliefs felt in the Government and throughout the Nation.

JOHN's presence in Congress has added a great deal to the debate and legislative activity of the last 2 years. His statements have challenged the intellect of many of his colleagues, including myself. I value his individuality, enthusiasm, and compassion, and I will miss his companionship.●

□ 2300

TRIBUTE TO THE HONORABLE HAROLD HOLLENBECK AND THE HONORABLE MILLICENT FENWICK

The SPEAKER pro tempore (Mr. RATCHFORD). Under a previous order of the House, the gentleman from New Jersey (Mr. COURTER) is recognized for 60 minutes.

GENERAL LEAVE

Mr. COURTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on this special order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. COURTER. Mr. Speaker, I took 60 minutes out for the purpose of commenting on two individuals from the State of New Jersey. Needless to say, it is very, very late in the evening, 11 o'clock, and many Members during the last 3 or 4 days, knowing that I would be bringing this special order forward, indicated to me that they would want to be here, but if it was a late evening they could not because of other commitments and general exhaustion. So, I know there are many Members who have written comments which will be placed in the RECORD.

Mr. Speaker, I rise to pay tribute to a significant force in this governing body, HAROLD "CAPPY" HOLLENBECK. I know I share the feelings of the New Jersey delegation, and this body as a whole, when I say that CAPPY's absence will be severely felt in the 98th Congress.

CAPPY, who was educated at Fairleigh Dickinson University and the University of Virginia Law School, worked his way up through New Jersey politics before winning the Ninth Congressional seat in 1976. His list of offices include a seat on the East Rutherford Borough council, 4 years in the New Jersey State Assembly, and 2 years as a New Jersey State senator.

During my years of association with CAPPY HOLLENBECK, I have always found him to be cooperative and innovative in addressing the problems facing our home State. During his three terms in Congress, CAPPY has been a Representative in the fullest sense of the word, working to accurately gage the feelings of his constituency and reflecting those views in the Chamber.

As one concerned about encouraging our Nation's scientific and technological base, CAPPY is well known for his attempts to persuade his colleagues to embrace some of America's most important research projects. During the 96th Congress, he won passage of an amendment restoring adequate funding for an automatic manufacturing research facility, which, he argued convincingly, would help the Nation compete with the Japanese. He also proposed in 1980 that lists of Federal scientific grants carry descriptions of the ultimate goals of their research, so that Members could be made aware of the potential value of these various projects.

CAPPY has maintained an objective, independent pattern of evaluation throughout the 6 years he has been in Washington, always placing the needs of his district and the Nation at large ahead of partisan considerations. He has demonstrated, through his every action as a Congressman, that he is fully aware of his responsibilities as an elected official. CAPPY is a true public servant, and I for one will deeply miss his companionship in the New Jersey delegation.

Mr. DOWNEY. Mr. Speaker, will the gentleman yield?

Mr. COURTER. I yield to the gentleman from New York.

Mr. DOWNEY. Mr. Speaker, I want to rise in support of my friend, CAP HOLLENBECK. I will miss him. It is sometimes hard to get over the partisan walls that we erect, but CAP has been a reasonable and a good Member of Congress, and I think that the State of New Jersey will miss him.

I will particularly miss playing baseball against CAP HOLLENBECK. CAP had a rare ability at shortstop to see a ball that was batted to him and quickly get out of the way. This reminds me a lot of someone who would play dodgeball. Actually, CAP's job was to catch the ball, which he did also very well.

I will miss him primarily as a legislator, but also a baseball player.

Mr. COURTER. I thank the gentleman.

Mr. RUSSO. Mr. Speaker, will the gentleman yield?

Mr. COURTER. I yield to the gentleman from Illinois.

Mr. RUSSO. Mr. Speaker, I want to think the gentleman for taking this special order, and I certainly want to be here this evening to pay tribute to a hard-working, dedicated gentleman from New Jersey.

I, like my dear colleague from New York, have had many experiences on the baseball diamond. In fact, I believe one of my first hits on the baseball field was because CAP could not move his legs fast enough to get to the ball. In fact, the second time up I decided that the best thing to do was to try it all over again. The trouble was, I hit it a little bit harder. CAP got the ball, but could not throw it.

CAP, I am going to miss you. My batting average would have been much better if you had stayed and had you played shortstop again this year. In fact, we heard rumors when we first came to Congress that you would be the pitcher, and God only knows how well we would have done had he pitched the ball, because, if he could not throw it 60 feet he would have a heck of a time throwing it 90 feet.

CAP, we are going to miss you. We hope to have an old-timers' game where we bring the bases in closer and the pitching in closer and give you extra swings at the plate so that you can do something about your anemic batting average of 0 for 10. We are going to miss you.

Mr. COURTER. I thank the gentleman for his contribution. Those are valuable contributions. I did not know too much about that area of expertise which the gentleman from New Jersey has.

Mr. Speaker, I appreciate the opportunity for this Special Order so that I may rise to honor a fine and noble public servant, the gentlelady from New Jersey, MILLICENT FENWICK.

Congresswoman FENWICK's distinguished career in government began as a member of the Bernardsville Borough Council for 7 years, as the director of consumer affairs for New Jersey, and later, as a representative on the New Jersey State Assembly.

During her 8 years in Congress, she has earned an impeccable reputation for integrity. And, as a legislator, she may best be remembered as a champion of human rights—be it a cause for the elderly, women, or the less fortunate. Her voice has become synonymous with the people's, and her concerns represent the concerns of humanity. Indeed, she raised the consciousness of each of us here in this Chamber with her scorn of special interest contributions.

MILLICENT FENWICK has always reminded us that we first are responsible to those we represent, and their interests should always be our first priority.

Forever to be remembered as the inspiration for the elegant and composed Doonesbury character, Lacy Davenport, her contrasting outspoken and independent manner have endeared her to many.

Her constituents, the citizens of New Jersey, and this Nation regret the loss of this dedicated and honorable stateswoman. Speaking for myself, I have every respect and fondness for MILLICENT FENWICK, and I hope for the benefit of our home State of New Jersey that she will remain active in the civic and social causes she has always championed.

We, her colleagues in the House of Representatives, and in particular, the members of the New Jersey delegation, consider it a privilege and an honor to know and serve with MILLICENT FENWICK.

Finally, I would like to thank her for her many years of outstanding leadership and unselfish devotion to her country, and I ask God's blessings for her and her family in the many years to come.

● Mr. MINISH. Mr. Speaker, I am sorry to be marking the close of the term of my friend "CAPPY" HOLLENBECK of New Jersey. I have truly enjoyed the companionship of this amiable man, and I have been very much impressed with his tireless service of his constituents. CAPPY is not a partisan soul, and it has been a pleasure to cooperate closely with him on very many occasions. He has always been diligently on the job for the people who sent him to Washington.

CAPPY HOLLENBECK is a person who looks forward, not back, so it is most appropriate here to consider the

future. I would like to think that his public service career is only just beginning, and that our State and the Nation will be able to draw on his talents in the days to come. Typically, CAPPY has lately been warning us about the importance of sustaining a civilian space program adequate to the needs of the future, and I understand that he intends to keep us aware of this issue, which is too often liable to be neglected in the face of immediate demands. Perhaps this care for the future of the country is the single most impressive characteristic of the public service of my friend and colleague from New Jersey.

Mr. Speaker, it has been an honor to serve with CAPPY HOLLENBECK, and I heartily join all our colleagues in wishing him well in the days to come.●

● Mr. CARMAN. Mr. Speaker, it is a pleasure today to rise and pay tribute to MILLICENT FENWICK who has been a Member of Congress since 1975. MILLICENT has served with distinction and dedication in the Congress and on the Foreign Affairs and Education and Labor Committees. Her unique enthusiasm, her dignity, and her charm have made it a special pleasure to serve with her in the Congress. I wish her all the best in her future endeavors.●

● Mr. FORSYTHE. Mr. Speaker, it is with regret that I have to rise today to honor my friend and long-time colleague, the Honorable HAROLD C. HOLLENBECK, who was defeated on November 2, 1982. CAPPY and I served together in Trenton at the State legislature and I was glad to welcome him to this Chamber when he was elected to serve New Jersey's Ninth Congressional District for the 95th Congress.

In the House, we served together on the Science and Technology Committee and he also provided valuable assistance to the people of the State of New Jersey through his work on the House Public Works and Transportation Committee and on the House Select Committee on Aging. He has never failed to tend to the needs of his district or the needs of the Nation.

To a large extend CAPPY's defeat was the result of his newly created Ninth District. He had a district that was comprised of 60 percent new territory and that was heavily Democratic. He campaigned hard and the victory was not easy for his Democrat opponent. However, that is a tribute to CAPPY and the hard work he has done in Congress for his constituents and the State of New Jersey.

He is a dedicated public servant and I am sorry to see him go. This House and our State will miss his good services, but I know that however CAPPY chooses to spend his energies in the future will be successful and profitable. I wish him the very best in the years to come.●

● Mr. SENSENBRENNER. Mr. Speaker, I would like to take this opportunity to recognize the 6 years of meritorious service given to the Ninth District of New Jersey and the Nation by Congressman HAROLD "CAP" HOLLENBECK.

I had the pleasure to serve with Congressman HOLLENBECK on the Committee on Science and Technology during the past 2 years. His contributions to this committee have included work on long range energy and mineral policies as well as oversight on several NASA projects, including the space shuttle.

Congressman HOLLENBECK is also active on the House Committee on Public Works and Transportation and the House Select Committee on Aging. Within the Public Works and Transportation Committee, "CAP" HOLLENBECK enhanced his ability to make Federal spending decisions for major projects such as water resources, airport development, and the Federal highway program.

Congressman HOLLENBECK has had a distinguished career in public life. After a distinguished tenure in the New Jersey State Legislature and State senate, "CAP" HOLLENBECK ran for Congress in 1976, winning in a district where Republicans had failed to win in over a decade. Congressman HOLLENBECK maintained his seat in Congress with decisive victories in 1978 and 1980 as well.

Mr. HOLLENBECK has been granted many honors by New Jersey organizations. He received the New Jersey Veterans of Foreign Wars "Outstanding Legislator of the Year" award, and the New Jersey Young Republicans' "Man of the Year" award.

I join my colleagues in the House to honor Congressman HOLLENBECK and wish him the best of luck in his future endeavors.●

● Mr. DERWINSKI. Mr. Speaker, I am especially pleased to have the opportunity to join in honoring one of our colleagues, the gentlewoman from New Jersey, MILLICENT FENWICK. I have had the pleasure of serving with MILLICENT for the past 8 years, and I am confident that her absence from this body will surely be felt in the years ahead.

As fellow members of the House Foreign Affairs Committee, I can attest to the many contributions which MILLICENT has made in the areas of human rights for Soviet Jews and for other political prisoners held captive by Communist totalitarianism.

MILLICENT has distinguished herself as an effective spokesperson for prison reform and civil rights. Her legislative skill on the Education and Labor Committee has been instrumental in the improvement of employment standards and the development of educational opportunities for many. Her dynamic style in representing her constituents in New Jersey's Fifth District has earned her national attention. She has served with a vigor which is stimulating to those of us who have had the opportunity to serve with her.

MILLICENT has lent her name to causes which she believes best represent good government and will improve the quality of life for the average American. No finer description can be attributed to MILLICENT, than to say that she was always tirelessly dedicated, refreshingly honest, and clearly outspoken on issues of deep concern to her.

I extend my best wishes to MILLICENT, and commend her on executing her duties with great distinction. Her devotion as a public servant will long be remembered in the Congress and by the people of New Jersey and the country.●

● Mrs. ROUKEMA. Mr. Speaker, when the new Congress convenes in January, one of the most effective voices on behalf of the people of New Jersey will not be present. Although Congressman HAROLD "CAP" HOLLENBECK is leaving Congress, I know that he will be warmly remembered because of his advocacy of issues and causes that would directly benefit the people he represented.

CAP HOLLENBECK came to Congress with a solid background in local government, having served on the East Rutherford Borough Council and in the New Jersey Assembly and the New Jersey Senate. Following his election to Congress in 1976, he quickly established a reputation as a man who worked doubly hard for his constituents and as a national leader on defense, veterans affairs, and science and technology issues.

Since we both represent portions of Bergen County, I was able to work closely with CAPPY on a number of issues of mutual interest to our constituents. He was instrumental in obtaining grants to help keep energy bills down in his district; he worked tirelessly to obtain additional funds for senior citizen housing in Bergen County. He was always accessible, meeting with local organizations and individuals whenever they had a problem or wanted to voice their views on legislation.

I will never forget the courtesy he extended to me as a new Member of Congress; CAP was most helpful during the transition period in 1980 and remained helpful whenever asked throughout my first term. Our district offices worked together frequently on a variety of Bergen County issues and, as most people would recognize, he was more interested in getting something accomplished than in taking credit for it.

CAP HOLLENBECK is recognized as a leader on science and technology issues, particularly as an advocate of a strong civilian space program. He has

indicated his continuing interest in this particular issue, and I know our country will be the better for it.

He also established himself as one of the outstanding spokesmen on behalf of the people of the Northeastern States. He recognized the economic and structural problems that particularly affect our region of the country, and he was among the first to seek a more balanced national budgetary policy that would treat the people of the Northeast more fairly. He spoke out often on behalf of mass transit, not only because it is so critical to the people of northern New Jersey, but also because it is a problem common throughout the older urban areas of the northeast.

CAP HOLLENBECK is as involved with his constituents as any Member of Congress serving today, yet he has found time to make a mark as an effective spokesman for his region. He has always been gracious and helpful to me, and I will miss him when the new Congress convenes next year.

But those of us who served with CAPPY also know that he will continue to be heard on national policy issues, and in that endeavor we wish him the best of luck and success.●

● Mr. GILMAN. Mr. Speaker, I rise today to pay tribute to one of our colleagues and a good friend who will not be with us for the next Congress. I am, of course, referring to Congressman HAROLD "CAP" HOLLENBECK of New Jersey, and I thank my distinguished colleagues, Messrs. FORSYTHE and COURTER, for giving us all the opportunity to say a few words about "CAP."

Congressman HOLLENBECK came to the Congress in 1974, and has admirably served the people of our neighboring Ninth District of New Jersey for these many years. His involvement with his committee assignments is well known, as transportation and public works matters are vital to our region of the Northeast. Furthermore, his interest in science and technological matters is basic as well, since this day and age forces us to consider the computerization of our offices, and certainly CAP has ably assisted his constituents in understanding Federal actions regarding these matters. His third committee assignment, that of the Select Committee on Aging, reflects his concern for the senior citizens of our country, and their unique and special needs, most especially at this time of the year, when heating bills begin to skyrocket and the necessary fruits and vegetables become ever more dear for those on a fixed income. I know that they join with me in thanking CAP for his dedicated years of service on the Hill, and wish that he was not leaving.

I had the pleasure of working with CAP HOLLENBECK on a matter that is of great importance to us both—that of our POW's and MIA's. CAP's tireless efforts on their behalf is legendary, and his involvement with a day of recognition for them has been salutory. Certainly, the outcome of that legislation would not have been as successful had CAP not been involved, and I suspect that he will continue contributing to the welfare of our senior citizens and those still unaccounted for in Vietnam when he returns to the private sector. I, for one, look forward to his having the benefit of expertise in matters of importance to the New York metropolitan area, and so I wish him well, and look forward to seeing more of CAP HOLLENBECK in the months ahead.●

● Mr. ERLENBORN. Mr. Speaker, the gentlelady from New Jersey (Mrs. FENWICK) will soon be leaving this Chamber, but it will be a long time before she is forgotten. Gentle though she is, she has also been a formidable friend or foe, depending on whether you agree with her, because her stand on any given issue always stems from a heartfelt conviction. More often than not in my case, she has been a friend, a friend I have been proud to have on my side both on the Education and Labor Committee, where we have served together, and on the House floor.

Her perseverance has made her an effective legislator and a true representative of her constituent. Thus, I join in bidding a fond farewell to MILLICENT FENWICK, a fabulous lady whose fortitude and flair for forthrightness, fairness, and freshness will echo in this House and in our hearts for years to come.●

● Mrs. HOLT. Mr. Speaker, with the close of the 97th Congress we will be losing one our most erudite legislators, MILLICENT FENWICK. Throughout her illustrious career MILLICENT has championed the causes of social justice, consumer affairs, civil rights, quality education, and a drug free society. She has represented her New Jersey district and our Nation in the finest tradition. I am proud to have served in the Congress with her and I want to wish her the very best in all that the she may do in the future. We will miss her.●

● Mr. CONTE. Mr. Speaker, with great pleasure, but a sense of deep loss, I join with my colleagues in paying tribute to two of the Garden State's finest representatives, MILLICENT FENWICK and CAP HOLLENBECK.

With the loss of MILLICENT FENWICK, there will be a void in this Chamber that will never be filled. Never before has there been in one Congressman or woman such a combination of intelligence, integrity, insight, poise, and charm. Through her legislative work, her enthusiasm, and her countenance, she has made believers of the doubters of this Congress; she has been a spokeswoman for good government by being a model legislator.

HAROLD "CAP" HOLLENBECK has been another good friend of mine in the Congress whose departure represents another great loss for this body and for the Republican Party. CAP and I got to know each other on the GOP baseball diamond, where he always responded enthusiastically to the question, "Who's on second?" Fortunately for his New Jersey constituents, however, CAP has been a much better legislator than second baseman. A hardworking member of the Science and Technology Committee, CAP is one of the most knowledgeable people on the space program in the Congress. Above all, CAP is a man of his word who votes his conscience, and he has been a credit to his district and his party.

With the departure of these two great legislators from this body, the moderate wing of the Republican Party will be a little fewer in ranks, but a lot stronger in our resolve to bring more people like MILLICENT and CAP into the party, and into the Congress. I salute them both on their accomplishments, and wish them many years of happiness and prosperity in whatever paths they choose to follow.●

● Mr. DWYER. Mr. Speaker, I join today in a well-deserved tribute to two of my colleagues from New Jersey, MILLICENT FENWICK and HAROLD HOLLENBECK.

Mrs. FENWICK has been a most dedicated voice for the people of New Jersey throughout her distinguished career, exhibiting time and time again her commitment to equity and justice for all people.

That commitment has transcended our own borders; Mrs. FENWICK has been one of this body's most ardent advocates for human rights worldwide, and her vision and experience as a member of the Committee on Foreign Affairs will be missed, to be sure.

In fact at every level she has served, beginning with the Bernardsville Council and culminating in 8 years representing New Jersey's Fifth Congressional District, MILLICENT FENWICK has been a credit to her office.

Mr. Speaker, I also rise today to pay tribute to my distinguished colleague from the Ninth District of New Jersey, the Honorable HAROLD C. "CAPPY" HOLLENBECK.

CAPPY HOLLENBECK came to the Congress in 1976 and has represented his constituents with compassion and with hard work for the last 6 years. There has never been any question where CAPPY stands on an issue: he stands squarely on the side of the people of his district, looking out for their best interests to the best of his ability.

In the 6 years in Washington, CAPPY HOLLENBECK has done some outstanding work on both the Public Works

Committee and the Science and Technology Committee. He has been a crucial and active member of the Select Committee on Aging. And his contributions will surely be missed by the Northeast-Midwest Congressional Coalition.

In everything CAPPY HOLLENBECK has done in public life he has always been a success, made a positive contribution. Today, as we pay tribute to him as he leaves public office, I feel confident that he will continue to contribute, through whatever means he considers appropriate.

After 6 years, I congratulate my colleague on a job well done and wish him all the best as he begins yet another phase in his distinguished career.●

● Mr. SMITH of New Jersey. Mr. Speaker, I rise this evening to pay tribute to two outstanding Members of this body—MILLICENT FENWICK and HAROLD "CAPPY" HOLLENBECK.

Both legislators will not be among our ranks when the 98th Congress convenes next January. Indeed, the State of New Jersey and the people of the Fifth and Ninth Districts, respectively, have lost two very able, competent, and highly respected Members of the House of Representatives.

Mr. Speaker, MILLICENT FENWICK is loved and admired by many. She is outspoken, witty, and above all candid. She has been a champion of procedural reform in this House and a leader in the fight to safeguard the rights and privileges of the minority party. This is particularly relevent when one considers the unwholesome and unjust rule changes that the majority party hopes this body will adopt next January. MILLICENT, we will miss you in that debate.

Mr. Speaker, MILLICENT has had a long and distinguished private and public career. She was a career woman long before the term was coined, long before it became fashionable and the status quo. She was an editor for Vogue magazine, served from 1958 to 1964 on the Bernardsville Borough Council, served in the general assembly from 1969 to 1972, and as director of consumer affairs from 1972 to 1974. MILLICENT has served in Congress since then and as a testimony to her enviable hometown popularity she received a whopping 78 percent of the vote in 1980 from the voters of the Fifth District.

Mr. Speaker, we also justly honor this evening a man that I have come to know, and respect, my good friend, HAROLD "CAPPY" HOLLENBECK.

CAPPY's three successful terms in the House follow years of civic involvement and participation. A practicing attorney, CAPPY was Carlstadt's prosecutor from 1966 to 1967 and served on East Rutherford's Council from 1967 to 1969. He moved up to the State legislature in 1968 and served in the general assembly until 1971, and in the State senate until 1973.

Mr. Speaker, CAPPY HOLLENBECK has worked hard to stay in close touch with his constituents. Through his mail and personal contact, he has reached out to provide superb constituency services for his district. CAPPY is known here in Congress for his moderation, perspective, and keen sensitivity to budget priorities that place the poor, destitute, and disadvantaged at the top of the list.

CAPPY is a skilled legislator, a man who has much to offer. He, like MILLICENT, will be missed in these Halls.●

● Mr. HUGHES. Mr. Speaker, I am happy to hage ve this opportunity to pay tribute to MILLICENT FENWICK for her outstanding service in the House of Representatives.

Since her election in 1974, MILLICENT has been one of this body's most hard working and dedicated Members. One has only to see her familiar figure hustling through the Halls of the House buildings, or to observe her tenacity in a committee hearing room, or to hear her eloquence on the House floor to appreciate what a fine legislator we will lose at the end of this Congress.

Having had the privilege of working with MILLICENT on the Aging Committee, I have had the opportunity to observe firsthand the active and enthusiastic participation which has characterized all her committee work. For 8 years, she has been one of the House's strongest and most effective voices for the rights of senior citizens and women, and, above all, for good government. Her genuine concern for the people of New Jersey, and, indeed, for people everywhere, is evident in all she does, from her work to create the Helsinki Commission to her fight against reductions that hurt the poor, needy & handicapped.

I only hope that, when the time comes for me to conclude my service in Congress, I can say that I have conducted myself with as much dignity, class and grace, as MILLICENT FENWICK has in the time she has served here. The New Jersey delegation, and the entire House of Representatives, will certainly be poorer for her absence.●

● Mr. ROUKEMA. Mr. Speaker, today we pay tribute to one of our most distinguished and beloved retiring Members, MILLICENT FENWICK—a legendary figure who will be irreplaceable in the hearts of her fellow New Jerseyites.

As we honor MILLICENT today, I cannot help but think back to the first time we met in 1970. Assemblywoman FENWICK was addressing the New Jersey School Boards Association and then—as now—she totally captivated the audience. Many of us who met her that day were very pleased when she was elected to Congress in 1974. We knew she would bring the same concern, commitment and compassion to her job that she had already brought to the State assembly and the State government as our first director of consumer affairs.

She had an established and distinguished record at the local level in Bernardsville, N.J., as a member of the school board and the borough council. She was elected to two terms in the State assembly when she became the first consumer affairs commissioner in the State of New Jersey—indeed, one of the first in the country. She helped draft and implement landmark consumer legislation that has since directly benefited millions of citizens throughout our State.

When MILLICENT FENWICK came to Congress in 1975, those of us who knew her were not disappointed. She was not one to sit quietly and let others guide her decisions; instead, she quickly established herself as an outstanding Congresswoman with a national reputation.

Her record over four terms speaks for itself. She authored the bill creating the Helsinki Commission; she established a leadership position in our successful fight last year to eliminate additional funding for new nerve gas production. One of her most outstanding achievements has been a reduction in the marriage tax; this was literally a labor of love for MILLICENT since she came to Congress. She has distinguished herself as a member of the Foreign Affairs Committee, and she recently helped author changes within the Export Trade Act. Since we both serve on the Education and Labor Committee, I have also had the opportunity to see firsthand her commitment to protecting Guaranteed Student Loans for those students who need assistance. And I have been proud to cosponsor her landmark legislation that would encourage home health care for senior citizens, thus replacing expensive, impersonal nursing home care. Her record is a varied and compassionate one, consistent in its fiscal responsibility and sense of humaneness.

On a personal level, MILLICENT FENWICK has become a role model for millions of women across the country. Long before there was a women's movement, there was MILLICENT FENWICK leading by example and leading by doing. She first established herself in the business world through her accomplishments and then went on to government to create a similarly outstanding record.

She is friend, trusted and respected in New Jersey, in Washington, and throughout the United States. One cannot really do justice in explaining the kind of warm, friendly, and committed woman that is MILLICENT FENWICK. I can only state for myself that it has been a rare honor to serve with her and work with her on a day-to-day basis.

Many have asked about Mrs. FENWICK's future plans. All of us are sincerely interested that we continue to benefit from her enormous reservoir of talents. It is my earnest hope that the administration will act in its own enlightened self-interest and appoint MILLICENT FENWICK to one of the numerous positions where she can continue to ably serve her country and mankind. And so, MILLICENT, I say good luck, godspeed, and thank you for all you have done.●

● Mr. ROE. Mr. Speaker, the House of Representatives is the greatest deliberative body in the world. Its 435 Members serve as a direct link between the people and the Federal Government. That is indeed a heavy responsibility. Working together on a daily basis, the members of this body are indeed a unified family dedicated to the needs of others.

It is a sad occasion when members of any family depart. And that is indeed the case with two members of my immediate family, HAROLD "CAP" HOLLENBECK and MILLICENT FENWICK, both key Members of the New Jersey congressional delegation.

CAP and I have been close friends since he first came to Congress in 1976. I have found him to be a hardworking young man strongly dedicated to the needs of his congressional district, his State, and his Nation. The truth of the matter is there are just not enough hours in the day to suit CAP HOLLENBECK when it comes to serving the people he represents.

As a key Republican member of the House Science and Technology Committee, CAP HOLLENBECK has become a national leader in the bipartisan fight to save funds for scientific research and the space program from the Reagan administration's budget cutting block. CAP has always put peoples needs ahead of party politics. For example, he was only one of five Republicans to oppose a 1980 Republican amendment that would require persons with incomes above the poverty level to reimburse the Government for food stamps they received during times of economic hardship.

I for one will miss his warmth, his spirit and his drive as this body tackles the plethora of problems facing this great Nation over the next 2 years.

MILLICENT FENWICK has become a symbol over the past 8 years as what is good and right about Government. As perhaps the most recognizable figure in Washington outside of the President, her words and actions have received enormous coverage by the national press. And this gracious lady has thankfully utilized that notoriety to seek better lives for the less fortunate of the world.

As a member of the House Foreign Affairs Committee she was one of the original authors of legislation that resulted in the creation of the historic Helsinki Commission pressure on the Soviet Union to guarantee human rights for the millions living under their tyranny.

MILLICENT FENWICK brought a uniqueness to this body that will be irreplaceable. Whenever she rose to speak on this floor, her words drove right to the heart of the matter. And whether or not we agreed with what she said, we all appreciated the honest manner in which she approached her work.

A love of New Jersey is deeply imbedded in MILLICENT FENWICK. I am confident that New Jersey will play a key role in whatever she decides to do in the future.●

● Mr. BEREUTER. Mr. Speaker, I want to take this time to add my thoughts to those of a great many other colleagues who have served over the past 8 years with the distinguished gentlewoman from New Jersey, MILLICENT FENWICK.

During her most notable tenure in the House of Representatives, MILLICENT has very ably served her constituents in New Jersey's Fifth District. But her constituency has not ended there. MILLICENT has spoken eloquently on behalf of the poor, of minorities, of women, and on behalf of a great many other Americans. She has not hesitated to take on difficult issues with her characteristic zeal. On many occasions MILLICENT FENWICK has served as a conscience for this body, and she has earned the respect and admiration on both sides of the aisle.

When MILLICENT FENWICK leaves the Congress at the close of this 97th Congress she will have completed 24 years of public service. We shall miss her, but we know that her years of outstanding service to her State and to the Nation will continue in other ways.

There are those who maintain that service in Congress is the capstone for those who choose lives of public service. While it is true that this chamber will be poorer without MILLICENT FENWICK, the world beyond these rarified halls will be richer. MILLICENT has graciously pledged her continuing activism and commitments to goals of equality and compassion. There should, therefore, indeed be celebration instead of sadness because of the wide public arena that awaits her.●

● Mr. GUARINI. Mr. Speaker, I am most pleased to join our colleagues in honoring Congresswoman MILLICENT FENWICK, who will be leaving Congress at the end of this term. It seems that everyone in the Nation knows of this refreshingly witty and delightful woman, who has graced the Halls of Congress these past 8 years. I am most proud to represent the community where she spent some of the early years of her life—Hoboken, N.J.—where she still serves as a trustee at the Stevens Institute of Technology, one of America's most prestigious engineering schools.

Mrs. FENWICK's record of compassion and genuine concern for her constituents, couched in her inimitably frank style, has won for her many admirers among the people of her district, her State, and all those who care about people. She is urbane and sophisticated, yet she has a remarkable empathy for the problems of the typical man in the street. I am honored to have been able to work with her at two levels, both in the statehouse in New Jersey and here in the U.S. Congress. I must confess I have always been an unabashed admirer. She is a Representative of strong convictions, yet she is flexible enough to listen to both sides of an argument. We are losing one of our most colorful Members, yes, but we are also losing one of our most capable and conscientious Members as well.

New Jersey, and indeed, the entire Nation, is proud of Mrs. FENWICK. As a consumer advocate and as a strong proponent of fair civil rights law, she leaves a legacy of which any Congressperson would be proud.

I only hope that Mrs. FENWICK will not restrict her remarkable statesman qualities to her Bernardsville home. Her tremendous abilities and flawless reputation for honesty and compassion would suit her ideally as a representative of this country in some challenging capacity. I look forward to hearing more from MILLICENT FENWICK, the living legend who leaves her mark as a valuable national treasure.●

● Mr. FORSYTHE. Mr. Speaker, as dean of the New Jersey Republican delegation, I appreciate this opportunity to pay tribute to a very great lady and dear colleague, MILLICENT FENWICK.

So much has been written in the national press about her character, her dedication, her integrity, her candor and her wit—and I am glad I have never been on the receiving end of one of her retorts. It is one thing to read about such a character, but it is quite another to have been able to work with her at both the State and national levels and to call her a friend. I have known MILLICENT for more than 20 years. She spoke at my first campaign fundraiser many years ago. Her service to her hometown of Bernardsville, to Somerset County, and to the State of New Jersey in the State assembly, as director of consumer affairs and as vice chairman of the New Jersey Committee for the U.S. Commission on Civil Rights has been inspirational. Her service to her constituents of the Fifth Congressional District is legendary.

Throughout her 8 years in Congress, she has spoken out for the little people, for fairness, decency, and compassion. Above all, she has sought to

prevent Government from trampling on the rights of the individual. She has carried this theme to the House Foreign Affairs Committee where she has worked hard to promote the cause of justice internationally.

It is exceedingly unfortunate in my view that MILLICENT was denied the Senate seat she sought this year. New Jersey and the Nation have lost a grand and eloquent voice in the Congress and I will miss her when we convene again next January.●

● Mr. RHODES. Mr. Speaker, I am very pleased to join in this special tribute to Congresswoman MILLICENT FENWICK. MILLICENT has been an important Member of the House and I had hoped that she would be successful in her bid to bring her unique qualifications to the Senate. It is, indeed, unfortunate that this will not be. She has that rare quality I call style, which added much to the House, and would have been even more noticeable in the Senate.

Her limitless interest in the pressing issues before the Congress and her tireless efforts on behalf of her constituents are well known to all who have had the privilege of working with her.

MILLICENT contributed frequently to the proceedings on the House floor and in committee meetings with sincere eloquence. Her powers of gentle persuasion were most effective. She championed her causes in a direct and heartfelt manner. MILLICENT FENWICK can take justifiable pride in the fine record she established during her tenure in the House.

Betty joins me in wishing Congresswoman FENWICK well in her future endeavors.●

● Mr. SENSENBRENNER. Mr. Speaker, I would like to take this opportunity to commend Repesentative MILLICENT FENWICK for her 8 years of meritorious sevice to the Fifth District of New Jersey and the Nation.

When Mrs. FENWICK entered Congress in 1974, she brought the House of Representatives a distinct kind of class and elegance. But she also proved to be an effective legislator. Often called the conscience of Congress, Mrs. FENWICK has demonstrated her intergrity and honesty by steering clear of the world of political skulduggery.

Although her knowlege of procedural processes is limited, Mrs. FENWICK is involved in a wide range of legislative endeavors in which her comprehension of the issues is formidable. Serving on the House Foreign Affairs Committee, she worked to create the Helsinki Committee to maintain pressure for human rights.

Representative FENWICK also serves on the House Committees on Education and Labor and The House Select Committee on the Aging. Her work on the House Select Committee on the Aging is especially renowned, and her devotion to the rights of senior citizens is very admirable. For example, Congresswoman FENWICK is promoting a piece of legislation which would allow senior citizens to receive Federal health care benefits at home while saving the taxpayers billions by reducing costly hospital and nusing home care programs.

Representative FENWICK has always been an advocate of eliminating foolish or ridiculous legislation in Congress. Her nationally renowned campaign against the so-called marriage tax, and subsequent victory is testimony to her devotion to the commonsense principle of legislation.

Mrs. FENWICK has had an admirable history of public service. From championing causes of civil rights, prison reform, and conservation in the New Jersey State Legislature to championing the causes of consumers as the director of New Jersey's division of Consumer Affairs; MILLICENT FENWICK has demonstrated that she lives up to the Almanac of American Politics' summation of her mission to "go where she can be of service".

I join the other Members of Congress in paying my respect to this very distinguished lady and legislator.●

● Mr. CONTE. Mr. Speaker, with the end of each Congress, each of us comes to the well of the House to reflect on the achievements of our colleagues who will not be continuing their service in the next Congress. Each time we take the well, it is with a note of sadness, but this time for me it is particularly painful. Not only am I losing two great friends, but I will also be without two comrades in arms who have shared ideology and sense of purpose with me throughout their congressional careers.

Without MILLICENT FENWICK, the Halls of Congress will be a little less friendly and a lot less elegant. Throughout her congressional career, MILLICENT has been one of the chief spokesmen for "good government" by being a thoughtful legislator. Her support for this institution has at its root a love of the American people and their Govenment.

She has led the unending struggle for equal rights and equal opportunity for all our citizens. In so doing, she has been the most eloquent spokesman for what is good about the Congress. No one has done more than MILLICENT FENWICK to prove that human concern and republicanism are allies rather than adversaries. While I am certain that here convictions will not allow her to rest on her laurels, it is my sincerest hope that she will continue to be an example for all public servants, male and female, Republican and Democrat alike, through her works and deeds.

Thank you, MILLICENT, for giving me the opportunity to serve with you. It has been one of the highlights of my congressional career.

Another great friend leaving at the end of this Congress is HAROLD "CAP" HOLLENBECK. Playing on my GOP "Nasty Nine" since he first arrived in Congress, CAP has answered affirmatively and enthusiastically to the perennial question "Who's on second?" Fortunately for his constituents, however, CAP has been a much better legislator than second baseman.

Through his work on the House Committee on Science and Technology, CAP has become one of the most knowledgeable Members of this body on the space program. His expertise in that area will be missed by his colleagues on both sides of the aisle.

Above all, CAP has been an honest politician and a man of his word. We Northeastern Republicans have been through some tough times these past few years. Through it all, if CAP said he was on my side not only did I know he would deliver, but moreover I knew I was doing something right.

Mr. Speaker, I join with my colleagues in wishing MILLICENT and CAP all the happiness and success they so richly deserve.●

● Mr. RHODES. Mr. Speaker, I am pleased to join the special order paying tribute to HAROLD "CAP" HOLLENBECK. It is indeed disappointing that the recent redistricting in New Jersey had such a devastating effect on CAP's political fortunes.

CAP HOLLENBECK worked hard for his constituents during his time in office and he will be missed by the people of his district, as well as by his colleagues in the Congress. He has many friends here who wish him well. I am one of them.●

● Mr. RODINO. Mr. Speaker, I want to take this opportunity to pay tribute to two very fine members of the New Jersey Congressional delegation who are leaving Congress at the end of this term. MILLICENT FENWICK and HAROLD HOLLENBECK are dedicated public servants who have made many contributions to their State and their country.

Since she first came to the House in 1975 Congresswoman FENWICK has been an outspoken advocate of international human rights and good government. As a member of the Foreign Affairs Committee, she fought for the establishment of the Helsinki Commission to monitor human rights violations throughout the world, and she has been an ardent supporter of civil rights here at home.

The House will surely miss Congresswoman FENWICK's eloquence, honesty, and wit during our debates. We in the New Jersey delegation will miss the humor she provided at many of our meetings. Her constituents will miss the personal attention she gave them during her countless hours of service.

Congressman HOLLENBECK has established a record of independence and compassion during his 6 years in the House. His work on the Science and Technology Committee has been marked by his strong commitment to the advancement of scientific research in America, and he has used his position on the Public Works and Transportation Committee to fight for forwardlooking programs that will benefit not only New Jersey but the entire Nation.

On budget issues, Congressman HOLLENBECK has courageously raised his voice as an advocate of the disadvantaged, the elderly and the minorities of our country. We will miss his sensitivity and intelligence on the issues that mean life or death to the most vulnerable in our society.

I am proud of the service performed by MILLICENT FENWICK and HAROLD HOLLENBECK for their State and their country, and I join with my colleague in wishing them all the best as they leave the Congress to pursue other interests.●

● Mr. GREEN. Mr. Speaker, I want to join my colleagues in paying tribute to our distinguished Members from New Jersey, MILLICENT FENWICK and HAROLD "CAP" HOLLENBECK, whose retirement we sadly acknowledge. They have served their State and country with distinction and will be sorely missed in the 98th Congress.

I rise today to express to them a deep sense of appreciation for their years of dedicated service to this body and to this Nation. As moderate Republicans representing the Northeast, we have worked together on many occasions and I have admired their work for the people of New Jersey.

MILLICENT FENWICK has been and, I am sure, will continue to be a fervent Republican. She is a person of irresistible character, outspoken and elegant at all times. On the Foreign Affairs Committee, she worked to create the Helsinki Commission to maintain pressure for human rights. She introduced a bill to end the "marriage penalty" in tax law, and sponsored legislation to keep the food stamp program from having its funding cut. She opposed military aid to Vietnam but remained active in fighting human rights violations there.

I have had the pleasure of working closely with CAP HOLLENBECK on many issues. During the debate on the first budget resolution last May, CAPPY and I offered an amendment to the Jones budget resolution to reduce the levels of defense spending. On the Science and Technology Committee, he has fought hard to save funds for pure research and argues against the funding cutbacks that the Budget Committee and the administration have tried to enact. He, too, is outspoken and willing to take a stand for the people of New Jersey.

It has been a privilege to know and work with both MILLICENT and CAPPY. They have served with integrity and commitment and have set an example for us all to emulate. I join my colleagues in wishing them the best in their future.●

● Mr. GUARINI. Mr. Speaker, I am proud to join my colleagues in tribute to "CAP" HOLLENBECK, who represented for 6 years the good people of the district which neighbors mine in New Jersey. Coincidentally, his Capitol office is just down the corridor from mine as well, so I often had the chance to enjoy his company on our weekly flights back home and during many trips over to this Hall. CAPPIE is one of the warmest, most concerned individuals I have ever known; he has won many friends here both on and off the Hill. These friendships have no limit in party affiliation, for, above all, CAP HOLLENBECK's character and genuine care for his constituents defies partisan boundaries.

CAP has been an articulate and outstanding spokesman for the people of Bergen County and all New Jersey. As a Congressman he showed his concern for all by dedicating himself to helping the young, the old, the poor, handicapped people, and all those who look to us in Washington to help guarantee for them a dignified lifestyle. CAP HOLLENBECK was faced with a series of difficult choices in this last term in Congress when his party urged him to cut the programs on which many of his people depend. In the end, CAP HOLLENBECK decided that his constituents needed his loyalty more.

CAP HOLLENBECK was always most interested in being a good Congressman for all the people of his district. He has served his people well in the halls of Congress. While I shall miss his company here, I am looking forward to seeing him often back home in New Jersey. Best of luck, CAP, in your new adventures, wherever they may lead you.●

● Mr. CARMAN. Mr. Speaker, I rise today to honor CAP HOLLENBECK who will be leaving Congress this year at the end of his third term. CAP has served with distinction during this 6-year period. As a member of the Aging Committee he worked hard in support of the Older Americans Act and as a member of the Committee on Science and Technology he has been a crucial supporter of NASA and the National Science Foundation. His dedication will be missed. I enjoyed working with him and wish him all the best in what I know will be a successful future.●

● LAGOMARSINO. Mr. Speaker, I rise to pay tribute to my dear friend and colleague on the Foreign Affairs Committee MILLICENT FENWICK.

Anyone who knows MILLICENT knows she represents the fighting spirit of one who champions the cause of the underdog, the downtrodden, and the disadvantaged. She is respected on the foreign affairs committee and in this House because she is not afraid to speak her mind, to question or to challenge authorities or institutions.

MILLICENT's devotion to duty and to serving the people of her district are well recognized. She is conscientious in attending to all the varied functions of being a Member of Congress, and faithfully attends the meetings of her subcommittees and committees, asking probing questions and offering thoughtful comments and observations on the issues coming before us.

MILLICENT's personal style, her charm and grace have been a distinct asset for the Foreign Affairs Committee, particularly in our meetings with representatives of other countries, where she often carries on conversations fluently in the language of our foreign guests. Her presence will be sorely missed in the next Congress, and I can only hope this administration will have the presence of mind to use MILLICENT's talents in some appropriate way as a diplomatic representative of this country.

In whatever endeavor she undertakes, I know she will offer the same gracious style that marks her presence in the Congress. I am most pleased to join my colleagues in wishing MILLICENT a most successful and fulfilling future, a future I am sure that will be as rewarding as the past.●

● Mr. GILMAN. Mr. Speaker, it is truly a privilege to honor the most honorable gentlewoman from New Jersey. It is difficult to imagine this Chamber without her gracious presence. She has demonstrated what a truly honorable and respected Member of Congress can accomplish in these Halls. When she speaks, we listen, on both sides of the aisle. We know she has always done her homework. I recall the impression it made on a member of my staff attending a briefing on the extension of the Civil Rights Act that MILLICENT had attended and was the only Member of Congress there. She had specific questions which she was determined to have answered by the committee experts.

MILLICENT's floor challenges to hasty judgments and generalizations have made us focus in on the specifics of legislation. I have always admired her erect stance as she fought off any challenge and disregarded any pressure until she got to the heart of the matter at hand.

We are losing a great legislator and a staunch fighter for justice and fairness in our land. She understands the heartbeat of our Nation and more importantly the heartbeat of our people and those who have to work hard to make ends meet.

Some say her pipe has contributed to the great sense of wisdom and dignity surrounding her that always makes

us listen, but I think not. We listened because we knew she had studied the issues hard and would not leave her principles for popularity. More interested in standing tall than in rising to the top, she worked hard learning the legislative process and getting the big picture in a number of committees. On all she left her mark. I have particularly enjoyed working with MILLICENT FENWICK on our Foreign Affairs Committee where we will sorely miss her strong presence.

MILLICENT, you have left your invigorating mark on all of us who have had the privilege of knowing you and serving with you. We wish you joy and good health in the days ahead, knowing that the State of New Jersey and the Nation have only begun to benefit from your dedication and inspired leadership.●

● Mr. RINALDO. Mr. Speaker, it is a privilege to join my colleagues today in honoring my good friend and fellow Representative from New Jersey, HAROLD "CAP" HOLLENBECK, who is leaving Congress at the conclusion of this session after having ably and effectively represented the residents of New Jersey's Ninth Congressional District since being elected to Congress in 1976.

During his 6 years of service, he has brought to the deliberations of the House a strong sense of personal conviction, integrity, and legislative ability. In establishing an impressive record of public service, he has contributed creatively and constructively to legislation advancing the welfare of his district and the Nation.

CAPPY has been a dedicated legislator, and his love of his district, State, and country has had a positive influence on all who have known and worked with him. He has won respect from both sides of the aisle and from people familiar with his accomplishments.

I express my admiration and gratitude for a job well done, and wish CAPPY success and happiness in his future endeavors.●

● Mr. CHAPPELL. Mr. Speaker, I join my colleagues today in paying tribute to a distinguished Member of this body, HAROLD C. HOLLENBECK.

In his 6 years of service in this body, HAROLD HOLLENBECK has distinguished himself by his hard work and independence in diligently representing the people of the Ninth District of New Jersey. With a voting record which supersedes partisanship, HAROLD HOLLENBECK has performed a service to both his district and his Nation. He has displayed the same personal integrity in his work on the Public Works and Transportation, Science and Technology, and Select Aging Committees.

Thus, it is with a feeling of loss that we witness the departure of HAROLD HOLLENBECK. We are losing an able colleague, and New Jersey is losing a fine Representative. I certainly wish HAROLD HOLLENBECK well in his future endeavors.●

● Mr. RINALDO. Mr. Speaker, it is with a sense of personal regret that I join my colleagues today in saying farewell to a truly outstanding and popular Member, the Congresswoman from New Jersey, MILLICENT FENWICK.

During her four terms in the House she has compiled an impressive record of achievement and in doing so has gained recognition as a true and effective representative of the people. She has demonstrated her many skills both in committee and in debate on the House floor. I have long admired and respected the joy and enthusiasm she has shown for her profession. Her life and record are marked with one achievement after another as she has ably and effectively represented New Jersey's Fifth Congressional District and has deservedly gained the reputation as the conscience of the Congress.

Throughout her many years in public office she has been a dedicated public servant with few peers. Before her election to Congress, she served first as a member of the Bernardsville (New Jersey) Board of Education before being elected to the New Jersey State Assembly in 1958. Representative FENWICK served in the assembly until 1971 when she was appointed State Director of Consumer Affairs, a post she held until 1974 when she was elected to the House.

During her 8 years of congressional service, she has loyally championed and creatively contributed to legislation significantly advancing the welfare of our Nation. There is no denying that her service to the Congress, her constituents, and to the Nation has been substantial.

I express my gratitude for the noble service she has rendered and join my colleagues on both sides of the aisle in wishing her Godspeed.●

● Mr. MINISH. Mr. Speaker, the outstanding personality of my colleague from New Jersey, the Honorable MILLICENT FENWICK, is so well known that it is difficult to avoid repeating what is so well known to all of us here. Her endearing characteristics and her high principles are known throughout America, and we will miss her when she leaves this House.

I would like to emphasize one aspect of MILLICENT's career that is often overlooked: her relation to the politics of New Jersey. Too many people overlook the virtues of the Garden State, and outsiders may not realize that our colleague is in fact typical of a tradition of public service we have there which can represent the best in American political life. From Governor Woodrow Wilson back in the Progressive Era we can trace a tradition of selfless public service which has made New Jersey a good place to live and work, and the Honorable MILLICENT FENWICK is very much a part of this tradition. In the legislature and in other public offices, MILLICENT FENWICK endeared herself to the people of New Jersey for years before her service in Congress made her a popular heroine to Americans all over the country. I certainly hope that Mrs. FENWICK will find new outlets for her patriotism and energy when the 97th Congress comes to a close.

I am pleased to have had the opportunity to work with my distinguished colleague for the people of New Jersey and America.●

Mr. HOLLENBECK. Mr. Speaker, will the gentleman yield?

Mr. COURTER. I will be happy to yield to the gentleman from the State of New Jersey.

Mr. HOLLENBECK. Mr. Speaker, I want to thank the gentleman for bringing this special order on tonight, along with the dean of our delegation, Congressman FORSYTHE. The gentleman has been very patient in trying to bring this special order to the floor. I never dreamed that I would be on the floor for the last time competing with the nightly news or competing with Johnny Carson or Don Rickles. Respecting my friends from Illinois and from the State of New York, they neglected to mention that in those games, not mentioning the game I played shortstop in, they generally swung somewhere from the dugout, especially the gentleman from Illinois, when the now Senator from Maine, whose name I must not mention, was on the mound.

Mr. Speaker, I would be less than honest to stand before you tonight if I did not admit that I am saddened to be leaving Congress after 6 years. Not because I lost an election, but because I will not have the opportunity to serve the people of the 9th District of New Jersey in the upcoming 98th Congress.

However, I ask that my colleagues take comfort in knowing that I will continue, in one way or another, to represent the interests I have defended for so long.

There are many I would like to recognize as I look back on my 6 years here.

First, and foremost, my constituents, for entrusting me with the responsibility of representing them in the Congress.

Second, I must pay tribute to my colleagues from within the New Jersey delegation, and I can only think that our great State is well served by these fine lawmakers.

Finally, I would like to thank all my colleagues, from both sides of the aisle, for working with me to serve the people.

In my 6 years here I have held a great many posts: the Committees on Banking, Finance and Urban Affairs;

Standards of Official Conduct; Public Works and Transportation; Science and Technology; and the Select Committee on Aging.

In addition, I have held a variety of informal positions: with the Northeast-Midwest Coalition; the Environmental Study Group; and the Gypsy Moths Coalition, just to name a few.

Although my roles were many, I never felt that I was taking on too much. To be sure, if anything I believe there was much more to be done.

As I leave these Halls of Congress, I take with me several remembrances. First, the honor to call my fellow representatives "colleagues and friends." It has indeed been an honor for me to have had the opportunity to serve with you.

Second, I take with me a renewed sense of respect for the greatness and permanence of the legislative process. Granted, unique was the day we found ourselves in complete agreement on any given issue. Yet we never forgot our purpose in disagreement: That purpose being to represent all the interests of all the people. And although I must say that I was not always pleased with the outcome of many of our debates, I am comforted in knowing that, in the long run, it is the people who are the victors.

Finally, I leave Congress with the conviction to continue serving the people, in whatever I do. I find little satisfaction in serving myself at the expense of others. Public service has always been my calling, and it will remain so.

I confess I am a bit embarrassed to be showered with such tributes this evening. Believe me, I an not accustomed to taking the floor to pat my own back, or to have others do it for me. But I thank my colleagues for their words tonight, and more importantly, for serving with me in the House of Representatives these past 6 years.

Thank you very much.

□ 2310

A TRIBUTE TO THE HONORABLE TOBY MOFFETT UPON HIS DEPARTURE FROM CONGRESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. MILLER) is recognized for 60 minutes.

Mr. MILLER of California. Mr. Speaker, it is with mixed emotions that I stand before the House today to honor and to praise a colleague of ours, TOBY MOFFETT.

TOBY and I came here together in 1975 in the 94th Congress, along with a very large class of freshmen, for the purposes of meeting an unmet agenda in this country and to try to bring reform to the Halls of Congress. I was fortunate enough to become immediate friends with TOBY. I watched his ability to organize the Congress, I watched his ability to move among one of the largest classes in the history of the Congress of the United States, and we joined in friendship and joined in commitment in a number of immediate fights to reform the seniority system and to reform the manner of selection of committees within the Congress of the United States to hold committee chairmen accountable to the entire body. That is what was begun in the caucus in the 94th Congress.

Later I was honored to travel to Chile, where we investigated torture and murder and violations of human rights by the Government in Chile and we were able to come back and present an amendment to cut off aid to that Government.

We joined arms and walked out of this Chamber when a President of the United States demanded $800 million more to continue an immoral war in Vietnam against the will of the American people. We have seen that as a record of courage and a record of commitment that has been built by our colleague, TOBY MOFFETT.

But he came more than a colleague; he came also as my friend. We were able to vacation together, to fish together now and then, and to share a bet on a football game or a basketball game, but never to share the winnings of those bets.

We have also watched our children grow. We have shared the same experiences. We saw his daughter, Julia, in high school, and we saw Julia performing and excelling in horsemanship.

We witnessed his marriage to his new wife, Myra Delapp, and 8 months ago, we shared the birth of his daughter, Mary Ellen.

So this is more than saying goodbye to a colleague, it is saying goodbye to a dear friend, and it is also a recognition that the Congress of the United States and indeed the people of the United States will miss TOBY MOFFETT. They will miss him because he came to Congress with an agenda. He came to Congress with a sense of urgency about the agenda and a commitment to meet the goals of the unmet agenda of this country, an agenda to address the inequities in our society, the imbalances of power within this country, and the injustices that affect millions of Americans everyday.

Mr. Speaker, this is an agenda that is not without its opponents. It is an agenda that ran against the powerful within the Government and against powers outside the Government. The gentleman from Connecticut became a spokesman for the consumer and for the elderly, and his battles on natural gas and oil are a legend. His organization of this Congress on the repeal of the oil depletion allowance should be set down as a model for new Members of Congress when they seek to organize around the important and difficult issues of our time.

His oversight as a member and chairman of the Subcommittee on Government Operations, I suspect, will lead many in the administration not to be sad that TOBY MOFFETT is leaving. James Watt will not be sad that TOBY MOFFETT is leaving. James Edwards will not even be here to say goodbye because he left before. Anne Gorsuch will not be sad to see TOBY MOFFETT leave. Why? Because he has constantly kept that diligence and that sense of urgency that these people came to Washington as part of this administration to serve the people who elected this administration, to be advocates for their departments and not the participants in the dismantling of that agenda. And I daresay that he has held as tight a rein on this administration as he did on the previous administration.

The fact that these people will not be sad to see TOBY MOFFETT leave the Halls of Congress is testimony to a record of courage and conviction, a record that was recognized by Time magazine some months ago when TOBY was selected from among the 50 "faces of the future," and I suspect the fact that he will not be in Congress will not diminish his presence, his power, or his commitment to this country.

Just a few minutes ago, when sitting in the cloak room, one of the more powerful chairmen of the House shook TOBY MOFFETT's hand and said, "I'm going to miss you as a friend but not as my adversary." I think that sums up how we feel about TOBY MOFFETT. Those who have fought alongside of him have welcomed his friendship, his courage, his diligence, and his organizational skills, and those who have opposed him have felt the brunt of those exact skills.

Finally, after the race for the Senate in which he was defeated running against Senator LOWELL WEICKER, Senator WEICKER the next morning said about his opponent, "TOBY MOFFETT is a class act." And let me say that for the last 8 years, while I have shared a seat in Congress with the gentleman from Cnnnecticut, he has been nothing but a class act.

Mr. Speaker, I daresay that the agenda he came here to carry out is still unmet, but it is much further along toward completion because of his service in the Congress of the United States.

TOBY MOFFETT'S ANNOUNCEMENT OF HIS CANDIDACY FOR THE U.S. SENATE, DECEMBER 1, 1981

I hope we can focus today, and in the coming year, not simply by asking what kind of Senator we want to elect, but by thinking about what kind of society we want to create for the rest of the century.

It is said by the historian Dumas Malone that Thomas Jefferson "had strongly armed

his mind before critical events occurred, and was more than ready for them when they came."

We should be looking for public servants who, like Jefferson, are prepared for the future. We should be looking for people who are ready for the rest of this century.

The slogan of the other party—"Time for a Change"—seems so shallow and short-sighted. The challenge is not to merely change from one personality or even one party to another but to elect people who are prepared for a time of change.

The United States Senate can be the most important institution for charting a course to the next century. Its most important task is to help insure that we get there in one piece.

First, it must confront the ugly and frightening reality that the world continues to spend over half a trillion dollars a year—a million dollars per minute—on more efficient ways to kill people. Total nuclear firepower, already over a million Hiroshimas, continues to grow rapidly.

The Senate must exert pressure to move beyond the constructive first step taken this week in Geneva to extend arms control negotiations beyond medium-range missiles, to include long-range weaponry.

We must also push for non-proliferation, serious non-proliferation. Unless the superpowers show that they are committed to this principle, there is no reason to believe that Pakistan and other nations will pay any attention. At this point, the Administration is not taking this problem seriously at all.

Finally, we must take steps to keep weaponry out of space. The place for Star Wars is in the movie houses.

The Geneva meetings are a positive first step on the arms control front. Such negotiations are difficult. They take place in an atmosphere of insecurity on both sides. It will be critically important to have more Senators, working together, who will question the assertion that the United States is woefully behind the Soviets in every important defense category.

The fact is that we already possess missiles that can travel 6,000 miles and land on a targeted city block in Moscow. We have cruise missiles that can part your hair from 2500 nautical miles. We have Trident submarines. Just one of them has enough warheads to destroy all of Europe.

We are not weak. We are not behind the Soviets in any disastrous sense. If anyone is losing the arms race, it is all of us—the entire world community. Our major fear should be the seemingly never-ending cycle of arms buildups.

The positive first step by the President on the arms control front has not been matched by any step toward reason and reality in domestic policy, particularly in the economic arena.

The idea of cutting spending to decrease the Federal deficit is a sound one. My own proposal to have the House take time each year to investigate programs, to find out which programs work and which ones don't, is a rational approach to weeding out waste, fraud, and abuse. The House is moving towards implementing this kind of review session—and the Senate should, too.

But so many of the conservatives who used to worry about Federal deficits have since jumped ship. They are off on a wild and dangerous "supply-side" adventure, an adventure charted on an impossible course.

There is no way we can balance the budget by spending $1.5 Trillion on defense in the next five years and granting $800 billion in tax cuts during the same period. Even if every penny of the President's proposed budget cuts are approved by the Congress, those reductions still won't be nearly enough to balance the budget. Not with the "supply-side" gameplan in effect.

Reaganomics is ludicrous in this respect. The President wanted tight money. He has tight money. And that policy is helping to ruin America's housing and automobile industries.

Reaganomics goes one step further—trying to combine tight money and the resultant constricting economy with "supply-side incentives. That's like trying to swim upstream with Milton Friedman and downstream with Jack Kemp at the same time.

James Tobin, the Nobel prize-winning economist from Yale, describes the Reagan budget and tax program as "an historic reversal of direction and purpose". In Professor Tobin's view, "the message is clear enough; inequality of opportunity is no longer a concern of the Federal government."

For the victims, the all-too-common victims, the budget cuts are major and disastrous.

To cut older people and infants off nutrition programs is mean-spirited. Many of the other cuts are simply foolish. They will cost us more later on—to clean up drinking water that's become contaminated because safeguard were dropped . . . to incarcerate juvenile delinquents who might have been salvaged by youth programs that were cut . . . to rebuild streets, sewers, and bridges that could have been saved with regular maintenance.

The Reaganomics gameplan is deferring an investment in the future. The gameplan protects the powerful political interests—things like tobacco subsidies and the Senate Majority Leader's favorite dam and breeder reactor.

And while singing the praises of the work ethic, Reaganomics tries to fight inflation by putting people out of work. That's wrong. That's cruel. And it's a bankrupt Economic Policy.

The Reaganomics game plan also hits hard at the nation's economic future. When the Administration slashes funds for the Export-Import Bank, for example, Connecticut's export business suffers, well into the future. And so do the jobs that go with those businesses.

Perhaps most damaging to our economic well-being and productivity in the long-run are the cuts in human capital. The critical shortage of skilled labor projected for our State will be worsened by cuts in education especially in fields like engineering.

Are we ready for the rest of the century? Our chief political opponent, the Soviet Union, is not cutting back on education. Our main economic competitor, Japan, has half our population but graduates more engineers than we do.

We cannot attack our obvious productivity problem by cutting research and development, scientific education or by simply shoveling tax cuts out the Treasury Department door for businesses and wealthy individuals.

Nor can we address our productivity problem by creating scapegoats such as environmental regulations or trade unions. Republicans intrigued by the idea of union-busting should remember that it was a man named Lincoln who came to this very city in 1860, during the shoemakers' strike, and applauded unions and their right to strike.

We are in for a major transition, both nationally and in our State. What kinds of people will we elect to lead us through it? How will we handle change? How will we prepare for the future?

The United States Senate can be the major forum for this discussion. The Senate needs more of the kind of new blood represented in that 1974 freshman class in the House. Some of my classmates are already there—Chris Dodd, Paul Tsongas, Max Baucus. They need to increase their numbers so that the post-Watergate Democrats can play a leadership role in the Senate—just as they have in the House, with committee and subcommittee chairmanships and leadership positions.

This group combines the best of the Democratic tradition of compassion and vision with the new realities of limited resources.

I am deeply appreciative that so many people in Connecticut, many of whom I have never had the pleasure of meeting, have taken an interest in my future, in my options. I and my family also appreciate your understanding that this was a most personal decision.

For the past eight years, I have been growing: From community organizer and consumer advocate working outside the system to House subcommittee chairman. This growing process, this sometimes painful transition, has enabled me to learn a great deal about how to be effective in a legislative body.

I want to continue to grow in that direction. It will provide me with a chance to contribute to peace, to the creation of a rational and fair economic plan and to serve our entire State as an accessible representative.

Accordingly, I have decided to seek the United States Senate seat now in Republican hands.

SOME OF CONGRESSMAN MOFFETT'S MAJOR ACHIEVEMENTS AS CHAIRMAN OF THE HOUSE SUBCOMMITTEE ON ENVIRONMENT, ENERGY, AND NATURAL RESOURCES

Toby Moffett—in the largest leap ever made by a junior House member to take charge of a subcommittee—defeated three more senior Members to become Chairman of one of the House's major investigative/oversight panels. (Feb. 79)

In 1980, he held hearings, subpoenaed the Secretary of Energy and joined a court suit, all of which led to the defeat of the 10¢-a-gallon gasoline tax.

Forced the Environmental Protection Agency (EPA) to revise its miles-per-gallon testing and labeling program to reflect real-life driving conditions.

Uncovered an attempt by the EPA to gut the law restricting the use of lead in gasoline—a promise by EPA administrator Gorsuch not to prosecute a refinery and to weaken the law. Result: Gorsuch plan stopped.

Conducted hearings on Interior Secretary Watt's plan to allow oil and gas drilling in sensitive environmental areas off the coast of California. Result: Leasing attempts halted by Federal courts.

Authored successful legislation to save the American Conservation Corps, to provide up to 100,000 jobs for youths—a program Secretary Watt had attempted to scrap.

Disclosed attempt by Reagan administration to cut enforcement efforts at Energy Department to collect oil company price overcharges. Result: Congress added funds to the budget for continued collection of hundreds of millions of dollars.

Investigation of $2 billion synthetic fuels plant revealed mismanagement by Energy Department. Result: Administration dropped project.

Probed Nuclear Regulatory Commission inspection procedures at nuclear plants. Result: stronger safety inspection program and improved emergency evacuation plans to protect residents from nuclear accidents.

Conducted only Congressional investigation critical of federal expenditures for massive political pork barrel water and dam projects. Result: $138 million in construction stopped.

Through extensive hearings, forced Department of Energy to highlight conservation as a tool for reduced energy consumption.

Successfully encouraged the government itself to institute energy conservation measures within its agencies.

Exposed millions of dollars in waste and overpayments resulting from poor or nonexistant financial accounting procedures in Energy Department. Result: major Government Accounting Office investigation.

Through a series of hearings on ground water pollution, led the effort to develop a national ground water protection policy and federally backed clean-up programs.

MAJOR LEGISLATIVE ACCOMPLISHMENTS

Co-authored emergency legislation to provide immediate relief to the people of Lebanon following the current crisis. Congress passed and the president signed the bill, authorizing $50 million in aid, within weeks after it was introduced.

Introduced a resolution, co-sponsored by more than 70 House Members, to maintain eligibility of graduate and professional students in the Guaranteed Student Loan Program. More than 5,000 graduate students in Connecticut are dependent on this form of aid.

Filed a court brief against Agriculture Department regulations that would have cut reimbursement rates for family day care facilities by up to 30 percent. Result: the judge rejected the new regulations and cited the brief as being instrumental in his decision.

Forced the Secretary of Agriculture and the director of the Office of Management and Budget to release $1 million in Summer Food Care funds for the State of Connecticut. Result: 27,000 low-income children benefitted from nutritious meals during the summer months.

Wrote law providing for the transfer of certain Conrail freight operations in Connecticut to private rail carriers. Result: continued rail service to factories and plants located throughout the state.

Added an amendment to rail legislation which permitted the State of Connecticut to receive additional funding to operate commuter rail lines.

Introduced a resolution to prevent the Department of Health and Human Services from "deregulating" nursing homes, so that elderly persons in nursing homes will not be exposed to conditions that violate fire and health codes.

Wrote a new formula for Medicaid reimbursement, which saved the State of Connecticut $37 million in 1981.

Filed a legal brief, challenging the veto of a Federal rule which would have protected consumers against fraud and misrepresentation in the used car industry. Case will be argued before U.S. Supreme Court in the fall of 1982.

Drafted 1981 bill to institute a "moratorium" on new legislation in Washington for a certain period each year, coupled with an investigation/oversight "season" in Congress to examine existing laws and agencies.

Authored 1981 bill to adopt a regional approach to the prevention of acid rain.

Wrote home insulation safety law.

Played a key part in investigation of U.S. role in Arab boycott of American firms doing business in Israel.

Authored resolution denouncing Soviet harassment of Jews and dissidents seeking to leave the USSR.

Inserted provision in Rail Reorganization Act to maintain Office of Public Counsel, thereby insuring access for rail freight users in decision-making process.

Wrote law mandating appliance efficiency labeling and standards.

Led the successful 1975 battle to retain price controls on domestic crude oil.

Fought to keep controls on natural gas prices.

Instituted tough penalties for oil companies that overcharge the public.

Led three successive and successful battles to establish and continue emergency fuel assistance to the poor and elderly.

Served as the sole New England representative on the joint House-Senate national energy bill conference committee.

Amended National Energy Act, to protect smaller industries in their efforts to convert from oil and gas to coal.

Amended National Energy Act, to prevent utilities from abusing fuel adjustment clause in their bills.

Provided for "citizen intervenor" funding to insure consumer representation at state utility rate hearings.

Wrote 1979 law requiring, in times of severe shortage, a one percent "set aside" of oil for residential home heating use.

Wrote and served as House Floor Manager for law requiring U.S. to have a standby gasoline rationing plan "on the shelf" in case of severe shortages.

Helped establish this country's Strategic Petroleum Reserve.

Fought IRS provision permitting multinational oil companies to deduct royalties paid to foreign governments. Result: Tax loophole was closed and taxpayers saved an estimated half-billion dollars a year.

Amended Department of Energy budget to cut millions of taxpayers' dollars being used in questionable and non-productive endeavors.

Mr. RATCHFORD. Mr. Speaker, will the gentleman yield?

Mr. MILLER of California. I yield to the gentleman from Connecticut.

Mr. RATCHFORD. Mr. Speaker, I thank the gentleman for yielding, and certainly I join in echoing the words the gentleman has so eloquently stated this evening.

The man we honor tonight is without a doubt one of the more effective Members of Congress. He is an activist, and I can recall, when he was elected 8 years ago, that many said that an activist simply could not make it in the Congress of the United States; he could give a good speech, lead a cause, and be out there in front, but he would not get something done. But what the gentleman proved was that an activist could be effective in Congress, for without a doubt TOBY MOFFETT was one of the more effective coalition builders in this Congress.

Let it be an issue of energy and he would find common cause in an oil producing State so that together the interests of both for the betterment of the people of the United States could be advanced.

I think specifically of the fight of 2 years ago when the issue was funding for the whole question of fuel assistance, and we in the North and the Northeast were told that it simply cannot be done because the money will not be there.

So what did this leader do? He reached out to Texas. He found a problem that was unique in that area, and he found a goal which was one that could be advanced for both and as a result we were able to benefit the old, the frail, and those who needed relief in this very difficult situation.

He has been an advocate in the truest sense, initially for the consumer, then for those concerned for the quality of life and the future of our environment. He has been in every sense a leader.

But to many of us he was much more than that; he was a friend. This Member of Congress remembers full well the encouragement that he gave to me as a young speaker of the house in times when we were told in Connecticut that "what you are doing can't be done because it wasn't done that way in the past."

This Member of Congress also remembers 8 years ago coming through a very narrow loss, with all the emotion that that entailed, and being consoled by TOBY MOFFETT, who then had been elected to the Congress of the United States, and he was urging me to hang in there because there would be another day, although not too many others saw it.

But he did. He provided the encouragement and I am thankful, because without that this Member of Congress simply could not have done it and would not be standing here this evening.

He has helped me in every possible way since I was elected to the Congress in 1978. He opened his office to me, provided a working environment, and provided staff to work with me, and he was always providing valuable counsel as it related to me, our staffs, and what we were trying to do collectively for the Fifth District of Connecticut.

□ 2320

Our relationship is a relationship that is more than that of one of 435 Members of this body. Our relationship is that of true friends.

TOBY has made a contribution that is unique, I think, in the history of our State, a State that prides itself in strong public servants and in unique leaders, a State that has brought to this United States Abe Ribicoff, Ella

Grasso, CHRIS DODD. TOBY is in that category. He is indeed a true leader.

Let me say to you, those who are gathered here tonight, his friends, we will meet again and it will be to pay tribute to TOBY MOFFETT who is making some new, different, but certainly some very unique and very positive contributions to the future of this country.

But tonight what we dc is to gather to say thank you to a colleague, thank you to an associate, thank you to a friend, but, above all, thank you to a public servant in the truest sense.

Mr. MILLER of California. Mr. Speaker, I now yield to the gentleman from eastern Connecticut, the Representative from the Second District, Mr. GEJDENSON.

Mr. GEJDENSON. Mr. Speaker, I wish to echo the remarks of my colleague from the western part of the State. I think if we take a look at TOBY'S career we know full well that we have not lost him from public service because his commitment to the consumers on issues that affect them, whether energy or Government spending programs, preceded his time in elective office.

TOBY MOFFETT was not someone who found concern for his constituents and concern for the people of this country when he came to this Congress 8 years ago. His concern for the people of Connecticut preceded that and his actions as a consumer advocate, finding an unelective role at that time to fight for the people of his State on the issues of utility regulation, of consumer regulation, and really started a movement in Connecticut which in those days was a very fragile one, but where today we have an institution in CCAG, an organization that is committed to fighting for the consumers of all of the people of the State of Connecticut.

I think my colleagues have to a large degree represented the great job that TOBY did here in his 8 years in the House. I think it is important to recognize that as he reached out to BILL RATCHFORD and helped him, he reached over to help me in eastern Connecticut. In a time when there were not many who thought I would ever end up in the House of Representatives, TOBY MOFFETT, at some political risk, came to assist me in eastern Connecticut.

I think more than anything else his friendship and his assistance is the reason that I am here today.

I think if we take a look at the issues that we all fight for in our own districts, TOBY always made time to come over and help us. In my district in the 2 years that I have been in Congress, we have had three instances where ground water was polluted as a result of the mishandling of dumps and industrial waste products.

TOBY came and TOBY came quickly to give my assistance on an issue that he had become not only a leader in Connecticut but a leader nationally.

Whether it be military spending or the environment or consumer issues, TOBY was always there and TOBY was always at the forefront. I believe he will remain there.

I think it is important that each of us recognize that as Members our impact at times is limited. TOBY MOFFETT in a very short time had his impact reach across the Nation on energy issues primarily but on many other issues. Many Members of the House and many people around America looked to TOBY MOFFETT for leadership on the vital issues of the day and I am convinced that they will continue to do so.

With that I yield back to my good friend from California (Mr. MILLER).

Mr. MILLER of California. I now yield to the gentlewoman from Connecticut (Mrs. KENNELLY).

Mrs. KENNELLY. Mr. Speaker, the honor of representing Connecticut in this body during the past months was heightened for me by sharing it with TOBY MOFFETT, a friend whom I have known and admired for many years. His spontaneous help, from the moment I announced my candidacy, was a gesture of encouragement and confidence which he repeated time and time again during my first weeks in Washington. This willingness to be of service, as characteristic of TOBY as his dedication to his ideals, is equally reflected in his commitment to this congressional body.

TOBY'S own election to the House of Representatives in 1974 was the culmination of intense, vital years as teacher, youth organizer, director of the office of students and youth under the commissioner of education, aide to U.S. Senator Mondale and prime force in the creation of the Connecticut Citizens Action Group. In those preliminary roles he touched and influenced the lives of many, as he has in his four terms in Congress. Translating idealism into practical action is a way of life for TOBY, from which consumers and constituents, youth and future generations, benefit enormously.

TOBY came to Washington as Connecticut's consumer advocate activist and was an instant leader, working for change within the institution he loved. He sought stronger environmental safeguards; he sought a more intelligent energy policy and a saner defense program; and he staunchly defended minority rights. An expert in the energy matters so important to constituents in Connecticut and the Northeast, he pioneered legislation on their behalf, giving hope, emoting charisma. Simultaneously, through competent staff, he provided a caring, compassionate constituent service.

TOBY MOFFETT gave new meaning to the oversight function of a Congressman. As chairman of the Government Operations Committee's Subcommittee on Environment, Energy and Natural Resources, he served effectively as a watchdog over national energy policies. He fought the decontrol of oil and natural gas prices. He supported policies designed to conserve energy and he brought to task those charged with protecting the environment who have been lax in their duties. From the vantage point of a member of TOBY'S subcommittee, I have witnessed the remarkable manner in which he has promoted the efficiency and effectiveness of the programs under his jurisdiction.

We in Connecticut are proud of TOBY MOFFETT. His name is synonymous with energy in many senses of the word. He is a man devoted to his family and to his friends, of which I am fortunate to be numbered. Sympathy, intelligence, dedication, and vision brought him to the House of Representatives. We will, I predict, see him launch into new endeavors and reach new pinnacles, or pinnacles anew. Self-made, self-starting, his contribution will be great.

For the freshmen in the delegation standing here tonight it almost seems unreal to me that I will stay here and that TOBY, for awhile, will be gone. But what TOBY MOFFETT did for me was to provide a benchmark.

When there are moments when I wonder if one can work harder, if one can go further, if one could represent one's constituents better as a Member of Congress, I will only have to think of what I saw TOBY do and TOBY is my example and will make me a better Congressman for Connecticut.

I say thank you, TOBY.

□ 2320

Mr. MILLER of California. I yield to the gentleman from Illinois (Mr. ROSTENKOWSKI).

Mr. ROSTENKOWSKI. Mr. Speaker, I would like to thank my colleague, the gentleman from California (Mr. MILLER) for taking this time to recognize service in Government, certainly by one who served in this body and in great measure by the legacy that he leaves for a short while out of public service, in truly making our country a better place in which to live.

As a senior Member, one would have to admit that initially TOBY MOFFETT was not one who I often agreed with. As a matter of fact, my good friend, even in disagreement, was one who had new ideas, was one who was creative. And I think truly, Mr. Speaker, if we are to survive, we are going to have to look to people who come to this body who represent not only their constituency, but represent us on a national scale and give us the thought

process and the vision to make this work a better place in which to live.

I am thoroughly impressed by what the preceding speaker, the gentlewoman from Connecticut (Mrs. KENNELLY) has observed about a junior Member of the Congress. And I will always look at TOBY MOFFETT as a junior Member. But certainly one who I have a great deal of respect for and one who even in the closing days of an outstanding career I look to for some guidance in not only energy policy, but in the direction that people think we ought to move.

One great attribute about a legislator is that you can trust him. Even though we came from different perspective views, TOBY MOFFETT you also knew where he was coming from. And I respect that in a legislator.

He never surprised you. He told you what he thought. He gave you full recognition and notice that this is what he intended to do, and for that I felt rich as a legislator.

I am going to miss the contribution that this young man has made. I certainly hope that his appetite for giving is not satisfied. There is much in this individual's chemistry that will help America. I may not agree with it, but there is much he can contribute.

And so in the closing days of a brilliant political career, at least at this point I am encouraged that so many of us feel—and I am talking about the men tonight and the ladies who respect his contribution—TOBY's career is not ended. It may be just beginning.

As chairman of the Ways and Means Committee, he gave me a great deal of perspective. I did not agree with it. But it was perspective.

TOBY has great heights to climb. He has done a great deal in a very short period of time. I am going to be supportive of him, because I trust him. And if a legislator can trust a fellow legislator, that is 95 percent of the battle.

So, my colleague, Congressman MILLER, I appreciate the opportunity you have given to me to make my feelings known about an individual who I think is a great American, who has much more to contribute, and who I encourage to a short political career that realy is kindled in my opinion by a defeat. I wish himn well and I want him to know that he has a friend from Illinois in the name of DAN ROSTENKOWSKI.

Mr. MILLER of California. I thank the chairman for his words tonight and know that TOBY also appreciates them.

I yield at this time to the gentleman from California (Mr. STARK).

Mr. STARK. Mr. Speaker, I join with my colleagues and friends of TOBY MOFFETT to congratulate him on his years of outstanding service to the Nation and the people of Connecticut—and to wish him a speedy return to public life.

Seldom has the House or the country seen a Member of Congress accomplish so much in such a short time. TOBY has displayed burning energy, and enthusiasm for public service; he has showed us all how to better use the "bully pulpit" of a congressional office to help protect the consumers and workers of America. He has shown us how to use a subcommittee to investigate, shed light, and arouse public concern over key environmental and energy issues. His work on toxic wastes, energy, and auto efficiency, unwise public works projects, and the havoc which would be wreaked by an oil import fee, have helped improve the lives of all Americans.

TOBY's leaving will deprive the House of one of its best oversighters—unfortunately at a time when we need him more than ever.

He has demonstrated again the old truth that eternal vigilance is the price of liberty—and of good government.

I am going to miss his presence in this Chamber. His wit and courage are an example to us all. I can only hope that he will soon find another platform to continue his work on behalf of the American people.

Mr. Speaker, I would address my colleagues in the Chamber and the Congressman's staff and say that following the remarks that I would put in the RECORD about my colleague's good works as a subcommittee chairman and in dealing with the environment, dealing with his ability to use oversight as a tool that worked well, to talk about something that bothers me and that TOBY did well.

He did it so well that I thought about this in this sense.

If you think about a political leader—and I tried to think about somebody as I extend my remarks who talked about the importance of what one person could do. And so if you will bear with me for a minute—a person who some years ago talked about the futility of being one man. And he suggested that if we all gave in and said that we could not make changes in the world because it was futile, we should look at Martin Luther King, or we should look at Martin Luther, as a practical matter. If we would give in to expediency and say that if that was a cause for us to not want to make changes—we should look at those people who in the expediency of giving in to politics gave in to the camps of Dachau and Auschwitz, and we did not give in—many people did not.

Then you could look at the other danger, this person said, and we could give in to the concerns of temerity, and say that many of us did not wish to be laughed at and so we would not take a chance and risk the temerity or take the temerity and risk the chance of being laughed at by our colleagues.

And the other great danger, this colleague of ours of some years back said, was the risk of comfort, which TOBY did not have. TOBY did not have the comfort of an education paid for by his parents or TOBY did not have the comfort of a great deal of outside income. And many people could use that comfort to not take a chance.

If you have a great deal of education, a great deal of income, you do not have to risk fighting.

□ 2340

So as our friend said, the futility, the expediency, the temerity, the comfort, all those things could deny one person from trying to change the course of the world and if you did not risk greatly, you could not achieve greatly.

Now, the person who said that, and I wish it could have been me, was a person who I am sure both TOBY and I admire, it was Robert Kennedy when he finished his book in March of 1968 and he wrote those words in Los Angeles just before he was assassinated; but I think back on it and I think that those apply to TOBY who was willing to risk greatly, to achieve greatly.

We will miss him, those of us who may not risk as greatly as we would like. He did achieve greatly and I think that will go on his record and I think we will all admire him for that.

In addition to that, we will miss him as a friend. We will miss his wife, Myra, and little Mary Ellen. I expect they will be back and I expect he will continue to achieve and to risk and the country will see him and so we will say just farewell for a while.

I again thank my distinguished colleague, the gentleman from California, for calling this special order. I apologize for the maudlin sort of feeling here, but I say just so long to one of my best friends.

Mr. MILLER of California. Mr. Speaker, I thank the gentleman for his remarks.

I yield to the distinguished gentleman from Washington (Mr. FOLEY).

Mr. FOLEY. Mr. Speaker, I thank the gentleman for yielding.

I just want to add my words of appreciation for the service of TOBY MOFFETT, and as the gentleman from California (Mr. STARK) who just left the well has said, I think all of us feel that this is far from the end of a distinguished public career, that having lost a narrow election to serve in the other body, his record here being as outstanding as it was and it has been described by other Members and him being so young a man in terms of his public service, very experienced, but in terms of years very young, it is absolutely certain that he is going to continue to play a major role in the public

affairs of the United States and I think that is all to the good.

Whether people on either side of the aisle have always agreed with TOBY, he has been recognized from the first moment he came into the House as a man of extraordinary ability, capacity and dedication and eloquence and determination in the causes that he chose to support and those causes were causes that I think the vast number of us believe have been extraordinarily well served by his time in the House of Representatives.

So we do not bid him goodby. We salute him and we expect that he will serve in another capacity in the public life of our Nation, perhaps some day back in the House of Representatives; but in any case, continuing to contribute to the welfare of the citizens of this country and the broader community of the world, which he also constantly expressed concern and involvement and commitment to.

I thank the gentleman from California.

Mr. MILLER of California. Mr. Speaker, I thank the gentleman for his contribution.

I yield to the gentleman from Illinois (Mr. RUSSO).

Mr. RUSSO. Mr. Speaker, I want to thank my colleague, the gentleman from California, for giving me this opportunity to pay tribute to one of my dear friends and to one of the finest Members of the Congress, TOBY MOFFETT. When TOBY and I served on the Energy and Commerce Committee, we often found ourselves on the same side on a number of important issues, ranging from no-fault insurance to the decontrol of oil prices. I can remember the battle that we fought on decontrol. Even though we lost, we raised the conscious level of the American people. His voice on these, and on a host of other important issues, has been strong and compelling. The Congress is losing a very special individual.

All of us are going to miss TOBY as a Congressman, and I am going to miss him as a friend. I mentioned that we have often been together on issues, but on occasion, we have disagreed on issues—but these differences have never affected our personal relationship. And for that I am most grateful. I have come to value TOBY'S friendship, his intellegence, his counsel, and, of course, his move to the hoop, and I must admit one of his strong assets was not passing to a better shooter. I do have to say in all candor that while on rare occasions TOBY might take advantage of us "old-timers" on the basketball court, on the floor of the House you always knew where he stood on the great issues facing our country.

I do not like saying goodby to TOBY, not only for the personal loss to those of us who have enjoyed our work with him as colleagues, but because I believe that he is one of the most concientious, wise and thoughtful people in the Congress. In difficult times like these, it is particularly painful to say goodby to a Member of the caliber of a TOBY MOFFETT. Sometimes, the voice of the poor, the disadvantaged, the vulnerable, the average working American gets lost here in Washington—but TOBY MOFFETT always heard these voices. People throughout the country have lost a good friend and a tremendous advocate.

His work here has been characterized by great energy and passion, an all too rare commodity. You notice someone like this—in fact, you may have your mind changed, be inspired, and at the very least you are compelled to think longer and harder about the issues you are confronting. I believe he can be paid one of the greatest compliments you might receive here, at least in my book—he has made a difference. He translated his compassion into action and he did it with skill. If we must lose his talents, I think we can be pleased that young people will have the benefit of TOBY'S experience and philosophy. I hope as well that TOBY will find some time to commit his thoughts to paper, so all of us can continue to benefit from his insights. Today I join with my colleagues in commending TOBY for a job well done and wishing him continuing success in the future.

I may extend this invitation to TOBY, that should his old legs carry him further, he is always welcome to join the boys down in the gym and we will show him the same courtesies he has shown us throughout the years; that is, we will stay away from him. We will not pass the ball too often to him and we will make sure that he very rarely takes as many shots as he has done over the past 8 years. There are only a few of us in the Chamber here today that can claim to shooting more often than TOBY MOFFETT and I will leave those individuals nameless.

Mr. MILLER of California. Mr. Speaker, I thank the gentleman.

I yield to the gentleman from Massachusetts (Mr. SHANNON).

Mr. SHANNON. Mr. Speaker, I want to thank the gentleman from California for yielding.

I suppose it is natural that these special orders take on kind of a melancholy tone because those of us who will be here in the next session of Congress come to talk about one who will not. Certainly my own people are not adverse to attending wakes, but I do not think that we should be melancholy here tonight, because what we are here to talk about is somebody who really set a standard for all of us to live by in the future.

Many people run for Congress, talking about the great things that they intend to do if they get elected. They talk about issues of justice and fairness and coming here to represent the unrepresented. TOBY MOFFETT was one of those.

Many who arrive here in Washington find that it is not so easy to translate what you said in your campaign and what you said to your constituency into public policy; but TOBY in his years here in the House of Representatives never forgot who sent him here or why they sent him.

TOBY was able to come here and not just be one who stood on this floor and made speeches, but one who learned how to make legislation, how to make public policy, how to make sure that what was done here made life better for the people he was sent to represent, how to make sure that the policies that were developed in this body were fairer for all Americans.

I think that is really a standard that all of us have to remember. We have now a system of politics, a system of government that is easily corroded; it is easily corrupted, that allows as far as I am concerned too much special interest politics.

We have had Members who have stood here on the floor of the House of Representatives against those special interests, at some political peril, who have been able to see through the camouflage and the smokescreens that have been put up and have been able to say "no, we are not going to put up with that, we are not going to allow that, we are not going to allow the people to be unrepresented." I think TOBY MOFFETT has been one of our leaders and one of those people who has continually been able to do that.

□ 2350

I stand here as one who got into an awful lot more trouble than he would have in his first couple of years in Congress because he followed TOBY MOFFETT'S lead. But I stand here with no regrets. He is somebody that I think we can all learn a lot from. He is also somebody I do not think we should eulogize because he stands for a lot of things that we should remember, and he is going to contribute an awful lot in the future, maybe more in the future outside of this body than he has in the past.

So we will look forward to hearing from him, we will look forward to his participation in the political process, we will look forward to his resumption of public office some day, hopefully soon, in the future.

We want to tell him that we have not forgotten what he stood for and that some of us will remember and try to follow his lead even after he is not serving in the House of Representatives.

I thank the gentleman from California (Mr. MILLER).

Mr. MILLER of California. Mr. Speaker, I thank the gentleman for his remarks and his contribution to this special order.

Mr. Speaker, I yield to my friend and colleague, the gentleman from New York (Mr. DOWNEY) not just for the purpose of remarks about TOBY MOFFETT, but also obviously to explain how this fight of justice, truth and against special interests would have five members of the Committee on Ways and Means participating in this special order. I find it very difficult to understand. That is a committee where I have never seen five members praise another Member of Congress like this.

I do not know if you truly want him to leave, because of the problems he has created. I was quite pleased that the chairman of the Committee on Ways and Means would come and participate in this special order, but I find it a little difficult, and perhaps the gentleman from New York can explain why we ended up in this situation.

Mr. DOWNEY. I thank the gentleman for yielding.

Mr. Speaker, I am delighted that he has changed the rather maudlin tones that I had heard evinced here today about the gentleman from Connecticut (Mr. MOFFETT). I think the answer is quite clearly relief on the part of the members of the Committee on Ways and Means that Mr. MOFFETT will not be a Member of Congress in the next 2 years.

Mr. MILLER of California. Does that mean that the oil depletion allowance is back?

Mr. DOWNEY. The oil companies are free of the shackles that bound them while Mr. MOFFETT was here making sure that we did not give any more of the Treasury away.

Mr. MILLER of California. Does the gentleman mean that old people are going to have to pay more for home heating oil?

Mr. DOWNEY. Well, it probably means a whole raft of things, unimaginable things. Frankly, I cannot imagine the Congress of the United States without TOBY MOFFETT.

As the gentleman from California is aware, as well as my colleague, the gentleman from Illinois (Mr. RUSSO) when we first came to this body in 1975 we were really a form of mass without substance and direction, and one of the leaders in the effort to give us some direction and some clout was TOBY MOFFETT, and he did it in a way that was unusual.

He managed to craft the skills that he had learned organizing street youth gangs in Philadelphia.

Mr. MILLER of California. Is the gentleman suggesting that the class of the 94th Congress was to be equated with youth gangs? We have a process of taking down the gentleman's words here.

Mr. DOWNEY. Well, we had none of the civility of the Philadelphia youth gangs back in 1975. It was that unique ability of Mr. MOFFETT to blend together the disparate personalities and provide them some direction that is his true hallmark.

Mr. MILLER of California. Could the gentleman explain or persuade us that in this organizational effort, how come when those early press conferences were held, the organizes were always in the back behind the rostrum?

Mr. DOWNEY. Well, Mr. MOFFETT, as the gentleman knows, had an unerring ability for the camera lens. This ability was second only to his ability to appear on the CBS Morning News and radio more often than many Members of Congress, which I think was probably one of the reasons he was held in a minimum of high regard by some of our colleagues.

Mr. MILLER of California. The gentleman means in the New York media market.

Mr. DOWNEY. Yes. For the most part, he had not only this uncanny sense of what the press thought was important, but an uncanny sense of what was important for our country. And in a place where money, power and influence, getting along, going along, are really much more the premium, TOBY followed very few of those early leads.

He was comfortable with his ideology, and that comfort and enthusiasm for the ideas that he espoused, he managed to infect—I do not know that that is probably the right adjective or verb—infect others around him. He was able to make people understand that a government freely elected by the people was good for people and that government had a positive role to play in a whole variety of things, energy, conservation, nuclear power, nuclear freeze. This was really unique and very special.

There are very, very few people who combine the ability to organize, the ability to draw out and the ability to codify ideas in a way that is palatable to legislators, palatable to the media, and palatable to people.

He was able to do all those three things. Frankly, he was without peer and is without peer in this matter.

I am quite sure that the next 2 years, the next 4 years, whatever Congressman MOFFETT does in that time he will do well and that our country will profit from his doing it.

Mr. MILLER of California. Speaking of profit, let us stop right there. This is an important point that the gentleman has made.

At one of our first meetings when the gentleman from New York and the gentleman from Connecticut that we are talking about, at one of our first meetings there was a consideration of the Giants versus the Redskins and I remember discussing profit there and I remember discussing whether or not the Giants could enhance our effort, realizing the American dream of profit, or whether the Redskins could.

The gentleman from New York said very clearly, over the advice of the gentleman from Connecticut, that all the Redskins had to do was to simply show up and we were home free.

Well, it was not free. I notice this weekend the Giants are coming back to town. I do not know if that is symbolic, that Mr. MOFFETT is leaving here. I would like to know if the gentleman would suggest, in his engagements with the gentleman from Connecticut, has profit been there?

Mr. DOWNEY. There is no question that the gentleman from Connecticut (Mr. MOFFETT) was much maligned for his anticapitalist tendencies. Very few people who really knew Mr. MOFFETT, those were the people who did not know him, would say that those of us who knew him closely knew he was an entrepreneur of the most unusual sense. He was a man who was capable of seeing a good deal and moving to it.

Among the good deals that he saw most recently was the Georgetown-Virginia contest, and he picked the Virginia squad, much to his happiness and his profit.

Throughout his tenure here, he was capable of seeing a winner and a loser and understanding a point spread with rare, rare ability.

This is not found in many individuals.

The gentleman, of course, brings up a very sore point with me. Of course, the gentleman is talking about the 1979 Giants, weak in linebackers and even more tepid in the defensive secondary. But that particular day there was no question that Mr. MOFFETT saw something that I did not see, an inspired Giant squad, a poorly motivated Redskins squad.

Mr. RUSSO. Mr. Speaker, will the gentleman yield?

Mr. MILLER of California. I would be delighted to yield to the gentleman from Illinois.

Mr. RUSSO. Rumor has it, on pretty good reliable sources, some of the same sources that the media use, that the gentleman from Connecticut is seeking a free agency in baseball and there is a possibility that maybe the New York Yankees, in dire straits for a very sure handed shortstop, an excellent hitter, could use a gentleman of Mr. MOFFETT's abilities.

As I recall the first game we had in 1975 as freshmen, the second play on national television, which was the Joe Garagiola show, was our great friend from Connecticut playing shortstop. A slow roller was hit to him. He bent down to get the ball, never came up with the ball, the ball went out to the outfield.

Mr. MILLER of California. It must have been somebody else's fault.

Mr. RUSSO. It was a possible double play. He went through the entire motion, faked out our second baseman who thought a ball was coming to him, and nothing happened.

We almost lost the ball game if it was not for the abilities of some of the other members of the team.

I must admit TOBY MOFFETT, I do not think TOBY has ever gotten a hit in any game in the 8 years he has been here.

Mr. MILLER of California. When the gentleman suggested the term "free agency," that means that he would work for the Yankees for free, because clearly his talents would not allow a six-figure salary.

Mr. DOWNEY. On a sensitive point, I want to say that I participated in that first game.

Mr. Speaker, I would like to record to show at this point we have been joined by the gentleman from Massachusetts, Mr. MARKEY, the original author of the nuclear freeze and one of the giants in that effort, as well as its preeminent expert.

□ 2400

I want to say that the gentleman from Illinois does the gentleman from Connecticut a disservice, because rarely have I seen a shortstop look better than TOBY MOFFETT did in his Baltimore Oriole uniform. The fact that several of the balls hit to him managed to elude his grasp I think is nitpicking. Frankly, he looked terrific at shortstop in the warmups.

Mr. MILLER of California. A lot of discussion has been given here tonight about how TOBY MOFFETT looked, and there has been a lot of discussion about form over substance. Tell us again how he played his position.

Mr. DOWNEY. He looked excellent in practice.

Mr. RUSSO. His hair was always combed.

Mr. DOWNEY. Always combed. The hat fit him in sort of a jaunty manner that really defies description.

Mr. RUSSO. His uniform was never dirty.

Mr. MILLER of California. Explain again, when he went down for the ball, what happened?

Mr. RUSSO. He said, "MARTY, help me."

Mr. MILLER of California. Mr. Speaker, I would be delighted to yield to the gentleman from Massachusetts (Mr. MARKEY) who has studied now 6 years in the Moffett media school and accelerated in his class.

Mr. DOWNEY. Also a gentleman who has an unerring sense of the camera lens and how to project himself on it.

Mr. MILLER of California. And predictions. The gentleman from Massachusetts is very good at predictions.

Mr. DOWNEY. No, question, the gentleman from Massachusetts has an uncanny grasp of the obvious.

Mr. RUSSO. If the gentleman will yield for one other comment, it is appropriate that the gentleman from Massachusetts would participate in this. They play the game of basketball the same way.

Mr. MILLER of California. Gun and run?

Mr. RUSSO. Big O and no D. Two more famous individuals in the House gym in basketball are ED MARKEY and TOBY MOFFETT. Neither can shoot well, but shoot often. Neither knows how to play defense.

Mr. MILLER of California. I yield to the gentleman.

Mr. MARKEY. Mr. Speaker, I thank the gentleman for holding this special order. I come to praise Caesar, not to bury him. I have tried to, as best I could, to emulate the master, TOBY MOFFETT. None have been better in their political or athletic career.

Mr. MILLER of California. Never have so many tried.

Mr. MARKEY. Never tried to hug the limelight, but at the same time always performing at his superb level of performance that would be expected of someone who is trying as best he could to give leadership to the others who need it to be pointed in the direction of victory. TOBY MOFFETT has given us that kind of guidance over the years.

The gentleman from New York (Mr. DOWNEY) in many, many areas—arms control among them—is considered to be an E. F. Hutton in this body, and I have been honored to call him my friend, but none have excelled in more areas of public policy in my 6 years in public policy than TOBY MOFFETT. I have been able to watch him from the vantage point as a co-member of the Energy and Commerce Committee since the day I arrived in Congress.

The gentleman from Connecticut has always demonstrated an ability to take on the very, very tough issues of the day and to give a point of view that would not have been expressed in the committee deliberations unless he was present. He had the ability to take on, not just the special interests, not just an unpopular point of view, but oftentimes the most difficult thing that any person in this body has to do, and that is the leadership. Those are the people in responsibility, through the seniority system, who have risen to positions of power, and for the most part, unfortunately in characterizing this body, I have deferred to in an unnecessarily deferential way.

Early in his career—1974, 1976, 1978—I think he was very instrumental in helping to break down a system that I think was not as productive as it could have been, because that undue deference was paid to that seniority system. The criticism that he took, the price he had to pay politically early on in his career was eventually vindicated, and we now have a system, I think, which is much more open, much more capable of dialog, than had ever been possible before in the history of this Congress.

I think none were more responsible than seeing that new openness, that window placed open so that people could look in and see, that window of openness that TOBY MOFFETT gave to the citizens of this country to see how their Government worked.

Mr. DOWNEY. I make a point here about the gentleman's eloquence and also about the gentleman's tie. Is not that the same tie I have seen the gentleman wear four times last week?

Mr. MARKEY. This is what TOBY MOFFETT always said, if you have a good point, do it over and over again. TOBY MOFFETT would miss a shot four, five, six, seven times in a row, but never in any way—I think we could all say that about TOBY MOFFETT—his confidence was never for a moment stultified by any lack of success.

Mr. DOWNEY. I do not think there is any question that he could be amply characterized as a Michaelangelo of the media, as well as the sculptor of great ideas.

Mr. MARKEY. If I may, TOBY MOFFETT did not consider the hearing that he conducted a success unless five cameras were placed there.

Mr. MILLER of California. Sort of set a standard for us, the five-camera standard.

Mr. MARKEY. His staff deserves a lot of credit for those cameras, but I think the Congressman himself has to be given the vast bulk of credit. He had a telegenic quality that drew cameras. His presence will be greatly missed except for the gentleman from New York, who now sees a vacuum he can fill.

Mr. MILLER of California. I want to thank the gentleman from Massachusetts (Mr. MARKEY) for his remarks and for his contribution, his significant contribution to this special order.

I yield to the gentleman from California (Mr. PANETTA).

Mr. PANETTA. Mr. Speaker, I thank the gentleman for yielding. In all frankness, it was my intention to go home this evening. I happened to turn on the television, and I thought I was seeing a new pilot program to replace the "Tonight Show," and hoping that I might be able to participate in that pilot I rushed over here, because I did want to add my words to the praise that has been given to our good friend, TOBY MOFFETT, who I notice is not present in the Chamber.

I guess for the first year that I was in the Congress I had always thought that TOBY was Italian, and I found out to my great disappointment that he is in fact Lebanese, but ethnics do appeal

to me and for that reason I wanted to come over and praise him, because he has been a good friend.

In all seriousness, he is somebody whose great ability has been to make waves in the process. I think that is something that we need more of in terms of the Congress; his knowledge, his understanding, and perhaps most of all, his friendship has been important to us. For that reason, I did want to come over and share in this praise that he fully deserves.

Mr. MILLER of California. I want to thank the gentleman for his contribution, and I want to say to those who are watching, if they will telephone, if you phone you can have the last word and phone in, was TOBY MOFFETT a success or a failure?

But, if the gentleman from New York has anything further to say I would be delighted to yield. If not, let me say in all seriousness the tribute and the fact of the number of Members who showed up here tonight, and the tribute they have paid, is in fact a tribute, a standard that has been set for public service, but it is also a tribute that all of us are fortunate enough to call a friend. TOBY MOFFETT has been our friend, and that is why we have been a little bit lighthearted here tonight, because we expect to continue to enjoy that friendship. We look forward to spending New Years again with Myra and Mary Ellen and Julia and other friends. This is not a man you forget easily. This is a man that I expect to continue to work with and together tonight, tomorrow, and throughout the future.

□ 2410

In no sense of the word is TOBY MOFFETT leaving public service, in my mind.

Mr. Speaker, I want to thank all of the Members who participated, and I also want to make a point that was touched on by the gentleman from Massachusetts. As much as we respect TOBY MOFFETT's legislative ability and his ability to challenge the interests in the issues, we also respect his ability to assemble what I think is one of the great staffs that have worked together on this Hill and worked together as a family and as a unit to provide support for one of the really rambunctious, creative individuals who has come to the Congress of the United States.

I personally would like to thank them for their help and their efforts on behalf of the same issues and on behalf of the same interests that have been the public interests. I want to thank them for the many long hours and the many weekends they have spent in this effort together in a real partnership. It is one of the few times we will see it in Congress—a real partnership between a staff and a Member of Congress.

Mr. DOWNEY. Mr. Speaker, will the gentleman yield?

Mr. MILLER of California. I yield to the gentleman from New York.

Mr. DOWNEY. Mr. Speaker, I want to say very simply, that the history of Congress has been enriched by TOBY and he will join the list of Henry Clay, Allard Lowenstein, and others who have had a tremendous impact on this institution.

Mr. MARKEY. Mr. Speaker, will the gentleman yield?

Mr. MILLER of California. I yield to the gentleman from Massachusetts.

Mr. MARKEY. Mr. Speaker, I think that when the chronicle of the politics of the last quarter of the 20th century is written, TOBY MOFFETT's name will stand out as 1 of the 10 outstanding Members of Congress, those Members who stood up for the principles they believed in and made a real difference in the important public policy decisions that were critical in questions of defense, energy, and the economy. His name, along with others, such as John Moss and MOE UDALL, will be, I believe, engraved in the history of this country.

Mr. MILLER of California. Mr. Speaker, I would just like to say that it was said during the campaign, and it has been proven true in his years of service, that one good person can still make a big difference.

● Mr. MCKINNEY. Mr. Speaker, I will have a special reason for missing TOBY MOFFETT when he leaves this Chamber in January. As the senior member of the Connecticut delegation at the ripe old age of 51, I have enjoyed having TOBY in the No. 2 spot to remind me that seniority does not translate into age. BILL RATCHFORD, with silver gray hair at age 48, will assume the second spot and will never offer me the same excuse.

More seriously, TOBY MOFFETT is a man of ideas and a man of energy. Although we sit on different sides of this Chamber and frequently differ on issues, I have always respected him as a thinker worth listening to. We have always shared a concern for providing residents of the Northeast with adequate energy resources at a reasonable cost. The people of Connecticut's Sixth District for the past 8 years have had a Congressman whose boundless energies have served them well.●

● Mr. BOLAND. Mr. Speaker, I am delighted to join my colleagues in paying tribute to the Honorable ANTHONY TOBY MOFFETT of Connecticut who will be leaving the House at the end of this Congress.

Since TOBY MOFFETT was elected in 1974, he has established a notable record of legislative action. He has tirelessly fought for the people of his district, his State, and the entire Nation. He has gained a well-deserved reputation as an effective and thoughtful representative of the Nation's consumer interests.

TOBY's significant work in the area of energy earned him the chairmanship of the Energy Subcommittee of the Committee on Government Operations. In this position, and as a member of the Commerce Committee, TOBY has contributed a great deal to America's energy policy. The energy problems which face America today often seem intractable and attempts at their solution always arouse controversy. The House has been fortunate to have TOBY MOFFETT playing a leadership role in these areas. He has always been willing to spend long hours studying these problems, and to place himself at the center of the highly charged debate which surrounds them.

It has been a pleasure for me to work with TOBY on matters of common concern to our constituents. Because he is a native of Holyoke, Mass., because the Sixth Connecticut District adjoins my district of Massachusetts, and because I know his fine parents, I consider TOBY to a friend and neighbor. I extend to him my best wishes for success in his future endeavors.●

● Mr. ANNUNZIO. Mr. Speaker, I rise today to pay tribute to the Honorable TOBY MOFFETT, who has ably represented the people of the Sixth District of Connecticut in the U.S. House of Representatives for the last 8 years. His record of excellence and creative accomplishments as a citizen, as a public servant, and as a Member of Congress are most worthy of recognition.

Before coming to the House of Representatives, TOBY served as the Director of the Office of Students and Youth for the U.S. Commissioner of Education from 1969 to 1970, and as a staff assistant to former Senator Walter Mondale from 1970 to 1971. He also compiled a record of outstanding achievement as the director of the Connecticut Citizens Action Group from 1971 to 1974, and he is a man of exceptional writing abilities and teaching skills, who has been active in civic and community affairs, as well as consumer advocacy.

Elected in 1974, TOBY MOFFETT has served with distinction as a member of the House Energy and Commerce Committee as well as a member of the Subcommittees on Health and the Environment, on Fossil and Synthetic Fuels, and on Commerce, Transportation, and Tourism of that committee. He has also given outstanding service as the chairman of the Subcommittee on Environment, Energy, and Natural Resources of the House Government Operations Committee. His dedication to high standards is an inspiration to his friends and fellow citizens, and he will be missed here in Congress by all

of us who have had the opportunity to work with him.

I extend to TOBY MOFFETT my best wishes for continued success in all of his future endeavors, in devotion to the highest principles.●

● Mr. JONES of North Carolina. Mr. Speaker, I join with the majority of the Members of this House in realizing the loss of one of the more popular Members; I refer to my good friend, TOBY MOFFETT. It was always a pleasure to discuss legislation with TOBY as he was always understanding and in most cases, fully cooperative.

On a more personal basis, I do not know of any Member of Congress above the Mason-Dixon line who was as well informed about the athletics of the Atlantic Coast Conference. He knew all the names of the players of the major schools, such as North Carolina State University and the University of North Carolina. I mention this to show just how well-rounded and well-informed he is. Of course, I shall miss this camaraderie, and certainly want to wish him and his family well in the years ahead. I am sure whatever career he decides to pursue, he will prove to be an outstanding success. Even though he will not be with us after January, I shall consider him a friend, and in closing, offer him not only friendship, but any assistance that I might lend him in the years ahead.●

● Mr. MITCHELL of Maryland. Mr. Speaker, I am pleased to join my colleagues in this tribute to yet another fine Member who will not serve with us after the current session. Representative TOBY MOFFETT will not return next year and I will certainly miss this spirited man who has dedicated his tenure in Congress to such causes as consumer protection, legislative oversight, and energy conservation.

Representative MOFFETT has held strongly to his various missions. His voice has often been heard on behalf of this Nation's poor, elderly, and youth. Additionally, he has utilized his various House positions to draw attention to inequities and injustices.

It has been quite apparent that, during his years of service in the House, TOBY MOFFETT has remained steadfast in his commitment to the consumer. He has conducted in-depth probes into ground water contamination and related toxic waste problems, the controversial oil import fee, automobile miles-per-gallon standards and test procedures, "pork-barrel" dam projects, emergency planning around nuclear powerplants, and the taxpayer-funded Synthetic Fuels Corporation. His expertise and commitment brought needed congressional attention to such sensitive, critical issues.

Mr. Speaker, it is often that we realize that we will miss a departing colleague. However, I believe that Mr. MOFFETT will continue to work arduously on behalf of those causes for which he fought in the Congress. He is entering other arenas of public service and I am certain that his contributions will be just as valuable. I wish him the very best.●

● Mr. WAXMAN. Mr. Speaker, when TOBY MOFETT retires at the end of this session, the House will lose one of its finest Members and I will lose having a good friend as a colleague. I wish to take this opportunity not only to wish TOBY well, but to pay tribute to his work here and consider what his retirement will mean to us.

TOBY MOFFETT came to Congress as part of the much heralded class of 1974. As a fellow member of that class, I have been constantly impressed with how quickly TOBY mastered difficult and important issues and translated popular rhetoric into legislative victories. We have read the stories on how special interests have come to control Congress. The truth is TOBY was captivated by a special interest—it is called the public interest, and he has fought for it in every battle he has entered. It is futile to recall every cause TOBY has championed, but it is essential I at least acknowledge his tremendous contributions to environmental energy and consumer legislation. Both as chairman of the Environment, Energy, and Natural Resources Subcommittee, and as a member of the Energy and Commerce Committee, TOBY has stood as Horatius did at Tiber and protected the public interest.

Perhaps no issue illustrates TOBY's commitment and skills as his work on acid rain. Several years ago the public and most Members of the House were unaware of the emerging acid rain problem. TOBY read the studies, looked at the acidification of lakes, and realized the need for Federal legislation. Through his efforts we have all been educated on the problem, and it is now one of the public's highest pollution concerns. Acid rain legislation will not pass this year, but I will be supporting strong legislation during the next Congress. When that legislation is enacted, it will be a fitting tribute to TOBY's dedication and vision.

It is obvious TOBY's talents will be missed here. I will miss his friendship and the abilities he brought as an ally. But after speaking to TOBY, I am confident we will be working with him in the coming years. I know we all wish him the success that is his due.●

● Mr. ROSENTHAL. Mr. Speaker, TOBY MOFFETT has been a friend and close colleague since he came to Washington in the 94th Congress. We represent constituents in adjoining States. We share a Government Operations Committee assignment and are both subcommittee chairmen there. Each of us has a special interest in consumer and environmental issues; and in democratizing the committee system so that newer and younger Members of Congress can more effectively participate in the legislative process.

TOBY has been able to accomplish what most Members of Congress only aspire to: Success in tackling some of our Nation's most difficult problems without sacrificing his dedication to the day-to-day needs of his constituents. As chairman of the Environment, Energy, and Natural Resources Subcommittee, TOBY compiled an enviable record of investigative hearings which exposed taxpayer giveaways to the energy industry, nuclear energy hazards, natural gas and crude oil price gouging, and exploitation of our Nation's finite natural resources.

TOBY MOFFETT has been the quintessential legislator: Compassionate, tough, dedicated, fair, and resourceful. What we have witnessed during these past 8 years is merely chapter 1 of what I know will be a long and successful public career. Given the significance of his past accomplishments in so short a time, I can hardly wait for chapter 2.●

● Mr. ST GERMAIN. Mr. Speaker, since first coming to Congress, our esteemed colleague, the Honorable TOBY MOFFETT, has been a strong advocate of consumer rights. He has served his constituents and the Nation well with his vigilance in monitoring the activites of the energy industry. At a time in our history when we saw soaring energy costs and inadequate supplies, TOBY was in the forefront of those questioning the reasons for the situation and searching for equitable solutions to our price and supply problems. He has earned a reputation as a tenacious fighter for consumers and, as chairman of the Subcommittee on Environment, Energy, and Natural Resources, he has become a major congressional spokesman in these areas.

As fellow southern New Englanders, we have worked together for many common goals. His energy, enthusiasm, and intelligence have proven invaluable assets to the New England congressional delegation. I have followed TOBY's career closely since he came to Congress. The qualities which made him quickly become a leader of his class will assure his future success. I wish him the very best and know that, whatever he chooses to do, we can expect to hear from TOBY MOFFETT.●

● Mr. SYNAR. Mr. Speaker, I appreciate the opportunity to participate in this special order for my friend and colleague from Connecticut, TOBY MOFFETT.

I have served closely with TOBY not only as a Member of the House, but particularly by our work together on the Government Operations Committee and the House Energy and Commerce Committee.

As you all know, TOBY has served with distinction as chairman of the Government Operations Subcommittee on Environment, Energy and Natural Resources, and I have been lucky to serve with him on that subcommittee since first coming to Congress.

During the 4 years I have worked with him, TOBY has brought literally scores of important issues before the committee and before the House of Representatives. I know you are all familiar with these issues and with TOBY's leadership in his capacity as chairman of that subcommittee, so I will not reiterate his many accomplishments in that area.

But I do want to say a few personal words about TOBY and my work with him. I think that the highest compliment one can pay a fellow colleague is to say that he always stands up for what he believes is right. And, as much as any Member I know, TOBY has consistently stood up and fought for each and every cause he believed in. And as important, he fought those battles openly, and with forthrightness and integrity.

There have been some issues in the past 4 years over which we disagreed—sometimes very strongly. But I always knew where he stood; and, in a time when many politicians try to be all things to all people, his candor was always refreshing. And no matter that we disagreed, I always learned something from his perspective on issues.

I will miss his leadership on many issues in which we share a mutual interest. I will miss our sometimes lively debates on other issues. And, I will miss him as a friend.●

● Mr. BONIOR of Michigan. Mr. Speaker, it is always hard to say goodby to those of our colleagues who will not be returning in the next session. Seeing TOBY MOFFETT leave, however, will be particularly difficult.

TOBY is a dear friend. Over the last 6 years, we have fought together for environmental and energy causes, have played basketball and baseball together, and have learned to trust and depend on each other.

Our backgrounds are so similar, and our interests are so much alike that I know I will be losing a close friend and not merely a colleague. I know also that TOBY has much more to offer his district, to the State of Connecticut, and to this country. I look forward to the day when we will again see him in public office.●

● Mr. STARK. Mr. Speaker, I join with my colleagues and friends of TOBY MOFFETT to congratulate him on his years of outstanding service to the Nation and the people of Connecticut—and to wish him a speedy return to public life.

Seldom has the House or the country seen a Member of Congress accomplish so much in such a short time. TOBY has displayed burning energy, and enthusiasm for public service; he has showed us all how to better use the "bully pulpit" of a congressional office to help protect the consumers and workers of America. He has shown us how to use a subcommittee to investigate, shed light, and arouse public concern over key environmental and energy issues. His work on toxic wastes, energy and auto efficiency, unwise public works projects, and the havoc which would be wreaked by an oil import fee, have helped improved the lives of all Americans.

TOBY's leaving will deprive the House of one of its best "oversighters"—unfortunately at a time when we need him more than ever.

He has demonstrated again the old truth that eternal vigilance is the price of liberty—and of good government.

I am going to miss his presence in this Chamber. His wit and courage are an example to us all. I can only hope that he will soon find another platform to continue his work on behalf of the American people.●

● Mr. SAM B. HALL, JR. Mr. Speaker, when my friend TOBY MOFFETT leaves the House at the end of the "lameduck" session, Congress will have lost one of its more energetic and effective young Members. He has boundless enthusiasm for the give and take of politics, and while our views are not often parallel, I have the greatest admiration for his ability and integrity.

As we all know, TOBY MOFFETT ran a tremendous Senate campaign in his native State of Connecticut and came very close to success against a popular encumbent. On the basis of this strong campaign and his statewide image as a spirited fighter for environmental and consumer causes, I predict that he will soon be back in the political arena. He has already enjoyed outstanding success at the polls.

I have enjoyed serving with TOBY MOFFETT and wish him well in his future endeavors.●

● Mr. AKAKA. Mr. Speaker, I am pleased to join my colleagues today in tribute to the gentleman from Connecticut, TOBY MOFFETT on the occasion of his retirement from the U.S. Congress.

TOBY is best known for his efforts on energy policy, particularly in regard to consumers' rights. However, his commitment to social activism did not begin when he entered the House of Representatives in 1974. His concern for the rights of others began long before that. Whether it was as a teacher in Boston's inner-city schools, as the first director of HEW's Office of Students and Youth or as executive director of the Connecticut Citizen Action Group (CCAG), TOBY has consistently worked for the disenchanted, disenfranchised or unrepresented people of this society. His work with the CCAG was particularly successful, leading to that group's role as a national model for citizen advocacy groups.

My colleague's brand of social activism is also somewhat of a pioneering effort. He is a serious legislator who works very well within the system. His understanding of the House led to his chairmanship of the Energy Subcommittee on Government Operations. He has used this position to good effect, most notably by leading the effort which rejected a proposed dime-a-gallon oil import fee.

As TOBY leaves the House to return to Connecticut, we certainly will miss both his counsel and his wisdom.●

● Mr. OBERSTAR. Mr. Speaker, TOBY MOFFETT's heartbreakingly close loss in his Senate race is a loss not only for the Senate, but for all of us in the Congress and throughout the country who are working for a responsible energy policy, environmental protection, vigorous enforcement of our consumer laws, for a commonsense and cost-conscious approach to defense spending.

In the tremendous scope of his legislative activities and the unsurpassed energy which he has brought to his official duties, TOBY MOFFETT has set a standard by which other Members are judged. He brought to this House his enormous enthusiasm and competence as a consumer advocate. He remains as passionate and as effective an advocate as the day he entered this House.

Quite simply, the Congress will not be the same without TOBY. He would have been a tremendous Senator for the people of Connecticut and for the Nation. His commitment to peace and to progressive domestic policies would have made him a tremendous ally in the Senate for those of us deeply concerned about the misallocation of the national budget and its grotesque emphasis on nuclear weaponry at the expense of human services programs.

There is no doubt that only a chapter in the book of TOBY MOFFETT's political career has come to an end. Those of us who know TOBY and respect his ability and dedication to public service will not be surprised should TOBY join us again either as a colleague in this House or as a Member of the other body.

I hope the next few years will be rewarding ones for him, as he has the opportunity to explore diverse professional experiences, as well as the joys and privacy of a temporary retirement.●

● Mr. LONG of Louisiana. Mr. Speaker, ANTHONY TOBY MOFFETT will be leaving the House at the close of this session of the Congress. Today, I am pleased to be able to make a few remarks about TOBY before he leaves our ranks.

For the past 8 years, it has been an honor for me to have TOBY MOFFETT as a fellow Congressman. From the very first day of his service in the House, TOBY has been one of the hardest working Members in this body. TOBY has diligently and unceasingly sought to defend and advance the interests of his Connecticut constituents. At the same time, TOBY has been a vigorous defender of the House as an institution. We have shared a common interest in seeking to improve the legislative process.

During his time in the House, TOBY has been a vigorous defender and advocate of the consumer. He has been recognized by his colleagues as a vigilant overseer of the bureaucracy and the executive branch. For TOBY, "oversight" is much more than just a word used by political scientists. He has shown all of us how oversight can be used effectively to make our political institutions responsive and accountable. In his time of service in this body, TOBY has conducted in-depth probes into ground water contamination and related toxic waste problems, the controversial oil import fee, automobile miles-per-gallon standards and test procedures, "pork barrel" dam projects, emergency planning around nuclear powerplants, and the taxpayer-funded Synthetic Fuels Corporation.

For myself, I have to admit that I have met few individuals with the wide range of interests and the energy that I have observed in the time I have known TOBY. In addition, he is a man of character and integrity who has brought great credit to this body. It was typical of TOBY MOFFETT the man that he did not seek to hide or cover up his feelings after his recent loss in Connecticut's senatorial election. However, I, along with all his other friends, have been very pleased to see the way he has bounced back from this temporary setback.

We do not know what the future holds for TOBY MOFFETT. Yet, each of us can rest assured that TOBY will find a way to continue serving the people of this country. My friend, we shall miss you in this body. I wish you the very best in the years ahead.●

● Mr. RAHALL. Mr. Speaker, first off I would like to thank the gentleman from California, Mr. MILLER, for setting aside this period of time so that we may have an opportunity to express our thanks and appreciation to a Member of this body, who has served his State, district, and Nation with distinction, TOBY MOFFETT.

During the 8 years he has represented the Sixth District of Connecticut, TOBY MOFFETT has never let things just "go along as always." He has been one to shake the system, from time to time, and has always made it a point that the best interests of the people be served.

As chairman of the Subcommittee on the Environment, Energy, and Natural Resources, TOBY fought President Carter's dime-a-gallon oil import fee; he fought the decontrol of oil prices; he worked for numerous energy conservation programs; and always took the side of the consumer, especially those in New England who often took the brunt of higher energy prices.

His career, for now, has been cut short here in Congress, but knowing TOBY, his efforts will not cease. His principles remain the same, his goals have been unaltered, and I know that he will fight another day.

Our personal friendship has grown over the time we have both spent in this body. In January 1980, we traveled to the Middle East together, and visited the land of our grandparents, Lebanon. Our relationship has been strong, because of our similar ethnic backgrounds, and even though he will not be a Member of the 98th Congress, I am pleased to know that our friendship will carry on in the years to come.

I wish TOBY, and his wife, Myra, the very best, and hope that all their future endeavors are successful.●

● Mr. ROYBAL. Mr. Speaker, I take this opportunity to pay tribute to one of the hardest working and most dedicated Members of the House. For 8 years TOBY MOFFETT has provided this body with the principles, visions, and creative ideas so badly needed in these turbulent times. Through his commitment to justice and the ideals of peace TOBY has been a courageous leader and a reliable ally in the difficult battles.

I know I speak for my colleagues when I say that we are honored to have had such a fine human being among us and we respect his many contributions to all the people of this Nation.●

● Mr. FORD of Michigan. Mr. Speaker, it is with great pleasure that I join with my colleagues in paying tribute to ANTHONY TOBY MOFFETT. I will truly miss TOBY as both a friend and a colleague when he leaves the House of Representatives at the end of the 97th Congress. As a member of the "Watergate class" of 1974, TOBY brought to Washington a dedication to social activism and an energetic and aggressive style. After only 4 years in the House, TOBY was elected to the chairmanship of the Government Operations Subcommittee on the Environment, Energy, and Natural Resources—a mark of the high esteem in which TOBY is held by his colleagues.

TOBY has long fought to benefit consumers through his actions and votes in the House. TOBY led the fight against the decontrol of natural gas and, as winter is upon us, we are now seeing the dire consequences of decontrol. He has continued his battle to assist in lowering the costs of heating fuel to a more affordable level for consumers throughout the Northeast and the remainder of the Frost Belt. The people of the Sixth District of Connecticut, as well as consumers everywhere in the United States, are losing a fine Representative in Washington.●

● Mr. MATSUI. Mr. Speaker, it is with a profound sense of regret that I join my colleagues this afternoon and pay tribute to TOBY MOFFETT, who will be leaving this House after 8 years of distinguished service. TOBY's wit, intelligence and style have often infused this body's debates with an infectious spirit, one of which we are saddened to be cured.

I have had the pleasure of serving with TOBY on the old Interstate and Foreign Commerce Committee, where I witnessed his ingenuity and talent firsthand. This Nation has TOBY MOFFETT to thank for his pioneering efforts in articulating the extent of the contamination of underground water supplies by hazardous wastes and motivating the Government to take curative action.

TOBY's legislative record attests to his abiding concern for the rights of all Americans to receive equitable treatment from their Government and the various institutions which comprise our society. His championship of environmental and consumer oriented legislation has translated into a better life for all Americans, especially those generations not yet born. TOBY learned well from my predecessor, John Moss, and conducted thorough oversight investigations into the activities of Federal agencies to insure they were serving the public interest by carrying out their statutory mandates.

In closing, I would like to share the last stanza of a poem by Robert Frost which epitomizes TOBY's attitude and contribution to the House of Representatives:

I do not see why I should ere turn back
Or those should not set forth upon my track to overtake me.
Who should miss me here and long to know if still I held them dear.
They would not find me changed from him they knew
Only more sure of all I thought was true.

TOBY, I wish you Godspeed.●

● Mr. RODINO. Mr. Speaker, I want to take this opportunity to recognize an outstanding Member of this House, TOBY MOFFETT, who is leaving Congress at the end of this term.

For the last 7 years TOBY MOFFETT has devoted himself to fighting for the best interests of all the people over the special interests of a few. As a member of the Energy, and Commerce Committee, he has been an articulate and knowledgeable spokesman for the cause of energy conservation, reminding this House and the Nation of our commitment to a safer, cleaner, and more energy efficient environment.

His vigilant oversight of the Federal bureaucracy has held our Government

accountable to the people and protected American consumers from abuse.

His work for tougher regulatory standards for nuclear power plants has made safety a certain priority for our future energy sources.

His contributions to a sensible policy for stopping the spread of nuclear weapons has helped to put this administration on notice that the people of this country want action to preserve world peace.

The gentleman from Connecticut has never failed to take the House floor to argue for the rights of those Americans who too often find themselves without a voice—the disadvantaged and minorities—when he has felt those rights were being denied.

A man of principle and strong conviction, TOBY MOFFETT's intellectual independence and vitality will be sorely missed here.

I am proud to have served with him, and wish him all the best in the future.●

● Mr. EDWARDS of California. Mr. Speaker, I am most grateful to my colleague GEORGE MILLER for arranging this special order. I would like to take this opportunity to express my deepest appreciation for TOBY MOFFETT, a tough and talented legislator. TOBY MOFFETT has dedicated his entire life to civic and community service. This commitment has been manifested time and time again working with urban street gangs around the country, teaching in Boston's inner-city schools and directing youth programs.

TOBY MOFFETT embodies that all too rare and noble fighter who is so often needed to champion and safeguard our precious natural resources.

TOBY's earnest commitment to social activism, his staunch advocation of peace and his indefatigable fight for a wise energy policy will not only be sorely missed by this body, but also by this country.

Equally difficult to replace will be TOBY's legislative skills as chair of the Subcommittee on Environment, Energy, and Natural Resources. As a member he has been a sage for our times by persisting to enact a variety of ideas to conserve energy.

As one of this country's leading consumer advocates, TOBY has never been reticent in speaking out. Though he will no longer be with us, his eloquent voice and ideas will continue to exist in this body.

As a good friend of TOBY's, I am very aware of what a positive, energetic, and determined force he has been for consumer advocates and environmentalists. I will deeply miss his indomitable spirit and relentless energy which has inspired many of us seated here.

When TOBY first arrived here 8 years ago he injected some healthy and long needed criticism of this staid body. I hope we can pay TOBY everlasting tribute by taking advantage of his fair and undeniable constructiveness.

We have not heard the last of TOBY MOFFET. Even in his defeat TOBY has manifested his courageous spirit. His valiant effort tells us all that we can expect him to be a continuing dynamic force in our society.●

● Mr. BROOKS. Mr. Speaker, I regret very much that TOBY MOFFETT will not be returning as a Member of the 98th Congress next month. He has been a valuable Member of the House of Representatives for the past 8 years, and we will miss his clear, constructive thinking and the articulate expression of his views that have contributed so much to our deliberations.

We on the Government Operations Committee will especially miss TOBY. As chairman of the Environment, Energy, and Natural Resources Subcommittee, he conducted a number of important investigations of nuclear plant safety, ground water contamination and administrative shortcomings in the Department of Energy and the Environmental Protection Agency. He has been an ardent champion of the rights of consumers and has forcefully and effectively opposed those special interests that would exploit them. His efforts in this area have been of great benefit to people across the Nation and they, too, will miss him.

TOBY is still a young man and I am sure that with his strong sense of public service he will continue to make a solid contribution to the general welfare for many years to come. In whatever he endeavors, I wish him well.●

● Ms. OAKAR. Mr. Speaker, as I reflected on the accomplishments of our young colleague, TOBY MOFFETT, I was struck with how much he has accomplished since his 1974 election:

The American Conservation Corps, a youth jobs program which may employ as many as 100,000 of our youngest citizens;

Environmental legislation which attempts to make this world a better place for all of us, regardless of economic background;

Legislation which I term "people legislation," like strong medicaid, social security, and pensions;

Internal rules changes in our great party which help promote Members who have proven their ability to lead and legislate; plus much more.

Of TOBY MOFFETT it can be said that he not only tried, but succeeded.

Mr. Chairman, like myself, TOBY comes from a working class background. He has worked his way up, at one point becoming the head of the Connecticut Citizen Action Group—a group which became a model for similar organizations throughout the country. In Congress he has consistently fought the big oil companies and the administration, trying to prevent deregulation of natural gas because it would hurt the majority of people while helping a few big companies.

His global vision was extraordinary, so TOBY pushed the nuclear freeze petition and advocated the banning of nerve gas production.

Of TOBY MOFFETT it can not only be said that he "tried, tried very hard" but that he left a legacy which endures.

Good luck, TOBY. And keep it up! We need you!●

● Mr. ROE. Mr. Speaker, I rise today to join my colleagues in paying tribute to TOBY MOFFETT, the able Representative of the people of the Sixth Congressional District of Connecticut for the past 8 years.

TOBY has been a fine Congressman who has dedicated his years here to bettering the lives of all Americans. His dedicated work as chairman of the House Energy Subcommittee on Government Operations has propelled him into the national spotlight as a key spokesman on the highly important issue of energy development.

Though a young man of only 38 years, TOBY MOFFETT's life has been dedicated to the service of others. After graduation from college he took a job teaching in Boston's inner-city schools. During the late 1960's he traveled America trying to increase job opportunities for disadvantaged young people. In fact, TOBY once directed youth programs for the Nixon administration.

When TOBY MOFFETT came to Congress in 1974, he occupied the office next to mine in the Longworth Building. I found him to be a man of incredible energy, eager to learn all there was about how the system worked here and how that power could be utilized to benefit those he was elected to serve.

Mr. Speaker, unfortunately, TOBY MOFFETT will not be serving with us when the new Congress convenes next month. But I am quite sure his name will be included as a Member of the House class of 1984.●

● Mr. DWYER. Mr. Speaker, it is an honor to take part in today's special tribute to TOBY MOFFETT. In only four terms as a Member of this body, he has established himself as one of our most preeminent Members, and he will be missed.

Congressman MOFFETT is among our most energetic and dedicated spokesmen, not only for the people of Connecticut's Sixth District, but for the people of this entire Nation as well.

As a member of the Energy and Commerce Committee and chairman of the Subcommittee on Environment, Energy, and Natural Resources, he has become a leader in areas that are vital to our health and quality of life.

TOBY MOFFETT is a man of ideas, principle, and compassion. I am confident that we will continue to hear a

lot about him as he transfers these attributes into other forums.

I want to thank Congressman MILLER for calling this special order for Congressman MOFFETT, affording us an opportunity to offer our appreciation for the many contributions he has made to our work here and extend our best wishes for what we know will be a bright future.●

● Mr. DELLUMS. Mr. Speaker, I am honored, but also saddened to join with my colleagues tonight in honoring my close friend Mr. TOBY MOFFETT, the fine Representative from Connecticut. I am saddened because the Congress desperately needs decent and principled people like TOBY and his absence from the 98th Congress will be a real loss to this institution.

Since coming to Congress with the class of 1974, TOBY has been a forthright advocate of people's rights around the world. He has been a strong supporter of human rights both in the United States and abroad and an outspoken opponent of the powerful special economic interests which unfortunately dominate our society to the detriment of the needs of the great majority of Americans. As a member of the Energy and Commerce Committee and as chairman of the Governmental Operations Subcommittee on Environment, Energy, and Natural Resources, TOBY has led the fight for a rational and equitable energy policy. He fought for policies to meet the needs of America's people and not the greed of the profit-hungry oil companies.

Over the years, his staff and mine have joined together in many efforts to express our "progressive" perspective. None was quite as successful as the venture known as Little Anthony and the Anti-Imperialists, our combined softball team.

This Congress will miss TOBY MOFFETT and I hope that the 99th Congress will be honored with his presence.●

● Mr. JONES of Oklahoma. Mr. Speaker, there is a standing joke in the House that when one of our Members is elected to the Senate, the intelligence level in both bodies is raised.

Here, unfortunately, is a case where both the House and the Senate are losers.

TOBY MOFFETT has been a superb Representative and he would have made a superb Senator starting next year.

But we are here today to praise TOBY MOFFETT, not to conduct a wake.

First, we should praise TOBY MOFFETT's accomplishiments. He has been a fierce advocate of the causes in which he believes. He has won battles and he has lost battles—but he has always been a Congressman who cared, who cared deeply and fought fiercely for what he thought was right.

Second, we should look to TOBY MOFFETT's future. I do not know where he is going right now or where he wants to go in a few years. But you can bet that Connecticut and the United States have not heard the last of TOBY MOFFETT.

Anybody who is still 2½ years short of being 40 years old has a great future ahead. TOBY MOFFETT clearly does.●

□ 1157

SMALL BUSINESS INNOVATION DEVELOPMENT ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York (Mr. LAFALCE) is recognized for 15 minutes.

● Mr. LAFALCE. Mr. Speaker, on June 22, the House overwhelmingly passed H.R. 4326, the Small Business Innovation Development Act. The Senate had passed the measure earlier and the President signed it into law on July 22, 1982.

Since the law's enactment, the Small Business Administration and other agencies have moved rapidly to implement its provisions. The SBA has issued expeditiously the required policy directive for the general conduct of the program throughout the Federal Government. The 10 Federal agencies required to establish small business innovation research programs are moving toward the first solicitations for SBIR proposals. In fact, the first SBIR solicitation will be released by the Department of Energy on December 15, 1982.

Throughout the implementation, one question has arisen repeatedly. I want to take a moment to address this question. Small businesses historically have received a very small share of Federal Government awards and grants for research and development. Precise statistics are not available; however, estimates indicate that only about 4 percent of the Federal R&D budget is awarded to small firms. It is now generally recognized that small high technology firms are the most efficient innovators in our Nation's economy. The low percentage of R&D awards to small firms, together with their innovative and job creation potential, was the driving force behind the enactment of the Small Business Innovation Development Act of 1982.

The act, which is also known, as Public Law 97-219, requires a fixed percentage of the extramural R&D budgets of 10 of the larger Federal agencies to be earmarked for award of research or research and development under SBIR programs. The act also requires the establishment of goals for awards of research and development in agencies having R&D budgets of $20 million or more under normal procurement or grant procedures, that is, outside the SBIR programs. The act states that awards by agencies to small firms for R&D outside the SBIR programs cannot be counted as part of the fixed percentage reserved for SBIR programs.

The question has arisen—and it is a crucial question indeed—whether SBIR awards can be counted toward achieving the non-SBIR goals of agencies. The answer is clearly no. The intent of the act was to increase R&D awards to small business through the special provisions of SBIR programs. If agencies can count SBIR awards as part of their overall small business R&D awards, the result might very well be a shift from normal small business R&D awards to SBIR awards rather than a net addition as is clearly the congressional intent.

Mr. Speaker, I appreciate the opportunity to comment on this important point of the Small Business Innovation Development Act. I am confident that the act will help unleash the innovative potential of small high technology firms and result in increased innovation, a broader technological base and increased employment in our Nation's troubled economy.

COLUMBIA GAS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio (Mr. BROWN) is recognized for 5 minutes.

Mr. BROWN of Ohio. Mr. Speaker, today, I sent the following letter to the chairman of the board of the Columbia Gas Pipeline.

All of us who serve in Congress are hearing with increased frequency that the natural gas prices of our constituents are going up at record rates even though there is, at present, a surplus of supply and a decline in demand. That never happens in a free market.

The explanation is that we do not have, and perhaps we never have had, a truly free market in the natural gas industry. It is regulated, overregulated, and reregulated from one end to the other. Of course, I firmly believe that we should have a free market in natural gas; if we did, the city-gate price which the consumer pays would be declining. To establish this free market, competition must replace regulation in every possible instance.

It will be the next Congress, and not this lameduck session, which will have the responsibility to once again tackle natural gas legislation. I do not envy my colleagues who will return. But I do have a few thoughts that I would like to pass along. For this reason, I insert the following letter in the RECORD at this time.

AN OPEN LETTER TO COLUMBIA PIPELINE,
December 14, 1982.

Mr. W. W. FERRELL,
Chairman, the Columbia Gas Transmission Co., Wilmington, Del.

DEAR MR. FERRELL: I recently received a copy of your news release entitled "Columbia Transmission Initiates Program to Reduce Gas Costs". Part of me wants to say, "It's about time!". Another part of me wants to congratulate and encourage your efforts.

I wish you had taken this initiative sooner. In March 1982, I testified against your gas purchasing practices at a hearing held in Columbus, Ohio, by the Federal Energy Regulatory Commission on combined Purchased Gas Adjustment requests for 1981 and 1982. Those very P.G.A. requests were bloated by an assortment of high-priced gas contracts.

At the time of the Columbus hearing I called on your company to initiate a program to reduce the city-gate price of gas on your system by reducing your obligations for the most expensive sources of your supplies. This program would have allowed your distributor customers to remain competitive with fuel oil. Your industrial customers would have stayed on your system and stayed on without the subsidy from residential users inherent in the "discount" rate you now request. My proposal came not from my experience as an elected official—as you may have assumed—but from my experience as a businessman.

When demand falls, the first response of any business must be to lower the volume and cost of inventory. To do this, in your industry, requires a downward readjustment in the quantities and price of natural gas contracted supplies. Naturally this requires renegotiation of the price clauses and take-or-pay clauses of contracts. To be effective, you should clear the most expensive inventory first and move on until your average delivered price is competitive. That was the nature of my advice to you this past March; had you accepted it, the consumers on your system—many of whom have no other supplier available—would have less expensive gas service this very winter.

But then, you ignored my advice in 1978 when I predicted that the Natural Gas Policy Act (NGPA) would create these problems. You supported it and Congress passed it; I led the (unsuccessful) opposition.

So the years 1979, 1980, and 1981—when the natural gas contracts which have since proven controversial were signed—were years dominated by the policy and flaws of the NGPA.

The NGPA has a number of fundamental flaws. Perhaps chief among them is that it only gave an incentive to producers to produce the exotic and expensive supplies. Since the price payable for new conventional gas was tightly limited but the price for gas below 15,000 feet was unlimited, producers naturally concentrated on producing the more profitable supplies. Some misguided observers saw this and proclaimed that only the center of the earth contains the very last treasures of methane. The pipelines, or their part, were driven by the motivation to increase your reserves-to-production ratio regardless of the cost. At Columbia, you signed one contract after another at never-before-heard-of prices: I understand that you signed one contract at roughly $9 per mcf, and obliged your customers to take-or-pay for this gas at 90 percent, even though your own accounts reported a surplus of supply already under contract at the time. By the way, you had better put that contract at the top of your new program to reduce gas costs?

You were by no means alone. Your pipeline brethren were, as one producer described it, waiting in the hall honing to sign any deal offered. In short, the industry accepted the always false "energy policy" of James ("the end is at hand") Schlesinger and Jimmy (Moral Equivalent of War) Carter: namely, supply is geophysically limited, demand is relentless, and conducting the rationing is the challenge which makes men saints.

When you couldn't buy from the bowels of the earth at $9, you bought from Canada and Mexico. Neither Canada nor Mexico of course, was any longer willing to foolishly supply us with gas at below market rates as they had done for years. They knew they were the marginal supply—they wanted to be paid accordingly. They wanted a price equivalent to oil! President Carter dispatched his Czar! But the Czar didn't start; the NGPA ("the final solution") was incubating in a bitter congressional conference . . . The Czar didn't want to deal with imported supplies until the deck was cut by Congress. With the NGPA safely in law, the Czar struck the sort of deal that made him so well loved, he okayed a schedule of price increases for Canadian gas that put today's Canadian imports, at $4.94, and Mexican imports, at $5.01, substantially above the price of competing fuel oil! And, by the way, the new policy gave the Canadian and Mexican governments the ability to adjust the price unilaterally.

And, the pipelines—yours included—contracted for all they could get.

Well, things didn't turn out the way the NGPA thought they would. Demand does respond to price. It declines. If price doesn't then decline, and even larger surplus develops. (In the energy policy biz, headlines call it a glut.) But the NGPA's rolled-in prices keep rolling-on up. And, only now, do you and your pipeline brethren initiate your programs to reduce gas costs.

My political brethren, or many of them at least, are no wiser. In my book, those colleagues in Congress who voted for the NGPA are now witnessing the beauty of their work. Let us now toast the Democratic leadership of the House of Representatives which sheltered this NGPA from the will of the House in procedural trickery on more than one occasion, solely to save the NGPA from the likes of myself and Toby Moffett (and our coalition of bona fide free-marketeers and bona fide price-controllers).

Let us now toast those who call "Freeze!". Because, by my count, many of them voted to create this anomalous situation and evidentially want to preserve it forever in a timeless, frozen state. How proud the Freezers must be of their NGPA handiwork to put on ice the many recent record-high Purchased Gas Adjustments of Columbia and all your pipeline brethren. Isn't it an irony that Columbia, and many other pipelines, now want to thaw high prices just as so many elected officials call for a Freeze.

Congress is fundamentally a political place and it cannot be expected to be fertile ground for healthy economic thought, which is precisely why so many errors were made in the construction of the NGPA. I always remind my natural gas consumers that the maximum lawful prices paid to producers were set by Congress, as different dollar amounts were mystically arrived by, an inflation index inserted, and chiseled into posterity by politicians. So I call all expensive natural gas "Congressional Gas". Only by literal Act of (Democratic) Congress is $9 gas from 15,000 feet able to be produced and sold, and in great quantities, especially when its value as a fuel is 40-to-60% less. And don't forget about Alaskan gas. It will be one year to the day on December 15 that final approval was given by Congress and the President to force a $50 billion pipeline project for $18 gas into the bills of consumers even if it is never completed and used. Thank God the banks still say "no way" even though so many energy "policymakers" argued that we needed it and need it now.

So Columbia is not solely to blame that such ridiculously expensive gas exists; Congress is. Columbia is to blame for buying it. It was Columbia which ignored the lack of demand already evident on their system and bought it anyway. Perhaps the critical fault was taking the word of "energy policymakers", as if they knew what they were talking about, who said in 1977 that not enough gas would be found at any price to meet likely demand. You are the ones in business. you now know, or ought to, what demand is real and what is merely forecast.

The changes you have experienced this last year are not the result of a "temporary glut". There is no temporary glut. Nor was there in 1977 a geophysical shortage of fossil fuels. Nor does gas from different locations justify different prices. The political energy policymakers who tell you otherwise are the same false prophets who tricked you into this mess: ignore them at all times.

Columbia must change to adapt to this current market because the future of your industry depends upon it. The ups and downs of consumer demand for the product you supply is here to stay. Congress, when it reconvenes in January of 1983, may or may not alter the decontrol schedule of the NGPA. But unless we are to idiotically freeze prices at current unconscionable high levels, decontrol of the wellhead price of gas is necessary and inevitable. It is important to realize that, if done in today's market, immediate decontrol might well reduce the prices consumers pay. It would certainly pressure the pipelines to reverse their recent purchasing practices. From June, 1981, to June, 1982, the average price paid producers increased from $2.00 an mcf to $2.29, whereas the average delivered price charged by pipelines increased from $4.61 to $5.61. Now something turned that $.29 into a dollar! With decontrol will come more sensitivity to price complaints by consumers and more conservation. Will the pipeline industry act like businessmen and adapt to prosper in the market or run to Congress or to FERC for protection from a market switching to other fuels to save money?

I am leaving Congress after 17 years in office. So I will not be here for the debate after this winter's prices begin to give Congressmen and Senators the itch to "do something".

Let me advise you to do something yourselves. There are a number of small producers (really farmers, -realtors and such) in the Southeastern Ohio who have contracts to sell you gas at prices up to the NGPA price of $5.42. (This variety of "Congressional Gas" is known as "Tight Sands".) But for over 150 days you have shut-in their wells, as you continued to take even more expensive gas under your new program to reduce costs. These producers came to Columbia months ago asking to sell their gas to you at a lower price. You still refused to buy and shut them in. They then asked if they could sell their gas to a local industry which can't afford Columbia's NGPA price for gas but you refused to transport it. You told them

the local industry was Columbia's market not theirs, true to the public utility-monopoly theory that has dominated your industry since the 1938 Natural Gas Act. Then—and I'm not making this up—they called a town meeting to ask you to move their gas so they could sell it to the local school district for $2.50, more than 50% off the NGPA price. But still you refused.

So here's what you should add to your program: find those local producers and those school districts and those industries (if they're still there) and tell them you've changed your mind.

And if Congress does legislate in the 98th Congress, tell them about the bill I left behind, H.R. 7122. It would allow the pipeline industry—for the very first time—to actually earn and retain money for transporting gas owned by producers and ready to be sold to willing buyers. You and I know that the heart of the 1938 Natural Gas Act is the idea of preventing a pipeline from making money by transporting gas without first having to buy it and then resell it even though it cannot earn money on the resale. You and I know that my proposal to pay you $.05 cents to move shut-in gas to a willing buyer at, in all likely cases a reduced price, is inconsistent with current industry practices. It is, in short, a new idea.

But did you ever stop to think that one of the reasons Business Week called the financial future of your industry bleak is that you still operate as if it were 1938. Your industry's adamant resistance to grasp its own future is one of the latent reasons why anxious but economically confused politicians shout "Freeze" without understanding that they are, thereby, endorsing the very high prices they complain of and that they are, thereby, preventing the competition and conservation of the marketplace from lowering the price the consumer pays.

Tell Congress that you now realize that if only slightly higher prices had been allowed to develop more conventional domestic reserves of gas in 1977, 1978 and 1979, then the delivered price of gas (which the local gas company passes on to consumers) would actually be lower today, even though the prices paid to the producers would be, on average, higher. Tell them the reason is that conventional supplies could have satisfied the thirst of the pipeline at a much lower price than the deep and the exotic and the imported. And these supplies could have come without the "strings attached" of indefinite price escalators which threaten to send the price of what new gas was elicited by the NGPA up to the price of other "Congressional Gas". But the NGPA would never allow you to bid with cash so you and your pipeline brethren offered high "take-or-pay" provisions, so that you were sure you had that gas "signed up" under contract. Tell them you regret it all. Explain to Congress that's why prices are rising to the consumer in a time of surplus and why your current contracts bind you to pay (and pass on) the cost of gas you can't sell because your customers don't need it.

Admit to Congress that your behavior since the 1978 passage of the NGPA is part of the problem—almost as much as the NGPA itself.

I'm writing to you, Columbia, not just because I've criticized you in the past, but also because you were among the many pipelines which bought too much high-priced "Congressional Gas" because you believed all those doom-and-gloom "energy policy makers" in Congress and the Carter Administration in 1977 and 1978. Tell them you overestimated need and underestimated conservation. Tell them you've now seen the light and you are actually doing something yourselves. Tell Congress you'll change if they will let you.

Do something more. Spread the word.

Sincerely,

CLARENCE J. BROWN,
Ranking Minority Member,
Subcommittee on Fossil and Synthetic Fuels,
Committee on Energy and Commerce.●

PRESERVING THE NUTRITIONAL INTEGRITY OF WIC

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. GOODLING) is recognized for 5 minutes.

● Mr. GOODLING. Mr. Speaker, in 1978 the Congress extended the special supplemental food program for women, infants, and children for 4 years and increased its authorization of appropriations funding levels (Public Law 95-627). We also substantially amended the bill to address the content of the prescription foods provided to the high-risk women, infants, and children participating in this important health-nutrition program.

In our deliberations on legislative alternatives, the House Committee on Education and Labor, the authorizing committee, drew heavily upon the expertise and knowledge of two bodies established by the Congress: the Advisory Council on Maternal, Infant and Fetal Nutrition, and the Advisory Committee on Nutrition Education.

As a result of this deliberative process, the committee adopted two changes in the statute which were enacted by the Congress. These changes addressed the prescription food package by refining the definition of "supplemental foods" and requiring that the Secretary prescribe, by regulation, that the supplemental foods package contain appropriate amounts of fat, sugar, and salt. Based upon those changes, the USDA has promulgated regulations (November 17, 1980) which address Congress concerns. Many States have already fully implemented these changes, although they are not required to be implemented nationally until December 31, 1982.

This deliberative process should be continued. Therefore, no one should construe the language in the statement of managers accompanying the Agriculture appropriation conference report on H.R. 7072 which addresses the content of the WIC food package as expressing the consensus of this Congress that USDA should alter the content of the WIC food package regulations scheduled for final implementation on December 31, 1982. Any changes in the package must be consistent with the statute's requirements and address the nutrition-health needs of the WIC program's high-risk participants and promote the long-term objectives of this successful and important health and nutrition program.●

JOBS, PEACE, AND PENNSYLVANIA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. WILLIAM J. COYNE) is recognized for 10 minutes.

● Mr. WILLIAM J. COYNE. Mr. Speaker, I rise in strong support of the "Jobs with Peace" resolution introduced by the gentleman from California, Mr. DON EDWARDS.

This resolution would express the sense of the House that more money should be made available for jobs in education, transportation, housing programs, and other productive industries by significantly reducing the amount of tax dollars spent on nuclear weapons, foreign military intervention, and wasteful military programs.

A one-time meeting of a "Jobs with Peace" congressional caucus today laid the groundwork for a congressional strategy to achieve this goal. In the next Congress, the ranks of those who favor a more reasonable military budget will likely grow, so we may make some progress toward the goals of the resolution.

As a Representative from a northeastern industrial State, I certainly hope that this is the case. Studies by the Machinists Union, one of the largest unions in defense-related industries, indicate that large increases in military spending may actually decrease the number of available jobs. In a time of 10.8-percent unemployment, this is a serious contention.

President Dwight D. Eisenhower was aware of this prospect. He noted:

> Every gun that is made, every warship launched, every rocket fired signifies, in the final sense, a theft from those who hunger and are not fed, those who are cold and are not clothed. This world in arms is not spending money alone. It is spending the sweat of its laborers, the genius of its scientists, the hopes of its children.

A recent study by Employment Research Associates of Lansing, Mich., suggests that when military spending goes up, expenditures are foregone in the following categories: Durable goods, nondurable goods, residential and nonresidential construction, services, State and local government, exports and imports, producers' durable equipment, and Federal civil purchases.

This can have a negative effect on States such as Pennsylvania where jobs depend on such economic activities. According to the Michigan study, Pennsylvania ranks fifth among the States in the number of jobs lost as a result of military spending. At this point, I would like to share with my colleagues some of the findings of the Employment Research Associates:

STATES IN ORDER OF NEGATIVE EMPLOYMENT IMPACT OF MILITARY SPENDING, ANNUAL AVERAGE 1977-78

Number of jobs foregone	
1. New York	−288,200
2. Illinois	−160,750
3. Michigan	−139,100
4. Ohio	−131,900
5. Pennsylvania	−112,900
6. New Jersey	−71,950
7. Wisconsin	−71,700
8. Indiana	−64,550
9. Minnesota	−54,550
10. Tennessee	−47,200
11. Florida	−40,150
12. Massachusetts	−39,800
13. Iowa	−38,500
14. Oregon	−37,850
15. Nevada	−24,100
16. Louisiana	−23,350
17. West Virginia	−18,950
18. California	−13,800
19. Arkansas	−12,300
20. Nebraska	−6,200
21. Missouri	−4,500
22. Vermont	−4,250
23. Rhode Island	−3,650
24. Wyoming	−3,050
25. Idaho	−2,850
26. Arizona	−112,850
27. Montana	−2,300
28. Delaware	−1,200
29. South Dakota	−600
Number of jobs gained	
1. Kansas	+600
2. New Hampshire	+650
3. Maine	+2,350
4. Alabama	+3,550
5. Connecticut	+3,950
6. North Dakota	+4,450
7. New Mexico	+7,450
8. Utah	+9,350
9. Kentucky	+11,100
10. Colorado	+11,200
11. Texas	+15,450
12. Alaska	+15,750
13. Oklahoma	+16,000
14. Maryland	+17,050
15. Washington	+20,200
16. Georgia	+20,950
17. Mississippi	+23,450
18. N. Carolina	+23,800
19. S. Carolina	+29,200
20. Hawaii	+45,200
21. Virginia	+125,950
Net jobs loss	1,015,500

	Number of jobs		Net job gain or loss
	Foregone	Created	
PENNSYLVANIA			
Durable goods	−39,500	+20,750	−18,750
Nondurable goods	−14,650	+1,650	−13,000
Residential construction	−10,400	+3,550	−6,850
Nonresidential construction	−6,900	+350	−6,550
Services	−74,000		−74,000
State and local government	−51,450		−51,450
Military personnel		+57,700	+57,700
Total			−112,900

Source: Employment Research Associates, Lansing, Mich.

Mr. Speaker, on November 2, more than 50 communities in this Nation voted on referenda which dealt with the subject of jobs, military spending, and peace. In the city of Pittsburgh, voters mandated, by nearly a 2-to-1 margin, a yearly report by the mayor on the impact of military spending on the city.

Such findings will prove a useful guide to this Congress as we determine our budget priorities. Spending which does little to enhance our national security while resulting in a net job loss for certain regions of the country will, I am sure, be subject to rigorous scrutiny. I will be joining my colleagues who favor jobs with peace in such a review.●

CONGRESS AND IMMIGRATION REFORM

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Jersey (Mr. RODINO) is recognized for 5 minutes.

● Mr. RODINO. Mr. Speaker, later this week the House is scheduled to consider H.R. 7357, the Immigration Reform and Control Act of 1982.

As one Member observed during my recent appearance before the Rules Committee on this bill, "there is no such thing as a perfect immigration bill." The reason is simple. Immigration has always been a highly emotional and controversial subject and one that directly or indirectly affects the life of every American. I certainly agree that there is no such thing as a perfect immigration bill and H.R. 7357 is no exception.

At the same time, it does represent the best that can be developed. It is fair. It is just and it is balanced.

Its enactment is essential if Congress is to meet its obligation to construct a reasonable and humane immigration policy. If Congress does not act on this urgently needed legislation, it may be subject to a good deal of public criticism for its failure to address an issue of vital concern to the vast majority of American people.

Further, its passage is necessary if we are to protect the jobs of American workers, particularly during this time of record levels of unemployment.

The bill does enjoy widespread support from a variety of diverse organizations and individuals. That list includes the Reagan administration, several national Jewish organizations, the U.S. Catholic Conference, Father Theodore Hesburgh and his Citizens' Committee for Immigration Reform, and numerous ethnic organizations. It is also noteworthy that the past four administrations and the bipartisan Select Commission on Immigration and Refugee Policy endorsed employer sanctions and recommended many of the provisions contained in this bill.

I recognize that the opponents of this legislation are also numerous and that many of the concerns they have expressed are indeed legitimate. However, an analysis of those concerns demonstrates that many, in fact, are addressed by the legislation, while others relate more directly to possible changes that have been proposed or to the Senate version of this legislation.

I would also like to point out that there are certain inherent risks in deferring consideration of this matter until some future time, as some critics of the bill have suggested. I, for one, am deeply concerned by the increasingly hostile attitude toward newly arrived immigrants and refugees, that we have witnessed over the past 2 years.

As a result, I have little hope that the future will bring a better "legislative climate" for debating this type of legislation. Because of my fear that the atmosphere surrounding the immigration issue will grow more restrictionist, I believe the time for enacting meaningful and effective immigration legislation is now.

I wish to insert in the RECORD a letter I received last week from the Attorney General recognizing the importance of the legalization program proposed in this legislation.

In that letter he stated that this country can no longer "tolerate the existence of a hidden foreign people within our borders, living apart from American laws." I certainly agree with his comment and I know he shares my view that the legalization program is an essential part of the legislation that will be debated later this week. Our sense of fairness and decency and the fact that undocumented aliens have contributed to our economic well-being require that we provide this exploitable "shadow population" with the opportunity to be legalized.

I also wish to insert in the RECORD a letter I received last Friday from the Reverend Theodore Hesburgh, president of Notre Dame and cochairperson of the Citizens' Committee for Immigration Reform supporting this legislation. As former Chairman of both the Civil Rights Commission and the Select Commission on Immigration and Refugee Policy, he is eminently qualified to discuss the pending bill.

Father Hesburgh's letter points out quite clearly the need for employer sanctions and a generous legalization program in order to "wipe the slate clean" for undocumented aliens who have "lived in the shadows as an underclass." I hope my colleagues will keep his comments in mind as we debate this important legislation.

OFFICE OF THE ATTORNEY GENERAL,
Washington, D.C., December 9, 1982.

HON. PETER W. RODINO, Jr.,
Chairman, House Judiciary Committee, Washington, D.C.

DEAR MR. CHAIRMAN: I am writing to you on the eve of the House consideration of H.R. 7357, the Immigration Reform and Control Act of 1982, to underscore the Administration's unwavering support for its passage in the closing days of this session. Few matters before the Congress are of equal importance. Few laws could contribute as much to our nation's future prosperity and security.

I am writing to you also to express my deep concern regarding certain amendments

which may be offered in the course of House consideration of the bill. As I have stated on other occasions, I believe it would be unfortunate were the Congress to undertake at this time significant change of our laws governing the legal admission of immigrants and refugees. The most pressing issues facing us do not concern legal immigration, but accelerating illegal migration and mass asylum. I firmly believe that Congress should concentrate in the few days remaining in this session on these latter problems, which your bill so thoughtfully addresses. For this reason, I strongly urge that consideration of changes in the legal immigration system be deferred for another day.

The Administration also would oppose efforts to eliminate the legalization provisions of the bill. These provisions deal realistically and humanely with the sad fact that more than three million persons entered this country illegally in a time when our immigration laws went unenforced. With the passage of this law, that time of neglect will end. But as a practical matter, we could not now search out and deport all these people, even if we chose to do so. Nor can this great nation long tolerate the existence of a hidden foreign people within our borders, living apart from American laws. The legalization provision of the bill promises an end to this situation. To take it from the bill would undo the essential balance so carefully maintained until now. I recommend that this not be done.

I want to express again my gratitude for your years of work and leadership on behalf of these reforms, and our readiness to do all we can to assist you as the House takes up this important legislation.

Sincerely,

WILLIAM FRENCH SMITH,
Attorney General.

CITIZENS' COMMITTEE
FOR IMMIGRATION REFORM,
Washington, D.C., December 7, 1982.

DEAR FRIEND: The Citizens' Committee for Immigration Reform grew out of the Select Commission on Immigration and Refugee Policy of which I had the honor to serve as chairman for eighteen months. During that time the Commission studied, debated and analyzed the major immigration and refugee issues in public hearings, consultations with experts and through research by noted scholars and Commission staff. As you may know, the Commission recommendations served as the basis for the Simpson-Mazzoli Immigration Reform and Control Act of 1982, which will be considered on the floor of the House during the next few days.

I should like to take this opportunity, along with Gerald Ford, Cyrus Vance, Elliot Richardson, Lane Kirkland and the other members of our Committee, to express our support for the bill. I wish to emphasize, however, that we have serious concerns about several areas in the bill—the numbers of immigrants and refugees to be admitted annually, legalization of undocumented aliens currently in the country and temporary workers.

IMMIGRANT AND REFUGEE NUMBERS

The bill, as passed by the House Judiciary Committee, makes no changes in the current law for legal immigration to the United States. This leaves the principle of family reunification as the cornerstone of U.S. immigration policy, which we whole-heartedly support. Under the terms of the Refugee Act of 1980, refugees are admitted outside of this ceiling on legal immigration after counsultation between the President and Congress.

There may be attempts to amend the bill to place refugees under the same ceiling as immigrants, and I should like to sound a note of caution and concern about the wisdom of this move. Firstly, by putting immigrants and refugees under one ceiling, we would be placing immigrants in direct competition with refugees for scarce visa numbers. This would be divisive nationally. Secondly, such a move would greatly limit the flexibility of our government to respond to crises and emergencies abroad. Thirdly, the humanitarian and human rights values for which we stand as a nation would be seriously questioned and severely limited. We would urge the defeat of such an amendment.

LEGALIZATION AND EMPLOYER SANCTIONS

Our Committee would view any attempt to weaken the legalization and employer sanctions portions of the bill with considerable alarm. As it is, we favor a system of legalization in which all undocumented persons become permanent residents upon coming forward with the proper documentation, with all the rights and benefits of permanent resident aliens. Without a substantial legalization program, we shall oppose the entire bill.

Coupled with the legalization program, as provided in the House Judiciary Committee version of the bill, there should be a nondiscriminatory, effective employer sanctions program aimed at all employers who knowingly hire undocumented persons, with civil and criminal penalties for those who break this law. Since in most cases, undocumented persons come to the United States in search of employment, we must close the door to illegal immigrants by cutting off their source of work.

I personally favor a more secure method of identification for work purposes only and support that concept as outlined in the bill, but our Committee feels strongly that it is crucial to implement a legalization program as soon as possible after the date of enactment of this omnibus bill. For too long, undocumented persons have lived in the shadows as an under-class. We must wipe the slate clean and grant a full opportunity for legalization.

TEMPORARY WORKERS

As far as temporary workers are concerned, at present we support the current H-2 (temporary worker) program without any expansion of the provisions, as provided in the House Education and Labor Committee amendments. The Select Commission favored, and we would support, further study of this issue after passage of measures to curb illegal immigration.

The need for a rational, just, humane and race-free immigration and refugee policy is clear and the time for action is at hand. As President Gerald R. Ford said in accepting an invitation to join our Committee, it is important to "convince leaders of all viewpoints . . . that each one has an obligation to be less parochial and more understanding of the national need for a constructive solution . . . the time has come to terminate inflexibility due to uninformed, self-interested or political reasons."

Please don't hesitate to contact the Executive Director of the Citizens' Committee, Nina K. Solarz, at 387-3238 if you have any questions or if you would like any further information. She will be very pleased to assist you or your staff.

With best personal regards.

Sincerely,

Rev. THEODORE M. HESBURGH, C.S.C.,
Co-Chairman.●

HON. DON MITCHELL

(Mr. PRICE asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

Mr. PRICE. Mr. Speaker, I am pleased to join with my colleagues on both sides of the aisle in paying tribute to DON MITCHELL. DON has been a valued member of the Armed Services Committee during his five terms in the House and has served with particular distinction as the ranking minority member of the Subcommittee on Military Personnel and Compensation.

DON MITCHELL is an acknowledged expert in the complex areas of military compensation, retired pay, survivor benefits, personnel management, and the military medical care system. When DON MITCHELL speaks on military personnel matters, he speaks on behalf of the young Navy petty officer enduring long hours, arduous duty and family separation to serve his country's interests in the Indian Ocean and the Army corporal serving an unaccompanied tour of duty along the DMZ in South Korea.

People are DON MITCHELL's forte. He has a deep and abiding personal concern for our Nation's men and women in uniform and for their families as well. DON has repeatedly evidenced that concern through his diligence and leadership on the Military Personnel and Compensation Subcommittee.

In addition to his expertise in military personnel matters, DON MITCHELL has also been an articulate advocate of a strong national defense. The popularity of defense spending is cyclical. One year it is in vogue to speak eloquently on behalf of increased defense spending, but by the next year, the political winds have often shifted. DON MITCHELL believes that national defense should not be the victim of such political expediency, and he has had the courage to stand up and be counted in both good times and bad.

In addition, DON MITCHELL has been the conscience of the Congress on civil defense and has worked long and hard to increase our Nation's commitment to the protection of our own population. He has served the cause of civil defense with singular dedication and deserves our thanks and appreciation.

DON, we wish you and Gretta the very best in the years ahead. We will miss you on the Armed Services Committee. You can take great pride in your record of accomplishments.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. MONTGOMERY for today on account of the death of a friend.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. DORNAN of California) to revise and extend their remarks and include extraneous material:)

Mr. NELLIGAN, for 15 minutes, on December 16.

Mr. FRENZEL, for 60 minutes, on December 17.

Mr. DICKINSON, for 60 minutes, today.

Mr. BROWN of Ohio, for 15 minutes, today.

Mr. GOODLING, for 5 minutes, today.

Mr. COLLINS of Texas, for 60 minutes, on December 17.

(The following Members (at the request of Mr. MILLER of California) to revise and extend their remarks and include extraneous material:)

Mr. GONZALEZ, for 30 minutes, today.

Mr. ANNUNZIO, for 5 minutes, today.

Mr. WILLIAM J. COYNE, for 10 minutes, today.

Mr. RODINO, for 5 minutes, today.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. RAHALL, during debate on the Simon amendment to House Joint Resolution 631 in the Committee of the Whole today.

Mr. PICKLE, immediately preceding the vote on the Simon amendment to House Joint Resolution 631 in the Committee of the Whole today.

Mr. OTTINGER, during debate on the Simon amendment to House Joint Resolution 631 in the Committee of the Whole today.

Mr. GOLDWATER, just prior to the vote on the Coughlin amendment to House Joint Resolution 631 in the Committee of the Whole today.

Mr. PEPPER, statement to appear before passage of H.R. 7093.

(The following Members (at the request of Mr. DORNAN of California) and to include extraneous matter:)

Mr. GILMAN in two instances.

Mr. NELLIGAN.

Mr. DAUB.

Mr. PHILIP M. CRANE.

Mr. REGULA.

Mr. COURTER.

Mr. PORTER.

Mr. ROBERTS of Kansas.

Mr. FRENZEL in five instances.

Mr. MCCLOSKEY.

Mr. PURSELL in two instances.

Mr. DANNEMEYER in three instances.

Mr. DAVIS in two instances.

Mr. HUNTER in two instances.

Mr. CARMAN.

Mr. DERWINSKI in two instances.

Mr. MARTIN of North Carolina.

Mr. COLLINS of Texas in two instances.

Mr. MCCLORY.

Mr. TAUKE.

Mr. ROBERT W. DANIEL, JR.

Mr. LAGOMARSINO.

Mr. THOMAS.

Mr. NAPIER.

Mr. HOLLENBECK.

Mr. MOORE.

Mr. BLILEY.

(The following Members (at the request of Mr. MILLER of California) and to include extraneous matter:)

Mr. GAYDOS in two instances.

Mr. LEVITAS in two instances.

Mr. SKELTON.

Ms. OAKAR.

Mr. RUSSO in two instances.

Mr. PEPPER.

Mr. CONYERS.

Mr. BARNES.

Mr. EDWARDS of California.

Mr. STARK.

Mr. HALL of Ohio.

Mr. ERTEL.

Mr. MOTTL.

Mr. RODINO.

Mr. FAUNTROY.

Mr. MILLER of California.

Mr. MATSUI.

Mr. LONG of Maryland.

Mr. DOWNEY.

Mr. BONKER.

Mr. ROE.

SENATE ENROLLED BILLS SIGNED

The SPEAKER announced his signature to enrolled bills of the Senate of the following titles:

S. 764. An act to provide for protection of the John Sack cabin, Targhee National Forest in the State of Idaho;

S. 1444. An act to authorize the Administrator of General Services to donate to State and local governments certain Federal personal property loaned to them for civil defense use, and for other purposes;

S. 1681. An act to designate the southern Nevada water project the "Robert B. Griffith Water Project";

S. 1894. An act to permit Indian tribes to enter into certain agreements for the disposition of tribal mineral resources, and for other purposes;

S. 2034. An act to designate the lock and dam known as the Jones Bluff Lock and Dam, located on the Alabama River, as the "Robert F. Henry Lock and Dam"; and

S. 2710. An act to establish the Charles C. Deam Wilderness in the Hoosier National Forest, Ind.

BILLS AND A JOINT RESOLUTION PRESENTED TO THE PRESIDENT

Mr. HAWKINS, from the Committee on House Administration, reported that that committee did on December 3, 1982 present to the President, for his approval, bills and a joint resolution of the House of the following title:

H.R. 2329. An act conferring jurisdiction on certain courts of the United States to hear and render judgment in connection with certain claims of the Cherokee Nation of Oklahoma;

H.R. 4364. An act to declare that the United States hold in trust for the Pascua Yaqui Tribe of Arizona certain land in Pima County, Ariz.;

H.R. 5553. An act to provide for the use and disposition of Miami Indians judgment funds in dockets 124-B and 254 before the U.S. Court of Claims, and for other purposes;

H.R. 5795. An act to provide for the use and distribution of the funds awarded to the Shawnee Tribe of Indians in dockets 64, 335, and 338 by the Indian Claims Commission and docket 64-A by the U.S. Court of Claims, and for other purposes;

H.R. 6005. An act to discontinue or amend certain requirements for agency reports to Congress;

H.R. 6403. An act to provide for the use and distribution of funds to the Wyandot Tribe of Indians in docket 139 before the Indian Claims Commission and docket 141 before the U.S. Court of Claims, and for other purposes;

H.R. 6417. An act to amend Public Law 96-432 relating to the U.S. Capitol Grounds; and

H.J. Res. 595. Joint resolution designating December 11, 1982, as "Fiorello H. La Guardia Memorial Day."

ADJOURNMENT

Mr. MILLER of California. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly at (12 o'clock and 14 minutes a.m.) the House adjourned until today, Wednesday, December 14, 1982, at 10 a.m.

EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

Report of a House committee concerning the foreign currencies and U.S. dollars utilized by it during the third quarter of calendar year 1982 in connection with foreign travel pursuant to Public Law 95-384 is as follows:

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON MERCHANT MARINE AND FISHERIES, U.S. HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JULY 1 AND SEPT. 30, 1982

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]
Biaggi, Mario, M.C.	8/21	8/27	Israel		540.00		4,169.00				4,709.00
Breaux, John, M.C.	9/12	9/14	Cayman Islands		[3] 130.00		520.00				650.00
Fronville, Claire L.	7/17	7/25	England	375.25	650.00		1,850.00				
						7.50	[4] 13.00				2,513.00
Smith, G. Wayne	9/12	9/14	Cayman Islands		[1] 130.00		520.00				650.00
Westcott, Jacquelyn M.	7/17	7/25	England	374.84	650.00		1,423.00				
						7.50	[4] 13.00				2,086.00
Committee total					2,100.00		8,508.00				10,608.00

[1] Per diem constitutes lodging and meals.
[2] If foreign currency is used, enter U.S. dollar equivalent; if U.S. currency is used, enter amount expended.
[3] No Embassy. After trip State Department issued check to traveler for expenses. 2 nights lodging equals $80; 2 days food equals $50.
[4] Train, Brighton/London.

WALTER B. JONES, Chairman, Dec. 2, 1982.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

5289. A letter from the Deputy Assistant Secretary of Defense (Administration), transmitting a report on negotiated contracts for experimental, developmental, test, or research work, or for industrial mobilization in the interest of the national defense, covering the period April 1982 through September 1982, pursuant to 10 U.S.C. 2304(e); to the Committee on Armed Services.

5290. A letter from the Principal Deputy Assistant Secretary of the Navy (Shipbuilding and Logistics), transmitting notice of the Navy's decision to convert to contractor performance the supply support function at the Naval Shipyard, Philadelphia, Pa., pursuant to section 502(b) of Public Law 96-342; to the Committee on Armed Services.

5291. A letter from the Assistant Secretary of the Navy (Shipbuilding and Logistics), transmitting notice of the Navy's decision to convert to contractor performance the night shelf stocking function at the Navy Commissary Store, Little Creek, Va., pursuant to section 502(b) of Public Law 96-342; to the Committee on Armed Services.

5292. A letter from the Principal Deputy Assistant Secretary of the Navy (Shipbuilding and Logistics), transmitting notice of the Navy's decision to convert to contractor performance the motor vehicle operation motor vehicle maintenance function at the Naval Air Station, Key West, Fla., pursuant to section 502(b) of Public Law 96-342; to the Committee on Armed Services.

5293. A letter from the Principal Deputy Assistant Secretary of the Navy (Shipbuilding and Logistics), transmitting notice of the Navy's decision to convert to contractor performance the Navy Commissary Store, Portsmouth, Va., pursuant to section 502(b) of Public Law 96-342; to the Committee on Armed Services.

5294. A letter from the Principal Deputy Assistant Secretary of the Navy (Shipbuilding and Logistics), transmitting notice of the Navy's decision to convert to contractor performance the night shelf stocking function at the Navy Commissary Store, Yorktown, Va., pursuant to section 502(b) of Public Law 96-342; to the Committee on Armed Services.

5295. A letter from the Chairman, Council of the District of Columbia, transmitting D.C. Act 4-262, "Closing of a Public Alley in Square N-699 Act of 1982," pursuant to section 602(c) of Public Law 93-198; to the Committee on the District of Columbia.

5296. A letter from the Acting Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

5297. A letter from the Deputy Assistant Secretary of Defense (Administration), transmitting a report on a new record system, pursuant to 5 U.S.C. 552a(o); to the Committee on Government Operations.

5298. A letter from the Comptroller General of the United States, transmitting a report on block grants for housing (GAO/RCED-83-21, December 13, 1982); jointly, to the Committees on Government Operations and Banking, Finance and Urban Affairs.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. STOKES: Committee on Standards of Official Conduct. Report on Investigation Pursuant to House Resolution 518 (Rept. No. 97-965). Referred to the House Calendar.

Mr. BEILENSON: Committee on Rules. House Resolution 628. A resolution providing for the consideration of S. 1964, a bill to designate certain lands in the Mark Twain National Forest, Mo., which comprise about 17,562 acres, and known as the Irish Wilderness, as a component of the National Wilderness Preservation System. (Rept. No. 97-966). Referred to the House Calendar.

Mr. PEPPER: Committee on Rules. House Resolution 621. A resolution amending the Rules of the House of Representatives to establish an office for the Bicentennial of the House of Representatives (Rept. No. 97-967). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. BENNETT:

H.R. 7414. A bill to transfer management of the national defense stockpile to the Secretary of Defense; to the Committee on Armed Services.

By Mr. BIAGGI:

H.R. 7415. A bill to amend the Higher Education Act of 1965 to promote the matching of lists of defaulting borrowers of student loans with lists of public employees; to the Committee on Education and Labor.

By Mr. CONYERS:

H.R. 7416. A bill to protect the rights of individuals guaranteed by the Constitution of the United States and to prevent unwarranted invasion of their privacy by prohibiting the use of polygraph equipment for certain purposes; jointly, to the Committees on the Judiciary and Education and Labor.

By Mr. GILMAN:

H.R. 7417. A bill to repeal the withholding on interest and dividends enacted by the Tax Equity and Fiscal Responsibility Act of 1982; to the Committee on Ways and Means.

By Mr. MOORHEAD:

H.R. 7418. A bill to amend the Internal Revenue Code of 1954 to double the investment tax credit for American-made automobiles and certain light-duty trucks and to provide that the investment tax credit shall not be recaptured with respect to such vehicles by reason of any disposition, et cetera, after the second year of use; to the Committee on Ways and Means.

By Mr. WILLIAMS of Ohio:

H.R. 7419. A bill to increase the number of weeks for which benefits are payable under the Federal Supplemental Compensation Act of 1982, and for other purposes; to the Committee on Ways and Means.

By Mr. WRIGHT (for himself, Mr. MICHEL, Mr. HOWARD, Mr. ROE, and Mr. HAMMERSCHMIDT):

H.R. 7420. A bill to name the fish hatchery at the Warm Springs Dam component of the Russian River, Dry Creek, Calif., project as the Don H. Clausen Fish Hatchery; to the Committee on Public Works and Transportation.

By Mr. SHARP:
H.R. 7421. A bill to suspend the final decision of the Federal Communications Commission in Docket No. 20868 (second computer inquiry) to the extent it prohibits the provision, installation, and maintenance of telephones and other customer-premises equipment by regulated communications carriers; to the Committee on Energy and Commerce.

By Mr. BONKER (for himself, Mr. LEACH of Iowa, Mr. GEJDENSON, Mr. ROSENTHAL, Mrs. FENWICK, Mr. PORTER, Mr. PRITCHARD, Mr. BARNES, Mr. DYMALLY, Mr. BINGHAM, Mr. LAGOMARSINO, Mr. WOLPE, Mr. SOLARZ, Mr. LANTOS, Mr. GILMAN, Mr. FASCELL, and Mr. YATRON):
H. Con. Res. 434. Concurrent resolution condemning all forms of religious persecution and discrimination as a violation of human rights; to the Committee on Foreign Affairs.

By Mr. EDWARDS of California (for himself, Mr. ADDABBO, Mr. ASPIN, Mr. AUCOIN, Mr. BARNES, Mr. PHILLIP BURTON, Mr. CLAY, Mr. CONYERS, Mr. WILLIAM J. COYNE, Mr. CROCKETT, Mr. DELLUMS, Mr. DYMALLY, Mr. EARLY, Mr. EDGAR, Mr. FORD of Michigan, Mr. FOWLER, Mr. FRANK, Mr. GRAY, Mr. HOYER, Mr. KASTENMEIER, Mr. KOGOVSEK, Mr. LEACH of Iowa, Mr. LELAND, Mr. MARKEY, Mr. MATSUI, Mr. MAVROULES, Ms. MIKULSKI, Mr. MINETA, Mr. MITCHELL of Maryland, Mr. MOAKLEY, Mr. OBERSTAR, Mr. OTTINGER, Mr. PANETTA, Mr. PEASE, Mr. RANGEL, Mr. REUSS, Mr. RODINO, Mr. ROSENTHAL, Mrs. SCHROEDER, Mr. SCHUMER, Mr. SEIBERLING, Mr. SHANNON, Mr. SIMON, Mr. SOLARZ, Mr. STARK, Mr. STOKES, Mr. STUDDS, Mr. WALGREN, Mr. WASHINGTON, Mr. WEAVER, Mr. WEISS, Mr. WIRTH, and Mr. WOLPE):
H. Res. 627. Resolution expressing the sense of the House in support of a call for jobs with peace; jointly, to the Committees on Armed Services, Foreign Affairs, and Post Office and Civil Service.

MEMORIALS

Under clause 4 of rule XXII,

518. The SPEAKER presented a memorial of the voters of the State of Montana, relative to opposition to the placement of MX missiles in Montana; jointly, to the Committees on Armed Services and Foreign Affairs.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 5571: Mr. GOODLING, Mr. ALBOSTA, Mr. BAILEY of Pennsylvania, Mr. WON PAT, Mr. ROE, Mr. BAFALIS, Mr. DUNCAN, Mr. PORTER, and Mr. BURGENER.
H.R. 5616: Mr. MOTTL, Mr. EVANS of Georgia, Mr. GOODLING, Mr. WILSON, Mr. HOWARD, Mr. NICHOLS, Mr. BAILEY of Pennsylvania, and Mr. ATKINSON.
H.R. 6009: Mr. EDWARDS of Oklahoma.
H.R. 6115: Mr. SCHEUER.
H.R. 6975: Mr. PEPPER.
H.R. 7014: Mr. EDWARDS of California, Mr. FASCELL, Mr. NOWAK, Mr. SHAMANSKY, and Mr. UDALL.
H.R. 7106: Mr. MOTTL, Mrs. BOGGS, Mr. SHELBY, Mr. AKAKA, Mr. DOWNEY, and Mr. MARLENEE.
H.R. 7178: Mr. HUGHES and Mr. TAUKE.
H.R. 7309: Mr. NATCHER, Mr. ALEXANDER, Mr. ANNUNZIO, Mr. FOGLIETTA, Mr. MATSUI, Mr. LAFALCE, Mr. MCCURDY, Mr. SPENCE, Mr. MORRISON, Mr. SHARP, and Mr. MINISH.
H.R. 7314: Mr. HORTON.
H.R. 7321: Mr. APPLEGATE, Mr. HARTNETT, Mr. KINDNESS, Mr. CLINGER, Mr. WEBER of Minnesota, Mr. STENHOLM, Mr. DE LUGO, and Mr. YATRON.
H.R. 7337: Mr. SHAMANSKY, Mr. CORRADA, Ms. OAKAR, Mr. FORD of Tennessee, Ms. MIKULSKI, and Mrs. HALL of Indiana.
H.R. 7373: Mr. GILMAN, Mr. STUDDS, and Mr. CONYERS.
H.R. 7386: Mrs. FENWICK and Mrs. HALL of Indiana.
H.J. Res. 459: Mr. BUTLER, Mr. STUMP, and Mr. CONTE.
H.J. Res. 585: Mr. SAM B. HALL, JR., MR. CARNEY, Mr. DYMALLY, Mr. SOLARZ, Mrs. KENNELLY, Mr. WILSON, Mr. DOWDY, Mr. FRENZEL, AND Mr. KOGOVSEK.
H.J. Res. 590: Mr. SIMON.

PETITIONS, ETC.

Under clause 1 of rule XXII, petitions and papers were laid on the Clerk's desk and referred as follows:

675. By the SPEAKER: Petition of H.F. Kimmel, relative to the Constitution of the United States; to the Committee on the Judiciary.

676. Also, petition of the Burbank City Council, Burbank, Calif., relative to an investment tax credit on American-made automobiles; to the Committee on Ways and Means.

677. Also, petition of the Metal Trades Department, AFL-CIO, relative to redress of a grievance on behalf of American shipyard workers; jointly, to the Committees on Merchant Marine and Fisheries and Armed Services.

AMENDMENTS

Under clause 6 of rule XXIII, proposed amendments were submitted as follows:

H.R. 5133

By Mr. GRAMM:
—Page 14, redesignate section 7 as section 8, and insert after line 11 the following new section:

SEC. 7. WAIVER.

Sections 4 and 5 shall not apply in any calendar month to any vehicle manufacturer located in a foreign country if the Secretary of the Treasury determines that in that month such country had in effect restrictions (including tariffs and quotas) on imports of motor vehicles and automotive products into such country not more stringent than those applicable on the day before the date of the enactment of this Act to imports into the United States of motor vehicles and automotive products.

Page 15, redesignate section 8 as section 9.

By Mr. BETHUNE:
—On, page 9, after line 12 insert the following:

"(c) This section shall not apply unless the United States Trade Representative determines that its implementation shall not cause the United States to be in violation of the General Agreements on Tariffs and Trade,".

S. 1964

By Mr. EMERSON:
—Strike all after the enacting clause and insert the following:

That this Act may be known as the Irish Wilderness Act of 1981.

SEC. 2. In furtherance of the purposes of the Wilderness Act (78 Stat. 890) and the Act of January 3, 1975 (88 Stat. 2096), the following area as generally depicted on a map appropriately referenced, dated December 1981, is hereby designated as wilderness and, therefore, as a component of the National Wilderness Preservation System, certain lands in the Mark Twain National Forest, Missouri, which comprise about seventeen thousand five hundred and sixty-two acres, are generally depicted on a map entitled "Irish Wilderness", dated December 1981, and shall be known as the Irish Wilderness.

SEC. 3. As soon as practicable after this Act takes effect, the Secretary of Agriculture shall file a map and a legal description of the Irish Wilderness area with the Energy and Natural Resources Committee of the Senate and the Interior and Insular Affairs Committee of the House of Representatives, and such description shall have the same force and effect as if included in this Act: *Provided, however,* That correction of clerical and typographical errors in such legal description and map may be made.

SEC. 4. The area designated as wilderness by this Act shall be administered in accordance with the applicable provisions of the Wilderness Act (78 Stat. 890) and the Act of January 3, 1975 (88 Stat. 2096), except that any reference in such provisions to the effective date of such Acts shall be deemed to be a reference to the effective date of this Act.

SEC. 5. (a) Nothwithstanding any other provision of law, section 4(d)(3) of the Wilderness Act of 1964 shall remain in full force and effect until December 31, 1993, notwithstanding the expiration dates therein, with respect to deposits of lead, zinc, iron and associated minerals capable of being mined by underground methods in the lands described in section 2 of this Act.

(b) The Secretary of the Interior, in consulation with the Secretary of Agriculture, shall process any application for a prospecting permit or lease and made a final administrative decision on its issuance within 90 days from the date such application is filed. If the Secretary approves the issuance of a prospecting permit or a lease or of any operations thereunder, any appeal of that decision, whether administrative or judicial, which delays the issuance of such permit or lease or operations thereunder, will extend the 1993 deadline with respect to that permit or lease by the period of time such issuance or operations are delayed thereby.

(c) The Secretary of Agriculture and the Secretary of Interior shall provide for economic and practicable ingress and egress in accordance with reasonable regulations which they may prescribe, compatible with preservation of the wilderness environment.

SENATE Tuesday, December 14, 1982

(Legislative day of Tuesday, November 30, 1982)

The Senate met at 9:30 a.m., on the expiration of the recess, and was called to order by the President pro tempore (Mr. THURMOND).

The PRESIDENT pro tempore. Our prayer this morning will be offered by the Reverend Richard C. Halverson, Jr., son of the Senate Chaplain.

PRAYER

The Reverend Richard C. Halverson, Jr., offered the following prayer:

Let us pray.

Father in Heaven, as the time approaches when those who labor in this Senate will gather with loved ones in homes across the country, we pause to request for them the gift that is You.

In this season, we have much for which to be thankful: fathers, mothers, husbands, wives, sons, daughters, brothers, sisters, and grandchildren—all a blessing and many richly blessed.

But in many families there is much grief and sorrow this year. Some husbands and wives are estranged or divorced. You are peace, give them forgiveness and reconciliation. Some loved ones are ill or have died. You are life, send them healing and comfort. Some children have rebelled against their parents or strayed into harmful living. You are truth, grant them grace and wisdom.

We ask for the gift that is You from our perfect Father in Heaven who, when it is prayed in the name of Jesus, His Son, can hardly deny our request. Amen.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The acting majority leader is recognized.

REV. RICHARD C. HALVERSON, JR. COMMENDED FOR PRAYER

Mr. LUGAR. Mr. President, I know that all of our colleagues would join me in expressing our delight with the prayer this morning offered by the son of the distinguished Chaplain of the Senate. It was indeed a pleasure and an honor to have him open our session with the prayer this morning.

SENATE SCHEDULE TODAY

Mr. LUGAR. Mr. President, in the absence of the majority leader, let me simply mention that following the recognition of the majority and minority leaders a period for the transaction of routine morning business has been ordered not to extend beyond 10 a.m. with not more than 3 minutes for each speech.

Not later than 10 a.m. the Senate will resume consideration of H.R. 7356, the Interior appropriations bill.

As ordered, a recess is contemplated from 12 noon until 2 p.m. for the convenience of Senators who will be meeting in various conferences during this period of time.

At 2 p.m. debate will be resumed on H.R. 6211, Calendar Order No. 987, the surface transportation bill.

THE FEDERAL RESERVE BOARD LOWERS THE REDISCOUNT RATE BY ONE-HALF POINT

Mr. LUGAR. Mr. President, let me take this moment during opening statements this morning to simply indicate my own pleasure in reading that the rediscount rate has been lowered by one-half point. It is apparent that the Federal Reserve Board is taking the leadership. The trading markets yesterday indicated that the Fed clearly might operate in such a manner as to lower the rediscount rate, although the signs did not necessarily dictate that that would be the case. But it is apparent and apparent also by unanimous vote of those who voted on that lowering that the Fed has decided to take action decisively.

I hope it will be a prelude to further rediscount rate lowerings. I am of the opinion, as I think are perhaps a majority of our colleagues, that this is a time in which our economy can operate strongly at lower interest rates.

We are clearly of a mind that inflation must be controlled. The slackness of the economy dictates that this is likely to be the case but, at the same time, this leadership on the part of the Fed is significant and welcome. Many of us who have called upon the Fed to take that leadership certainly congratulate the Board of Governors on hearing that call and acting at least with dispatch.

Mr. President, I see no Senators on our side who require time, and so I yield back the time of the majority leader. I would be happy to yield additional time to the minority leader if he should request it.

RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER (Mr. GORTON). The minority leader is recognized.

THE FEDERAL RESERVE BOARD LOWERS THE REDISCOUNT RATE BY ONE-HALF POINT

Mr. ROBERT C. BYRD. Mr. President, I thank the distinguished acting Republican leader.

I join with him in commending the Fed for taking the action, which represents the seventh time that the Fed has lowered the discount rate one-half point since July.

I compliment the Fed. I would not say that it is entirely, however, the leadership of the Fed. I think Congress has had a lot to do with this. It was back in July, that part of the year, when those of us on this side of the aisle introduced legislation to require the Fed to take actions, such as it has been taking since then, to get interest rates down and promote economic recovery and thus increase the employment of people in this country.

There were 40 cosponsors of the legislation introduced by me. I talked with the majority leader of the House, Mr. Wright, and he introduced somewhat similar legislation over there. There were between 60 and 70 cosponsors there.

So immediately I got a reaction from the Federal Reserve. Mr. Volcker came to visit me, and I know he has visited several Senators since that time.

So it seems to me that the Federal Reserve, while it should be commended, and I do commend it, saw a train coming down the track. That train was the possible action by Congress which created the Federal Reserve. I think it remains an unwritten axion that the creature of the Congress can be reminded that Congress can still step in and formulate policy and guidelines by which the Federal Reserve Board shall be persuaded in its actions.

The distinguished majority leader has likewise, recently especially, been quite outspoken in his opinion that the Federal Reserve Board needs to relax its tight money policy in order to promote economic growth, get interest rates down, and get people back to work.

So I would say that Congress has had some influence in all likelihood in this matter.

But I do join the distinguished Senator in commending the Fed for lowering the discount rate again in what is now the longest postwar recession. I hope the Fed will continue to take such actions as would insure the dropping of the interest rates because in so doing I think it enhances the chances

for economic recovery, economy growth, and reduction of unemployment in the long run.

Mr. ROBERT C. BYRD. I yield the remainder of my time to the acting Republican leader.

Mr. LUGAR. Mr. President, apparently no further time is required by the majority or the minority.

Under the orders, it is my understanding that we will now proceed to a period for the transaction of routine morning business.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business not to extend beyond the hour of 10 a.m. with statements limited therein to 3 minutes each.

Mr. LUGAR. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. PROXMIRE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

WHERE TO CUT DEFENSE

Mr. PROXMIRE. Mr. President, Newsweek magazine has devoted almost its entire issue of December 20, 1982, to the subject of the Defense of the United States. In a most unusual and indepth effort, Newsweek explores the basis of U.S. military doctrine and strategy.

Mr. President, this is a most remarkable article because it is so specific and clear in its discussion and in its recommendations.

The key to the Newsweek analysis is dedication to the proposition that "Budget cuts can actually leave America stronger." Why? Because budget cuts, if accomplished properly, will strengthen the conventional capabilities of U.S. forces while maintaining sufficient deterrence to preclude a willful act leading to nuclear war.

Looking at the European theater, the article concludes that "the solution to weaknesses in Western defenses is better conventional capabilities—not Weinberger's theory of protracted nuclear war." Conventional war fighting capability deters the temptation for Soviet aggression in Europe and greatly lessens the opportunities for escalation of unbalanced military confrontations into nuclear exchanges.

In support of this European concept, Newsweek recommends restoring the cut in manpower made by the Senate Defense Appropriations Committee. Citing the contribution of the NATO allies to NATO ground and air forces, the argument is made that the United States must recognize the extraordinary commitment the NATO partners are making—they, after all, are supplying the battlefield. And we should consider the need for trading partners, Newsweek continues.

Convincing as this line of argument might be, it does not address the central proposition of the NATO alliance—that NATO countries must bear a fair share of the burden of their own defense. And in that light, it is clear that the NATO countries can and should do more.

Getting down to particulars, Newsweek is not hesitant in selecting those particular weapon systems it believes can safely be canceled—without harming national security.

Among those singled out for elimination are the controversial MX, the B-1 bomber, the two nuclear aircraft carriers, reductions in the Maverick missile, the Viper, the A-10, and the reactivation of World War II battleships.

This is a list which may be low in terms of outlays the first year, at $2.7 billion, but enormous in terms of the 5-year savings at $56.4 billion.

In just about each case, Newsweek cites alternatives to these systems or explains why the military justification does not measure up to the level of expenditure required.

For example, the two nuclear aircraft carriers. Their mission is to strike the Soviet mainland, but as Newsweek quotes one expert: "No Admiral in his right mind is going to want to go tearing up into the Kola Peninsula to bash heck out of it." They are just too vulnerable for that role.

Mr. President, the Newsweek analysis is rich in examples and explanations. It makes difficult defense problems far easier to understand to the layman and that may be its most important contribution to the debate that this body should be engaging in. I ask unanimous consent that the Newsweek article be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From Newsweek, Dec. 20, 1982]

WHERE TO CUT DEFENSE—BUDGET CUTS CAN ACTUALLY LEAVE AMERICA STRONGER—THE KEY IS CAREFUL ANALYSIS OF LONG-TERM U.S. STRATEGY

Karl von Clausewitz, the great 19th-century military theorist, liked to speak of the "fog of war": the clamor and confusion as massed men hurl themselves at each other, the smoke and rain that often obscure the field of battle, the fear that at times clouds all but the most obtuse minds. It is difficult to see war whole, even from the distance of command. "A general never knows anything with certainty, never sees his enemy clearly, never knows positively where he is," said Napoleon.

As with war itself, so with the annual defense budget of the United States. It is hard to see whole, even for those who write it. Preoccupied with their own shares of the budget, the individual armed services slight each other's needs. Interservice programs critical to national security, such as airlift and sealift, are always shortchanged. Congress often treats defense as just another public-works program—only bigger—with the decision to purchase one weapons system instead of another turning not on the relative merits of each, but rather on whose district will get the money and jobs.

CALAMITY

Perhaps worst of all, the military budget seems driven by a technological imperative. Costly but sophisticated weapons are outward signs of American military might and American political will and thus are necessary for their own sake or as bargaining chips in future arms negotiations. They precede the formulation of strategy and to some extent determine it. This is no mere academic problem. "If the strategy comes first," says Thomas Powers, author of "Thinking About the Next War," "then the nature of the Soviet-American military confrontation is something we have chosen deliberately, and we may be said to be in control of our own fate. But if the weapons come first, spawned by man's sheer technical inventiveness, then the confrontation, with all its attendant dangers, is something that has happened to us—a kind of natural calamity, like a hurricane, or a drought, or the beginning of a new ice age."

The strategy should come first, if only for budgetary reasons. John M. Collins, a retired Army colonel who is now a defense analyst at the Library of Congress, points out: "Until you have a strategy you do not know what forces are needed. And until you know that, you cannot spend $1.6 trillion intelligently."

POLICY

Ever since the cold war bisected Central Europe, the underlying aim of U.S. national-security policy has been containment of the Soviet Union within the sphere of influence it established following World War II. The principal strategic vehicles of the policy have been the U.S. nuclear deterrent and conventional armed forces operating in tandem with allies, through arrangements like NATO.

Until the late 1970s, that dual strategy worked reasonably well. Soviet military power made no conquests besides the suppression of revolts within the Eastern bloc itself, and even the successful ideological inroads—Cuba, for example—were few. On the other hand, the U.S. strategy has done little to deter aggression by other communist states, such as North Vietnam and North Korea. And recently both the nuclear deterrent and NATO's conventional forces in Europe began to lose their credibility. Theoretically vulnerable to attack from new Russian missiles, America's landbased Titans and Minutemen could no longer guarantee a successful retaliation in the event of a Soviet strike. The manned B-52 bombers, too, seemed less threatening if they had to fly into the teeth of massed Soviet air defenses. Only the ballistic-missile submarines remained invulnerable. But their missiles lacked the accuracy to be of value against hardened military targets, and there were grounds for doubting whether a U.S. president would authorize their use against civilian populations, knowing the terrible cost of Russian revenge.

At the same time, an unmistakable Soviet buildup of conventional forces was well under way. Although the number of Rus-

sian divisions forward deployed in Central Europe has remained constant at 30 since the 1968 invasion of Czechoslovakia, those divisions have been fleshed out by the addition of some 75,000 men. Those 30 Soviet divisions are augmented by 28 non-Soviet Warsaw Pact divisions. The number of tanks in the combined Warsaw Pact divisions has increased from 12,000 to 16,000 since 1964, and—more important—their quality has improved with the introduction of T-64 and T-72 tanks.

NERVOUS ALLIES

The NATO allies, with the conspicuous exception of the United States, did beef up defense budgets during the last decade. But by 1980 NATO forces readily available for service on the front still totaled just 27 divisions—740,000 troops. Some nervous Europeans, hearing American talk of "limited" nuclear war and suspecting that it meant war limited to them, began to wonder if some sort of accommodation with the Soviet Union, economic or political, might not be advisable. This was exactly the process of "Finlandization" that American policy had aimed to prevent.

After they took office two years ago, Ronald Reagan and his secretary of defense, Caspar Weinberger, surveyed the military landscape and decreed change. The money came first. During Jimmy Carter's administration, the Pentagon had won its first real budget gains after eight straight years of decline, and Reagan upped the ante to 7 percent real spending growth a year. The B-1 bomber, killed by Carter as part of the trade-off in which he agreed to the cruise missile, would now be revived. There would be a 600-ship Navy.

Then came the search for a strategy that would make maximum use of the money—and justify the weapons. At the escalated level of nuclear war, the evolving strategy, designed by former Defense Secretaries James Schlesinger and Harold Brown and continued under Caspar Weinberger, went beyond traditional deterrence theory. Under the new doctrine, the United States should be able to fight a protracted nuclear war—and win. This means having less vulnerable intercontinental missiles, as well as an array of forward-based intermediate-range weapons like the Pershing II missile. The strategy, made possible by innovations in missile accuracy and communications systems, has raised fears that for the first time an American government finds the unthinkable thinkable, The Reagan administration does not "endorse the concept" of nuclear-war fighting, Weinberger insists—but, he asks, "what is the alternative to planning to prevail? . . . If there has to be a war, if all our deterrent efforts fail . . . I'm not going to plan to lose."

REFORM

At the same time, Weinberger is carrying out what he calls "the intellectual reform of our policy regarding conventional warfare." In recent years conventional strategy has called for the United States to maintain a "one and a half war" capability—meaning that U.S. forces should be prepared to fight, in concert with NATO allies, a full war of short duration in Central Europe and a smaller conflict somewhere like the Persian Gulf. Weinberger's intellectual reform contemplates fighting an all-out conventional war longer than the 30 days traditionally used as a U.S. planning objective. Even more ambitious, it envisions "horizontal escalation" in hostilities with the Soviet Union—counterattack at Soviet targets of value remote from the field of battle.

In theory, horizontal escalation finesses the difficulties of defeating a Soviet land army in the Middle East by relying on American maritime supremacy (enter the 600-ship Navy) to attack surrogate nations elsewhere. In practice, as former Defense Secretary Harold Brown points out, horizontal escalation would lack credibility as a deterrent even if the Navy had the ability to carry it out, because there is no target other than the Russian homeland that the Navy could attack that would be more valuable to the Soviets than the Persian Gulf oilfields are to the United States. "Cuba doesn't equate to Southwest Asia," says Brown. "If the Soviets attack the . . . oilfields, how much good does it do for us to relieve them of the burden of a $3 billion-a-year subsidy in Cuba?"

At bottom, all U.S. military strategy, and thus all major budgetary commitments for defense, must begin by confronting the harsh reality of geography: the United States is at a distinct disadvantage when it comes to leaning on other nations. Merely by massing its troops along one or another of its borders, the Soviet Union can influence events in all three of the areas most vital to U.S. interests—Western Europe, the Middle East and the Pacific environs of Japan and the Koreas. The United States, by contrast, is a maritime nation isolated by two vast oceans, yet with sea lanes and overseas interests to protect. In order to influence events in countries like West Germany or Saudi Arabia, it must be able to project power over thousands of miles, with all the attendant logistical problems.

Periodically there are cries for a scaling down of commitments overseas. Former CIA Director Stansfield Turner, writing with George Thibault in the magazine Foreign Affairs, said, "It is difficult to believe that the degree to which Europe has dominated our procurement of equipment, doctrine and training did not contribute heavily to our shortcomings" in Korea, Vietnam and the Iranian hostage-rescue mission. The Senate Appropriations Committee, noting that more than half the defense budget is devoted to the NATO commitment, recently voted to force the withdrawal of 23,000 American soldiers from Europe. It also cut back funding requests for the Rapid Deployment Force now being assembled to meet military contingencies in the Persian Gulf. In both cases the panel made plain its resentment over the allies' alleged unwillingness to shoulder a greater part of the burden of their own defense.

BATTLEFIELDS

But if the underlying aim of U.S. security policy is containment of Soviet expansionism, then the basic commitments to the defense of Europe, the Persian Gulf and Japan cannot be abandoned. "There is only one thing worse than fighting with allies," as Churchill said, "and that is fighting without them." In Europe the NATO countries provide more than 60 percent of allied ground-combat capability and about 55 percent of combat aircraft. Moreover, in an item that doesn't show up in the defense budget, West Germany supplies free real estate and facilities for American forces. In wartime, as former Under Secretary of Defense Robert Komer notes, West Germany "would even provide the battlefields."

Moreover, the allies are irreplaceable trading partners. America's international commerce, most of it with the industrial democracies and the oil producers, accounts for one-sixth of all domestic jobs and one-third of all profits. Forty percent of U.S. farm production is sold overseas. As a mercantile nation, the United States cannot afford the loss of markets that would follow an American withdrawal for overseas defense. Nor can the country afford to lose what Komer calls "perhaps our most important remaining strategic advantage over the U.S.S.R . . . that we are blessed with many rich allies, while the Soviets have only a few poor ones." And the United States would not welcome the rise in West German and Japanese militarism that might follow a U.S. pullback. West Germany could even develop independent nuclear forces. As former National Security Council staffer Morton Halperin warns, "Massive German rearmament would dramatically increase the chances of war with the Soviet Union."

If the U.S. strategy of containment through alliances is to remain intact, there are certain inevitable consequences. For a start, the Weinberger policy of horizontal escalation should be dropped. Horizontal escalation fails the first test of deterrence—reminding a potential enemy that aggression will cost more than it gains. It also undermines the alliances. By proposing to punish an aggressor elsewhere rather than confront it directly at the point of attack, horizontal escalation implicitly abandons potential battlefields like the Persian Gulf. The citizens of Europe, whose lights were fading because they had lost Persian Gulf oil, would take no cheer from the news that in retaliation U.S. Marines had captured Havana.

KILOTONS

The United States must also recognize the deterioration of nuclear weaponry's credibility as an option in the defense of allies. Europeans doubt—with good reason—that the United States would invite attack on its own cities by using nuclear weapons. Nor does anyone believe that the Europeans would beg for the use of tactical nuclear weapons on their own territories (in northern Germany, it is sometimes said, the towns are only a couple of kilotons apart). While America cannot now afford to give up the capacity to ride out a Soviet first strike and retaliate in full force, the solution to weaknesses in Western defenses is better conventional capabilities—not Weinberger's theory of protracted nuclear war.

Therefore, as a minimum first step, Congress should restore all of the funds it cut for redeploying U.S. troops closer to the forward defense positions on the East German border and for improving allied airfields. It should lift the ceiling it imposed on troop strength in Europe. And it should restore its 50 percent cut in funds to improve facilities in the Indian Ocean area. Cuts should not come from the budget for NATO readiness. The ax should fall elsewhere.

If the United States is ever to shake free from its dependence on nuclear weapons, it must begin looking for cuts in the strategic arsenal. Not doing so invites danger. As the respected Sen. Sam Nunn suggested not long ago, increasing the portion of the budget devoted to nuclear programs also increasing the risk of a nuclear confrontation. Having slighted conventional forces, he said, "we will inadvertently decrease our options to protect vital interests without having to resort to the use of nuclear weapons."

The best-known candidate for elimination is the MX missile. The case in its favor has never been wholly persuasive. By itself, the 192,000-pound behemoth adds little or nothing to the nuclear deterrent; with its high accuracy and 10 warheads, it has more fire-

power than the U.S. strategy of maintaining retaliatory capability would require. It was the idea of a deceptive basing mode that originally made the MX a plausible replacement for the Minuteman III missiles. With deceptive basing—Carter's plan to shuffle 200 missiles among 4,600 shelters—now abandoned, the MX becomes expendable. Cutting it from the budget would save $14.9 billion by the end of fiscal 1987. Besides, there are reasons to suspect that its real reason for being is the Air Force's fear that the Navy, with multiwarhead missiles aboard near-invulnerable Trident submarines, would usurp the Air Force role as prime bearer of the nuclear deterrent. As one defense specialist on Capitol Hill notes, one of the MX's chief attractions to the Air Force is that it's "so big the sonofabitch won't fit in a Trident submarine."

In any case, it is time to rethink the larger question of whether the United States should continue to sink billions of dollars into preserving the land-based leg of the strategic triad. Just as Richard Nixon could get away with a trip to China when more liberal presidents could not, so a defense hard-liner like Ronald Reagan could make palatable a decision to live with a weakened land-based leg—what some proponents call an "isosceles triad" with two strong legs and one weak one.

On the other hand, the Trident submarine program, plagued by prodigious cost overruns, should be continued. Mobile and invisible, it is deceptive basing in practice, not just theory. Until the Soviet Union develops much better antisubmarine-warfare technology than it now has, this sea leg is by far the safest part of America's strategic triad. And the Trident II missile, which like the MX has the capacity to destroy hardened Soviet targets, is scheduled to go into service in 1989.

BOMBER

The Lazarus-like B-1 bomber, killed once already by the Carter administration, can be earmarked for reburial. The case for manned strategic bombers remains strong—as Sen. John Tower, chairman of the Armed Services Committee, emphasizes, they can be recalled in the event of a mistaken order to proceed to target. But the B-1 is too expensive to make sense for the few years it would perform its primary function. The current long-range bomber is the venerable B-52, which is thought able to penetrate Soviet air defenses until the late 1980s. By the early 1990s, if not sooner, the new advanced-technology bomber (known as "Stealth" for its radarevading abilities) should be in service. Why, then, spend at least $23 billion through fiscal 1987 on an interim airplane? One argument is that forcing the Soviets to modify their air defenses to defeat the B-1 will divert billions that would otherwise go to developing offensive weapons. But once they did so, the B-1 would be no more effective than B-52s equipped with cruise missiles.

Conventional-force reductions are harder to recommend—these forces have for so long been neglected. Some highly visible systems are overdesigned and overburdened with expensive technology, but to criticize complex weaponry across the board is to miss an important point: America's chief military advantage over the Soviet Union is precisely its technological supremacy. In an era when microelectronics are making it possible for opposing forces to clash without ever coming within visual range of one another, it makes no sense for the United States to give up its edge.

QUANTUM LEAP

At the same time, a certain skepticism about high technology is appropriate. One reason the Soviets consistently put more new weapons in the field than the United States is that, as John Collins notes, they settle for "incremental improvements," constantly updating weapons in actual use. The American tendency, on the other hand, is to strive for "the quantum leap forward." Typically, new systems come loaded with "bells and whistles"—Pentagon slang for technological frills—which often fail to work at first, leading to production delays and cost overruns. At that point, as Sen. Gary Hart likes to say, "better becomes the enemy of good." It also becomes the enemy of efficiency. Technology is giving each service the ability to perform the mission of another: increasingly, long-range aircraft are able to perform the same duties as aircraft carriers. But the services are so traditionbound that they don't adjust to the changing implications.

There are some troubled high-tech weapons under development that deserve a chance—if the bugs can be worked out of them. One is the Abrams (M-1) main battle tank, a "high risk" design that has given critics a field day. The tank proved "allergic" to dust, a commodity often found on battlefields. Its transmission failed so often that one Senate tank expert observed, "General Motors would have issued a recall notice for all of them." But since 1979 Abrams has been performing much better, and it is now winning applause from allied tank experts. Another troubled system with a future is the F-18 fighter-bomber, which carries a total program cost of $40 billion—more than either the MX or the B-1. It was adopted by the Navy at least in part because the Navy didn't want to take an Air Force Plane. Among the F-18's problems was the fact that in its attack mode the missiles it carried weighted it down so much that it could not achieve its specified range of 550 miles. But the most recent classified-test results indicate that the $22.5 million-per-copy airplane is now within striking distance of passing grades.

DEADLY FIRE

But the argument for building two new Nimitz-class nuclear-powered aircraft carriers is less than compelling. They are the centerpieces of Navy Secretary John Lehman's plans for a 600-ship fleet, but their strategic value doesn't justify their total cost of $7 billion—$4.7 billion by 1987—not to mention the additional $30 billion or so needed to deck out two carriers with full complements of aircraft and support ships. The task forces include four air wings over the life of the two carriers (total cost: $18.6 billion), four Aegis-class cruisers ($6.2 billion) and eight destroyers ($4.2 billion); some of these support craft might be necessary for other missions, but if the two carriers are canceled, several billions of dollars extra could be saved.

The main mission of the carriers, it appears, would be to provide platforms for airplanes to attack the Soviet land mass, which Sam Nunn dryly describes as "not a very well-thought-out strategy." As one congressional staff defense specialist says, "No admiral in his right mind is going to want to go tearing up [through the Arctic Circle] into the Kola Peninsula to bash hell out of it." The big ships would draw deadly fire from Soviet Backfire bombers carrying cruise missiles, and even if they survived, their bombers—only 35 per carrier—would be unlikely to penetrate Soviet air defenses in great numbers. Indeed, the vulnerability of Nimitz-class carriers to humiliatingly cheap missiles is a strong argument against building any more than the 13 the Navy now has. It is worth recalling that during the Iranian hostage crisis when a little gunboat diplomacy might have helped, the admirals declined to send a supercarrier into the Persian Gulf. Not wanting to lose it, they didn't use it.

Similar considerations apply to the Navy's plans to bring four vintage battleships out of mothballs. One, the New Jersey, will be commissioned this month, and another, the Iowa, should be available for sea duty late next year. The Navy should stop there. Equipped with cruise missiles for land attack, the main mission of the revitalized battleships apparently would be to strike at the Soviet heartland. They, like the carriers, would be in harm's way. Alternative possibilities are to deploy one battleship in the Caribbean, with air support based on land in Texas or Florida, and one in the western Pacific, with air cover out of South Korea, the Philippines or Okinawa. A carrier could then be relieved for Indian Ocean patrol. For this purpose, though, the battleships already reactivated are enough. Savings: $909.5 million.

Another candidate for removal from the Navy's budget is the fleet of 342 AV-8B Harrier jump jets now being purchased for the Marines. The Harrier is a short-takeoff-and-landing aircraft designed for close air support of ground troops from forward bases. It is a capable plane, but its duties could be handled by the attack version of the dual-mission F-18 fighter-bomber called the Hornet. The Marines could buy the F-18 in place of the AV-8B without any increase in F-18 orders, since the Navy's production plans include planes for reserve units and for the task forces planned for the two Nimitz-class supercarriers. It would save $4.5 billion by the end of fiscal 1987 and eliminate the need for the Marines to develop two quite different training and logistical systems. The Marines point out that the Harrier can do things the Hornet cannot, but there is nonetheless enough overlap to justify the cut. Besides, suggests former Pentagon analyst Russell Murray II, the real reason the Marines want the Harrier is to avoid a repeat of their experience in Korea, when the Air Force tried to take over Marine planes and convert them to deep interdiction missions. Murray says the Marines want "to tie their future aircraft so closely to their ground forces that it would simply be infeasible to transfer their control to the Air Force."

NO THREAT

Another capable aircraft that should be cut back is the F-15 long-range interceptor known as the Eagle. As part of a total buy of the 1,395 F-15s, the Air Force wants 144 for air defense of the continental United States against Soviet bombers—an almost nonexistent threat that is far less important than that posed by the Soviet ICBM's. The F-15 is indeed a hot plane—too hot, since its top speed of more than Mach 2.5 squanders fuel and is rarely if ever used by pilots—but it is not needed for continental air defense. Reducing the F-15 purchase by 108 aircraft would yield $2.4 billion in savings by fiscal 1987.

Even the Air Force has offered to stop buying the A-10 Thunderbolt, another attack plane intended for close support for ground troops. That job can, however, be handled by the Army's new AH-64 Apache

helicopter. The A-10 has been kept alive mainly by New York Sen. Alfonse D'Amato; it is built in his state. Cutting it would produce a savings of $386.3 million over the Reagan budget cycle.

One deservedly criticized high-tech weapon is the DIVAD (for Division Air Defense) computer-operated radar-guided anti-aircraft gun, which was inspired by demonstration last February the DIVAD trained its sights on a drone Huey helicopter hovering nearby—and failed to fire. After repairs to a disconnected cable, the DIVAD fired—this time, directly into the ground 300 yards away. The Soviet version of the weapon doesn't perform well, either. Says one congressional staff specialist: "We have taken a relatively inexpensive, inaccurate Soviet weapon and turned it into a relatively very expensive, inaccurate American weapon." Canceling it would save $2.7 billion by fiscal 1987.

VIPER

An equally troubled weapon is the hand-held Viper antitank gun—essentially a high-tech version of the bazooka. Its main problem is its ineffectiveness against the frontal armor of the new Soviet T-72 tanks. U.S. soldiers would have to let the T-72 go by and fire from behind—a questionable practice. The Marines have already rejected it. "You want something that hurts the enemy, not just pisses him off," says Sen. Warren Rudman, who calls the Viper "a turkey with characteristics of a cat, because it has nine lives." No senator "would hesitate to give soldiers the best weapon even at the highest cost," he adds "But no one, starting with me, is going to give him the worst at the highest cost." Canceling it would save $1 billion by fiscal 1987.

Further assorted savings:

The Army's Helicopter Improvement Program, an unnecessary interim retooling of the OH-58 Scout helicopter until a new Scout is in the field; $786.8 million saved.

Two-thirds of the production of the heat-seeking version of the air-to-surface Maverick missile, which is intended for night use in place of the optically guided Maverick. Any alert enemy who wants to divert the missile can easily do so, however—simply by setting fires to pull it off course. "It would probably get more pilots killed than would kill targets," says Anthony Battista of the House Armed Services Committee; $1.2 billion saved.

Half the civil-defense budget. This is not technically Pentagon money, but should be construed as national-security spending. Savings: $1.2 billion.

All told, these cuts would lower the defense budget by only $2.7 billion in the current fiscal year. But starting next year, the "bow wave" of spending will start to hit, set in motion by programs authorized last year and this. By the end of fiscal 1987 Newsweek's defense-budget cuts of $56.4 billion, plus the civil-defense savings, would total $57.6 billion, with minimal impact on national security. This would still represent a growth in spending higher than 5 percent annual real growth—the figure endorsed by the Joint Chiefs of Staff during the Carter administration. It will not, however, narrow the gap between expenditures and strategy. The Joint chiefs of Staff will have to come up with a coherent way to integrate the four services into a single fighting force before that gap will fully close. Cuts along these lines should be made now, while there is still time. Otherwise, they will surely be made later, and they will come out of the basic operating funds for keeping American armed forces ready. That would harm national security.

CUTTING THE BUDGET—NEWSWEEK SUGGESTS CUTS THAT WILL SAVE BILLIONS WITHOUT HARMING NATIONAL SECURITY

System or program	Fiscal 1983 savings	Total savings over 5 yrs.
Cancel B-1 bomber	$859,500,000	$22,900,000,000
Cancel MX missile unless administration comes up with a believable basing mode	1,100,000,000	14,900,000,000
Cancel two Nimitz-class aircraft carriers	164,900,000	4,700,000,000
Cancel AV-8B Harrier jump jet	181,900,000	4,500,000,000
Cancel DIVAD air defense system	34,800,000	2,700,000,000
Eliminate F-15s for continental air defense	72,800,000	2,400,000,000
Cut funding for Maverick missile by two-thirds	47,200,000	1,200,000,000
Cancel Viper antitank gun	123,000,000	1,000,000,000
Cancel reactivation of battleships Missouri and Wisconsin	15,000,000	909,500,000
Cancel Army Helicopter Improvement Program	49,400,000	786,800,000
Terminate A-10 antiarmor airplane	40,800,000	386,300,000
Totals	2,700,000,000	56,400,000,000

Reagan's wish list [1]

[In billions of dollars]

Program	*Fiscal 1983 budget authority*
Strategic forces	23.1
General-purpose forces	106.5
Intelligence and communications	18.0
Airlift and sealift	4.4
Guard and Reserve forces	14.3
Reserarch and development	20.1
Central supply and maintenance	22.2
Training, medical, other general personnel activities	44.2
Support of other nations (Excluding military-assistance programs)	.9
Administration and associated activities	4.3
Total	258

[1] The defense budget for fiscal year 1983 authorizes spending that will grow by billions in the years ahead.

BAHAIS IN IRAN SUFFER RELIGIOUS PERSECUTION

Mr. PROXMIRE. Mr. President, World Press Review recently printed an article by Christian Ullman about the religious persecution of the Bahai sect in Iran. According to the article, the Bahais, who believe in the unity of all major religions, are considered "heretics" and denied all civil rights.

The author explains that the new Islamic Republic does not recognize the roughly 300,000 Bahais in Iran as one of its official religious minorities. Their shrines and religious centers are destroyed and their cemeteries vandalized. He also reports that hundreds of Bahais have been killed in Iran since 1978. In one account, "a husband and wife were tied to the doors of their house, wood was piled over them, and a fire was set, killing them."

The author goes on to enumerate the many forms of harassment endured by the Bahais in their day-to-day life. For example, the State does not legally recognize couples who are married in Bahai religious ceremonies and, therefore, individuals joined together in this way may be persecuted and their children considered illegitimate. In addition, children of the Bahais do not have access to education.

Members of the Bahai sect are easy targets for those who wish to harm them because the authorities will not arrest their assailants. Sadly, the Bahais are imprisoned within this system because legal emigration is not possible.

Mr. President, the terrible religious persecution of the Bahai sect in Iran reminds us that the potential for genocide still exists. We know from history that genocide may occur when the human rights of a particular group are grossly violated. While Americans abhor such persecution, our Nation has neglected to meet its full responsibility in discouraging this criminal act.

Mr. President, the United States has not yet ratified the Genocide Convention and while our Nation waits, thousands suffer. As a leader in the area of international human rights, our country must join over 80 other nations in officially condemning genocide. Once again, I urge my colleagues to ratify this treaty.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. McCLURE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. COCHRAN). Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. Morning business has expired.

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS, 1983

The PRESIDING OFFICER. The clerk will report the pending business.

The assistant legislative clerk read as follows:

A bill (H.R. 7356) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1983, and for other purposes.

The Senate continued with the consideration of the bill.

● Mr. SCHMITT. Mr. President, I would like to address the fine work of the chairman of the Interior Subcommittee of Appropriations, Senator McCLURE, in bringing this measure to the Senate floor. Many of us realize the difficulty of guiding an appropriations bill of this complexity through the Senate, but few can appreciate the

extra qualities of patience, hard effort, and sincere dedication which are required to succeed during this extraordinary legislative session. This appropriations bill, the product of Senator McCLURE's long effort, is witness to his skills as a legislator and a fine human being.

I would also like to commend his staff as exemplary in their efforts to support the chairman. Their assistance to this Senator when questions have arisen has been appreciated. Each one of us knows the value of a clear, concise response—even when it is not the one we want to hear. I would like to personally thank each of them. It is my understanding that Diana Barnhart will be leaving the Senate shortly to travel across the country and serve in another capacity. It will be our loss, and we wish her well. Senator McCLURE has been well served by this hard-working staff unit, as has the Senate as a whole.

As the Senator representing New Mexico, it is a privilege to thank the chairman for his helpfulness and concern for those issues which have been of particular importance to my State.

Sometimes "small" can be meaningful, as is the case with small sawmills in northern New Mexico. The language in the Senate report directed to the needs of small loggers will be of great help in terms of employment and preservation of a way of life.

The chairman's farsighted efforts to insure the protection of the archaeological record in the San Juan Basin as our Nation moves to meet its energy requirements will be appreciated by future generations. In conjunction with this effort is the action taken to further our knowledge and understanding of the Fajada Sun Dagger Calendar site of the Chaco Canyon in New Mexico. The computer graphics modelling effort provided in this measure will aid and protect this remarkable ancient Pueblo calendar.

The vital issue of Indian economic development has been addressed very positively in several forms in this measure. I speak for the tribes in New Mexico specifically when I say "thank you" to the chairman for his support for the Navajo Indian irrigation project, the rehabilitation of the Sandia Pueblo's farm laterals, and the continuation of the fish hatchery on the Mescalero Reservation. In each project there is a proven track record from which the tribes can continue to build with the assistance provided in this appropriations bill.

There are many other issues of national significance which have benefitted from the chairman's careful handling and understanding. I would again like to express my gratitude for his efforts on behalf of New Mexicans and the Nation as a whole.●

● Mr. DeCONCINI. Mr. President, during the Appropriations Committee's consideration of the Interior and Related Agencies bill, I offered an amendment, along with Senator BUMPERS, to prohibit the use of funds to process new gas, oil or coal leases on Federal lands being considered as wilderness. The amendment was passed and is now a part of the bill. We included lands already within the National Wilderness Preservation System, lands within any Forest Service RARE II area recommended for wilderness designation or allocated to further planning, and lands designated by Congress as wilderness study areas.

Mr. President, the people of this country have acted to identify and set aside certain areas of our public lands to remain untampered with for the near future. We have attempted to do this carefully and openly through an orderly process. This program is continuing through the congressional review of the wilderness areas recommended by the U.S. Forest Service on a State-by-State basis.

There certainly has been a lot of differing opinions as to which areas should be designated wilderness and which should not. But I have received a lot of agreement on one thing—be careful. Be careful on what we set aside and be careful on what we open up. The resources we own together as a Nation are crucial to a number of competing, but not necessarily conflicting, goals, so my constituents have demanded that we consider all of our needs before we turn them over to private interests.

Mr. President, therein lies the problem. This administration appears to be striking out at our Nation's land, water and energy resources at a furious pace. There are over 1,000 new wilderness lease applications pending for more than 3 million acres of wilderness, and Secretary Watt has indicated he will issue these leases for oil and gas drilling in wilderness areas unless Congress specifically prohibits it. The Secretary, through a number of recent actions, has badly strained public confidence in the Government's willingness to protect public resources and property—and the people are looking to the Congress. What we are dealing with is nothing less than public trust and confidence. What they are saying is, slow down. Our committee amendment is simply a 1-year limitation on funds to stop the Secretary from processing new leases—a 1-year moratorium.

It was not the intent of the DeConcini Bumpers/committee amendment to interfere with, or affect in any way, valid existing leases. In our amendment language, we specifically included language to protect valid existing rights in RARE II areas recommended for wilderness designation by Congress as wilderness study areas. We did not specifically include already designated wilderness areas in our protection of existing leases and rights, but we did not intend to exclude them. We intended to offer a floor amendment today to make sure all valid existing leases and rights are excluded from the funding limitation. We have discussed the need for this amendment with members of the committee, with the Department of Interior and with representatives of the public interest groups and there is agreement that it is appropriate to recognize all valid existing rights. The protection of valid existing leases in congressionally designated wilderness areas is included also in S. 2801, the bill which was introduced by Senator HENRY JACKSON and which has 54 cosponsors. For this reason I have no objection to the amendment offered by the floor manager to include Federal lands within the National Wilderness Preservation System.

Mr. President, I thank the distinguished floor manager, Senator McCLURE, the subcommittee chairman, for his cooperation and commend him for his dedicated leadership and for the tremendous amount of effort he and his capable staff have made to bring this bill to the floor.●

● Mr. WEICKER. Mr. President, I stand here concerned about our commitment to support and involve the States with the recovery of endangered species.

Congress has recently demonstrated its concern with whales by applying pressure on the Japanese in order to force them to sign the International Whaling Commission Agreement. At the same time, the Senate has not restored the part of the Department of the Interior fiscal year 1983 budget used for grants to the States to assist State endangered species recovery programs.

Mr. President, it is under section 6 of the Endangered Species Act that the Secretary is given the authority to enter into management and cooperative agreements with the States for the purposes of managing habitats of endangered and threatened species and engaging in other joint activities. These efforts are funded through Federal matching grants to the States and represent the major provision of the act for effecting recovery. One needs only to examine the legislative history of the act to find that Congress intended that a cooperative Federal-State relationship be initiated and sustained.

The House recognizes the importance of the States cooperative recovery of endangered species and has added $4,000,000 to restore the program.

I would hope that my colleagues on the Interior appropriations conference will view the $4,000,000 favorably and concede to the House.●

PAPAGO INDIAN WATER RIGHTS

● Mr. DECONCINI. Mr. President, I have serious concerns relating to the funding requirements of title III of Public Law 97-293, the Papago Indian water rights. I will not now take the Senate's time to explain just how important this water settlement is to both Indians and non-Indians in southern Arizona. However, I would like to say that the negotiations—including the legislation—evolved over 5 intense years and the settlement is now dependent on moneys being appropriated as authorized. I have asked the Department of the Interior to supply a statement as to the costs which will be required in this fiscal year 1983 to meet their schedule for implementing the law. The Department estimates a fiscal year 1983 requirement of $20,465,000. Most of this sum, $20,250,000, is trust funds and would not be considered as outlays.

However, there has not been a request for appropriations from the administration and I have taken up the matter with the committee. Within the committee, however, we are faced with two problems; one is purely a problem of adding $20 million to this bill, and the other is a continuing discussion as to the subcommittee jurisdiction.

I would like to ask the distinguished floor manager, the subcommittee chairman, if he would be willing to seriously consider a supplemental for at least $15,000,000 for the Papago Tribe trust fund, and would he continue to work with me to get an agreement on subcommittee jurisdiction?

Mr. McCLURE. I understand a supplemental will be requested by the Bureau of Reclamation for these settlement costs. I am certain that by the time we act on a fiscal year 1983 supplemental, we will have resolved the jurisdictional question.

Mr. DECONCINI. I thank the distinguished floor manager.●

ENTRANCE AND RECREATION USE FEES

● Mr. BUMPERS. Mr. President, I am concerned about language in this bill appearing on lines 14-21 on page 12.

Basically, this provision directs the National Park Service, notwithstanding any other provision of law, to establish and continue entrance and recreation use fees for all units of the national park system.

Mr. President, this language directly repeals one piece of general legislation as well as several specific provisions in a number of park bills enacted by the Congress in the past few years. The language in this bill before us is bad policy. But aside from that, I very much regret that the Senate is being asked to deal with a policy issue such as this in this manner.

Mr. President, the Congress, in a fairly bipartisan manner as I recall, voted to freeze park entrance fees in 1979. This freeze was imposed in response to a proposal by the Carter administration to greatly increase entrance fees practically across the board, and use the money for park maintenance activities. As the subcommittee chairman of the Parks Subcommittee at the time, I held a hearing on this matter and found the proposal poorly thought out and inequitable. The Congress responded by enacting a freeze. Since then, the Congress has passed numerous park bills with specific provisions prohibiting the imposition of entrance fees on a park-by-park basis. The language in the Interior appropriations bill would, in effect, repeal this general statute and these specific provisions as well.

Mr. President, one of the highest priorities of the Reagan administration—and of David Stockman and Jim Watt in particular—has been to repeal this entrance fee freeze. The administration has transmitted several bills to the Congress to make this change. Those measures have been referred to the Senate Committee on Energy and Natural Resources Committee. Despite these efforts, not one hearing has been conducted on any of these bills. The Energy and Natural Resources Committee has not considered this manner in any fashion during the 97th Congress. And yet, we find before us today a provision in this appropriations bill directing the National Park Service to establish and collect these fees where they are not presently collected and raise them at those parks where they are collected now. In the depths of one of the worst recessions in our Nation's history, this Congress is being asked to respond by charging the American public more money for the privilege of entering their own national parks toward a balanced Federal budget.

Mr. President, I am not opposed to taking a look at the entrance fee issue. Maybe these fees should be increased or imposed in some instances. But I firmly believe this is something we should look at in the appropriate authorizing committees of the House and Senate—not in the context of an appropriations bill.●

WILLIAMS CREEK FISH HATCHERY

● Mr. DECONCINI. Mr. President, before we dispose of the measure before us, I would like to get the chairman's interpretation of the committee's intention with respect to fiscal year 1983 funding for the operation of the Williams Creek Fish Hatchery on the White Mountain Apache Indian Reservation in Arizona.

Mr. President, it has been my understanding that $101,000 is included in the BIA budget in fiscal year 1983 for the continued operation of the Williams Creek Fish Hatchery. It is my further understanding that although this project will be funded by the BIA, the management will be provided by the U.S. Fish and Wildlife Service by contract through this fiscal year. Can the chairman tell me what was the clear intent of the committee regarding the future management of this facility at Williams Creek?

Mr. McCLURE. The Senator from Arizona has accurately stated what I believe to be the committee's intent with regard to the operation of the Williams Creek Fish Hatchery. Although $101,000 has been included in the BIA budget, the committee expects the BIA to contract with the Fish and Wildlife Service for the continued management of the facility.

Mr. DECONCINI. I thank the chairman for his clarification in this matter. As you know, the fish hatchery at Williams Creek is very important to this Senator and the citizens of Arizona. Arizonans will be happy to know that this facility will continue to receive the fine services of the highly qualified and capable staff of the Fish and Wildlife Service.●

SECTION 315

● Mr. BUMPERS. Mr. President, section 315 of H.R. 7356 is very similar to language included as section 111 of the continuing resolution, Public Law 97-276. Section 315 requires Federal agencies to take the following actions before disposing of any tract of Federal land: First, identify the tract as no longer being needed by the Federal Government; second, inventory the tract for its public benefit values; third, provide the public with opportunities to review and discuss the proposed disposal; and fourth, notify the congressional delegation of the State in which the tract is located and the appropriate congressional committees of the proposed sale 30 days in advance. These required actions are not intended to overturn or replace any existing statutory or regulatory requirements governing Federal land disposals, but are instead intended to supplement them.

The committee is aware that some confusion has arisen over the interpretation of section 111 of the continuing resolution. The General Services Administration and the Department of the Interior interpreted section 111's requirement regarding the sale of Federal land to apply only to lands with "national environmental or economic value." This was not the intent of the committee or the sponsors of the amendment. Rather, the provisions of section 111 of the continuing resolution were intended to apply to any tract of Federal land, and not merely to those properties with "national environmental or economic significance."

To insure that the language of section 315 of this bill is clear, no reference to "lands with national environmental or economic value" has been included. The provisions of section 315 of this bill apply to the sale of any federally owned land. The language ex-

empts only disposals specifically authorized by previous legislation, and disposals carried out under the authority of the Townsite Act or the Recreation and Public Purposes Act.●

UP AMENDMENT NO. 1433

Mr. McCLURE. I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Idaho (Mr. McCLURE) proposes an unprinted amendment numbered 1433.

Mr. McCLURE. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 71, line 10, strike section 308 and insert the following new section in lieu thereof:

"SEC. 308. Except for lands described by sections 105 and 106 of Public Law 96-560, section 103 of Public Law 96-550, section 4(d)(1) of Public Law 96-312 and section 603 of Public Law 94-579, and except for land in the State of Alaska, and lands in the national forest system released to management for any use the Secretary of Agriculture deems appropriate through the land management planning process by any statement or other Act of Congress designating components of the National Wilderness Preservation System now in effect or hereinafter enacted, none of the funds provided in this Act shall be obligated for any aspect of the processing or issuance of permits or leases pertaining to exploration for or development of coal, oil, gas, oil shale, phosphate, potassium, sulphur, gilsonite, or geothermal resources on Federal lands within any component of the National Wilderness Preservation System or within any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning in Executive Communication 1504, Ninety-Sixth Congress (House Document numbered 96-119); or within any lands designated by Congress as wilderness study areas: *Provided,* That nothing in this section shall prohibit the expenditures of funds for any aspect of the processing or issuance of permits pertaining to exploration for or development of the mineral resources described in this section, within any component of the National Wilderness Preservation System now in effect or hereinafter enacted, any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning or within any lands designated by Congress as wilderness study areas, under valid existing right or leases validly issued in accordance with all applicable Federal, State, and local laws or valid mineral rights in existence prior to October 1, 1982: *Provided further,* That funds provided in this Act may be used by the Secretary of Agriculture or Interior to issue under their existing authority in any area of national forest or public lands withdrawn pursuant to this Act such permits as may be necessary to conduct prospecting, seimic surveys, and core sampling conducted by helicopter or other means not requiring construction of roads or improvement of existing roads or ways, for the purpose of gathering information about and inventorying energy, mineral, and other resource values of such area, if such activity is carried out in a manner compatible with the preservation of the wilderness environment: *Provided further,* That seismic activities involving the use of explosives shall not be permitted in designated wilderness areas: *Provided further,* That funds provided in this Act may be used by the Secretary of the Interior to augment recurring surveys of the mineral values of wilderness areas pursuant to section 4(d)(2) of the Wilderness Act and acquire information on other national forest and public land areas withdrawn pursuant to this Act, by conducting, in conjunction with the Secretary of Energy, the National laboratories, or other Federal agencies, as appropriate, such mineral inventories of areas withdrawn pursuant to this Act as he deems appropriate. These inventories shall be conducted in a manner compatible with the preservation of the wilderness environment through the use of methods including core sampling conducted by helicopter; geophysical techniques such as induced polarization, synthetic aperture radar, magnetic and gravity surveys; geochemical techniques including stream sediment reconnaissance and X-ray defraction analysis; land satellites; or any other methods he deems appropriate. The Secretary of the Interior is hereby authorized to conduct inventories or segments of inventories, such as data analysis activities, by contract with private entities deemed by him to be qualified to engage in such activities whenever he has determined that such contracts would decrease Federal expenditures and would produce comparable or superior results: *Provided further,* That funds provided in this Act may be used by the Secretary of the Interior to issue oil and gas leases for the subsurface of national forest or public land wilderness areas that are immediately adjacent to producing oil and gas fields or areas that are prospectively valuable. Such leases shall allow no surface occupancy and may be entered only by directional drilling from outside the wilderness or other non-surface disturbing methods."

Mr. McCLURE. Mr. President, this is a matter that was discussed in the committee. I am frank to say that the amendment I am now offering in slightly different form was turned down by a vote in the committee.

However, after talking to the people that were involved in that matter in the committee, I think there is no objection to it. I refer to the language that was adopted in the committee with respect to wilderness withdrawal. Senator DECONCINI offered an amendment and his position prevailed in the committee, but it had one error in it. That was that it did not recognize valid existing rights within existing wilderness areas.

The amendment that I am offering makes that correction. It also adds the language which is in the minerals withdrawal from existing wilderness bill which Senator JACKSON has introduced with many cosponsors. Over half of the Senate are cosponsors of that bill.

While it does not restate the entire Jackson bill, this amendment is patterned primarily after the House action down to the point where we pick up with the Jackson bill on the second page dealing with the conditions and limitations upon the exploration.

I emphasize that the language in the Jackson bill is repeated verbatim in this amendment.

Mr. President, I believe that the principals who have expressed an interest in this, at least through their staffs in every instance, are aware of this language and this amendment. I do not know of any substantial objection to the amendment at this time, but if there is any concern, then I would withhold consideration of it until we can have time to study it.

If there are other Members who wish to speak to the amendment, I am happy to yield to them at this time. It is not my desire to try to rush this through at all, because I think there are those who want to at least read the language before voting on the amendment.

Mr. JOHNSTON addressed the Chair.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. JOHNSTON. Mr. President, I believe this amendment will be perfectly suitable, but staff is now reading it with a fine tooth comb. If we may have a few more minutes, perhaps move on to something else while we are studying it carefully, then we can determine whether there is in fact objection. But we would not want to approve it at this time.

Mr. METZENBAUM. Will the Senator from Idaho be good enough to yield for a question?

Mr. McCLURE. Surely.

Mr. METZENBAUM. And that is, just what does this amendment do? I came in about 2 minutes late. I found that the amendment was already on the floor.

Mr. McCLURE. The amendment picks up the language that was added in the committee, the DeConcini amendment, and makes one correction to that which I think Senator DECONCINI would confess he did not intend; that is, that valid existing rights not be recognized. This will recognize valid existing rights.

If the Senator will look at the structure of the amendment, the first page and the tip of the second page simply pick up on the committee action; the words are exactly the same with that one change.

Then the second page is the addition of the language in the Jackson bill, of which I believe the Senator from Ohio is a cosponsor. Over half of the Members of the Senate are cosponsors of that language, even though it has not gone to markup in the authorizing committee. This issue kind of eluded the authorizing committee because it was offered in the appropriations context first in the other body.

It picks up the DeConcini language with that one change, and then it also picks up the remainder of the Jackson bill.

Mr. METZENBAUM. Since I am not at all reluctant to admit I do not know what the DeConcini amendment is, will the Senator be good enough to explain the DeConcini as well as the Jackson amendment?

Mr. McCLURE. It is a moratorium on minerals leasing within wilderness areas, study areas and designated RARE II areas. This is an issue which has had a great deal of interest over the last 6 months. It arose first in the Montana-Bob Robertson Wilderness Area, second, in New Mexico with respect to some proposed oil and gas exploration, and then became a matter of interest in Wyoming.

I had earlier in the continuing resolution offered an amendment which simply established a moratorium for the period of the continuing resolution. This language goes further in time than that, but this amendment would add back the prescription on the exploration activities contained in the Jackson bill that was not contained in the earlier language which I had offered to the continuing resolution.

Mr. METZENBAUM. Will the Senator from Idaho indicate, if he knows, whether those who represent the so-called environmental groups around the Congress are supportive or opposed to this amendment?

Mr. McCLURE. I am sure the Senator knows that I am not as close to them as some others are around here. They do not necessarily come around to my office and tell me what they like or dislike about what it is I am about to do. But in general terms, as I understand it, they did not expect or intend that the DeConcini action taken in the full committee would fail to recognize valid existing rights. They have no objection to that change. They recognize it is a valid and necessary exercise.

Second, obviously they have no objection to the Jackson language because they were very great proponents of the Jackson bill. I have not asked them about whether they want that added, but I think, if we are going to deal with the question of the withdrawal of the wilderness areas, the RARE II areas and the study areas, we ought to at least do it with the language that was contained in the Jackson bill rather than a blanket prohibition.

I am frank to say, as the Senator will certainly understand, this is not action that I necessarily favor. I think it goes further than is justified by the circumstances. I have been very candid about that. However, I also recognize that the majority rules in this body, and the majority in the committee desired that we have the geographic extent including those three categories. So I am acceding in that regard to the will as expressed by the majority of the committee.

Mr. MELCHER. Will the Senator yield?

Mr. McCLURE. Does the Senator from Ohio have further questions?

Mr. METZENBAUM. It is my understanding that the Senator from Idaho is going to temporarily lay this amendment aside?

Mr. McCLURE. If the Senator desires to have a little further time to check on the language, I shall be happy to do that. I am not attempting at all to rush the consideration of it.

Mr. METZENBAUM. Is it not a fact that this is legislation on an appropriation bill?

Mr. McCLURE. Yes, the DeConcini amendment is.

Mr. METZENBAUM. I thank the Senator from Idaho. I will study it further and advise him whether or not I would either ask him to withdraw the amendment or raise a point of order both to the DeConcini amendment as well as to this amendment.

Mr. McCLURE. I shall make a prediction right now: The Senator from Ohio will not make a point of order against the DeConcini amendment. I am telling him what he will do; I am predicting what he will do.

Mr. METZENBAUM. The Senator from Idaho is quite often sufficiently perceptive to know those matters against what I might raise a point of order and those against which I might not raise a point of order.

Mr. McCLURE. Mr. President, if the Senator from Montana has a question, I shall be pleased to respond.

Mr. MELCHER. Mr. President, I am looking at an amendment which I believe is the one we are discussing. I am confused as to what is the DeConcini amendment.

Mr. McCLURE. The amendment offered in the subcommittee was a blanket withdrawal of all of the designated wilderness areas, those that had been recommended for wilderness under the RARE II process and those that had been recommended for further study under the RARE II, and protecting valid existing rights with the exception of the valid existing rights within the wilderness areas. I think that was a grammatical error rather than an intentional difference.

I might add to that that this was an amendment which was offered first—not mine, the DeConcini amendment—in the House of Representatives and follows the amendment which I had offered to the continuing resolution that sought to keep things in the status quo pending the action in the Energy and Natural Resources Committee on the Jackson bill. It was offered in the Appropriations Committee, I believe, by Representative YATES in the other body. Senator DECONCINI then picked up on that action here, to follow on the action that was taken in the other body. It was a part of the bill when it came to us, was not part of the subcommittee mark, and was then added in the full committee meeting.

Mr. MELCHER. If the chairman will yield further, on page 2 of the amendment before us, beginning with the proviso—I notice that it is typed on a different typewriter, with smaller type.

Mr. McCLURE. The second part the Senator makes reference to is picked up from the Jackson bill.

Mr. MELCHER. Is it the intention of the amendment to permit the Secretary of the Interior to issue permits to conduct prospective seismic surveys, core sampling, et cetera, on national forest lands without the usual procedure, which is covered, I believe, by a memorandum of understanding between the two Secretaries?

Mr. McCLURE. This is more restrictive rather than less restrictive.

Mr. MELCHER. Mr. President, I have not completed my question.

Mr. McCLURE. I beg the Senator's pardon.

MELCHER. It is generally conducted now, as I understand it, under a memorandum of agreement between the two Secretaries. Is it the intention to have a Secretary of the Interior issue these permits without the consultation with the Secretary of Agriculture on the national forest lands and therefore sign off on the Forest Service—as I read this language, it refers to existing law. A memorandum of understanding is certainly not existing law.

I raise this point because I have noticed in this proposed bill all along that apparently the language is drafted in such a way as to permit the Secretary of the Interior to issue these permits in a manner that is not permitted now.

I want to clarify that by saying "under this bill," I mean the bill that was passed in the House overwhelmingly and that Senator JACKSON introduced here with, I believe, 53 or 54 cosponsors. The language of that bill has always disturbed me in this proviso, because I believe it would have to be construed that it is a broadening of the authority of the Secretary of the Interior to issue the permits without getting the usual approval of the Forest Service prior to the permits being before us.

Mr. McCLURE. Will the Senator yield?

Mr. MELCHER. Yes.

Mr. McCLURE. I appreciate the Senator's raising this question, because I believe the legislative history should be made very clear on that point. I do not regard the Seiberling-Jackson bill as being a broadening of authority. It is a restriction on the authority. It is a proscription, an addi-

tional requirement that is not contained in existing law, and I do not believe that it supplants or would affect the memorandum of understanding between the two Secretaries.

As the Senator from Montana knows, the minerals exploration that has been conducted on national forest lands has generally been done under the supervision of the people in the BLM. That was done many, many years ago, but it was done under the memorandum of understanding to which the Senator makes reference.

The final authority for those actions is vested in the Secretary of the Department of Agriculture pursuant to those memorandums of understanding. It has been a matter of procedure that says that the minerals activities on the national forests is generally supervised by Department of Interior personnel. That has been a matter of practice for many, many years.

I do not believe that this language varies from that, nor would it strike out the responsibility or the authority of the Secretary of the Department of Agriculture. I do not believe that the language necessarily reads or should be read to mean that the institutional arrangements that are already in being are wiped out by this enactment.

Mr. MELCHER. Mr. President, I am not convinced that that is the case at all. I think the Wilderness Act passed in 1964 and the subsequent memcrandum of agreement is clearly understood to mean that when there is going to be prospecting on the lands withdrawn for wilderness, the arbiter of that, if it is national forest land, is, first of all, the Forest Service. It is after the recommendation or denial by the Forest Service that it comes before the Secretrary of the Interior. I find this language very confusing in the first proviso.

Furthermore, I find the third proviso in the third sentence of this series of provisos to be plowing some new ground. First, let me explain.

I am reading from the second "provided further:"

Provided further, That funds provided in this Act may be used by the Secretary of the Interior to augment recurring surveys of the mineral values of wilderness areas pursuant to section 4(d)(2) of the Wilderness Act and acquire information on other national forest and public land areas withdrawn pursuant to this Act—

The structure of this amendment at this point strays far, I think, from this appropriation bill. I continue—

by conducting, in conjunction with the Secretary of Energy, the National laboratories, or other Federal agencies, as appropriate, such mineral inventories of areas withdrawn pursuant to this Act as he deems appropriate.

I think the reference to "this act" means the Wilderness Act. I do not know that this language is really clear here. Nevertheless, the new ground that I refer to is adding "by conducting in conjunction with the Secretary of Energy and the National Laboratories or other Federal agencies as appropriate such mineral inventories."

Mr. McCLURE. Mr. President, will the Senator yield for one question or clarification?

Mr. MELCHER. I yield.

Mr. McCLURE. In that proviso that the Senator read first that provided further that funds provided in this act and then he suggested that that be referred to the Wilderness Act.

Mr. MELCHER. The second reference to the act is what I was referring to. It would be about four lines below that.

It says forest and public land land areas withdrawn pursuant to this act.

I believe that reference is to the Wilderness Act.

Mr. McCLURE. No. I think it goes further than that.

Mr. MELCHER. What does it refer to then?

Mr. McCLURE. It refers to the areas that are described at the beginning of the amendment which are the designated wilderness areas, the recommended RARE II wilderness areas and those recommended for further study.

Mr. MELCHER. I will accept that as not being too confusing, but it would be better to say in this section. I point that out. It would be better construction.

Mr. McCLURE. This language was simply picked up from the Seiberling-Jackson bill. It is verbatim to the Jackson bill.

Mr. MELCHER. Yes; I understand, but that is an act standing on its own.

Mr. McCLURE. I understand.

Mr. MELCHER. This is an amendment in an appropriations bill. It gets a little bit confusing. But, nevertheless, that is a rather minor point.

Mr. McCLURE. Excuse me.

Mr. MELCHER. That is a minor point.

What I am referring to as plowing new ground is adding consultation with the Secretary of Energy and the national laboratories or other Federal agencies as appropriate. It is six of one and half a dozen of the other.

I will point out that that in no way in this particular proviso refers to the Secretary of Agriculture or the Forest Service. I find it not only confusing, but I find it totally inept in what the real world is. We are doing something on national forest lands. He has to be working with the Forest Service.

Mr. McCLURE. Mr. President, will the Senator yield?

Mr. MELCHER. I yield.

Mr. McCLURE. The Senator points out a problem that is always the case when we try to use the appropriations process tc achieve legislative ends. Had this matter gone through the authorizing committee of which the Senator is a member I am sure those questions would have been raised and would have been resolved either in language or in legislative history or report language.

The fact is that this matter was injected in the other body as they acted on the appropriations process.

So we are at the point now of trying to do in this manner what would ordinarily be done in a more extended discussion in the authorizing committee.

But I do not believe that we should be as concerned perhaps as the Senator has expressed it because of the reference to the responsibility for the mineral survey. Mineral surveys are being conducdcted by the Geological Survey, and there is provision in the Wilderness Act for that, and the Bureau of Mines is also involved in that, both of those subagencies being parts of the Department of the Interior.

That is a matter of existing law and statute.

The national laboratories also have certain responsibilities established by provisions of other laws.

So this is not just breaking new ground. It is a recognition of the responsibility that has been established through the provisions of other statutes.

Mr. MELCHER. I am going to ask the chairman the pertinent question. Does he agree or disagree with the method that is followed by the memorandum of understanding between the Secretaries of Interior and Agriculture?

Mr. McCLURE. Mr. President, will the Senator yield?

Mr. MELCHER. I yield.

Mr. McCLURE. I certainly have no objection to that arrangement that has been in effect for many years, and I do not think that this bill should be read as affecting that memorandum of understanding to any greater extent than it has been affected by the provisions of the other statutes calling for such mineral surveys.

Mr. MELCHER. Whose amendment is this, may I inquire? Is it the chairman's amendment as seemed to be purported in the amendment?

Mr. McCLURE. The Senator is correct.

Mr. MELCHER. Would the chairman object to clarifying language as to the retention of the guiding principles of that memorandum of understanding? It is not there, even though this bill is only going to last for 10 or 12 months. I guess it would be between now and October 1. That would be less than 10 months. I think it should be made clear at this point because if we are going to ever pick up this language and enact it into law I would have grave apprehensions about how it would be interpreted later on for the future. I know this will only apply to 9½ months of money that would be spent, and frankly there is probably

very little money going to be spent in the next 9½ months under the terms described in the amendment. But if it is going to be used as a model for appropriate legislation by the authorizing committee later on I think it should be a point we clarify at this time.

Mr. McCLURE. I would certainly be willing to clarify the language, but I caution the Senator we do not want to make that so clear that we have cast some doubts upon other statutes.

Mr. MELCHER. Yes; I understand.

Mr. McCLURE. So what I would try to indicate at this point is I read this language to mean that these authorities are not in derogation of restrictions or procedures that are already in established law, but this language should not be read nor interpreted to expand the authority of the Department of the Interior but to be prescriptive on the kinds of operations that can take place under the restrictions being added to existing law and circumscribes action that is otherwise permitted under existing law.

Mr. MELCHER. I thank the chairman for that comment.

I note that these provisions are limited to the time prescribed in the appropriations process for the life of this bill, which is 9½ months, but if it would become final it would become legislation to be permanent, and if this language indeed was a model to become permanent I would remind the chairman that it would then be permanent law, and what this Secretary of the Interior or past Secretaries of the Interior have done is not necessarily what future Secretaries of the Interior would do, and I could well believe that a Secretary of the Interior in the future, maybe even this one, would want to interpret this if it were an act of Congress on his own and not connected with the appropriations bill to grab more authority over national forest lands away from the Forest Service and just simplify what they might consider redtape.

After all, it is a procedure and it does generate paperwork, and so on, and so they can make the case, "Congress in the most recent act gave me broader authority"—my being the Secretary of the Interior—"and my Solicitor advises me that we do not have to refer to that memorandum of agreement," dated I suppose in the late sixties.

Mr. McCLURE. Mr. President, will the Senator yield?

Mr. MELCHER. I yield.

Mr. McCLURE. I think the legislative history being established here with respect to the meaning of this provision would make it almost impossible for such a Solicitor to give that kind of advice. I think the Senator has made a contribution.

Mr. MELCHER. I have seen some arbitrary Solicitors and arbitrary Secretaries, as I am sure the chairman has noted also.

Mr. McCLURE. Yes; and I think others who know less about it than the Senator from Montana does, will do well to know at this point that this Secretary of the Interior has not tried to acquire the Forest Service. The last one did.

Mr. MELCHER. He better not. I thank the chairman. I will propose clarifying language that might be acceptable to the chairman.

Mr. McCLURE. I thank the Senator for his contribution.

MODIFICATION OF UP AMENDMENT NO. 1433

I might just note that there is a typographical error and, therefore, ask the clerk to correct the copy at the desk.

On the first page on line 4, the reference is to section 4(d)(1) of Public Law 96-312. That reference should be to section 5(d)(1).

Therefore, I ask unanimous consent that the amendment be so corrected.

The PRESIDING OFFICER. If there is no objection, the clerk is directed to modify the amendment.

Mr. McCLURE. Mr. President, if there are others who have amendments they wish to offer we can set this aside while others are examining the amendment. I see no one seeking recognition on this side.

Mr. METZENBAUM. Mr. President, I will say to my friend from Idaho that checking into this particular amendment, I may not wish to make an issue of it but I would like to be certain about that.

I would like to direct his attention to page 12 of the act, lines 14 through 21, and ask the Senator from Idaho if that language does not fly directly in the face of an earlier congressional enactment which provided that no fees were to be charged for units for entry and recreation use fees of the national park system, and that this totally undoes that particular piece of legislation; and I would also ask, as a second part of it, whether that is not a legislative proposal on this appropriations bill?

Mr. McCLURE. Mr. President, will the Senator yield? I wonder if I might yield to the Senator from Louisiana because, as I recall, this language was added in the committee at the request of the Senator from Louisiana and, perhaps, he would like to comment.

Mr. JOHNSTON. The Senator has reference to page 12, lines—give me the lines again?

Mr. METZENBAUM. Lines 14 to 21:

That notwithstanding any other provision of law, the National Park Service shall establish or continue reasonable entry and recreation use fees for all units of the National Park System administered by the Department of the Interior, where practical, and that such fees may from time to time be revised: Provided further, That such fees less the cost of collection shall be deposited into the general fund of the Treasury:

My recollection is that Congress passed legislation prohibiting the charging of such fees, and although I cannot remember exactly when or the details of it, it does seem to me that this item in this appropriations bill is repeated in the congressional enactment without hearings by the appropriate authorizing committee.

Mr. JOHNSTON. This was not my provision, but it was the feeling of the committee that the National Park Service ought to have the right to enact a reasonable entry and recreational use fee, and for that reason it was put in in committee. I do not recall the person who put in the amendment.

Mr. METZENBAUM. I would make the observation that there may be an argument that can be made to that end, and I think, I am not certain, I would agree that it should be done, but it seems to me that it is of such major moment that this language specifically directs that fees be charged.

Mr. JOHNSTON. I beg the Senator's pardon. It says "where practical, and that such fees may from time to time be revised." So it was the intent of the amendment that the National Park Service have the right to determine where it is practicable, which means it is discretionary.

Mr. McCLURE. Mr. President, will the Senator yield?

Mr. METZENBAUM. I yield to the Senator from Idaho.

Mr. McCLURE. I thank the Senator for yielding, because I think he misreads the provision. This provision does not add any new fees. This provision has to do with the disposition of the fees which are already being collected.

Mr. METZENBAUM. I beg to differ with my friend. It says the National Park Service shall establish or continue reasonable entry or recreational use fees for all units of the National Park System.

I might say, if the Senator from Idaho—what happens to the fees now, the fees that are charged?

Mr. McCLURE. Those fees, along with concessionaires' fees, are miscellaneous receipts to the Treasury.

Mr. METZENBAUM. I am advised, and I am frank to admit I am not an authority on this subject, by knowledgeable staff that they go immediately to the land and water conservation fund pursuant to the 1981 appropriations bill.

I would like to suggest to both managers of the bill—the ranking and minority—that lines 14 through 21 up to the colon on line 21 do not belong in this bill. They certainly raise some issues of tremendous national concern as to whether there should or should not be fees charged. I think it belongs before the appropriate committee for a hearing, but it certainly does not

belong in this appropriations bill, and I am reluctant to raise——

Mr. JOHNSTON. Mr. President, will the Senator yield?

Mr. METZENBAUM. Yes.

Mr. JOHNSTON. From the minority standpoint we would have no objection to the Senator's amendment if he wishes to offer one.

Mr. METZENBAUM. Would the Senator from Idaho find that acceptable, Mr. President?

Mr. McCLURE. I have no objection.

Mr. METZENBAUM. I will yield the floor for a moment in order that I might draft an appropriate amendment.

Mr. McCLURE. Is the amendment simply to strike that language in the proviso that starts on page 12, line 13 at the end of the line, and ending at the end of lines 20 and the first of line 21 with the word "Treasury"?

Mr. METZENBAUM. The Senator from Idaho is correct.

Mr. McCLURE. Mr. President, I ask unanimous consent that that language just referred to be stricken from the bill.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

Mr. METZENBAUM. I want to thank the Senator from Idaho and the minority manager for their cooperation.

I would now like to direct your attention to page 75, lines 3 through 6, and ask if the manager of the bill would be good enough to explain that and also whether or not it would not have some impact on certain litigation presently pending and whether or not we are going beyond the point that we ought to be going when currently the Secretary of Interior is challenging and raising issues with respect to the validity of certain titles and raising questions with respect to the easements and restrictions that have been heretofore reserved and opposed by the Secretary of the Interior, and I am questioning whether or not that language should be in this legislation, in this appropriations bill, and what impact it has and why it is there.

Mr. McCLURE. Mr. President, if the Senator will yield, this amendment was offered by Senator BURDICK in the committee and it deals precisely and specifically with titles to the Shee Atika in Alaska.

Mr. METZENBAUM. I am sorry, I did not hear that.

Mr. McCLURE. The Shee Atika Tribal Corp., native corporation, in Alaska. I wish Senator BURDICK were here to explain the background, which he understand much better than do I, but it has to do with the transfer of certain lands that were authorized by the Alaska lands bill, and this would make clear that the conveyance is not subject to court challenge.

Mr. METZENBAUM. Is it not a fact that there is litigation pending with respect to those very lands at the moment and that we would be doing that which so often Congress is called upon to do, and that is to eliminate the right of litigants to have their matter properly resolved in courts?

Mr. McCLURE. I would understand, the staff advises me, that there is a court action pending with respect to the harvest of timber on the lands affected by this amendment. But the question is broader than simply that of harvesting timber, so that the language here would allow the tribal corporation to deal with those lands knowing they have title to them.

I am not certain that I can answer the question, but I would assume from the staff comment that the language that Senator BURDICK offered will not invalidate that particular lawsuit, although if the basis of the injunction against removing timber is they do not have title, then it might.

Mr. METZENBAUM. I cannot tell the Senator that I am an authority on this subject, because I am not an authority. I do know what my small convictions are. We just had a bill (S. 995) which had to do with passing legislation which would have an impact upon pending litigation. If we are to do that—normally I would not be in favor of doing it—but if we are to do that, then the committee that ought to be considering the reason for doing it is the authorizing committee, not the Appropriations Committee.

I believe, again, that we have a situation of legislation on an appropriations bill and legislation that is affecting pending litigation. Although I am reluctant to do that absent Senator BURDICK being on the floor—and I am perfectly willing to await his arrival—I do not believe that we ought to impact any pending lawsuits in this manner.

I yield to the Senator from Louisiana to address himself to these questions.

Mr. JOHNSTON. I thank the Senator. What this does is carries out precisely the intent of Congress. The Congress describes certain lands that the Alaskan Natives were to get, and they indeed got that land. This simply confirms the title to that land that the Congress intended.

We regard whatever cloud there is on those titles to be a spurious kind of cloud and ought to be expunged, and that is exactly what this legislation does, to carry out the intent of Congress.

Mr. METZENBAUM. I respect what the manager of the bill on the minority side, my good from Louisiana, is saying. And I am not certain I am opposed to the posture of the Senator from North Dakota. I know that I am opposed to legislating on pending litigation and would say that if this language were withdrawn to give those who are litigants in that matter an opportunity at least to make their case in the very early part of the coming session, which is only about a month away, I think it would be far more appropriate, and I for one would at least have an open mind on the issue.

I do not believe this is the way to do it. I hope that the managers of the bill would see fit to eliminate this section with the understanding that at the very early part of the next session we will move into this, we will take up a separate bill on this subject, and I for one would be very openminded in considering that legislation.

Mr. McCLURE. Will the Senator yield?

Mr. METZENBAUM. I yield to the Senator from Idaho.

Mr. McCLURE. As I indicated earlier, this amendment was offered in the full committee by Senator BURDICK. I would not want to take that action without having had the opportunity to talk to him about it. I have no personal interest in it.

Mr. METZENBAUM. I understand. I appreciate the Senator's courtesy and I want to join in that courtesy being extended to the Senator from North Dakota. I hope that some way word can be sent to Senator BURDICK so that he might come to the floor.

Mr. McCLURE. I will attempt to get word to the Senator. I hope that the Senator from Ohio will do likewise. Then, perhaps, following that opportunity to discuss it with him, we can take whatever action may seem appropriate at that time.

Mr. METZENBAUM. I thank the Senator from Idaho.

Mr. McCLURE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. METZENBAUM. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. METZENBAUM. Mr. President, I am prepared to advise the managers of the bill that the amendment that they were kind enough to lay aside is not objectionable to the Senator from Ohio and if they care to proceed with it, it is fine with me.

Mr. McCLURE. I thank the Senator from Ohio. Is there anyone else who has any concern, or does anybody have any desire to discuss the amendment further? If there is no such question, Mr. President, I ask that the amendment be acted upon.

The PRESIDING OFFICER. The question is on agreeing to the amendment offered by the Senator from Idaho (Mr. McCLURE).

The amendment (UP No. 1433, as modified), was agreed to.

Mr. McCLURE. I move to reconsider the vote by which the amendment was agreed to.

Mr. JOHNSTON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UP AMENDMENT NO. 1434

(Purpose: To conform bill to report)

Mr. McCLURE. Mr. President, I send five technical amendments to the desk and ask unanimous consent that they be considered en bloc.

The PRESIDING OFFICER. Is there objection to the request? If not, without objection, the amendments will be considered en bloc.

The amendment will be stated.

The legislative clerk read as follows:

The Senator from Idaho (Mr. McCLURE) proposes an unprinted amendment numbered 1434.

Mr. McCLURE. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 32, line 14 delete the linetyped number "$896,000".

On page 40, strike line 8.

On page 43, lines 6 through 9 delete the linetype through and including the word "appropriation".

On page 48, line 13 strike the figure $24,000,000" and insert the figure "$29,000,000" in lieu thereof.

On page 56, line 25 strike the numeral and insert in liet thereof: $15,000,000.

Mr. McCLURE. Mr. President, these matters have all been cleared on both sides of the aisle. I ask unanimous consent that they be agreed to en bloc and that the bill thus amended be considered as original text for the purpose of further amendment.

The PRESIDING OFFICER. Is there objection to the request? Without objection, it is so ordered.

The amendment (UP No. 1434) was agreed to.

Mr. McCLURE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WARNER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

NATURAL GAS

Mr. WARNER. Mr. President, I am considering sending forth an amendment, but I would like first to extend the courtesy to acquaint the managers of this bill with the purport of this amendment and perhaps receive their advice.

Yesterday, the leadership of the Senate Energy Committee, Senator McCLURE and Senator JOHNSTON, arranged for hearings where we took up the subject of the natural gas situation.

Essentially, there is an overproduction at this time. Nevertheless, in the face of this overproduction, there are continuously rising prices. This has caused a situation of grave concern, particularly for hundreds of thousands of people who lack the economic means with which to obtain the necessary heat for their homes and small businesses. There is likely to be enormous hardship this winter.

The likelihood of any legislative relief adopted here in the lameduck session, in my opinion and, I think, in the opinion of many, is very remote. We have, I believe, left a clear impression on the Federal Energy Regulatory Commission that they should exercise their current statutory powers through regulation and otherwise to impress upon the industry to try and cap off any further price increases.

But I also mentioned during the course of the hearing the possibility at this time of augmenting the emergency funding provided by the Department of Health and Human Services to provide relief for those who economically cannot do it themselves. It would be to augment those funds by a transfer of money from the Department of Energy, which I believe at this time has close to a half-billion dollars in an escrow account. That account is generated from funds on the overcharge situation. We would transfer a part or perhaps all of those funds to HHS now in the hopes that those funds can be used to alleviate the present and in all likelihood the forthcoming hardships to be endured by those who cannot obtain the funding from the energy assistance fund.

That fund at the moment, of course, as I understand, is almost dried up, and there is doubt brought upon the 1983 amount, of course, by the current legislative bogdown here in the Congress with reference to the continuing resolution.

At this time, Mr. President, I yield to the distinguished manager of the bill for his comments.

Mr. McCLURE. Mr. President, first let me commend the distinguished junior Senator from Virginia for the leadership he has given in this matter. His voice has been heard very loudly and clearly with respect to the problem that is emerging.

I say it is emerging because in spite of the fact that many people have already experienced the steep escalation in price, that has not yet reached its end.

I also appreciate his diligence in the hearings that were conducted yesterday, in opening the hearings, questioning the witnesses, and participating in that hearing.

The Senator made a couple of comments in his remarks just now which I think need to be emphasized, but I would like to change the emphasis just slightly.

One is with respect to the likelihood of legislating in the remainder of this lameduck session.

It is not just a question of whether or not we can legislate; it is question of whether or not any such legislation would really deal with the question or with the problem.

We received one thing from all of the witnesses yesterday. We had two panels made up of producer groups and consumer groups. Both of those panels, I think almost without exception, cautioned the committee that nothing that we could do would have an immediate impact on price; that there was very little if anything that we could expect that could be placed into effect in time to affect the bills of people in December, January, February, and March of this year. That is the critical period. That is the emergency we are being called upon to address. But at the same time I think the Senator from Virginia has raised a very valid point in that low-income energy assistance is something that might be applied very quickly, and it would apply very directly to the problem that exists—not the adjustment of the prices but the inability of people to pay their bills.

We had a number of our colleagues from the Senate who appeared and testified in support of legislation which they have introduced, but each of them is pointing to the imminence of interruption of service to people who simply cannot pay their bill and therefore their service is cut off.

The use of low-income energy assistance through Health and Human Services might well be the only means by which we can do anything in a timely fashion to deal with that particular problem as it spreads across this country in the coming weeks and months.

The Senator is correct that there is a fund which has been collected as a result of overcharge activities in the monitoring of the very complex pricing structure that we had under the price regulation scheme, legitimate arguments that lead to the decision that some oil had been priced in the wrong category and that therefore consumers had had to overpay. But in spite of the fact that that money has been recovered, it is very difficult to distribute. The result has been that it has not been distributed. That money is there in the account, and there might well be no better use for it than to respond to the very real human need that is occurring now as prices escalate very rapidly.

Might I indicate to my friend and others who might be listening that we in the Northwest earlier experienced much the same thing.

Now, we have some opportunities to adjust to that that others do not have, but most of our natural gas supply comes from Canada. As world oil prices went up, the Canadians raised the price of their natural gas to parallel that oil price increase. We have

been in a substantially deregulated market for several years, and the consumers in my region of the country have already been hit with that, but they have also made their adjustments to contend with it.

I want to caution my friends that when they look at the plight that does really afflict a great many people throughout the country we look at it from the standpoint of the capacity of the individual to pay rather than whether or not the price is right, because in my area of the country the price has gone up and we are already paying a great deal more than is being charged in some of the areas from which the cries are now coming for relief.

So it really is, in my judgment at least, more the ability of the individual to pay and to respond on that end of it than it is whether or not the price is right in the first place.

Second, I think we must look at the changes that have occurred in the last 3 years with respect to the mixture of old gas and new gas, that which is controlled under the NGPA and has been controlled by Supreme Court edict since 1954, and that which was decontrolled under NGPA or in which we set up categories that would not be controlled, and people who made investments in reliance upon that particular price structure.

There it is easy to point to those who drilled for deep gas, as an example, very, very deep wells, very expensive to drill, and they drilled in reliance upon the fact that they would be able to market into a market that had both cheap old gas and expensive old gas and the new gas that would be melded with those supplies so that the consumers would get a melded price which was within their capacity to pay.

Events catch up with us; the economy has had a downturn, and as a result energy consumption has gone down. As prices went up, we had conservation, but I think the largest single item in the reduction of energy consumption lies in the lack of economic activity. And so suddenly we had a great number of people, who were producing natural gas to put into the market, who found that the market was much smaller than was anticipated and therefore the mixing of inexpensive and expensive supplies of gas did not occur and certainly could not occur in the terms that were considered under the take or pay contracts.

It is the shift in the market that causes both the consumer difficulty and threatens the producer inequity that might come from blind or unreasoned actions by the Congress.

But the Senator from Virginia has pointed toward a possibility that I think is worth considering.

Mr. WARNER. If the Senator will yield, I certainly want to receive the benefit of the advice from Senators EAGLETON, DANFORTH, JEPSEN, KASSEBAUM, and BOSCHWITZ. I believe that is the full number that appeared before us yesterday urging possible legislative remedies to be taken up in the lame-duck. I do not wish to pronounce those impossible but I think there are certain practicalities and, being pragmatic, it is not likely. If the Senator will permit, in the remaining time I will see what kind of a consensus we could have among this group to come forward with an amendment today to try and break loose some funds that are needed for the energy assistance program.

Mr. McCLURE. Mr. President, once again I wish to thank the Senator from Virginia for the suggestions and for his leadership because I do believe that it is not impossible to form some kind of a consensus on something that could provide some relief to some people who are very much in need of it. I hope that that effort that is ongoing will produce some results.

Mr. WARNER. Will the manager of the bill acquaint me with the time remaining in which I could try to forge this coalition?

Mr. McCLURE. We hope to finish this legislation before noon today.

Mr. WARNER. We will see if we can achieve it within that time. Perhaps we should allow our colleague from Louisiana to comment on this proposal, the proposal being perhaps for the managers of the bill to consider an amendment whereby we would instruct the Department of Energy to transfer part or all of those funds that have been accumulated in an escrow account—I understand there are some $500 million under the law that we passed last year with reference to price of petroleum—to HSS for the specific purpose of the energy assistance fund.

Mr. JOHNSTON. Mr. President, I appreciate the concern of the Senator for those who are hit really not so much by take or pay contracts and by the NGPA increase in prices but really by the recession, because the real problem here is that their incomes have gone down and it is just difficult to pay the rising cost of fuel bills. The fuel bills, as my colleague has pointed out, have not really gone up primarily because of the increasing prices under NGPA or because of the take or pay. Indeed, the average consumer is today paying $5.61 per million Btu's and of that less than 5 percent is represented by the rise in price during the past year because of take or pay and because of NGPA. Nevertheless, there is a great deal of problem with people in paying not only the heating bills but all of their bills.

However, I think that we would be hasty if, on the floor here, we tried to divide up a $500 million fund and say that, since this is in the Department of Energy, it ought to go to the low-income energy assistance fund. I think that ought to go through the regular appropriations process and have some hearing on it. Which we shall be able to do in January. I believe we would be hasty to try to spend that much money which, after all, would exceed—I believe that would be scored as an appropriation under the Budget Act—I believe. Certainly, that is a question we ought to know the answer to. It would count as an appropriation and, I believe, would put this bill out of balance. I think we should do it in January.

Mr. WARNER. Will the Senator allow us, in the brief time remaining, to try to make some assessment of the legality of this? In the course of the hearing today, I fear we might have raised some false hopes among many Americans that Congress could and would act in this brief session to try to alleviate these hardships.

These hardships are brought upon the people in the lower economic bracket by almost a quixotic situation which the Senator from Louisiana quickly laid out yesterday; namely, while the increase in the price of gas from the producer was very small, the overall increase of combined production, transmission, and delivery has amounted, in some States, to between 30 and 40 or 50 percent.

I hope the managers of this bill will allow us to take a quick look at it. Perhaps we can reach some consensus in time for this amendment to be considered before the bill is called up for passage at noon today.

Does the distinguished Senator from Louisiana have any further comments on this?

(Mrs. HAWKINS assumed the chair.)

Mr. JOHNSTON. Madam President, I am certainly always glad to work with the distinguished Senator from Virginia. I hope this bill will be ready for passage by noontime. I think this is the date the distinguished committee chairman has set. Nevertheless, if we can work it out in that time, I think that would be very good. I am certainly willing to try .

Mr. McCLURE. Madam President, will the Senator from Louisiana yield on that point?

Mr. JOHNSTON. Yes.

Mr. McCLURE. As everybody is aware, it is customary on Tuesdays for the respective parties to caucus and discuss various matters of interest to the legislative schedule for this week. Under those circumstances, we do not ordinarily have any votes after the hour of 12 or 12:30 p.m. at the very latest. If we cannot complete this bill before noon today, as the Senator is aware, we have unanimous consent to

return to the highway bill at 2 p.m. today for further consideration of that bill. I should say initial consideration, because all that has been considered so far is the motion to proceed to consideration. Once we get on that, it is very uncertain as to whether or not or when we can get back on this legislation.

I do hope that all Senators will consider whether it is necessary to offer amendments and, if they do offer amendments, to consider how long it is going to take to get those disposed of so that we have some chance of financing the consideration of this bill and getting to passage of it in the next 45 minutes.

I remind all Members that this bill is about $8 billion. It is a little less than that in authorization and a little more in outlays for the next fiscal year, and it affects every State in the Union. There are interests that are very close to the heart of every Member of this body contained within the parameters of this legislation. I do hope we can complete it so that all Members' interests can be protected in the normal manner of the appropriations process and not have to try to adopt something in a continuing resolution.

Mr. WARNER. I thank the distinguished chairman. I should not want to do anything that would delay action on this particular bill. I shall try to determine quickly the technicalities here and whether or not it can be done without jeopardizing the bill. I am convinced, myself, of the substantive value of this amendment but there are the technicalities which should be examined. It may well be that if I cannot resolve it in the brief time remaining, I shall consider this amendment as a part of the continuing resolution.

In any event, I believe this colloquy has been helpful. I am hopeful that other Senators, through their staffs, will be acquainted with this proposal and provide me with an indication of their possible interest in joining me in this effort.

Madam President, unless there are further comments—I yield to the Senator from North Carolina.

Mr. HELMS. I thank the Senator.

UP AMENDMENT NO. 1435

(Purpose: To provide sufficient funds for the operation of the Pisgah Forest National Fish Hatchery through September 30, 1983)

Mr. HELMS. Madam President, I have an unprinted amendment at the desk which I have submitted on behalf of Senator EAST and myself. I ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from North Carolina (Mr. HELMS), for himself and Mr. EAST, proposes an unprinted amendment numbered 1435.

Mr. HELMS. I ask unanimous consent that further reading be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 8, line 14, insert before the period the following: "*Provided further*, that sufficient funds are included for the operation of the Pisgah Forest National Fish Hatchery through September 30, 1983"

Mr. HELMS. I shall be brief, Madam President. I have discussed this amendment with the chairman and other Members. It would provide funds to keep the Pisgah Forest National Fish Hatchery in operation through September 30, 1983.

For the most part, Madam President, we are caught in a time squeeze in negotiations in North Carolina which I shall discuss in just a moment.

The hatchery represents an integral part of the trout industry in our State. Anglers invest some $25 million in the economy of North Carolina each year. Pisgah furnishes about 50 percent of the fish for the catchable trout program in North Carolina, not to mention trout for the Cherokee Indian Reservation in the Great Smokey Mountains. Pisgah produces more than 700,000 9- to 10-inch trout each year.

The purpose of this amendment is to keep this fish hatchery open pending negotiations between officials in North Carolina and the U.S. Department of Interior Fish and Wildlife Service. The State has expressed an interest in taking over operation of this fishery, but negotiations will require time. If the hatchery closes—and it probably will if this amendment is not enacted—I doubt the State will be able to assume control of the fishery. The losers, of course, will be the people who benefit from it—the Cherokee Indians, and others who fish in State and Federal waters.

The pending bill provides funding for hatcheries in Missouri and South Carolina that will enable them to continue to operate while arrangements are made for State takeover. What Senator EAST and I are asking is only that a similar accommodation be made for this hatchery in our State.

I understand the amount of money required to keep the hatchery open until next October is somewhere in the neighborhood of $270,000. I have discussed this with the distinguished chairman of the Interior Subcommittee, the Senator from Idaho, and hope he will find this amendment consistent with the overall appropriation objectives of his subcommittee.

Madam President, I urge adoption of the amendment.

Mr. McCLURE. Madam President, the Senator from North Carolina and his colleague (Mr. EAST) have indeed discussed this matter with me. This question of the maintenance of the fish hatcheries has been, perhaps, as difficult a one as any we have had to deal with. We have made accommodations where it is clear in my mind that the Federal purpose is not sufficient to justify the continuation of the investment of Federal moneys in it. People at the local level have asked the opportunity to work out some transfer of the facilities rather than simply closing the facilities. The Senator from North Carolina has indicated that that is the case with respect to this fish hatchery in North Carolina. We have made similar adjustments for others in almost identical circumstances and I have no objection to doing so here.

I think the Senator from North Carolina has come up with a constructive suggestion that will protect the interests of the people that are in that locality and certainly, they are important interests, important in those communities and in that area.

I am pleased to say that as far as I am concerned on behalf of the majority we will accept the amendment.

Mr. HELMS. I thank the Senator.

Mr. JOHNSTON. Madam President, we concur in that. This fish hatchery is a worthwhile project. It costs only $237,000, I believe. I think that is a worthwhile expenditure, even if it does by this minuscule amount increase the deficit. It is in a good cause.

Mr. HELMS. I thank the Senator.

I am going to see if the Cherokee Indians will not make Senator McCLURE and Senator JOHNSTON honorary chiefs.

I thank the Senator.

I move the adoption of the amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from North Carolina. The amendment (UP No. 1435) was agreed to.

Mr. HELMS. Madam President, I move to reconsider the vote by which the amendment was agreed to.

Mr. McCLURE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. McCLURE. Madam President, I am aware that the Secretary of Agriculture, as part of the President's asset management program, is considering the sale of the Hector Land Use Area, which is managed as a part of the Green Mountain National Forest and is the only National Forest Service area in the State of New York. The Hector Land Use Area is a 13,000-acre tract that has 4,000 acres of fenced pasture, 6,900 acres of timber land, and includes a 25-mile trail system. The Green Mountain National Forest is expected to complete its land use disposal study on April 1, 1983. Including public comment periods, this would make late summer or early fall

the earliest effective date of the disposal study decision.

The committee has included bill language providing for a 30-day notification requirement to congressional delegations. In response to a request by Senator D'AMATO, I would like to express concern about the possible disposal of the Hector Land Use Area and would ask the Secretary to closely review the Forest Service proposal to insure that the public benefit provided New York residents by the continued existence of the Hector Land Use Area as the sole Forest Service presence in that State is duly considered.

Mr. BUMPERS. Madam President, I have an amendment which I shall offer momentarily. I agree to yield to the Senator from Montana for 2 minutes for the purpose of entering a colloquy in the RECORD.

Mr. MELCHER. Madam President, I wonder if I could engage the chairman of the subcommittee in a colloquy.

We have a situation in Montana where through an error in calculation in impact aid funds some school districts with AA students are attributed to the schools in incorrect numbers. It causes a deficiency of impact aid funds for those particular schools.

The AA students are Indian students in public schools and because the calculation is miscalculated the funds are not adequate to meet the needs of the schools.

In this final determination, whether it is not to this bill but through another bill, including the continuing resolution, if those wrong numbers are still applied these particular schools on Indian reservations will be deficient in funds.

If that should occur, it will then become the obligation of the Bureau of Indian Affairs to contract out those particular students to other school districts.

With the impact aid, these particular public schools with more than 50 percent of Indian enrollment also receive assistance out of the school equalization funds from the State of Montana.

So it is advantageous for the Federal Government to have the impact aid and the combination of the State school foundation program aid go through these public schools.

I draw this to the attention of the chairman of this subcommittee now because if we do not have a correction of these incorrect figures at the time we have up the continuing resolution it will be necessary to have additional funds appropriated for the Bureau of Indian Affairs in order to provide the opportunity for education for these Indian students.

Mr. McCLURE. Madam President, will the Senator yield?

Mr. MELCHER. I am delighted to yield.

Mr. McCLURE. I understand the dilemma the Senator from Montana has is a dilemma I also have because the impact aid funds and the distribution of the impact aid funds are within the jurisdiction of the Subcommittee on Health and Human Services. That issue will be resolved with respect to the availability of impact aid money.

The other side of that question, however, is, as the Senator describes it, if we cannot resolve it appropriately there, then it may create an impact on matters that are within this bill.

We believe that there is adequate money within this bill to take care of that situation, although certainly if we impose more burden upon that particular fund for the responsibility of Indian students, then it will spread that available money more thinly, but we believe there is enough money to accommodate in the event that the other matter cannot be resolved in the other appropriations bill. If that should prove not to be the case, if it is not resolved appropriately in the other appropriations bill and if it should prove that there is not enough money to respond to whatever occurred there, then I would be happy to work with the Senator from Montana to try to adjust whatever we can do or take whatever action might be necessary at that time. But it is a little difficult for me at this time to say that I know what will happen. I cannot anticipate it that well, and we believe we can accommodate to whatever might occur within the funds that are provided in this bill.

Mr. MELCHER. I thank the chairman.

UP AMENDMENT NO. 1436

(Purpose: To delete $2.13 million from the Bureau of Land Management's coal leasing program)

Mr. BUMPERS. Madam President, I have an amendment at the desk and I ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The legislative clerk read as follows:

The Senator from Arkansas (Mr. BUMPERS) proposes an unprinted amendment numbered 1436.

Mr. BUMPERS. Madam President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 2, line 12, strike "$331,716,000" and insert in lieu thereof "$329,586,000".

Mr. BUMPERS. Madam President, in order to let my colleagues know the gist of this amendment, let me give you a little historical perspective.

The amendment deals with coal leasing, principally out in the Powder River Basin and other areas out West, all in Federal coal lands.

First, I point out that there are 16 billion tons of coal under lease in the United States right now—that is Federal coal—16 billion tons that the Department of the Interior has under lease right now. There are 565 existing leases, over half of which have not even had a development plan filed on them. In 1980, 68 million tons of coal were mined off Federal lands. As a matter of fact, in the entire United States, on Federal lands and all private lands—Virginia, Kentucky, North Carolina, West Virginia, as well as all of Pennsylvania, Illinois, and the western lands—800 million tons of coal were produced in the United States in 1980. In short, with the 16 billion tons of coal we have under lease right now, if we did not mine another ton of coal from any other lands except just Federal lands, we would have enough at current rates of consumption to last 25 years; and if we continue to mine at the present rates of 68 or 69 million tons a year off Federal lands, Federal coal under lease right now would last this country 200 years.

Despite that fact, last April the Interior Department leased 1.6 billion tons more coal. We can ask ourselves the question, and I wish to know the answer, because I do not, Why would they lease another 1.6 billion tons when we have 16 billion tons under lease and half of it does not have a development plan filed on it?

If that were the only question I would not be standing here right now. But in 1976 when we passed what we called the Federal coal leasing amendments, we included some provisions dictating how Interior would lease coal.

Mr. President, I want you to listen to the language. It says "Provided that notwithstanding the competitive bidding requirements of this section, the Secretary may, subject to such conditions which he deems appropriate, negotiate the sale at fair market value of coal," et cetera. "Fair market value" are the key words.

Later on in the same section it states:

No bid shall be accepted which is less than the fair market value as determined by the Secretary of the coal subject to the lease.

Here is the kicker which makes the Secretary a czar:

The Secretary prior to his determination of the fair market value of the coal subject to the lease shall give opportunity for and consideration to public comments on the fair market value.

And I want you to listen to what the Congress gave the Secretary the authority to do:

Nothing in this section shall be construed to require the Secretary to make public his judgment as to the fair market value of the coal to be leased or the comments he received thereon prior to the issuance of the lease.

In other words, the law says he must determine the fair market value and

not accept a bid less than the fair market value, but he does not have to tell anybody, including Congress, how he did it. He does not have to justify it.

Well, that is a very handy provision when you consider what happened on April 28, 1982. I will tell you what happened. The BLM decided to accept bids on 1.6 billion tons of coal. At the fair market value? No; in the past the BLM would never accept a bid unless it met what they called minimum acceptable bid level. "Minimum acceptable bid" level was fair market value. But just a few days before this 1.6 billion tons of coal were leased, the BLM changed the rules of the game. They had already determined that the fair market value of this coal was some $90 million under the old "minimum acceptable bid" requirement.

But just a few days before the lease, before the bids were to be received, they changed the procedure and said:

In the future the bid only has to be market "entry level."

Market entry level, what does that mean? God only knows. The House Interior Committee had hearings last year and repeatedly asked the Interior Department to justify this sale and to tell the committee what that market entry level meant. Well, in this case it meant a loss of more than $40 million to the U.S. Treasury because the bids that were accepted brought 40 percent less than the fair market value. There is not any question that issuing those leases was a violation of the law. The Coal Leasing Act of 1976 says that Interior shall not accept a bid for less than fair market value, and here they are blatantly accepting $40 million less than the fair market value that they had originally established for the coal.

Madam President, we can sit here and do nothing. We can say, "Ain't that awful?" or we can say, "Well, after all, the Secretary is a czar. We have no right to question him," or you can give the House Interior Committee the opportunity to investigate not just this sale but the whole determination of fair market value in BLM's leasing program.

Now, my amendment simply deletes $2.13 million from the appropriation for coal leasing, and that is the amount of money it would take Interior to lease at least another 2.7 billion tons of coal late in 1983.

I am telling you I do not want to release that land yet. All this amendment does is conform to the House bill which reduces the budget by $2.13 million and says, "You may not lease that coal in 1983, maybe early in 1984, after the House conducts its investigation on the way Interior is leasing coal lands."

I do not mind telling you that I have serious reservations about why should we be leasing land when we have got coal leases galore. There are 150,000 or 250,000 coal miners unemployed, and we have a glut of coal. Why would we be leasing lands except to accommodate the coal companies, and help them build their reserves?

They are not going to mine this coal. They cannot sell what they have now. If you think they can sell it, let me tell you what those bids brought in the Powder River Basin sale. Why, it is a national scandal. It is a shame for this body to have done nothing about this already: 1.6 billion tons were offered in 13 tracts; 2 leases did not even get a bid; 8 got 1 bid. I would have bid if I had known nobody else was going to bid. Three tracts got two bids; you cannot lease something when nobody bids—so they rejected those two no-bids; of the eight tracts that got one bid, and three that got two bids, they rejected one.

Do you know what the U.S. Government got for the coal? Do you know what the taxpayers of this country got for the coal which they own? An average on 1.6 billion tons of coal of 3.6 cents per ton. Why, of course, I would have bid; would not you, Senator? It is like buying a bird nest on the ground. You cannot beat a deal like that. One bid that was accepted brought 0.6 of a penny, 0.6 cents per ton.

I am just saying it is time to stop that nonsense. All I am doing here for the time being is saying let us adopt the same language the House has adopted and it will not be a conferenceable item.

In my opinion, the House is not going to recede to the Senate unless we adopt this amendment. Give the House Interior Committee an opportunity to explore this whole question about fair market value. So far as I am concerned, those leases ought to be declared invalid because they did not bring fair market value. Not one single soul who testified over on the House side from the Department of the Interior had the temerity to say that these leases brought fair market value. On the contrary, the evidence is overwhelming that they brought 40 percent less than the fair market value.

I say it is time to bring James Watt and the Interior Department to bay. Let us save ourselves $2 million and not go ahead with two more sales of another 2.7 billion tons of coal to help somebody build their reserves.

There is plenty of time to lease this coal. Coal is an important item in our energy future, and nobody denies that. We are going to have to dig it all some day. But if you just let it out for 3 cents a ton today, and the coal companies hang onto it for 20 years, 20 years from now coal will be $50 to $100 a ton, and the United States will have gotten the bountiful sum of 3 cents a ton for coal.

All I am saying is let us delay these two additional sales, and look into the program over the next year. If you think it is fine, then it will be fine. But if you do not, we will make some changes in the law. Madam President, I yield the floor.

Mr. McCLURE. Madam President, I rise in opposition to the amendment. I do not suppose there is any point in prolonging the discussion. I hope we can get to a vote relatively soon on it so that we can also resolve other matters that have to be resolved.

I rather imagine that nothing that is said on the floor on either side of this debate is going to change anybody's mind.

I know I have discussed this with the distinguished Senator from Arkansas a number of times in the past, and he points to a number of facts which, in his mind, justifies certain conclusions, and that is his prerogative to come to those conclusions. But there are other conclusions that can be derived from the same set of facts.

One of them is an irrefutable fact, again maybe not persuasive but an irrefutable fact. If we adopt the amendment, we will have denied to the taxpayers of this country the opportunity to get $12 million in bonuses that will be bid if these are put up for sale in 1983.

So to save $2 million we lose $12 million. That does not persuade me that that is a particularly good deal.

The Senator from Arkansas and I have discussed at various times in the past various methods of bidding for coal or other minerals, and the Senator has a strongly held view in respect to how we ought to bid on other matters, and I would agree with him in part that we ought to be trying some things that have been authorized that have not been tried with respect to oil and gas leasing.

But one of the things that is common to both of those questions is how much does the taxpayer get helped or how much does the consumer get hurt by bonus bidding itself?

Now, the Senator points to one in which there was six-tenths of 1 cent per ton bonus bid on one of those leases. And he will say—I do not think he said it today, but he did in the committee—what is the obvious fact, and that what is the upfront money is a very small part of the total amount we will recover from that resource. Regardless of what the amount of the bonus is, the real recovery for the taxpayer lies in the recovery of the mineral and the payment of the royalties for that mineral when it is recovered and sold. And whether it is 3 cents a ton or 10 cents a ton on the lease is just in infinitesimal part of the total recovery which we will get from the utilization of this resource when that coal reaches market.

So our objective, if we are really looking for objectives, ought to be to

get this to market at the lowest possible cost for the benefit of the consumers. There seems to be a little bit of thought on the part of some that you can separate the bonus bid from the cost to the consumer. As a matter of fact, the market is going to determine what that value of that coal is. The market is going to determine how much royalty is paid. And the amount that is paid up front in the bonus bid, if you apply that to the lease, is a small part of the total question.

When you look at one lease in which the bid was six-tenths of 1 cent, the Senator says there was only one bid and, therefore, it was obviously a giveaway. I think you can infer quite a different set of facts. One is that that is all it was worth and that nobody was much interested. Why else were they not bidding if it was worth more than that?

As a matter of fact, the Senator said, "Gosh, if I had known I could have gotten it so cheap, I would have been out there doing it myself." Aside from any conflict of interest question, it requires some money, I say to the Senator. Somebody has to put that up in advance.

Mr. BUMPERS. Will the Senator yield for a question?

Mr. McCLURE. I am happy to yield.

Mr. BUMPERS. If this is such a great deal for the coal consumer, why do we insist on $18 billion in bonus bids for OCS oil and gas leases? Why do we not give the consumer that kind of break on oil and gas? Why do you make the distinction between oil and gas and coal?

Mr. McCLURE. Mr. President, I thought I made that plain to the Senator before. I do not think bonus bidding does the consumer any good.

Mr. BUMPERS. But when do you make the distinction?

Mr. McCLURE. I do not want to make a distinction. I would just as soon do away with it in both cases. All bonus bidding does is help the big guys and hurt the little fellows. It means the big guys who have the money are the ones that can come in there and bid it away from all the little guys. That does not help the consumer, either. It simply concentrates the industry into the hands of fewer people. It decreases competition.

While you can say on a particular sale that this will maximize the return to the taxpayers right now, in the long run it does not maximize the return. In my opinion, it minimizes competition and, therefore, minimizes the return. But that is a separate issue.

Mr. BUMPERS. Will the Senator yield for one more question?

Mr. McCLURE. I am happy to yield.

Mr. BUMPERS. Take the Senator's argument and put the best face on it. If you are concerned about the consumer, why should we make a distinction between leasing Federal lands and private lands? For example, the House Interior Committee found that private coal in the Powder River area brought 18 cents, nearly five times as much as Federal coal brought in the Powder River basin sale.

Mr. McCLURE. Yes, I am happy to respond to that. I do not know all there is to know about every one of these leases. I am not an expert in that field, and I have not been out on the grounds, and I have not looked at the geological report.

But the Senator would certainly understand that the conditions under which you must mine determines the value—how thick is the bed of coal, how much overburden is there, what are the transportation problems, what is the disposal problem, all of those have to do with the value of the lease itself. And there are an infinite number of variables involved in that.

I am not going to conclude that because one lease had one price and another lease had another price that those variables are not justified. I think you can jump to that conclusion, but I think you would have to have better evidence than has been presented to us that that conclusion is justified. It is possible, but it is also quite possible that those variations are very well justified.

But, again, Madam President, I suspect that the minds on this matter were pretty well made up before we entered the debate. I hope that we can get to a vote on the matter very soon.

I see my colleague from Louisiana is on his feet, and I yield to him for whatever comments he has at this time.

Mr. JOHNSTON. I thank my distinguished colleague.

Madam President, the Senator from Arkansas is right on this amendment. The coal companies are not ready to mine this coal. What they are doing is acquiring large tracts of land—if these leases are allowed to be consummated—to acquire large tracts and put that in their bank at a very low cost.

If we wait, we do not hurt the consumer at all because this coal is not going to be mined in the meantime. What we will do, if we get to a better market condition later on, the taxpayer will get more for the coal which is owned by the United States. It is just as simple as that. In my view we ought to wait and not proceed with it and I would, therefore, support the Bumpers amendment.

Mr. McCLURE. Madam President, I hope the Senator from Louisiana will remember those words when we get to OCS, because if those words are correct in coal leasing, they are doubly correct with respect to OCS. I suspect my friend from Louisiana is going to eat those words before this is over because if there is anything about putting things into the bank, it has got to be the big oil companies that are bidding off shore.

Now, Madam President, there are reasons why it is to the advantage of the taxpayers of this country for the producers to have an inventory so that they can make their plans for future operations. There are reasons why coal is bid beyond current production plans. We have discussed this before. The leases are for less than the life of a plant.

Many times coal is leased in order to be available throughout the life of a plant, for a mined mouth utility plant as an example. And it can be argued that you had twice as much under lease as you intend to mine in the next 10 years is totally unjustified where, as a matter of fact, it is completely justified in order to put together the financing and operating package that makes it possible to put together the mining and the utilization plan.

So I do not think it is unjustified, but again I do not suppose we will change anybody's mind with respect to this discussion here today. I just hope that the amendment is rejected.

Mr. JOHNSTON addressed the Chair.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. JOHNSTON. Madam President, I should have begun my comments with the politician's prayer, which goes like this:

Oh Lord, let my words be tender and sweet for tomorrow I may have to eat them.

Mr. BAUCUS addressed the Chair.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Madam President, I wish to first thank the Senator from Arkansas for bringing up this amendment. The amendment applies basically to two areas of the country, the Fort Union Coal Region and the San Juan River Coal Region. Fort Union is in Montana and I can tell you, Madam President, that Montanans watch coal leases very closely. We are deeply affected by coal leases. On the one hand, we want coal to be produced and mined in Montana, to benefit Montana and the rest of the country. But, on the other hand, Montanans want to make sure the leases are fair to Montana, to producers, and to the U.S. Government and the taxpayers. We also want to make sure that coal leasing and mining are done responsibly, with appropriate environmental safeguards.

The Senator from Arkansas has stated the reasons for his amendment, which would conform with the House language that these two major sales should be temporarily delayed until the House investigation into the Powder River Basin sale is completed.

Madam President, I feel very strongly about this amendment. Last April, the Federal Government held the

largest sale of coal leases in history. The Interior Department sold over 1.5 billion tons of coal in the Powder River Basin of Montana and Wyoming.

The timing of this sale could not have been worse. Just 2 years ago, coal in that region sold for 15 to 20 cents a ton. But last April, the average price was only 3.5 cents a ton. Prices ranged from 8.2 cents to a paltry .07 cent a ton.

Coal mining activity has nearly come to a halt. Today only 8 percent—just 13 million acres—of Federal coal leasing land is being mined.

Yet, in April the Interior Department sold another 23,500 acres of coal land. And, because the price has fallen so dramatically the Federal Government sold some of its most precious natural resources at bargain basement prices.

I ask unanimous consent that a table showing the results of the Powder River Basin sale be printed at this point in the RECORD.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

RESULTS OF THE POWDER RIVER REGIONAL COAL LEASE SALE, APR. 28, 1982, CHEYENNE, WYO.

Tract name and bidder(s)	Acres	Tons (million)	Entry level bid	Bid (acre)	Total bid	Amount per ton (cents)
Little Rawhide Creek, Wyo.: Meadowlark Farms (AMAX)	530	90.0	[1] $13,600	$14,000.00	7,420,000.00	8.2
Spring Creek, Mont.: No bids	659	35.0	[1] 4,200			
Spring Draw, Wyo.: Shell Oil Co.	3,687	323.0	[1] 7,000	7,025.00	25,901,175.00	8.0
North Decker, Mont.: No bids	1,431	66.0	[1] 2,300			
Rocky Butte, Wyo.: Texas Energy Services/Northwest Mutual Life	4,856	445.0	[1] 2,300	2,300.00	11,168,800.00	2.5
Duck Nest Creek, Wyo.: Meadowlark Farms (AMAX)	1,154	143.0	[1] 3,100	3,125.00	3,606,250.00	2.5
Keeline, (Wyo.: Rosebud Coal Sales (NERCO) Neil Butte Co.[2]	3,238	170.0	[1] 25	498.00	1,612,524.00	.9
				[2] 500.00	[2] 1,619,000.00	
Coal Creek, Mont.: Coal Creek Mining Co., Wesco Resources [2]	1,033	60.0	[1] 25	330.00	340,890.00	.58
				[2] 340.00	351,220.00	
Colstrip A & B, Mont.: Western Energy (Montana Power Co.)	1,633	58.5	[1] 25	25.50	41,641.50	.07
Colstrip D, Mont.: Western Energy (Montana Power Co.)	2,250	43.5	[1] 25	25.50	57,375.00	1.3
Colstrip C, Mont.: Western Energy (Montana Power Co.)	893	18.9	[1] 25	25.50	22,771.50	1.2
West Decker, Mont.: Montana Royalty Co. (NERCO)[2] Neil Butte Co.	40	5.0	[1] 25	[2] 500.00	[2] 20,000.00	.4
				490.00	19,600.00	
Cook Mountain, Mont.: Thermal Energy (Washington Energy Co.)	2,096	178.0	[3] 2.5	[3] 2.5	4,450,000.00	2.5
Total					54,658,000.00	[3] 3.56

[1] In dollars per acre. [2] Apparent high bidder. [3] Cents per ton equals average bonus bid. Source: Western Organization of Resource Councils.

Mr. BAUCUS. Only a few bidders showed up at this sale, despite the low prices. There was more than one bid on only 3 of 13 tracts. And these three tracts brought bonus bids 13 to 20 times higher than the entry level bids set by the Interior Department for other tracts.

If we are going to sell Federal mineral leases, it is critically important that the Federal Government get top dollar and that true competitive bidding takes place. That is just good, sound management.

In addition, however, there have been allegations that Interior Department bid levels were improperly leaked to coal industry officials and that subsequent outside pressure led to the Department's sudden decision to reduce the minimum acceptable bid levels from $94.7 million to $52.5 million.

The Powder River sale raises some disturbing questions. It looks very much like the United States threw open the doors to the Federal Treasury and invited the coal industry to help themselves.

The purpose of the amendment before us now is to prevent this from happening again. The House Appropriations Committee has begun an investigation of the management of the Federal mineral leasing program—in response to the charges of impropriety in the Powder River Basin sale.

It is just commonsense to wait until that investigation is complete before we proceed with the next scheduled coal lease sales: in the Fort Union coal region, also partly in Montana, and the San Juan River coal region.

Such a delay would cause no hardship. There is a glut in the coal market already. Delaying these sales will not affect any current production facilities or interfere with any production or delivery contracts.

Delaying these next sales until the 1984 fiscal year will give Congress time to examine the coal leasing program so that we do not repeat the Powder River Basin giveaway.

Montanans understand all too well the value of protecting our precious natural resources. Nothing could be more shortsighted than squandering these reserves.

I think that the colloquy between the Senator from Arkansas and the Senator from Idaho adequately describes the vastness of the areas in this scheduled sale. We do not have enough information to judge whether the Powder River sale was properly conducted, or to know if similar mistakes are likely to occur in the next major sales. That is all the more reason for waiting for the investigation, to find out what the facts are, to find out whether the Interior Department has the facts concerning these resources and the taxpayers' revenues or whether it does not.

In listening to the Senator from Idaho, I must be candid and say I have heard no good reason to oppose this amendment. I did not hear any solid argument as to why we should oppose the amendment of the Senator from Arkansas to temporarily delay these sales.

I am also gratified to see the Senator from Louisiana (Mr. JOHNSTON) support the Senator from Arkansas. It is a strong leadership position which he has taken. I compliment the Senator from Louisiana in supporting the amendment of the Senator from Arkansas. I urge my colleagues to join us in supporting a temporary delay so Congress can insure the proper long term management of these precious resources.

I again thank the Senator from Arkansas on his offer of a very sound amendment.

Mr. BUMPERS. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. BUMPERS. Madam President, there is one further point I want to make. That is that this amendment does not interfere with BLM's other coal permitting activities, or, unhappily, does not preclude the Interior Department from proceeding to process 170 applications for prospecting and leasing that were filed prior to the coal lease amendments of 1976. Those cover 6 billion tons. So there are 6 billion tons that may be leased simply because we grandfathered those applications in, in the 1976 law. Those leases may be processed and let and they cover 6 billion tons even if we adopt the amendment.

Mr. MELCHER. Madam President, I want to support this amendment and I want to make clear why I am supporting it.

We have looked at this in Montana for at least a year. Indeed, the appropriate subcommittee of the Committee on Energy and Natural Resources did hold a public hearing in Billings prior

to the Powder River coal lease sale. That was in February.

It became very clear to me in February that the Secretary of the Interior was proposing to sell too much coal.

When we use this term sell, I should make clear that what the Secretary does is ask for bids on leases. It is a bonus bid that we are talking about, generally, when we say sell. They do not sell the coal outright. They issue a lease and the bonus bid price is the term that comes in, the vernacular, I guess, to describe this in applying the word sale.

But as a result of the public hearing at Billings I strongly recommended to the Secretary of the Interior that they greatly reduce the amount of coal that would be put up for bid and tie it into something that was sensible. They have always had too much speculation in the bidding on coal leases in Montana and other Western States over the past 15 or 20 years. There is no need to encourage it further.

The Secretary of the Interior subsequent to the date of the lease sale had reduced the amount of coal that would be put up for bid, but it was still way too much.

Before there is any more of this coal in Montana put up for bid, as far as I am concerned, I want to find out why they are putting it up for bid. It ought to be clearly understood by Members of this body that in ongoing operations, where there is actually a mining operation in effect, where there are workers there and people are actually mining coal, the leases that they get for additional coal can be arranged for under different provisions of the law, and are routinely arranged for, by the Secretary of the Interior in order to keep the operation going. That is a separate matter.

What we are talking about here is saying to the Secretary of the Interior, and the BLM in particular, do not go ahead and prepare any more coal lease sales. There is an abundance of coal already available and being mined. That is one thing. Second, there are a lot of leases that are out right now, which have already been granted for coal production to the holders of their leases, and there is development of the coal going on at this time.

I think the House in adopting the so-called Yates amendment for this same amount was wise in doing so, and I think the Senator from Arkansas in proposing that the Senate track with that amendment exactly is also very wise. I commend him for doing so. I support the adoption of the amendment.

I would say, Madam President, that unless this amendment is adopted we might be discussing this matter for some time. I am delighted that we have asked for the yeas and nays and that the yeas and nays have been ordered because I think it is wise to have a record vote on this, but if it is not granted it will cause some of us some concern about what would be the outcome in the conference committee. Without this prohibition, some of us are going to have a lot of trouble accepting this bill or conference report.

Mr. BUMPERS. Madam President, I am prepared to vote.

Mr. McCLURE. I am prepared to vote.

Mr. JOHNSTON. I wonder if we can stack these votes to a later time. We are about to run out of time.

Mr. BUMPERS. Madam President, I have been told that there is a possibility the majority leader would request that we extend the time into the normal caucus time. I do not know whether that request is about to be made or not. Can the floor manager advise us?

Mr. McCLURE. I thank the Senator for his comment. While we are trying to clarify that situation, I wonder if we can temporarily set aside this amendment and proceed to the consideration of another matter. Perhaps at the time we conclude that we will know how to proceed on this.

Mr. BUMPERS. That will be fine.

Mr. McCLURE. Madam President, I ask unanimous consent that the pending amendment be temporarily set aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCLURE. Madam President, I believe the Senator from Minnesota had an amendment that he wished to offer.

UP AMENDMENT 1437

(Purpose: To appropriate funds to carry out the study of the Study Committee established pursuant to Public Law 96-607)

Mr. DURENBERGER. Madam President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Minnesota (Mr. DURENBERGER) proposes an unprinted amendment numbered 1437.

Mr. DURENBERGER. Madam President, I ask unanimous consent that further reading of the amendment be disposed of.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 13, line 8, insert before the period ", of which $150,000 shall be available to carry out the study pursuant to title IX of Public Law 96-607 (94 Stat. 3542)".

Mr. DURENBERGER. Madam President, for many years before I came to the U.S. Senate, I have been trying to make sense out of the expenditure of public moneys at various levels on a project in the Twin Cities. This amendment would make available out of the appropriately authorized funds the sum of $150,000 to facilitate a study which is already underway in the community.

Mr. McCLURE. Madam President, the amendment makes available within the funds that are available the amount of money that would go into this study. It is not contained in the House bill. I have discussed the matter with the Senator from Minnesota. I do not know what the disposition might be when we get to conference.

However, I have no objection to suggesting that this study go forward in this context and taking it to conference to see what the disposition might be by the conferees.

I am prepared to accept the amendment.

Mr. JOHNSTON. Madam President, we shall accept the amendment as well.

The PRESIDING OFFICER. It will require unanimous consent to extend the Senate session beyond the hour of 12 o'clock.

Mr. McCLURE. Madam President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. McCLURE. Is it within the existing rule to suggest the absence of a quorum?

The PRESIDING OFFICER. It will take unanimous consent to extend the session beyond the hour of 12 o'clock.

UNANIMOUS CONSENT AGREEMENT

Mr. McCLURE. Madam President, I have consulted with the distinguished minority leader, the Senator from West Virginia (Mr. ROBERT C. BYRD). I ask unanimous consent that we be permitted to continue the discussion of the pending legislation until 12:30 p.m.

The PRESIDING OFFICER. Is there objection?

Mr. ROBERT C. BYRD. Reserving the right to object, Madam President, could we have any votes that might be ordered during that half hour stacked after the recess?

Mr. McCLURE. I shall include that within the request, that whatever rollcall votes are ordered be deferred until the hour of 2 p.m. and that they occur sequentially at that time.

Mr. ROBERT C. BYRD. Further reserving the right to object, I understand that the yeas and nays have been ordered on the amendment by Mr. BUMPERS. Could it be the first vote at that time?

Mr. McCLURE. Yes, it could be the first vote at that time and whatever others might be ordered between now and 12:30 would occur after the vote on his amendment and prior to passage of the bill.

Mr. ROBERT C. BYRD. I have no objection.

Mr. McCLURE. I have consulted with the majority leader and he has no objection to this arrangement.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. JOHNSTON. Madam President, I wonder if we might inquire how many other amendments there are?

Mr. DURENBERGER, Will the Senator yield for the purpose of moving this amendment?

Mr. JOHNSTON. Yes.

Mr. DURENBERGER. Madam President, I move adoption of my amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Minnesota.

The amendment (UP No. 1437) was agreed to.

Mr. DURENBERGER. I move to reconsider the vote.

Mr. McCLURE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

THE CALIFORNIA COASTLINE

Mr. CRANSTON. Madam President, I am afraid the Senate is about to send to conference language that was written to protect the California coastline from Secretary of the Interior James Watt, but which, in fact, would have the exact opposite effect, because it covers none of the tracts Secretary Watts now wants to lease for oil and gas drilling. I hope those of my colleagues on both sides of the aisle who are conferees for the Senate appropriation bill, as well as Members of the other body, will take the time to study this matter briefly:

I have tracked carefully the progress of the Interior appropriations bill as it moved through the other body.

I have watched it carefully as it progressed through the Senate Interior Appropriations Subcommittee and through the full Senate Appropriations Committee.

I have been following closely a provision known as the AuCoin amendment added in the other body.

That provision brings current and extends for 1 year an amendment enacted by Congress to last year's Interior appropriations bill banning oil and gas leasing on a carefully delineated portion of the Outer Continental Shelf off the northern and central California coastline.

My colleague from California (Mr. HAYAKAWA) and I support the present AuCoin amendment in the form in which it passed the other body this year.

I deeply appreciate the efforts of the Senator from Idaho (Mr. McCLURE) to help protect the California coastline by adding a substituting amendment to the Senate version of the Interior appropriations bill using not this year's but last year's AuCoin amendment. I am very glad he agrees that this area deserves protection. Unfortunately this Senate language had little or no discussion in subcommittee or full committee, before it was adopted.

Neither I nor my colleague from California (Mr. HAYAKAWA) sit on that committee. And, regrettably, I was not able to explain these committee amendments to my colleagues before they were adopted by the committee. I want now to explain to the Senator from Idaho and my colleagues that the language which this body passed last year—which made sense last year—no longer is useful to protect the California coastline. It now means nothing. The language needs to be changed to protect the coastline. It needs to be changed to the language which the House has adopted this year.

When last year's AuCoin amendment was adopted, it covered 100 percent of the tracts up for leasing in the limited area we are concerned about. That is, only certain tracts in four arbitrarily designated basins were being considered for immediate sale. The language referring to the four Northern basins covered all the tracts in those four basins then proposed for lease sale.

But, since then, Madam President, Secretary of the Interior Watt has proposed to lease nearly all of the area off the northern and central California coastline except those tracts. Many of the new areas make even less sense as subjects for OCS leasing than the previously excluded tracts because they involve deeper water, rougher conditions, even lower oil and gas resource estimates, and greater environmental risks.

The spectacular, scenic and unspoiled area we are talking about contains much of the Nations's most beautiful remaining shorelines: San Simeon, Big Sur, Monterey Bay, the Farallone Islands, Point Reyes National Seashore and the Mendocino Headlands, to name just a few of the highlights.

None of the House-passed language would prevent oil and gas recovery from the new big oil strike in the southwestern portion of the Santa Maria basin, the fifth basin.

The southern Santa Maria basin is an area in which I have consistently supported drilling because the potential resource is very large and the environmental risk small. But the northern part of the Santa Maria basin and the remaining area which Senator HAYAKAWA and I both desire to protect contains little known oil or gas, and drilling would threaten precious coastal scenery, the fishing and crabbing industries, the tourist industry, threatened marine mammals, and some of the Nation's most valuable seashore.

Allowing Federal leases here is inconsistent with California's federally approved coastal zone management plan.

And Federal law requires consistency. All leasing activity yet attempted in the area which the House language protects has been enjoined by the Federal district court in a decision approved by the Ninth Circuit Court of Appeals.

Yet Secretary Watt continues to try to get at it.

Now the Senate sends to conference language apparently written to protect the coastline from Mr. Watt, but which, in fact, would have the exact opposite effect because it covers none of the tracts Mr. Watt now wants to lease.

I hope those of my colleagues who are on this conference, as well as Members of the other body, will take the time to study this matter briefly.

If they do, I believe the Senate will—as it should—recede from its position in conference and accept the House language.

Nor should anyone be fooled by a so-called compromise proposal which the Interior Department is promoting, which would threaten Big Sur with oil spills by drawing a line in an entirely new place, without environmental assessment, hearings or any study at all.

The appropriate place is exactly where the House drew it, and I ask my colleagues to recede, when this matter gets to conference.

ALASKA LANDS BILL AMENDMENT

Mr. LEVIN. Madam President, I am wondering if my friends from Idaho and Louisiana might engage in a brief colloquy with me on a matter I raised last night. I am very much troubled by the amendment to the Alaska lands bill which is incorporated in this bill, as they know. Last night, there was a ruling of the Chair that section 108 would be subject to a point of order on the grounds that it is legislation on an appropriation bill. I did not make the point of order last night. I understand that there could be a possibility that if such a point of order were raised, there could be a defense of germaneness raised on a threshold basis at best. I am not sure I want to get into that area at all.

I do, however, hope that my friends will consider, during this lunch hour, the possibility of withdrawing section 108. If that remains in the bill, it is going to precipitate a lengthy debate on the Alaska lands bill and the balance that was reached on that bill on the very issue that is incorporated in section 108.

I know what my friends are trying to achieve and, frankly, I would like to help them move toward the goal of saving that money, $60 million or so, provided we can do so in a way which is environmentally the safest way of proceeding. Going back into the history of this bill last night after our colloquy, I was absolutely convinced that the delicate balance which was described last night was intended by the persons who voted on this bill and who

proposed the language which would be changed. I hope that the managers of this bill would see fit to withdraw section 108 and, if they do so, I can assure them that I shall work with them on legislation which would be brought up as a separate bill to try to achieve the goal that they are trying to achieve, which is the saving of $60 million.

I have some sympathy for what they are trying to do with that legislation. I want to be sure, however, that if we do give an incentive to private enterprise to go out there and explore, they go on the most environmentally safe and secure methods possible.

Again, I simply want to put them on notice that if 108 stays in this bill, it does amend the Alaska lands bill. If it does stay in there, I believe it will precipitate a lengthy debate and I hope they will see fit to withdraw that section over the lunch hour.

Mr. JOHNSTON. Madam President, let me be clear about the effect of the parliamentary threat, if that is the word for the statement my friend from Michigan has just made.

If this bill goes down, which, of course, it surely will if the matter is filibustered, we do not go to conference on this bill and, in effect, we have the House bill in the continuing resolution. That means that all the work the Senate has done, including projects like Sleeping Bear, for example, all go down the drain. If the Senator from Michigan wishes to do that after all the work many of us have put in, much of it on his behalf, the threat is not going to deter me, and the Senator can do just whatever he is legislatively big enough to do.

As far as trying to work out this matter, I have certainly tried to work it out. My staff has worked on it. What I have been advised is that, instead of just having something that is environmentally safe, which we are all for, the Senator wants to say, you cannot explore unless you use helicopters and you cannot use the kind of things that are used everywhere. That is tantamount to saying you shall not explore Alaska at all.

In the Alaska lands bill, Congress clearly intended, mandated, that Alaska be explored. We are not changing at all the mandate that there be safe exploration of Alaska. We are not changing that standard at all. All we are saying is that if someone goes in and spends time and money in acquiring information, anyone who gets that information cannot use it to bid against them, in effect. To me, that is entirely reasonable and it has nothing to do with the environmental standards.

All I can say is if the Senator wishes to make his point of order, that is certainly within the rules and I think is entirely kosher and, indeed, we will raise the defense of germaneness, because it is plainly germane to section 305 of the Senate bill. We shall let the Senate work its will on that. If the Senate sustains the Senator from Michigan, he wins. If the Senate overrules him and he wishes to filibuster, as far as I am concerned, that is his right under the rules.

Mr. LEVIN. Madam President, I thank the Senator from Louisiana. Let me first say that on November 10, five Senators wrote Secretary Watt about this subject. We have not gotten a response from the Secretary—now more than a month later—although we said we looked forward to his response in that letter. This is a subject which has been debated at length during the consideration of the Alaska lands bill as to what degree of environmental protection should be given to the Alaska range. I happen to be the cosponsor of that amendment with Senator NELSON. I should like to briefly read so the Senators from Louisiana and Idaho can understand.

I am not trying to make a technical objection for the purpose of leverage. I am trying to point out to the Senators and the Senate that this was a much-debated subject at that time and we are changing the deal on an appropriation bill, a deal that was made in the Alaska lands bill.

This is a question by Senator NELSON of Senator JACKSON, who was manager of that bill:

> May I conclude therefore that it is intended that the seismic exploration program will be carried out using the least environmentally harmful techniques? And may I conclude further that the guidelines developed for the seismic program will adopt from the findings of the preliminary study not only those seismic techniques with least adverse environmental effect, but also the conditions such as time period, location of support facilities, et cetera, under which they can be employed safely?

That was the question by the prime sponsor of the amendment. Senator JACKSON answered:

> Yes; the Secretary is given discretion and we would expect him to include in the seismic exploration program those stipulations that will provide the highest level of protection to the fish and wildlife in their habitat * * *.

The highest level of protection.

Now, the committee is seeking, in effect, to increase the amount of exploration that will be done there over what otherwise would occur. That is clear. There will be additional exploration because of this amendment.

Mr. McCLURE. Will the Senator yield on that?

Mr. LEVIN. I shall be happy to.

Mr. McCLURE. I think it might be well stated in the reverse, that what we are trying to do is make certain that the exploration that is conducted is conducted under rules which it can genuinely occur. I do not see us changing the rules or modifying the conditions, because everything the Senator has referred to as applicable now would be applicable if the language remains in the bill. If, on the other hand, there are those who wish to seize upon the restriction, the natural restriction on the availability of information to artificially restrict that which was agreed upon earlier, then I think I would understand.

What we are trying to do by the change in the language—of which I am not the author, by the way—is to make certain that the intent of the Congress as expressed in the Alaska lands bill is carried out. There is something that is frustrating the will of the Congress and we are trying to make certain that that does not frustrate it.

There are those who want to frustrate the will of the Congress. They want less exploration carried out than was contemplated by Congress when we passed that bill. I can understand. That is a legitimate point of view. There are those who did not want us to explore in the Arctic Wildlife Refuge at all and if, by any stratagem, they can restrict it, they will do so. I understand that motivation. It is an honorable motivation. But that is not what Congress had decided.

So I think I am saying what we are trying to do is get more done. The failure to do this would be unbalancing it on the side of those who want less done.

Mr. LEVIN. I think the Senator might also agree that it was also the intent of the Congress, expressed by the Senator from Washington, the manager of the bill, that this exploration would be done with the technique with least adverse environmental effect.

Those are the words I am trying to add to the committee amendment. If the committee would agree that persons who go in there, who can protect information from being shared with their commercial competitors—and I can understand why the Senator says that, and it makes sense to me. If he would simply add to that the other part of the intention of Congress, that provided that they used techniques Senator NELSON talked about and the manager of the bill agreed to, "techniques that would have the least adverse environmental effect," I would be happy to go along with it.

Mr. McCLURE, I think the legislation is clear both in the original and in the enactment, and ought to be clear here now that it is not our intention to change from that expression by the Congress in the first instance. But there is a difference between legislative history that uses these words in the context of a discussion of what is intended and writing them into the statute where they become proscriptive. They can then be used in a different manner than they can otherwise be used.

I want to leave that issue of least environmental damage in exactly the same context that it was when we passed the bill—neither enhancing it nor diminishing it. That I think we can do and have done by this colloquy. I hope that the Senator would be satisfied with that legislative history that indicates a very clear intention not to depart from that standard which was established during and in the passage of the Alaska lands bill and expressed in it.

Mr. LEVIN. If my friend would yield on that, however, the difficulty with that is that about a month ago, five of us wrote to the Secretary challenging some preliminary regulations on this precise point and have not even received a response from the Secretary of the Interior. So if the Alaska lands bill is going to be amended on an appropriation bill, we would like the legislative history, which we believe is not being carried out by the Secretary of the Interior, to be clarified on this bit of legislation.

Mr. JOHNSTON. Will the Senator yield on that point?

Mr. LEVIN. Yes; I yield.

Mr. JOHNSTON. The report accompanying the Alaska Lands Conservation Act is very clear on two points: First, that the Secretary must carry out the exploratory program and must report to the Congress within 5 years after enactment. The difference here is that if they can get no private parties to do the exploration, then the Secretary must, himself, do it. So it is very clear in the legislation that the exploration must be done.

It is also very clear that the guidelines—quoting here—"shall insure that exploration does not significantly affect fish, wildlife, or their habitats or the environment, with special consideration given to caribou calving and postcalving seasons."

It further provides for an environmental impact statement.

We are not derogating one whit or jot or tittle from those very strict requirements. I suggest to the Senator that all we are doing is making a provision workable that Congress intended to be workable in the first place.

Mr. LEVIN. I am happy to work with my friend to make it workable, but I at the same time feel that we should carry out the intent of Congress on this very critical point.

This was stated on the floor in August 1980. I am wondering if my friend from Louisiana can give me the date of the report he just read from.

Mr. JOHNSTON. It is from the legislative history of Public Law 96-487. I do not have a date from that. But I have a copy if the Senator wishes to see it.

Mr. LEVIN. I think the latest statement of congressional intent as stated by the manager of the bill and the maker of the amendment here on the floor was August 18, 1980.

I believe the report the Senator is referring to was somewhat earlier, I believe, November 1979.

But the standard which the Senator referred to is a slightly different standard. It is not significantly different from the standard which was quite clearly tentatively adopted by the Senate.

All I am trying to do here is to make it practically possible for what the committee wants but at the same time to be sure that the congressional intent stressed on the floor in August 1980 is also carried out.

If I could just summarize, I believe that the congressional intent is as stated by the Senator from Idaho, that there was an intent here that private companies could assist in this project. I believe that is part of the congressional intent, and we should make that workable, but I also believe it was the congressional intent, as I have read from the floor in a very clear colloquy, that this exploration be done with the least adverse environmental tactics.

I wish to work with the Senators to achieve both of those intents.

I am not trying to thwart the first intent of the Senator from Idaho or Senator from Louisiana that we permit this. I am trying to accomplish both senatorial intents.

Mr. McCLURE. Madam President, let me say to my friend from Michigan, I do not want to be misunderstood and I do not want the RECORD to be ambiguous on this point later.

Congress expressed its intention when Congress passed the Alaska lands bill. What that intention was, must be derived from the entire record, the words that are contained in the statute, the reports that came from authorizing committees, and the actions on the floor. What I am trying to say to the Senator from Michigan is that we do not intend to subtract from, and it would not be my intention to add to or vary from, in any way what the provisions were in the Alaska lands bill.

I say that because I do not want the RECORD to indicate that the reading of one colloquy is all of the legislative history, and my statement that we are accepting what the intention was of Congress should not be read in the context just of the one colloquy. It is the total of all of the legislative history of that piece of legislation.

As I view the problem that we have here, there are some who think that the Secretary of the Interior may not in the future follow what was the congressional intent and the legislative language and they wish now to mandate their own view of what that intention was upon the Secretary even before he has failed to follow it.

A little bit earlier, the distinguished Senator from Ohio quite properly remarked that there should be a little bit of a tendency around here not to try to legislate where matters are before the court in order to solve the court suit. How much less appropriate it is for us to try to anticipate some perceived wrongdoing on the part of someone and preemptively strike before they have taken any action?

Mr. LEVIN. Madam President, will the Senator yield on that?

Mr. McCLURE. I yield.

Mr. LEVIN. I could not agree with him more, that we should not try to predict what the Secretary is going to do. In this case, five of us have written the Secretary 1 month ago after the Secretary has acted, raising questions about his action, and cannot even get a response to our letter.

Mr. McCLURE. I am not acquainted with the letter or the contents of it, and I understand that the Senator wishes to have an answer. The Secretary does not do what I ask him to do in every instance, although we have had some amiable conversations at various times.

I would be pleased to suggest to him that he answer the Senator's letter, and if that will help any, we will try to get that response.

I am sure that dialog with respect to the operations and the exploration up there is not one that has ended. It has not ended with the action that he has undertaken. It will not be ended by the Senator's letter. It will not be ended by his response to the Senator's letter.

That is an ongoing evolution of the administration of a law which is on the books now which, in my opinion, should not be disturbed by an attempt to prescriptively write the rules here on the floor of the Senate.

Mr. LEVIN. Madam President, one other factor, if I may throw it into this pot, is last night we also went back and scratched our memory about some other parts of this congressional intent. Interestly enough, some of us actually remember that the requirement to share information was viewed at the time as a way of keeping the amount of exploration down to a reasonable level. That is not a quirk necessarily. Some of us actually remember that at the time when we said, should we open this to private exploration before we decide whether to lease it or do we want the Geological Survey to do the exploration? The first step was, yes, let us let the private folks go in there. There was some doubt about that. There were some real doubts whether it should be allowed at all. The compromise was; yes, we will let them in providing they share information so that we can keep down the amount of exploration.

We have not decided to open this up to oil and gas leasing. We are supposed to be deciding here whether or not to do it, not where to do it, but whether or not to do it.

What my friend points out is not necessarily just a quirk of statutory history here. There were some at least who viewed this as a good way of restricting the amount of private exploration.

Let me at this point read into the RECORD the letter of November 10, 1982, to Secretary Watt. This was a letter sent to the Secretary by myself, Senators BUMPERS, CRANSTON, HART, and TSONGAS. Senator TSONGAS was the principal author of the final substitute on the Alaska lands bill, and I was cosponsor of the Nelson amendment, which is really what we are talking about here on the coastal range.

This is a letter dated November 10, 1982:

U.S Senate,
COMMITTEE ON ENERGY
AND NATURAL RESOURCES,
Washington, D.C., November 10, 1982.

Hon. JAMES G. WATT,
Secretary , U.S. Department of the Interior, Washington, D.C.

DEAR MR. SECRETARY: As you are aware, the Senate's consideration of the Arctic National Wildlife Refuge was an arduous procedure, and we are committed to seeing that the intent of the Senate as stated in the Alaska National Interest Lands Conservation Act (ANILCA) is met in managing this important resource. After reviewing the proposed regulations for the geological and geophysical exploration of the coastal plain of the Arctic Refuge (47 FR 41060, September 16, 1982) we would like to bring to your attention some problems that could be corrected if modifications are made before the final regulations are promulgated.

We would first like to reiterate the intent of Congress that any decisions to permit oil and gas development in the coastal plain would be made only after careful exploration demonstrates that such development can occur without damaging the area. Unfortunately, the draft regulations appear to assume that development will be allowed. We fear that the draft regulations bias the case in favor of oil and gas development, and we hope that the final regulations will make it clear that a decision regarding development will not be reached before 1985.

We had expected that the regulations would include very specific requirements to assure that any exploration activity would have only the most limited effect upon the coastal plain. We had also expected that the standards would be based upon the information gathered for the required environmental impact statement. The draft regulations do not contain such requirements or standards. The burden should be placed on an applicant to prove that exploration can meet strict environmental standards and therefore exploration should be allowed. Instead, however, the burden now rests with the Department of Interior to determine that an exploration plan is unacceptable, and the agency may find it difficult to refuse to grant a permit to an applicant who can fulfill the vague requirements established in the draft regulations. For example, 37.21(d)(11) requires the applicant to include only a "general description of the anticipated impacts that the proposed exploratory activities may have on the refuge's wildlife, its habitat, the environment, subsistence uses and needs and cultural uses." This is clearly insufficient. The regulations should be changed to include specific standards for acceptable impacts based on information gathered from the EIS and the baseline study. Failure to include such standards would be inconsistent with clearly-expressed legislative intent.

Similarly, in 37.31, the responsibility is improperly placed on the applicant, rather than the Department, to determine which equipment and activities are appropriate. For example, 37.31(b)(4) states that "above ground explosive charges shall be utilized in a manner to minimize damage to the vegetative mat." We understand that the draft EIS contains specific recommendations defining adequate ground cover and the types of explosives that best minimize environmental damage. More specific requirements should be included in the final regulations.

We are also concerned that the proposed regulations concerning suspension and modifications of activities (37.34) do not require the Director of the Fish and Wildlife Service to suspend any activities that would significantly adversely affect the refuge's wildlife. The Department will need sufficient discretion so that small infractions of the rules could be rectified and plans modified without requiring an applicant to forfeit a permit. However, the Act cannot reasonably be interpreted to allow work to continue under any permit while the permittee is not complying with the approved plan, or when exploration activities are causing significant damage to the refuge. To meet the statutory requirements of the ANILCA, the Department should be required to suspend the permit under these conditions, and the regulations should make that clear to all potential applicants.

We understand from 37.12(a) that additional stipulations not included in the draft regulations may be included in permits before exploration is allowed to take place. While many such stipulations will be site specific and cannot be listed in the regulations, it is important to describe in the final regulations the kinds of stipulations which might be imposed. Doing so would inform potential applicants of their responsibilities, protect the public interest in maintaining the standards set forth in the Act, and ensure that the question of allowing oil and gas development in the Arctic coastal plain is not prejudiced by unnecessary environmental damage or determined until more information is available.

We cannot emphasize too strongly the need to protect the coastal plain until such time as the Congress can determine whether oil and gas development should be allowed. We hope that you will consider our comments carefully, and we look forward to your response.

Sincerely,

CARL LEVIN.
DALE BUMPERS.
ALAN CRANSTON.
GARY HART.
PAUL TSONGAS.

Mr. MELCHER. Mr. President, will the Senator yield to me?

Mr. LEVIN. I would be happy to yield to the Senator from Montana.

Mr. MELCHER. Mr. President, I ask unanimous consent that an amendment can be submitted to UP amendment No. 1433, as modified.

The PRESIDING OFFICER (Mr. ARMSTRONG). Is there objection to the Senator's request?

Mr. McCLURE. Mr. President, will the Senator restate it or will the Chair restate the request?

Mr. MELCHER. I ask unanimous consent that an amendment can be offered to UP amendment No. 1433, as modified.

Mr. McCLURE. Mr. President, parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state his inquiry.

Mr. McCLURE. Under the existing unanimous-consent request we are to recess at 12:30 p.m. to return at the hour of 2 p.m., and the pending matter at that time would be the rollcall on the Bumpers amendment; is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. McCLURE. Mr. President, I ask unanimous consent that the amendment to be offered by the Senator from Montana with respect to certain modifications to the wilderness withdrawal language be in order following the Bumpers amendment. I am trying to accommodate all Members within the constraints of the unanimous-consent agreement that we have.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Montana? The Chair hears none, and it is so ordered.

RECESS UNTIL 2 P.M.

The PRESIDING OFFICER. Under the previous order, the Senate now stands in recess until 2 p.m.

Whereupon the Senate at 12:32 p.m. recessed until 2 p.m., at which time the Senate reassembled when called to order by the Presiding Officer (Mr. ANDREWS).

The PRESIDING OFFICER. The Senate will come to order.

VOTE ON UP AMENDMENT 1436

Under the previous order, the Senate will proceed to vote on the Bumpers amendment.

The question is on agreeing to the amendment. The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. STEVENS. I announce that the Senator from Arizona (Mr. GOLDWATER) and the Senator from Maryland (Mr. MATHIAS) are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Colorado (Mr. HART) is necessarily absent.

I also announce that the Senator from Arizona (Mr. DECONCINI) and the Senator from New York (Mr. MOYNIHAN) are absent because of illness.

The PRESIDING OFFICER. Are there any other Senators in the Chamber wishing to vote?

The result was announced—yeas 47, nays 48, as follows:

[Rollcall Vote No. 404 Leg.]

YEAS—47

Baucus	Eagleton	Melcher
Bentsen	Exon	Metzenbaum
Biden	Ford	Mitchell
Boren	Glenn	Nunn
Bradley	Heflin	Packwood
Bumpers	Hollings	Pell
Byrd, Harry F., Jr.	Huddleston	Percy
Byrd, Robert C.	Humphrey	Proxmire
Cannon	Inouye	Pryor
Chafee	Jackson	Randolph
Chiles	Johnston	Riegle
Cohen	Kennedy	Sarbanes
Cranston	Leahy	Sasser
Dixon	Levin	Specter
Dodd	Long	Tsongas
	Matsunaga	Zorinsky

NAYS—48

Abdnor	Gorton	Nickles
Andrews	Grassley	Pressler
Armstrong	Hatch	Quayle
Baker	Hatfield	Roth
Boschwitz	Hawkins	Rudman
Brady	Hayakawa	Schmitt
Burdick	Heinz	Simpson
Cochran	Helms	Stafford
D'Amato	Jepsen	Stennis
Danforth	Kassebaum	Stevens
Denton	Kasten	Symms
Dole	Laxalt	Thurmond
Domenici	Lugar	Tower
Durenberger	Mattingly	Wallop
East	McClure	Warner
Garn	Murkowski	Weicker

NOT VOTING—5

DeConcini	Hart	Moynihan
Goldwater	Mathias	

So the amendment (UP No. 1436) was rejected.

Mr. BAKER. Mr. President, if we could have the cooperation of Senators for just a moment, I think we might be able to arrange the schedule of the Senate for today and perhaps even expedite its deliberations.

The PRESIDING OFFICER. The next order of business is to return to the consideration of H.R. 6211, the gasoline tax bill.

Mr. BAKER. Yes.

Mr. McCLURE. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. Does the majority leader yield to the Senator from Idaho?

Mr. BAKER. I yield to the distinguished Senator from Idaho for a parliamentary inquiry.

Mr. McCLURE. I thank the Senator for yielding.

The PRESIDING OFFICER. The Senator will state it.

Mr. McCLURE. Mr. President, my understanding of the unanimous-consent request earlier was that following the vote on the Bumpers amendment it would be in order for the Senator from Montana to seek the language change which he had presented this morning and that following that the Senate would return to the gas tax bill.

The PRESIDING OFFICER. There was no further proviso, I advise the Senator from idaho, in putting off the gasoline tax bill under the unanimous-consent request agreed to this morning.

Does the majority leader wish to propose another unanimous-consent request?

UNANIMOUS-CONSENT AGREEMENT

Mr. BAKER. Mr. President, that is what I was preparing to do.

Mr. President, I ask unanimous consent that further consideration of the gasoline tax bill be postponed long enough to accommodate the Senator from Montana offering an amendment to the amendment previously offered on the appropriations bill.

Mr. ROBERT C. BYRD. Mr. President, reserving the right to object, does the Senator from Arkansas wish to make a motion to reconsider the other vote?

Mr. BUMPERS. Mr. President, let me say to the minority leader that I was not on the prevailing side and am not in a position to do so. I think it will work out all right.

Mr. McCLURE. Mr. President, reserving the right to object, and I shall not object, I understand the Senator from Colorado has an amendment, the language of which has been agreed to by those principals who have been involved in discussing it, and I inquire if that is the case. The Senator from Ohio I know has been involved in that discussion, and I would not propose that we get into other controversial matters. But if those two matters are subject to an agreement I wonder if we might not take enough time to dispose of those two matters if they are in agreement and then proceed to final passage of the appropriations bill.

Mr. JOHNSTON. Mr. President, reserving the right to object, both amendments have been checked by staff. They are acceptable, and I would not think it would take any debate except to the extent that someone requires it.

The PRESIDING OFFICER. Does the distinguished majority leader then wish to modify the unanimous-consent request?

Mr. BAKER. Mr. President, I am about to do even better than that.

It sounds to me as if there are only two amendments remaining.

Mr. LEVIN. Mr. President, will the majority leader yield?

Mr. BAKER. I yield.

Mr. LEVIN. Mr. President, there will be lengthy debate on a committee amendment which is legislation on this appropriations bill. We had some debate on that. There seems to be significant additional debate. It is an amendment of the Alaska lands bill on an appropriations bill. I do not think it is appropriate, and I think it should be debated with sufficient length to illuminate that issue as to what we are doing on this appropriations bill.

Mr. BAKER. Mr. President, I was about to say that I knew of no other amendments, and see if we could get unanimous consent that the two amendments identified would be the only amendments in order. We would have three votes then on the two amendments plus final passage.

But based on the remarks of the Senator from Michigan I think that unlikely at this time.

Therefore, my request is modified so that the amendment of the Senator from Montana (Mr. MELCHER) may be considered at this time for 2 minutes equally divided, and that an amendment by the Senator from Colorado may be considered for 2 minutes equally divided, and that following on after that, Mr. President, absent further orders by unanimous consent, the Senate return to the consideration of the gas tax bill.

The PRESIDING OFFICER. Is there objection?

Mr. ROBERT C. BYRD. Mr. President, reserving the right to object——

Mr. BAKER. Mr. President, I was going to get to that request and make another request, but let me include that in this request.

Mr. President, earlier this week I indicated that it would be the intention of the leadership to ask the Senate to proceed to the consideration of Senate Resolution 512 reported from the Rules Committee to repeal rule XXXVI of the Senate limiting outside earned income, which is Calendar Order No. 994.

Senators have been on notice to that effect. It has been discussed, I believe, in both caucuses.

I ask unanimous consent, Mr. President, after the disposition of the two amendments included in this request, that the Senate then proceed to the consideration of Calendar Order No. 994, Senate Resolution 512, and that there be a 1-hour time limitation on that resolution to be equally divided and controlled in the usual form.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

Mr. BAKER. Mr. President, under the present situation we will have two amendments on the Interior appropriations bill. Then we will have an hour's debate, not more than an hour's debate, on Senate Resolution 512; and after disposition of those items the Senate will return to the consideration of the highway bill; is that correct?

The PRESIDING OFFICER. That is correct.

LATE HOUR SESSIONS

Mr. BAKER. Mr. President, may I say to my colleagues that it is the intention of the leadership on this side to try to finish the highway bill today, and by today I mean this afternoon and tonight and in the early hours of the morning and tomorrow, if necessary. But, Mr. President, I really think we must finish the highway bill, and we have to do the continuing resolution. There are other things that I

would like to do and other Senators would like to do, but those two items are the must legislation for the Senate this week.

So, Mr. President, Senators should be on notice that we will be in late, in session very late tonight; that we will be in session very late every night this week if that is necessary in order to complete action on these two measures.

Several Senators addressed the Chair.

Mr. McCLURE. Mr. President, will the Senator yield for an inquiry?

Mr. BAKER. Yes; I yield.

Mr. McCLURE. I understood the Senator from Michigan to indicate again his dissatisfaction with one provision of the pending bill. I had understood earlier the Senator was going to make a point of order against that provision. I am not sure that I understood whether the Senator from Michigan now was saying he was going to make that point of order or just simply going to filibuster long enough so that he would hope to get some accommodation on the language.

Mr. LEVIN. The Chair said last night that a point of order would lie against the provision because it is legislation in an appropriation bill. I did not intend to make the point had the Chair not so ruled. I do intend to debate that provision at length as to whether we would be amending the Alaskan lands bill on Interior appropriations.

Mr. McCLURE. Mr. President, if the Senator will yield again, I had hoped the Senator from Michigan would make his point of order and allow the rules of the Senate to apply to this particular issue in the appropriate manner and that the Senate could then work its will. But if the Senator does not wish to allow that to happen he is within his rights.

Mr. BAKER. Mr. President, what is the business now before the Senate?

The PRESIDING OFFICER. Under the uanimous-consent request the Senator from Idaho, the manager of the bill, is recognized.

Mr. BAKER. Mr. President, before we proceed I ask unanimous consent that I may yield——

The PRESIDING OFFICER. The Senator from Montana is recognized to offer his amendment.

Mr. BAKER. Mr. President, I ask unanimous consent that I may be recognized for 2 minutes so that I may yield to the Senator from Kansas.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. I yield to the Senator from Kansas.

Mr. DOLE. Mr. President, I just remind my colleagues on the floor that based on the statement of the distinguished majority leader, as I understand, there are about 80 or 90 amendments pending to the gas tax bill, to different titles. It may be if we stay all night and tomorrow we can get through 8 or 10 of those, and we will have it down to 70, but I would hope for those who have amendments, unless they really feel constrained to introduce them, unless they are of great urgency, would let us know so that we might be able to postpone those until a more propitious time, such as next year. [Laughter.]

Mr. BAKER. I thank the Senator and I yield back my time.

The PRESIDING OFFICER. The Senator from Montana.

UP AMENDMENT NO. 1438 (MODIFICATION OF UP 1433)

Mr. MELCHER. Mr. President, I send an amendment to amendment 1433 to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Montana (Mr. MELCHER) proposes an unprinted amendment numbered 1438 as a modification to UP 1433.

Mr. MELCHER. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 71, line 10, strike section 308 and insert the following new section in lieu thereof:

"SEC. 308. Except for lands described by sections 105 and 106 of Public Law 96-560, section 103 of Public Law 96-550, section 5(d)(1) of Public Law 96-312 and section 603 of Public Law 94-579, and except for land in the State of Alaska, and lands in the national forest system released to management for any use the Secretary of Agriculture deems appropriate through the land management planning process by any statement or other Act of Congress designating components of the National Wilderness Preservation System now in effect or hereinafter enacted, none of the funds provided in this Act shall be obligated for any aspect of the processing or issuance of permits or leases pertaining to exploration for or development of coal, oil, gas, oil shale, phosphate, potassium, sulphur, gilsonite, or geothermal resources on Federal lands within any component of the National Wilderness Preservation System or within any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning in Executive Communication 1504, Ninety-Sixth Congress (House Document numbered 96-119); or within any lands designated by Congress as wilderness study areas: *Provided*, That nothing in this section shall prohibit the expenditures of funds for any aspect of the processing or issuance of permits pertaining to exploration for or development of the mineral resources described in this section, within any component of the National Wilderness Preservation System now in effect or hereinafter enacted, any Forest Service RARE II areas recommended for wilderness designation or allocated to further planning or within any lands designated by Congress as wilderness study areas, under valid existing right or leases validly issued in accordance with all applicable Federal, State, and local laws or valid mineral rights in existence prior to October 1, 1982: *Provided further*, That funds provided in this Act may be used by the Secretary of Agriculture in any area of national forest lands or Secretary of the Interior to issue under their existing authority in any area of national forest or public lands withdrawn pursuant to this Act such permits as may be necessary to conduct prospecting, seismic surveys, and core sampling conducted by helicopter or other means not requiring construction of roads or improvement of existing roads or ways, for the purpose of gathering information about and inventorying energy, mineral, and other resource values of such area, if such activity is carried out in a manner compatible with the preservation of the wilderness environment: *Provided further*, That seismic activities involving the use of explosives shall not be permitted in designated wilderness areas: *Provided further*, That funds provided in this Act may be used by the Secretary of the Interior to augment recurring surveys of the mineral values of wilderness areas pursuant to section 4(d)(2) of the Wilderness Act and acquire information on other national forest and public land areas withdrawn pursuant to this Act, by conducting, in conjunction with the Secretary of Energy, the National Laboratories, or other Federal agencies, as appropriate, such mineral inventories of areas withdrawn pursuant to this Act as he deems appropriate. These inventories shall be conducted in a manner compatible with the preservation of the wilderness environment through the use of methods including core sampling conducted by helicopter; geophysical techniques such as induced polarization, synthetic aperture radar, magnetic and gravity surveys; geochemical techniques including stream sediment reconnaissance and X-ray defraction analysis; land satellites; or any other methods he deems appropriate. The Secretary of the Interior is hereby authorized to conduct inventories or segments of inventories, such as data analysis activities, by contract with private entities deemed by him to be qualified to engage in such activities whenever he has determined that such contracts would decrease Federal expenditures and would produce comparable or superior results: *Provided further*, That in carrying out any such inventory or surveys, where national forest system lands are involved, the Secretary of the Interior shall consult with the Secretary of Agriculture concerning any activities affecting surface resources: *Provided further*, That funds provided in this Act may be used by the Secretary of the Interior to issue oil and gas leases for the subsurface of national forest or public land wilderness areas that are immediately adjacent to producing oil and gas fields or areas that are prospectively valuable. Such leases shall allow no surface occupancy and may be entered only by directional drilling from outside the wilderness or other nonsurface disturbing methods."

The PRESIDING OFFICER. Under the unanimous-consent agreement the Senator has 2 minutes.

Mr. MELCHER. Mr. President, this amendment straightens out the confusion that might have developed in the wording of amendment No. 1433 offered by the chairman of the subcommittee earlier today and on which we had considerable discussion.

It simply puts it right up front that on Forest Service lands the permits will be handled through the Forest Service; on BLM lands permits will be handled through the Department of the Interior.

Mr. McCLURE. Mr. President, I think the amendment, as the Senator from Montana has indicated, gives the flexibility to the Secretaries to make whatever agreements between themselves and between the Departments they might wish to make, and the amendment is acceptable to us on this side of the aisle.

Mr. MELCHER. I thank the chairman.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Montana.

The amendment (UP No. 1438) was agreed to.

UP AMENDMENT NO. 1439

The PRESIDING OFFICER. The Senator from Colorado has 2 minutes on his amendment.

Mr. ARMSTRONG. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The bill clerk read as follows:

The Senator from Colorado (Mr. ARMSTRONG) proposes an unprinted amendment numbered 1439.

Mr. ARMSTRONG. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Section 21 of the Act entitled "An Act to promote the mining of coal, phosphate, oil, oilshale, gas, and sodium on the public domain", approved February 25, 1920 (41 Stat. 437, as amended; 30 U.S.C. 241), is further amended by adding the following new subsections:

"(c)(1) The Secretary may within the State of Colorado lease to the holder of the Federal oil shale lease known as Federal Prototype Tract C-a additional lands necessary for the disposal of oil shale wastes and the materials removed from mined lands, and for the building of plants, reduction works, and other facilities connected with oil shale operations (which lease shall be referred to hereinafter as the "offsite lease"). The Secretary may only issue one offsite lease not to exceed six thousand four hundred acres. An offsite lease may not serve more than one Federal oil shale lease and may not be transferred except in conjunction with the transfer of the Federal oil shale lease that it serves.

"(2) The Secretary may issue one offsite lease of not more than three hundred and twenty acres to any person, association or corporation which has the right to develop oil shale on non-Federal lands. An offsite lease serving non-Federal oil shale land may not serve more than one oil shale operation and may not be transferred except in conjunction with the transfer of the non-Federal oil shale land that it serves. Not more than two offsite leases may be issued under this paragraph.

"(3) An offsite lease shall include no rights to any mineral deposits.

"(4) The Secretary may issue offsite leases after consideration of the need for such lands, impacts on the environment and other resource values, and upon a determination that the public interest will be served thereby.

"(5) An offsite lease for lands the surface of which is under the jurisdiction of a Federal agency other than the Department of the Interior shall be issued only with the consent of that other Federal agency and shall be subject to such terms and conditions as it may prescribe.

"(6) An offsite lease shall be for such periods of time and shall include such lands, subject to the acreage limitations contained in this subsection, as the Secretary determines to be necessary to achieve the purposes for which the lease is issued, and shall contain such provisions as he determines are needed for protection of environmental and other resource values.

"(7) An offsite lease shall provide for the payment of an annual rental which shall reflect the fair market value of the rights granted and which shall be subject to such revisions as the Secretary, in his discretion, determines may be needed from time to time to continue to reflect the fair-market value.

"(8) An offsite lease may, at the option of the lessee, include provisions for payments in any year which payments shall be credited against any portion of the annual rental for a subsequent year to the extent that such payment is payable by the Secretary of the Treasury under section 35 of this Act to the State within the boundaries of which the leased lands are located. Such funds shall be paid by the Secretary of the Treasury to the appropriate State in accordance with section 35, and such funds shall be distributed by the State only to those counties, municipalities, or jurisdictional subdivisions impacted by oil shale development and/or where the lease is sited."; and

"(9) An offsite lease shall remain subject to leasing under the other provisions of this Act where such leasing would not be incompatible with the offsite lease.

"(d) In recognition of the unique character of oil shale development:

"(1) In determining whether to offer or issue an offsite lease under subsection (c), the Secretary shall consult with the Governor and appropriate State, local, and tribal officials of the State where the lands to be leased are located, and of any additional State likely to be affected significantly by the social, economic, or environmental effects of development under such lease, in order to coordinate Federal and State planning processes, minimize duplication of permits, avoid delays, and anticipate and mitigate likely impacts of development.

"(2) The Secretary may issue an offsite lease under subsection (d) after consideration of (A) the need for leasing, (B) impacts on the environment and other resource values, (C) socioeconomic factors, and (D) information from consultations with the Governors of the affected States.

"(3) Before determining whether to offer an offsite lease under subsection (c), the Secretary shall seek the recommendation of the Governor of the State in which the lands to be leased are located as to whether or not to lease such lands, what alternative actions are available, and what special conditions could be added to the proposed lease to mitigate impacts. The Secretary shall accept the recommendations of the Governor if he determines that they provide for a reasonable balance between the national interest and the State's interests. The Secretary shall communicate to the Governor, in writing, and publish in the Federal Register the reasons for his determination to accept or reject such Governor's recommendations."

Mr. ARMSTRONG. I will take just a moment to explain the amendment. Yesterday I offered an amendment which would permit the Secretary of Interior, under closely defined circumstances, to grant offsite disposal authority to oil shale lessees in the State of Colorado.

The Senator from Ohio (Mr. METZENBAUM) raised certain questions. Overnight he and I and our staffs have consulted and we have formulated an even more tightly drawn amendment which would have just this effect: It would permit one offsite disposal tract of not to exceed 6,400 acres within the State of Colorado to a Federal oil shale lessee.

In addition, it would permit the Secretary to issue not to exceed two such offsite disposal leases for private operators, that is people who are producing oil from shale on privately owned property, where there is a Federal inholding, and each of those two would not exceed 320 acres.

Mr. President, I put a lengthy statement in the RECORD yesterday about the need for this legislation.

I ask unanimous consent that Senators HART and WARNER be added to the amendment as cosponsors.

The Presiding Officer. Without objection, the cosponsors will be added.

Mr. ARMSTRONG. In conclusion, Mr. President, I would like to express to the Senator from Ohio my appreciation for his willingness to work with us on this matter and to permit us to go forward and offer this important amendment.

The PRESIDING OFFICER. Does the Senator from West Virginia wish to be added as a consponsor?

Mr. HART. Mr. President, will the Senator yield?

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. RANDOLPH. Mr. President, may I be added as a cosponsor? I think my discussion with the able Senator has indicated my long-time interest in any program of this type in which we attempt to develop alternative fuels.

Mr. ARMSTRONG. Mr. President, I would be very honored to have the cosponsorship of the Senator from West Virginia. I ask unanimous consent that he be added.

The PRESIDING OFFICER. Without objection, he is recognized as a cosponsor.

Mr. HART. Mr. President, I wish to join my colleague, Senator ARMSTRONG, in sponsorship of this amendment. It is, as I understand it, virtually identical to S. 2520, a piece of legisla-

tion introduced earlier this year to try to get prompt action in behalf of a single oil shale endeavor in our State, and I am pleased to see action on this, and I wish to identify myself with it.

The PRESIDING OFFICER. The Senator from Colorado will be added as a cosponsor.

Mr. HART Mr. President, I am pleased to join my colleague, Senator ARMSTRONG, in cosponsoring this amendment to remove a statutory obstacle to the development of one of the four prototype oil shale leases issued in 1974. The amendment would authorize the Secretary of the Interior to issue an offsite lease for surface operations necessary to support open pit mining of tract C-a, the oil shale lease held by the Rio Blanco Oil Shale Co. This is the only prototype lease suitable for this method of operation; issuing the offsite lease will make possible the first test of this potentially most efficient form of oil shale mining.

This amendment is virtually identical to S. 2520, legislation which I introduced earlier this year in an effort to get prompt congressional action on the single, narrow issue of Rio Blanco's need for an oil shale lease. This is the only statutory change needed for the first generation of oil shale development. The change itself is noncontroversial. It is supported by the administration, all members of the Colorado congressional delegation, Gov. Richard D. Lamm of Colorado, industry, and environmentalists.

But approval of this change in the law has been impossible because of disagreements over other possible changes in the law. In both this Congress and the previous Congress, the Committee on Energy and Natural Resources has reported legislation making other, essentially unrelated, changes in the Mineral Leasing Act to greatly expand the authority of the Secretary of the Interior to issue future oil shale leases. I and several other Senators have opposed these open-ended proposals, and in the face of these strong disagreements the committee's bill has not been considered by the full Senate.

It has been tragic to hold Rio Blanco hostage to these disagreements. Earlier this year, the company was forced to seek, and receive, a suspension of its lease because of the failure of Congress to enact legislation authorizing the offsite lease.

The consequences of the previous congressional stalemate are far greater than the effect on Rio Blanco. The open pit operation which will be made possible by offsite leasing legislation promises to be the most efficient way to recover oil shale. Rio Blanco officials have testified before the Energy Committee that an open pit mine would let them increase the production of shale oil from their lease from 1.5 billion barrels to 5 billion barrels. It is in the national interest to enable Rio Blanco to undertake their open pit mine so we can study that method of operation and determine whether it would be appropriate to authorize additional offsite leasing.

Our oil shale reserves are too vast for us to wait any longer to move forward into a first generation of oil shale development. The amount of oil trapped in the shale deposits of Colorado alone is greater than the amount of petroleum in all the Middle East's oil fields. We have enough shale oil to sustain for several centuries a production level of about 1 million barrels per day—an amount roughly equal to the amount of oil we now import from the Middle East.

I am grateful to all Senators for their willingness to agree to withhold any controversial second-degree amendments which could jeopardize action on this Rio Blanco measure.

Mr. ARMSTRONG. Mr. President, if I have any time remaining, I would like to yield to the Senator from Virginia. Before I do that I wish to add my appreciation for his participation in this matter.

Mr. WARNER. Mr. President, I wish to commend the two Senators from Colorado and my colleague from Ohio for working out this situation. It has been a matter of deep concern to the Senate Subcommittee on Energy of which I am chairman, and only through the efforts on behalf of these distinguished Members of the Senate has this compromise been effected.

The PRESIDING OFFICER. The Senator from Ohio is recognized on the time of the Senator from Colorado.

Mr. METZENBAUM. Mr. President, I think the Senator from Ohio has recognition in his own right.

The PRESIDING OFFICER. The Senator is correct. The Senator from Ohio is recognized.

Mr. METZENBAUM. Mr. President, this amendment, as modified, in my opinion, is to meet the problems that could have been created by the original amendment which I thought was too broad, would have affected too much land area owned by the Federal Government.

I do not think there is anybody in the Senate who does not support the concept of developing our soil shale reserves in this country. But I think the question is to see to it that the Federal Government is adequately protected, that our environmental concerns are protected, and that we do it with a sense of fairness and equity.

This measure now deals with one particular situation that has to do with the fact that a company has already closed down its facilities because of its profit in connection with its waste disposal. As I understand it, it would make it possible for that company to open its doors and produce oil shale hopefully in the not too distant future.

In addition, there are two special provisions having to do with 320 acres, each of which would be providing a waste disposal area inside, where the land is owned by the Federal Government inside, a much larger private holding.

I think we have come out with a fair compromise. It has been a pleasure to work with both of the Senators from Colorado and my friend from Virginia, as well.

Mr. McCLURE. Mr. President, will the Senator from Colorado add the Senator from Idaho as a cosponsor of the amendment?

Mr. ARMSTRONG. I would be honored to do that, Mr. President, I ask unanimous consent that the Senator from Idaho (Mr. McCLURE) be added as a cosponsor of my amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCLURE. Mr. President, this is a matter that we have been working on in the Energy and Natural Resources Committee for a long while. While this does not settle all of the issues with respect to oil shale, it is a significant advance. I am pleased we have been able to work it out here today.

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Colorado (Mr. ARMSTRONG).

The amendment (UP No. 1439) was agreed to.

Mr. ARMSTRONG. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. McCLURE. I move to lay that motion on the table. The motion to lay on the table was agreed to.

REPEAL OF RULE XXXVI OF THE STANDING RULES OF THE SENATE

The PRESIDING OFFICER. Under the unanimous-consent agreement, the clerk will report Senate Resolution 512.

The assistant legislative clerk read as follows:

A resolution (S. Res. 512) to repeal rule XXXVI of the Standing rules of the Senate.

The Senate proceeded to consider the resolution.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. BAKER. Mr. President, the distinguished Senator from Oregon, Senator HATFIELD, will manage this resolution on this side. He is not present on the floor but he is nearby. On our time, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, I ask unanimous consent that I may proceed for 1 minute without the time being charged against the resolution.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, it would appear that the managers of this resolution are not fully in place to proceed with debate on the repeal of rule XXXVI. I had a request from the distinguished chairman of the Interior Committee and the Senator from Nebraska, and perhaps others, that they would like to engage in a colloquy on the Interior appropriations bill. I ask unanimous consent that it may be in order to do that for not more than 5 minutes, at which time the Senate will return to the consideration of the rule XXXVI proceedings.

The PRESIDING OFFICER. Without objection, it is so ordered.

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS, 1983

The Senate resumed consideration of the bill.

Mr. McCLURE. Mr. President, I thank the Senator from Tennessee for his accommodation. As usual, he is very accommodating.

I am pleased to yield to the Senator from Nebraska.

Mr. EXON. Mr. President, I thank my friend, the chairman of the committee.

Mr. President, I wish to make a brief inquiry and a statement. I have visited with the problem that we have in Nebraska with both the chairman of the committee and the ranking minority member. I compliment the committee for their efforts to cut back on Federal expenditures.

I understand that there has been some consideration given to the possible funding for 1 year only of certain fish hatcheries if it is proven beyond a reasonable doubt that the States or local subdivisions thereof intend to pick up the funding after the next fiscal year. As I understand it, the reason for that is that if the States or the local subdivisions feel it is necessary for some of these fish hatcheries, if their budgets are already obligated, it has at least a consideration by the committee, which has been evidenced by at least one agreement to an amendment on the floor, that it might be that consideration would be given to one fish hatchery in Nebraska known as the Crawford Fish Hatchery in the amount of $84,000 if it can be proven beyond a reasonable doubt by the Governor-elect and the chairman of the game and parks commission that, indeed, they would intend to pick this up.

I would say there is $84,000 for this facility included in the House bill. I would just like to have a response from the chairman of the committee or the ranking minority member that if we could prove reasonably that State officials in Nebraska intended to pick that up, would it be possible that the Senator could back such a consideration when he goes to conference with the House on this bill?

Mr. McCLURE. Mr. President, the Senator does state it correctly. This issue, the proposed closure of fish hatcheries, is one that is very close to every Member of the Senate and most of the Members of the House, as I have found through this process of trying to determine which ones we should maintain that had a sufficient Federal connection to justify Federal operation. We tried to set up some objective criteria along that line to determine whether or not we should agree with the Fish and Wildlife Service as to their priorities for closure.

As the Senator has said, the hatchery at Crawford, Nebr., is included in the House bill for funding and we have, on the basis of our criteria, determined that there was not sufficient Federal connection to justify it being high enough in the priority list to remain open. But we have, on two or three other occasions, been informed that the State or local interests were in the process of negotiating to take over the operation of those facilities. Where we could determine that this was a bona fide process that was going to lead to or would likely lead to operation by non-Federal entities, we then provided the money to keep them open pending the conclusion of those negotiations.

If the State of Nebraska can give us that kind of assurance that they indeed will be able to take it over at the end of this fiscal year, it would be my intention then to yield in the conference to the position which is already stated in the House.

I might note that this, I believe, is in the district of Congresswoman Virginia Smith and she is very interested in maintaining it as well. I am sure she will be fighting, as well, with her House Members to see that the House position is maintained when we get to the conference. I am very happy that the Senator from Nebraska has entered into this, as he has, in an affirmative way. I am very pleased to give him that kind of positive assurance. When we receive from the State reasonable assurances that they will be in a position to take it over, I will be happy to yield to the House position in conference.

Mr. EXON. Mr. President, I thank my friend from Idaho for his consideration. We will make every effort to obtain the assurances, which I think will be in order. I will simply say to him this is the only major fish hatchery in Nebraska. There are a lot of trout in Idaho, but very few in Nebraska.

I believe under the circumstances we will be able to prove not only the need but to get the commitment from the State officials to proceed on the same basis that the other hatcheries for which consideration is being given proceed. I thank the Senator.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. BAKER. Mr. President, I believe that colloquy has ended and we automatically resume consideration of the resolution from the Rules Committee.

REPEAL OF RULE XXXVI OF THE STANDING RULES OF THE SENATE

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of Senate Resolution 512.

Mr. HATFIELD. Mr. President, in the past year and a half, the Senate has confronted the issue of outside earned income limitations several times. As my colleagues know, Federal law currently limits Federal officials to $2,000 in honoraria per engagement. Prior limitations restricting honoraria receivable to $25,000 per year were repealed last year. This repeal received overwhelming support in this very same Senate.

Nevertheless, there remains on the books as Senate rule, rule 36, which limits the outside earned income of Senators to 15 percent of salary. At the current salary level, Members would be limited to just over $9,000 in honoraria annually. The effective date of the rule was postponed in 1979 until January 1, 1983, and it is this situation that Senate Resolution 512 deals with.

Mr. President, a hearing was held in the Rules Committee of the Senate and the Rules Committee voted in support of the repeal of rule XXXVI. It has been on the calendar for several days now and is brought here under a unanimous-consent agreement with a 1-hour time limitation.

At this point, I yield to the Senator from Utah (Mr. GARN).

Mr. BAKER. Will the Senator first yield to me?

Mr. HATFIELD. I yield to the majority leader.

Mr. BAKER. Mr. President, I thank the Senator.

I would like to point out that this matter is a matter that has been negotiated in regular legislative procedures. It has been considered by the Rules Committee in open public hearing. It has been voted on in a recorded vote there. It has been reported to the floor. It is on the calendar and it has been there for several days. I have an-

nounced a number of times that we were going to bring it up.

I want to make absolutely sure that everyone understands precisely what we are about and that it is done in an open and public way.

Mr. President, I ask for the yeas and nays on the resolution.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. BAKER. Mr. President, there will be a rollcall vote and I hope it will occur shortly. I would not add very much to what the Senator from Oregon has said, except that we have crossed this bridge in Congress already. That is, the law has been changed to eliminate that limitation.

The only thing that happened to us was we did not go ahead and conform the rules of the Senate to that change in statute law. All this resolution will do is to conform the rules of the Senate to the law as it now exists.

Mr. President, I hope the Senate will adopt this resolution.

The PRESIDING OFFICER. The Senator from Utah.

Mr. GARN. Mr. President, I will be very brief and, primarily, will outline the sequence of events so there is no doubt about this issue.

On September 24, 1981, there was the first hearing and vote on this matter in the Rules Committee, and on September 30, 1981, there was a final vote. The law has been changed since Septemer 30, 1981.

That law says that there will be a $2,000 limit per speech on outside honoraria, but there is no cap on that.

The point that I wanted to make very strongly is that a lot of people have missed, and over and over again it is reported, that it was a limit on honoraria. That is only partially correct. The law before September 30, 1981, placed a limit on all outside earned income, far, far broader than just speechmaking.

At the same time, there has never been a limit on unearned income. If you had coupons, if you were rich, you could clip your coupons and draw from trust funds and there was no limit and no detailed reporting.

This is not taxpayers' money. In fact, the taxes are paid. I would assume that most of it, or 50 percent of what we earn, is returned to the general fund of the Treasury. It is fully reported and always has been in great detail as to where and how much.

I think those points are extremely important, that we are just conforming what was done openly on two record votes in September of 1981 through the process of the majority leader has outlined today; that it is not taxpayers' money; that it is fully disclosed. It seems to me that it is a matter of conscience between each individual Senator and his constituency. It is required that it be fully and completely disclosed. It used to be a ban on all outside earned income, or at least a cap.

So I would hope the Senate would realize that. This vote today is merely to conform a Senate rule with the action taken on September 30, 1981, nothing more and nothing less.

Mr. INOUYE. Mr. President, will my distinguished colleague yield?

Mr. GARN. I am happy to yield.

Mr. INOUYE. Under this resolution, can a Member of this body declare publicly that he has voluntarily set for himself a cap?

Mr. GARN. Absolutely, a Senator could. That is a very good idea that the Senator from Hawaii asks about. It is a matter of conscience between a Senator and his constituency, to answer to them at election time on not taxpayers' money, earned income outside the taxpayers' fund. It would seem to me that any Senator, rather than trying to impose his standard on everybody else, affecting their families and their livelihood, is certainly able to put out a press release and establish his own policy, if he desires to set a limit, or to take none, if he wants to do so. Any Senator has a right to do that.

Mr. INOUYE. I thank the Senator.

The PRESIDING OFFICER. Do any other Senators seek time?

Is all time yielded back?

Mr. HATFIELD. I yield back the remainder of my time.

Mr. INOUYE. I yield back the remainder of our time.

The PRESIDING OFFICER. All time has been yielded back. The question is on agreeing to the resolution. The yeas and nays have been ordered and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. MATSUNAGA (after having voted in the negative). Mr. President, on this vote I have a pair with the Senator from Arizona (Mr. GOLDWATER). If he were present, he would vote "aye." I have already voted "nay." Therefore, I withdraw my vote.

Mr. SCHMITT. Mr. President, on this vote I have a pair with the distinguished Senator from Maryland (Mr. MATHIAS). If he were here, he would vote "aye." If I were permitted to vote, I would vote "nay." I, therefore, withhold my vote.

Mr. JOHNSTON. Mr. President, on this vote I have a pair with the Senator from Tennessee (Mr. SASSER). If I were permitted to vote, I would vote "aye." The Senator from Tennessee, if he were here, would vote "nay." Therefore, I withhold my vote.

Mr. RANDOLPH. Mr. President, a point of order.

The PRESIDING OFFICER. The Senator from West Virginia has raised the point of order that the well is occupied by Senators and the clerk cannot conduct an orderly rollcall. Therefore, it is the request of the Presiding Officer that the Senators clear the well.

Mr. STEVENS. A point of order, Mr. President. There is no such rule that we cannot be in the well.

The PRESIDING OFFICER. The Chair did not indicate there was a rule. The Chair simply made an observation.

The clerk will resume the call of the roll.

The legislative clerk resumed the call of the roll.

Mr. STEVENS. I announce that the Senator from Arizona (Mr. GOLDWATER) and the Senator from Maryland (Mr. MATHIAS) are necessarily absent.

Mr. CRANSTON. I announce that the Senator from Tennessee (Mr. SASSER) is necessarily absent.

I also announce that the Senator from Arizona (Mr. DECONCINI) and the Senator from New York (Mr. MOYNIHAN) are absent because of illness.

I further announce that, if present and voting, the Senator from Arizona (Mr. DECONCINI), would vote "nay."

The PRESIDING OFFICER (Mr. WARNER). Are there any other Senators in the Chamber wishing to vote?

The result was announced—yeas 54, nays 38, as follows:

[Rollcall Vote No. 405 Leg.]

YEAS—54

Armstrong	Glenn	Pryor
Baker	Gorton	Quayle
Bentsen	Hart	Randolph

Johnston for.

NOT VOTING—5

DeConcini	Mathias	Sasser
Goldwater	Moynihan	

So the resolution (S. Res. 512) was agreed to, as follows:

S. RES. 512

Resolved, That rule XXXVI of the Standing Rules of the Senate is repealed effective January 1, 1983.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. HATFIELD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

SURFACE TRANSPORTATION ACT OF 1982

Mr. BAKER. Mr. President, what is the business before the Senate?

The PRESIDING OFFICER. The present business before the Senate is that which the clerk is about to state, H.R. 6211.

Mr. BAKER. I thank the Chair.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 6211) to authorize appropriations for construction of certain highways in accordance with title 23, United States Code, for highway safety, for mass transportation in urban and rural areas, and for other purposes.

The Senate proceeded to consider the bill which had been reported from the Committee on Finance with an amendment to strike out all after the enacting clause, and insert the following:

TITLE I—HIGHWAY REVENUE ACT OF 1982

Subtitle A—Short Title; Table of Contents; Amendment of 1954 Code

SEC. 101. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This title may be cited as the "Highway Revenue Act of 1982".

(b) TABLE OF CONTENTS.—

TITLE I—HIGHWAY REVENUE ACT OF 1982

Subtitle A—Short Title; Table of Contents; Amendment of 1954 Code

Sec. 101. Short title; table of contents.
Sec. 102. Amendment of 1954 Code.

Subtitle B—Tax Changes

Sec. 111. Motor fuel taxes.
Sec. 112. Excise tax on heavy trucks.
Sec. 113. Heavy truck use tax.
Sec. 114. Taxes on heavy truck tires.
Sec. 115. Tax on synthetic lubricating oil.
Sec. 116. Period taxes and exemptions in effect.
Sec. 117. Treatment of certain motor carrier operating authorities acquired by taxpayers other than corporations.
Sec. 118. Extension of payment due date for certain fuel taxes.

Subtitle C—Floor Stocks Provisions

Sec. 121. Floor stocks taxes.
Sec. 122. Floor stocks refunds.
Sec. 123. Definitions and special rules.

Subtitle D—Highway Trust Fund; Mass Transit Account

Sec. 131. Extension of Highway Trust Fund.
Sec. 132. Mass Transit Account.

SEC. 102. AMENDMENT OF 1954 CODE.

Except as otherwise expressly provided therein, whenever in subtitle B an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

Subtitle B—Tax Changes

SEC. 111. MOTOR FUEL TAXES.

(a) TAXES ON GASOLINE, DIESEL FUEL, AND SPECIAL MOTOR FUELS INCREASED FROM 4 CENTS A GALLON TO 9 CENTS A GALLON.—

(1) GASOLINE TAX.—Subsection (a) of section 4081 (relating to tax on gasoline) is amended by striking out "4 cents a gallon" and inserting in lieu thereof "9 cents a gallon".

(2) DIESEL FUEL AND SPECIAL MOTOR FUELS.—Section 4041 (relating to tax on diesel fuel and special motor fuels) is amended by striking out subsections (a) and (b) and inserting in lieu thereof the following:

"(a) DIESEL FUEL AND SPECIAL MOTOR FUELS.—

"(1) DIESEL FUEL.—There is hereby imposed a tax of 9 cents a gallon on any liquid (other than any product taxable under section 4081)—

"(A) sold by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle for use as a fuel in such vehicle, or

"(B) used by any person as a fuel in a diesel-powered highway vehicle unless there was a taxable sale of such liquid under subparagraph (A).

"(2) SPECIAL MOTOR FUELS.—There is hereby imposed a tax of 9 cents a gallon on benzol, benzene, naphtha, liquefied petroleum gas, casing head and natural gasoline, or any other liquid (other than kerosene, gas oil, or fuel oil, or any product taxable under section 4081 or paragraph (1) of this subsection)—

"(A) sold by any person to an owner, lessee, or other operator of a motor vehicle or motorboat for use as a fuel in such motor vehicle or motorboat, or

"(B) used by any person as a fuel in a motor vehicle or motorboat unless there was a taxable sale of such liquid under subparagraph (A)."

(b) EXEMPTION FOR METHANOL AND ETHANOL FUELS.—

(1) IN GENERAL.—Section 4041 is amended by adding at the end of the subsection (b) inserted by subsection (c) of this section the following new paragraph:

"(2) QUALIFIED METHANOL AND ETHANOL FUEL.—

"(A) IN GENERAL.—No tax shall be imposed by subsection (a) on any qualified methanol or ethanol fuel.

"(B) QUALIFIED METHANOL OR ETHANOL FUEL.—The term 'qualified methanol or ethanol fuel' means any liquid at least 85 percent of which consists of methanol, ethanol, or other alcohol produced from a substance other than petroleum or natural gas.

"(C) TERMINATION.—On and after October 1, 1989, subparagraph (A) shall not apply."

(2) COORDINATION WITH CREDIT.—Subsection (c) of section 44E (relating to coordination of credit for alcohol used as a fuel with exemption from excise tax) is amended by striking out "section 4041(k) or 4081(c)" and inserting in lieu thereof "subsection (b)(2) or (k) of section 4041 or section 4081(c)".

(c) EXEMPTION FOR OFF-HIGHWAY BUSINESS USE.—

(1) GASOLINE.—Subsection (a) of section 6421 (relating to nonhighway use of gasoline) is amended by striking out the first sentence and inserting in lieu thereof the following: "Except as provided in subsection (i), if gasoline is used in an off-highway business use, the Secretary shall pay (without interest) to the ultimate purchaser of such gasoline an amount equal to the amount determined by multiplying the number of gallons so used by the rate at which tax was imposed on such gasoline under section 4081."

(2) DIESEL FUEL AND SPECIAL MOTOR FUELS.—Section 4041 is amended by inserting after subsection (a) the following new subsection:

"(b) EXEMPTION FOR OFF-HIGHWAY BUSINESS USE; EXEMPTION FOR QUALIFIED METHANOL AND ETHANOL FUEL.—

"(1) EXEMPTION FOR OFF-HIGHWAY BUSINESS USE.—

"(A) IN GENERAL.—No tax shall be imposed by subsection (a) on liquids sold for use or used in an off-highway business use.

"(B) TAX WHERE OTHER USE.—If a liquid on which no tax was imposed by reason of subparagraph (A) is used otherwise than in an off-highway business use, a tax shall be imposed by paragraph (1)(B) or (2)(B) of subsection (a) (whichever is appropriate).

"(C) OFF-HIGHWAY BUSINESS USE DEFINED.—For purposes of this subsection, the term 'off-highway business use' has the meaning given to such term by section 6421(d)(2)."

(3) CLERICAL AMENDMENTS.—

(A) Subparagraphs (A) and (B) of section 6421(d)(2) are each amended by striking out "qualified business use" and inserting in lieu thereof "off-highway business use".

(B) The heading for paragraph (2) of section 6421(d) is amended by striking out "QUALIFIED" and inserting in lieu thereof "OFF-HIGHWAY".

(d) CREDIT FOR ALCOHOL USED AS A FUEL.—Section 44E (relating to alcohol used as a fuel) is amended—

(1) by striking out "40 cents" each place it appears and inserting in lieu thereof "90 cents", and

(2) by striking out "30 cents" each place it appears and inserting in lieu thereof "68 cents".

(e) USE IN CERTAIN TAXICABS.—

(1) IN GENERAL.—Paragraph (1) of section 6427(e) (relating to use in certain taxicabs) is amended by striking out "an amount equal to the aggregate amount of the tax imposed on such gasoline or fuel" and inserting in lieu thereof "an amount determined at the rate of 4 cents a gallon".

(2) EXTENSION OF REPAYMENT.—Paragraph (3) of section 6427(e) (relating to termination) is amended by striking out "December 31, 1982" and inserting in lieu thereof "September 30, 1984".

(3) SUSPENSION OF SHARED TRANSPORTATION REQUIREMENT.—Clause (ii) of section 6427(e)(2)(A) (relating to qualified taxicab services) is amended to read as follows:

"(ii) is not prohibited by company policy from furnishing (with the consent of the passengers) shared transportation.".

(4) STUDY.—The Secretary of the Treasury or his delegate shall conduct a study of the reduced rate of fuel taxes provided for taxicabs by section 6427(e) of the Internal Revenue Code of 1954. Not later than January 1, 1984, the Secretary shall transmit a report on the study conducted under the preceding sentence to the Congress, together with such recommendations as he may deem advisable.

(f) REFUND OF MOTOR FUEL TAXES TO AERIAL AND OTHER APPLICATORS OF AGRICULTURAL SUBSTANCES.—Paragraph (4) of section 6420(c) (defining use on a farm for farming purposes) is amended to read as follows:

"(4) CERTAIN FARMING USE OTHER THAN BY OWNER, ETC.—In applying paragraph (3)(A) to a use on a farm for any purpose described in paragraph (3)(A) by any person other than the owner, tenant, or operator of such farm—

"(A) the owner, tenant, or operator of such farm shall be treated as the user and ultimate purchaser of the gasoline, except that

"(B) if—

"(i) the person so using the gasoline is an aerial or other applicator of fertilizers or other substances and is the ultimate purchaser of the gasoline, and

"(ii) the person described in subparagraph (A) waives (at such time and in such form and manner as the Secretary shall prescribe) his right to be treated as the user and ultimate purchaser of the gasoline,

then subparagraph (A) of this paragraph shall not apply and the aerial or other applicator shall be treated as having used such gasoline on a farm for farming purposes."

(g) EXEMPTION FOR QUALIFIED COMMUTER HIGHWAY VEHICLES.—

(1) IN GENERAL.—Section 6421 (relating to gasoline used for certain non-highway purposes or by local transit systems) is amended by redesignating subsection (j) as subsection (k) and by inserting after subsection (i) the following new subsection:

"(j) QUALIFIED COMMUTER HIGHWAY VEHICLES.—

"(1) ALLOWANCE.—Except as provided in subsection (i), if gasoline is used in a qualified commuter highway vehicle while such vehicle is engaged in transporting individuals between their residences and their place of employment, the Secretary shall pay (without interest) to the ultimate purchaser of such gasoline an amount equal to the product of the number of gallons of gasoline so used multiplied by the rate at which tax was imposed on such gasoline by section 4081.

"(2) QUALIFIED COMMUTER HIGHWAY VEHICLE DEFINED.—For purposes of paragraph (1) the term 'qualified commuter highway vehicle' means a commuter highway vehicle within the meaning of subparagraph (B) of section 46(c)(6), except that such subparagraph shall be applied—

"(A) without regard to clause (iii) or (iv) thereof, and

"(B) by substituting 'individuals' for 'the taxpayer's employees' in clause (ii).

"(c) TERMINATION.—This subsection shall not apply on and after October 1, 1989.".

(2) Section 6427 (relating to fuels not used for taxable purposes) is amended by redesignating subsection (k) as subsection (l) and by inserting after subsection (j) the following new subsection:

"(k) QUALIFIED COMMUTER HIGHWAY VEHICLE.—Except as provided in subsection (i), if any fuel on which tax is imposed by section 4081(a) is used by any person in a qualified commuter highway vehicle (within the meaning of section 6421(j)(2)) while such vehicle is engaged in transporting individuals between their residences and their place of employment, the Secretary shall pay (without interest) to such person an amount equal to the amount of the tax imposed on the sale of the fuel.".

"(3) CONFORMING AMENDMENTS.—

"(A) The heading for section 6421 is amended by inserting ", qualified commuter highway vehicles," after "purposes".

"(B) The table of sections for subchapter (B) of chapter 65 is amended by inserting ", qualified commuter highway vehicles," after "purposes" in the item relating to section 6421.

(h) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) GASOLINE USED IN NONCOMMERCIAL AVIATION.—Paragraph (3) of section 4041(c) (relating to noncommercial aviation) is amended to read as follows:

"(3) RATE OF TAX.—The rate of tax imposed by paragraph (2) on any gasoline is the excess of 12 cents a gallon over the rate at which tax was imposed on such gasoline under section 4081."

(2) CONFORMING AMENDMENTS.—

(A) Paragraph (2) of section 6416(b) is amended by striking out "section 4041 (a)(1) or (b)(1)" and inserting in lieu thereof "paragraph (1)(A) or (2)(A) of section 4041(a)".

(B) Subsection (a) of section 6427 is amended by striking out "section 4041 (a), (b), or (c)" and inserting in lieu thereof "section 4041 (a) or (c)".

(C) Paragraph (1) of section 6427(b) is amended by striking out "subsection (a) or (b) of section 4041" each place it appears and inserting in lieu thereof "subsection (a) of section 4041".

(D) Subsection (c) of section 6427 is amended by striking out "section 4041 (a), (b) or (c)" and inserting in lieu thereof "section 4041 (a) or (c)".

(3) TARIFF ON ALCOHOL IMPORTED FOR USE AS A FUEL.—Item 901.50 of the Tariff Schedules of the United States (19 U.S.C. 1202) is amended—

(A) by striking out "20¢ per gal." each place it appears and inserting in lieu thereof "90¢ per gal.", and

(B) by striking out "12/31/82" and inserting in lieu thereof "12/31/92".

(i) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall take effect on April 1, 1983.

(2) FOR SUBSECTION (e)(2).—The amendment made by subsection (e)(2) shall take effect on January 1, 1983.

(3) SHARED TRANSPORTATION REQUIREMENT.—The amendment made by subsection (e)(3) shall apply with respect to fuel purchased after December 31, 1982 and before January 1, 1984.

(4) TARIFF ON IMPORTED ALCOHOL.—The amendments made by subsection (g)(3) shall apply with respect to articles entered, or withdrawn from warehouse for consumption, after March 31, 1983.

SEC. 112. EXCISE TAX ON HEAVY TRUCKS.

(a) CHANGES IN EXISTING MANUFACTURERS EXCISE TAX.—

(1) INCREASE IN THRESHOLD WEIGHTS.—Paragraph (2) of section 4061(a) (relating to exclusion for light-duty trucks, etc.) is amended to read as follows:

"(2) EXCLUSION FOR TRUCKS WITH GROSS VEHICLE WEIGHT OF 33,000 POUNDS OR LESS, AND CERTAIN TRAILERS.—

"(A) The tax imposed by paragraph (1) shall not apply to automobile truck chassis and automobile truck bodies, suitable for use with a vehicle which has a gross vehicle weight of 33,000 pounds or less (as determined under regulations prescribed by the Secretary).

"(B) The tax imposed by paragraph (1) shall not apply to truck trailer and semitrailer chassis and bodies, suitable for use with a trailer or semitrailer which has a gross vehicle weight of 26,000 pounds or less (as determined under regulations prescribed by the Secretary)."

(2) INCREASE IN THRESHOLD WEIGHTS FOR PARTS.—

(A) IN GENERAL.—Section 4061(b) (relating to tax on parts and accessories) is amended by adding at the end thereof the following new paragraph:

"(3) EXCLUSION FOR TRUCKS WITH GROSS VEHICLE WEIGHT OF 33,000 POUNDS OR LESS.—No tax shall be imposed by paragraph (1) on any part or accessory which, as determined under regulations prescribed by the Secretary, is suitable for use, and ordinarily used, on, or, in connection with, a vehicle having a gross vehicle weight of 33,000 pounds or less.".

(B) CONFORMING AMENDMENT.—Paragraph (1) of section 4061(b) is amended by striking out "paragraph (2)" and inserting in lieu thereof "paragraphs (2) and (3)".

(3) EXEMPTION OF CERTAIN RAIL TRAILERS AND VANS.—Subsection (a) of section 4063 (relating to exemptions for specified articles) is amended by adding at the end thereof the following new paragraph:

"(8) RAIL TRAILERS AND RAIL VANS.—The tax imposed under section 4061 shall not apply in the case of—

"(A) any chassis or body of a trailer or semitrailer which is designed for use both as a highway vehicle and a railroad car, and

"(B) any parts or accessories designed primarily for use on or in connection with an article described in subparagraph (A).

For purposes of this paragraph, a piggy-back trailer or semitrailer shall not be treated as designed for use as a railroad car."

(4) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the day after the date of the enactment of this Act.

(b) INCREASE IN PARTS TAX.—

(1) IN GENERAL.—Paragraph (1) of section 4061(b) (relating to tax on parts and accessories) is amended by striking out "8 percent of the price for which so sold, except that on and after October 1, 1984, the rate shall be 5 percent" and insert in lieu thereof "12 percent of the price for which so sold, except that no tax shall be imposed under this paragraph on and after October 1, 1989".

(2) COORDINATION WITH RETAIL SALES TAX.—

(A) Subsection (e) of section 4221 (relating to certain tax-free sales) is amended by adding at the end thereof the following new paragraph:

"(5) TRUCK PARTS AND ACCESSORIES.—Under regulations prescribed by the Secretary, the tax imposed by section 4061(b) shall not apply to any part or accessory which is sold for resale by the purchaser on or in connection with the first retail sale by such purchaser of an article which is taxable under section 4051.".

(B) Paragraph (2) of section 6416(b) (relating to special cases in which tax payments considered overpayments) is amended—

(i) by striking out "or" at the end of subparagraph (M),

(ii) by striking out the period at the end of subparagraph (N) and inserting in lieu thereof "; or", and

(iii) by inserting after subparagraph (N) the following new subparagraph:

"(O) resold on or in connection with the first retail sale of an article which was taxable under section 4051.".

(c) IMPOSITION OF RETAIL TAX ON SALE OF HEAVY TRUCKS AND TRAILERS.—

(1) IN GENERAL.—Chapter 31 is amended by adding at the end thereof the following new subchapter:

"Subchapter B—Heavy Trucks and Trailers

"Sec. 4051. Imposition of tax on heavy trucks and trailers sold at retail.

"Sec. 4052. Definitions and special rules.

"Sec. 4053. Exemptions.

"SEC. 4051. IMPOSITION OF TAX ON HEAVY TRUCKS AND TRAILERS SOLD AT RETAIL.

"(a) IMPOSITION OF TAX.—

"(1) IN GENERAL.—There is hereby imposed on the first retail sale of the following articles (including in each case parts or accessories sold on or in connection therewith or with the sale thereof) a tax of 12 percent of the amount for which the article is so sold:

"(A) Automobile truck chassis.

"(B) Automobile truck bodies.

"(C) Truck trailer and semitrailer chassis.

"(D) Truck trailer and semitrailer bodies.

"(E) Tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer.

"(2) EXCLUSION FOR TRUCKS WEIGHING 33,000 POUNDS OR LESS.—The tax imposed by paragraph (1) shall not apply to automobile truck chassis and automobile truck bodies, suitable for use with a vehicle which has a gross vehicle weight of 33,000 pounds or less (as determined under regulations prescribed by the Secretary).

"(3) EXCLUSION FOR TRAILERS WEIGHING 26,000 POUNDS OR LESS.—The tax imposed by paragraph (1) shall not apply to truck trailer and semitrailer chassis and bodies, suitable for use with a trailer or semitrailer which has a gross vehicle weight of 26,000 pounds or less (as determined under regulations prescribed by the Secretary).

"(4) SALE OF TRUCKS, ETC., TREATED AS SALE OF CHASSIS AND BODY.—For purposes of this subsection, a sale of an automobile truck or truck trailer or semitrailer shall be considered to be a sale of a chassis and of a body described in paragraph (1).

"(b) TERMINATION.—On and after October 1, 1989, the taxes imposed by this section shall not apply.

"(c) TRANSITIONAL RULE.—In the case of any article taxable under subsection (a) on which tax was paid under section 4061(a), subsection (a) shall be applied by substituting '2 percent' for '12 percent'.

"SEC. 4052. DEFINITIONS AND SPECIAL RULES.

"(a) FIRST RETAIL SALE.—For purposes of this subchapter—

"(1) IN GENERAL.—The term 'first retail sale' means the first sale, for a purpose other than for resale, after manufacture, production, or importation.

"(2) LEASES CONSIDERED AS SALES.—Rules similar to the rules of section 4217 shall apply.

"(3) USE TREATED AS SALE.—

"(A) IN GENERAL.—If any person uses an article taxable under section 4051 before the first retail sale of such article, then such person shall be liable for tax under section 4051 in the same manner as if such article were sold at retail by him.

"(B) EXEMPTION FOR USE IN FURTHER MANUFACTURE.—Subparagraph (A) shall not apply to use of an article as material in the manufacture or production of, or as a component part of, another article taxable under section 4051 to be manufactured or produced by him.

"(C) COMPUTATION OF TAX.—In the case of any person made liable for tax by subparagraph (A), the tax shall be computed on the price at which similar articles are sold at retail in the ordinary course of trade, as determined by the Secretary.

"(b) DETERMINATION OF PRICE.—

"(1) IN GENERAL.—In determining price for purposes of this subchapter—

"(A) there shall be included any charge incident to placing the article in condition ready for use,

"(B) there shall be excluded—

"(i) the amount of the tax imposed by this subchapter,

"(ii) if stated as a separate charge, the amount of any retail sales tax imposed by any State or political subdivision thereof or the District of Columbia, whether the liability for such tax is imposed on the vendor or vendee, and

"(iii) the fair market value (including any tax imposed by section 4071) at retail of any tires (not including any metal rim or rim base), and

"(C) the price shall include the value of any trade-in.

"(2) SALES NOT AT ARM'S LENGTH.—In the case of any article sold (otherwise than through an arm's-length transaction) at less than the fair market price, the tax under this subchapter shall be computed on the price for which similar articles are sold at retail in the ordinary course of trade, as determined by the Secretary.

"(c) CERTAIN COMBINATIONS NOT TREATED AS FURTHER MANUFACTURE.—For purposes of this subchapter (other than subsection (a)(3)(B)), a person shall not be treated as engaged in the manufacture of any article merely by reason of combining such article with an item described in section 4063(d).

"(d) CERTAIN OTHER RULES MADE APPLICABLE.—Under regulations prescribed by the Secretary, rules similar to the rules of—

"(1) subsections (c) and (d) of section 4216 (relating to partial payments),

"(2) subsection (f) of section 4216 (relating to certain trucks incorporating used components), and

"(3) section 4222 (relating to registration), shall apply for purposes of this subchapter.

"SEC. 4053. EXEMPTIONS.

"(a) EXEMPTION OF SPECIFIED ARTICLES.—No tax shall be imposed under section 4051 on any article specified in subsection (a) of section 4063.

"(b) CERTAIN EXEMPTIONS MADE APPLICABLE.—The exemptions provided by section 4221(a) are hereby extended to the tax imposed by section 4051."

(2) TECHNICAL AND CONFORMING AMENDMENTS.—

(A) Chapter 31 is amended by striking out the chapter heading and inserting in lieu thereof the following:

"CHAPTER 31—RETAIL EXCISE TAXES

"Subchapter A. Special fuels.

"Subchapter B. Heavy trucks and trailers.

"Subchapter A—Special Fuels".

(B) The table of chapters for subtitle D is amended by striking out the item relating to chapter 31 and inserting in lieu thereof the following new item:

"Chapter 31. Retail excise taxes."

(C) Paragraph (2) of section 6416(b), as amended by this Act, is amended by inserting "or under section 4051" after "section 4041(a)".

(D) Paragraph (1) of section 6416(a) is amended by striking out "chapter 31 (special fuels)" and inserting in lieu thereof "chapter 31 (relating to retail excise taxes)".

(3) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on April 1, 1983.

SEC. 113. HEAVY TRUCK USE TAX.

(a) INCREASE IN RATE OF TAX.—Subsection (a) of section 4481 (relating to imposition of tax) is amended to read as follows:

"(a) IMPOSITION OF TAX.—A tax is hereby imposed on the use of any highway motor vehicle which (together with the semitrailers and trailers customarily used in connection with highway motor vehicles of the same type as such highway motor vehicle) has a taxable gross weight of at least 33,000 pounds at the rate specified in the following table:

"Taxable gross weight		
At least	But less than	Rate of tax
33,000 pounds.....	55,000 pounds.....	$80 a year, plus $10 for each 1,000 pounds or fraction thereof in excess of 33,000 pounds.
55,000 pounds.....	80,000 pounds.....	$300 a year, plus $52 for each 1,000 pounds or fraction thereof in excess of 55,000 pounds.
80,000 pounds or more.	.....	$1,600 a year."

(b) EXEMPTION WHERE TRUCK USED FOR 5,000 MILES OR LESS ON PUBLIC HIGHWAYS.—Section 4483 (relating to exemptions from highway use tax) is amended by adding after subsection (c) thereof the following new subsection:

"(d) EXEMPTION FOR TRUCKS USED FOR 5,000 MILES OR LESS ON PUBLIC HIGHWAYS.—

"(1) SUSPENSION OF TAX.—

"(A) IN GENERAL.—If—

"(i) it is reasonable to expect that the use of any highway motor vehicle on public highways during any taxable period will be 5,000 miles or less, and

"(ii) the owner of such vehicle furnishes such information as the Secretary may by forms or regulations require with respect to the expected use of such vehicle,

then the collection of the tax imposed by section 4481 with respect to the use of such vehicle shall be suspended during the taxable period.

"(B) SUSPENSION CEASES TO APPLY WHERE USE EXCEEDS 5,000 MILES.—Subparagraph (A) shall cease to apply with respect to any highway motor vehicle whenever the use of such vehicle on public highways during the taxable period exceeds 5,000 miles.

"(2) EXEMPTION.—If—

"(A) the collection of the tax imposed by section 4481 with respect to any highway motor vehicle is suspended under paragraph (1),

"(B) such vehicle is not used during the taxable period on public highways for more than 5,000 miles, and

"(C) except as otherwise provided in regulations, the owner of such vehicle furnishes such information as the Secretary may require with respect to the use of such vehicle during the taxable period,

then no tax shall be imposed by section 4481 on the use of such vehicle for the taxable period.

"(3) REFUND WHERE TAX PAID AND VEHICLE NOT USED FOR MORE THAN 5,000 MILES.—If—

"(A) the tax imposed by section 4481 is paid with respect to any highway motor vehicle for any taxable period, and

"(B) the requirements of subparagraphs (B) and (C) of paragraph (2) are met with respect to such taxable period,

the amount of such tax shall be credited or refunded (without interest) to the person who paid such tax.

"(4) OWNER DEFINED.—For purposes of this subsection, the term 'owner' means, with respect to any highway motor vehicle, the person described in section 4481(b)."

(c) CLARIFICATION OF TRAILERS CUSTOMARILY USED IN CONNECTION WITH HIGHWAY MOTOR VEHICLES.—

(1) Subsection (c) of section 4482 is amended by adding at the end thereof the following new paragraph:

"(5) CUSTOMARY USE.—A semitrailer or trailer shall be treated as customarily used in connection with a highway motor vehicle if such vehicle is equipped to tow such semitrailer or trailer."

(2) The heading for subsection (c) of section 4482 is amended by inserting "AND SPECIAL RULE" after "DEFINITIONS".

(d) SPECIAL RULE FOR TAXABLE PERIOD IN WHICH TERMINATION DATE OCCURS.—Section 4482 is amended by adding at the end thereof the following new subsection:

"(d) SPECIAL RULE FOR TAXABLE PERIOD IN WHICH TERMINATION DATE OCCURS.—In the case of the taxable period which ends on September 30, 1989, the amount of the tax imposed by section 4481 with respect to any highway motor vehicle shall be determined by reducing each dollar amount in the table contained in section 4481(a) by 75 percent."

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section shall take effect on January 1, 1984.

(2) SHORT TAXABLE PERIODS.—For purposes of subchapter D of chapter 36 of the Internal Revenue Code of 1954—

(A) the period beginning on July 1, 1983, and ending on December 31, 1983, and

(B) the period beginning on January 1, 1984, and ending on June 30, 1984,

shall each be treated as a taxable period.

(3) TRANSITIONAL RULE FOR FIRST SHORT PERIOD.—In the case of the taxable period beginning on July 1, 1983, the tax imposed by section 4481(a) of such Code with respect to the use of any highway motor vehicle shall be determined by substituting "$1.50 for such period" for "$3.00 a year" in such section 4481(a).

(4) TRANSITIONAL RULE FOR SECOND SHORT PERIOD.—In the case of the taxable period beginning on January 1, 1984, the amount of the tax imposed by section 4481(a) of such Code (as amended by this section) on the use of any highway motor vehicle shall be an amount equal to the sum of—

(A)(i) one-sixth of the amount of the tax imposed by such section (determined without regard to this paragraph), plus

(ii) one dollar multiplied by the number of thousands of pounds (or fraction thereof) in the gross weight of such vehicle, and

(B) subsection (d) of section 4483 of such Code (as amended by this section) shall be applied by substituting "2,500" for "5,000" each place it appears.

Notwithstanding clauses (i) and (ii) of subparagraph (A), no tax shall be imposed on any highway motor vehicle weighing 33,000 pounds or less.

(5) TRANSITIONAL RULE FOR THE TAXABLE PERIOD BEGINNING ON JULY 1, 1984.—In the case of the taxable period beginning on July 1, 1984, the amount of the tax imposed by section 4481(a) of such Code (as amended by this section) on the use of any highway motor vehicle shall be an amount equal to the sum of—

(A) two-thirds of the amount of the tax imposed by such section (determined without regard to this paragraph), plus

(B) one dollar multiplied by the number of thousands of pounds (or fraction thereof) in the gross weight of such vehicle, and

(6) COORDINATION WITH INSTALLMENT PAYMENT OF TAX.—

(A) The Secretary of the Treasury or his delegate shall by forms or regulation provide for appropriate adjustments in the application of section 6156 of such Code with respect to the taxable periods referred to in paragraph (2).

(B) For purposes of subparagraph (A)—

(i) there shall be substituted for the table appearing in section 6156(a) of such Code the following table:

"If liability is incurred in—	The number of installments shall be—
July, August, September, January, February, or March	2",

and

(ii) in lieu of subsection (e) of such section 6156, this paragraph shall not apply to any liability for tax incurred in October, November, December, April, May, or June.

(f) STUDY OF ALTERNATIVES TO TAX ON USE OF HEAVY TRUCKS.—

(1) IN GENERAL.—The Secretary of Transportation (in consultation with the Secretary of the Treasury) shall conduct a study of—

(A) alternatives to the tax on heavy vehicles imposed by section 4481(a) of the Internal Revenue Code of 1954, and

(B) plans for improving the collecting and enforcement of such tax and alternatives to such tax.

(2) ALTERNATIVES INCLUDED.—The alternatives studied under paragraph (1) shall include taxes based either singly or in suitable combinations on vehicle size or configuration; vehicle weight, both registered and actual operating weight; and distance traveled. Plans for improving tax collection and enforcement shall, to the extent practical, provide for Federal and State cooperation in such activities.

(3) CONSULTATION WITH STATE OFFICIALS AND OTHER AFFECTED PARTIES.—The study required under subsection (a) shall be conducted in consultation with State officials, motor carriers, and other affected parties.

(4) REPORT.—Not later than January 1, 1985, the Secretary of Transportation shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report on the study conducted under paragraph (1) together with such recommendations as he may deem advisable.

SEC. 114. TAXES ON TIRES, INNER TUBES, AND TREAD.

(a) GENERAL RULE.—Subsection (a) of section 4071 (relating to imposition and rate of tax on tires and tubes) is amended to read as follows:

"(a) IMPOSITION AND RATE OF TAX.—There is hereby imposed on the following articles, if wholly or in part made of rubber, sold by the manufacturer, producer, or importer, a tax at the following rates:

"(1) Tires of the type used on highway vehicles, at the rate determined under the following table:

If the tire weighs:	The rate of tax is:
50 lbs or less	9.75 cents per lb.
More than 50 lbs. but not more than 100 lbs.	$4.875 plus 15 cents per lb. for each lb. in excess of 50 lbs.
More than 100 lbs	$12.375 plus 25 cents per lb. for each lb. in excess of 100 lbs.

"(2) Inner tubes for tires, 10 cents per pound.

"(3) Tread rubber, at the rate determined under the following table with respect to the tire on which the tread rubber is used:

If such tire weighs:	The rate of tax is:
50 lbs. or less	5 cents per lb.
More than 50 lbs. but not more than 100 lbs.	8 cents per lb.
More than 100 lbs	16 cents per lb.".

(b) TECHNICAL AND CLERICAL AMENDMENTS.—

(1) Subsection (b) of section 4218 is amended by striking out "Except as provided in subsection (d), if" and inserting in lieu thereof "If".

(2) Section 4218 is amended by striking out subsection (d) and by redesignating subsection (e) as subsection (d).

(3) Subsection (a) of section 4218 is amended by striking out "(b), (c), or (d)" and inserting in lieu thereof "(b) or (c)".

(4) Subsection (e) of section 4221 is amended by striking out paragraph (4) and by redesignating paragraphs (5) and (6) as paragraphs (3) and (4), respectively.

(5) Paragraph (3) of section 4221(e), as redesignated by paragraph (4), is amended—

(A) by striking out "(3)" in subparagraph (A) and inserting in lieu thereof "(2)", and

(B) by striking out "paragraph (4)" in subparagraph (B) and inserting in lieu thereof "paragraph (3)".

(6) Paragraph (1) of section 6412(a) is amended—

(A) by striking out "4071(a) (1), (3), or (4)" and inserting in lieu thereof "4071(a) (1), (2), or (3)", and

(B) by striking out the last sentence.

(7) Subparagraph (A) of section 6412(a)(2) is amended by striking out "section 4071(a)(4)" and inserting in lieu thereof "section 4071(a)(3)"

(8) Subparagraph (G) of section 6416(b)(2) is amended—

(A) by striking out "section 4071(a)(4)" and inserting in lieu thereof "section 4071(a)(3)"

(B) by striking out "or" at the end of clause (iii),

(C) by adding "or" at the end of clause (iv), and

(D) by inserting after clause (iv) the following new clause:

"(v) used, or sold for use, in the recapping or retreading of a tire which weighs less than the weight of the tire with respect to which such tax was imposed,".

(9) Subparagraph (L) of section 6416(b)(2) is amended to read as follows:

"(L) in the case of any tire or inner tube taxable under paragraph (1) or (2) of section 4071(a), sold to any person for use as described in section 4221(e)(3)(A);".

(10) Subparagraph (M) of section 6416(b)(2) is amended by striking out "paragraph (4)" and inserting in lieu thereof "paragraph (3)".

(11) Subparagraph (D) of section 6416(b)(3) is amended by striking out "section 4071(a)(4)" and inserting in lieu thereof "section 4071(a)(3)".

(12) Paragraph (3) of section 6416(b) is amended by striking out subparagraph (E), by adding "or" at the end of subparagraph (D), and by redesignating subparagraph (F) as subparagraph (E).

(13) Subparagraph (A) of section 6416(b)(4) is amended by striking out "section 4071(a)(4)" and inserting in lieu thereof "section 4071(a)(3)".

(14) Paragraph (3) of section 9502(b) is amended by striking out "under paragraphs (2) and (3) of section 4071(a), with respect to

tires and" and inserting in lieu thereof "section 4071(a)(2) with respect to".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to articles sold on or after April 1, 1983.

SEC. 115. TAX ON SYNTHETIC LUBRICATING OIL.

(a) IN GENERAL.—Section 4092 (relating to definitions) is amended by adding at the end thereof the following new subsection:

"(c) SYNTHETIC LUBRICATING OILS.—For purposes of this subpart, the term 'lubricating oil' includes any synthetic lubricating oil.".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to articles sold after the date of the enactment of this Act.

SEC. 116. PERIOD TAXES AND EXEMPTIONS IN EFFECT.

(a) PERIOD TAXES IN EFFECT.—

(1) SPECIAL FUELS TAX.—

(A) Subsection (a) of section 4041 (as amended by this Act) is amended by adding at the end thereof the following new paragraph:

"(3) TERMINATION.—On and after October 1, 1989, the taxes imposed by this subsection shall not apply."

(B) Subsection (e) of section 4041 is hereby repealed.

(2) TIRES AND TREAD RUBBER.—Subsection (d) of section 4071 is amended to read as follows:

"(d) TERMINATION.—On and after October 1, 1989, the taxes imposed by subsection (a) shall not apply."

(3) GASOLINE.—Subsection (b) of section 4081 is amended to read as follows:

"(b) TERMINATION.—On and after October 1, 1989, the taxes imposed by this section shall not apply."

(4) HIGHWAY USE TAX.—Sections 4481(e) and 4482(c)(4) are each amended by striking out "1984" each place it appears and inserting in lieu thereof "1989".

(5) FLOOR STOCKS TAXES.—Paragraph (1) of section 6412(a) (relating to floor stocks refunds) is amended—

(A) by striking out "1985" each place it appears and inserting in lieu thereof "1990" and

(B) by striking out "1984" each place it appears and inserting in lieu thereof "1989".

(6) OTHER PROVISIONS.—Paragraph (2) of section 6156(e) (relating to installment payments of tax on use of highway motor vehicles) and subsection (h) of section 6421 (relating to tax on gasoline used for certain nonhighway purposes or by local transit systems) are each amended by striking out "1984" and inserting in lieu thereof "1989".

(b) TERMINATION OF EXEMPTIONS.—

(1)(A) Subsection (f) of section 4041 is amended by adding at the end thereof the following new paragraph:

"(3) TERMINATION.—On and after October 1, 1989, paragraph (1) shall not apply."

(B) Subsection (g) of section 4041 is amended by adding at the end thereof the following new sentence: "Paragraphs (2) and (4) shall not apply on and after October 1, 1989."

(2) Subsection (a) of section 4221 (relating to certain tax resales) is amended by adding at the end thereof the following new sentence: "In the case of taxes imposed by section 4051, 4061, 4071, or 4081, paragraphs (4) and (5) shall not apply on and after October 1, 1989."

(3) Section 4483 (relating to exemption for highway use tax) is amended by adding after subsection (d) thereof the following new subsection:

"(e) TERMINATION OF EXEMPTIONS.—Subsections (a) and (c) shall not apply on and after October 1, 1989."

(4) Section 6420 (relating to gasoline used on farms) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

"(h) TERMINATION.—This section shall apply only with respect to gasoline purchased before October 1, 1989."

(5) Section 6427 is amended by redesignating subsection (l) as subsection (m) and by inserting after subsection (k) the following new subsection:

"(l) TERMINATION OF SUBSECTIONS (a), (b), (c), AND (d).—Subsections (a), (b), (c), and (d) shall only apply with respect to fuels purchased before October 1, 1989."

SEC. 117. TREATMENT OF CERTAIN MOTOR CARRIER OPERATING AUTHORITIES ACQUIRED BY TAXPAYERS OTHER THAN CORPORATIONS.

(a) GENERAL RULE.—Paragraph (2) of section 266(c) of the Economic Recovery Tax Act of 1981 (relating to stock acquisitions of motor carrier operating authorities) is amended by redesignating subparagraph (B) as subparagraph (C) and by inserting after subparagraph (A) the following new subparagraph:

"(B) TREATMENT OF CERTAIN NONCORPORATE TAXPAYERS.—Under regulations prescribed by the Secretary of the Treasury or his delegate, and at the election of the holder of the authority, in any case in which—

"(i) a noncorporate taxpayer or group of noncorporate taxpayers on or before July 1, 1980, acquired in one purchase stock in a corporation which held, directly or indirectly, any motor carrier operating authority at the time of such acquisition, and

"(ii) the acquisition referred to in clause (i) would have satisfied the requirements of subparagraph (A) if the stock had been acquired by a corporation,

then, for purposes of subparagraphs (A) and (C), the noncorporate taxpayer or group of noncorporate taxpayers referred to in clause (i) shall be treated as a corporation. The preceding sentence shall apply only if such noncorporate taxpayer (or group of noncorporate taxpayers) on July 1, 1980, held stock constituting control (within the meaning of section 368(c) of the Internal Revenue Code of 1954) of the corporation holding (directly or indirectly) the motor carrier operating authority."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years ending after July 30, 1980.

SEC. 118. EXTENSION OF PAYMENT DUE DATE FOR CERTAIN FUEL TAXES.

(a) IN GENERAL.—The Secretary shall prescribe regulations which permit any qualified oil jobber whose liability for tax under section 4081 of the Internal Revenue Code of 1954 is payable with respect to semimonthly periods to pay such tax on or before the date which is 15 days after the close of such semimonthly period if such payment is made by wire transfer to any government depository authorized under section 6302 of such Code.

(b) QUALIFIED OIL JOBBER DEFINED.—For purposes of this section—

(1) IN GENERAL.— the term "qualified oil jobber" means any wholesale distributor who—

(A) has made an election to be treated as a producer under section 4082(d) of such Code, and

(B) for the semimonthly period, has sold 2,000,000 gallons or less of gasoline which is taxable under section 4081 of such Code.

(2) AGGREGATION OF SALES.—The sales of gasoline taxable under section 4081 of such Code of—

(A) all trades or businesses (whether or not incorporated) which are under common control with the distributor (within the meaning of section 52(b)), and

(B) all members of any controlled group of corporations of which the distributor is a member,

for any semi-monthly period shall be included in the sales of the distributor for such period. The Secretary shall prescribe regulations which provide attribution rules that take into account, in addition to the persons and entities described in the preceding sentence, taxpayers who engage in wholesale distribution of gasoline through partnerships, joint ventures, and corporations.

(3) CONTROLLED GROUP OF CORPORATIONS.—The term "controlled group of corporations" has the meaning given to such term by section 1563(a), except that—

(A) "more than 50 percent" shall be substituted for "at least 80 percent" each place it appears in section 1563(a)(1), and

(B) the determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of section 1563.

Subtitle C—Floor Stocks Provisions

SEC. 121. FLOOR STOCKS TAXES.

(a) 1983 TAX ON GASOLINE.—On gasoline subject to tax under section 4081 which, on April 1, 1983, is held by a dealer for sale, there is hereby imposed a floor stocks tax at the rate of 5 cents a gallon.

(b) 1983 TAX ON TIRES AND TREAD RUBBER.—On any article which would be subject to tax under paragraph (1) or (2) of section 4071(a) if sold by the manufacturer, producer, or importer on or after April 1, 1983, which on April 1, 1983, is held by a dealer and has not been used and is intended for sale, there shall be imposed a floor stocks tax equal to the product of—

(1) the number of pounds, multiplied by

(2) the excess of the rate in effect under section 4071(a) on April 1, 1983, over such rate in effect on March 31, 1983.

In the case of tread rubber, the tax imposed by this subsection shall not apply in the case of any person if such person establishes, to the satisfaction of the Secretary of the Treasury or his delegate, that all tread rubber held by him on April 1, 1983, will be used otherwise than in the recapping or retreading of tires which are of the type used on highway vehicles (as defined in section 4072(c)).

(c) 1983 TAX ON TRUCK PARTS AND ACCESSORIES.—On any article which would be subject to tax under section 4061(b) if sold by the manufacturer, producer, or importer, on or after April 1, 1983, which on April 1, 1983, is held by a dealer and has not been used and is intended for sale, there shall be imposed a floor stocks tax equal to 4 percent of 90 percent of the price for which the dealer purchased such article.

(d) TAX ON SYNTHETIC LUBRICATING OILS.—On any synthetic lubricating oil which would be subject to tax under section 4091(b) if sold by the manufacturer, producer, or importer, on or after the date of the enactment of this Act (and on which no tax was imposed on or before such date), which on such date of enactment is held by a dealer and has not been used and is intended for sale, there shall be imposed a floor stocks tax equal to 6 cents per gallon.

(e) OVERPAYMENT OF FLOOR STOCKS TAXES.—Section 6416 shall apply in respect of the floor stocks taxes imposed by this sec-

tion, so as to entitle, subject to all provisions of section 6416, any person paying such floor stocks taxes to a credit or refund thereof for any of the reasons specified in section 6416.

(f) DUE DATE OF TAXES.—The taxes imposed by this section shall be paid at such time after May 15, 1983, as may be prescribed by the Secretary of the Treasury or his delegate.

(g) TRANSFER OF FLOOR STOCKS TAXES TO HIGHWAY TRUST FUND.—For purposes of determining the amount transferred to the Highway Trust Fund for any period, the taxes imposed by this section shall be treated as if they were imposed by section 4061, 4071, 4081, or 4091 of the Internal Revenue Code of 1954, whichever is appropriate.

SEC. 122. FLOOR STOCKS REFUNDS.

(a) GENERAL RULE.—

(1) IN GENERAL.—Where, before the day after the date of the enactment of this Act, any tax-repealed article has been sold by the manufacturer, producer, or importer and on such day is held by a dealer and has not been used and is intended for sale, there shall be credited or refunded (without interest) to the manufacturer, producer, or importer an amount equal to the tax paid by such manufacturer, producer, or importer on his sale of the article if—

(A) claim for such credit or refund is filed with the Secretary of the Treasury or his delegate on or before October 1, 1983, based on a request submitted to the manufacturer, producer, or importer before July 1, 1983, by the dealer who held the article in respect of which the credit or refund is claimed, and

(B) on or before October 1, 1983, reimbursement has been made to the dealer by the manufacturer, producer, or importer in an amount equal to the tax paid on the article or written consent has been obtained from the dealer to allowance of the credit or refund.

(2) LIMITATION ON ELIGIBILITY FOR CREDIT OR REFUND.—No manufacturer, producer, or importer shall be entitled to credit or refund under paragraph (1) unless he has in his possession such evidence of the inventories with respect to which the credit or refund is claimed as may be required by regulations prescribed by the Secretary of the Treasury or his delegate under this subsection.

(3) OTHER LAWS APPLICABLE.—All provisions of law, including penalties, applicable with respect to the taxes imposed by section 4061 or 4071 (whichever is appropriate) shall, insofar as applicable and not inconsistent with paragraphs (1) and (2) of this subsection, apply in respect of the credits and refunds provided for in paragraph (1) to the same extent as if the credits or refunds constituted overpayments of the tax.

(b) REFUNDS WITH RESPECT TO CERTAIN CONSUMER PURCHASES OF TRUCKS AND TRAILERS.—

(1) IN GENERAL.—Except as otherwise provided in paragraph (2), where after November 28, 1982, and before the day after the date of the enactment of this Act, a tax-repealed article on which tax was imposed by section 4061(a) has been sold to an ultimate purchaser, there shall be credited or refunded (without interest) to the manufacturer, producer, or importer of such article an amount equal to the tax paid by such manufacturer, producer, or importer on his sale of the article.

(2) LIMITATION OF ELIGIBILITY FOR CREDIT OR REFUND.—No manufacturer, producer, or importer shall be entitled to a credit or refund under paragraph (1) with respect to an article unless—

(A) he has in his possession such evidence of the sale of the article to an ultimate purchaser, and of the reimbursement of the tax to such purchaser, as may be required by regulations prescribed by the Secretary of the Treasury or his delegate under this subsection,

(B) claim for such credit or refund is filed with the Secretary of the Treasury or his delegate on or before October 1, 1983, based on information submitted to the manufacturer, producer, or importer before July 1, 1983, by the person who sold the article (in respect of which the credit or refund is claimed) to the ultimate purchaser, and

(C) on or before October 1, 1983, reimbursement has been made to the ultimate purchaser in an amount equal to the tax paid on the article.

(3) OTHER LAWS APPLICABLE.—All provisions of law, including penalties, applicable with respect to the taxes imposed by section 4061(a) shall, insofar as applicable and not inconsistent with paragraph (1) or (2) of this subsection, apply in respect of the credits and refunds provided for in paragraph (1) to the same extent as if the credits or refunds constituted overpayments of the tax.

(c) CERTAIN USES BY MANUFACTURER, ETC.—In the case of any article which was subject to the tax imposed by section 4061(a) (as in effect on the day before the date of the enactment of this Act), any tax paid by reason of section 4218(a) (relating to use by manufacturer or importer considered sale) with respect to a tax-repealed article shall be deemed to be an overpayment of such tax if tax was imposed on such article after November 28, 1982, by reason of section 4218(a).

(d) TRANSFER OF FLOOR STOCKS REFUNDS FROM HIGHWAY TRUST FUND.—The Secretary of the Treasury shall pay from time to time from the Highway Trust Fund into the general fund of the Treasury amounts equivalent to the floor stocks refunds made under this section.

SEC. 123. DEFINITIONS AND SPECIAL RULES.

(a) IN GENERAL.—For purposes of this subtitle—

(1) The term "dealer" includes a wholesaler, jobber, distributor, or retailer.

(2) An article shall be considered as "held by a dealer" if title thereto has passed to such dealer (whether or not delivery to him has been made) and if for purposes of consumption title to such article or possession thereof has not at any time been transferred to any person other than a dealer.

(3) The term "tax-repealed article" means any article on which a tax was imposed by section 4061(a) or 4061(b) as in effect on the day before the date of the enactment of this Act, and which will not be subject to tax under section 4061(a) or 4061(b) as in effect on the day after the date of the enactment of this Act.

(4) Except as otherwise expressly provided herein, any reference in this subtitle to a section or other provision shall be treated as a reference to a section or other provision of the Internal Revenue Code of 1954.

(b) 1983 EXTENSION OF FLOOR STOCKS REFUND TO TIRES.—

(1) IN GENERAL.—In the case of an article on which a tax was imposed by section 4071(a) as in effect on March 31, 1983, and which will not be subject to tax under such section as in effect on April 1, 1983, such article shall be treated as a tax-repealed article for purposes of subsection (a) of section 522.

(2) ALLOWANCE OF REFUND.—In the case of a tax-repealed article to which paragraph (1) applies, subsection (a) of section 522 shall be applied by treating March 31, 1983, as the date of the enactment of this Act.

Subtitle D—Highway Trust Fund; Mass Transit Account

SEC. 131. EXTENSION OF HIGHWAY TRUST FUND.

(a) EXTENSION.—Subsections (c) and (f) (3), (4), (6), and (7) of section 209 of the Highway Revenue Act of 1956 (23 U.S.C. 120 note) are amended as follows:

(1) by striking "October 1, 1984" each place it appears and inserting in lieu thereof "October 1, 1989", and

(2) by striking "September 30, 1984", each place it appears and inserting in lieu thereof "September 30, 1989", and

(3) by striking "July 1, 1985" each place it appears and inserting in lieu thereof "July 1, 1990".

(b) CONFORMING AMENDMENTS.—

(1) MANAGEMENT OF TRUST FUND.—Subsection (e)(1) of section 209 of the Highway Revenue Act of 1956 is amended by striking "Commerce" and inserting in lieu thereof "Transportation", and by striking "up to and including the fiscal year ending September 30, 1985".

(2) EXPENDITURES FROM TRUST FUND.—Subsection (f)(1) of section 209 of the Highway Revenue Act of 1956 is amended as follows:

"(1) FEDERAL-AID HIGHWAY PROGRAM.—Amounts in the Trust Fund shall be available, as provided by appropriation Acts, for making expenditures before October 1, 1990, to meet those obligations of the United States heretofore or hereafter incurred which are authorized by law or which are attributable to Federal-aid highways (including those portions of general administrative expenses of the Federal Highway Administration payable from such appropriations)."

(c) INVESTIGATION AND REPORT TO CONGRESS.—Section 210 of the Highway Revenue Act of 1956 is repealed.

(d) CONFORMING AMENDMENTS TO LAND AND WATER CONSERVATION FUND.—Subsection (b) of section 201 of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4061-11) is amended as follows:

(1) by striking "October 1, 1984" and inserting in lieu thereof "October 1, 1989"; and

(2) by striking "July 1, 1985" each place it appears and inserting in lieu thereof "July 1, 1990".

(e) INCREASE IN AMOUNT TRANSFERRED TO NATIONAL RECREATIONAL BOATING SAFETY AND FACILITIES IMPROVEMENT FUND.—Clause (ii) of section 209(f)(5)(A) of the Highway Revenue Act of 1956 (23 U.S.C. 120 note) is amended—

(1) by striking out "$20,000,000" and inserting in lieu thereof "$45,000,000", and

(2) by striking out "October 1, 1983" and inserting in lieu thereof "October 1, 1989".

SEC. 132. MASS TRANSIT ACCOUNT.

(a) IN GENERAL.—Section 209 of the Highway Revenue Act of 1956 is amended by adding at the end thereof the following new subsection:

"(h) MASS TRANSIT ACCOUNT.—

"(1) IN GENERAL.—There is established on the books of the Treasury of the United States an account within the Highway Trust Fund to be known as the 'Mass Transit Account'.

"(2) TRANSFERS TO MASS TRANSIT ACCOUNT.—The Secretary of the Treasury shall transfer to the Mass Transit Account 1/9 of the amounts appropriated to the Highway Trust Fund under this section which are attributable to taxes under sections 4041 and 4081 imposed after March 31, 1983.

"(3) EXPENDITURES FROM ACCOUNT.—Amounts in the Mass Transit Account shall be available, as provided by appropriation

Acts, for making capital expenditures before October 1, 1989 (including capital expenditures for new projects), under section 22 of the Urban Mass Transportation Act of 1964.

"(4) DUTIES OF THE SECRETARY OF THE TREASURY WITH RESPECT TO THE MASS TRANSIT ACCOUNT.—It shall be the duty of the Secretary of the Treasury to manage the Mass Transit Account and to make an annual report to the Congress as provided in subsection (e) of this section. The interest on, and the proceeds from the sale or redemption of any obligation held in the Mass Transit Account shall be credited to and form a part of the Mass Transit Account.

"(5) REPAYABLE ADVANCES.—There are hereby authorized to be appropriated to the Mass Transit Account, as repayable advances, such additional sums as may be required to make the expenditures referred to in paragraph (3) of this section. Advances made pursuant to this paragraph shall be repaid and interest on such advances shall be paid to the general fund of the Treasury when the Secretary of the Treasury determines that moneys are available in the Mass Transit Account for such purposes. Such interest shall be at rates computed in the same manner as provided in subsection (e)(2) of this section for special obligations and shall be compounded annually."

The PRESIDING OFFICER. The Senator from Kansas is recognized.

Mrs. KASSEBAUM. Mr. President, I wish to speak for a moment to an issue that has been debated in one form or another, and that is the natural gas price increase.

I very much appreciate that the Energy Committee was holding hearings yesterday and there was a colloquy in the Chamber this morning. But I think at this particular time——

The PRESIDING OFFICER. The Senator from Kansas will suspend for a moment. The Chair requests that there be order in the Chamber so that the Senator's remarks may be heard.

Senators are requested to return to their desks and coversations should be conducted in the cloakroom.

The Senator from Kansas.

Mrs. KASSEBAUM. I thank the President.

NATURAL GAS

Mr. President, I just wish to say in my opening that I am very appreciative of those who have expressed concern about this issue. There was a thoughtful debate of this yesterday in the Energy Committee.

Mr. President I applaud the concern that the Senators from Missouri and others have demonstrated over the natural gas crisis facing us this winter. It is clear that something is drastically wrong in the natural gas marketplace today, and this is a point in time which we can discuss it on the Senate floor. Consumers are being forced to pay high rates, rapidly increasing, in a time of surplus supplies. I can think of no more stinging indictment of the operation of the market than this fact. One can analyze the market ad infinitum, attempt to dissect it in minute statistical detail and you are still left with the unlikely pair of increasing price and growing surplus.

Absolutely no purpose is served by attempts to place the blame on any one segment of the industry. The producers blame the pipelines. The pipelines blame the producers. The utilities point the finger upstream at the pipelines. The only sure thing to emerge from this morass is that the consumers are indeed blameless, but are the ones suffering. Some segments of the industry urge us to be patient; the various parties will work things out voluntarily, we are told. I would be the first to endorse such a "hands off" approach if the end users in this market were free to choose among alternatives. They clearly are not. We must not turn our backs on the very people who bear the consequences of this distorted market.

It is necessary to break down the total wellhead price increase in order to get at the source of this artificial price inflation. From mid-1981 to mid-1981, the average wellhead price of natural gas rose aproximately 17 percent. Recent figures indicate that this wellhead increase accounts for about 70 percent of the increase in consumer rates. Some of this wellhead increase is attributable to the increasing ceiling prices for gas set in the NGPA. According to a study of the Energy Information Administration, more than 75 percent of the increase, however, is due to increasing the purchases of the high cost, section 107 gas. We need to look no further than the Hugoton field in Kansas to see these statistics brought to life. In the 5-year period beginning in 1977, five major pipelines drawing from the Hugoton field saw their total supplies from all fields grow by a modest 1.4 percent. During that same timeframe, however, the five pipelines' total take of Hugoton gas actually declined by more than 26 percent. What made up this discrepancy? Most of it was made up by an increase, this winter alone, of over 42 Bcf in the purchases of high-cost Wyoming and Canadian gas. When you consider the fact that the average Hugoton sale this winter will average below 0.50 Mcf, while the high-priced gas ranges from $6 to $9 Mcf, the absurdity of the market becomes very evident.

What would lead rational businessmen to foresake our inexpensive, conventional gas for exotic, high-priced supplies? The main culprit, I believe, is the pervasive existence of take-or-pay obligations binding pipelines to producers. High take-or-pay percentages based on open-well deliverability have so restricted the natural gas market that it cannot respond in a rational manner. Estimates of the portion of total supplies subject to take-or-pay obligations range as high as 80 percent. Quite clearly, these take-or-pay obligations lead to the abandonment of low-cost sources of gas first in a period of slackening demand.

The amendment that I have offered addresses these twin problems of escalating ceiling prices and take-or-pay contracts.

In that respect, it is very similar to the proposal of the Senators from Missouri, Senator DANFORTH and Senator EAGLETON. Indeed, the portion dealing with ceiling prices under the NGPA is very similar to that proposed earlier in the session as well by Senator EAGLETON and a number of other bills that have been introduced.

I wish that we could have delayed consideration of these proposals until the Energy Committee has had a chance to consider the natual gas question in a hearing scheduled for this coming Monday. However, I feel compelled to point out a significant difference in the way in which my amendment and that offered by Senator DANFORTH deal with the take-or-pay problem. Under Senator DANFORTH'S approach, every take-or-pay obligation created since 1978 would be voided automatically. This would occur regardless of the reasonable percentage level of the obligation and without regard to the effect that this voiding would have on the validity of the reminder of the contract. The massive upheaval and uncertainty that this action would cause in the natural gas marketplace could very well harm the very consumers that it is designed to help.

It is with great reluctance that I approach any legislative action on private contracts. Were it not for the overriding public interest involved in this situation, I would not even suggest such a course of action. We should adopt the narrowest and most specifically targeted approach possible. My amendment will seek to deal with the take-or-pay situation by allowing and encouraging pipelines to adopt a more balanced mix between low-cost and high-cost gas. The main tool to be used in achieving this goal will be a specific grant of legislative authority to FERC which will allow pipelines to abrogate or modify their take-or-pay obligations in order to permit them to increase their usage of lower cost gas. A prudence standard will be added to the current grounds of fraud, abuse, and misrepresentation contained in section 601 of the NGPA for denying purchased gas adjustments. These two features would work together to disallow the passthrough of purchased gas costs when it could be shown that a pipeline had imprudently failed to avail itself of the opportunity to modify its take-or-pay obligations. It is important to realize that my legislation will not prevent the passthrough of costs without giving the pipelines the opportunity to modify their take-or-pay obligations.

To do so for an extended period of time would clearly be unfair in that it would leave pipelines obligated to the producer while denying them the mechanism to recover the costs in question. I believe this to be a more responsible approach which avoids the problems created by an automatic voiding of all post 1978 take-or-pay obligations.

To help insure that pipelines have sufficient incentive to purchase lower cost gas, my amendment would require FERC to apply an incentive rate of return procedure in pipeline rate cases. The goal of such a device will be to encourage a pipeline to contract for the maximum amount of low-cost gas which is consistent with that pipeline's long-term supply and demand posture and its physical characteristics. I do not believe that a rigid, legislated, incentive rate of return based on purchases above some mythical "market-clearing price" would be desirable. In practice, such a price would be impossible to determine and individual pipeline conditions might well make its application inappropriate anyway.

Whatever action we take here today, we should realize that a comprehensive examination of the NGPA is desparetely needed in the upcoming 98th Congress. This does not preclude us, however, from taking steps to give some relief to those who are suffering so unfairly from current, artifically inflated natural gas prices.

Mr. President, I ask unanimous consent that I might yield to the Senator from Missouri (Mr. DANFORTH) for the purpose of debate only without losing my right to the floor, and that upon being recognized, the continuation of my speech not be counted as a second speech under rule XIX, and that I be allowed to leave the Chamber when I have so yielded, and I might be recognized at the conclusion of Senator DANFORTH's remarks.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

The Senator from Missouri is recognized.

Mr. DANFORTH. Mr. President, I thank the Senator from Kansas, and I thank the Chair.

Mr. President, rising natural gas prices are creating a genuine crisis in my State and in other States that rely on this fuel for home heating. The rapid escalation of gas costs is causing serious hardship, not only to the poor and the elderly, but also to a broad range of people with moderate incomes, whose budgets cannot stand the sudden jolt that this winter's heating bills will cause.

The Gas Service Co. of Kansas City reports that last year's price increases by themselves have resulted in 8,000 cutoffs of gas service as the heating season begins. But the worst is yet to come. The company also reports that its cost of gas will rise nearly 50 percent from January 1982 to January 1983. Other areas face increases that are just as alarming. The Bureau of Labor Statistics reported on Friday that natural gas prices had increased nationwide by 25.7 percent between November 1981 and November 1982—5 percent in the last month alone. More than 53 percent of all U.S. households depend on natural gas for home heating, and according to one survey of public utility commissions, as many as 300,000 households on natural gas may have their heat cut off this winter.

One of the central aims of the Natural Gas Policy Act was to cushion—by a policy of gradual decontrol—the transition from 25 years of regulated gas prices to a free market environment. I was a supporter of the NGPA, but I must say that in this aim it has failed. Gas prices have more than doubled—and in some cases tripled—in the 4 years since passage of the NGPA, increasing at an average annual rate of more than 21 percent. Indeed, it appears that in many areas we have reached the market clearing prices that were the goal of the act—2 years ahead of schedule and at a level no one anticipated. And there is no end in sight.

As a result of these rising prices, new gas discoveries, and a slumping national economy, there is more gas out there than can be sold. But the market is not working as it should—that is, with stable or falling prices. One reason is quite clear: take-or-pay contract clauses.

Very simply, these clauses bind a natural gas pipeline company to pay for gas it has contracted for, whether it takes the gas or not. Producers demanded these clauses during the mid-1970's, when gas supplies were short, and pipelines agreed to them for fear of getting caught short of gas if they did not.

Now circumstances have changed, and the pipeline companies have more gas than they can sell. Because of these take-or-pay contract clauses, they are buying high-priced gas—and at the same time telling producers of cheap gas to cap their wells. For example, gas with an average cost of 50 cents per 1,000 cubic feet in Kansas's giant Hugoton field is being shut in, while gas costing from $6 to $9 continues to flow. Similarly, small producers in New Mexico find themselves unable to sell gas at $2 and $3 to a company that is paying $8 to Oklahoma producers and then shipping it all the way to California. In Appalachia, 45 cent gas is being refused in favor of $8 gas from the Southwest.

In such a situation, gas prices can rise even without increases in wellhead prices. Indeed, the Department of Energy says that between 56 and 75 percent of the recent increases in producer revenues should be attributed to changes in the mix of gas. For example, if a pipeline has access to $5 gas and 50 cent gas, shifting from a 50 to 50 blend to a 60 to 40 blend increases prices by more than 16 percent—with no change in the wellhead price paid to producers.

As a result, consumers are getting a double or even triple whammy: Rising prices have reduced demand—thus, there is less low-cost gas in the blend to keep prices down; new, higher cost gas continues to rise in price under the NGPA; and in some cases industrial customers are switching to alternate fuels, chiefly oil. This last result is not only contrary to our national policy of reducing our reliance on oil, but more importantly, it reduces the number of customers sharing the fixed costs of the natural gas system and drives prices up further.

The amendment I intend to propose to this bill, along with Senator EAGLETON and others, is simple and straightforward: it voids any contract clause that requires payment for gas not taken. If such a clause is necessary to avoid a loan default by the producer, the Federal Energy Regulatory Commission would have the power to reinstate or modify it to the extent necessary.

The amendment also gives the Commission the power to reduce the charges for purchased gas that pipelines pass along to distribution companies if the pipelines imprudently fail to obtain the least-cost mix of gas. Currently, the Commission's only grounds for denying such costs are waste and fraud, and the Commission interprets those criteria very narrowly.

This amendment does not purport to deal with the whole range of natural gas issues. Without question, further consideration to this subject will have to be given by the 98th Congress. Indefinite price escalator clauses, for example, are a ticking time bomb set to explode with the arrival of decontrol. Striking down take-or-pay clauses, however, is one way that we can provide relief to consumers this winter.

And it is a solution that opens up the market, instead of regulating it further.

At present, pipelines are prevented by take-or-pay clauses from responding to changed market conditions; yet they are not penalized for the bad judgment they showed in signing these clauses—as businesses would be in an ordinary market environment. The pipelines can simply pass along higher gas costs to consumers. Elimination of these clauses would allow pipelines to buy the cheapest gas available and pass those savings back to consumers. Not next year, not in 1985, but now.

It is for this reason—the need for immediate relief—that the amendment does not simply give FERC the power to abrogate take-or-pay clauses. We cannot sit by and wait for the outcomes of endless proceedings and appeals while the consumer continues to pay these unfair and unnecessary gas costs. We should act now, allowing FERC to reinstate such clauses only if necessary to protect small producers whose entire bankroll depends on them.

If this amendment is enacted, consumers would benefit from lower natural gas prices. Distribution companies and pipeline companies would benefit from an increased ability to market their product to industrial customers. And many gas producers would benefit from an increased ability to sell existing, cheap gas that they now cannot dispose of.

In this connection, let me read a letter that Senators EAGLETON, KASSEBAUM, and I received from John McMillan, chief executive officer of Northwest Energy Co. He writes:

As Chairman of the Board of Northwest Energy Company, I strongly support your efforts to secure emergency legislation to deal with the existing "take-or-pay" problems in natural gas producer sales contracts.

Northwest Energy has two interstate pipeline subsidiaries, Northwest Pipeline Corporation serving the Rocky Mountains and Pacific Northwest, and Northwest Central Pipeline Corporation serving the Kansas-Missouri markets. On Northwest Pipeline, while we anticipate some take or pay problems, nonetheless, we have been able to reduce our rates twice in the past six months. The Northwest Central system, which we acquired on November 12, 1982, has severe problems generated by take or pay provisions in existing contracts. Northwest Central has been forced, because of these provisons, to reduce its take of gas available in the Kansas Hugoton Field at a cost of 50¢ per thousand cubic feet and maintain its takes of high-cost gas, in the range of $5.25 per thousand cubic feet. The consequence has been dramatically higher rates to our customers.

We are convinced that the Northwest Central market area cannot absorb the magnitude of rate increases which take or pay has forced. We are deeply concerned over the impact on individual homeowner consumers produced by escalating rates. We are equally concerned that if immediate relief is not provided, many industrial and commercial gas consumers will be priced out of the natural gas market. If this happens, residential rates will be forced even higher.

I will not let this happen. I will employ every legitimate alternative available to produce rate reductions on the Northwest Central system.

We have been attempting to solve these problems by contract re-negotiation efforts. We will continue to press these efforts.

I do not believe, however, that re-negotiation efforts, or any other alternative presently available to us will solve the problems soon enough to provide relief this winter. Your legislation should provide relief this winter. I join you in urging immediate passage.

Not everyone will benefit, of course. Some gas producers will be hurt—those who went out and sold decontrolled gas for $8 and $9, and who now are finding it possible to sell their gas for $4 and $5. Oil companies will be hurt—because the artificial market conditions that are making fuel oil cheaper in some areas than gas will disappear. But I cannot believe that we will defer to well-heeled oil and gas lobbyists when our own constituents are suffering in the cold.

I believe that enactment of this amendment would bring substantial relief to consumers. One effect it would have would be to dramatically reduce the amount of section 107, decontrolled gas in the market. The Department of Energy has estimated that if pipelines stopped taking this high-cost gas, prices would decline by 14 percent.

In some areas the effect would be larger than others. Where there is little low-cost gas available to a pipeline system, there would be little impact. But the Gas Service Co. of Kansas City estimates that eliminating take-or-pay clauses would allow them to cut their prices by 25 to 30 percent. These savings will materialize in customers' bills when the pipelines file their next purchased gas adjustments with the Federal Energy Regulatory Commission—typically in March or April—soon enough to make a difference this winter.

Some people ask whether we should tamper with existing contracts. We did so, of course, 4 years ago with the Natural Gas Policy Act itself. A recent policy analysis issued by the Cato Institute puts this question into perspective:

Contracts are a form of governmentally enforced private ordering. In a free enterprise system, parties are free to contract—to bind themselves to perform in the future. With rare exceptions, these contracts are honored and enforced by the government. Private ordering through contracts is the sinew that binds together any free enterprise system: Without freedom of contract, no modern free market system can exist. The question can properly be asked whether it is appropriate, then, to reopen contracts in the natural gas industry. The answer is clearly yes. These contracts are not the product or manifestation of a free-market system. All of the present contracts were entered into within the framework of pervasive administrative regimentation of the natural gas industry. That regulatory regime set the prices that were to be charged and determined the duration for which supply arrangements were to persist, two of the main elements of free-contract relationships. In order to move effectively from government direction to market direction of the natural gas industry, it will be both necessary and proper to reopen past contracts which came into being under this regulatory control and to allow the parties to decide for themselves, in a free-market setting, the contractual terms that they find mutually agreeable.

And finally, Mr. President, let me conclude by sharing with my colleagues a letter I received from a couple in Independence, Mo. It is a letter that speaks eloquently to the need to cut the rising price of natural gas. The letter reads as follows:

DEAR MR. DANFORTH: I am writing you about the high utility bills. The gas is out of sight. We try hard to pay our bills and not ask for help. We are both old, 74 and 78, and both have arthritis and we have to have it warm, and we want to pay our bills and do our own thing, but they keep going higher and higher. I am beginning to feel there isn't no place for old people. I am glad you fellows have a job and good salary, but please don't forget us. We need our utility bills cut.

Thank you and God bless you.

I urge my colleagues to join with me in supporting this amendment.

(Mr. WARNER assumed the chair.)

Several Senators addressed the Chair.

The PRESIDING OFFICER. Under the unanimous-consent agreement, the Senator from Kansas now has the floor.

Mr. BAKER. Mr. President, I ask unanimous consent that the Senator from Kansas may yield to me without losing her right to the floor and under the same terms and conditions that she outlined previously.

Mrs. KASSEBAUM. I am happy to yield to the majority leader.

The PRESIDING OFFICER. The majority leader has asked that the Senator from Kansas yield to the majority leader for the purpose of making a statement, is that correct?

Mr. BAKER. I am sorry, I did not hear what the Chair said. I did ask unanimous consent that the Senator from Kansas yield to me so I could take up one other unrelated matter, then I will have a brief colloquy with the Senator from Kansas and she would be rerecognized under the same terms and conditions as she outlined under per previous request. That is my request.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. BAKER. Will the Senator yield to me under those conditions?

Mrs. KASSEBAUM. I yield to the majority leader.

JUSTICE ASSISTANCE ACT OF 1982—H.R. 4481

Mr. BAKER. Mr. President, before I go on, there is one matter of unfinished business that I believe has been cleared on both sides and should be dealt with at this time, and that is the engrossment of the Criminal Justice Assistance Act that has not yet been attended to.

Mr. President, I ask unanimous consent that in the engrossment of the Senate amendments to H.R. 4481, the Criminal Justice Assistance Act, the following four amendments which I send to the desk be considered as

having been agreed to prior to third reading.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

(The name of Mr. BRADLEY was added as a cosponsor of each of the four amendments referred to herein.)

The four amendments are as follows:

Purpose: To create a Federal offense for robbery of a pharmacy, and for other purposes

At the end of the bill, add the following new section:

SEC. ——. (a) Chapter 103 of title 18 of the United States Code is amended by adding at the end thereof a new section as follows:

"§ 2118. Robbery of a pharmacy

"(a) Whoever takes property from a pharmacy or a person registered with the Drug Enforcement Administration under section 302 of the Controlled Substances Act (21 U.S.C. 822) by force or violence, or by intimidation, shall be imprisoned for not more than ten years, or fined not more than $5,000, or both.

"(b) For purposes of this section, the term 'property' means a controlled substance, consisting of a narcotic, amphetamine, or barbiturate that is listed in Schedules I through IV established by section 202 of the Controlled Substances Act (21 U.S.C. 812).".

"(b) The analysis for chapter 103 of title 18 of the United States Code is amended by adding at the end thereof the following:

"§ 2118. Robbery of a pharmacy.".

"(c) (1) The Senate finds that—

(A) There has been an alarming increase in the number of pharmacy robberies since enactment of the Comprehensive Drug Abuse Prevention and Control Act of 1970;

(B) there is a serious need to ensure the maximum Federal effort in attempting to curb these often violent crimes; and

(C) this goal can best be accomplished through consultation between the relevant Government agencies and those dealing with controlled substances.

(2) It is the sense of the Senate that —

(A) the Attorney General, in consultation with the Secretary of Health and Human Services, through the Administrator of the Drug Enforcement Administration should regularly meet with the Joint Commission of Pharmacy Practitioners to discuss this problem; and

(B) that in order to provide accurate and current information on the nature and extent of pharmacy crime the Department of Justice should collect relevant data and include pertinent results in its annual Uniform Crime Report.

——

Purpose: To provide federal criminal penalties for tampering with food, drugs and cosmetics

At the end of the bill, add the following title:

FEDERAL ANTI-TAMPERING ACT

SEC. 201. This title may be cited as the "Federal Anti-Tampering Act."

SEC. 202. Title 18, United States Code, is amended by adding the following new chapter:

"CHAPTER 56—ADULTERATION

"§ 1211. Malicious injury by adulterating a product

"(a) Whoever, with intent to injure, kill, or endanger the health or safety of any person, or with intent to cause damage or injury to the business reputation of an individual, partnership, corporation, association, or other business entity (1) does any act which results in a food, drug, device, or cosmetic being adulterated or attempts to do any such act or (2) tampers or attempts to tamper with any hazardous substance or any other article, products, or commodity of any kind or class which is produced or distributed for consumption by individuals or use by individuals for purposes of personal care or in the performance of services rendered within the household, if such act of adulteration or tampering occurs before the food, drug device, cosmetic, hazardous substance or other article, product, or commodity is introduced or delivered for introduction into interstate commerce, while such item is in interstate commerce, while such item is held for sale (whether or not the first sale) after shipment in interstate commerce or if such act of adulteration or tampering otherwise affects interstate commerce, shall be punished by imprisonment for not more than twenty years or fined not more than $20,000, or both, or, if personal injury or death results to another, by imprisonment for any term of years or for life.

"(b) Whoever, with willful and malicious intent, imparts or conveys or causes to be imparted or conveyed false information, knowing the information to be false, concerning an attempt or alleged attempt being made or to be made, to do any act which would constitute a violation of subsection (a) shall be punished—

(i) if personal injury or death results to another, by imprisonment for any terms of years or for life;

(ii) if such conduct causes any person to be in sustained fear for his or another person's safety, causes any government agency or authority to direct a sale prohibition against, or recall of, any food, drug, device, or cosmetic, or causes any individual, partnership, corporation, or association to implement such prohibition or recall in response to such conduct, or causes other serious disruption to the public, by imprisonment for not more than 20 years or by a fine of not more than $20,000, or both;

(iii) in any other case, by imprisonment for not more than 3 years or by a fine of not more than $5,000, or both.

"(c) As used in subsection (a), 'food,' 'drug,' 'device,' 'cosmetic,' and 'adulterated' shall have the meanings ascribed to those terms in the Federal Food, Drug, and Cosmetic Act, as amended (21 U.S.C. 301-392); 'hazardous substance' shall have the meaning ascribed to that term in the Federal Hazardous Substances Act (15 U.S.C. 1261(f)).".

SEC. 203. If any provision of this Act is held invalid, all valid provisions that are severable shall remain in effect. If a provision of this Act is held invalid in one or more of its applications, the provision shall remain in effect in all of its valid applications that are severable.

SEC. 204. The analysis of part I of title 18, United States Code, is amended by adding the following:

"56. Adulteration ..... 1211".

——

Purpose: To combat violent street crime by establishing a Federal offense of a continuing career of robberies or burglaries

At the end of the bill, add the following title:

ARMED CAREER CRIMINAL ACT

SEC. 201. This title may be cited as the "Armed Career Criminal Act of 1982".

SEC. 202. Chapter 103 of title 18, United States Code, is amended by adding at the end thereof the following new section:

"§ 2118. Armed Career Criminals

"(a) Any person who while he or any other participant in the offense is in possession of or has readily available any firearm or imitation thereof, commits, or conspires or attempts to commit robbery or burglary in violation of the felony statutes of the State in which such offense occurs or of the United States—

"(1) may be prosecuted for such offense in the courts of the United States if such person has previously been twice convicted of robbery or burglary, or an attempt or conspiracy to commit such an offense, in violation of the felony statutes of any State or of the United States; and

"(2) shall, if found guilty pursuant to this section, and upon proof of the requisite prior convictions to the court at or before sentencing, be sentenced to a term of imprisonment of not less than fifteen years nor more than life and may be fined not more than $10,000.

"(b) Notwithstanding any other provision of law: (1) any person charged pursuant to this section shall be admitted to bail pending trial or appeal as provided in section 3148 of title 18, United States Code; (2) the prior convictions of any person charged hereunder need not be alleged in the indictment nor shall proof thereof be required at trial to establish the jurisdiction of the court or the elements of the offense; (3) any person convicted under this section shall not be granted probation nor shall the term of imprisonment imposed under paragraph (a), or any portion thereof, be suspended; and (4) any person convicted under this section shall not be released on parole prior to the expiration of the full term of imprisonment imposed under paragraph (a).

"(c) For purposes of this section—

"(1) 'United States' includes the District of Columbia, the Commonwealth of Puerto Rico, and any other territory or possession of the United States;

"(2) 'felony' means any offense punishable by a term of imprisonment exceeding one year; and

"(3) 'firearm' has the meaning set forth in section 921 of title 18, United States Code.

"(d) Except as expressly provided herein, no provision of this section shall operate to the exclusion of any other Federal, State, or local law, nor shall any provision be construed to invalidate any other provision of Federal, State, or local law.

"(e) Ordinarily the United States should defer to State and local prosecutions of armed robbery and armed burglary offenses. However, if after full consultation between the local prosecuting authority and the appropriate Federal prosecuting authority, the local prosecuting authority requests or concurs in Federal prosecution and the Attorney General or his designee approves such prosecution to be appropriate, then Federal prosecution may be initiated under this Act.".

SEC. 203. The table of sections for chapter 103 of title 18, United States Code, is amended by adding at the end thereof the following new item:

"2118. Armed Career Criminals.".

SEC. 204. (a) It is the intent of Congress that any person prosecuted pursuant to this Act be tried expeditiously and that any appeal arising from a prosecution under this Act be treated as an expedited appeal.

(b) This section shall not create any right enforceable at law or in equity in any person, nor shall the court have jurisdiction to determine whether or not any of the procedures or standards set forth in this section have been followed.

PURPOSE: TO MAKE IMPROVEMENTS IN LAWS RELATING TO VIOLENT CRIME AND ILLEGAL DRUGS

At the end thereof add the following and make technical amendments as necessary.

TITLE —CONTRACT SERVICES

SEC. . This title may be cited as the "Contract Services for Drug Dependent Federal Offenders Act Amendment of 1981".

SEC. . Section 4(a) of the Contract Services for Drug Dependent Federal Offenders Act of 1978 (18 U.S.C. 4255 note) is amended—

(1) by striking out "1981; and" and inserting in lieu thereof "1981,", and

(2) by inserting before the period at the end thereof the following: "; $4,500,000 for the fiscal year ending September 30, 1983; $5,500,000 for the fiscal year ending September 30, 1984; and $6,500,000 for the fiscal year ending September 30, 1985".

SEC. . Titles through may be cited as the "Violent Crime and Drug Enforcement Improvements Act of 1982"

TITLE —BAIL REFORM

SEC. . This title may be cited as the "Bail Reform Act of 1982".

SEC. . (a) Sections 3141 through 3151 of title 18, United States Code, are repealed and the following new sections are inserted in lieu thereof:

"§ 3141. Release and detention authority generally

"(a) PENDING TRIAL.—A judicial officer who is authorized to order the arrest of a person pursuant to section 3041 of this title shall order that an arrested person who is brought before him be released or detained, pending judicial proceedings, pursuant to the provisions of this chapter.

"(b) PENDING SENTENCE OR APPEAL.—A judicial officer of a court of original jurisdiction over an offense, or a judicial officer of a Federal appellate court, shall order that, pending imposition or execution of sentence, or pending appeal of conviction or sentence, a person be released or detained pursuant to the provisions of this chapter.

"§ 3142. Release or detention of a defendant pending trial

"(a) IN GENERAL.—Upon the appearance before a judicial officer of a person charged with an offense, the judicial officer shall issue an order that, pending trial, the person be—

"(1) released on his personal recognizance or upon execution of an unsecured appearance bond, pursuant to the provisions of subsection (b);

"(2) released on a condition or combination of conditions pursuant to the provisions of subsection (c);

"(3) temporarily detained to permit revocation of conditional release, deportation, or exclusion pursuant to the provisions of subsection (d); or

"(4) detained pursuant to the provisions of subsection (e).

"(b) RELEASE ON PERSONAL RECOGNIZANCE OR UNSECURED APPEARANCE BOND.—The judicial officer shall order the pretrial release of the person on his personal recognizance, or upon execution of an unsecured appearance bond in an amount specified by the court, subject to the condition that the person not commit a Federal, State, or local crime during the period of his release, unless the judicial officer determines that such release will not reasonably assure the appearance of the person as required or will endanger the safety of any other person or the community.

"(c) RELEASE ON CONDITIONS.—If the judicial officer determines that the release described in subsection (b) will not reasonably assure the appearance of the person as required or will endanger the safety of any other person or the community, he shall order the pretrial release of the person—

"(1) subject to the condition that the person not commit a Federal, State, or local crime during the period of release; and

"(2) subject to the least restrictive further condition, or combination of conditions, that he determines will reasonably assure the appearance of the person as required and the safety of any other person and the community, which may include the condition that the person—

"(A) remain in the custody of a designated person, who agrees to supervise him and to report any violation of a release condition to the court, if the designated person is able reasonably to assure the judicial officer that the person will appear as required and will not pose a danger to the safety of any other person or the community;

"(B) maintain employment, or, if unemployed, actively seek employment;

"(C) maintain or commence an educational program;

"(D) abide by specified restrictions on his personal associations, place of abode, or travel;

"(E) avoid all contact with an alleged victim of the crime and with a potential witness who may testify concerning the offense;

"(F) report on a regular basis to a designated law enforcement agency, pretrial services agency, or other agency;

"(G) comply with a specified curfew;

"(H) refrain from possessing a firearm, destructive device, or other dangerous weapon;

"(I) refrain from excessive use of alcohol, or any use of a narcotic drug or other controlled substance, as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802), without a prescription by a licensed medical practitioner;

"(J) undergo available medical or psychiatric treatment, including treatment for drug or alcohol dependency, and remain in a specified institution if required for that purpose;

"(K) execute an agreement to forfeit upon failing to appear as required, such designated property, including money, as is reasonably necessary to assure the appearance of the person as required, and post with the court such indicia of ownership of the property or such percentage of the money as the judicial officer may specify;

"(L) execute a bail bond with solvent sureties in such amount as is reasonably necessary to assure the appearance of the person as required;

"(M) return to custody for specified hours following release for employment, schooling, or other limited purposes; and

"(N) satisfy any other condition that is reasonably necessary to assure the appearance of the person as required and to assure the safety of any other person and the community.

The judicial officer may not impose a financial condition that results in the pretrial detention of the person. The judicial officer may at any time amend his order to impose additional or different conditions of release.

"(d) TEMPORARY DETENTION TO PERMIT REVOCATION OF CONDITIONAL RELEASE, DEPORTATION, OR EXCLUSION.—If the judicial officer determines that—

"(1) the person—

"(A) is, and was at the time the offense was committed, on—

"(i) release pending trial for a felony under Federal, State, or local law;

"(ii) release pending imposition or execution of sentence, appeal of sentence or conviction, or completion of sentence, for any offense under Federal, State, or local law; or

"(iii) probation or parole for any offense under Federal, State, or local law; or

"(B) is not a citizen of the United States or lawfully admitted for permanent residence, as defined in section 101(a)(20) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(20)); and

"(2) the person may flee or pose a danger to any other person or the community;

he shall order the detention of the person, for a period of not more than ten days, excluding Saturdays, Sundays, and holidays, and direct the attorney for the Government to notify the appropriate court, probation or parole official, or State or local law enforcement official, or the appropriate official of the Immigration and Naturalization Service. If the official fails or declines to take the person into custody during that period, the person shall be treated in accordance with the other provisions of this section, notwithstanding the applicability of other provisions of law governing release pending trial or deportation or exclusion proceedings. If temporary detention is sought under paragraph (1)(B), the person has the burden of proving to the court that he is a citizen of the United States or is lawfully admitted for permanent residence.

"(e) DETENTION.—If, after a hearing pursuant to the provisions of subsection (f), the judicial officer finds that no condition or combination of conditions will reasonably assure the appearance of the person as required and the safety of any other person and the community, he shall order the detention of the person prior to trial. In a case described in (f)(1), a rebuttable presumption arises that no condition or combination of conditions will reasonably assure the safety of any other person and the community if the judge finds that—

"(1) the person has been convicted of a Federal offense that is described in subsection (f)(1), or of a State or local offense that would have been an offense described in subsection (f)(1) if a circumstance giving rise to Federal jurisdiction had existed;

"(2) the offense described in paragraph (1) was committed while the person was on release pending trial for a Federal, State, or local offense; and

"(3) a period of not more than five years has elapsed since the date of conviction, or the release of the person from imprisonment, for the offense described in paragraph (1), whichever is later.

Subject to rebuttal by the person, it shall be presumed that no condition or combination of conditions will reasonably assure the appearance of the person as required and the safety of the community if the judicial officer finds that there is probable cause to believe that the person committed an offense for which a maximum term of imprisonment of ten years or more is prescribed in the Controlled Substances Act (21 U.S.C. 801 et seq.), the Controlled Import and Export Act (21 U.S.C. 951 et seq.), section 1 of the Act of September 15, 1980 (21 U.S.C. 955a), or an offense under 18 U.S.C. 924(c).

"(f) DETENTION HEARING.—The judicial officer shall hold a hearing to determine whether any condition or combination of conditions set forth in subsection (c) will reasonably assure the appearance of the person as required and the safety of any other person and the community in a case—

"(1) upon motion of the attorney for the Government, that involves—

"(A) a crime of violence;

"(B) an offense for which the maximum sentence is life imprisonment or death;

"(C) an offense for which a maximum term of imprisonment of ten years or more is prescribed in the Controlled Substances Act (21 U.S.C. 801 et seq.), the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.), or section 1 of the Act of September 15, 1980 (21 U.S.C. 955a); or

"(D) any felony committed after the person had been convicted of two or more prior offenses described in subparagraphs (A) through (C), or two or more State or local offenses that would have been offenses described in subparagraphs (A) through (C) if a circumstance giving rise to Federal jurisdiction had existed; or

"(2) upon motion of the attorney for the Government or upon the judge's own motion, that involves—

"(A) a serious risk that the person will flee; or

"(B) a serious risk that the person will obstruct or attempt to obstruct justice, or threaten, injure, or intimidate, or attempt to threaten, injure, or intimidate, a prospective witness or juror.

The hearing shall be held immediately upon the person's first appearance before the judicial officer unless that person, or the attorney for the Government, seeks a continuance. Except for good cause, a continuance on motion of the person may not exceed five days, and a continuance on motion of the attorney for the Government may not exceed three days. During a continuance, the person shall be detained, and the judicial officer, on motion of the attorney for the Government or on his own motion, may order that, while in custody, a person who appears to be a narcotics addict receive a medical examination to determine whether he is an addict. At the hearing, the person has the right to be represented by counsel, and, if he is financially unable to obtain adequate representation, to have counsel appointed for him. The person shall be afforded an opportunity to testify, to present witnesses on his own behalf, to cross-examine witnesses who appear at the hearing, and to present information by proffer or otherwise. The rules concerning admissibility of evidence in criminal trials do not apply to the presentation and consideration of information at the hearing. The facts the judicial officer uses to support a finding pursuant to (e) that no condition or combination of conditions will reasonably assure the safety of any other person and the community shall be supported by clear and convincing evidence. The person may be detained pending completion of the hearing.

"(g) FACTORS TO BE CONSIDERED.—The judicial officer shall, in determining whether there are conditions of release that will reasonably assure the appearance of the person as required and the safety of any other person and the community, take into account the available information concerning—

"(1) the nature and circumstances of the offense charged, including whether the offense is a crime of violence or involves a narcotic drug;

"(2) the weight of the evidence against the person;

"(3) the history and characteristics of the person, including—

"(A) his character, physical and mental condition, family ties, employment, financial resources, length of residence in the community, community ties, past conduct, history relating to drug or alcohol abuse, criminal history, and record concerning appearance at court proceedings; and

"(B) whether, at the time of the current offense or arrest, he was on probation, on parole, or on other release pending trial, sentencing, appeal, or completion of sentence for an offense under Federal, State, or local law; and

"(4) the nature and seriousness of the danger to any person or the community that would be posed by the person's release. In considering the conditions of release described in subsection (c)(2)(K) or (c)(2)(L), the judicial officer may upon his own motion, or shall upon the motion of the Government, conduct an inquiry into the source of the property to be designated for potential forfeiture or offered as collateral to secure a bond, and shall decline to accept the designation, or the use as collateral, of property that, because of its source, will not reasonably assure the appearance of the person as required.

"(h) CONTENTS OF RELEASE ORDER.—In a release order issued pursuant to the provisions of subsection (b) or (c), the judicial officer shall—

"(1) include a written statement that sets forth all the conditions to which the release is subject, in a manner sufficiently clear and specific to serve as a guide for the person's conduct; and

"(2) advise the person of—

"(A) the penalties for violating a condition of release, including the penalties for committing an offense while on pretrial release;

"(B) the consequences of violating a condition of release, including the immediate issuance of a warrant for the person's arrest; and

"(C) the provisions of sections 1503 of this title (relating to intimidation of witnesses, jurors, and officers of the court), 1510 (relating to obstruction of criminal investigations), 1512 (tampering with a witness, victim, or an informant), and 1513 (retaliating against a witness or an informant).

"(i) CONTENTS OF DETENTION ORDER.—In a detention order issued pursuant to the provisions of subsection (e), the judicial officer—

"(1) shall include written findings of fact, and a written statement, or a written reference to the hearing record, concerning the reasons for the detention;

"(2) shall direct that the person be committed to the custody of the Attorney General for confinement in a corrections facility in accordance with regulations promulgated pursuant to the provisions of subsection (j); and

"(3) may recommend that the person receive special medical or similar treatment or attention, but the Attorney General shall not be bound by such a recommendation.

"(j) CUSTODY WHILE AWAITING TRIAL.—The Attorney General shall promulgate regulations governing custody of persons detained pending trial. The regulations shall provide that—

"(1) to the extent practicable, the person be confined—

"(A) in a facility located near the court in which the person will have to appear;

"(B) separate from persons awaiting or serving sentences or being held in custody pending appeal; and

"(C) separate from persons who are defendants in the same case;

"(2) the person be afforded reasonable opportunity for private consultation with his counsel and, to the extent practicable, for private visits with his family or other persons;

"(3) on order of a court of the United States or on request of an attorney for the Government, the person in charge of the corrections facility in which the person is confined shall deliver the person to the custody of a United States Marshal or other appropriate Federal law enforcement officer for the purpose of an appearance in connection with a court proceeding or for another official purpose; and

"(4) the person may be released temporarily, in the custody of a United States Marshal or other appropriate person, if necessary for preparation of the person's defense or for another compelling reason.

"(k) PRESUMPTION OF INNOCENCE.—Nothing in this section shall be construed as modifying or limiting the presumption of innocence.

"§ 3143. Release or detention of a defendant pending sentence or appeal

"(a) RELEASE OR DETENTION PENDING SENTENCE.—The judicial officer shall order that a person who has been found guilty of an offense and who is waiting imposition or execution of sentence, be detained, unless the judicial officer finds by clear and convincing evidence that the person is not likely to flee or pose a danger to the safety of any other person or the community if released pursuant to section 3142 (b) or (c). If the judicial officer makes such a finding, he shall order the release of the person in accordance with the provisions of section 3142 (b) or (c).

"(b) RELEASE OR DETENTION PENDING APPEAL BY THE DEFENDANT.—The judicial officer shall order that a person who has been found guilty of an offense and sentenced to a term of imprisonment, and who has filed an appeal or a petition for a writ of certiorari, be detained, unless the judicial officer finds—

"(1) by clear and convincing evidence that the person is not likely to flee or pose a danger to the safety of any other person or the community if released pursuant to section 3142 (b) or (c); and

"(2) that the appeal is not for purpose of delay and raises a substantial question of law or fact likely to result in reversal or an order for a new trial.

If the judicial officer makes such findings, he shall order the release of the person in accordance with the provisions of section 3142 (b) or (c).

"(c) RELEASE OR DETENTION PENDING APPEAL BY THE GOVERNMENT.—The judicial officer shall treat a defendant in a case in which an appeal has been taken by the United States pursuant to the provisions of section 3731 of this title, in accordance with the provisions of section 3142, unless the defendant is otherwise subject to a release or detention order.

"§ 3144. Release or detention of a material witness

"If it appears from an affidavit filed by a party that the testimony of a person is material in a criminal proceeding, and if it is shown that it may become impracticable to secure the presence of the person by subpena, a judicial officer may order the arrest of the person and treat the person in accord-

ance with the provisions of section 3142. No material witness may be detained because of inability to comply with any condition of release if the testimony of such witness can adequately be secured by deposition, and if further detention is not necessary to prevent a failure of justice. Release of a material witness may be delayed for a reasonable period of time until the deposition of the witness can be taken pursuant to the Federal Rules of Criminal Procedure.

"§ 3145. Review and appeal of a release or detention order

"(a) REVIEW OF A RELEASE ORDER.—If a person is ordered released by a magistrate, or by a person other than a judge of a court having original jurisdiction over the offense and other than a Federal appellate court—

"(1) the attorney for the Government may file, with the court having original jurisdiction over the offense, a motion for revocation of the order or amendment of the conditions of release; and

"(2) the person may file, with the court having original jurisdiction over the offense, a motion for amendment of the conditions of release.

The motion shall be determined promptly.

"(b) REVIEW OF A DETENTION ORDER.—If a person is ordered detained by a magistrate, or by a person other than a judge of a court having original jurisdiction over the offense and other than a Federal appellate court, the person may file, with the court having original jurisdiction over the offense, a motion for revocation or amendment of the order. The motion shall be determined promptly.

"(c) APPEAL FROM A RELEASE OR DETENTION ORDER.—An appeal from a release or detention order, or from a decision denying revocation or amendment of such an order, is governed by the provisions of section 1291 of title 28 and section 3731 of this title. The appeal shall be determined promptly.

"§ 3146. Penalty for failure to appear

"(a) OFFENSE.—A person commits an offense if, after having been released pursuant to this chapter—

"(1) he knowingly fails to appear before a court as required by the conditions of his release; or

"(2) he knowingly fails to surrender for service of sentence pursuant to a court order.

"(b) GRADING.—If the person was released—

"(1) in connection with a charge of, or while awaiting sentence, surrender for service of sentence, or appeal or certiorari after conviction, for—

"(A) an offense punishable by death, life imprisonment, or imprisonment for a term of fifteen years or more, he shall be fined not more than $25,000 or imprisoned for not more than ten years, or both;

"(B) an offense punishable by imprisonment for a term of five or more years, but less than fifteen years, he shall be fined not more than $10,000 or imprisoned for not more than five years, or both;

"(C) any other felony, he shall be fined not more than $5,000 or imprisoned not more than two years, or both; or

"(D) a misdemeanor, he shall be fined not more than $2,000 or imprisoned more than one year, or both; or

"(2) for appearance as a material witness, he shall be fined no more than $1,000 or imprisoned for not more than one year, or both.

A term of imprisonment imposed pursuant to this section shall be consecutive to the sentence of imprisonment for any other offense.

"(c) AFFIRMATIVE DEFENSE.—It is an affirmative defense to a prosecution under this section that uncontrollable circumstances prevented the person from appearing or surrendering, and that the person did not contribute to the creation of such circumstances in reckless disregard of the requirement that he appeared or surrender, and that the defendant appeared or surrendered as soon as such circumstances ceased to exist.

"(d) DECLARATION OF FORFEITURE.—If a person fails to appear before a court as required, and the person executed an appearance bond pursuant to section 3142(b) or is subject to the release condition set forth in section 3142(c)(2)(K), or (c)(2)(L), the judicial officer may, regardless of whether the person has been charged with an offense under this section, declare any property designated pursuant to that section to be forfeited to the United States.

"§ 3147. Penalty for an offense committed while on release

"A person convicted of an offense committed while released pursuant to this chapter shall be sentenced, in addition to the sentence prescribed for the offense to—

"(1) a term of imprisonment of not less than two years and not more than ten years if the offense is a felony; or

"(2) a term of imprisonment of not less than ninety days and not more than one year if the offense is a misdemeanor.

A term of imprisonment imposed pursuant to this section shall be consecutive to any other sentence of imprisonment.

"§ 3148. Sanctions for violation of a release condition

"(a) AVAILABLE SANCTIONS.—A person who has been released pursuant to the provisions of section 3142, and who has violated a condition of his release, is subject to a revocation of release, an order of detention, and a prosecution for contempt of court.

"(b) REVOCATION OF RELEASE.—The attorney for the Government may initiate a proceeding for revocation of an order of release by filing a motion with the district court. A judicial officer may issue a warrant for the arrest of a person charged with violating a condition of release, and the person shall be brought before a judicial officer in the district in which his arrest was ordered for a proceeding in accordance with this section. The judicial officer shall enter an order of revocation and detention if, after a hearing, the judicial officer—

"(1) finds that there is—

"(A) probable cause to believe that the person has committed a Federal, State, or local crime while on release; or

"(B) clear and convincing evidence that the person has violated any other condition of his release; and

"(2) finds that—

"(A) based on the factors set forth in section 3142(g), there is no condition or combination of conditions of release that will assure that the person will not flee or pose a danger to the safety of any other person or the community; or

"(B) the person is unlikely to abide by any condition or combination of conditions of release.

If there is probable cause to believe that, while on release, the person committed a Federal, State, or local felony, a rebuttable presumption arises that no condition or combination of conditions will assure that the person will not pose a danger to the safety of any other person or the community. If the judicial officer finds that there are conditions of release that will assure that the person will not flee or pose a danger to the safety of any other person or the community, and that the person will abide by such conditions, he shall treat the person in accordance with the provisions of section 3142 and may amend the conditions of release accordingly.

"(c) PROSECUTION FOR CONTEMPT.—The judge may commence a prosecution for contempt, pursuant to the provisions of section 401, if the person has violated a condition of his release.

"§ 3149. Surrender of an offender by a surety

"A person charged with an offense, who is released upon the execution of an appearance bond with a surety, may be arrested by the surety, and if so arrested, shall be delivered promptly to a United States marshal and brought before a judicial officer. The judicial officer shall determine in accordance with the provisions of section 3148(b) whether to revoke the release of the person, and may absolve the surety of responsibility to pay all or part of the bond in accordance with the provisions of rule 46 of the Federal Rules of Criminal Procedure. The person so committed shall be held in official detention until released pursuant to this chapter or another provision of law.

"§ 3150. Applicability to a case removed from a State court

"The provisions of this chapter apply to a criminal case removed to a Federal court from a State court.".

(b) Section 3154 of title 18, United States Code, is amended—

(1) in subsection (1), by striking out "and recommend appropriate release conditions for each such person" and inserting in lieu thereof "and, where appropriate, include a recommendation as to whether each such person should be released or detained and, if release is recommended, recommend appropriate conditions of release"; and

(2) in subsection (2), by striking out "section 3146(e) or section 3147" and inserting in lieu thereof "section 3145";

(c) Section 3156(a) of title 18, United States Code, is amended—

(1) by striking out "3146" and inserting in lieu thereof "3141";

(2) in paragraph (1)—

(A) by striking out "bail or otherwise" and inserting in lieu thereof "detain or"; and

(B) by deleting "and" at the end thereof;

(3) in paragraph (2), by striking out the period at the end and inserting in lieu thereof "; and";

(4) by adding after paragraph (2) the following new paragraphs:

"(3) The term 'felony' means an offense punishable by a maximum term of imprisonment of more than one year; and

"(4) The term 'crime of violence' means—

"(A) an offense that has as an element of the offense the use, attempted use, or threatened use of physical force against the person or property of another; or

"(B) any other offense that is a felony and that, by its nature, involves a substantial risk that physical force against the person or property of another may be used in the course of committing the offense."; and

(5) in subsection (b)(1), by striking out "bail or otherwise" and inserting in lieu thereof "detain or".

(d) The item relating to chapter 207 in the analysis of part II of title 18, United States Code, is amended to read as follows:

"207. Release and detention pending judicial proceedings ..... 3141".

(e)(1) The caption of chapter 207 is amended to read as follows:

"CHAPTER 207—RELEASE AND DETENTION PENDING JUDICIAL PROCEEDINGS".

(2) The section analysis for chapter 207 is amended by striking out the items relating to section 3141 through 3151 and inserting in lieu thereof the following:

"3141. Release and detention authority generally.
"3142. Release or detention of a defendant pending trial.
"3143. Release or detention of a defendant pending sentence or appeal.
"3144. Release or detention of a material witness.
"3145. Review and appeal of a release or detention order.
"3146. Penalty for failure to appear.
"3147. Penalty for an offense committed while on release.
"3148. Sanctions for violation of a release condition.
"3149. Surrender of an offender by a surety.
"3150. Applicability to a case removed from a State court."

SEC. 103. Chapter 203 of title 18, United States Code, is amended as follows:

(a) The last sentence of section 3041 is amended by striking out "determining to hold the prisoner for trial" and inserting in lieu thereof "determining, pursuant to the provisions of section 3142 of this title, whether to detain or conditionally release the prisoner prior to trial".

(b) The second paragraph of section 3042 is amended by striking out "imprisoned or admitted to bail" and inserting in lieu thereof "detained or conditionally released pursuant to section 3142 of this title".

(c) Section 3043 is repealed.

(d) The following new section is added after section 3061:

"§ 3062. General arrest authority for violation of release conditions

"A law enforcement officer, who is authorized to arrest for an offense committed in his presence, may arrest a person who is released pursuant to chapter 207 if the officer has reasonable grounds to believe that the person is violating, in his presence, a condition imposed on the person pursuant to section 3142 (c)(2)(D), (c)(2)(E), (c)(2)(H), (c)(2)(I), or (c)(2)(M), or, if the violation involves a failure to remain in a specified institution as required, a condition imposed pursuant to section 3142(c)(2)(J).".

(e) The section analysis is amended—

(1) by amending the item relating to section 3043 to read as follows:

"3043. Repealed."; and

(2) by adding the following new item after the item relating to section 3061:

"3062. General arrest authority for violation of release conditions.".

SEC. 104. Section 3731 of title 18, United States Code, is amended by adding after the second paragraph the following new paragraph:

"An appeal by the United States shall lie to a court of appeals from a decision or order, entered by a district court of the United States, granting the release of a person charged with or convicted of an offense, or denying a motion for revocation of, or modification of the conditions of, a decision or order granting release.".

SEC. 105. The second paragraph of section 3772 of title 18, United States Code, is amended by striking out "bail" and inserting in lieu thereof "release pending appeal".

SEC. 106. Section 4282 of title 18, United States Code, is amended—

(a) by striking out "and not admitted to bail" and substituting "and detained pursuant to chapter 207"; and

(b) by striking out "and unable to make bail".

SEC. 107. Section 636 of title 28, United States Code, is amended by striking out "impose conditions of release under section 3146 of title 18" and inserting in lieu thereof "issue orders pursuant to section 3142 of title 18 concerning release or detention of persons pending trial".

SEC. 108. The Federal Rules of Criminal Procedure are amended as follows:

(a) Rule 5(c) is amended by striking out "shall admit the defendant to bail" and inserting in lieu thereof "shall detain or conditionally release the defendant".

(b) The second sentence of rule 15(a) is amended by striking out "committed for failure to give bail to appear to testify at a trial or hearing" and inserting in lieu thereof "detained pursuant to 18 U.S.C. § 3144".

(c) Rule 40(f) is amended to read as follows:

"(f) RELEASE OR DETENTION.—If a person was previously detained or conditionally released, pursuant to chapter 207 of title 18, United States Code, in another district where a warrant, information or indictment issued, the Federal magistrate shall take into account the decision previously made and the reasons set forth therefor, if any, but will not be bound by that decision. If the Federal magistrate amends the release or detention decision or alters the conditions of release, he shall set forth the reasons for his action in writing.".

(d) Rule 46 is amended—

(1) in subdivision (a), by striking out "3146, 3148, or 3149" and inserting in lieu thereof "3142 and 3144";

(2) in subdivision (c), by striking out "3148" and inserting in lieu thereof "3143";

(3) by amending subdivision (e)(2) to read as follows:

"(2) SETTING ASIDE.—The court may direct that a forfeiture be set aside in whole or in part, upon such conditions as the court may impose, if a person released upon execution of an appearance bond with a surety is subsequently surrendered by the surety into custody or if it otherwise appears that justice does not require the forfeiture."; and

(4) by adding the following new subdivision at the end thereof:

"(h) FORFEITURE OF PROPERTY.—Nothing in this rule or in chapter 207 of title 18, United States Code, shall prevent the court from disposing of any charge by entering an order directing forfeiture of property pursuant to 18 U.S.C. § 3142(c)(2)(K) if the value of the property is an amount that would be an appropriate sentence after conviction of the offense charged and if such forfeiture is authorized by statute or regulation.".

(e) Rule 54(b)(3) is amended by striking out "18 U.S.C. § 3043, and".

SEC. 109. Rule 9(c) of the Federal Rules of Appellate Procedure is amended by striking out "3148" and inserting in lieu thereof "3143", and following the word "community", inserting "and that the appeal is not for purpose of delay and raises a substantial question of law or fact likely to result in reversal or in an order for a new trial".

TITLE II—WITNESS-VICTIM PROTECTION

SEC. 201. This title may be cited as the "Witness-Victim Protection Act of 1982".

PART A—VICTIM'S IMPACT STATEMENT

SEC. 202. Subsection (c)(2) of Rule 32 of the Federal Rules of Criminal Procedure is amended by striking out ", and such other information as may be required by the court." and inserting in lieu thereof ". The report shall also contain verified information stated in a nonargumentative style assessing the financial, social, psychological, and medical impact upon and cost to any person who was the victim of the offense committed by the defendant. The report shall also include a statement of any need of the victim for restitution and such other information as may be required by the court.".

PART B—PROTECTION OF VICTIMS AND WITNESSES FROM INTIMIDATION

SEC. 203. (a) Chapter 73 of title 18, United States Code, is amended by adding at the end thereof the following new sections:

"§ 1512. Tampering with a witness, victim, or an informant

"(a) OFFENSE.—Whoever—

"(1) knowingly uses or attempts to use physical force, threat, intimidation, or fraud with intent to—

"(A) influence the testimony of another person in an official proceeding;

"(B) cause or induce another person to—

"(i) withhold testimony, or withhold a record, document, or other object, from an official proceeding;

"(ii) alter, destroy, mutilate, or conceal an object with intent to impair such object's integrity or availability for use in an official proceeding;

"(iii) evade legal process summoning him to appear as a witness, or to produce a record, document, or other object in an official proceeding; or

"(iv) absent himself from an official proceeding to which he has been summoned by legal process; or

"(C) hinder, delay, or prevent the communication to a law enforcement officer of information relating to an offense or a possible offense;

"(2) knowingly and maliciously hinders, delays, prevents, or dissuades or attempts to hinder, delay, prevent, or dissuade—

"(A) a witness or victim from attending or testifying in an official proceeding; or

"(B) a witness, victim, or a person acting on behalf of a victim from—

"(i) making a report of an offense or a possible offense to a judge, a law enforcement officer, a probation or parole officer, or an officer of a correctional facility;

"(ii) causing a criminal prosecution, or a parole or probation revocation proceeding, to be sought or instituted or assisting in such prosecution or proceeding; or

"(iii) arresting, or causing or seeking the arrest of, a person in connection with an offense; or

"(3) corruptly, or by threats of force, or by any threatening letter or communication, intentionally influences, obstructs, or impedes or attempts to influence; obstruct, or impede the—

"(A) administration of justice;

"(B) administration of a law under which an official proceeding is being or may be conducted; or

"(C) exercise of a legislative power of inquiry;

shall be punished as provided in subsection (b).

"(b) PUNISHMENT.—Whoever is guilty of an offense set forth in subsection (a)(1) shall be fined not more than $100,000, or imprisoned not more than ten years, or both. Whoever is guilty of an offense set forth in subsection (a)(2) or (a)(3) shall be fined not more than $25,000, or imprisoned not more than five years, or both. Whoever is convicted for a second or subsequent offense under this section shall be sentenced to a term of imprisonment, or fine, or both, up to twice those authorized for such offense.

"(c) AFFIRMATIVE DEFENSE.—In a prosecution for an offense under subsection (a)(1) of this section, it is an affirmative defense, as to which the defendant has the burden of proving the defense by a preponderance of the evidence, that the conduct engaged in consisted solely of lawful conduct and that the defendant's sole intention was to encourage or cause the other person to testify truthfully.

"(d) DEFENSES PRECLUDED.—It is not a defense to a prosecution under this section that—

"(1) an official proceeding was not pending or about to be instituted;

"(2) the testimony, or the record, document, or other object, would have been legally privileged or would have been inadmissible in evidence; or

"(3) no person was injured physically, or, in fact, intimidated.

"(e) JURISDICTION.—There is Federal jurisdiction over an offense described in this section if—

"(1) the official proceeding, offense, or prosecution is or would be a Federal official proceeding, offense, or prosecution;

"(2) the officer is a Federal public servant and the information or report relates to a Federal offense or a possible federal offense;

"(3) the administration of justice, administration of a law, or exercise of a legislative power of inquiry relates to a Federal Government function;

"(4) the United States mail or a facility in interstate or foreign commerce is used in the planning, promotion, management, execution, consummation, or concealment of the offense, or in the distribution of the proceeds of the offense; or

"(5) movement of a person across a State or United States boundary occurs in the planning, promotion, management, execution, consummation, or concealment of the offense or in the distribution of the proceeds of the offense.

"§ 1513. Retaliating against a witness or an informant

"(a) OFFENSE.—Whoever—

"(1) knowingly engages in conduct by which he causes bodily injury to another person or damages the property of another person because of—

"(A) the attendance of a witness or party at an official proceeding, or any testimony given, or any record, document, or other object produced, by a witness in an official proceeding; or

"(B) any information relating to an offense or possible offense given by a person to a law enforcement officer; or

"(2) being a Federal public servant, unlawfully subjects a Federal public servant to economic loss or injury to his business or profession because of any matter described in subparagraph (A) or (B) of paragraph (1);

shall be punished as provided in subsection (b).

"(b) PUNISHMENT.—Whoever is guilty of an offense set forth in subsection (a)(1) shall be fined not more than $100,000, or imprisoned for not more than ten years, or both. Whoever is guilty of an offense in any other case under this section shall be fined not more than $10,000, or imprisoned for not more than two years, or both.

"(c) JURISDICTION.—There is Federal jurisdiction over an offense described in this section if—

"(1) the official proceeding is a Federal official proceeding;

"(2) the law enforcement officer is a Federal public servant and the information relates to a Federal offense or a possible Federal offense;

"(3) the United States mail or facility in interstate or foreign commerce is used in the planning, promotion, management, execution, consummation, or concealment of such offense punishable under this section, or in the distribution of the proceeds of such offense; or

"(4) movement of a person across a State or United States boundary occurs in the planning, promotion, management, execution, consummation, or concealment of the offense, or in the distribution of the proceeds of such offense punishable under this section.

"§ 1514. Definitions

"As used in sections 1512 and 1513 of this title—

"(1) 'law enforcement officer' means an officer or employee of the Federal Government, or a person authorized to act for or on behalf of the Federal Government or serving the Federal Government as an adviser or consultant (including an elected official, judge, or juror)—

"(A) authorized under law to engage in or supervise the prevention, detention, investigation, or prosecution of an offense; or

"(B) serving as a parole or probation officer under this title;

"(2) 'maliciously' means for the purpose of—

"(A) intimidating, harassing, harming, or injuring in any other way another person; or

"(B) interfering with the orderly administration of justice;

"(3) 'official proceeding' means—

"(A) a proceeding before a judge or court of the United States, a United States magistrate, a bankruptcy judge, or a Federal grand jury, a parole or probation officer;

"(B) a proceeding before the Congress; or

"(C) a proceeding before a Federal Government agency which is authorized by law;

"(4) 'physical force' means physical action against another, and includes confinement;

"(5) 'victim' means an individual against whom an offense has been or is being committed, or was attempted to be committed;

"(6) 'witness' means an individual—

"(A) who has knowledge of the existence or nonexistence of facts relating to an offense;

"(B) whose declaration under oath is or may be received in evidence for any purpose;

"(C) who has reported an offense to a judge, a law enforcement officer, or probation officer, or an officer of a correctional facility;

"(D) who has been served with a subpoena, including a grand jury subpoena, issued under the authority of a court of the United States;

"(E) who a reasonable person would believe to be an individual described in this paragraph; or

"(F) who the defendant in fact believed was an individual described in this paragraph.

"§ 1515. Penalty for an offense committed while on release pending judicial proceeding

"Any term of imprisonment which is imposed under section 1503, 1512, or 1513 when the offense is committed while such person is released under chapter 207 of this title shall be consecutive to any sentence of imprisonment for the offense with respect to which release was ordered.".

(b) The analysis for chapter 73 of title 18, United States Code, is amended by adding at the end thereof the following new items:

"1512. Tampering with a witness, victim, or an informant.
"1513. Retaliating against a witness or an informant.
"1514. Definitions.
"1515. Penalty for an offense committed while on release pending judicial proceedings.".

SEC. 204. (a) Title 18 of the United States Code is amended by adding after chapter 223 the following new chapter:

"CHAPTER 224—PROTECTION OF WITNESSES

"Sec.
"3521. Witness relocation and protection.
"3522. Reimbursement of expenses.
"3523. Civil action to restrain witness or victim intimidation.
"3524. Definition for chapter.

"§ 3521. Witness relocation and protection

"(a) RELOCATION.—The Attorney General may provide for the relocation or protection of a government witness or a potential government witness in an official proceeding if the Attorney General determines that an offense described in section 1503, 1512, or 1513, or a State or local offense that is similar in nature or that involves a crime of violence directed at a witness, is likely to be committed. The Attorney General may also provide for the relocation or protection of the immediate family of, or a person otherwise closely associated with, such witness or potential witness if the family or person may also be endangered.

"(b) RELATED PROTECTIVE MEASURES.—In connection with the relocation or protection of a witness, a potential witness, or an immediate family member or close associate of a witness or potential witness, the Attorney General may take any action he determines to be necessary to protect such person from bodily injury, and otherwise to assure his health, safety, and welfare, for as long as, in the judgment of the Attorney General, such danger exists. The Attorney General may—

"(1) provide suitable official documents to enable a person relocated to establish a new identity;

"(2) provide housing for the person relocated or protected;

"(3) provide for the transportation of household furniture and other personal property to the new residence of the person relocated;

"(4) provide a tax-free subsistence payment, in a sum established in regulations issued by the Attorney General, for such times as the Attorney General determines to be warranted;

"(5) assist the person relocated in obtaining employment; and

"(6) refuse to disclose the identity or location of the person relocated or protected, or any other matter concerning the person or the program after weighing the danger such a disclosure would pose to the person, the detriment would cause to the general effectiveness of the program, and the person seeking the disclosure.

"(c) CIVIL ACTION AGAINST A RELOCATED PERSON.—Notwithstanding the provisions of subsection (b)(6), if a person relocated under this section is named as a defendant in a civil cause of action, arising prior to the person's relocation, for damages resulting from bodily injury, property damage, or injury to business, process in the civil proceeding may be served upon the Attorney General. The Attorney General shall make reasonable efforts to serve a copy of the process upon the person relocated at his last known address. If a judgment in such an action is entered against the person relocated, the Attorney General shall determine whether the person has made reasonable efforts to comply with the provisions of that judgment. The Attorney General shall take affirmative steps to urge the person relocated to comply with any judgment rendered. If the Attorney General determines that the person has not made reasonable efforts to comply with the provisions of the judgment, he may, in his discretion, after weighing the danger to the person relocated, disclose the identity and location of that person to the plaintiff entitled to recovery pursuant to the judgment. Any such disclosure shall be made upon the express condition that further disclosure by the plaintiff of such identity or location may be made only if essential to the plaintiff's efforts to recover the judgment, and only to such additional persons as is necessary to effect the recovery. Any such disclosure or nondisclosure by the Attorney General shall not subject the government to liability in any action based upon the consequences thereof.

"§ 3522. Reimbursement of expenses

"The provision of transportation, housing, subsistence, or other assistance to a person under section 3521 may be conditioned by the Attorney General upon reimbursement of expenses in whole or in part to the United States by a State or local government.

"§ 3523. Civil action to restrain witness or victim intimidation

"(a) INITIATION OF ACTION.—The Attorney General may initiate a civil proceeding to prevent and restrain an offense involving a witness or a victim under section 1503, 1512, or 1513. Afer a hearing and upon a finding, which may be based upon hearsay or the representation of the attorney for the government or the counsel for the defendant, that an offense under section 1503, 1512, or 1513 involving a witness or a victim has occurred or is reasonably likely to occur, the court may order that a defendant, a witness or other person connected with the case, or any individual in the courtroom—

"(1) refrain from engaging in conduct in violation of section 1503, 1512, or 1513;

"(2) maintain a prescribed distance from a specified victim or witness; and

"(3) refrain from communicating with a specified victim or witness except under such conditions as the court may impose.

"(b) JURISDICTION.—A district court of the United States in which a proceeding is initiated under this section has jurisdiction to hear and determine the matter so presented, and to prevent and restrain an offense referred to in subsection (a). In a proceeding initiated under this section, the court shall proceed as soon as practicable to a hearing and determination.

"§ 3524. Definition for chapter

"As used in this chapter, 'government' includes the Federal Government and a State or local government.".

(b) The table of chapters for part II of title 18, United States Code, is amended by adding after the item for chapter 223 the following new item:

"224. Protection of witnesses..... 3521."

(c) Title V of the Organized Crime Control Act of 1970 (84 Stat. 933) is repealed.

PART C—RESTITUTION

SEC. 205. (a) Chapter 227 of title 18, United States Code, is amended by adding at the end the following:

"§ 3579. Order of restitution

"(a) ORDER.—The court, in imposing a sentence on a defendant for any offense under this title, except an offense described in subsection (d), may order the defendant to make appropriate restitution. The order of restitution shall require that the defendant—

"(1) in the case of an offense causing injury or death, make restitution to the victim of the offense or estate of the victim in an amount that does not exceed income lost because of the victim's incapacitation or death, necessary medical expenses including ones associated with physical, psychological or vocational rehabilitation, and, if applicable, the expenses for the funeral and burial of the victim; and

"(2) in the case of an offense resulting in loss, damage, or destruction of property—

"(A) restore the property to the victim of the offense; or

"(B) make restitution to the victim of the offense in an amount that does not exceed the value of the property.

The court may order that restitution be made in the form of money or, if the victim agrees, in services to the victim or to a person or organization designated by the victim. If the court does not order restitution, the court must state for the record the reasons. The court shall make the order of restitution as fair as possible to the victim without unduly complicating or prolonging the sentencing process.

"(b) RELATIONSHIP TO CIVIL PROCEEDINGS.—

"(1) The court shall not order restitution as to any victim who is bound by an earlier judgment in, or settlement of, a civil proceeding involving the underlying offense.

"(2) Any amount paid to a person pursuant to an order of restitution shall be set off against an amount later recovered as compensatory damages by such person in any civil proceeding.

"(3) A conviction of a defendant by a Federal court of an offense involving the act giving rise to restitution under this section shall estop the defendant from denying the essential allegations of the criminal offense in any subsequent civil proceeding brought by the victim.

"(4) If appropriate the court may consider ordering restitution to any party who has compensated the victim for expenses or losses directly related to the crime.

"(5) An order of restitution may be enforced by the victim or the United States in the same manner as a judgment in a civil action and notwithstanding any other provision of law, an order of restitution shall be satisfied by the defendant before any Federal lien.

"(c) RESTITUTION AS CONDITION.—If a defendant is placed on probation or paroled pursuant to this title, any restitution ordered under this section shall be a condition of such parole or probation. Failure to comply with an order of restitution shall be grounds for the revocation of parole or probation.".

(b) The analysis for chapter 227 of title 18, United States Code, is amended by adding at the end thereof the following new item:

"3579. Order of restitution."

PART D—FEDERAL ACCOUNTABILITY FOR ESCAPE OR RELEASE OF FEDERAL PRISONER

SEC. 206. (a) Section 1346(b) of title 28, United States Code, is amended by inserting "(1)" immediately after "(b)".

(b) Section 1346(b) of title 28, United States Code, is amended by adding at the end thereof the following:

"(2)(A) Subject to the provisions of chapter 171 of this title and subparagraph (B) of this paragraph, the district courts, together with the United States District Court of the Virgin Islands, shall have exclusive jurisdiction of any civil action on a claim against the United States for damages, accruing on and after the date of enactment of this paragraph, for personal injury or death directly caused by any dangerous offender charged with or convicted of a Federal offense who is released from, or who escapes from, lawful custody of an employee of, or any person acting as the lawful agent of, the United States as a result of the gross negligence of such employee or person.

"(B) For the purposes of this paragraph, 'dangerous offender' means a person charged with or convicted of a crime involving the use, attempted use, or threatened use of violence against the person of another.".

TITLE III—CONTROLLED SUBSTANCES PENALTIES

SEC. 301. This title may be cited as the "Controlled Substances Penalties Amendments Act of 1982".

SEC. 302. Subsection (b) of section 401 of the Controlled Substances Act (21 U.S.C. 841(b)) is amended—

(1) in paragraph (1), by—

(A) redesignating subparagraphs (A) and (B) as subparagraphs (B) and (C), respectively, and inserting after "(1)" a new subparagraph to read as follows:

"(A) In the case of a violation of subsection (a) of this section involving—

"(i) 100 grams or more of a controlled substance in schedule I or II which is a mixture or substance containing a detectable amount of a narcotic drug other than a narcotic drug consisting of—

"(a) coca leaves;

"(b) a compound, manufacture, salt, derivative, or preparation of coca leaves; or

"(c) a substance chemically identical thereto;

"(ii) a kilogram or more of any other controlled substance in schedule I or II which is a narcotic drug;

"(iii) 500 grams or more of phencyclidine (PCP); or

"(iv) 5 grams or more of lysergic acid diethylamide (LSD);

such person shall be sentenced to a term of imprisonment of not more than 20 years, a fine of not more than $250,000, or both. If any person commits such a violation after one or more prior convictions of him for an offense punishable under this paragraph, or for a felony under any other provision of this title or title III or other law of a State, the United States, or a foreign country relating to narcotic drugs, marihuana, or depressant or stimulant substances, have become final, such person shall be sentenced to a term of imprisonment of not more than 40 years, a fine of not more than $500,000, or both";

(B) in subparagraph (B), as redesignated above, by—

(i) striking out "which is a narcotic drug" in the first sentence and inserting in lieu

thereof "except as provided in subparagraphs (A) and (C),"

(ii) striking out "$25,000" and "$50,000" and inserting in lieu thereof "$125,000" and "$250,000", respectively; and

(iii) striking out "of the United States" in the second sentence and inserting in lieu thereof "of a State, the United States, or a foreign country"; and

(C) in subparagraph (C), as redesignated above, by—

(i) striking out "a controlled substance in schedule I or II which is not a narcotic drug" and ", (5), and (6)" and inserting in lieu thereof "less than 50 kilograms of marihuana, 10 kilograms of hashish, or one kilogram of hashish oil" and "and (5)", respectively;

(ii) striking out "$15,000" and "$30,000" and inserting in lieu thereof "$50,000" and "$100,000", respectively; and

(iii) striking out "of the United States" in the second sentence and inserting in lieu thereof "of a state, the United States, or a foreign country";

(2) in paragraph (2), by—

(A) striking out "$10,000" and "$20,000" and inserting in lieu thereof "$25,000" and "$50,000", respectively; and

(B) striking out "of the United States" and inserting in lieu thereof "of a state, the United States, or a foreign country";

(3) in paragraph (3), by—

(A) striking out "$5,000" and "$10,000" and inserting in lieu thereof "$10,000" and "$20,000", respectively; and

(B) striking out "of the United States" and inserting in lieu thereof "of a state, the United States, or a foreign country";

(4) in paragraph (4), by striking out "(1)(B)" and inserting in lieu thereof "(1)(C)";

(5) by striking out paragraphs (5) and (6).

SEC. 303. (a) Title III of the Federal Food, Drug, and Cosmetic Act is amended by adding at the end thereof the following new section:

"IMITATION CONTROLLED SUBSTANCES

"SEC. 308. (a) For purposes of this section, the term—

"(1) 'imitation controlled substances' means any substance other than a controlled substance or prescription drug, or combination of such substances, which is marketed, sold, or distributed to encourage recreational drug use or abuse or any similar nonmedical use and—

"(A) by representation or appearance (including color, shape, size, and markings) would lead a reasonable person to believe that the substance is a controlled substance; or

"(B) purports to act, either alone, in multiple doses, or in combination with a substance or substances, like a controlled substance, either stimulant or depressant as defined in section 102(9) of the Controlled Substances Act;

"(2) 'distribute' means the actual, constructive, or attempted transfer, delivery, or dispensing to another of an imitation controlled substance;

"(3) 'manufacture' means the production, preparation, propagation, compounding, or processing of an imitation controlled substance, and includes any packaging or repackaging of such substance or labeling or relabeling of its container, except that such term does not include the preparation, compounding, packaging, or labeling of an imitation controlled substance in conformity with applicable State or local law by a practitioner as an incident to his administering or dispensing of such substance in the course of his professional practice; and

"(4) 'controlled substance' is used as defined in section 102(6) of the Controlled Substances Act.

"(b)(1)(A) Except as provided in subparagraph (B), it shall be unlawful for any person knowingly or intentionally to create, manufacture, or distribute, or possess with intent to create, manufacture, or distribute an imitation controlled substance. Any person who violates this paragraph shall be sentenced to a term of imprisonment of not more than two years, a fine of not more than $10,000 or both.

"(B) Subparagraph (A) does not apply to the creation, manufacture, distribution, or possession of an imitation controlled substance by a person if the imitation controlled substance is created, manufactured, distributed, or possessed for use as a placebo in the course of the professional practice of a practitioner registered under part C of the Controlled Substances Act or in research conducted under section 505(i) of this Act or conducted in connection with an application filed under section 505(b) of this Act.

"(2) Any person at least 18 years of age who violates paragraph (1)(A) by distributing an imitation controlled substance to a person under 18 years of age shall be sentenced to a term of imprisonment of not more than four years, fined not more than $20,000, or both.

"(c) It is unlawful for any person to place any newspaper, magazine, handbill, or other publication, or to post or distribute in any public place, any advertisement or solicitation with reasonable knowledge that the purpose of the advertisement or solicitation is to promote the distribution of imitation controlled substances. Any person who violates this subsection is guilty of a crime and upon conviction may be imprisoned for not more than one year, fined not more than $5,000, or both.".

(b) Subsection (a) of section 302 of such Act is amended by striking out "paragraphs (h), (i), and (j)" and inserting in lieu thereof "paragraphs (h) and (j)".

SEC. 304. Subsection (b) of section 1010 of the Controlled Substances Import and Export Act (21 U.S.C. 960(b)) is amended—

(1) by redesignating paragraphs (1) and (2) as paragraphs (2) and (3), respectively, and inserting after "(b)" a new paragraph to read as follows:

"(1) In the case of a violation under subsection (a) of this section involving—

"(A) 100 grams or more of a mixture or substance containing a detectable amount of a narcotic drug in schedule I or II other than a narcotic drug consisting of—

"(i) cocoa leaves;

"(ii) a compound, manufacture, salt, derivative, or preparation of cocoa leaves; or

"(iii) a substance chemically identical thereto;

"(B) a kilogram or more of any other narcotic drug in schedule I or II;

"(C) 500 grams or more of phencyclidine (PCP);

"(D) 5 grams or more of lysergic acid diethylamide (LSD);

the person committing such violation shall be imprisoned for not more than twenty years, or fined not more than $250,000, or both.";

(2) in paragraph (2), as redesignated above, by—

(A) striking out "narcotic drug in schedule I or II, the person committing such violation shall" and inserting in lieu thereof "controlled substance in schedule I or II, the person committing such violation shall, except as provided in paragraphs (1) and (3),"; and

(B) striking out "$25,000" and inserting in lieu thereof "$125,000";

(3) in paragraph (3), as redesignated above, by—

(A) striking out "a controlled substance other than a narcotic drug in schedule I or II, the person committing such violation shall" and inserting in lieu thereof "less than 50 kilograms of marihuana, less than 10 kilograms of hashish, less than one kilogram of hashish oil, or any quantity of a controlled substance in schedule III, IV, or V, the person committing such violation shall, except as provided in paragraph (4)"; and

(B) striking out "$15,000" and substituting "$50,000".

SEC. 305. Section 1012 of the Controlled Substances Import and Export Act (21 U.S.C. 962) is amended by striking out "the United States" in subsection (b) and inserting in lieu thereof "a State, the United States, or a foreign country".

SEC. 306. (a) This section may be cited as the "National Narcotics Act of 1982".

(b)(1) The Congress hereby makes the following findings:

(A) The flow of illegal narcotics into the United States is a major and growing problem.

(B) The problem of illegal drug activity falls across the entire spectrum of Federal activities both nationally and internationally.

(C) Illegal drug trafficking is estimated by the General Accounting Office to be a $79,000,000,000 a year industry in the United States.

(D) The annual consumption of heroin in the United States is in the range of four metric tons, and annual domestic consumption of cocaine is estimated to be forty to forty-eight metric tons.

(E) Despite the efforts of the United States Government and other nations, the mechanisms for smuggling opium and other hard drugs into the United States remain virtually intact and United States agencies estimate that they are able to interdict no more than 5 to 15 per centum of all hard drugs flowing into the country.

(F) Such significant indicators of the drug problem as drug-related deaths, emergency room visits, hospital admissions due to drug-related incidents, and addiction rates are soaring.

(G) Increased drug trafficking is strongly linked to violent, addiction-related crime and recent studies have shown that over 90 per centum of heroin users rely upon criminal activity as a means of income.

(H) Much of the drug trafficking is handled by syndicates which results in increased violence and criminal activity because of the competitive struggle for control of the domestic drug market.

(I) Controlling the supply of illicit drugs is a key to reducing the crime epidemic confronting every region of the country.

(J) The magnitude and scope of the problem requires a director of National and International Drug Operations and Policy with the responsibility for the coordination and direction of all Federal efforts by the numerous agencies.

(K) Such a director must have broad authority and responsibility for making management, policy, and budgetary decisions with respect to all Federal agencies involved in attacking this problem so that a unified and efficient effort can be made to eliminate the illegal drug problem.

(2) It is the purpose of this section to insure—

(A) the development of a national policy with respect to illegal drugs;

(B) the direction and coordination of all Federal agencies involved in the effort to implement such a policy; and

(C) that a single, competent, and responsible high-level official of the United States Government, who is appointed by the President, by and with the advice and consent of the Senate, and who is accountable to the Congress and the American people, will be charged with the responsibility of coordinating the overall direction of United States policy, resources, and operations with respect to the illegal drug problem.

(c) There is established in the executive branch of the Government an office to be known as the "Office of the Director of National and International Drug Operations and Policy" (hereinafter in this section referred to as the "Office of the Director"). There shall be at the head of the Office of the Director a Director of National and International Drug Operations and Policy (hereinafter in this section referred to as the "Director"). There shall be a Deputy Director of National and International Drug Operations and Policy (hereinafter in this section referred to as the "Deputy Director") to assist the Director in carrying out the Director's functions under this section.

(d)(1) The Director and the Deputy Director shall be appointed by the President, by and with the advice and consent of the Senate. The Director and the Deputy Director shall each serve at the pleasure of the President. No person may serve as Director or Deputy Director for a period of more than four years unless such person is reappointed to that same office by the President, by and with the advice and consent of the Senate. The Director shall be entitled to the compensation provided for in section 5313, title 5, United States Code. The Deputy Director shall be entitled to the compensation provided for in section 5314, title 5, United States Code.

(2) The Director shall serve as the principal director and coordinator of United States operations and policy on illegal drugs.

(3) The Director shall have the responsibility, and is authorized to—

(A) develop, review, implement, and enforce United States Government policy with respect to illegal drugs;

(B) direct and coordinate all United States Government efforts to halt the flow into, and sale and use of illegal drugs within the United States;

(C) develop in concert with governmental entities budgetary priorities and budgetary allocations of entities of the United States Government with respect to illegal drugs; and

(D) coordinate the collection and dissemination of information necessary to implement United States policy with respect to illegal drugs.

(4) In carrying out his responsibilities under paragraph (3) the Director is authorized to—

(A) direct, with the concurrence of the head of the agency employing such personnel, the temporary reassignment of government personnel within the United States Government in order to implement United States policy with respect to illegal drugs;

(B) procure temporary and intermittent services under section 3109(b) of title 5 of the United States Code, but at rates for individuals not to exceed the daily equivalent of the maximum annual rate of basic pay payable for the grade of GS-18 of the General Schedule;

(C) accept and use donations of property from all government agencies; and

(D) use the mails in the same manner as any other department or agency of the executive branch.

(5) Notwithstanding any other provision of law, rule, or regulation to the contrary, the Director shall have the authority to direct each department or agency with responsibility for drug control to carry out the policies established by the Director consistent with the general authority of each agency or department.

(6) The Administrator of the General Services Administration shall provide to the Director on a reimbursable basis such administrative support services as the Director may request.

(e) The Director shall submit to the Congress, within nine months after enactment of this section, and annually thereafter, a full and complete report reflecting United States policy with respect to illegal drugs, plans proposed for the implementation of such policy, and, commencing with the submission of the second report, a full and complete report reflecting accomplishments with respect to the United States policy and plans theretofore submitted to the Congress.

(f) For the purpose of carrying out this section, there are authorized to be appropriated $500,000 for fiscal year 1983, and such sums as may be necessary for each of the four succeeding fiscal years, to be available until expended.

(g) This section shall be effective January 1, 1983.

SEC. 307. (a) Section 609(b) of the Federal Aviation Act of 1958 (49 U.S.C. 1429) is amended—

(1) by inserting "(1)" after "(b)", and

(2) by adding at the end the following new paragraph:

"(2) Any airman certificate issued under this Act shall be revoked upon the conviction in any court of the holder of such certificate for any violation of any State or Federal statute relating to the transportation or distribution of any controlled substance as defined by the Controlled Substances Act.".

(b) The amendment to section 609(b) of the Federal Aviation Act of 1958 made by subsection (a) shall not apply to any offense committed before the date of enactment of this section.

(c) Section 902(b) of the Federal Aviation Act of 1958 (49 U.S.C. 1472(b)) is amended—

(1) by striking out "(b) Any person who" and inserting in lieu thereof "(b)(1) Except as provided in paragraph (2), any person who";

(2) by striking out "uses or attempts to use" and inserting in lieu thereof "sells, uses, attempts to use, or possesses with the intent to use"; and

(3) by adding at the end the following new paragraph:

"(2)(A) Any person who violates paragraph (1) (other than by selling a fraudulent certificate) with the intent to violate any State or Federal statute relating to the transportation or distribution of any controlled substance as defined by the Controlled Substances Act shall be subject to a fine not exceeding $25,000 or to imprisonment not exceeding five years, or both.

"(B) Any person who sells a fraudulent certificate (as that term is used in paragraph (1)) with the knowledge that the purchaser intends to use such certificate in connection with any act violating any State or Federal statute relating to the transportation or distribution of any controlled substances as defined by the Controlled Substances Act shall be subject to a fine not exceeding $25,000 or to imprisonment not exceeding five years, or both.".

(d)(1) Chapter 2 of title 18 of the United States Code is amended by adding after section 35 the following:

"§ 36. Use of aircraft for narcotics purposes

"(a) Any person who operates an aircraft (as defined by section 1301(31) of title 49 of the United States Code) with knowledge that such aircraft is, incident to such operation, used or intended to be used in the commission of an act which is a violation of any State or Federal statute relating to the transportation or distribution of any controlled substances as defined by the Controlled Substances Act shall be subject to a fine of not more than $25,000 or imprisonment for not more than 5 years, or both.

"(b) Any person convicted of a second violation of subsection (a) of this section, shall be subject to a fine of not more than $50,000 or imprisonment for not more than 10 years, or both.

"(c) Any penalty imposed for a violation of this subsection shall be in addition to, and not in lieu of, any penalty imposed under any State or Federal statute relating to the transportation or distribution of any controlled substances as defined by the Controlled Substances Act.".

(2) The table of sections for chapter 2, title 18, United States Code, is amended by adding after the item relating to section 35, the following:

"36. Use of aircraft for narcotic purposes.".

TITLE IV—SENTENCING REFORM

SEC. 401. This title may be cited as the "Sentencing Reform Act of 1982".

SEC. 402. (a) Title 18 of the United States Code is amended by—

(1) redesignating sections 3577, 3578, 3611, 3612, 3615, 3617, 3618, 3619, 3620, and 3656 as sections 3661, 3662, 3663, 3664, 3665, 3666, 3667, 3668, 3669, and 3670 of a new chapter 232 of title 18 of the United States Code, respectively;

(2) repealing chapters 227, 229, and 231 and substituting the following new chapters:

"CHAPTER 227—SENTENCES

"Subchapter
"A. General Provisions 3551
"B. Probation 3561
"C. Fines 3571
"D. Imprisonment 3581

"SUBCHAPTER A—GENERAL PROVISIONS

"Sec.
"3551. Authorized sentences.
"3552. Presentence reports.
"3553. Imposition of a sentence.
"3554. Order of criminal forfeiture.
"3555. Order of notice to victims.
"3556. Order of restitution.
"3557. Review of a sentence.
"3558. Implementation of a sentence.
"3559. Sentencing classification of offenses.

"SUBCHAPTER A—GENERAL PROVISIONS

"§ 3551. Authorized sentences

"(a) IN GENERAL.—Except as otherwise specifically provided, a defendant who has been found guilty of an offense described in any Federal statute, other than an Act of Congress applicable exclusively in the District of Columbia or the Uniform Code of Military Justice, shall be sentenced in accordance with the provisions of this chapter so as to achieve the purposes set forth in subparagraphs (A) through (D) of section 3553(a)(2)

to the extent that they are applicable in light of all the circumstances of the case.

"(b) INDIVIDUALS.—An individual found guilty of an offense shall be sentenced, in accordance with the provisions of section 3553, to—

"(1) a term of probation as authorized by subchapter B;

"(2) a fine as authorized by subchapter C; or

"(3) a term of imprisonment is authorized by subchapter D.

A sentence to pay a fine may be imposed in addition to any other sentence. A sanction authorized by section 3554, 3555, or 3556 may be imposed in addition to the sentence required by this subsection.

"(c) ORGANIZATIONS.—An organization found guilty of an offense shall be sentenced, in accordance with the provisions of section 3553, to—

"(1) a term of probation as authorized by subchapter B; or

"(2) a fine as authorized by subchapter C. A sentence to pay a fine may be imposed in addition to a sentence to probation. A sanction authorized by section 3554, 3555, or 3556 may be imposed in addition to the sentence required by this subsection.

"§ 3552. Presentence reports

"(a) PRESENTENCE INVESTIGATION AND REPORT BY PROBATION OFFICER.—A United States probation officer shall, pursuant to the provisions of Rule 32(c) of the Federal Rules of Criminal Procedure, make a presentence investigation of a defendant, and shall, before the imposition of sentence, report the results of the investigation to the court.

"(b) PRESENTENCE STUDY AND REPORT BY BUREAU OF PRISONS.—If the court, before or after its receipt of a report specified in subsection (a) or (c), desires more information than is otherwise available to it as a basis for determining the sentence to be imposed on a defendant found guilty of a felony, it may order that the defendant, for the purpose of a study, be committed to the custody of the Bureau of Prisons for a period of not more than sixty days. The order shall specify the additional information that the court needs before determining the sentence to be imposed. Such an order shall be treated for administrative purposes as a provisional sentence of imprisonment for the maximum term authorized by section 3581(b) for the offense committed. The Bureau shall conduct a complete study of the defendant during such period, inquiring into such matters as are specified by the court and any other matters that it believes are pertinent to the factors set forth in section 3553(a). The period of commitment may, in the discretion of the court, be extended for an additional period of not more than sixty days. By the expiration of the period of commitment, or by the expiration of any extension granted by the court, the Bureau shall return the defendant to the court for final sentencing, shall provide the court with a written report of the pertinent results of the study, and shall make to the court whatever recommendations the Bureau believes will be helpful to a proper resolution of the case. The report shall include recommendations of the Bureau concerning the guidelines and policy statements, promulgated by the Sentencing Commission pursuant to 28 U.S.C. 994(a), that it believes are applicable to the defendant's case. After receiving the report and the recommendations, the court shall proceed finally to sentence the defendant in accordance with the sentencing alternatives and procedures available under this chapter.

"(c) PRESENTENCE EXAMINATION AND REPORT BY PSYCHIATRIC OR PSYCHOLOGICAL EXAMINERS.—If the court, before or after its receipt of a report specified in subsection (a) or (b) desires more information than is otherwise available to it as a basis for determining the mental condition of the defendant, it may order that the defendant undergo a psychiatric or psychological examination and that the court be provided with a written report of the results of the examination pursuant to the provisions of section 4247.

"(d) DISCLOSURE OF PRESENTENCE REPORTS.—The court shall assure that a report filed pursuant to this section is disclosed to the defendant, the counsel for the defendant, and the attorney for the government in a timely manner, pursuant to the provisions of Rule 32(c) of the Federal Rules of Criminal Procedure.

"§ 3553. Imposition of a sentence

"(a) FACTORS TO BE CONSIDERED IN IMPOSING A SENTENCE.—The court, in determining the particular sentence to be imposed, shall consider—

"(1) the nature and circumstances of the offense and the history and characteristics of the defendant;

"(2) the need for the sentence imposed—

"(A) to reflect the seriousness of the offense, to promote respect for law, and to provide just punishment for the offense;

"(B) to afford adequate deterrence to criminal conduct;

"(C) to protect the public from further crimes of the defendant; and

"(D) to provide the defendant with needed educational or vocational training, medical care, or other correctional treatment in the most effective manner;

"(3) the kinds of sentences available;

"(4) the kinds of sentence and the sentencing range established for the applicable category of offense committed by the applicable category of defendant as set forth in the guidelines that are issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(1) and that are in effect on the date the defendant is sentenced;

"(5) any pertinent policy statement issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(2) that is in effect on the date the defendant is sentenced; and

"(6) the need to avoid unwarranted sentence disparities among defendants with similar records who have been found guilty of similar conduct.

"(b) APPLICATION OF GUIDELINES IN IMPOSING A SENTENCE.—The court shall impose a sentence of the kind, and within the range, referred to in subsection (a)(4) unless the court finds that an aggravating or mitigating circumstance exists that was not adequately taken into consideration by the Sentencing Commission in formulating the guidelines and that should result in a sentence different from that described.

"(c) STATEMENT OF REASONS FOR IMPOSING A SENTENCE.—The court, at the time of sentencing, shall state in open court the reasons for its imposition of the particular sentence, and, if the sentence—

"(1) is of the kind, and within the range, described in subsection (a)(4), the reason for imposing a sentence at a particular point within the range; or

"(2) is not of the kind, or is outside the range, described in subsection (a)(4), the specific reason for the imposition of a sentence different from that described.

If the sentence does not include an order of restitution, the court shall include in the statement the reason therefor. The clerk of the court shall provide a transcription of the court's statement of reasons to the Probation System, and, if the sentence includes a term of imprisonment, to the Bureau of Prisons.

"(d) PRESENTENCE PROCEDURE FOR AN ORDER OF NOTICE OR RESTITUTION.—Prior to imposing an order of notice pursuant to section 3555, or an order of restitution pursuant to section 3556, the court shall give notice to the defendant and the government that it is considering imposing such an order. Upon motion of the defendant or the government, or on its own motion, the court shall—

"(1) permit the defendant and the government to submit affidavits and written memoranda addressing matters relevant to the imposition of such an order;

"(2) afford counsel an opportunity in open court to address orally the appropriateness of the imposition of such an order; and

"(3) include in its statement of reasons pursuant to subsection (c) specific reasons underlying its determinations regarding the nature of such an order.

Upon motion of the defendant or the government, or on its own motion, the court may in its discretion employ any additional procedures that it concludes will not unduly complicate or prolong the sentencing process.

"§ 3554. Order of criminal forfeiture

"The court, in imposing a sentence on a defendant who has been found guilty of an offense described in section 1962 of this title or in title II or III of the Comprehensive Drug Abuse Prevention and Control Act of 1970 shall order, in addition to the sentence that is imposed pursuant to the provisions of section 3551, that the defendant forfeit property to the United States in accordance with the provisions of section 1963 of this title or section 413 of the Comprehensive Drug Abuse and Control Act of 1970.

"§ 3555. Order of notice to victims

"The court, in imposing a sentence on a defendant who has been found guilty of an offense involving fraud or other intentionally deceptive practices, may order, in addition to the sentence that is imposed pursuant to the provisions of section 3551, that the defendant give reasonable notice and explanation of the conviction, in such form as the court may approve, to the victims of the offense. The notice may be ordered to be given by mail, by advertising in designated areas or through designated media, or by other appropriate means. In determining whether to require the defendant to give such notice, the court shall consider the factors set forth in section 3553(a) to the extent that they are applicable and shall consider the cost involved in giving the notice as it relates to the loss caused by the offense, and shall not require the defendant to bear the costs of notice in excess of $20,000.

"§ 3556. Order of restitution

"(a) ORDER.—The court, in imposing a sentence on a defendant for any offense under this title, except an offense described in section 3671, may order the defendant to make appropriate restitution. The order of restitution shall require that the defendant—

"(1) in the case of an offense causing injury or death, make restitution to the victim of the offense or estate of the victim in an amount that does not exceed income lost because of the victim's incapacitation or death, necessary medical expenses including ones associated with physical, psychological, or vocational rehabilitation, and, if

applicable, the expenses for the funeral and burial of the victim; and

"(2) in the case of an offense resulting in loss, damage, or destruction of property—

"(A) restore the property to the victim of the offense; or

"(B) make restitution to the victim of the offense in an amount that does not exceed the value of the property.

The court may order that restitution be made in the form of money or, if the victim agrees, in services to the victim or to a person or organization designated by the victim. If the court does not order restitution, the court must state for the record the reasons. The court shall make the order of restitution as fair as possible to the victim without unduly complicating or prolonging the sentencing process.

"(b) RELATIONSHIP TO CIVIL PROCEEDINGS.—

"(1) The court shall not order restitution as to any victim who is bound by an earlier judgment in, or a settlement of, a civil proceeding involving the underlying offense.

"(2) Any amount paid to a person pursuant to an order of restitution shall be set off against an amount later recovered as compensatory damages by such person in any civil proceeding.

"(3) A conviction of a defendant by a Federal court of an offense involving the act giving rise to restitution under this section shall estop the defendant from denying the essential allegations of the criminal offense in any subsequent civil proceeding brought by the victim.

"(4) If appropriate the court may consider ordering restitution to any party who has compensated the victim for expenses or losses directly related to the crime.

"(5) An order of restitution may be enforced by the victim or the United States in the same manner as a judgment in a civil action and notwithstanding any other provision of law, an order of restitution shall be satisfied by the defendant before any Federal lien.

"(c) RESTITUTION AS CONDITION.—If a defendant is placed on probation or a term of supervised release pursuant to this title, any restitution ordered under this section shall be a condition of such term of supervised release or probation. Failure to comply with an order of restitution shall be grounds for the revocation of probation or for prosecution for contempt.

"§ 3557. Review of a sentence

"The review of a sentence imposed pursuant to section 3551 is governed by the provisions of sections 3742.

"§ 3558. Implementation of a sentence

"The implementation of a sentence imposed pursuant to section 3551 is governed by the provisions of chapter 229.

"§ 3559. Sentencing classification of offenses

"(a) CLASSIFICATION.—An offense that is not specifically classified by a letter grade in the section defining it, is classified—

"(1) if the maximum term of imprisonment authorized is—

"(A) life imprisonment, or if the maximum penalty is death, as a Class A felony;

"(B) twenty years or more, as a Class B felony;

"(C) less than twenty years but ten or more years, as a Class C felony;

"(D) less than ten years but five or more years, as a Class D felony;

"(E) less than five years but more than one year, as a Class E felony;

"(F) one year or less but more than six months, as a Class A misdemeanor;

"(G) six months or less but more than thirty days, as a Class B misdemeanor;

"(H) thirty days or less but more than five days, as a Class C misdemeanor; or

"(I) five days or less, or if no imprisonment is authorized, as an infraction.

"(b) EFFECT OF CLASSIFICATION.—An offense classified under subsection (a) carries all the incidents assigned to the applicable letter designation except that the maximum fine that may be imposed is the fine authorized by the statute describing the offense, or by this title, whichever is the greater.

"SUBCHAPTER B—PROBATION

"Sec.
"3561. Sentence of probation.
"3562. Imposition of a sentence of probation.
"3563. Conditions of probation.
"3564. Running of a term of probation.
"3565. Revocation of probation.
"3566. Implementation of a sentence of probation.

"SUBCHAPTER B—PROBATION

"§ 3561. Sentence of probation

"(a) IN GENERAL.—A defendant who has been found guilty of an offense may be sentenced to a term of probation unless—

"(1) the offense is a Class A felony;

"(2) the offense is an offense for which probation has been expressly precluded; or

"(3) the defendant is sentenced at the same time to a term of imprisonment for the same or a different offense.

"(b) AUTHORIZED TERMS.—The authorized terms of probation are—

"(1) for a felony, not less than one nor more than five years;

"(2) for a misdemeanor, not more than two years; and

"(3) for an infraction, not more than one year.

"§ 3562. Imposition of a sentence of probation

"(a) FACTORS TO BE CONSIDERED IN IMPOSING A TERM OF PROBATION.—The court, in determining whether to impose a term of probation, and, if a term of probation is to be imposed, in determining the length of the term and the conditions of probation, shall consider the factors set forth in section 3553(a) to the extent that they are applicable.

"(b) EFFECT OF FINALITY OF JUDGMENT.—Notwithstanding the fact that a sentence of probation can subsequently be—

"(1) modified or revoked pursuant to the provisions of section 3564 or 3565;

"(2) corrected pursuant to the provisions of rule 35 and section 3742; or

"(3) appealed and modified, if outside the guideline range, pursuant to the provisions of section 3742;

a judgment of conviction that includes such a sentence constitutes a final judgment for all other purposes.

"§ 3563. Conditions of probation

"(a) MANDATORY CONDITIONS.—The court shall provide, as an explicit condition of a sentence of probation—

"(1) for a felony, a misdemeanor, or an infraction, that the defendant not commit another federal, State, or local crime during the term of probation; and

"(2) for a felony, that the defendant also abide by at least one condition set forth in subsection (b)(2), (b)(3), or (b)(13).

"(b) DISCRETIONARY CONDITIONS.—The court may provide, as further conditions of a sentence of probation, to the extent that such conditions are reasonably related to the factors set forth in section 3553 (a)(1) and (a)(2) and to the extent that such conditions involve only such deprivations of liberty or property as are reasonably necessary for the purposes indicated in section 3553(a)(2), that the defendant—

"(1) support his dependents and meet other family responsibilities;

"(2) pay a fine imposed pursuant to the provisions of subchapter C;

"(3) make restitution to a victim of the offense pursuant to the provisions of section 3556;

"(4) give to the victims of the offense the notice ordered pursuant to the provisions of section 3555;

"(5) work conscientiously at suitable employment or pursue conscientiously a course of study or vocational training that will equip him for suitable employment;

"(6) refrain, in the case of an individual, from engaging in a specified occupation, business, or profession bearing a reasonably direct relationship to the conduct constituting the offense, or engage in such a specified occupation, business, or profession only to a stated degree or under stated circumstances;

"(7) refrain from frequenting specified kinds of places or from associating unnecessarily with specified persons;

"(8) refrain from excessive use of alcohol, or any use of a narcotic drug or other controlled substance, as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802), without a prescription by a licensed medical practitioner;

"(9) refrain from possessing a firearm, destructive device, or other dangerous weapon;

"(10) undergo available medical, psychiatric, or psychological treatment, including treatment for drug or alcohol dependency, as specified by the court, and remain in a specified institution if required for that purpose;

"(11) remain in the custody of the Bureau of Prisons during nights, weekends, or other intervals of time, totaling no more than the lesser of one year or the term of imprisonment authorized for the offense in section 3581(b), during the first year of the term of probation;

"(12) reside at, or participate in the program of, a community correction facility for all or part of the term of probation;

"(13) work in community service as directed by the court;

"(14) reside in a specified place or area, or refrain from residing in a specified place or area;

"(15) remain within the jurisdiction of the court, unless granted permission to leave by the court or a probation officer;

"(16) report to a probation officer as directed by the court or the probation officer;

"(17) permit a probation officer to visit him at his home or elsewhere as specified by the court;

"(18) answer inquiries by a probation officer and notify the probation officer promptly of any change in address or employment;

"(19) notify the probation officer promptly if arrested or questioned by a law enforcement officer; or

"(20) satisfy such other conditions as the court may impose.

"(c) MODIFICATION OF CONDITIONS.—The court may, after a hearing, modify, reduce, or enlarge the conditions of a sentence of probation at any time prior to the expiration or termination of the term of probation, pursuant to the provisions applicable to the initial setting of the conditions of probation.

"(d) WRITTEN STATEMENT OF CONDITIONS.—The court shall direct that the probation officer provide the defendant with a written statement that sets forth all the conditions to which the sentence is subject, and that is sufficiently clear and specific to serve as a

guide for the defendant's conduct and for such supervision as is required.

"§ 3564. Running of a term of probation

"(a) COMMENCEMENT.—A term of probation commences on the day that the sentence of probation is imposed, unless otherwise ordered by the court.

"(b) CONCURRENCE WITH OTHER SENTENCES.—Multiple terms of probation, whether imposed at the same time or at different times, run concurrently with each other. A term of probation runs concurrently with any federal, State, or local term of probation, or supervised release, or parole for another offense to which the defendant is subject or becomes subject during the term of probation, except that it does not run during any period in which the defendant is imprisoned, other than during limited intervals as a condition of probation or supervised release, in connection with a conviction for a federal, State, or local crime.

"(c) EARLY TERMINATION.—The court, after considering the factors set forth in section 3553(a) to the extent that they are applicable, may terminate a term of probation previously ordered and discharge the defendant at any time in the case of a misdemeanor or an infraction or at any time after the expiration of one year of probation in the case of a felony, if it is satisfied that such action is warranted by the conduct of the defendant and the interest of justice.

"(d) EXTENSION.—The court may, after a hearing, extend a term of probation, if less than the maximum authorized term was previously imposed, at any time prior to the expiration or termination of the term of probation, pursuant to the provisions applicable to the initial setting of the term of probation.

"(e) SUBJECT TO REVOCATION.—A sentence of probation remains conditional and subject to revocation until its expiration or termination.

"§ 3565. Revocation of probation

"(a) CONTINUATION OR REVOCATION.—If the defendant violates a condition of probation at any time prior to the expiration or termination of the term of probation, the court may, after a hearing pursuant to Rule 32.1 of the Federal Rules of Criminal Procedure, and after considering the factors set forth in section 3553(a) to the extent that they are applicable—

"(1) continue him on probation, with or without extending the term or modifying or enlarging the conditions; or

"(2) revoke the sentence of probation and impose any other sentence that was available under subchapter A at the time of the initial sentencing.

"(b) DELAYED REVOCATION.—The power of the court to revoke a sentence of probation for violation of a condition of probation, and to impose another sentence, extends beyond the expiration of the term of probation for any period reasonably necessary for the adjudication of matters arising before its expiration if, prior to its expiration, a warrant or summons has been issued on the basis of an allegation of such a violation.

"§ 3566. Implementation of a sentence of probation

"The implementation of a sentence of probation is governed by the provisions of subchapter A of chapter 229.

"SUBCHAPTER C—FINES

"Sec.
"3571. Sentence of fine.
"3572. Imposition of a sentence of fine.
"3573. Modification or remission of fine.
"3574. Implementation of a sentence of fine.

"SUBCHAPTER C—FINES

"§ 3571. Sentence of fine

"(a) IN GENERAL.—A defendant who has been found guilty of an offense may be sentenced to pay a fine.

"(b) AUTHORIZED FINES.—Except as otherwise provided, the authorized fines are—

"(1) if the defendant is an individual—

"(A) for a felony, or for a misdemeanor resulting in the loss of human life, not more than $250,000;

"(B) for any other misdemeanor, not more than $25,000; and

"(C) for an infraction, not more than $1,000; and

"(2) if the defendant is an organization—

"(A) for a felony, or for a misdemeanor resulting in the loss of human life, not more than $500,000;

"(B) for any other misdemeanor, not more than $100,000; and

"(C) for an infraction, not more than $10,000.

"§ 3572. Imposition of a sentence of fine

"(a) FACTORS TO BE CONSIDERED IN IMPOSING FINE.—The court, in determining whether to impose a fine, and, if a fine is to be imposed, in determining the amount of the fine, the time for payment, and the method of payment, shall consider—

"(1) the factors set forth in section 3553(a), to the extent they are applicable, including, with regard to the characteristics of the defendant under section 3553(a), the ability of the defendant to pay the fine in view of the defendant's income, earning capacity, and financial resources and, if the defendant is an organization, the size of the organization;

"(2) the nature of the burden that payment of the fine will impose on the defendant, and on any person who is financially dependent upon the defendant;

"(3) any restitution or reparation made by the defendant to the victim of the offense, and any obligation imposed upon the defendant to make such restitution or reparation to the victim of the offense;

"(4) if the defendant is an organization, any measure taken by the organization to discipline its employees or agents responsible for the offense or to insure against a recurrence of such an offense; and

"(5) any other pertinent equitable consideration.

"(b) LIMIT ON AGGREGATE OF MULTIPLE FINES.—Except as otherwise expressly provided, the aggregate of fines that a court may impose on a defendant at the same time for different offenses that arise from a common scheme or plan, and that do not cause separable or distinguishable kinds of harm or damage, is twice the amount imposable for the most serious offense.

"(c) EFFECT OF FINALITY OF JUDGMENT.—Notwithstanding the fact that a sentence to pay a fine can subsequently be—

"(1) modified or remitted pursuant to the provisions of section 3573;

"(2) corrected pursuant to the provisions of rule 35 and section 3742; or

"(3) appealed and modified, if outside the guideline range, pursuant to the provisions of section 3742;

a judgment of conviction that includes such a sentence constitutes a final judgment for all other purposes.

"(d) TIME AND METHOD OF PAYMENT.—At the time a defendant is sentenced to pay a fine, the court may provide for the payment to be made within a specified period of time or in specified installments. If no such provision is made a part of the sentence, payment is due immediately.

"(e) ALTERNATIVE SENTENCE PRECLUDED.—At the time a defendant is sentenced to pay a fine, the court may not impose an alternative sentence to be served in the event that the fine is not paid.

"(f) INDIVIDUAL RESPONSIBILITY FOR PAYMENT.—If a fine is imposed on an organization, it is the duty of each individual authorized to make disbursement of the assets of the organization to pay the fine from assets of the organization. If a fine is imposed on an agent or shareholder of an organization, the fine shall not be paid, directly or indirectly, out of the assets of the organization, unless the court finds that such payment is expressly permissible under applicable State law.

"§ 3573. Modification or remission of fine

"(a) PETITION FOR MODIFICATION OR REMISSION.—A defendant who has been sentenced to pay a fine, and who—

"(1) has paid part but not all thereof, and concerning whom the circumstances no longer exist that warranted the imposition of the fine in the amount imposed or payment by the time or method specified, may petition the court for—

"(A) an extension of the time for payment;

"(B) a modification in the method of payment; or

"(C) a remission of all or part of the unpaid portion; or

"(2) has thereafter voluntarily made restitution or reparation to the victim of the offense, may petition the court for a remission of the unpaid portion of the fine in an amount not exceeding the amount of such restitution or reparation.

"(b) ORDER OF MODIFICATION OR REMISSION.—If, after the filing of a petition as provided in subsection (a), the court finds that the circumstances warrant relief, the court may enter an appropriate order.

"§ 3574. Implementation of a sentence of fine

"The implementation of a sentence to pay a fine is governed by the provisions of subchapter B of chapter 229.

"SUBCHAPTER D—IMPRISONMENT

"Sec.
"3581. Sentence of imprisonment.
"3582. Imposition of a sentence of imprisonment.
"3583. Inclusion of a term of supervised release after imprisonment.
"3584. Multiple sentences of imprisonment.
"3585. Calculation of a term of imprisonment.
"3586. Implementation of a sentence of imprisonment.

"SUBCHAPTER D—IMPRISONMENT

"§ 3581. Sentence of imprisonment

"(a) IN GENERAL.—A defendant who has been found guilty of an offense may be sentenced to a term of imprisonment.

"(b) AUTHORIZED TERMS.—The authorized terms of imprisonment are—

"(1) for a Class A felony, the duration of the defendant's life or any period of time;

"(2) for a Class B felony, not more than twenty-five years;

"(3) for a Class C felony, not more than twelve years;

"(4) for a Class D felony, not more than six years;

"(5) for a Class E felony, not more than three years;

"(6) for a Class A misdemeanor, not more than one year;

"(7) for a Class B misdemeanor, not more than six months;

"(8) for a Class C misdemeanor, not more than thirty days; and

"(9) for an infraction, not more than five days.

"(c) CAREER CRIMINALS—

"(1) For the purposes of this section, a career criminal is defined as a person sixteen years of age or older who has been found guilty of a crime of violence which is a felony offense or an offense described in section 841, 952(a), 955, or 959 of title 21, and has been convicted of two prior felony offenses, each of which is either a crime of violence in violation of State or Federal law or an offense described in section 841, 952(a), 955, or 959 of title 21.

"(2) A career criminal shall receive the maximum or approximately the maximum penalty for the current offense.

"(3) Prior to full implementation of the provisions of title V relating to sentencing reform, a career criminal may receive a sentence of imprisonment without parole prior to the expiration of the full term of imprisonment imposed by the court.

"§ 3582. Imposition of a sentence of imprisonment

"(a) FACTORS TO BE CONSIDERED IN IMPOSING A TERM OF IMPRISONMENT.—The court, in determining whether to impose a term of imprisonment, and, if a term of imprisonment is to be imposed, in determining the length of the term, shall consider the factors set forth in section 3553(a) to the extent that they are applicable, recognizing that imprisonment is not an appropriate means of promoting correction and rehabilitation. In determining whether to make a recommendation concerning the type of prison facility appropriate for the defendant, the court shall consider any pertinent policy statements issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(2).

"(b) EFFECT OF FINALITY OF JUDGMENT.—Notwithstanding the fact that a sentence to imprisonment can subsequently be—

"(1) modified pursuant to the provisions of subsection (c);

"(2) corrected pursuant to the provisions of rule 35 and section 3742; or

"(3) appealed and modified, if outside the guideline range, pursuant to the provisions of section 3742;

a judgment of conviction that includes such a sentence constitutes a final judgment for all other purposes.

"(c) MODIFICATION OF AN IMPOSED TERM OF IMPRISONMENT.—The court may not modify a term of imprisonment once it has been imposed except that—

"(1) in any case—

"(A) the court, upon motion of the Director of the Bureau of Prisons, may reduce the term of imprisonment, after considering the factors set forth in section 3553(a) to the extent that they are applicable, if it finds that extraordinary and compelling reasons warrant such a reduction and that such a reduction is consistent with applicable policy statements issued by the Sentencing Commission; and

"(B) the court may modify an imposed term of imprisonment to the extent otherwise expressly permitted by statute or by Rule 35 of the Federal Rules of Criminal Procedure;

"(2) in the case of a defendant who has been sentenced to a term of imprisonment in excess of six years, the court, upon motion of the defendant or the Director of the Bureau of Prisons, may reduce the term of imprisonment, after considering the factors set forth in section 3553(a) to the extent that they are applicable, if it finds that extraordinary and compelling reasons require such a reduction and that such a reduction is consistent with applicable policy statements issued by the Sentencing Commission; but the court may consider only two such motions with respect to a particular defendant, one, after the defendant has served at least six years of his sentence, and a second, after the defendant has served at least the maximum term of imprisonment specified in the applicable guideline issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(1); and

"(3) in the case of a defendant who has been sentenced to a term of imprisonment based on a sentencing range that has subsequently been lowered by the Sentencing Commission pursuant to 28 U.S.C. 994(n), upon motion of the defendant or the Director of Bureau of Prisons, or on its own motion, the court may reduce the term of imprisonment, after considering the factors set forth in section 3553(a) to the extent that they are applicable, if such a reduction is consistent with applicable policy statements issued by the Sentencing Commission.

"(d) INCLUSION OF AN ORDER TO LIMIT CRIMINAL ASSOCIATION OF ORGANIZED CRIME AND DRUG OFFENDERS.—The court, in imposing a sentence to a term of imprisonment upon a defendant convicted of a felony set forth in chapter 95 (racketeering) or 96 (racketeer influenced and corrupt organizations) of this title or in the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801 et seq.), or at any time thereafter upon motion by the Director of the Bureau of Prisons or a United States attorney, may include as a part of the sentence an order that requires that the defendant not associate or communicate with a specified person, other than his attorney, upon a showing of probable cause to believe that association or communication with such person is for the purpose of enabling the defendant to control, manage, direct, finance, or otherwise participate in an illegal enterprise.

"§ 3583. Inclusion of a term of supervised release after imprisonment

"(a) IN GENERAL.—The court, in imposing a sentence to a term of imprisonment for a felony or a misdemeanor, may include as a part of the sentence a requirement that the defendant be placed on a term of supervised release after imprisonment.

"(b) AUTHORIZED TERMS OF SUPERVISED RELEASE.—The authorized terms of supervised release are—

"(1) for a Class A or Class B felony, not more than three years;

"(2) for a Class C or Class D felony, not more than two years; and

"(3) for a Class E felony, or for a misdemeanor, not more than one year.

"(c) FACTORS TO BE CONSIDERED IN INCLUDING A TERM OF SUPERVISED RELEASE.—The court, in determining whether to include a term of supervised release, and, if a term of supervised release is to be included, in determining the length of the term and the conditions of supervised release, shall consider the factors set forth in section 3553(a)(1), (a)(2)(B), (a)(2)(D), (a)(4), (a)(5), and (a)(6).

"(d) CONDITIONS OF SUPERVISED RELEASE.—The court shall order, as an explicit condition of supervised release, that the defendant not commit another Federal, State, or local crime during the term of supervision. The court may order, as a further condition of supervised release, to the extent that such condition—

"(1) is reasonably related to the factors set forth in section 3553(a)(1), (a)(2)(B), and (a)(2)(D);

"(2) involves no greater deprivation of liberty than is reasonably necessary for the purposes set forth in section 3553(a)(2)(B) and (a)(2)(D); and

"(3) is consistent with any pertinent policy statements issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a);

any condition set forth as a discretionary condition of probation in section 3563(b)(1) through (b)(10) and (b)(12) through (b)(19), and any other condition it considers to be appropriate. If an alien defendant is subject to deportation, the court may provide, as a condition of supervised release, that he be deported and remain outside the United States, and may order that he be delivered to a duly authorized immigration official for such deportation.

"(e) MODIFICATION OF TERM OR CONDITIONS.—The court may, after considering the factors set forth in section 3553(a)(1), (a)(2)(B), (a)(2)(D), (a)(4), (a)(5), and (a)(6)—

"(1) terminate a term of supervised release previously ordered and discharge the person released at any time after the expiration of one year of supervised release, if it is satisfied that such action is warranted by the conduct of the person released and the interest of justice; or

"(2) after a hearing, extend a term of supervised release if less than the maximum authorized term was previously imposed, and may modify, reduce, or enlarge the conditions of supervised release, at any time prior to the expiration or termination of the term of supervised release, pursuant to the provisions applicable to the initial setting of the term and conditions of post-release supervision.

"(f) WRITTEN STATEMENT OF CONDITIONS.—The court shall direct that the probation officer provide the defendant with a written statement that sets forth all the conditions to which the term of supervised release is subject, and that is sufficiently clear and specific to serve as a guide for the defendant's conduct and for such supervision as is required.

"§ 3584. Multiple sentences of imprisonment

"(a) IMPOSITION OF CONCURRENT OR CONSECUTIVE TERMS.—If multiple terms of imprisonment are imposed on a defendant at the same time, or if a term of imprisonment is imposed on a defendant who is already subject to an undischarged term of imprisonment, the terms may run concurrently or consecutively, except that the terms may not run consecutively for an attempt and for another offense that was the sole objective of the attempt. Multiple terms of imprisonment imposed at the same time run concurrently unless the court orders or the statute mandates that the terms are to run consecutively. Multiple terms of imprisonment imposed at different times run consecutively unless the court orders that the terms are to run concurrently.

"(b) FACTORS TO BE CONSIDERED IN IMPOSING CONCURRENT OR CONSECUTIVE TERMS.—The court, in determining whether the terms imposed are to be ordered to run concurrently or consecutively, shall consider, as to each offense for which a term of imprisonment is being imposed, the factors set forth in section 3553(a).

"(c) TREATMENT OF MULTIPLE SENTENCES AS AN AGGREGATE.—Multiple terms of imprisonment ordered to run consecutively shall be treated for administrative purposes as a single, aggregate term of imprisonment.

"§ 3585. Calculation of a term of imprisonment

"(a) COMMENCEMENT OF SENTENCE.—A sentence to a term of imprisonment commences on the date the defendant is received in custody awaiting transportation to, or arrives voluntarily to commence service of sentence at, the official detention facility at which the sentence is to be served.

"(b) CREDIT FOR PRIOR CUSTODY.—A defendant shall be given credit toward the service of a term of imprisonment for any time he has spent in official detention prior to the date the sentence commences—

"(1) as a result of the offense for which the sentence was imposed; or

"(2) as a result of any other charge for which the defendant was arrested after the commission of the offense for which the sentence was imposed;

that has not been credited against another sentence.

"§ 3586. Implementation of a sentence of imprisonment

"The implementation of a sentence of imprisonment is governed by the provisions of subchapter C of chapter 229 and, if the sentence includes a term of supervised release, by the provisions of subchapter A of chapter 229.

"CHAPTER 229—POSTSENTENCE ADMINISTRATION

"Subchapter
"A. Probation 3601
"B. Fines 3611
"C. Imprisonment 3621

"SUBCHAPTER A—PROBATION

"Sec.
"3601. Supervision of probation.
"3602. Appointment of probation officers.
"3603. Duties of probation officers.
"3604. Transportation of a probationer.
"3605. Transfer of jurisdiction over a probationer.
"3606. Arrest and return of a probationer.
"3607. Special probation and expungement procedures for drug possessors.

"SUBCHAPTER A—PROBATION

"§ 3601. Supervision of probation

"A person who has been sentenced to probation pursuant to the provisions of subchapter B of chapter 227, or placed on probation pursuant to the provisions of chapter 403, or placed on supervised release pursuant to the provisions of section 3583, shall, during the term imposed, be supervised by a probation officer to the degree warranted by the conditions specified by the sentencing court.

"§ 3602. Appointment of probation officers

"(a) APPOINTMENT.—A district court of the United States shall appoint qualified persons to serve, with or without compensation, as probation officers within the jurisdiction and under the direction of the court making the appointment. The court may, for cause, remove a probation officer appointed to serve with compensation, and may, in its discretion, remove a probation officer appointed to serve without compensation.

"(b) RECORD OF APPOINTMENT.—The order of appointment shall be entered on the records of the court, a copy of the order shall be delivered to the officer appointed, and a copy shall be sent to the Director of the Administrative Office of the United States Courts.

"(c) CHIEF PROBATION OFFICER.—If the court appoints more than one probation officer, one may be designated by the court as chief probation officer and shall direct the work of all probation officers serving in the judicial district.

"§ 3603. Duties of probation officers

"A probation officer shall—

"(a) instruct a probationer or a person on supervised release, who is under his supervision as to the conditions specified by the sentencing court, and provide him with a written statement clearly setting forth all such conditions;

"(b) keep informed, to the degree required by the conditions specified by the sentencing court, as to the conduct and condition of a probationer or a person on supervised release, who is under his supervision, and report his conduct and condition to the sentencing court;

"(c) use all suitable methods, not inconsistent with the conditions specified by the court, to aid a probationer or a person on supervised release who is under his supervision, and to bring about improvements in his conduct and condition;

"(d) be responsible for the supervision of any probationer or a person on supervised release who is known to be within the judicial district;

"(e) keep a record of his work, and make such reports to the Director of the Administrative Office of the United States Courts as the Director may require;

"(f) upon request of the Attorney General or his designee, supervise and furnish information about a person within the custody of the Attorney General while on work release, furlough, or other authorized release from his regular place of confinement, or while in prerelease custody pursuant to the provisions of section 3624(c); and

"(g) perform any other duty that the court may designate.

"§ 3604. Transportation of a probationer

"A court, after imposing a sentence of probation, may direct a United States marshal to furnish the probationer with—

"(a) transportation to the place to which he is required to proceed as a condition of his probation; and

"(b) money, not to exceed such amount as the Attorney General may prescribe, for subsistence expenses while traveling to his destination.

"§ 3605. Transfer of jurisdiction over a probationer

"A court, after imposing a sentence, may transfer jurisdiction over a probationer or person on supervised release to the district court for any other district to which the person is required to proceed as a condition of his probation or release, or is permitted to proceed, with the concurrence of such court. A later transfer of jurisdiction may be made in the same manner. A court to which jurisdiction is transferred under this section is authorized to exercise all powers over the probationer or releasee that are permitted by this subchapter or subchapter B or D of chapter 227.

"§ 3606. Arrest and return of a probationer

"If there is probable cause to believe that a probationer or a person on supervised release has violated a condition of his probation or release, he may be arrested, and, upon arrest, shall be taken without unnecessary delay before the court having jurisdiction over him.

"§ 3607. Special probation and expungement procedures for drug possessors

"(a) PRE-JUDGMENT PROBATION.—If a person found guilty of an offense described in section 404 of the Controlled Substances Act (21 U.S.C. 844)—

"(1) has not, prior to the commission of such offense, been convicted of violating a Federal or State law relating to controlled substances; and

"(2) has not previously been the subject of a disposition under this subsection;

the court may, with the consent of such person, place him on probation for a term of not more than one year without entering a judgment of conviction. At any time before the expiration of the term of probation, if the person has not violated a condition of his probation, the court may, without entering a judgment of conviction, dismiss the proceedings against the person and discharge him from probation. At the expiration of the term of probation, if the person has not violated a condition of his probation the court shall, without entering a judgment of conviction, dismiss the proceedings against the person and discharge him from probation. If the person violates a condition of his probation, the court shall proceed in accordance with the provisions of section 3565.

"(b) RECORD OF DISPOSITION.—A nonpublic record of a disposition under subsection (a), or a conviction that is the subject of an expungement order under subsection (c), shall be retained by the Department of Justice solely for the purpose of use by the courts in determining in any subsequent proceeding whether a person qualifies for the disposition provided in subsection (a) or the expungement provided in subsection (c). A disposition under subsection (a), or a conviction that is the subject of an expungement order under subsection (c), shall not be considered a conviction for the purpose of a disqualification or a disability imposed by law upon conviction of a crime, or for any other purpose.

"(c) EXPUNGEMENT OF RECORD OF DISPOSITION.—If the case against a person found guilty of an offense under section 404 of the Controlled Substances Act (21 U.S.C. 844) is the subject of a disposition under subsection (a), and the person was less than twenty-one years old at the time of the offense, the court shall enter an expungement order upon the application of such person. The expungement order shall direct that there be expunged from all official records, except the nonpublic records referred to in subsection (b), all references to his arrest for the offense, the institution of criminal proceedings against him, and the results thereof. The effect of the order shall be to restore such person, in the contemplation of the law, to the status he occupied before such arrest or institution of criminal proceedings. A person concerning whom such an order has been entered shall not be held thereafter under any provision of law to be guilty of perjury, false swearing, or making a false statement by reason of his failure to recite or acknowledge such arrests or institution of criminal proceedings, or the results thereof, in response to an inquiry made of him for any purpose.

"SUBCHAPTER B—FINES

"Sec.
"3611. Payment of a fine.
"3612. Collection of an unpaid fine.
"3613. Lien provisions for satisfaction of an unpaid fine.

"SUBCHAPTER B—FINES

"§ 3611. Payment of a fine

"A person who has been sentenced to pay a fine pursuant to the provisions of subchapter C of chapter 227 shall pay the fine immediately, or by the time and method specified by the sentencing court, to the clerk of the court. The clerk shall forward the payment to the United States Treasury.

"§ 3612. Collection of an unpaid fine

"(a) CERTIFICATION OF IMPOSITION.—If a fine is imposed, the sentencing court shall promptly certify to the Attorney General—

"(1) the name of the person fined;

"(2) his last known address;

"(3) the docket number of the case;

"(4) the amount of the fine imposed;

"(5) the time and method of payment specified by the court;

"(6) the nature of any modification or remission of the fine; and

"(7) the amount of the fine that is due and unpaid.

The court shall thereafter promptly certify to the Attorney General the amount of any subsequent payment that the court may receive with respect to, and the nature of any subsequent remission or modification of, a fine concerning which certification has previously been issued.

"(b) RESPONSIBILITY FOR COLLECTION.—The Attorney General shall be responsible for collection of an unpaid fine concerning which a certification has been issued as provided in subsection (a). An order of restitution, pursuant to section 3556, does not create any right of action against the United States by the person to whom restitution is ordered to be paid.

"§ 3613. Lien provisions for satisfaction of an unpaid fine

"(a) LIEN.—A fine imposed pursuant to the provisions of subchapter C of chapter 227 is a lien in favor of the United States upon all property belonging to the person fined. The lien arises at the time of the entry of the judgment and continues until the liability is satisfied, remitted, or set aside, or until it becomes unenforceable pursuant to the provisions of subsection (b). On application of the person fined, the Attorney General shall—

"(1) issue a certificate of release, as described in section 6325 of the Internal Revenue Code, of any lien imposed pursuant to this section, upon his acceptance of a bond described in section 6325(a)(2) of the Internal Revenue Code; or

"(2) issue a certificate of discharge, as described in section 6325 of the Internal Revenue Code, of any part of the person's property subject to a lien imposed pursuant to this section, upon his determination that the fair market value of that part of such property remaining subject to and available to satisfy the lien is at least three times the amount of the fine.

"(b) EXPIRATION OF LIEN.—A lien becomes unenforceable and liability to pay a fine expires—

"(1) twenty years after the entry of the judgment; or

"(2) upon the death of the individual fined.

The period set forth in paragraph (1) may be extended, prior to its expiration, by a written agreement between the person fined and the Attorney General. The running of the period set forth in paragraph (1) is suspended during any interval for which the running of the period of limitations for collection of a tax would be suspended pursuant to section 6503(b), 6503(c), 6503(f), or 7508(a)(1)(I) of the Internal Revenue Code of 1954 (26 U.S.C. 6503(b), 6503(c), 6503(g), or 7508(a)(1)(I)), or section 513 of the Act of October 17, 1940, 54 Stat. 1190.

"(c) APPLICATION OF OTHER LIEN PROVISIONS.—The provisions of sections 6323, other than 6323(f)(4), 6331 through 6343, 6901, 7402, 7403, 7405, 7423 through 7426, 7505(a), 7506, 7508, 7602 through 7605, 7622, 7701, and 7805 of the Internal Revenue Code of 1954 (26 U.S.C. 6323, 6331 through 6343, 6901, 7402, 7403, 7405, 7423 through 7426, 7505(a), 7506, 7508, 7602 through 7605, 7609, 7610, 7622, 7701, and 7805) and of section 513 of the Act of October 17, 1940, 54 Stat. 1190, apply to a fine and to the lien imposed by subsection (a) as if the liability of the person fined were for an internal revenue tax assessment, except to the extent that the application of such statutes is modified by regulations issued by the Attorney General to accord with differences in the nature of the liabilities. For the purposes of this subsection, references in the preceding sections of the Internal Revenue Code of 1954 to 'the Secretary' shall be construed to mean 'the Attorney General,' and references in those sections to 'tax' shall be construed to mean 'fine.'

"(d) EFFECT OF NOTICE OF LIEN.—A notice of the lien imposed by subsection (a) shall be considered a notice of lien for taxes payable to the United States for the purposes of any State or local law providing for the filing of a notice of a tax lien. The registration, recording, docketing, or indexing, in accordance with 28 U.S.C. 1962, of the judgment under which a fine is imposed shall be considered for all purposes as the filing prescribed by section 6323(f)(1)(A) of the Internal Revenue Code of 1954 (26 U.S.C. 6323(f)(1)(A)) and by subsection (c).

"SUBCHAPTER C—IMPRISONMENT

"Sec.
"3621. Imprisonment of a convicted person.
"3622. Temporary release of a prisoner.
"3623. Transfer of a prisoner to State authority.
"3624. Release of a prisoner.
"3625. Inapplicability of the Administrative Procedure Act.

"SUBCHAPTER C—IMPRISONMENT

"§ 3621. Imprisonment of a convicted person

"(a) COMMITMENT TO CUSTODY OF BUREAU OF PRISONS.—A person who has been sentenced to a term of imprisonment pursuant to the provisions of subchapter D of chapter 227 shall be committed to the custody of the Bureau of Prisons until the expiration of the term imposed, or until earlier released for satisfactory behavior pursuant to the provisions of section 3624.

"(b) PLACE OF IMPRISONMENT.—The Bureau of Prisons shall designate the place of the prisoner's imprisonment. The Bureau may designate any available penal or correctional facility that meets minimum standards of health and habitability established by the Bureau, whether maintained by the federal government or otherwise and whether within or without the judicial district in which the person was convicted, that the Bureau determines to be appropriate and suitable, considering—

"(1) the resources of the facility contemplated;

"(2) the nature and circumstances of the offense;

"(3) the history and characteristics of the prisoner;

"(4) any statement by the court that imposed the sentence—

"(A) concerning the purposes for which the sentence to imprisonment was determined to be warranted; or

"(B) recommending a type of penal or correctional facility as appropriate; and

"(5) any pertinent policy statement issued by the Sentencing Commission pursuant to section 994(a)(2) of title 28.

The Bureau may at any time, having regard for the same matters, direct the transfer of a prisoner from one penal or correctional facility to another.

"(c) DELIVERY OF ORDER OF COMMITMENT.—When a prisoner, pursuant to a court order, is placed in the custody of a person in charge of a penal or correctional facility, a copy of the order shall be delivered to such person as evidence of this authority to hold the prisoner, and the original order, with the return endorsed thereon, shall be returned to the court that issued it.

"(d) DELIVERY OF PRISONER FOR COURT APPEARANCES.—The Bureau of Prisons shall, without charge, bring a prisoner into court or return him to a prison facility on order of a court of the United States or on written request of an attorney for the Government.

"§ 3622. Temporary release of a prisoner

"The Bureau of Prisons may release a prisoner from the place of his imprisonment for a limited period, if such release appears to be consistent with the purposes for which the sentence was imposed and any pertinent policy statement issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(2), if such release otherwise appears to be consistent with the public interest and if there is reasonable cause to believe that the prisoner will honor the trust to be imposed in him, by authorizing him, under prescribed conditions, to—

"(a) visit a designated place for a period not to exceed thirty days, and then return to the same or another facility, for the purpose of—

"(1) visiting a relative who is dying;

"(2) attending a funeral of a relative;

"(3) obtaining medical treatment not otherwise available;

"(4) contacting a prospective employer;

"(5) establishing or reestablishing family or community ties; or

"(6) engaging in any other significant activity consistent with the public interest;

"(b) participate in a training or educational program in the community while continuing in official detention at the prison facility; or

"(c) work at paid employment in the community while continuing in official detention at the penal or correctional facility if—

"(1) the rates of pay and other conditions of employment will not be less than those paid or provided for work of a similar nature in the community; and

"(2) the prisoner agrees to pay to the Bureau such costs incident to his official detention as the Bureau finds appropriate and reasonable under all the circumstances, such costs to be collected by the Bureau and deposited in the Treasury to the credit of the appropriation available for such costs at the time such collections are made.

"§ 3623. Transfer of a prisoner to State authority

"The Director of the Bureau of Prisons shall order that a prisoner who has been charged in an indictment or information with, or convicted of, a State felony, be transferred to an official detention facility within such State prior to his release from a federal prison facility if—

"(1) the transfer has been requested by the Governor or other executive authority of the State;

"(2) the State has presented to the Director a certified copy of the indictment, information, or judgment of conviction; and

"(3) the Director finds that the transfer would be in the public interest.

If more than one request is presented with respect to a prisoner, the Director shall determine which request should receive preference. The expenses of such transfer shall be borne by the State requesting the transfer.

"§ 3624. Release of a prisoner

"(a) DATE OF RELEASE.—A prisoner shall be released by the Bureau of Prisons on the date of the expiration of his term of imprisonment, less any time credited toward the service of his sentence as provided in subsection (b). If the date for a prisoner's release falls on a Saturday, a Sunday, or a legal holiday at the place of confinement, the prisoner may be released by the Bureau on the last preceding weekday.

"(b) CREDIT TOWARD SERVICE OF SENTENCE FOR SATISFACTORY BEHAVIOR.—A prisoner who is serving a term of imprisonment of more than one year, other than a term of imprisonment for the duration of his life, shall receive credit toward the service of his sentence, beyond the time served, of thirty-six days at the end of each year of his term of imprisonment, beginning after the first year of the term, unless the Bureau of Prisons determines that, during that year, he has not satisfactorily complied with such institutional disciplinary regulations as have been approved by the Attorney General and issued to the prisoner. If the Bureau determines that, during that year, the prisoner has not satisfactorily complied with such institutional regulations, he shall receive no such credit toward service of his sentence or shall receive such lesser credit as the Bureau determines to be appropriate. The Bureau's determination shall be made within fifteen days after the end of each year of the sentence. Such credit toward service of sentence vests at the time that it is received. Credit that has vested may not later be withdrawn, and credit that has not been earned may not later be granted.

"(c) PRE-RELEASE CUSTODY.—The Bureau of Prisons shall, to the extent practicable, assure that a prisoner serving a term of imprisonment spends a reasonable part, not to exceed six months, of the last ten percent of the term to be served under conditions that will afford the prisoner a reasonable opportunity to adjust to and prepare for his reentry into the community. The United States Probation System shall, to the extent practicable, offer assistance to a prisoner during such pre-release custody.

"(d) ALLOTMENT OF CLOTHING, FUNDS, AND TRANSPORTATION.—Upon the release of a prisoner on the expiration of his term of imprisonment, the Bureau of Prisons shall furnish him with—

"(1) suitable clothing;

"(2) an amount of money, not more than $500, determined by the Director to be consistent with the needs of the offender and the public interest, unless the Director determines that the financial position of the offender is such that no sum should be furnished; and

"(3) transportation to the place of his conviction, to his bona fide residence within the United States, or to such other place within the United States as may be authorized by the Director.

"(e) SUPERVISION AFTER RELEASE.—A prisoner whose sentence includes a term of supervised release after imprisonment shall be released by the Bureau of Prisons to the supervision of a probation officer who shall, during the term imposed, supervise the person released to the degree warranted by the conditions specified by the sentencing court. The term of supervised release commences on the day the person is released from imprisonment. The term runs concurrently with any federal, State, or local term of probation or supervised release or parole for another offense to which the person is subject or becomes subject during the term of supervised release, except that it does not run during any period in which the person is imprisoned, other than during limited intervals as a condition of probation or supervised release, in connection with a conviction for a federal, State, or local crime.

"§ 3625. Inapplicability of the Administrative Procedure Act

"The provisions of sections 554 and 555 and 701 through 706 of title 5, United States Code, do not apply to the making of any determination, decision, or order under this subchapter."; and

(3) adding the following new section at the end of chapter 232:

"§ 3671. Definitions for sentencing provisions

"As used in chapters 227 and 229—

"(a) 'found guilty' includes acceptance by a court of a plea of guilty or nolo contendere;

"(b) 'commission of an offense' includes the attempted commission of an offense, the consummation of an offense, and any immediate flight after the commission of an offense; and

"(c) 'law enforcement officer' means a public servant authorized by law or by a government agency to engage in or supervise the prevention, detection, investigation, or prosecution of an offense."; and

(4) adding the following caption and sectional analysis at the beginning of new chapter 232:

"CHAPTER 232—MISCELLANEOUS SENTENCING PROVISIONS

"Sec.
"3661. Use of information for sentencing.
"3662. Conviction records.
"3663. Firearms possessed by convicted felons.
"3664. Bribe moneys.
"3665. Liquors and related property; definitions.
"3666. Remission or mitigation of forfeitures under liquor laws; possession pending trial.
"3667. Conveyance carrying liquor.
"3668. Disposition of conveyances seized for violation of the Indian liquor laws.
"3669. Vessels carrying explosives and steerage passengers.
"3670. Duties of Director of Administrative Office of the United States Courts.
"3671. Definitions for sentencing provisions.".

(b) The chapter analysis of Part II of title 18, United States Code, is amended by striking out the items relating to chapters 227, 229, and 231, and inserting in lieu thereof the following:

"227. Sentences..... 3551
"229. Post-Sentence Administration .. 3601
"231. Repealed.....
"232. Miscellaneous Sentencing Provisions..... 3661".

SEC. 403. (a) Chapter 235 of title 18, United States Code, is amended by adding the following new section at the end thereof:

"§ 3742. Review of a sentence

"(a) APPEAL BY A DEFENDANT.—A defendant may file a notice of appeal in the district court for review of an otherwise final sentence if the sentence—

"(1) was imposed in violation of law;

"(2) was imposed as a result of an incorrect application of the sentencing guidelines issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a); or

"(3) was imposed for a felony or a class A misdemeanor and is greater than—

"(A) the sentence specified in the applicable sentencing guideline issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(1), to the extent that the sentence includes a greater fine or term of imprisonment or term of supervised release than the maximum established in the guideline, or includes a more limiting condition of probation or supervised release under section 3563 (b)(6) or (b)(11) than the maximum established in the guideline; and

"(B) the sentence, if any, specified in a plea agreement under Rule 11 (e)(1)(B) or (e)(1)(C) of the Federal Rules of Criminal Procedure.

"(b) APPEAL BY THE GOVERNMENT.—The government may file a notice of appeal in the district court for review of an otherwise final sentence if the sentence—

"(1) was imposed in violation of law;

"(2) was imposed as a result of an incorrect application of the sentencing guidelines issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a); or

"(3) was imposed for a felony or a Class A misdemeanor and is less than—

"(A) the sentence specified in the applicable sentencing guideline issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(1), to the extent that the sentence includes a lesser fine or term of imprisonment or term of supervised release than the minimum established in the guideline, or includes a less limiting condition of probation or supervised release under section 3563 (b)(6) or (b)(11) than the minimum established in the guideline; and

"(B) the sentence, if any, specified in a plea agreement under Rule 11 (e)(1)(B) or (e)(1)(C) of the Federal Rules of Criminal Procedure;

and the Attorney General or the Solicitor General personally approves the filing of the notice of appeal.

"(c) RECORD ON REVIEW.—If a notice of appeal is filed in the district court pursuant to subsection (a) or (b), the clerk shall certify to the court of appeals—

"(1) that portion of the record in the case that is designated as pertinent by either of the parties;

"(2) the presentence report; and

"(3) the information submitted during the sentencing proceeding.

"(d) CONSIDERATION.—Upon review of the record, the court of appeals shall determine whether the sentence—

"(1) was imposed in violation of law;

"(2) was imposed as a result of an incorrect application of the sentencing guidelines; or

"(3) is outside the range of the applicable sentencing guideline, and is unreasonable, having regard for—

"(A) the factors to be considered in imposing a sentence, as set forth in chapter 227 of this title; and

"(B) the reasons for the imposition of the particular sentence, as stated by the district court pursuant to the provisions of section 3553(c).

The court of appeals shall give due regard to the opportunity of the district court to judge the credibility of the witnesses, and shall accept the findings of fact of the district court unless they are clearly erroneous.

"(e) DECISION AND DISPOSITION.—If the court of appeals determines that the sentence—

"(1) was imposed in violation of law or imposed as a result of an incorrect application of the sentencing guidelines, it shall—

"(A) remand the case for further sentencing proceedings; or

"(B) correct the sentence;

"(2) is outside the range of the applicable sentencing guideline and is unreasonable, it shall state specific reasons for its conclusions and—

"(A) if it determines that the sentence is too high and the appeal has been filed under subsection (a), it shall set aside the sentence and—

"(i) remand the case for imposition of a lesser sentence;

"(ii) remand the case for further sentencing proceedings; or

"(iii) impose a lesser sentence;

"(B) if it determines that the sentence is too low and the appeal has been filed under subsection (b), it shall set aside the sentence and—

"(i) remand the case for imposition of a greater sentence;

"(ii) remand the case for further sentencing proceedings; or

"(iii) impose a greater sentence; or

"(3) was not imposed in violation of law or imposed as a result of an incorrect application of the sentencing guidelines, and is not unreasonable, it shall affirm the sentence.".

(b) The sectional analysis of chapter 235 of title 18, United States Code, is amended by adding the following new item after the item relating to section 3741:

"3742. Review of a sentence.".

SEC. 404. Chapter 403 of title 18, United States Code, is amended as follows:

(a) Section 5037 is amended—

(1) by redesignating subsection (c) as subsection (d); and

(2) by striking out subsections (a) and (b) and inserting the following new subsections in lieu thereof:

"(a) If the court finds a juvenile to be a juvenile delinquent, the court shall hold a disposition hearing concerning the appropriate disposition no later than twenty court days after the juvenile delinquency hearing unless the court has ordered further study pursuant to subsection (e). After the disposition hearing, and after considering any pertinent policy statements promulgated by the Sentencing Commission pursuant to 28 U.S.C. 994, the court may suspend the findings of juvenile delinquency, enter an order of restitution pursuant to section 3556, place him on probation, or commit him to official detention. With respect to release or detention pending an appeal or a petition for a writ of certiorari after disposition, the court shall proceed pursuant to the provisions of chapter 207.

"(b) The term for which probation may be ordered for a juvenile found to be a juvenile delinquent may not extend—

"(1) in the case of a juvenile who is less than seventeen years old, beyond the lesser of—

"(A) the date when the juvenile becomes twenty-one years old; or

"(B) the maximum term that would be authorized by section 3561(b) if the juvenile had been tried and convicted as an adult; or

"(2) in the case of a juvenile who is between seventeen and twenty-one years old, beyond the lesser of—

"(A) three years; or

"(B) the maximum term that would be authorized by section 3561(b) if the juvenile had been tried and convicted as an adult.

The provisions dealing with probation set forth in sections 3563, 3564, and 3565 are applicable to an order placing a juvenile on probation.

"(c) The term for which official detention may be ordered for a juvenile found to be a juvenile delinquent may not extend—

"(1) in the case of a juvenile who is less than seventeen years old, beyond the lesser of—

"(A) the date when the juvenile becomes twenty-one years old; or

"(B) the maximum term of imprisonment that would be authorized by section 3581(b) if the juvenile had been tried and convicted as an adult; or

"(2) in the case of a juvenile who is between seventeen and twenty-one years old—

"(A) who is convicted as an adult would be convicted of a Class A, B, or C felony, beyond five years; or

"(B) in any other case beyond the lesser of—

"(i) three years; or

"(ii) the maximum term of imprisonment that would be authorized by section 3581(b) if the juvenile had been tried and convicted as an adult.".

(b) Section 5041 is repealed.

(c) Section 5042 is amended by—

(1) striking out "parole or" each place it appears in the caption and text; and

(2) striking out "parolee or".

(d) The sectional analysis is amended by striking out the items relating to sections 5041 and 5042 and inserting in lieu thereof the following:

"5041. Repealed.
"5042. Revocation of probation.".

SEC. 405. The Federal Rules of Criminal Procedure are amended as follows:

(a) Rule 32 is amended—

(1) by deleting subdivision (a)(1) and inserting in lieu thereof the following:

"(1) IMPOSITION OF SENTENCE.—Sentence shall be imposed without unnecessary delay, but the court may, upon a motion that is jointly filed by the defendant and by the attorney for the government and that asserts a factor important to the sentencing determination is not capable of being resolved at that time, postpone the imposition of sentence for a reasonable time until the factor is capable of being resolved. Prior to the sentencing hearing, the court shall provide the counsel for the defendant and the attorney for the government with notice of the probation officer's determination, pursuant to the provisions of subdivision (c)(2)(B), of the sentencing classifications and sentencing guideline range believed to be applicable to the case. At the sentencing hearing, the court shall afford the counsel for the defendant and the attorney for the government an opportunity to comment upon the probation officer's determination and on other matters relating to the appropriate sentence. Before imposing sentence, the court shall also afford counsel for the defendant an opportunity to speak on behalf of the defendant and shall address the defendant personally and ask him if he wishes to make a statement in his own behalf and to present any information in mitigation of the sentence. The attorney for the government shall have an equivalent opportunity to speak to the court. Upon a motion that is jointly filed by the defendant and by the attorney for the government, the court may hear in camera such a statement by the defendant, counsel for the defendant, or the attorney for the government.";

(2) by adding after the words "right to appeal" in the first sentence of subdivision (a)(2) the words "from the conviction, of his right, if any, to obtain review of the sentence,";

(3) by deleting "right of appeal" in the second sentence of subdivision (a)(2) and inserting in lieu thereof "right to appeal or right to obtain review";

(4) by amending the first sentence of subdivision (c)(1) to read as follows:

"A probation officer shall make a presentence investigation and report to the court before the imposition of sentence unless the court finds that there is in the record information sufficient to enable the meaningful exercise of sentencing authority pursuant to 18 U.S.C. 3553, and the court explains this finding on the record.";

(5) by amending subdivision (c)(2) to read as follows:

"(2) REPORT.—The report of the presentence investigation shall contain—

"(A) information about the history and characteristics of the defendant, including his prior criminal record, if any, his financial condition, and any circumstances affecting his behavior that may be helpful in imposing sentence or in the correctional treatment of the defendant;

"(B) the classification of the offense and of the defendant under the categories established by the Sentencing Commission pursuant to section 994(a) of title 28, that the probation officer believes to be applicable to the defendant's case; the kinds of sentence and the sentencing range suggested for such a category of offense committed by such a category of defendant as set forth in the guidelines issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(1); and an explanation by the probation officer of any factors that may indicate that a sentence of a different kind or of a different length than one within the applicable guideline would be more appropriate under all the circumstances;

"(C) any pertinent policy statement issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a)(2);

"(D) verified information stated in a nonargumentative style containing as assessment of the financial, social, psychological, and medical impact upon, and cost to, any individual against whom the offense has been committed, and any need of such individual for restitution; and

"(E) such other information as may be required by the court.";

(6) in subdivision (c)(3)(A), by deleting "exclusive of any recommendations as to sentence" and inserting in lieu thereof ", including the information required by subdivision (c)(2) but not including any final recommendation as to sentence,";

(7) by deleting "or the Youth Correction Division of the Board of Parole pursuant to 18 U.S.C. 4208(b), 4252, 5010(e)" in subdivision (c)(3)(B) and inserting in lieu thereof "pursuant to 18 U.S.C. 3552(b)"; and

(8) by deleting "or imposition of sentence is suspended;" in subdivision (d) and inserting in lieu thereof a comma.

(b) Rule 35 is amended to read as follows:

"Rule 35. Correction of Sentence

"(a) CORRECTION OF A SENTENCE ON REMAND.—The court shall correct a sentence that is determined on appeal under 18 U.S.C. 3742 to have been imposed in violation of law, to have been imposed as a result of an incorrect application of the sentencing guidelines, or to be unreasonable, upon remand of the case to the court—

"(1) for imposition of a sentence in accord with the findings of the court of appeals; or

"(2) for further sentencing proceedings if, after such proceedings, the court determines that the original sentence was incorrect.

"(b) CORRECTION OF SENTENCE FOR CHANGED CIRCUMSTANCES.—The court, on motion of the government, may within one year after the imposition of sentence, lower a sentence to

reflect a defendant's subsequent, substantial assistance in the investigation or prosecution of another person who has committed an offense, to the extent that such assistance is a factor in applicable guidelines or policy statements issued by the Sentencing Commission pursuant to 28 U.S.C. 994(a).".

(c) Rule 38 is amended—

(1) by amending the caption to read: "Stay of Execution" and deleting "(a) STAY OF EXECUTION.";

(2) by deleting subdivisions (b) and (c);

(3) by redesignating subdivisions (a)(1) through (a)(4) as subdivisions (a) through (d), respectively;

(4) in subdivision (a), by adding "from the conviction or sentence" after "is taken";

(5) in the first sentence of subdivision (b), by adding "from the conviction or sentence" after "is taken";

(6) by deleting "or a fine and costs" in the first sentence of subdivision (c);

(7) by deleting "and costs" in the second sentence of subdivision (c);

(8) by amending subdivision (d) to read as follows:

"(d) PROBATION.—A sentence of probation may be stayed if an appeal from the conviction or sentence is taken. If the sentence is stayed, the court shall fix the terms of the stay."; and

(9) by adding new subdivisions (e) and (f) as follows:

"(e) CRIMINAL FOREFITURE, NOTICE TO VICTIMS, AND RESTITUTION.—A sanction imposed as part of the sentence pursuant to 18 U.S.C. 3554, 3555, or 3556 may, if an appeal of the conviction or sentence is taken, be stayed by the district court or by the court of appeals upon such terms as the court finds appropriate. The court may issue such orders as may be reasonably necessary to ensure compliance with the sanction upon disposition of the appeal, including the entering of a restraining order or an injunction, or requiring a deposit in whole or in part of the monetary amount involved into the registry of the district court or execution of a performance bond.

"(f) DISABILITIES.—A civil or employment disability arising under a Federal statute by reason of the defendant's conviction or sentence, may, if an appeal is taken, be stayed by the district court or by the court of appeals upon such terms as the court finds appropriate. The court may enter a restraining order or an injunction, or take any other action that may be reasonably necessary to protect the interest represented by the disability pending disposition of the appeal.".

(d) Rule 40 is amended by deleting "3653" in subdivision (d)(1) and inserting in lieu thereof "3605".

(e) Rule 54 is amended—

(1) by amending the definition of "Petty offense" in subdivision (c) to read as follows: "'Petty offense' means a class B or C misdemeanor or an infraction."; and

(2) by adding a new definition as follows: "'Grade' includes the issue whether, for the purposes of section 3571 (Sentence of Fine), a misdemeanor resulted in the loss of human life.".

(f) The Table of Rules that precedes Rule 1 is amended as follows:

(1) The item relating to Rule 35 is amended by deleting the words "or Reduction";

(2) The item relating to Rule 38 is amended to read as follows:

"38. Stay of Execution.
"(a) Death.
"(b) Imprisonment.
"(c) Fine.
"(d) Probation.
"(e) Criminal forfeiture, notice to victims, and restitution.
"(f) Disabilities.".

SEC. 406. The Rules of Procedure for the Trial of Misdemeanors Before United States Magistrates are amended as follows:

(a) Rule 1 is amended by deleting "(including petty offenses)".

(b) Rule 9 is amended by deleting "as defined in title 18, U.S.C., § 1(3)".

(c) A new Rule 12 is added at the end thereof to read as follows:

"Rule 12. Definitions

"As used in these rules—

"(1) 'minor offense' means a misdemeanor or an infraction;

"(2) 'petty offense' means a Class B or C misdemeanor or an infraction.".

(d) The Table of Rules that precedes Rule 1 is amended by adding at the end thereof the following new item:

"12. Definitions.".

SEC. 407. (a) Title 28 of the United States Code is amended by adding the following new chapter after chapter 57:

"CHAPTER 58—UNITED STATES SENTENCING COMMISSION

"Sec.
"991. United States Sentencing Commission; establishment and purpose.
"992. Terms of Office; compensation.
"993. Powers and duties of chairman.
"994. Duties of the Commission.
"995. Powers of the Commission.
"996. Director and staff.
"997. Annual report.
"998. Definitions.

"§ 991. United States Sentencing Commission; establishment and purpose

"(a) There is established as an independent commission in the judicial branch of the United States a United States Sentencing Commission which shall consist of seven voting members and one nonvoting member. The President, after consultation with representatives of judges, prosecuting attorneys, defense attorneys, law enforcement officials, senior citizens, victims of crime, and others interested in the criminal justice process, shall appoint the voting members of the Commission, by and with the advice and consent of the Senate, one of whom shall be appointed, by and with the advice and consent of the Senate, as the Chairman. Not more than four of the members of the Commission shall be members of the same political party. The Attorney General, or his designee, shall be an ex officio, nonvoting member of the Commission. The Chairman and members of the Commission shall be subject to removal from the Commission by the President only for neglect of duty or malfeasance in office or for other good cause shown.

"(b) The purposes of the United States Sentencing Commission are to—

"(1) establish sentencing policies and practices for the federal criminal justice system that—

"(A) assure the meeting of the purposes of sentencing as set forth in section 3553(a)(2) of title 18, United States Code;

"(B) provide certainty and fairness in meeting the purposes of sentencing, avoiding unwarranted sentencing disparities among defendants with similar records who have been found guilty of similar criminal conduct while maintaining sufficient flexibility to permit individualized sentences when warranted by mitigating or aggravating factors not taken into account in the establishment of general sentencing practices;

"(C) reflect, to the extent practicable, advancement in knowledge of human behavior as it relates to the criminal justice process; and

"(2) develop means of measuring the degree to which the sentencing, penal, and correctional practices are effective in meeting the purposes of sentencing as set forth in section 3553(a)(2) of title 18, United States Code.

"§ 992. Terms of office; compensation

"(a) The voting members of the United States Sentencing Commission shall be designated or appointed for six-year terms, except that the initial terms of the first members of the Commission shall be staggered so that—

"(1) one member designated by the President from the list of recommended judges submitted by the Judicial Conference and the chairman serve terms of six years;

"(2) one member designated by the President from the list of recommended judges submitted by the Judicial Conference and two members appointed by the President serve terms of four years; and

"(3) one member designated by the President from the list of recommended judges submitted by the Judicial Conference and one member appointed by the President serve terms of two years.

"(b) No voting member may serve more than two full terms. A voting member designated or appointed to fill a vacancy that occurs before the expiration of the term for which his predecessor was designated or appointed shall be designated or appointed only for the remainder of such term.

"(c) Each voting member of the Commission shall be compensated during the term of office as a member of the Commission at the rate at which judges of the United States courts of appeals are compensated. A Federal judge may serve as a member of the Commission without resigning his appointment as a Federal judge.

"§ 993. Powers and duties of chairman

"The Chairman shall—

"(a) call and preside at meetings of the Commission; and

"(b) direct—

"(1) the preparation of requests for appropriations for the Commission; and

"(2) the use of funds made available to the Commission.

"§ 994. Duties of the Commission

"(a) The Commission, by affirmative vote of at least four members of the Commission, and pursuant to its rules and regulations and consistent with all pertinent provisions of this title and title 18, United States Code, shall promulgate and distribute to all courts of the United States and to the United States Probation System—

"(1) guidelines, as described in this section, for use of a sentencing court in determining the sentence to be imposed in a criminal case, including—

"(A) a determination whether to impose a sentence to probation, a fine, or a term of imprisonment;

"(B) a determination as to the appropriate amount of a fine or the appropriate length of a term of probation or a term of imprisonment;

"(C) a determination whether a sentence to a term of imprisonment should include a requirement that the defendant be placed on a term of supervised release after imprisonment, and, if so, the appropriate length of such a term; and

"(D) a determination whether multiple sentences to terms of imprisonment should be ordered to run concurrently or consecutively;

"(2) general policy statements regarding application of the guidelines or any other aspect of sentencing or sentence implementation that in the view of the Commission would further the purposes set forth in section 3553(a)(2) of title 18, United States Code, including the appropriate use of—

"(A) the sanctions set forth in sections 3554, 3555, and 3556 of title 18;

"(B) the conditions of probation and supervised release set forth in sections 3563(b) and 3583(d) of title 18;

"(C) the sentence modification provisions set forth in sections 3563(c), 3573, and 3582(c) of title 18;

"(D) the authority granted under rule 11(e)(2) of the Federal Rules of Criminal Procedure to accept or reject a plea agreement entered into pursuant to rule 11(e)(1); and

"(E) the temporary release provisions set forth in section 3622 of title 18, and the prerelease custody provisions set forth in section 3624(c) of title 18; and

"(3) guidelines or general policy statements regarding appropriate use of the probation revocation provisions set forth in section 3565 of title 18, and the provisions for modification of the term or conditions of probation or supervised release set forth in sections 3563(c), 3564(d), and 3583(e) of title 18.

"(b) The Commission, in the guidelines promulgated pursuant to subsection (a)(1), shall, for each category of offense involving each category of defendant, establish a sentencing range that is consistent with all pertinent provisions of title 18, United States Code. If a sentence specified by the guidelines includes a term of imprisonment, the maximum of the range established for such a term shall not exceed the minimum of that range by more than 25 percent.

"(c) The Commission, in establishing categories of offenses for use in the guidelines and policy statements governing the imposition of sentences of probation, a fine, or imprisonment, governing the imposition of other authorized sanctions, governing the size of a fine or the length of a term of probation, imprisonment, or supervised release, and governing the conditions of probation, supervised release, or imprisonment, shall consider whether the following matters, among others, have any relevance to the nature, extent, place of service, or other incidents of an appropriate sentence, and shall take them into account only to the extent that they do have relevance—

"(1) the grade of the offense;

"(2) the circumstances under which the offense was committed which mitigate or aggravate the seriousness of the offense;

"(3) the nature and degree of the harm caused by the offense, including whether it involved property, irreplaceable property, a person, a number of persons, or a breach of public trust;

"(4) the community view of the gravity of the offense;

"(5) the public concern generated by the offense;

"(6) the deterrent effect a particular sentence may have on the commission of the offense by others; and

"(7) the current incidence of the offense in the community and in the nation as a whole.

"(d) The Commission in establishing categories of defendants for use in the guidelines and policy statements governing the imposition of sentences of probation, a fine, or imprisonment, governing the imposition of other authorized sanctions, governing the size of a fine or the length of a term of probation, imprisonment, or supervised release, and governing the conditions of probation, supervised release, or imprisonment, shall consider whether the following matters, among others, with respect to a defendant, have any relevance to the nature, extent, place of service, or other incidents of an appropriate sentence, and shall take them into account only to the extent that they do have relevance—

"(1) age;

"(2) education;

"(3) vocational skills;

"(4) mental and emotional condition to the extent that such condition mitigates the defendant's culpability or to the extent that such condition is otherwise plainly relevant;

"(5) physical condition, including drug dependence;

"(6) previous employment record;

"(7) family ties and responsibilities;

"(8) community ties;

"(9) role in the offense;

"(10) criminal history; and

"(11) degree of dependence upon criminal activity for a livelihood.

The Commission shall assure that the guidelines and policy statements are entirely neutral as to the race, sex, national origin, creed, and socioeconomic status of offenders.

"(e) The Commission shall assure that the guidelines and policy statements, in recommending a term of imprisonment or length of a term of imprisonment, reflect the general inappropriateness of considering the education, vocational skills, employment record, family ties and responsibilities, and community ties of the defendant.

"(f) The Commission, in promulgating guidelines pursuant to subsection (a)(1), shall promote the purposes set forth in section 991(b)(1), with particular attention to the requirements of subsection 991(b)(1)(B) for providing certainty and fairness in sentencing and reducing unwarranted sentence disparities.

"(g) The Commission, in the course of promulgating guidelines pursuant to subsection (a)(1) to meet the purposes of sentencing as set forth in section 3553(a)(2) of title 18, United States Code, shall review the nature and capacity of the penal, correctional, and other facilities and services available, and shall make recommendations concerning any change or expansion in the nature or capacity of such facilities and services that might become necessary as a result of the guidelines promulgated pursuant to the provisions of this chapter.

"(h) The Commission shall assure that the guidelines will specify a sentence to a substantial term of imprisonment for categories of defendants in which the defendant—

"(1) has a history of two or more prior Federal, State, or local felony convictions for offenses committed on different occasions;

"(2) committed the offense as part of a pattern of criminal conduct from which he derived a substantial portion of his income;

"(3) committed the offense in furtherance of a conspiracy with three or more persons engaging in a pattern of racketeering activity in which the defendant participated in a managerial or supervisory capacity;

"(4) committed a crime of violence that constitutes a felony while on release pending trial, sentence, or appeal from a Federal, State, or local felony for which he was ultimately convicted; or

"(5) committed a felony that is set forth in section 401 or 1010 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 841 and 960), and that involved trafficking in a substantial quantity of a controlled substance.

"(i) The Commission shall insure that the guidelines reflect the general appropriateness of imposing a sentence other than imprisonment in many cases in which the defendant is a first offender who has not been convicted of a crime of violence or an otherwise serious offense, and the general appropriateness of imposing a term of imprisonment on a person convicted of a crime of violence that results in serious bodily injury.

"(j) The Commission shall insure that the guidelines reflect the inappropriateness of imposing a sentence to a term of imprisonment for the purpose of rehabilitating the defendant or providing the defendant with needed educational or vocational training, medical care, or other correctional treatment.

"(k) The Commission shall insure that the guidelines promulgated pursuant to subsection (a)(1) reflect—

"(1) the appropriateness of imposing an incremental penalty for each offense in a case in which a defendant is convicted of—

"(A) multiple offenses committed in the same course of conduct that result in the exercise of ancillary jurisdiction over one or more of the offenses; and

"(B) multiple offenses committed at different times, including those cases in which the subsequent offense is a violation of section 3146 (penalty for failure to appear) or is committed while the person is released pursuant to the provisions of section 3147 (penalty for an offense committed while on release) of title 18; and

"(2) the general inappropriateness of imposing consecutive terms of imprisonment for an offense of conspiring to commit an offense or soliciting commission of an offense and for an offense that was the sole object of the conspiracy or solicitation.

"(l) The Commission shall insure that the guidelines reflect the fact that, in many cases, current sentences do not accurately reflect the seriousness of the offense. This will require that, as a starting point in its development of the initial sets of guidelines for particular categories of cases, the Commission ascertain the average sentences imposed in such categories of cases prior to the creation of the Commission, and in cases involving sentences to terms of imprisonment, the length of such terms actually served. The Commission shall not be bound by such average sentences, and shall independently develop a sentencing range that is consistent with the provisions of this section and with the purposes of sentencing described in section 3553(a)(2) of title 18, United States Code.

"(m) The Commission periodically shall review and revise, in consideration of comments and data coming to its attention, the guidelines promulgated pursuant to the provisions of this section. In fulfilling its duties and in exercising its powers, the Commission shall consult with authorities on, and individual and institutional representatives of, various aspects of the Federal criminal justice system. The United States Probation System, the Bureau of Prisons, the Judicial Conference of the United States, the Criminal Division of the United States Department of Justice, and a representative of the Federal Public Defenders shall submit to the

Commission any observations, comments, or questions pertinent to the work of the Commission whenever it believes such communication would be useful, and shall, at least annually, submit to the Commission a written report commenting on the operation of the Commission's guidelines, suggesting changes in the guidelines that appear to be warranted, and otherwise assessing the Commission's work.

"(n) The Commission, at or after the beginning of a regular session of Congress but not later than the first day of May, shall report to the Congress any amendments of the guidelines promulgated pursuant to subsection (a)(1), and a report of the reasons therefor, and the amended guidelines shall take effect one hundred and eighty days after the Commission reports them, except to the extent the effective date is enlarged or the guidelines are disapproved or modified by Act of Congress.

"(o) The Commission and the Bureau of Prisons shall submit to Congress an analysis and recommendations concerning maximum utilization of resources to deal effectively with the Federal prison population. Such report shall be based upon consideration of a variety of alternatives, including—

"(1) modernization of existing facilities;

"(2) inmate classification and periodic review of such classification for use in placing inmates in the least restrictive facility necessary to ensure adequate security; and

"(3) use of existing Federal facilities, such as those currently within military jurisdiction.

"(p) The Commission shall evaluate the impact of the sentencing guidelines on prosecutorial discretion, plea bargaining, disparities in sentencing, and the use of incarceration, and shall, by affirmative vote of a majority of the voting members of the Commission, issue a report of its findings to all appropriate courts, the Department of Justice, and the Congress.

"(q) The Commission, within three years of the date of enactment of the Sentencing Reform Act of 1982, and thereafter whenever it finds it advisable, shall recommend to the Congress that it raise or lower the grades, or otherwise modify the maximum penalties, of those offenses for which such an adjustment appears appropriate.

"(r) The Commission shall give due consideration to any petition filed by a defendant requesting modification of the guidelines utilized in the sentencing of such defendant, on the basis of changed circumstances unrelated to the defendant, including changes in—

"(1) the community view of the gravity of the offense;

"(2) the public concern generated by the offense; and

"(3) the deterrent effect particular sentences may have on the commission of the offense by others.

Within one hundred and eighty days of the filing of such petition the Commission shall provide written notice to the defendant whether or not it has approved the petition. If the petition is disapproved the written notice shall contain the reasons for such disapproval. The Commission shall submit to the Congress at least annually an analysis of such written notices.

"(s) The Commission, in promulgating general policy statements regarding the sentencing modification provisions in section 3582(c)(2) of title 18, shall describe what should be considered extraordinary and compelling reasons for sentence reduction, including the criteria to be applied and a list of specific examples. Rehabilitation of the defendant alone shall not be considered an extraordinary and compelling reason.

"(t) If the Commission reduces the term of imprisonment recommended in the guidelines applicable to a particular offense or category of offenses, it shall specify by what amount the sentences of prisoners serving terms of imprisonment that are outside the applicable guideline ranges for the offense may be reduced in order to carry out the purpose of the reduction.

"(u) The Commission shall ensure that the general policy statements promulgated pursuant to subsection (a)(2) include a policy limiting consecutive terms of imprisonment for an offense involving a violation of a general prohibition and for an offense involving a violation of a specific prohibition encompassed within the general prohibition.

"(v) The appropriate judge or officer shall submit to the Commission in connection with each sentence imposed a written report of the sentence, the offense for which it is imposed, the age, race, and sex of the offender, information regarding factors made relevant by the guidelines, and such other information as the Commission finds appropriate. The Commission shall submit to Congress at least annually an analysis of these reports and any recommendation for legislation that the Commission concludes is warranted by that analysis.

"(w) The provisions of section 553 of title 5, relating to publication in the Federal Register and public hearing procedure, shall apply to the promulgation of guidelines pursuant to this section.

"§ 995. Powers of the Commission

"(a) The Commission, by vote of a majority of the members present and voting, shall have the power to—

"(1) establish general policies and promulgate such rules and regulations for the Commission as are necessary to carry out the purposes of this chapter;

"(2) appoint and fix the salary and duties of the Staff Director of the Sentencing Commission, who shall serve at the discretion of the Commission and who shall be compensated at a rate not to exceed the highest rate now or hereafter prescribed for grade 18 of the General Schedule pay rates (5 U.S.C. 5332);

"(3) deny, revise, or ratify any request for regular, supplemental, or deficiency appropriations prior to any submission of such request to the Office of Management and Budget by the Chairman;

"(4) procure for the Commission temporary and intermittent services to the same extent as is authorized by section 3109(b) of title 5, United States Code;

"(5) utilize, with their consent, the services, equipment, personnel, information, and facilities of other federal, State, local, and private agencies and instrumentalities with or without reimbursement therefor;

"(6) without regard to section 3648 of the Revised Statutes of the United States (31 U.S.C. 529), enter into and perform such contracts, leases, cooperative agreements, and other transactions as may be necessary in the conduct of the functions of the Commission, with any public agency, or with any person, firm, association, corporation, educational institution, or nonprofit organization;

"(7) accept voluntary and uncompensated services, notwithstanding the provisions of section 3679 of the Revised Statutes of the United States (31 U.S.C. 655(b));

"(8) request such information, data, and reports from any federal agency or judicial officer as the Commission may from time to time require and as may be produced consistent with other law;

"(9) monitor the performance of probation officers with regard to sentencing recommendations, including application of the Sentencing Commission guidelines and policy statements;

"(10) issue instructions to probation officers concerning the application of Commission guidelines and policy statements;

"(11) arrange with the head of any other Federal agency for the performance by such agency of any function of the Commission, with or without reimbursement;

"(12) establish a research and development program within the Commission for the purpose of—

"(A) serving as a clearinghouse and information center for the collection, preparation, and dissemination of information on federal sentencing practices;

"(B) assisting and serving in a consulting capacity to federal courts, departments, and agencies in the development, maintenance, and coordination of sound sentencing practices;

"(13) collect systematically the data obtained from studies, research, and the empirical experience of public and private agencies concerning the sentencing process;

"(14) publish data concerning the sentencing process;

"(15) collect systematically and disseminate information concerning sentences actually imposed, and the relationship of such sentences to the factors set forth in section 3553(a) of title 18, United States Code;

"(16) collect systematically and disseminate information regarding effectiveness of sentences imposed;

"(17) devise and conduct, in various geographical locations, seminars and workshops providing continuing studies for persons engaged in the sentencing field;

"(18) devise and conduct periodic training programs of instruction in sentencing techniques for judicial and probation personnel and other persons connected with the sentencing process;

"(19) study the feasibility of developing guidelines for the disposition of juvenile delinquents;

"(20) make recommendations to Congress concerning modification or enactment of statutes relating to sentencing, penal, and correctional matters that the Commission finds to be necessary and advisable to carry out an effective, humane, and rational sentencing policy;

"(21) hold hearings and call witnesses that might assist the Commission in the exercise of its powers or duties; and

"(22) perform such other functions as are required to permit federal courts to meet their responsibilities under section 3553(a) of title 18, United States Code, and to permit others involved in the federal criminal justice system to meet their related responsibilities.

"(b) The Commission shall have such other powers and duties and shall perform such other functions as may be necessary to carry out the purposes of this chapter, and may delegate to any member or designated person such powers as may be appropriate other than the power to establish general policy statements and guidelines pursuant to section 994(a) (1) and (2), the issuance of general policies and promulgation of rules and regulations pursuant to subsection (a)(1) of this section, and the decisions as to the factors to be considered in establishment of categories of offenses and offenders pursu-

ant to section 994(b). The Commission shall coordinate its activities under subsections (a)(9), (a)(10), (a)(11), (a)(12), (a)(13), (a)(14), (a)(15), (a)(16), (a)(17), and (a)(18), to the extent practicable, with any related activities of the Administrative Office of the United States Courts and the Federal Judicial Center for the purpose of avoiding unnecessary duplication.

"(c) Upon the request of the Commission, each federal agency is authorized and directed to make its services, equipment, personnel, facilities, and information available to the greatest practicable extent to the Commission in the execution of its functions.

"(d) A simple majority of the membership then serving shall constitute a quorum for the conduct of business. Other than for the promulgation of guidelines and policy statements pursuant to section 994, the Commission may exercise its powers and fulfill its duties by the vote of a simple majority of the members present.

"(e) Except as otherwise provided by law, the Commission shall maintain and make available for public inspection a record of the final vote of each member of any action taken by it.

"§ 996. Director and staff

"(a) The Staff Director shall supervise the activities of persons employed by the Commission and perform other duties assigned to him by the Commission.

"(b) The Staff Director shall, subject to the approval of the Commission, appoint such officers and employees as are necessary in the execution of the functions of the Commission. The officers and employees of the Commission shall be exempt from the provisions of part III of title 5, United States Code, except the following chapters: 81 (Compensation for Work Injuries), 83 (Retirement), 85 (Unemployment Compensation), 87 (Life Insurance), 89 (Health Insurance), and 91 (Conflicts of Interest).

"§ 997. Annual report

"The Commission shall report annually to the Judicial Conference of the United States, the Congress, and the President of the United States on the activities of the Commission.

"§ 998. Definitions

"As used in this chapter—

"(a) 'Commission' means the United States Sentencing Commission;

"(b) 'Commissioner' means a member of the United States Sentencing Commission;

"(c) 'guidelines' means the guidelines promulgated by the Commission pursuant to section 994(a) of this title; and

"(d) 'rules and regulations' means rules and regulations promulgated by the Commission pursuant to section 995 of this title.".

(b) The chapter analysis of part III of title 28, United States Code, is amended by adding after the item relating to chapter 57 the following new item:

"58. United States Sentencing Commission. 991".

REPEALERS

SEC. 408. (a) The following provisions of title 18, United States Code, are repealed:

(1) section 1;

(2) chapter 309;

(3) chapter 311;

(4) chapter 314;

(5) sections 4281, 4283, and 4284; and

(6) chapter 402.

(b) The item relating to section 1 in the sectional analysis of chapter 1 of title 18, United States Code, is amended to read: "1. Repealed.".

(c) The chapter analysis of part III of title 18, United States Code, is amended by amending the items relating to—

(1) chapters 309 and 311 to read as follows:

"309. Repealed.
"311. Repealed.";

and

(2) chapter 314 to read as follows:

"314. Repealed.".

(d) The sectional analysis of chapter 315 of title 18, United States Code, is amended by amending the items relating to—

(1) section 4281 to read: "4281. Repealed."; and

(2) sections 4283 and 4284 to read as follows:

"4283. Repealed.
"4284. Repealed.".

(e) The item relating to chapter 402 in the chapter analysis of part IV of title 18, United States Code, is amended to read as follows:

"402. Repealed.".

SEC. 409. (a) Sections 404(b) and 409 of the Controlled Substances Act (21 U.S.C. 844(b) and 849) are repealed.

(b) Section 404(a) of the Controlled Substances Act (21 U.S.C. 844(a)) is amended by deleting the designation "(a)" at the beginning of the subsection.

TECHNICAL AND CONFORMING AMENDMENTS

SEC. 410. The Immigration and Nationality Act (8 U.S.C. 1101 et seq.) is amended as follows:

(a) The second sentence of section 212(a)(9) (8 U.S.C. 1182(a)(9)) is amended to read: "An alien who would be excludable because of the conviction of an offense for which the sentence actually imposed did not exceed a term of imprisonment in excess of six months, or who would be excludable as one who admits the commission of an offense for which a sentence not to exceed one year's imprisonment might have been imposed on him, may be granted a visa and admitted to the United States if otherwise admissible: Provided, That the alien has committed only one such offense, or admits the commission of acts which constitute the essential elements of only one such offense.".

(b) Section 242(h) (8 U.S.C. 1252(h)) is amended by adding "supervised release," after "parole,".

SEC. 411. Section 4 of the Act of September 28, 1962 (16 U.S.C. 460k-3) is amended by deleting "petty offense (18 U.S.C. 1)" and substituting "misdemeanor".

SEC. 412. Section 9 of the Act of October 8, 1964 (16 U.S.C. 460n-8) is amended—

(a) in the first paragraph, by deleting "commissioner" each place it appears and substituting "magistrate"; and

(b) in the second paragraph, by amending the first sentence to read: "The functions of the magistrate shall include the trial and sentencing of persons charged with the commission of misdemeanors and infractions as defined in section 3581 of title 18, United States Code."

SEC. 413. Title 18 of the United States Code is amended as follows:

(a) Section 924(a) is amended by deleting ", and shall become eligible for parole as the Board of Parole shall determine".

(b) Section 1161 is amended by deleting "3618" and inserting in lieu thereof "3667".

(c) Section 1761(a) is amended by adding ", supervised release," after "parole".

(d) Section 1963 is amended—

(1) in subsection (a), by deleting "(1) any interest he has acquired" and all through the end of the subsection and substituting "the property described in section 3554 in accord with the provisions of that section."; and

(2) by repealing subsections (b) and (c).

(e) Section 3006A is amended—

(1) in subsections (a)(1) and (b), by deleting "misdemeanor (other than a petty offense as defined in section 1 of this title)" each place it appears and substituting "Class A misdemeanor"; and

(2) in subsections (a)(3) and (g), deleting "subject to revocation of parole," each place it appears.

(f) Section 3143, as amended by this Act, is amended—

(1) in subsection (a), by adding "other than a person for whom the applicable guideline promulgated pursuant to 28 U.S.C. 994 does not recommend a term of imprisonment," after "sentence,"; and

(2) in subsection (c), by adding the following at the end thereof: "The judge shall treat a defendant in a case in which an appeal has been taken by the United States pursuant to the provisions of section 3742 in accordance with the provisions of—

"(1) subsection (a) if the person has been sentenced to a term of imprisonment; or

"(2) section 3142 if the person has not been sentenced to a term of imprisonment.".

(g) Section 3147, as amended by this Act, is amended—

(1) in paragraph (1), by deleting "not less than two years and"; and

(2) in paragraph (2), by deleting "not less than ninety days and".

(h) Section 3156(b)(2) is amended by deleting "petty offense as defined in section 1(3) of this title" and substituting "Class B or C misdemeanor or an infraction".

(i) Section 3172(2) is amended by deleting "petty offense as defined in section 1(3) of this title" and substituting "Class B or C misdemeanor or an infraction".

(j) Section 3401 is amended—

(1) by repealing subsection (g); and

(2) in subsection (h), by deleting "petty offense case" and substituting "Class B or C misdemeanor case, or infraction case,".

(k) Section 3668 (formerly section 3619) is amended by deleting "3617" and "3618" and substituting "3666" and "3667", respectively.

(l) Section 4004 is amended by deleting "record clerks, and parole officers" and substituting "and record clerks".

(m) Chapter 306 is amended as follows:

(1) Section 4101 is amended—

(A) in subsection (f), by adding ", including a term of supervised release pursuant to section 3583" after "supervision"; and

(B) in subsection (g), by deleting "to a penalty of imprisonment the execution of which is suspended and" and substituting "under which", and by deleting "the suspended" and substituting "a".

(2) Section 4105(c) is amended—

(A) in paragraph (1), by deleting "for good time" the second place it appears and substituting "toward service of sentence for satisfactory behavior";

(B) in paragraphs (1) and (2), by deleting "section 4161" and substituting "section 3624(b)";

(C) in paragraph (1), by deleting "section 4164" and substituting "section 3624(a)";

(D) by repealing paragraph (3); and

(E) by amending paragraph (4) to read as follows:

"(4) Credit toward service of sentence may be withheld as provided in section 3624(b) of this title.".

(3) Section 4106 is amended—

(A) in subsection (a), by deleting "Parole Commission" and substituting "Probation System";

(B) by amending subsection (b) to read as follows:

"(b) An offender transferred to the United States to serve a sentence of imprisonment shall be released pursuant to section 3624(a) of this title after serving the period of time specified in the applicable sentencing guideline promulgated pursuant to 28 U.S.C. 994(a)(1). He shall be released to serve a term of supervised release for any term specified in the applicable guideline. The provisions of section 3742 of this title apply to a sentence under this subsection, and the United States court of appeals for the district in which the offender is imprisoned or under supervision after transfer to the United States has jurisdiction to review the sentence as though it had been imposed by the United States district court."; and

(C) by repealing subsection (c).

(4) Section 4108(a) is amended by adding ", including any term of imprisonment or term of supervised release specified in the applicable sentencing guideline promulgated pursuant to 28 U.S.C. 994(a)(1)," after "consequences thereof".

(n) Section 4321 is amended by deleting "parole or".

(o) Section 4351(b) is amended by deleting "Parole Board" and substituting "Sentencing Commission".

(p) Section 5002 is amended by deleting "Board of Parole, the Chairman of the Youth Division," and substituting "United States Sentencing Commission,".

SEC. 414. The Controlled Substances Act (21 U.S.C. 801 et seq.) is amended as follows:

(a) Section 401 (21 U.S.C. 841) is amended—

(1) in subsection (b)(1)(A), by deleting the last sentence;

(2) in subsection (b)(1)(B), by deleting the last sentence;

(3) in subsection (b)(2), by deleting the last sentence;

(4) in subsection (b)(4), by deleting "subsections (a) and (b) of", and by adding "and section 3607 of title 18, United States Code" after "404";

(5) in subsection (b)(5), by deleting the last sentence; and

(6) by repealing subsection (c).

(b) Section 405 (21 U.S.C. 845) is amended—

(1) in subsection (a), by deleting "(1)" the second place it appears, and by deleting ", and (2) at least twice any special parole term authorized by section 401(b), for a first offense involving the same controlled substance and schedule"; and

(2) in subsection (b), by deleting "(1)" the second place it appears, and by deleting ", and (2) at least three times any special parole term authorized by section 401(b), for a second or subsequent offense involving the same controlled substance and schedule".

(c) Section 405A, as added by title IX of this Act, is amended—

(1) in subsection (a)—

(A) by deleting "(1)"; and

(B) by deleting "and (2) at least twice any special parole term authorized by section 401(b) for a first offense involving the same controlled substance and schedule";

(2) in subsection (b)—

(A) by deleting "(1)" and "not less than three years and"; and

(B) by deleting "and (2) at least three times any special term authorized by section 401(b) for a second or subsequent offense involving the same controlled substance and schedule"; and

(3) by deleting subsection (c).

(d) Section 408(c) (21 U.S.C. 848(c)) is amended by deleting "and section 4202 of title 18 of the United States Code".

SEC. 415. The Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.) is amended as follows:

(a) Section 1010 (21 U.S.C. 960) is amended—

(1) in subsection (b)(1), by deleting the last sentence; and

(2) in subsection (b)(2), by deleting the last sentence.

(b) Section 1012(a) (21 U.S.C. 962(a)) is amended by deleting the last sentence.

SEC. 416. Section 114(b) of title 23, United States Code, is amended by adding ", supervised release," after "parole".

SEC. 417. Section 5871 of the Internal Revenue Code of 1954 (26 U.S.C. 5871) is amended by deleting ", and shall become eligible for parole as the Board of Parole shall determine".

SEC. 418. Title 28 of the United States Code is amended as follows:

(a) Section 509 is amended—

(1) in paragraph (3), by deleting "; and" and substituting a period; and

(2) by repealing paragraph (4).

(b) Section 591(a) is amended by deleting "petty offense" and substituting "Class B or C misdemeanor or an infraction".

(c) Section 2901 is amended—

(1) in subsection (e), by deleting "section" and substituting "section 3581"; and

(2) in subsection (g)(3), by adding ", supervised release," after "parole", and by adding "supervised release," after "parole,".

SEC. 419. Section 504(a) of the Labor Management Reporting and Disclosure Act of 1959 (29 U.S.C. 504(a)) and section 411(a) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1111(a)) are amended—

(a) by deleting "Board of Parole of the United States Department of Justice" and substituting "if the offense is a Federal offense, the sentencing judge or, if the offense is a State or local offense, on motion of the attorney for the government, the district court of the United States for the district in which the offense was committed";

(b) by adding ", pursuant to sentencing guidelines and policy statements issued pursuant to 28 U.S.C. 994(a),";

(c) by deleting "Board" and "Board's" and substituting "court" and "court's", respectively; and

(d) by deleting "an administrative" and substituting "a".

SEC. 420. Section 411(c)(3) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1111(c)(3)) is amended by adding "or supervised release" after "parole".

SEC. 421. Section 454(b) of the Comprehensive Employment and Training Act of 1973, as added by section 2 of the Act of October 27, 1978 (29 U.S.C. 927(b)), is amended by deleting "or parole" the first place it appears and substituting ", parole, or supervised release".

SEC. 422. The Public Health Service Act (42 U.S.C. et seq.) is amended as follows:

(a) Section 341(a) (42 U.S.C. 257(a)) is amended by deleting "or convicted of offenses against the United States and sentenced to treatment" and "addicts who are committed to the custody of the Attorney General pursuant to provisions of the Federal Youth Corrections Act (chapter 402 of title 18 of the United States Code),".

(b) Section 343(d) (42 U.S.C. 259(d)) is amended by adding "or supervised release" after "parole".

SEC. 423. Section 11507 of title 49, United States Code, is amended by adding ", supervised release," after "parole".

SEC. 424. Section 10(b)(7) of the Military Selective Service Act (50 U.S.C. App. 460(b)(7)) is amended by deleting "parole" and substituting "release".

EFFECTIVE DATE

SEC. 425. (a)(1) This title shall take effect on the first day of the first calendar month beginning twenty-four months after the date of enactment, except that—

(A) the repeal of chapter 402 of title 18, United States Code, shall take effect on the date of enactment; and

(B)(i) chapter 58 of title 28, United States Code, shall take effect on the date of enactment of this Act or October 1, 1982, whichever occurs later, and the United States Sentencing Commission shall submit the initial sentencing guidelines promulgated pursuant to section 994(a)(1) of title 28 to the Congress within eighteen months of the effective date of the chapter; and

(ii) the sentencing guidelines promulgated pursuant to section 994(a)(1), and the provisions of sections 3581, 3583, and 3624 of title 18, United States Code, shall not go into effect until the day after—

(a) the United States Sentencing Commission has submitted the initial set of sentencing guidelines to the Congress pursuant to subparagraph (B)(i), along with a report stating the reasons for the Commission's recommendations;

(b) the General Accounting Office has undertaken a study of the guidelines, and their potential impact in comparison with the operation of the existing sentencing and parole release system, and has, within three months of the submission of the guidelines, reported to the Congress the results of its study; and

(c) the Congress has had six months after the date described in subclause (a) in which to examine the guidelines and consider the reports.

(2) For the purposes of section 992(a) of title 28, the terms of the first members of the United States Sentencing Commission shall not begin to run until the sentencing guidelines go into effect pursuant to paragraph (1)(B)(ii).

"(b)(1) The following provisions of law in effect on the day before the effective date of this Act shall remain in effect for five years after the effective date as to an individual convicted of an offense or adjudicated to be a juvenile delinquent before the effective date and as to a term of imprisonment during the period described in subsection (a)(1)(B):

(A) Chapter 311 of title 18, United States Code.

(B) Chapter 309 of title 18, United States Code.

(C) Sections 4254 through 4255 of title 18, United States Code.

(D) Sections 5041 and 5042 of title 18, United States Code.

(E) Sections 5017 through 5020 of title 18, United States Code, as to a sentence imposed before the date of enactment.

(F) The maximum term of imprisonment in effect on the effective date for an offense committed before the effective date.

(G) Any other law relating to a violation of a condition of release or to arrest author-

ity with regard to a person who violates a condition of release.

(2) Notwithstanding the provisions of section 4202 of title 18, United States Code, as in effect on the day before the effective date of this Act, the term of office of a Commissioner who is in office on the effective date is extended to the end of the five-year period after the effective date of this Act.

(3) The United States Parole Commission shall set a release date, for an individual who will be in its jurisdiction the day before the expiration of five years after the effective date of this Act, that is the earliest date that applies to the prisoner under the applicable parole guideline. A release date set pursuant to this paragraph shall be set early enough to permit consideration of an appeal of the release date, in accordance with Parole Commission procedures, before the expiration of five years following the effective date of this Act.

(4) Notwithstanding the other provisions of this subsection, all laws in effect on the day before the effective date of this Act pertaining to an individual who is—

(A) released pursuant to a provision listed in paragraph (1); and

(B)(i) subject to supervision on the day before the expiration of the five-year period following the effective date of this Act; or

(ii) released on a date set pursuant to paragraph (3);

including laws pertaining to terms and conditions of release, revocation of release, provision of counsel, and payment of transportation costs, shall remain in effect as to that individual until the expiration of his sentence, except that the district court shall determine, in accord with the Federal Rules of Criminal Procedure, whether release should be revoked or the conditions of release amended for violation of a condition of release.

(5) Notwithstanding the provisions of section 991 of title 28, United States Code, and sections 4351 and 5002 of title 18, United States Code, the Chairman of the United States Parole Commission or his designee shall be a member of the National Institute of Corrections, and the Chairman of the United States Parole Commission shall be a member of the Advisory Corrections Council and a nonvoting member of the United States Sentencing Commission, ex officio, until the expiration of the five-year period following the effective date of this Act. Notwithstanding the provisions of section 4351 of title 18, during that five-year period the National Institute of Corrections shall have seventeen members, including seven ex officio members. Notwithstanding the provisions of section 991 of title 28, during the five-year period the United States Sentencing Commission shall consist of nine members including two ex officio, nonvoting members.

SEC. 426. (a)(1) Four years after the sentencing guidelines promulgated pursuant to section 994(a)(1), and the provisions of sections 3581, 3583, and 3624 of title 18, United States Code, go into effect, the General Accounting Office shall undertake a study of the guidelines in order to determine their impact and compare the guideline system with the operation of the previous sentencing and parole release system, and, within six months of the undertaking of such study, report to the Congress the results of its study.

(2) Within one month of the start of the study required under subsection (a), the United States Sentencing Commission shall submit a report to the General Accounting Office detailing the operation of the sentencing guideline system and discussing any problems with the system or reforms needed.

(b) The Congress shall review the study submitted pursuant to subsection (a) in order to determine—

(1) whether the sentencing guideline system has been effective;

(2) whether any changes should be made in the sentencing guideline system; and

(3) whether the parole system should be reinstated in some form and the life of the Parole Commission extended.

TITLE V—CRIMINAL FORFEITURE

SEC. 501. This title may be cited as the "Comprehensive Forfeiture Act of 1982".

PART A

SEC. 502. Section 1963 of title 18, United States Code, is amended to read as follows:

"§ 1963. Criminal penalties

"(a) Whoever violates any provision of section 1962 of this chapter—

"(1) shall be fined not more than $25,000 or imprisoned for not more than twenty years, or both; and

"(2) shall forfeit to the United States any property, irrespective of any provision of State law—

"(A) constituting, or derived from, any interest in or contribution to an enterprise he has acquired, maintained, established, operated, controlled, conducted, or participated in the conduct of, in violation of section 1962 of this chapter;

"(B) constituting a means by which he has exerted influence or control over any enterprise he has acquired, maintained, established, operated, controlled, conducted, or participated in the acquisition, maintenance, establishment, operation, conduct or control of, in violation of section 1962 of this chapter; and

"(C) constituting, or derived from, any proceeds which he obtained, directly or indirectly, from racketeering activity or unlawful debt collection in violation of section 1962 of this chapter.

The court, in imposing sentence on such person, shall order, in addition to any other sentence imposed pursuant to this section, that he forfeit to the United States all property described in paragraph (2).

"(b) Property subject to criminal forfeiture under this section includes—

"(1) real property, including things growing on, affixed to, and found in land; and

"(2) tangible and intangible personal property, including rights, privileges, interests, claims, and securities including, but not limited to—

"(A) any position, office, appointment, tenure, commission, or employment contract of any kind which the incumbent acquired or maintained in violation of section 1962 of this chapter, through which the incumbent conducted, or participated in or facilitated the conduct of, the affairs of an enterprise in violation of section 1962 of this chapter, or which afforded the incumbent a source of influence or control over the affairs of an enterprise which was exercised in violation of section 1962 of this chapter;

"(B) any compensation, right or benefit derived from a position, office, appointment, tenure, commission, or employment contract described in subparagraph (A) which the incumbent obtained, directly or indirectly, through a pattern of racketeering activity or unlawful debt collection in violation of section 1962 of this chapter, or which accrued to the incumbent during the period that he controlled, influenced, conducted, or participated in or facilitated the conduct of, the affairs of the enterprise in violation of section 1962 of this chapter; and

"(C) any amount payable or paid under any contract for goods or services which was awarded or performed through a pattern of racketeering activity or unlawful debt collection.

"(c) All right, title, and interest in property described in subsection (a)(2) vests in the United States upon the commission of the act giving rise to forfeiture under this section. Any such property that is held in the name of, or possessed by, a person other than the defendant may be the subject of a special verdict of forfeiture and thereafter shall be ordered forfeited to the United States: Provided, That the Attorney General shall not direct disposition of any such property if, in a proceeding under subsection (h), the person establishes to the Attorney General by evidence contained in a petition, or the Attorney General otherwise has reason to know, that—

"(1) the person was a bona fide purchaser of the property for value; and

"(2) the person was reasonably without cause to believe that the property was of the type described in subsection (a)(2).

"(d) If any of the property described in subsection (a)(2)—

"(1) cannot be located,

"(2) has been transferred to, sold to, or deposited with, a third party,

"(3) has been placed beyond the jurisdiction of the court,

"(4) has been substantially diminished in value by any act or omission of the defendant, or

"(5) has been commingled with other property which cannot be divided without difficulty,

the court shall order the forfeiture of any other property of the defendant up to the value of any property described in paragraphs (1) through (5).

"(e)(1) Upon application of the United States, the court may, after a hearing with respect to which any adverse parties have been given reasonable notice and opportunity to participate, enter a restraining order or injunction, require the execution of a satisfactory performance bond, or take any other action to preserve the availability of property described in subsection (a)(2) for forfeiture under this section—

"(A) upon the filing of an indictment or information charging a violation of section 1962 of this chapter and alleging that the property with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under this section; or

"(B) prior to the filing of such an indictment or information, if the court determines—

"(i) that there is probable cause to believe that the property with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under this section and that the property is in the possession or control of the party against whom the order is to be entered, and

"(ii) that the party against whom the order is to be entered has failed to demonstrate that the entry of the requested order would result in substantial and irreparable harm or injury to him that outweighs the need to preserve the availability of the property through the entry of the requested order:

Provided, however, That an order entered pursuant to subparagraph (B) shall be effective for not more than ninety days, unless extended by the court for good cause shown

or unless an indictment or information described in subparagraph (A) has been filed.

"(2) Upon application of the United States, a temporary restraining order to preserve the availability of property described in subsection (a)(2) for forfeiture under this section may be granted without notice to the adverse party or his attorney if—

"(A) an indictment or information described in paragraph (1)(A) has been filed or if the court determines that there is probable cause to believe that the property with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under this section and that the property is in the possession or control of the party against whom the order is to be entered; and

"(B) the court determines that the nature of the property is such that it can be concealed, disposed of, or placed beyond the jurisdiction of the court before the adverse party may be heard in opposition.

A temporary order granted without notice to the adverse party shall expire within such time, not to exceed ten days, as the court fixes, unless extended for good cause shown or unless the party against whom it is entered consents to an extension for a longer period. If a temporary restraining order is granted without notice to the adverse party, a hearing concerning the entry of an order under paragraph (1) shall be held at the earliest possible time and prior to the expiration of the temporary order.

"(f) Upon conviction of a person under this section, the court shall enter a judgment of forfeiture of the property to the United States and shall also authorize the Attorney General to seize all property ordered forfeited upon such terms and conditions as the court shall deem proper. Following the entry of an order declaring the property forfeited, the court may, upon application of the United States, enter such appropriate restraining orders or injunctions, require the execution of satisfactory performance bonds, appoint receivers, conservators, appraisers, accountants, or trustees, or take any other action to protect the interest of the United States in the property ordered forfeited. Any income accruing to or derived from an enterprise, or an interest in an enterprise, ordered forfeited under this section may be used to offset ordinary and necessary expenses to the enterprise which are required by law, or which are necessary to protect the interests of the United States or third parties.

"(g) Following the seizure of property ordered forfeited under this section, the Attorney General shall direct the disposition of the property by sale or any other commercially feasible means, making due provision for the rights of any innocent persons. Any property right or interest not exercisable by, or transferable for value to, the United States shall expire and shall not revert to the defendant, nor shall the defendant or any person acting in concert with him or on his behalf be eligible to purchase forfeited property at any sale held by the United States. Upon application of a person, other than the defendant or a person acting in concert with him or on his behalf, the court may restrain or stay the sale or disposition of the property pending the conclusion of any appeal of the criminal case giving rise to the forfeiture, if the applicant demonstrates that proceeding with the sale or disposition of the property will result in irreparable injury, harm or loss to him. The proceeds of any sale or other disposition of property forfeited under this section and any moneys forfeited shall be used to pay all proper expenses for the forfeiture and the sale, including expenses of seizure, maintenance and custody of the property pending its disposition, advertising and court costs. The Attorney General shall forward to the Treasurer of the United States for deposit in the general fund of the United States Treasury any amounts of such proceeds or moneys remaining after the payment of such expenses.

"(h) With respect to property ordered forfeited under this section, the Attorney General is authorized to—

"(1) grant petitions for mitigation, or remission of forfeiture, restore forfeited property to victims of a violation of this chapter, or take any other action to protect the rights of innocent persons which is in the interest of justice and which is not inconsistent with the provisions of this chapter;

"(2) compromise claims arising under this chapter;

"(3) award compensation to persons providing information resulting in a forfeiture under this section;

"(4) direct the disposition by the United States of all property ordered forfeited under this section by public sale or any other commercially feasible means, making due provision for the rights of innocent persons; and

"(5) take appropriate measures necessary to safeguard and maintain property ordered forfeited under this section pending its disposition.

A person who has filed a petition for remission or mitigation of forfeiture under this subsection, and who is dissatisfied with the Attorney General's decision regarding his petition, may obtain review of the Attorney General's decision in the district court in which the order of forfeiture was entered. The court shall set aside the decision of the Attorney General if it finds, based on the record of the petition proceedings, that the decision is arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law.

"(i) The Attorney General shall within one hundred and eighty days of the enactment of this Act promulgate regulations with respect to—

"(1) making reasonable efforts to provide notice to persons who may have an interest in property ordered forfeited under this section;

"(2) granting petitions for remission or mitigation of forfeiture;

"(3) the restitution of property to victims of an offense petitioning for remission or mitigation of forfeiture under this chapter;

"(4) the disposition by the United States of forfeited property by public sale or other commercially feasible means;

"(5) the maintenance and safekeeping of any property forfeited under this section pending its disposition; and

"(6) the compromise of claims arising under this chapter.

Pending the promulgation of such regulations, all provisions of law relating to the disposition of property, or the proceeds from the sale thereof, or the remission or mitigation of forfeitures for violation of the customs laws, and the compromise of claims and the award of compensation to informers in respect of such forfeitures shall apply to forfeitures incurred, or alleged to have been incurred, under the provisions of this section, insofar as applicable and not inconsistent with the provisions hereof. Such duties as are imposed upon the Customs Service or any other person with respect to the disposition of property under the customs law shall be performed under this chapter by the Attorney General.

"(j) Except as provided in this section, no party claiming an interest in property subject to forfeiture under this section may—

"(1) intervene in a trial or appeal of a criminal case involving the forfeiture of such property under this section; or

"(2) commence an action at law or equity against the United States concerning the validity of his alleged interest in the property, prior to or during the trial or appeal of the criminal case, or during the period in which any petition for remission or mitigation of forfeiture is pending before the Attorney General.

"(k) The district courts of the United States shall have jurisdiction to enter orders as provided in this section without regard to the location of any property which may be subject to forfeiture under this section or which has been ordered forfeited under this section.

"(l) In order to facilitate the identification or location of property declared forfeited and to facilitate the disposition of petitions for remission or mitigation of forfeiture, after the entry of an order declaring property forfeited to the United States the court may, upon application of the United States, order that the testimony of any witness relating to the property forfeited be taken by deposition and that any designated book, paper, document, record, recording, or other material not privileged be produced at the same time and place, in the same manner as provided for the taking of depositions under rule 15 of the Federal Rules of Criminal Procedure.".

PART B

SEC. 503. Part D of title II of the Comprehensive Drug Abuse Prevention and Control Act of 1970 is amended by adding at the end thereof the following new section:

"CRIMINAL FORFEITURES

"Property Subject to Criminal Forfeiture

"SEC. 413. (a) Any person convicted of a violation of this title or title III punishable by imprisonment for more than one year shall forfeit to the United States, irrespective of any provision of State law—

"(1) any property constituting, or derived from, any proceeds he obtained, directly or indirectly as the result of such violation;

"(2) any of this property used, or intended to be used, in any manner or part, to commit, or to facilitate the commission of, such violation; and

"(3) in the case of a person convicted of engaging in a continuing criminal enterprise in violation of section 408 of this title (21 U.S.C. 848), he shall forfeit, in addition to any property described in paragraph (1) or (2), any of his interest in, claims against, and property or contractual rights affording a source of control over, the continuing criminal enterprise.

The court, in imposing sentence on such person, shall order, in addition to any other sentence imposed pursuant to this title or title III, that he forfeit to the United States all property described in this subsection.

"Meaning of Term 'Property'

"(b) Property subject to criminal forfeiture under this section includes—

"(1) real property, including things growing on, affixed to, and found in land; and

"(2) tangible and intangible personal property, including rights, privileges, interests, claims and securities.

"Third Party Transfers

"(c) All right, title, and interest in property described in subsection (a) vests in the

United States upon the commission of the act giving rise to forfeiture under this section. Any such property that is held in the name of, or possessed by, a person other than the defendant may be the subject of a special verdict of forfeiture and thereafter shall be ordered forfeited to the United States: Provided, That the Attorney General shall not direct disposition of any such property if, in a proceeding under subsection (i), the person establishes to the Attorney General by evidence contained in a petition for remission or mitigation of forfeiture, or the Attorney General otherwise has reason to know, that—

"(1) the person was a bona fide purchaser of the property for value; and

"(2) the person was reasonably without cause to believe that the property was of the type described in subsection (a).

"Substitute Assets

"(d) If any of the property described in subsection (a)—

"(1) cannot be located,

"(2) has been transferred to, sold to, or deposited with a third party,

"(3) has been placed beyond the jurisdiction of the court,

"(4) has been substantially diminished in value by any act or omission of the defendant, or

"(5) has been commingled with other property which cannot be divided without difficulty,

the court shall order the forfeiture of any other property of the defendant up to the value of any property described in paragraphs (1) through (5).

"Protective Orders

"(e)(1) Upon application of the United States, the court may, after a hearing with respect to which any adverse parties have been given reasonable notice and opportunity to participate, enter a restraining order or injunction, require the execution of a satisfactory performance bond, or take any other action to preserve the availability of property described in subsection (a) for forfeiture under this section—

"(A) upon the filing of an indictment or information charging a violation of this title or title III for which criminal forfeiture may be ordered under this section and alleging that the property with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under this section; or

"(B) prior to the filing of such an indictment or information, if the court determines—

"(i) that there is probable cause to believe that the property with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under this section and that the property is in the possession or control of the party against whom the order is to be entered, and

"(ii) that the party against whom the order is to be entered has failed to demonstrate that the entry of the requested order would result in substantial and irreparable harm or injury to him that outweighs the need to preserve the availability of the property through the entry of the requested order:

Provided, however, That an order entered pursuant to subparagraph (B) shall be effective for not more than ninety days, unless extended by the court for good cause shown or unless an indictment or information described in subparagraph (A) has been filed.

"(2) Upon application of the United States, a temporary restraining order to preserve the availability of property described in subsection (a) for forfeiture under this section may be granted without notice to the adverse party or his attorney if—

"(A) an indictment or information described in paragraph (1)(A) has been filed or if the court determines that there is probable cause to believe that the property with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under this section and that the property is in the possession or control of the party against whom the order is to be entered; and

"(B) the court determines that the nature of the property is such that it can be concealed, disposed of, or placed beyond the jurisdiction of the court before the adverse party may be heard in opposition.

A temporary order granted without notice to the adverse party shall expire within such time, not to exceed ten days, as the court fixes, unless extended for good cause shown or unless the party against whom it is entered consents to an extension for a longer period. If a temporary restraining order is granted without notice to the adverse party, a hearing concerning the entry of an order under paragraph (1) shall be held at the earliest possible time and prior to the expiration of the temporary order.

"Warrant of Seizure

"(f) The Government may request the issuance of a warrant authorizing the seizure of property subject to forfeiture under this section in the same manner as provided for a search warrant. If the court determines that there is probable cause to believe that the property to be seized would, in the event of conviction, be subject to forfeiture and that an order under subsection (f) may not be sufficient to assure the availability of the property for forfeiture, the court shall issue a warrant authorizing the seizure of such property.

"Execution

"(g) Upon entry of an order of forfeiture under this section, the court shall authorize the Attorney General to seize all property ordered forfeited upon such terms and conditions as the court shall deem proper. Following entry of an order declaring the property forfeited, the court may, upon application of the United States, enter such appropriate restraining orders or injunctions, require the execution of satisfactory performance bonds, appoint receivers, conservators, appraisers, accountants, or trustees, or take any other action to protect the interest of the United States in the property ordered forfeited. Any income accruing to or derived from property ordered forfeited under this section may be used to offset ordinary and necessary expenses to the property which are required by law, or which are necessary to protect the interests of the United States or third parties.

"Disposition of Property

"(h) Following the seizure of property ordered forfeited under this section, the Attorney General shall direct the disposition of the property by sale or any other commercially feasible means, making due provision for the rights of any innocent persons. Any property right or interest not exercisable by, or transferable for value to, the United States shall expire and shall not revert to the defendant, nor shall the defendant or any person acting in concert with him or on his behalf be eligible to purchase forfeited property at any sale held by the United States. Upon application of a person, other than the defendant or a person acting in concert with him or on his behalf, the court may restrain or stay the sale or disposition of the property pending the conclusion of any appeal of the criminal case giving rise to the forfeiture, if the applicant demonstrates that proceeding with the sale or disposition of the property will result in irreparable injury, harm, or loss to him.

"Authority of the Attorney General

"(i) With respect to property ordered forfeited under this section, the Attorney General is authorized to—

"(1) grant petitions for mitigation or remission of forfeiture, restore forfeited property to victims of a violation of this chapter, or take any other action to protect the rights of innocent persons which is in the interest of justice and which is not inconsistent with the provisions of this chapter;

"(2) compromise claims arising under this chapter;

"(3) award compensation to persons providing information resulting in a forfeiture under this section;

"(4) direct the disposition by the United States, in accordance with the provisions of section 511(e) of this title (21 U.S.C. 881(e)), of all property ordered forfeited under this section by public sale or any other commercially feasible means, making due provision for the rights of innocent persons; and

"(5) take appropriate measures necessary to safeguard and maintain property ordered forfeited under this section pending its disposition.

A person who has filed a petition for remission or mitigation of forfeiture under this subsection, and who is dissatisfied with the Attorney General's decision regarding his petition, may obtain review of the Attorney General's decision in the district court in which the order of forfeiture was entered. The court shall set aside the decision of the Attorney General if it finds, based on the record of the petition proceedings, that the decision is arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law.

"Applicability of Civil Forfeiture Provisions

"(j) Except to the extent that they are inconsistent with the provisions of this section, the provisions of section 511(d) of this title (21 U.S.C. 881(d)) shall apply to a criminal forfeiture under this section.

"Bar on Intervention; Exhaustion of Administrative Remedies

"(k) Except as provided in this section, no party claiming an interest in property subject to forfeiture under this section may—

"(1) intervene in a trial or appeal of a criminal case involving the forfeiture of such property under this section; or

"(2) commence an action at law or equity against the United States concerning the validity of his alleged interest in the property, prior to or during the trial or appeal of the criminal case, or during the period in which any petition for remission or mitigation of forfeiture is pending before the Attorney General.

"Jurisdiction To Enter Orders

"(l) The district courts of the United States shall have jurisdiction to enter orders as provided in this section without regard to the location of any property which may be subject to forfeiture under this section or which has been ordered forfeited under this section.

"Depositions

"(m) In order to facilitate the identification and location of property declared forfeited and to facilitate the disposition of petitions for remission or mitigation of forfeit-

ure, after the entry of an order declaring property forfeited to the United States the court may, upon application of the United States, order that the testimony of any witness relating to the property forfeited be taken by deposition and that any designated book, paper, document, record, recording, or other material not privileged be produced at the same time and place, in the same manner as provided for the taking of depositions under rule 15 of the Federal Rules of Criminal Procedure.".

SEC. 504. Section 304 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 824) is amended by adding at the end of subsection (f) the following sentence: "All right, title, and interest in such controlled substances shall vest in the United States upon a revocation order becoming final.".

SEC. 505. Section 408 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 848) is amended—

(a) in subsection (a)—

(1) by striking out "(1)";

(2) by striking out "paragraph (2)" each time it appears, and inserting in lieu thereof "section 413 of this title"; and

(3) by striking out paragraph (2); and

(b) by striking out subsection (d).

SEC. 506. Section 511 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 881) is amended—

(a) in subsection (a) by inserting at the end thereof the following new subsection:

"(7) All real property, including any right, title, and interest in the whole of any lot or tract of land and any appurtenances or improvements, which is used, or intended to be used, in any manner or part, to commit, or to facilitate the commission of, a violation of this title punishable by more than one year's imprisonment, except that no property shall be forfeited under this paragraph, to the extent of an interest of an owner, by reason of any act or omission established by that owner to have been committed or omitted without the knowledge or consent of that owner.";

(b) in subsection (b)—

(1) by inserting "civil or criminal" after "Any property subject to"; and

(2) by striking out in paragraph (4) "has been used or is intended to be used in violation of" and inserting in lieu thereof "is subject to civil or criminal forfeiture under";

(c) in subsection (c)—

(1) by inserting in the second sentence "any of" after "Whenever property is seized under"; and

(2) by inserting in paragraph (3) ", if practicable," after "remove it";

(d) in subsection (d) by inserting "any of" after "alleged to have been incurred, under";

(e) in subsection (e)—

(1) by inserting "civilly or criminally" in the first sentence after "Whenever property is"; and

(2) by striking out in paragraph (3) "remove it for disposition" and inserting in lieu thereof "and dispose of it"; and

(f) by inserting at the end thereof the following new subsections:

"(h) All right, title, and interest in property described in subsection (a) shall vest in the United States upon commission of the act giving rise to forfeiture under this section.

"(i) Pending, or upon, the filing of an indictment or information charging a violation of this title or title III for which criminal forfeiture may be ordered under section 413 of this title, and alleging that property would, in the event of conviction, be subject to criminal forfeiture, any civil forfeiture proceeding concerning such property commenced under this section shall, for good cause shown, be stayed pending disposition of the criminal case.".

SEC. 507. Part A of title III of the Comprehensive Drug Abuse Prevention and Control Act of 1970 is amended by adding at the end thereof the following new section:

"CRIMINAL FORFEITURES

"SEC. 1017. Section 413 of title II, relating to criminal forfeitures, shall apply in every respect to a violation of this title punishable by imprisonment for more than one year.".

SEC. 508. The table of contents of the Comprehensive Drug Abuse Prevention and Control Act of 1970 is amended—

(a) by adding immediately after

"Sec. 412. Applicability of treaties and other international agreements."

the following new item:

"Sec. 413. Criminal forfeitures."; and

(b) by adding immediately after

"Sec. 1016. Authority of Secretary of the Treasury."

the following new item:

"Sec. 1017. Criminal forfeitures.".

PART C

SEC. 509. (a) Section 511(e)(1) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 881) is amended by adding after "retain the property for official use" the following: "or transfer the custody or ownership of any forfeited property to any Federal, State, or local agency pursuant to section 616 of the Tariff Act of 1930 (19 U.S.C. 1616).".

(b) Section 511(e) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 881(e)) is further amended by striking out all that follows "this subchapter shall be" and inserting in lieu thereof the following: "deposited in the Drug Assets Forfeiture Fund."

SEC. 510. The Comprehensive Drug abuse Prevention and Control Act of 1970 (21 U.S.C. 881 et seq.) is amended by inserting after section 516 the following new section to read as follows:

"§ 517. Drug Assets Forfeiture Fund

"(a) There is hereby established in the Treasury of the United States a special account that shall be entitled the 'Drug Assets Forfeiture Fund'. This account shall be available without fiscal year limitations for the following purposes of the United States Department of Justice;

"(1) the payment of all expenses necessary to inventory, safeguard and maintain property under seizure, detention, or forfeited pursuant to any provision of this Act. Expenses of maintenance may include payments for contract services and payments to reimburse any Federal, State, or local agency for any expenditures made to perform the foregoing functions;

"(2) the payment of awards for information or assistance leading to a civil or criminal forfeiture under, or regarding any violation of, this Act, at the discretion of the Attorney General;

"(3) the payment of valid liens and mortgages against any property that has been forfeited pursuant to any provision of this Act, subject to the discretion of the Attorney General to determine the validity of any such lien or mortgage and the amount of payment to be made.

"(b) The Drug Assets Forfeiture Fund shall be initially funded by any sums not otherwise obligated from the 1981 and 1982 fiscal year appropriations of the United States Department of Justice.

"(c) All proceeds from the sale or other disposition of property forfeited under any provision of this Act and any seized and forfeited currency shall be deposited to the Drug Assets Forfeiture Fund.

"(d) At the end of each calendar quarter, any sums in the Fund in excess of ten million dollars shall be transferred to the general fund of the Treasury of the United States.

"(e) Amounts in the Fund which are not currently needed for the purposes of this section shall be kept on deposit or invested in obligations of, or guaranteed by, the United States.

"(f) Within sixty days of the end of each fiscal year, the Attorney General shall report to the appropriate oversight committee of the Congress on the receipts and disbursement of the Drug Assets Forfeiture Fund.

"(g) The provisions relating to payments to and disbursements from the Drug Assets Forfeiture Fund established by this section shall apply to all property disbursed of or in Department of Justice custody on or after the effective date of the Violent Crime and Drug Enforcement Improvements Act of 1982.".

PART D

SEC. 511. Section 607 of the Tariff Act of 1930 (19 U.S.C. 1607) is amended to read as follows:

"§ 607. Seizure; value $100,000, or less; prohibited articles; transporting conveyances

"If—

"(1) the value of such seized vessel, vehicle, aircraft, merchandise, or baggage does not exceed $100,000;

"(2) such seized merchandise consists of articles the importation of which is prohibited; or

"(3) such seized vessel, vehicle, or aircraft was used to import, export, or otherwise transport or store any controlled substances,

the appropriate customs officer shall cause a notice of the seizure of such articles and the intention to forfeit and sell or otherwise dispose of the same according to law to be published for at least three successive weeks in such manner as the Secretary of the Treasury may direct. Written notice of seizure together with information on the applicable procedures shall be sent to each party who appears to have an interest in the seized article.".

SEC. 512. Section 608 of the Tariff Act of 1930 (19 U.S.C. 1608) is amended by striking out "$250" in the second sentence and inserting in lieu thereof the following: "$2,500 or ten percent of the value of the claimed property, whichever is less".

SEC. 513. Section 609 of the Tariff Act of 1930 (19 U.S.C. 1609) is amended by striking out "after deducting the actual expenses of seizure, publication, and sale in the Treasury of the United States." and inserting in lieu thereof the following: "into the Customs Forfeiture Fund.".

SEC. 514. Section 610 of the Tariff Act of 1930 (19 U.S.C. 1610) is amended by striking out "If the value of any vessel, vehicle, merchandise, or baggage so seized is greater than $10,000," and substituting in lieu thereof the following: "If any vessel, vehicle, aircraft, merchandise, or baggage is not subject to the procedure set forth in section 607,".

SEC. 515. Section 612 of the Tariff Act of 1930 (19 U.S.C. 1612) is amended by—

(1) inserting "aircraft," immediately after "vehicle," wherever it appears in the section;

(2) striking out "and the value of such vessel, vehicle, merchandise, or baggage as determined under section 606 does not exceed $10,000," in the first sentence and inserting in lieu thereof the following: "and the article is subject to the provisions of section 607 of this Act,"; and

(3) striking out "If such values of such vessel, vehicle, merchandise, or baggage exceeds $10,000," in the second sentence and inserting in lieu thereof the following: "If the article is not subject to the provisions of section 607 of this Act,".

SEC. 516. (a) Section 613(a) of the Tariff Act of 1930 (19 U.S.C. 1613(a)) is amended by striking out "disposed of as follows:" and clauses (1), (2), and (3), and inserting in lieu thereof the following: "deposited in the Customs Forfeiture Fund.".

(b) Section 613(b) of the Tariff Act of 1930 (19 U.S.C. 1613(b)) is amended by striking out "(a) (1) and (2) of this section" and inserting in lieu thereof "(a)(4) of section 613a of this Act (19 U.S.C. 1613a(a)(4))".

SEC. 517. The Tariff Act of 1930 is amended by adding a new section immediately after section 613 (19 U.S.C. 1613) to read as follows:

"§ 613a. Customs Forfeiture Fund

"(a) There is hereby established in the Treasury of the United States a special account for the United States Customs Service that shall be entitled the 'Customs Forfeiture Fund'. This account shall be available without fiscal year limitations for the following purposes of the United States Customs Service—

"(1) the payment of all expenses necessary to inventory, safeguard, and maintain property under seizure, detention, or forfeited pursuant to any law enforced or administered by the United States Customs Service, including payments for expenses of maintenance, contract services, and to reimburse any Federal, State, or local agency for any expenditures made for the maintenance of property;

"(2) the payment of awards of compensation to informers under section 619 of the Tariff Act of 1930, as amended;

"(3) the payment by appropriate customs officers for the purchase of information concerning violations or possible violations of any law enforced or administered by the Customs Service; and

"(4) the payment to persons whom the appropriate customs officer determines hold valid—

"(A) liens for freight, charges, and contributions in general average, notice of which has been filed with the appropriate customs officer according to law; and

"(B) liens against property that has been forfeited pursuant to any law enforced or administered by the United States Customs Service,

subject to the condition that no payment to a lienholder shall exceed the net proceeds of the sale or, where the property is retained or transferred for official use, the appraised value less all applicable expenses.

"(b) The Fund shall be initially funded by any sums not otherwise obligated from the 1981 and 1982 fiscal year appropriations of the United States Customs Service.

"(c) All proceeds from the sale or other disposition of property forfeited, including any seized and forfeited currency, under any law enforced or administered by the Customs Service shall be deposited to the Customs Forfeiture Fund.

"(d) At the end of each calendar quarter, any sums in the Fund in excess of $10,000,000 shall be transferred to the general fund of the Treasury of the United States.

"(e) Amounts in the Fund which are not currently needed for the purposes of this subsection shall be kept on deposit or invested in obligations of, or guaranteed by, the United States.

"(f) Within sixty days of the end of each fiscal year, the Commissioner of Customs will report to the appropriate oversight committee of the Congress on the receipts and disbursement of the Customs Forfeiture Fund.

"(g) The provisions relating to payments and disbursements from the Fund established by this section shall apply to all property disbursed of or in the custody of the Customs Service on or after the effective date of this Act.".

SEC. 518. A new section, section 616, is added to the Tariff Act of 1930 (19 U.S.C. 1616) to read as follows:

"§ 616. Disposition of forfeited property

"(a) Notwithstanding any other provision of law, the Commissioner is authorized to retain forfeited property for official use or to transfer such forfeited property on such terms or conditions as he may determine to—

"(1) any other Federal agency; or

"(2) to any State or local governmental agency which routinely assists in the enforcement of the laws of the United States or participated in any of the acts which led to the property being seized.

The United States shall not be liable in any action arising out of the use of any property the custody of which was transferred pursuant to this section to any non-Federal agency.

"(b) The Secretary of the Treasury is authorized to order the discontinuance of any Federal forfeiture proceedings in favor of the institution of forfeiture proceedings by State or local authorities under an appropriate State or local statute when he determines that such action is in the best interest of the United States. After the filing of a complaint for forfeiture in a United States district court, the appropriate attorney for the Department of Justice shall also have the authority to seek a voluntary dismissal of the complaint in favor of State or local action when he deems it to be in the best interest ot the United States.

"(c) Whenever forfeiture proceedings are discontinued by the Federal Government in favor of State or local proceedings, the Secretary is authorized to transfer custody and possession of the seized property to the appropriate State or local official immediately upon the initiation of the proper actions by such officials.

"(d) Whenever forfeiture proceedings are discontinued by the Federal Government in favor of State or local proceedings, notice shall be sent to all known interested parties advising them of such a decision. The United States shall not be liable in any action arising out of the seizure, detention, and transfer of seized property to State or local officials.".

SEC. 519. Section 619 of the Tariff Act of 1930 (19 U.S.C. 1619) is amended by striking out "$50,000" wherever it appears and inserting in lieu thereof "$250,000".

SEC. 520. (a) The Tariff Act of 1930 is amended by adding a new section to read as follows:

"§ 589. Arrest authority of customs officers

"Subject to the direction of the Secretary of the Treasury, an officer of the Customs Service as defined in section 401(i) of this Act, as amended, may—

"(1) carry a firearm;

"(2) execute and serve any order, warrant, subpena, summons, or other process issued under the authority of the United States for arrest, search or seizure, or production of evidence;

"(3) make an arrest without a warrant for any offense against the United States committed in the officer's presence or for a felony, cognizable under the laws of the United States committed outside the officer's presence if the officer has reasonable grounds to believe that the person to be arrested has committed or is committing a felony; and

"(4) perform any other law enforcement duty that the Secretary of the Treasury may designate.".

(b) Section 7607 of the Internal Revenue Act of 1954 (26 U.S.C. 7607) is repealed.

SEC. 521. Sections 602, 605, 606, 608, 609, 611, 613, 614, 615, 618, and 619 (19 U.S.C. 1602, 1605, 1606, 1608, 1609, 1611, 1613, 1614, 1615, 1618, and 1619) of the Tariff Act of 1930 are amended by inserting the word "aircraft," immediately after the words "vehicle" or "vehicles," wherever they appear.

TITLE VI—SURPLUS FEDERAL PROPERTY AMENDMENTS

SEC. 601. Section 203 of the Federal Property and Administrative Services Act of 1949 as amended (40 U.S.C. 484), is further amended by adding at the end thereof the following new subsection:

"(p)(1) Under such regulations as he may prescribe, the Administrator is authorized in his discretion to transfer or convey to the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, the Commonwealth of the Northern Mariana Islands, or any political subdivision or instrumentality thereof, surplus property determined by the Attorney General to be required for correctional facility use by the authorized transferee or grantee under an appropriate program or project for the care or rehabilitation of criminal offenders as approved by the Attorney General. Transfers or conveyance under this authority shall be made by the Administrator without monetary consideration to the United States. If the Attorney General determines that any surplus property transferred or conveyed pursuant to an agreement entered into between March 1, 1982, and the enactment of this subsection was suitable for transfer or conveyance under this subsection, the Administrator shall reimburse the transferee for any monetary consideration paid to the United States for such transfer or conveyance.

"(2) The deed of conveyance of any surplus real property disposed of under the provisions of this subsection—

"(A) shall provide that all such property shall be used and maintained for the purpose for which it was conveyed in perpetuity, and that in the event the property ceases to be used or maintained for that purpose, all or any portion of the property shall, in its then existing condition, at the option of the United States, revert to the United States; and

"(B) may contain such additional terms, reservations, restrictions, and conditions as may be determined by the Administrator to

be necessary to safeguard the interests of the United States.

"(3) With respect to surplus real property conveyed pursuant to this subsection, the Administrator is authorized and directed—

"(A) to determine and enforce compliance with the terms, conditions, reservations, and restrictions contained in any instrument by which such transfer was made;

"(B) to reform, correct, or amend any such instrument by the execution of a corrective reformative or amendatory instrument where necessary to correct such instrument or to conform such transfer to the requirements of applicable law; and

"(C) to (i) grant releases from any of the terms, conditions, reservations, and restrictions contained in, and (ii) convey, quitclaim, or release to the transferee or other eligible user any right or interest reserved to the United States by any instrument by which such transfer was made, if he determines that the property so transferred no longer serves the purpose for which it was transferred, or that such release, conveyance, or quitclaim deed will not prevent accomplishment of the purpose for which such property was so transferred: Provided, That any such release, conveyance, or quitclaim deed may be granted on, or made subject to, such terms and conditions as he or she shall deem necessary to protect or advance the interests of the United States.".

SEC. 602. The first sentence of subsection (o) of section 203 of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 484(o)), is further amended by revising the first sentence of such subsection to read as follows:

"(o) The Administrator with respect to personal property donated under subsection (j) of this section and with respect to personal or real property transferred or conveyanced under subsection (p) of this section, and the head of each executive agency disposing of real property under subsection (k) of this section, shall submit during the calendar quarter following the close of each fiscal year a report to the Senate (or to the Secretary of the Senate if the Senate is not in session) and to the House of Representatives (or to the Clerk of the House if the House is not in session) showing the acquisition cost of all personal property so donated and of all real property so disposed of during the preceding fiscal year.".

TITLE VII—MISCELLANEOUS CRIMINAL JUSTICE IMPROVEMENTS

PART A

SEC. 701. (a) Chapter 95 of title 18, United States Code, is amended by adding new sections 1952A and 1952B, following section 1952, as follows:

"§ 1952A. Use of interstate commerce facilities in the commission of murder-for-hire

"(a) Whoever travels in or causes another (including the intended victim) to travel in interstate or foreign commerce, or uses or causes another (including the intended victim) to use the mail or any facility in interstate or foreign commerce, with intent that a murder be committed in violation of the laws of any State or the United States as consideration for the receipt of anything of pecuniary value or for a promise to pay anything of pecuniary value, shall be fined not more than $10,000 or imprisoned for not more than five years, or both; and if personal injury results, shall be fined not more than $20,000 and imprisoned for not more than twenty years, or both; and if death results, shall be subject to imprisonment for any term of years or by life imprisonment, or shall be fined not more than $50,000, or both.

"(b) As used in this section—

"(1) 'anything of pecuniary value' means anything of value in the form of money, a negotiable instrument, a commercial interest, or anything else the primary significance of which is economic advantage; and

"(2) 'facility of interstate commerce' includes means of transportation and communication.

"§ 1952B. Violent crimes in aid of racketeering activity

"(a) Whoever, as consideration for the receipt of or as consideration for a promise or agreement to pay anything of pecuniary value from an enterprise engaged in racketeering activity, or for the purpose of gaining entrance to or maintaining or increasing position in an enterprise engaged in racketeering activity, murders, kidnaps, maims, assaults with a dangerous weapon, commits assault resulting in serious bodily injury upon, or threatens to commit a crime of violence against any individual in violation of the laws of any State or the United States, or attempts or conspires so to do, shall be punished—

"(1) for murder or kidnapping, by imprisonment for any term of years or for life or a fine of not more than $50,000, or both;

"(2) for maiming, by imprisonment for not more than thirty years or a fine of not more than $30,000, or both;

"(3) for assault with a dangerous weapon or assault resulting in serious bodily injury, by imprisonment for not more than twenty years or a fine of not more than $20,000, or both;

"(4) for threatening to commit a crime of violence, by imprisonment for not more than five years or a fine of not more than $5,000, or both;

"(5) for attempting or conspiring to commit murder, by imprisonment for not more than ten years or a fine of not more than $10,000, or both; and

"(6) for attempting or conspiring to commit a crime involving maiming, assault with a dangerous weapon, or assault resulting in serious bodily injury, by imprisonment for not more than three years or a fine of not more than $3,000, or both.

"(b) As used in this section—

"(1) 'racketeering activity' has the meaning set forth in section 1961 of this title; and

"(2) 'enterprise' includes any partnership, corporation, association, or other legal entity, and any union or group of individuals associated in fact although not a legal entity, which is engaged in, or the activities of which affect, interstate or foreign commerce.".

(b) The analysis at the beginning of the chapter is amended by adding after the item relating to section 1952 the following:

"1952A. Use of interstate commerce facilities in the commission of murder-for-hire.

"1952B. Violent crimes in aid of racketeering activity.".

PART B

SEC. 702. Section 2510 of title 18 of the United States Code is amended—

(1) in paragraph (10), by striking out "and" at the end thereof;

(2) in paragraph (11), by striking out the period at the end thereof and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end thereof the following:

"(12) 'surreptitious entry' means a physical entry upon a private place or premises to install, repair, reposition, replace, or remove any electronic, mechanical, or other device, and includes both covert entry and entry effected by means of a ruse or subterfuge.".

SEC. 703. Section 2518(1) of that title is amended—

(1) in paragraph (e), by striking out "and" at the end thereof;

(2) in paragraph (f), by striking out the period at the end thereof and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end thereof the following:

"(g) a statement whether surreptitious entries are required to carry out the order.".

SEC. 704. Section 2518(4) of that title is amended—

(1) in paragraph (d), by striking out the "and" at the end thereof;

(2) in paragraph (e), by striking out the period at the end thereof and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end thereof the following:

"(f) whether surreptitious entries are authorized or approved to carry out the order, and, if such entries are authorized or approved, the identity of the agency authorized to make the surreptitious entries.".

SEC. 705. Section 2518(7) of that title is amended—

(1) by amending paragraph (a) to read as follows:

"(a) an emergency situation exists that involves—

"(i) immediate danger of death or serious physical injury to any person,

"(ii) conspiratorial activities threatening the national security interest, or

"(iii) conspiratorial activities characteristic of organized crime,

that requires a wire or oral communication to be intercepted before an order authorizing such interception can, with due diligence, be obtained, and"; and

(2) by inserting a comma and "and may make any surreptitious entry required to effect such interception," immediately before "if an application for an order".

SEC. 706. Section 2519(1) of that title is amended—

(1) by inserting immediately after paragraph (e) the following:

"(f) the fact that surreptitious entries to carry out the order were authorized or approved;"; and

(2) by redesignating paragraphs (f) and (g) as paragraphs (g) and (h), respectively.

SEC. 707. Section 2519(2) of that title is amended in paragraph (a) by striking out "(g)" and by inserting in lieu thereof "(h)".

PART C

SEC. 708. Section 5031 of title 18 of the United States Code is amended by striking the word "eighteenth" both places it appears and inserting in lieu thereof the word "seventeenth".

SEC. 709. Section 5032 of title 18 of the United States Code is amended—

(1) by striking out the word "or" preceding "(2)" in the first paragraph;

(2) by striking the period at the end of the first paragraph and inserting in lieu thereof ", or (3) that the offense charged is a felony and that there is a substantial federal interest in the case or the offense to warrant the exercise of federal jurisdiction.";

(3) in the fourth paragraph, by striking "punishable by a maximum penalty of ten years imprisonment or more, life imprisonment or death," and insert in lieu thereof "that is a crime of violence or an offense de-

scribed in section 841, 952(a), 955, or 959 of title 21,"; and in the same paragraph, strike out "sixteen" and "sixteenth" and insert in lieu thereof "fourteen" and "fourteen'h", respectively;

(4) in the fourth paragraph, by striking out the period at the end of the paragraph and inserting in lieu thereof "; however, a juvenile who is alleged to have committed one of the preceding enumerated felonies after having been found guilty of one act which if committed by an adult would have been a crime of violence or an offense described in section 841, 952(a), 955, or 959 to title 21, or a crime of violence in violation of a State felony statute, shall be transferred to the appropriate district court of the United States for criminal prosecution."; and

(5) by adding at the end of the section the following:

"Whenever a juvenile transferred to district court under this section is not convicted of the crime upon which the transfer was based or another crime which would have warranted transfer had the juvenile been initially charged with that crime, further proceedings concerning the juvenile shall be conducted pursuant to the provisions of this chapter.

"Any proceedings against a juvenile under this chapter or as an adult shall not be commenced until any prior juvenile court records of such juvenile have been received by the court, or the clerk of the juvenile court has certified in writing that the juvenile has no prior record, or that the juvenile's record is unavailable, and why it is unavailable.

"Whenever a juvenile is adjudged delinquent pursuant to the provisions of this chapter, the specific acts which the juvenile has been found to have committed shall be described as part of the official record of the proceedings and part of the juvenile's official record.".

SEC. 710. Section 5038 of title 18 of the United States Code is amended by striking subsection (d) and inserting in lieu thereof the following:

"(d) Whenever a juvenile is found guilty of committing an act which if committed by an adult would be a felony that is a crime of violence or an offense described in section 841, 952(a), 955, or 959 of title 21, such juvenile shall be fingerprinted and photographed. Fingerprints and photographs of a juvenile who is not prosecuted as an adult shall be made available only in accordance with the provisions of subsection (a) of this section. Fingerprints and photographs of a juvenile who is prosecuted as an adult shall be made available in the manner applicable to adult defendants.

"(e) Unless a juvenile who is taken into custody is prosecuted as an adult neither the name nor picture of any juvenile shall be made public by any medium of public information in connection with a juvenile delinquency proceeding.".

PART D

SEC. 711. Section 1201 of title 18 of the United States Code is amended—

(1) in subsection (a)(3), by deleting "or" at the end thereof;

(2) in subsection (a)(4), by deleting the comma at the end thereof and substituting "; or"; and

(3) by adding after subsection (a)(4) a new subsection (a)(5) to read as follows:

"(5) the person is among those officers and employees designated in section 1114 of this title and any such act against the person is done while the person is engaged in, or on account of, the performance of his official duties,".

PART E

SEC. 712. Chapter 7 of title 18 of the United States Code is amended by adding a new section at the end thereof to read as follows:

"§ 115. Influencing, impeding, or retaliating against a federal official by threatening or injuring a family member

"(a) Whoever assaults, kidnaps, or murders, or attempts to kidnap or murder, or threatens to assault, kidnap or murder a member of the immediate family of a United States official, United States judge, or Federal law enforcement officer, with intent to impede, intimidate, interfere with, or retaliate against such official, judge or law enforcement officer while he is engaged in or on account of the performance of his official duties, shall be punished as provided in subsection (b).

"(b)(1) An assault in violation of this section shall be punished as provided in section 111 of this title.

"(2) A kidnaping or attempted kidnaping in violation of this section shall be punished as provided in section 1201 of this title.

"(3) A murder or attempted murder in violation of this section shall be punished as provided in sections 1111 and 1113 of this title.

"(4) A threat made in violation of this title shall be punished by a fine of not more than $5,000 or imprisonment for a term of not more than five years, or both, except that imprisonment for a threatened assault shall not exceed three years.

"(c) As used in this section, the term—

"(1) 'Federal law enforcement officer' means any officer, agent, or employee of the United States authorized by law or by a Government agency to engage in or supervise the prevention, detection, investigation, or prosecution of any violation of federal criminal law;

"(2) 'immediate family member' of an individual means—

"(A) his spouse, parent, brother or sister, child, or person to whom he stands in loco parentis; or

"(B) any other person living in his household and related to him by blood or marriage;

"(3) 'United States judge' means any judicial officer of the United States, and includes a Justice of the Supreme Court and a United States magistrate; and

"(4) 'United States official' means the President, President-elect, Vice President, Vice President-elect, a Member of Congress, a Member-elect of Congress, a member of the executive branch who is the head of a department listed in 5 U.S.C. 101, or the Director of Central Intelligence.".

PART F

SEC. 713. Section 31 of title 18 of the United States Code is amended in the definition of "motor vehicle" by striking out "or passengers and property;" and inserting in lieu thereof "passengers and property, or property or cargo;".

PART G

SEC. 714. (a) Section 207(a) of the Currency and Foreign Transactions Reporting Act (31 U.S.C. 1056(a)) is amended by striking out "a civil penalty not exceeding $1,000" and inserting in lieu thereof "a civil penalty not exceeding $10,000".

(b) Section 209 of such Act (31 U.S.C. 1058) is amended by striking out "$1,000, or imprisonment not more than one year, or both" and inserting in lieu thereof "$50,000, or imprisonment not more than five years, or both".

(c) Section 231(a) of such Act (31 U.S.C. 1101(a)) is amended—

(1) by inserting ", or attempts to transport or cause to be transported," after "transports or causes to be transported" in paragraph (1); and

(2) by striking out "in an amount exceeding $5,000" and inserting in lieu thereof "in an amount exceeding $10,000".

(d) Section 235 of such Act (31 U.S.C. 1105) is amended—

(1) by redesignating subsection (b) as subsection (c); and

(2) by inserting the following new subsection after subsection (a):

"(b) A customs officer may stop and search, without a search warrant, a vehicle, vessel, aircraft, or other conveyance, envelope or other container, or person entering or departing from the United States with respect to which or whom the officer has reasonable cause to believe there is a monetary instrument being transported in violation of section 231.".

(e)(1) Chapter 1 of such Act is amended by adding the following new section at the end thereof:

"§ 214. Rewards for informants

"(a) The Secretary may pay a reward to an individual who provides original information which leads to a recovery of a criminal fine, civil penalty, or forfeiture, which exceeds $50,000, for a violation of this title.

"(b) The Secretary shall determine the amount of a reward under this section. The Secretary may not award more than 25 per centum of the net amount of the fine, penalty, or forfeiture collected or $250,000, whichever is less.

"(c) An officer or employee of the United States, a State, or a local government who provides information described in subsection (a) in the performance of official duties is not eligible for a reward under this section.

"(d) There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this section.".

(2) The table of contents of such chapter is amended by adding the following new item after the item relating to section 213:

"214. Rewards for informants.".

SEC. 715. Section 1961(1) of title 18, United States Code, is amended—

(1) by striking out "or" after "(relating to embezzlement from union funds),"; and

(2) by inserting before the semicolon at the end thereof the following: ", or (E) any act which is indictable under the Currency and Foreign Transactions Reporting Act".

PART H

SEC. 716. (a) Chapter 103 of title 18 of the United States Code is amended by adding at the end thereof a new section as follows:

"§ 2118. Robbery of a pharmacy

"(a) Whoever takes property from a pharmacy or a person registered with the Drug Enforcement Administration under section 302 of the Controlled Substances Act (21 U.S.C. 822) by force or violence, or by intimidation, shall be imprisoned for not more than ten years, or fined not more than $5,000, or both.

"(b) For purposes of this section, the term 'property' means a controlled substance, consisting of a narcotic, amphetamine, or barbiturate that is listed in Schedules I through IV established by section 202 of the Controlled Substances Act (21 U.S.C. 812).".

(b) The analysis for chapter 103 of title 18 of the United States Code is amended by adding at the end thereof the following:

"2118. Robbery of a pharmacy.".

(c)(1) The Senate finds that—

(A) there has been an alarming increase in the number of pharmacy robberies since enactment of the Comprehensive Drug Abuse Prevention and Control Act of 1970;

(B) there is a serious need to ensure the maximum Federal effort in attempting to curb these often violent crimes; and

(C) this goal can best be accomplished through consultation between the relevant Government agencies and those dealing with controlled substances.

(2) It is the sense of the Senate that—

(A) the Attorney General, in consultation with the Secretary of Health and Human Services, through the Administrator of the Drug Enforcement Administration should regularly meet with the Joint Commission of Pharmacy Practitioners to discuss this problem; and

(B) that in order to provide accurate and current information on the nature and extent of pharmacy crime the Department of Justice should collect relevant data and include pertinent results in its annual Uniform Crime Report.

PART I

SEC. 717. (a) Chapter 19 of title 18 of the United States Code is amended by adding at the end thereof the following new section:

"§ 373. Solicitation to commit crime of violence

"(a) OFFENSE.—Whoever, with intent that another person engage in conduct constituting a Federal crime of violence, and under circumstances strongly corroborative of that intent, solicits, commands, induces, or otherwise endeavors to persuade such other person to engage in such conduct, shall be imprisoned not more than one-half the maximum term of imprisonment or fined not more than one-half the maximum fine prescribed for the punishment of the crime solicited, or both; or if the crime solicited is punishable by death, shall be imprisoned for not more than twenty years.

"(b) AFFIRMATIVE DEFENSE.—It is an affirmative defense to a prosecution under this section that, under circumstances manifesting a voluntary and complete renunciation of his criminal intent, the defendant prevented the commission of the crime solicited. A renunciation is not 'voluntary and complete' if it is motivated in whole or in part by a decision to postpone the commission of the crime until another time or to substitute another victim or another but similar objective. If the defendant raises the affirmative defense at trial, the defendant has the burden of proving the defense by a preponderance of the evidence.

"(c) DEFENSE PRECLUDED.—It is not a defense to a prosecution under this section that the person solicited could not be convicted of the crime because he lacked the state of mind required for the commission of the crime, because he was incompetent or irresponsible, or because he is immune from prosecution or otherwise not subject to prosecution.".

(b) Chapter 1 of title 18 of the United States Code is amended by adding at the end thereof a new section as follows:

"§ 16. Crime of violence defined

"Except as otherwise expressly provided, as used in this title 'crime of violence' means—

"(1) an offense that has an element of the offense the use, attempted use, or threatened use of physical force against the person or property of another; or

"(2) any other offense that is a felony and that, by its nature, involves a substantial risk that physical force against the person or property of another may be used in the course of committing the offense.".

PART J

SEC. 718. Section 1111 of title 18 of the United States Code is amended by adding after the word "arson" the words "escape, murder, kidnapping, treason, espionage, sabotage,".

PART K

SEC. 719. (a) The problem of drug abuse continues to worsen in most parts of the world;

(b) The number of drug abusers has risen and abuse has spread geographically;

(c) The number, variety, and potency of illicitly used narcotics, drugs, and psychotropic substances have increased;

(d) Illicit production has expanded and trafficking flourishes; and

(e) A declaration by the United Nations of an International Year Against Drug Abuse would serve as a catalyst for interest and action at all international levels involving families, communities, neighborhoods, schools, religious institutions, and public, private, and voluntary associations: It is the sense of the Congress that the President is urged to promote a declaration by the United Nations of an International Year Against Drug Abuse.

PART L

SEC. 720. (a) Part D of the Controlled Substances Act is amended by adding after section 405 the following new section:

"DISTRIBUTION IN OR NEAR SCHOOLS

"SEC. 405A. (a) Any person who violates section 401(a)(1) by distributing a controlled substance in or on, or within one thousand feet of, the real property comprising a public or private elementary or secondary school is (except as provided in subsection (b)) punishable (1) by a term of imprisonment, or fine, or both up to twice that authorized by section 841(b) of this title and (2) at least twice any special parole term authorized by section 401(b) for a first offense involving the same controlled substance and schedule.

"(b) Any person who violates section 401(a)(1) by distributing a controlled substance in or on, or within one thousand feet of, the real property comprising a public or private elementary or secondary school after a prior conviction or convictions under subsection (a) have become final is punishable (1) by a term of imprisonment of not less than three years and not more than twenty years and (2) at least three times any special term authorized by section 401(b) for a second or subsequent offense involving the same controlled substance and schedule.

"(c) In the case of any sentence imposed under subsection (b) imposition or execution of such sentence shall not be suspended and probation shall not be granted. An individual convicted under subsection (b) shall not be eligible for parole under section 4202 of title 18 of the United States Code until the individual has served the minimum sentence required by such subsection.".

(b) Section 401(b) of such Act (21 U.S.C. 841(b)) is amended by inserting "or 405A" after "405".

(c) Section 401(c) of such Act is amended by inserting "or 405A" after "405" each place it occurs.

(d) Section 405 of such Act (21 U.S.C. 845) is amended by striking out "Any" in subsections (a) and (b) and inserting in lieu thereof "Except as provided in section 405A, any".

PART M

SEC. 721. Notwithstanding any other provision of this Act, all contracts entered into pursuant to the authority granted in this Act shall be effective for any fiscal year only to such an extent or in such amounts as are provided in appropriation Acts.

PART N

SEC. 722. Section 405 of part D of the Controlled Substances Act (21 U.S.C. 845) is amended to read as follows:

"§ 845. Distribution to juveniles

"(a) Any person at least twenty-one years of age who violates section 401(a)(1) by distributing a controlled substance in Schedule I or II other than marijuana to a person under eighteen years of age shall be punished by a mandatory minimum term of imprisonment of five years as a part of any sentence imposed pursuant to section 401(b). No part of a sentence of imprisonment imposed pursuant to this section shall be suspended.

"(b) Any person at least twenty-one years of age who violates section 401(a)(1) by distributing marijuana or a controlled substance in Schedule III to a person under eighteen years of age shall be punished by a mandatory minimum term of imprisonment of three years as a part of any sentence imposed pursuant to section 401(b). No part of a sentence of imprisonment imposed pursuant to this section shall be suspended.

"(c) Any person sentenced under this section shall be ineligible for parole or any other type of release from imprisonment during the period of the mandatory minimum term of imprisonment.".

PART O

SEC. 723. (a) Chapter 44 of title 18, United States Code, is amended by adding at the end thereof the following:

"§ 929. Use of restricted ammunition

"(a) Whoever, during and in relation to the commission of a crime of violence for which he may be prosecuted in a court of the United States, including a felony which provides for an enhanced punishment if committed by the use of a dangerous weapon or device, uses or carries any handgun loaded with armor-piercing ammunition as defined in subsection (b), shall, in addition to the punishment provided for the commission of such felony, be sentenced to a term of imprisonment for not less than five years. Notwithstanding any other provision of law, the court shall not suspend the sentence of any person convicted of a violation of this subsection, nor place him on probation, nor shall the terms of imprisonment run concurrently with any other terms of imprisonment including that imposed for the felony in which the armor-piercing handgun ammunition was used or carried. No person sentenced under this subsection shall be eligible for parole.

"(b) For purposes of this section—

"(1) 'armor-piercing ammunition' means ammunition which, when or if fired from any handgun used or carried in violation of subsection (a), under the test procedure of the National Institute of Law Enforcement and Criminal Justice Standard for the Ballistics Resistance of Police Body Armor promulgated December, 1978, is determined to be capable of penetrating bullet-resistant apparel or body armor meeting the requirements of Type IIA of Standard NILECJ-

STD-0101.01 as formulated by the United States Department of Justice and published in December of 1978;

"(2) 'crime of violence' means—

"(i) an offense, other than a misdemeanor that consists solely of damage to property and that does not place another person in danger of death or serious bodily injury, that has as an element of the offense the use, attempted use, or threatened use of physical force against the person or property of another; or

"(ii) any other offense that is a felony and that, by its nature, involves a substantial risk that physical force against the person or property of another may be used in the course of committing the offense; and

"(3) 'handgun' means any firearm, including a pistol or revolver, originally designed to be fired by the use of a single hand.".

(b) The table of sections for chapter 44 of title 18, United States Code, is amended by adding at the end thereof the following:

"929. Use of restricted ammunition.".

PART P

SEC. 724. (a) Chapter 65 of title 18, United States Code, is amended by adding at the end thereof the following:

"§ 1365. Aggravated property destruction of an energy facility

"(a) Whoever knowingly and willfully—

"(1) damages the property of an energy facility in an amount that in fact exceeds $5,000; or

"(2) damages the property of an energy facility in any amount and causes a significant interruption or impairment of a function of an energy facility,

shall be punished in accordance with subsection (b).

"(b) An offense described in this section is—

"(1) punishable by a fine of not more than $50,000 or imprisonment of not more than ten years, or both—

"(A) in the circumstances set forth in subsection (a)(1) if the damage exceeds $100,000; and

"(B) in the circumstances set forth in subsection (a)(2); or

"(2) punishable by a fine of not more than $25,000, or imprisonment of not more than five years, or both, in any other case.

"(c) For purposes of this section, the term 'energy facility' means a facility that is involved in the production, storage, transmission, or distribution of electricity, fuel, or another form or source of energy, or research, development, or demonstration facilities relating thereto, regardless of whether such facility is still under construction or is otherwise not functioning except a facility subject to the jurisdiction, administration, or in the custody of the Nuclear Regulatory Commission.

"(d) There is Federal jurisdiction over an offense described in this section if the offense is committed on the premises of an energy facility.".

(b) The table of contents for chapter 65 of title 18, United States Code, is amended by adding at the end thereof the following new item:

"1365. Aggravated property destruction of an energy facility.".

PART Q

SEC. 725. (a) AUTHORIZATION.—There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions and purposes of this Act.

(b) EFFECTIVE DATE.—Notwithstanding any other provision of this Act, no provision of this Act shall take effect prior to October 1, 1982.

PART R

SEC. 726. (a) Section 2252 of title 18, United States Code, is amended—

(1) in subsection (a)(1) by striking out ", for the purpose of sale or distribution for sale, any obscene" and inserting in lieu thereof "any"; and

(2) in subsection (a)(2) by striking out "for the purpose of sale or distribution for sale, or knowingly sells or distributes for sale, any obscene" and inserting in lieu thereof ", sells, or distributes any".

(b) Section 2253(3) of title 18, United States Code, is amended by striking out ", for pecuniary profit".

PART S

SEC. 727. Section 924(c) of title 18 of the United States Code is amended to read as follows:

"(c) Whoever—

"(1) uses any firearm to commit any felony for which he may be prosecuted in a court of the United States; or

"(2) carries a firearm during the commission of any such felony if an element of the offense is the use of violence or threat of imminent violence as defined in section 16 of this title;

shall, in addition to the punishment provided for the commission of the felony, be sentenced for the first such offense to a term of imprisonment of not less than two years, nor more than ten years, and for a second or subsequent such offense under this subsection or after conviction of using or carrying a firearm in the course of a similar felony under a State, local, or foreign law, to a term of imprisonment of not less than five nor more than twenty-five years. A term of imprisonment imposed pursuant to this subsection shall be consecutive to any other sentence of imprisonment for commission of the felony in which the firearm was used or carried. Notwithstanding any other provision of law, the court shall not suspend the imposition or execution of sentence or place the person on probation, nor shall the person be paroled before completing the specified minimum term of imprisonment.".

S. 3048, THE FEDERAL ANTI-TAMPERING ACT

Mr. THURMOND. Mr. President, the legislation which is before us now, S. 3048, the Federal Anti-Tampering Act, is a response to recent events which have brought fear and disgust into the hearts and minds of us all. I am referring, of course, to the numerous cases of tampering with products intended for human consumption. The vulnerability of the public was dramatically and tragically brought home to us recently in Chicago, where cyanide was inserted into Tylenol capsules, placed on drug store shelves, and purchased by innocent consumers. This incident resulted in the death of several persons, including three from the same family.

The Chicago poisonings were rapidly followed by a series of copycat tamperings involving such things as acid in eyedrops and razor blades in packaged foods. The most recent serious incident reportedly occurred around Thanksgiving and involved serious injury from cyanide-laced Anacin capsules. There have also been reports of individuals fraudulently alleging that products have been adulterated in order to bring harm upon the manufacturers or sellers of the products who are forced to recall the merchandise and remove it from store shelves.

Mr. President, the heinous conduct which we have witnessed demands prompt action by the Federal Government. In order to deter this conduct and to bring the full resources of the Federal Government to bear in apprehending and prosecuting the individuals who perpetrate these despicable crimes, I, along with the distinguished Senator from Delaware, Mr. BIDEN, and a number of other Senators have cosponsored S. 3048.

This legislation invokes the broad commerce jurisdiction of the United States to make it a serious Federal crime to tamper with or adulterate foods, drugs, cosmetics, hazardous substances, or any other commodity designed for personal use, with the intent to harm individuals or businesses. Currently adulteration is punishable by a maximum prison sentence of only 1 year or by a fine of $1,000, or both. By making this crime a felony and by increasing the maximum penalties significantly, we hopefully will be able to deter those who contemplate such conduct.

This measure also punishes the willful and malicious conveying of false information about product adulteration or tampering. By expanding the scope of Federal law in these areas, we will be better able to address the full range of product tampering conduct which the recent cases have demonstrated. In particular, we will be able to reach those situations where the tampering is undertaken or alleged in order to do harm to the public health and safety or to the reputation and good will of businesses.

Further, this legislation establishes severe penalties for violators. Those who engage in actual or attempted malicious product tampering or those who willfully convey false information about such tampering, will face imprisonment of up to 20 years, or a fine of up to $20,000, or both, and even a life sentence if death or injury results from the prohibited conduct.

By expanding the Federal antitampering laws and increasing the penalties for violations, we will be providing maximum protection to consumers throughout this country. The reprehensible poisonings which occurred must be prevented if possible, but certainly punished severely. Only by increasing the deterrence factor can we hope to succeed in realizing this objective.

This legislation also is important in that it encourages the use of Federal resources in appropriate cases to capture and prosecute tampering criminals. Almost all of the products which are subject to possible tampering are manufactured for and shipped in

interstate commerce. Because of this, it might be extremely difficult for one State to adequately investigate and prosecute a course of conduct carried out in one or more States, prior to the product being shipped to another State for distribution or final sale to consumers. Therefore, by assuring that the investigatory and prosecutorial resources of the Federal Government are available in all tampering cases, we will improve our ability to bring product tampering criminals to justice expeditiously.

Mr. President, surely all of my colleagues will agree that the product tampering activity which has occurred in recent weeks is a very serious problem. It can and has led to death, serious personal injury, and huge financial and intangible losses to the makers and sellers of the victimized products. It has brought fear and uncertainty to almost all of us who, up until recently, had great faith that the products we purchased were fit for consumption. Because of the devastating impact that these events have had on consumers and businesses alike, it is imperative that the Congress take whatever action is necessary to protect consumers and restore their confidence in the safety of the products they purchase. S. 3048 will help achieve these results. I, therefore, urge my colleagues to join me and the distinguished cosponsors in voting for passage of this legislation so that we may fulfill our responsibility to the Nation's consumers before this session of Congress expires.

Mr. President, Forbes magazine's December issue has a most informative article on "The Poison Problem." It is timely and relevant to the issues of S. 3048. I ask unanimous consent that the article be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

THE POISON PROBLEM

(By Priscilla S. Meyer with Jay Gissen)

Frank Alger, president of the Lawson Co. in Cuyahoga Falls, Ohio, says that on Oct. 13 four retailers received phone calls that made his blood run cold. There was poison in some Lawson milk headed to customers, the voice said. A later call demanded money. If the company wanted to save its customers' lives, as well as the good name and possible solvency of Lawson, it must pay.

Now, a suspected extortionist is behind bars and no customers have been poisoned. In fact, after Lawson recalled all its milk, it discovered none had been poisoned. But it was a costly and frightening experience, says Alger. "The eventual recall cost $100,000," he says, and hurt business for weeks.

Businesses have been encountering this sort of threat, the real thing as well as bluffs, for several years now. Adulterated and poisoned products (apart from bomb threats against plants and stores) stretch well beyond national brands like Tylenol, and the targets include more than national drug companies. The Tylenol case may or may not turn out to be an extortion scheme gone awry (suppose some secretary threw out the extortionate demand letter, for example), but the wide publicity over Tylenol poisonings has brought the ugly problem of product extortion out of the closet.

Product extortion schemes emerged in the late 1970s and at first received only local publicity. One of the earliest involved cyanide-adulterated food. A small grocery store outside Portland, Ore. got word in late 1979 that a poisoned product would be found on its shelves marked with a large "X," and that there were other poisoned products on the store's shelves as well. To locate the poisoned items the market owner—who, of course, closed down the store and cleaned off his shelves—would have to pay in diamonds that were to be attached to carrier pigeons, waiting at a soon-to-be-disclosed location.

Local publicity brought to investigators the dealer who had sold the pigeons, the extortionist was identified and eventually, after he tried to pull a similar scheme by poisoning a jar of Campbell Soup Co.'s Vlasic pickles at a Safeway store in La Jolla, Calif., he was arrested.

But product extortion threats became a larger and larger problem. A separate attempt was made using Vlasic pickles in Atlanta in 1980, this time for cash. In late 1979 the FBI was already working on five separate schemes, which they suspected involved two separate groups of extortionists. Investigators feared they were hearing about fewer than half the schemes that were actually under way. "This sort of thing petrifies companies," an investigator confided.

Typically, an adulterated package of the product was sent to the manufacturer along with a note demanding money in exchange for disclosure of where other poisoned or drugged products had been put on retail shelves. Alternatively, retail stores were told of the location of one adulterated item—like the Vlasic pickles—and warned they wouldn't be told the location of other similarly poisoned products if they didn't pay up.

More than once in the late 1970s the national press investigated, and determined not to publish, stories on the growing extortion menace on grounds that it might cause an explosion of poisonings. Then the Tylenol disaster in October let the cat out of the bag. The wide publicity produced waves of copycat poisonings, adulterated drugs, food products, acid in eyedrops and other horrifying crimes. "Tylenol was the first time this agency has had to deal with anything of this kind," says James Greene, a spokesman for the FDA. "Then came Excedrin and then a flurry of deliberate tampering of various food products over a couple of weeks now."

"At any given time we're dealing with a number of these things," says a spokesman for the FBI, conceding "it's terrifying." Unfortunately, it's not simply copycat psychos out there.

"There are 15 ongoing extortion cases I know about today," says Paul Chamberlain of the Paul Chamberlain Agency, a private Los Angeles-based company staffed by ex-FBI agents that specializes in helping companies deal with extortion and kidnapping problems.

One investigator suspects the idea of product extortion may actually have come from a mystery novel, "Murder to Go," by Emma Lathen, which outlined a scheme to destroy a fried-chicken franchise business through poisonous zinc salts. Simon & Schuster, the publisher, says there were two printings in 1969 with some 10,000 copies sold in hardback.

Paperback editions, with some 190,800 copies, came out between 1971 and 1977. By that time more sophisticated versions of a product extortion scheme were circulating in the prison underground, spelling out the ABCs of product extortion.

Before the late 1960s, extortion was primarily a personal problem—kidnapping of the wealthy tied to ransom notes. Then came a wave of politically motivated airplane hijackings, triggering, in 1971, similar hijackings for cash extorted from the airlines.

That was in November 1971 when D. B. Cooper, reportedly armed with a bomb, hijacked a Northwest Boeing 727 on a Washington, D.C.-Seattle flight, collected $200,000 ransom in Seattle, plus four parachutes, and ordered the pilot to fly to Mexico. Cooper bailed out along the way, and was never captured. That set off a chain of similar hijackings against other airlines, which became so pervasive that, by January 1972, federal officials were attributing four out of five of the ongoing hijackings to extortion rather than politics. That sort of extortion is currently almost at a standstill, investigators say, thwarted by extensive precautions by airlines.

Even so, the extortion wave has spread, first involving bomb threats against airlines in the terminals, and eventually similar threats to corporate facilities, department stores, skyscrapers and plant facilities. And these extortion schemes continue; witness the recent bombing of Gulf Oil facilities near Houston.

Indeed, FBI bank crime statistics through June 1978 don't even include bomb devices. Suddenly, in the next six months there were 63 incidents at banks involving bomb devices, many apparently used for extortion. In the first six months of 1982, bomb devices were used 162 times.

Some in the FBI privately fear that product extortion, when properly executed, may be unstoppable. The implications are chilling. "It may ultimately become like the bomb scares. You can only empty a building so many times a day—and after a while you just live with the threats. And sometimes a bomb does go off," says the president of an insurance company writing coverage against such risks. Today some large buildings get as many as five bomb threats a day, mostly hoaxes. Mostly, but not all.

Safeguards as effective as those against airplane hijackings will be hard to devise. Business and the public must contend with yet another paradox of the 20th century—marvels of human ingenuity developed to enhance life sometimes matched by ingenious efforts to strike against it.

WHEN THE EXTORTIONIST CALLS . . .

As bad as product and bombing extortion threats may seem, things can be made worse by improper handling, investigators say.

In one instance cited by an ex-FBI agent, a company chief executive kept going to his board of directors for advice, slowing down efforts of investigators. The decisions they made were "absolutely unreal," he says—refusing to let the FBI secretly monitor the drop, for example—"because the board had no background at all to make these decisions."

As a result, the ransom money was lost. An even greater threat—avoidable death of

customers or employees—is possible through improper handling, say the investigators.

Here are a few pointers:

Use tamper-resistant packaging. Campbell says it's coming out with such packaging for its Vlasic pickles, and Tylenol is available now in tamper-resistant packaging. The experts say that if an extortionist is determined, nothing will stop him, but making it difficult may at least improve the odds he will move to some easier product.

Protect your company with insurance, which is now available to pay ransoms, cost of extortion recalls or, in some cases, even the cost of reestablishing a brand that has been crushed in an extortion scheme. Such insurance is available through most major corporate insurance policies.

In the early 1970s such extortion insurance was illegal in some states on the grounds that it seemed improper to insure payments to criminals. But another form of extortion had sprung from political protests—bank and corporate executive kidnappings. As kidnappings mounted, companies began going offshore to buy the coverage en masse and at great cost. Domestic insurance regulators relented.

First, American International Group, rapidly following by Chubb Corp. and the Professional Indemnity Agency, began offering the coverages at lower cost and in association with special services to help companies deal with kidnappings and extortion.

Consider a crisis management team. Advisers for setting up an internal team to deal with potential extortion are available through most insurance companies. In large companies the security manager generally is in charge of this team, which learns in advance how to deal with extortion threats properly.

Instruct your staff on how to handle threats. Executives, clerks and secretaries who might be first to receive a threat by phone or mail should be warned always to take it seriously. In the case of an extortion letter, it should be handled as little as possible and placcd between the pages of a magazine until it can be removed to a plastic envelope to preserve fingerprints. And the envelope most certainly should be saved.

Don't call the local police. Investigators say local police rarely have had experience in dealing with corporate extortion schemes or corporate kidnappings. Most police headquarters are closely monitored by the press. Calling the cops is tantamount to calling the local newspaper or televison station.

Call the FBI. Most extortion notes warn against this but, in fact, it violates the U.S. Code not to report a felony. What's more, the FBI will know what to do. "Our priorities are, first, to protect life, second, to protect property and, third, identify and apprehend persons responsible," say Lane Bonner of the FBI. In short, the FBI understands the seriousness of the threat to your brand and corporation as well as to your customers, and agents are trained to act accordingly. The faster the FBI is called, the more likely the crime is to be thwarted, Bonner adds.

Have someone empowered to make decisions. Someone should be predesignated to make decisions as to whether the threat is real, whether the ransom should be paid and how to deal with the extortionist. Confusion occurs when, for example, the board of directors must be consulted or a team of managers must make quick decisions through a flurry of bureaucratic memos.

Mr. SPECTER. Mr. President, I wish to offer what I hope will be seen by all my colleagues as a constructive suggestion with regard to our impending conference on the Justice Assistance Act.

In the days that have intervened since this body passed the Justice Assistance Act, H.R. 4481, as amended by the Senate, on Thursday evening, I have sought to work with other interested colleagues to determine whether other matters might appropriately be attached to the Senate amendment before its transmission to the House. In the waning days of this session there are several discrete measures in various stages of the legislative process that seemed likely candidates for such treatment. The packet of amendments offered by the majority leader and adopted by unanimous consent today are all measures that I can support. They are all included in this package without Senate objection.

Despite my support for the additional amendments, I respectfully observe for the benefit of my colleagues in both the Senate and the House that we should avoid sacrificing the benefits of enacting the Justice Assistance Act if other important but collateral issues cannot be resolved in the time remaining.

The Senate passed the Justice Assistance Act by unanimous consent. Last February, the House passed its version of the Justice Assistance Act by a vote of 289 to 73. The support of the White House and the Department of Justice were secured. This measure represents an important development in Federal assistance to State and local law enforcement and can help in the fight against crime.

In recognition of the importance of the Justice Assistance Act and its prompt enactment, I offer the following observation: As deeply as I believe in the career criminal amendment I have sponsored to this bill, I stand willing to recommend that the House-Senate conference leave it for another day if forebearance is needed for enactment of justice assistance and urge my colleagues who have attached other criminal law matters, in the spirit of accommodation, to be prepared to do the same.

Many of these other provisions are already under review in a separate conference. The career criminal bill, on the other hand, is not before the House.

I respectfully suggest that in this way we can foster a cooperative spirit in which other substantive criminal law matters can be conferenced in good faith and can thereby achieve the greatest possible legislative concensus and progress on matters about which many of us feel most deeply. Most importantly, we should not let justice assistance become the victim of nonenactment because of the additions of other matters.

THE FEDERAL ANTI-TAMPERING ACT

Mr. BIDEN. I joined Senator THURMOND in introducing the Federal Anti-Tampering Act, S. 3048, because I strongly believe that we cannot afford to wait any longer to enact necessary legislation.

The recent Tylenol tragedies have clearly demonstrated just how vulnerable we all are to the horror of random violence. These crimes are most reprehensible because the victims were innocent people and because the weapon used was a common household item we have all grown to trust. Fortunately, local authorities—in this instance the Chicago Police Department—have done excellent investigative work which I sincerely hope will soon result in an arrest.

This bill will enable the Federal law enforcement authorities to do all it can to assist local officials. In sum, it creates a felony punishable by up to 20 years in prison and $20,000 or life in prison if injury or death results when anyone adulterates or attempts to adulterate a food, drug, device or cosmetic tampers or attempts to tamper with a hazardous substance or a product designed for personal use or use within the home, or gives false information about such acts.

This bill is intentionally drafted very broadly. In essence it encompasses almost any change made in anything intended to be put on a persons body, in a persons body or used in the home if it is done with intent to injure a person or a business.

The bill increases the penalties for similar acts which under current Federal law are misdemeanors. In addition it will allow the full use of Federal investigative resources in most cases, thereby providing local authorities with assistance.

I urge your support for the "Federal Anti-Tampering Act."

S. 3048

Mr. LEAHY. Mr. President, the anti-tampering bill before the Senate fills a large gap in the protection of consumers against purposely adulterated food, drugs, and cosmetics. The crimes that have prompted our immediate attention to this problem do more than threaten and harm individuals. They eat away at the trust between members of our society. They threaten our sense of community.

I commend Senators THURMOND and BIDEN for their fast and thorough work on this bill. I am proposing an amendment that would establish three, rather than two, degrees of offense for those who convey false information about tampering. My amendment would create separate and appropriate penalties for those who disseminate false information leading to personal injury or death, for those who cause product recalls and disruption, and for those whose lies do not result

in direct and palpable harm. Under the present text, the latter two classes of offenders are lumped together, and conduct that we should strongly discourage may nevertheless be penalized too strongly where no direct injury results.

With this amendment, I believe the bill is fairer on its face and should therefore be welcomed by its supporters. It should also answer potential critics of the bill who might have regarded the penalties in the original text as excessively harsh where false information is transparently false and results in no harm.

I believe that Senators of both parties concerned with this bill have cleared this amendment, as have the industry groups supporting its passage.

I hope that the Senate and the House take prompt action on this legislation. Our lives and peace of mind are at stake.

Mr. THURMOND. Mr. President, the amendment offered on behalf of the distinguished Senator from Vermont (Mr. LEAHY) to S. 3048 is an improving amendment that is acceptable. It provides a more rational penalty structure for the crime of making malicious false statements concerning acts of tampering prohibited by other parts of the bill. I urge my colleagues to accept this amendment.

SURFACE TRANSPORTATION ACT OF 1982

The Senate resumed consideration of the bill.

Mr. BAKER. Mr. President, I understand and I am aware of the intention of the Senator from Kansas and the Senators from Missouri to offer a natural gas deregulation amendment. I have no problem with that. I anticipated it and the Senate will deal with it in its wisdom in whatever manner it wishes.

I had not expected it now and thought that we could deal with two leadership amendments first, as a procedural matter. I wonder if the Senators would agree to permit me to offer the substitute first, which is in the nature of an effort to bring together several parts of the bill that would be referred to different committees; and, second, then to provide that the distinguished minority leader, who has priority recognition after the majority leader, would be recognized to offer an amendment which he has in mind and which I think will embody perhaps a series of proposals in connection with title I; and that following on after that, the Senator from Texas (Mr. BENTSEN) would be recognized; and that after that the Senator from Kansas, or one of the Senators from Missouri, would be recognized to offer the natural gas deregulation bill?

The reason for that is just so everyone will know how we are going to proceed and we will have a regular order of business. I wonder if the Senator would react to that suggestion.

Mrs. KASSEBAUM. Mr. President, I state to the minority leader that I have no problem yielding the floor, with the assurance that we would be able to continue in the order of debate. The Senator from Missouri (Mr. EAGLETON) has comments he wished to make, and the Senator from Pennsylvania (Mr. SPECTER), and I believe the Senator from Nebraska (Mr. EXON) also wish to be recognized.

I have no problem with that order, I say to the majority leader, as long as there would be assurance that we would be able to send forward the amendment.

Mr. BAKER. This request would provide it, but I have not yet put the request.

The Senator from Missouri?

Mr. DANFORTH. I would like to inquire of the leader as to the procedure. As I understand it, the substitute would be offered and then the natural gas amendment that Senator KASSEBAUM intends to offer would be offered as an amendment to the substitute. Is that correct?

Mr. BAKER. Yes, except the way I described it, I would offer a complete substitute. It is my understanding then that the minority leader intends to offer an amendment to that substitute, I believe to title I. Then the Senator from Texas (Mr. BENTSEN) would offer an amendment to the substitute.

I assume that the amendment of the Senator from Kansas would be an amendment to the Baker substitute.

Mr. DANFORTH. Would the Baker substitute be original text?

Mr. BAKER. It would be. Because it is a complete substitute it would be open to two amendments.

Mr. DANFORTH. So in this case the Kassebaum amendment would be a first-degree amendment and if I were to offer an amendment to the Kassebaum amendment, that would be a second-degree amendment.

Mr. BAKER. As to title I there is a possibility that the Byrd amendment would be adopted and then it might be in the second degree or it is even possible that a unanimous-consent agreement might be entered into that it not be further amendable. So it might be that the Senators would consider offering their amendment as an amendment to the Byrd amendment to the substitute, to the underlying measure at some other point. or at the end of the bill. All those options would be open.

Mr. ROBERT C. BYRD. Will the majority leader yield?

Mr. BAKER. I yield.

Mr. ROBERT C. BYRD. I would hope they would not offer their amendments to my amendment.

Mr. BAKER. As I say, I have not put that request at this point, but I do suggest that it appears at least to be an orderly procedure. If any other Senator wishes to comment on it, I would be glad to hear from them. I see the Senator from Oklahoma is on his feet. I am glad to yield to him.

Mr. NICKLES. On the suggestion made of first the substitute and then the natural gas amendment—the substitute, the Byrd amendment and then the natural gas amendment?

Mr. BAKER. The substitute, the Byrd amendment, and then the natural gas amendment.

Mr. NICKLES. Would it be procedurally possible for Senators who have additional amendments, if we have yours as a first-degree amendment and there is a second-degree amendment, or are you trying to foreclose the offering of any further amendments?

Mr. BAKER. Mine would be a zero amendment. It would not affect the Senator's opportunity to offer either a first- or second-degree amendment.

Mr. NICKLES. Either to the amendment of the majority leader or the Byrd amendment?

Mr. BAKER. The Byrd amendment, if adopted, would be a first-degree amendment, I do not know what the Senator from Texas intends to do, whether to offer an amendment to the Byrd amendment or to some other part of the bill. But I believe I am right in saying it, too, would be a first-degree amendment. Both would be amendable in the first- or second-degree, unless there is unanimous consent not to change it.

Mr. NICKLES. And throughout this would not preclude this Senator's right to offer other amendments?

Mr. BAKER. That is not my intention.

Mr. ROBERT C. BYRD. I hope we can get a time agreement, Mr. President.

Mr. BAKER. Mr. President, could I inquire of the minority leader what sort of time agreement he might be willing to enter into on his amendment to the Baker substitute?

Mr. ROBERT C. BYRD. I would think that it would be agreeable on my side to enter into an agreement of 2 hours if we could have an understanding that it would be an up or down vote and that no amendments would be offered to it.

Mr. BAKER. As I understand the minority leader, he is suggesting, and I hope Senators will listen as I put this description, that in exchange for a time limitation of 2 hours for debate on his amendment to the Baker substitute, that no other amendment would be in order to the Byrd amendment, that the amendment would be voted on up or down, and there would not be a tabling motion. Is that a fair statement?

Mr. ROBERT C. BYRD. This would not in any way, I do not think, impinge on the rights of the Senators who are proposing a natural gas amendment.

Mr. BAKER. May I say to the Senator from Oklahoma since he raised this issue before, if we were to enter into this agreement, with the time agreement just described, an amendment to the Byrd amendment would not be in order. However, an amendment to some other portion of the bill, some other title, or at the end of the bill, would still be in order.

Mr. NICKLES. I understand. If the Senator will yield, I understand. I would object to a time limitation on the Byrd agreement.

Mr. BAKER. I have not put it. Would the Senator have an objection to a time agreement as well?

Mr. NICKLES. The Senator is correct.

Mr. BAKER. You do object to that as well?

Mr. NICKLES. The Senator is correct.

Mr. BAKER. I did not mean to excite my friend from Oklahoma, but I do not think there is anything involved here that would prevent us from getting this underway. Rather than put the request at this time with respect to a time limitation, I will discuss that matter further, if the Senator will permit me to do so.

At this time I would like to put the request on sequence. I ask unanimous consent, Mr. President, that at this time I may be recognized to offer a substitute which will be a complete substitute; that after the Senate disposes of that measure, the minority leader will be recognized to offer an amendment; that upon the disposition of the Byrd amendment, that the Chair next recognize the Senator from Texas (Mr. BENTSEN) to offer an amendment; that after the disposition of the Bentsen amendment, that the Senator from Kansas (Mrs. KASSEBAUM) be recognized to offer an amendment. That is the request.

Mr. DANFORTH, Mr. President, reserving the right to object, let me inquire of the majority leader and ask if he has a solution to the following eventuality:

Let us suppose that we get into a situation where the bill is filibustered and cloture is then filed on the bill before the Kassebaum amendment could be brought up. Does the majority leader see any way in which this amendment, which arguably is not germane, could be voted on?

Mr. BAKER. Literally speaking, the filing of the motion would not have that effect. The invocation of cloture would.

Mr. DANFORTH. I am just trying to imagine the worst that can happen.

Mr. BAKER. Do not imagine that. Absent unanimous consent, I will say to the junior Senator from Missouri, there is no way to avoid that consequence, if, indeed, cloture is invoked by the Senate on the bill itself. I have not yet filed a cloture motion nor has any other Senator. Frankly, I do no expect to in the next few minutes.

Mr. DANFORTH. I wonder if the Senator could add to his unanimous-consent request the request that this be considered germane for that purpose.

Mr. BAKER. Mr. President, I think I am in water over my head. I think what I am going to do is this: I think we will just proceed for a moment. I have priority of recognition after the Senator from Kansas supports that opportunity to be recognized, and the minority leader has priority after the majority leader. It may be that the best thing to do is just to proceed in this sequence as best we can.

I would point out that at some stage it is my intention to ask the chairman if he will consider withdrawing the committee substitute so that I may offer a complete substitute. At this point, any amendment that is offered and dealt with must be to that material which I believe will be either withdrawn or displaced. I would not suggest that there is much good that can come from continuing this debate at this stage of the proceeding. But that is entirely up to the Senator from Kansas and the Senator from Missouri to decide.

I thank the Senator from Kansas.

Mrs. KASSEBAUM. I thank the majority leader for his help in getting us organized.

At this time, Mr. President, I will yield to the distinguished Senator from Missouri (Mr. EAGLETON) without losing my right to the floor.

Mr. EXON. I object.

The PRESIDING OFFICER. Objection is heard. The Senator from Kansas retains the floor.

Mr. EXON. Will the Senator from Kansas yield for a question?

Mrs. KASSEBAUM. I am happy to yield without losing my right to the floor.

Mr. EXON. I would simply say to the Senator from Kansas that the Senator from Nebraska came to the floor before noon today to discuss the natural gas situation. He was shut out from being considered for 3 minutes to offer a noncontroversial amendment, I am sure, and I assure everyone it is. I was prevented from doing that also after a series of votes, when it was indicated that I probably would have a chance to do that after we finished the last vote. At that time, the Chair recognized the Senator from Kansas.

I would just ask, would it be possible for the Senator from Kansas to yield for 2½ minutes to the Senator from Nebraska so that I would not have to remain longer? I have been here now for 4 hours. Would it be possible for the Senator to extend to the Senator from Nebraska that courtesy?

Mrs. KASSEBAUM. Mr. President, is Senator EAGLETON present? Would he have any objection to my yielding to Senator EXON at this moment?

Mr. EXON. Mr. President, I suggest to the Chair that Senator EAGLETON, under the circumstances, has nothing to say about it. If the Senator from Kansas is going to yield to the Senator from Missouri without losing her right to the floor, the Senator from Nebraska will maintain his right to object. I think I have that right.

Mrs. KASSEBAUM. Mr. President, I ask unanimous consent to have the right to yield to the Senator from Nebraska (Mr. EXON) without losing my right to the floor.

Mr. BAKER. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. BAKER. I believe that the Senator from Kansas retained her right to the floor, is that correct?

Mrs. KASSEBAUM. I yielded to the Senator from Nebraska without losing my right to the floor.

Mr. BAKER. Does the Senator from Kansas have the floor at this time?

The PRESIDING OFFICER. The Senator from Kansas has the floor.

Mr. BAKER. Mr. President, may I inquire of the Senator if she would be prepared now to yield the floor so I may attempt to gain recognition in order to proceed with the next step?

Mrs. KASSEBAUM. Mr. President, I shall be happy to yield to the majority leader.

The PRESIDING OFFICER. Does the Chair understand that that is in the form of a unanimous-consent request?

Mr. BAKER. No, Mr. President, she yielded the floor.

The PRESIDING OFFICER. The Senator yielded the floor.

The Senator from Tennessee is recognized.

Mr. BAKER. Mr. President, I am authorized by the Committee on Finance to withdraw the committee amendment.

The committee amendment was withdrawn.

UP AMENDMENT NO. 1440

(Purpose: To improve the Nation's surface transportation system)

Mr. BAKER. Mr. President, I send to the desk a complete substitute.

Mr. HUMPHREY. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator from Tennessee has the right to yield for a parliamentary inquiry. The Senator from Tennessee has the floor.

Mr. ROBERT C. BYRD. Mr. President, if the Senator from Tennessee sends to the desk an amendment, I be-

lieve he loses the floor. He can regain it, but he loses it.

Mr. BAKER. Mr. President, I send the amendment to the desk.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Tennessee (Mr. BAKER), for himself, Mr. DOLE, Mr. STAFFORD, Mr. GARN, and Mr. PACKWOOD, proposes an unprinted amendment numbered 1440.

The text of the amendment follows:

Amendment in the Nature of a substitute intended to be proposed by Mr. BAKER (for himself, Mr. DOLE, Mr. STAFFORD, Mr. GARN, and Mr. PACKWOOD)

Strike out all after the enacting clause and insert the following:

That this Act may be cited as the "Surface Transportation Act of 1982".

TITLE I—HIGHWAY REVENUE ACT OF 1982

Subtitle A—Short Title; Table of Contents; Amendment of 1954 Code

SEC. 101. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This title may be cited as the "Highway Revenue Act of 1982".

(b) TABLE OF CONTENTS.—

TITLE I—HIGHWAY REVENUE ACT OF 1982

Subtitle A—Short Title; Table of Contents; Amendment of 1954 Code

Sec. 101. Short title; table of contents.
Sec. 102. Amendment of 1954 Code.

Subtitle B—Tax Changes

Sec. 111. Motor fuel taxes.
Sec. 112. Excise tax on heavy trucks.
Sec. 113. Heavy truck use tax.
Sec. 114. Taxes on heavy truck tires.
Sec. 115. Tax on synthetic lubricating oil.

Sec. 117. Treatment of certain motor carrier operating authorities acquired by taxpayers other than corporations.
Sec. 118. Extension of payment due date for certain fuel taxes.

Subtitle C—Floor Stocks Provisions

Sec. 121. Floor stocks taxes.
Sec. 122. Floor stocks refunds.
Sec. 123. Definitions and special rules.

Subtitle D—Highway Trust fund; Mass Transit Account

Sec. 131. Extension of Highway Trust Fund.
Sec. 132. Mass Transit Account.

SEC. 102. AMENDMENT OF 1954 CODE.

Except as otherwise expressly provided therein, whenever in subtitle B an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

Subtitle B—Tax Changes

SEC. 111. MOTOR FUEL TAXES.

(a) Taxes on Gasoline, Diesel Fuel, and Special Motor Fuels Increased From 4 Cents a Gallon to 9 Cents a Gallon.—

(1) GASOLINE TAX.—Subsection (a) of section 4081 (relating to tax on gasoline) is amended by striking out "4 cents a gallon" and inserting in lieu thereof "9 cents a gallon".

(2) DIESEL FUEL AND SPECIAL MOTOR FUELS.—Section 4041 (relating to tax on diesel fuel and special motor fuels) is amended by striking out subsections (a) and (b) and inserting in lieu thereof the following:

"(a) DIESEL FUEL AND SPECIAL MOTOR FUELS.—

"(1) DIESEL FUEL.—There is hereby imposed a tax of 9 cents a gallon on any liquid (other than any product taxable under section 4081)—

"(A) sold by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle for use as a fuel in such vehicle, or

"(B) used by any person as a fuel in a diesel-powered highway vehicle unless there was a taxable sale of such liquid under subparagraph (A).

"(2) SPECIAL MOTOR FUELS.—There is hereby imposed a tax of 9 cents a gallon on benzol, benzene, naphtha, liquefied petroleum gas, casing head and natural gasoline, or any other liquid (other than kerosene, gas oil, or fuel oil, or any product taxable under section 4081 or paragraph (1) of this subsection)—

"(A) sold by any person to an owner, lessee, or other operator of a motor vehicle or motorboat for use as a fuel in such motor vehicle or motorboat, or

"(B) used by any person as a fuel in a motor vehicle or motorboat unless there was a taxable sale of such liquid under subparagraph (A)."

(b) EXEMPTION FOR METHANOL AND ETHANOL FUELS.—

(1) IN GENERAL.—Section 4041 is amended by adding at the end of the subsection (b) inserted by subsection (c) of this section the following new paragraph:

"(2) QUALIFIED METHANOL AND ETHANOL FUEL.—

"(A) IN GENERAL.—No tax shall be imposed by subsection (a) on any qualified methanol or ethanol fuel.

"(B) QUALIFIED METHANOL OR ETHANOL FUEL.—The term 'qualified methanol or ethanol fuel' means any liquid at least 85 percent of which consists of methanol, ethanol. or other alcohol produced from a substance other than petroleum or natural gas.

"(C) TERMINATION.—On and after October 1, 1989, subparagraph (A) shall not apply."

(2) COORDINATION WITH CREDIT.—Subsection (c) of section 44E (relating to coordination of credit for alcohol used as a fuel with exemption from excise tax) is amended by striking out "section 4041(k) or 4081(c)" and inserting in lieu thereof "subsection (b)(2) or (k) of section 4041 or section 4081(c)".

(c) EXEMPTION FOR OFF-HIGHWAY BUSINESS USE.—

(1) GASOLINE.—Subsection (a) of section 6421 (relating to nonhighway use of gasoline) is amended by striking out the first sentence and inserting in lieu thereof the following: "Except as provided in subsection (i), if gasoline is used in an off-highway business use, the Secretary shall pay (without interest) to the ultimate purchaser of such gasoline an amount equal to the amount determined by multiplying the number of gallons so used by the rate at which tax was imposed on such gasoline under section 4081."

(2) DIESEL FUEL AND SPECIAL MOTOR FUELS.—Section 4041 is amended by inserting after subsection (a) the following new subsection:

"(b) EXEMPTION FOR OFF-HIGHWAY BUSINESS USE: EXEMPTION FOR QUALIFIED METHANOL AND ETHANOL FUEL.—

"(1) EXEMPTION FOR OFF-HIGHWAY BUSINESS USE.—

"(A) IN GENERAL.—No tax shall be imposed by subsection (a) on liquid sold for use or used in an off-highway business use.

"(B) TAX WHERE OTHER USE.—If a liquid on which no tax was imposed by reason of subparagraph (A) is used otherwise than in an off-highway business use, a tax shall be imposed by paragraph (1)(B) or (2)(B) of subsection (a) (whichever is appropriate).

"(C) OFF-HIGHWAY BUSINESS USE DEFINED.—For purposes of this subsection, the term 'off-highway business use' has the meaning given to such term by section 6421(d)(2)."

(3) CLERICAL AMENDMENTS.—

(A) Subparagraphs (A) and (B) of section 6421(d)(2) are each amended by striking out "qualified business use" and inserting in lieu thereof "off-highway business use".

(B) The heading for paragraph (2) of section 6421(c) is amended by striking out "Qualified" and inserting in lieu thereof "Off-Highway".

(d) CREDIT FOR ALCOHOL USE AS A FUEL.—Section 44E (relating to alcohol used as a fuel) is amended—

(1) by striking out "40 cents" each place it appears and inserting in lieu thereof "90 cents", and

(2) by striking out "30 cents" each place it appears and inserting in lieu thereof "68 cents".

(e) USE IN CERTAIN TAXICABS.—

(1) IN GENERAL.—Paragraph (1) of section 6427(e) (relating to use in certain taxicabs) is amended by striking out "an amount equal to the aggregate amount of the tax imposed on such gasoline or fuel" and inserting in lieu thereof "an amount determined at the rate of 4 cents a gallon".

(2) EXTENSION OF REPAYMENT.—Paragraph (3) of section 6427(e) (relating to termination) is amended by striking out "December 31, 1982" and inserting in lieu thereof "September 30, 1984".

(3) SUSPENSION OF SHARED TRANSPORTATION REQUIREMENT.—Clause (ii) of section 6427(e)(2)(A) (relating to qualified taxicab services) is amended to read as follows:

"(ii) is not prohibited by company policy from furnishing (with the consent of the passengers) shared transportation.".

(4) STUDY.—The Secretary of the Treasury or his delegate shall conduct a study of the reduced rate of fuel taxes provided for taxicabs by section 6427(e) of the Internal Revenue Code of 1954. Not later than January 1, 1984, the Secretary shall transmit a report on the study conducted under the preceding sentence to the Congress, together with such recommendations as he may deem advisable.

(f) REFUND OF MOTOR FUEL TAXES TO AERIAL AND OTHER APPLICATORS OF AGRICULTURAL SUBSTANCES.—Paragraph (4) of section 6420(c) (defining use on a farm for farming purposes) is amended to read as follows:

"(4) CERTAIN FARMING USE OTHER THAN BY OWNER, ETC.—In applying paragraph (3)(A) to a use on a farm for any purpose described in paragraph (3)(A) by any person other than the owner, tenant, or operator of such farm—

"(A) the owner, tenant, or operator of such farm shall be treated as the user and ultimate purchaser of the gasoline, except that

"(B) if—

"(i) the person so using the gasoline is an aerial or other applicator of fertilizers or other substances and is the ultimate purchaser of the gasoline, and

"(ii) the person described in subparagraph (A) waives (at such time and in such form and manner as the Secretary shall prescribe) his right to be treated as the user and ultimate purchaser of the gasoline,

then subparagraph (A) of this paragraph shall not apply and the aerial or other applicator shall be treated as having used such gasoline on a farm for farming purposes."

(g) EXEMPTION FOR QUALIFIED COMMUTER HIGHWAY VEHICLES.—

(1) IN GENERAL.—Section 6421 (relating to gasoline used for certain non-highway purposes or by local transit systems) is amended by redesignating subsection (j) as subsection (k) and by inserting after subsection (i) the following new subsection:

"(j) QUALIFIED COMMUTER HIGHWAY VEHICLES.—

"(1) ALLOWANCE.—Except as provided in subsection (i), if gasoline is used in a qualified commuter highway vehicle while such vehicle is engaged in transporting individuals between their residences and their place of employment, the Secretary shall pay (without interest) to the ultimate purchaser of such gasoline an amount equal to the product of the number of gallons of gasoline so used multiplied by the rate at which tax was imposed on such gasoline by section 4081.

"(2) QUALIFIED COMMUTER HIGHWAY VEHICLE DEFINED.—For purposes of paragraph (1) the terms 'qualified commuter highway vehicle' means a commuter highway vehicle within the meaning of subparagraph (B) of section 46(c)(6), except that such subparagraph shall be applied—

"(A) without regard to clause (iii) or (iv) thereof, and

"(B) by substituting 'individuals' for 'the taxpayer's employees' in clause (ii).

"(3) TERMINATION.—This subsection shall not apply on and after October 1, 1989.".

(2) Section 6427 (relating to fuels not used for taxable purposes) is amended by redesignating subsection (k) as subsection (l) and by inserting after subsection (j) the following new subsection:

"(k) QUALIFIED COMMUTER HIGHWAY VEHICLE.—Except as provided in subsection (i), if any fuel on which tax is imposed by section 4041(a) is used by any person in a qualified commuter highway vehicle (within the meaning of section 6421(j)(2)) while such vehicle is engaged in transporting individuals between their residences and their place of employment, the Secretary shall pay (without interest) to such person an amount equal to the amount of the tax imposed on the sale of the fuel.".

(3) CONFORMING AMENDMENTS.—

(A) The heading for section 6421 is amended by inserting ", QUALIFIED COMMUTER HIGHWAY VEHICLES," after "PURPOSES".

(B) The table of sections for subchapter (B) of chapter 65 is amended by inserting ", qualified commuter highway vehicles," after "purposes" in the item relating to section 6421.

(h) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) GASOLINE USED IN NONCOMMERCIAL AVIATION.—Paragraph (3) of section 4041(c) (relating to noncommercial aviation) is amended to read as follows:

"(3) RATE OF TAX.—The rate of tax imposed by paragraph (2) on any gasoline is the excess of 12 cents a gallon over the rate at which tax was imposed on such gasoline under section 4081."

(2) CONFORMING AMENDMENTS.—

(A) Paragraph (2) of section 6416(b) is amended by striking out "section 4041 (a)(1) or (b)(1)" and inserting in lieu thereof "paragraph (1)(A) or (2)(A) of section 4041(a)".

(B) Subsection (a) of section 6427 is amended by striking out "section 4041 (a), (b), or (c)" and inserting in lieu thereof "section 4041 (a) or (c)".

(C) Paragraph (1) of section 6427(b) is amended by striking out "subsection (a) or (b) of section 4041" each place it appears and inserting in lieu thereof "subsection (a) of section 4041".

(D) Subsection (c) of section 6427 is amended by striking out "section 4041 (a), (b) or (c)" and inserting in lieu thereof "section 4041 (a) or (c)".

(3) TARIFF ON ALCOHOL IMPORTED FOR USE AS A FUEL.—Item 901.50 of the Tariff Schedules of the United States (19 U.S.C. 1202) is amended by striking out "40¢ per gal." each place it appears and inserting in lieu thereof "90¢ per gal.".

(i) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall take effect on April 1, 1983.

(2) FOR SUBSECTION (A)(2).—The amendment made by subsection (e)(2) shall take effect on January 1, 1983.

(3) SHARED TRANSPORTATION REQUIREMENT.—The amendment made by subsection (e)(3) shall apply with respect to fuel purchased after December 31, 1982 and before January 1, 1984.

(4) TARIFF ON IMPORTED ALCOHOL.—The amendment made by subsection (h)(3) shall apply with respect to articles entered, or withdrawn from warehouse for consumption, after March 31, 1983.

SEC. 112. EXCISE TAX ON HEAVY TRUCKS.

(a) CHANGES IN EXISTING MANUFACTURERS EXCISE TAX.—

(1) INCREASE IN THRESHOLD WEIGHTS.—Paragraph (2) of section 4061(a) (relating to exclusion for light-duty trucks, etc.) is amended to read as follows:

"(2) EXCLUSION FOR TRUCKS WITH GROSS VEHICLE WEIGHT OF 33,000 POUNDS OR LESS, AND CERTAIN TRAILERS.—

"(A) The tax imposed by paragraph (1) shall not apply to automobile truck chassis and automobile truck bodies, suitable for use with a vehicle which has a gross vehicle weight of 33,000 pounds or less (as determined under regulations prescribed by the Secretary).

"(B) The tax imposed by paragraph (1) shall not apply to truck trailer and semitrailer chassis and bodies, suitable for use with a trailer or semitrailer which has a gross vehicle weight of 26,000 pounds or less (as determined under regulations prescribed by the Secretary)."

(2) INCREASE IN THRESHOLD WEIGHTS FOR PARTS.—

(A) IN GENERAL.—Section 4051(b) (relating to tax on parts and accessories) is amended by adding at the end thereof the following new paragraph:

"(3) EXCLUSION FOR TRUCKS WITH GROSS VEHICLE WEIGHT OF 33,000 POUNDS OR LESS.—No tax shall be imposed by paragraph (1) on any part or accessory which, as determined under regulations prescribed by the Secretary, is suitable for use, and ordinarily used on, or in connection with, a vehicle having a gross vehicle weight of 33,000 pounds or less.".

(B) CONFORMING AMENDMENT.—Paragraph (1) of section 4061(b) is amended by striking out "paragraph (2)" and inserting in lieu thereof "paragraphs (2) and (3)".

(3) EXEMPTION OF CERTAIN RAIL TRAILERS AND VANS.—Subsection (a) of section 4063 (relating to exemptions for specified articles) is amended by adding at the end thereof the following new paragraph:

"(8) RAIL TRAILERS AND RAIL VANS.—The tax imposed under section 4061 shall not apply in the case of—

"(A) any chassis or body of a trailer or semitrailer which is designed for use both as a highway vehicle and a railroad car, and

"(B) any parts or accessories designed primarily for use on or in connection with an article described in subparagraph (A).

For purposes of this paragraph, a piggyback trailer or semitrailer shall not be treated as designed for use as a railroad car.".

(4) TERMINATION OF TAX.—Subsection (a) of section 4061 (relating to trucks, buses, tractors) is amended by adding at the end thereof the following paragraph:

"(3) TERMINATION.—The tax imposed by this subsection shall not apply on and after April 1, 1983.".

(5) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the day after the date of the enactment of this Act.

(b) INCREASE IN PARTS TAX.—

(1) IN GENERAL.—Paragraph (1) of section 4051(b) (relating to tax on parts and accessories) is amended by striking out "8 percent of the prices for which so sold, except that on and after October 1, 1984, the rate shall be 5 percent" and insert in lieu thereof "12 percent of the price for which so sold, except that no tax shall be imposed under this paragraph on and after October 1, 1989".

(2) COORDINATION WITH RETAIL SALES TAX.—

(A) Subsection (e) of section 4221 (relating to certain tax-free sales) is amended by adding at the end thereof the following new paragraph:

"(5) TRUCK PARTS AND ACCESSORIES.—Under regulations prescribed by the Secretary, the tax imposed by section 4061(b) shall not apply to any part or accessory which is sold for resale by the purchaser on or in connection with the first retail sale by such purchaser of an article which is taxable under section 4051.".

(B) Paragraph (2) of section 6416(b) (relating to special cases in which tax payments considered overpayments) is amended—

(i) by striking out "or" at the end of subparagraph (M),

(ii) by striking out the period at the end of subparagraph (N) and inserting in lieu thereof "; or", and

(iii) by inserting after subparagraph (N) the following new subparagraph:

"(O) resold on or in connection with the first retail sale of an article which was taxable under section 4051.".

(3) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on April 1, 1983.

(c) IMPOSITION OF RETAIL TAX ON SALE OF HEAVY TRUCKS AND TRAILERS.—

(1) IN GENERAL.—Chapter 31 is amended by adding at the end thereof the following new subchapter:

"Subchapter B—Heavy Trucks and Trailers

"Sec. 4051. Imposition of tax on heavy trucks and trailers sold at retail.

"Sec. 4052. Definitions and special rules.

"Sec. 4053. Exemptions.

"Sec. 4051. Imposition of tax on heavy trucks and trailers sold at retail.

"(a) IMPOSITION OF TAX.—

"(1) IN GENERAL.—There is hereby imposed on the first retail sale of the following articles (including in each case parts or accessories sold on or in connection therewith or with the sale thereof) a tax of 12 percent of the amount for which the article is so sold:

"(A) Automobile truck chassis.

"(B) Automobile truck bodies.

"(C) Truck trailer and semitrailer chassis.

"(D) Truck trailer and semitrailer bodies.

"(E) Tractors of the kind chiefly used by highway transportation in combination with a trailer or semitrailer.

"(2) EXCLUSION FOR TRUCKS WEIGHTING 33,000 POUNDS OR LESS.—The tax imposed by paragraph (1) shall not apply to automobile truck chassis and automobile truck bodies, suitable for use with a vehicle which has a gross vehicle weight of 33,000 pounds or less (as determined under regulations prescribed by the Secretary).

"(3) EXCLUSION FOR TRAILERS WEIGHING 26,000 POUNDS OR LESS.—The tax imposed by paragraph (1) shall not apply to truck trailer and semitrailer chassis and bodies, suitable for use with a trailer or semitrailer which has a gross vehicle weight of 26,000 pounds or less (as determined under regulations prescribed by the Secretary).

"(4) SALE OF TRUCKS, ETC., TREATED AS SALE OF CHASSIS AND BODY.—For purposes of this subsection, a sale of an automobile truck or truck trailer or semitrailer shall be considered to be a sale of a chassis and of a body described in paragraph (1).

"(b) TERMINATION.—On and after October 1, 1989, the taxes imposed by this section shall not apply.

"(c) TRANSITIONAL RULE.—In the case of any article taxable under subsection (a) on which tax was paid under section 4061(a), subsection (a) shall be applied by substituting '2 percent' for '12 percent'.

"SEC. 4052. DEFINITIONS AND SPECIAL RULES.

"(A) FIRST RETAIL SALE.—For purposes of this subchapter—

"(1) IN GENERAL.—The term 'first retail sale' means the first sale, for a purpose other than for resale, after manufacture, production, or importation.

"(2) LEASES CONSIDERED AS SALES.—Rules similar to the rules of section 4217 shall apply.

"(3) USE TREATED AS SALE.—

"(A) IN GENERAL.—If any person uses an article taxable under section 4051 before the first retail sale of such article, then such person shall be liable for tax under section 4051 in the same manner as if such article were sold at retail by him.

"(B) EXEMPTION FOR USE IN FURTHER MANUFACTURE.—Subparagraph (A) shall not apply to use of an article as material in the manufacture or production of, or as a component part of, another article taxable under section 4051 to be manufactured or produced by him.

"(C) COMPUTATION OF TAX.—In the case of any person made liable for tax by subparagraph (A), the tax shall be computed on the price at which similar articles are sold at retail in the ordinary course of trade, as determined by the Secretary.

"(b) DETERMINATION OF PRICE.—

"(1) IN GENERAL.—In determining price for purposes of this subchapter—

"(A) there shall be included any charge incident to placing the article in conditions ready for use,

"(B) there shall be excluded—

"(i) the amount of the tax imposed by this subchapter,

"(ii) if stated as a separate charge, the amount of any retail sales tax imposed by any State or political subdivision thereof or the District of Columbia, whether the liability for such tax is imposed on the vendor or vendee, and

"(iii) the fair market value (including any tax imposed by section 4071) at retail of any tires (not including any metal rim or rim base), and

"(C) the price shall include the value of any trade-in.

"(2) SALES NOT AT ARM'S LENGTH.—In the case of any article sold (otherwise than through an arm's-length transaction) at less than the fair market price, the tax under this subchapter shall be computed on the price for which similar articles are sold at retail in the ordinary course of trade, as determined by the Secretary.

"(c) CERTAIN COMBINATIONS NOT TREATED AS FURTHER MANUFACTURE.—For purposes of this subchapter (other than subsection (a)(3)(B)), a person shall not be treated as engaged in the manufacture of any article merely by reason of combining such article with an item described in section 4063(d).

"(c) CERTAIN OTHER RULES MADE APPLICABLE.—Under regulations prescribed by the Secretary, rules similar to the rules of—

"(1) subsections (c) and (d) of section 4216 (relating to partial payments),

"(2) subsection (f) of section 4216 (relating to certain trucks incorporating used components), and

"(3) section 4222 (relating to registration), shall apply for purposes of this subchapter.

"SEC. 4053. EXEMPTIONS.

"(a) EXEMPTION OF SPECIFIED ARTICLES.—No tax shall be imposed under section 4051 on any article specified in subsection (a) of section 4063.

"(b) CERTAIN EXEMPTIONS MADE APPLICABLE.—The exemptions provided by section 4221(a) are hereby extended to the tax imposed by section 4051."

(2) TECHNICAL AND CONFORMING AMENDMENTS.—

(A) Chapter 31 is amended by striking out the chapter heading and inserting in lieu thereof the following:

"CHAPTER 31—RETAIL EXCISE TAXES

"Subchapter A. Special fuels.
"Subchapter B. Heavy trucks and trailers.

"Subchapter A—Special Fuels".

(B) The table of chapters for subtitle D is amended by striking out the item relating to chapter 31 and inserting in lieu thereof the following new item:

"Chapter 31. Retail excise taxes.".

(C) Paragraph (2) of section 6415(b), as amended by this Act, is amended by inserting "or under section 4051" after "section 4041(a)".

(D) Paragraph (1) of section 6416(a) is amended by striking out "chapter 31 (special fuels)" and inserting in lieu thereof "chapter 31 (relating to retail excise taxes)".

(3) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on April 1, 1983.

SEC. 113. HEAVY TRUCK USE TAX.

(a) Increase in Rate of Tax.—Subsection (a) of section 4481 (relating to imposition of tax) is amended to read as follows:

"(a) Imposition of Tax.—A tax is hereby imposed on the use of any highway motor vehicle which (together with the semitrailers and trailers customarily used in connection with highway motor vehicles of the same type as such highway motor vehicle) has a taxable gross weight of at least 33,000 pounds in an amount determined under the following table:

"If the taxable gross weight is:	The amount of tax per taxable period is:
At least 33,000 pounds but less than 55,000 pounds.	$80, plus $10 for each 1,000 pounds or fraction thereof in excess of 33,000 pounds.
At least 55,000 pounds but less than 80,000 pounds.	$300, plus $52 for each 1,000 pounds or fraction thereof in excess of 55,000 pounds.
80,000 pounds or more	$1,600."

(b) EXEMPTION WHERE TRUCK USED FOR 5,000 MILES OR LESS ON PUBLIC HIGHWAYS.—Section 4483 (relating to exemptions from highway use tax) is amended by adding after subsection (c) thereof the following new subsection:

"(d) EXEMPTION FOR TRUCKS USED FOR 5,000 MILES OR LESS ON PUBLIC HIGHWAYS.—

"(1) SUSPENSION OF TAX.—

"(A) IN GENERAL.—If—

"(i) it is reasonable to expect that the use of any highway motor vehicle on public highways during any taxable period will be 5,000 miles or less, and

"(ii) the owner of such vehicle furnishes such information as the Secretary may by forms or regulations require with respect to the expected use of such vehicle,

then the collection of the tax imposed by section 4481 with respect to the use of such vehicle shall be suspended during the taxable period.

"(B) SUSPENSION CEASES TO APPLY WHERE USE EXCEEDS 5,000 MILES.—Subparagraph (A) shall cease to apply with respect to any highway motor vehicle whenever the use of such vehicle on public highways during the taxable period exceeds 5,000 miles.

"(2) EXEMPTION.—If—

"(A) the collection of the tax imposed by section 4481 with respect to any highway motor vehicle is suspended under paragraph (1),

"(B) such vehicle is not used during the taxable period on public highways for more than 5,000 miles, and

"(C) except as otherwise provided in regulations, the owner of such vehicle furnishes such information as the Secretary may require with respect to the use of such vehicle during the taxable period, then no tax shall be imposed by section 4481 on the use of such vehicle for the taxable period.

"(3) REFUND WHERE TAX PAID AND VEHICLE NOT USED FOR MORE THAN 5,000 MILES.—If—

"(A) the tax imposed by section 4481 is paid with respect to any highway motor vehicle for any taxable period, and

"(B) the requirements of subparagraphs (B) and (C) of paragraph (2) are met with respect to such taxable period,

the amount of such tax shall be credited or refunded (without interest) to the person who paid such tax.

"(4) OWNER DEFINED.—For purposes of this subsection, the term 'owner' means, with respect to any highway motor vehicle, the person described in section 4481(b)."

(c) CLARIFICATION OF TRAILERS CUSTOMARILY USED IN CONNECTION WITH HIGHWAY MOTOR VEHICLES.—

(1) IN GENERAL.—Subsection (c) of section 4482 is amended by adding at the end thereof the following new paragraph:

"(5) CUSTOMARY USE.—A semitrailer or trailer shall be treated as customarily used in connection with a highway motor vehicle if such vehicle is equipped to tow such semitrailer or trailer."

(2) CONFORMING AMENDMENT.—The heading for subsection (c) of section 4482 is amended by inserting "and Special Rule" after "Definitions".

(d) SPECIAL RULE FOR TAXABLE PERIOD IN WHICH TERMINATION DATE OCCURS.—Section 4482 is amended by adding at the end thereof the following new subsection:

"(d) SPECIAL RULE FOR TAXABLE PERIOD IN WHICH TERMINATION DATE OCCURS.—In the case of the taxable period which ends on September 30, 1989, the amount of the tax imposed by section 4481 with respect to any highway motor vehicle shall be determined by reducing each dollar amount in the table contained in section 4481(a) by 75 percent."

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section shall take effect on January 1, 1984.

(2) SHORT TAXABLE PERIODS.—For purposes of subchapter D of chapter 36 of the Internal Revenue Code of 1954—

(A) the period beginning on July 1, 1983, and ending on December 31, 1983, and

(B) the period beginning on January 1, 1984, and ending on June 30, 1984,

shall each be treated as a taxable period.

(3) TRANSITIONAL RULE FOR FIRST SHORT PERIOD.—In the case of the taxable period beginning on July 1, 1983, the tax imposed by section 4481(a) of such Code with respect to the use of any highway motor vehicle shall be determined by substituting "$1.50 for the taxable period" for "$3.00 a year" in such section 4481(a).

(4) TRANSITIONAL RULE FOR SECOND SHORT PERIOD.—In the case of the taxable period beginning on January 1, 1984—

(A) the amount of the tax imposed by section 4481(a) of such Code (as amended by this section) on the use of any highway motor vehicle shall be an amount equal to the sum of—

(i) one-sixth of the amount of the tax imposed by such section (determined without regard to this paragraph), plus

(ii) one dollar multiplied by the number of thousands of pounds (or fraction thereof) in the gross weight of such vehicle, and

(B) subsection (d) of section 4483 of such Code (as amended by this section) shall be applied by substituting "2,500" for "5,000" each place it appears.

(5) TRANSITIONAL RULE FOR THE TAXABLE PERIOD BEGINNING ON JULY 1, 1984.—In the case of the taxable period beginning on July 1, 1984, the amount of the tax imposed by section 4481(a) of such Code (as amended by this section) on the use of any highway motor vehicle shall be an amount equal to the sum of—

(A) two-thirds of the amount of the tax imposed by such section (determined without regard to this paragraph), plus

(B) one dollar multiplied by the number of thousands of pounds (or fraction thereof) in the gross weight of such vehicle.

(6) Coordination with installment payment of tax.—

(A) The Secretary of the Treasury or his delegate shall by forms or regulation provide for appropriate adjustments in the application of section 6156 of such Code with respect to the taxable periods referred to in paragraph (2).

(B) For purposes of subparagraph (A)—

(i) there shall be substituted for the table appearing in section 6156(a) of such Code the following table:

"If liability is incurred in—	The number of installments shall be—
July, August, September, January, February, or March.	2",

and

(ii) in lieu of subsection (e) of such section 6155, section 6156 shall not apply to any liability for tax incurred in October, November, December, April, May, or June.

(f) STUDY OF ALTERNATIVES TO TAX ON USE OF HEAVY TRUCKS.—

(1) IN GENERAL.—The Secretary of Transportation (in consultation with the Secretary of Treasury) shall conduct a study of—

(A) alternatives to the tax on heavy vehicles imposed by section 4491(a) of the Internal Revenue Code of 1954, and

(B) plans for improving the collecting and enforcement of such tax and alternatives to such tax.

(2) ALTERNATIVE INCLUDED.—The alternatives studied under paragraph (1) shall include taxes based either singly or in suitable combinations on vehicle size or configuration; vehicle weight, both registered and actual operating weight; and distance traveled. Plans for improving tax collection and enforcement shall, to the extent practical, provide for Federal and State cooperation in such activities.

(3) CONSULTATION WITH STATE OFFICIALS AND OTHER AFFECTED PARTIES.—The study required under subsection (a) shall be conducted in consultation with State officials, motor carriers, and other affected parties.

(4) REPORT.—Not later than January 1, 1985, the Secretary of Transportation shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report on the study conducted under paragraph (1) together with such recommendations as he may deem advisable.

SEC. 114. TAXES ON TIRES, INNER TUBES, AND TREAD RUBBER.

(a) GENERAL RULE.—Subsection (a) of section 4071 (relating to imposition and rate of tax on tires and tubes) is amended to read as follows:

"(a) IMPOSITION AND RATE OF TAX.—There is hereby imposed on the following articles, if wholly or in part made of rubber, sold by the manufacturer, producer, or importer, a tax at the following rates:

"(1) Tires of the type used on highway vehicles, at the rate determined under the following table:

If the tire weighs:	The rate of tax is:
50 lbs. or less	9.75 cents per lb.
More than 50 lbs. but not more than 100 lbs.	$4.875 plus 15 cents per lb. for each lb. in excess of 50 lbs.
More than 100 lbs	$12.375 plus 25 cents per lb. for each lb. in excess of 100 lbs.

"(2) Inner tubes for tires, 10 cents per pound.

"(3) Tread rubber, at the rate determined under the following table with respect to the tire on which the tread rubber is used:

If such tire weighs:	The rate of tax is:
50 lbs. or less	5 cents per lb.
More than 50 lbs. but not more than 100 lbs.	8 cents per lb.
More than 100 lbs.	16 cents per lb.".

(b) TECHNICAL AND CLERICAL AMENDMENTS.—

(1) Subsection (b) of section 4218 is amended by striking out "Except as provided in subsection (d), if" and inserting in lieu thereof "If".

(2) Section 4218 is amended by striking out subsection (d) and by redesignating subsection (e) as subsection (d).

(3) Subsection (a) of section 4218 is amended by striking out "(b), (c), or (d)" and inserting in lieu thereof "(b) or (c)".

(4) Subsection (e) of section 4221 is amended by striking out paragraph (4) and by redesignating paragraphs (5) and (6) as paragraphs (3) and (4), respectively.

(5) Paragraph (3) of section 4221(e), as redesignated by paragraph (4), is amended—

(A) by striking out "(3)" in subparagraph (A) and inserting in lieu thereof "(2)", and

(B) by striking out "paragraph (4)" in subparagraph (3) and inserting in lieu thereof "paragraph (3)".

(6) Paragraph (1) of section 6412(a) is amended—

(A) by striking out "4271(a) (1), (3), or (4)" and inserting in lieu thereof "4071(a) (1), (2), or (3)", and

(B) by striking out the last sentence.

(7) Subparagraph (A) of section 6412(a)(2) is amended by striking out "section 4071(a)(2) is amended by striking out "section 4071(a)(4)" and inserting in lieu thereof "section 4071(a)(3)".

(8) Subparagraph (G) of section 6416(b)(2) is amended—

(A) by striking out "section 4071(a)(4)" and inserting in lieu thereof "section 4071(a)(3)"

(B) by striking out "or" at the end of clause (iii),

(C) by adding "or" at the end of clause (iv), and

(D) by inserting after clause (iv) the following new clause:

"(v) used, or sold for use, in the recapping or retreading of a tire which weighs less than the weight of the tire with respect to which such tax was imposed,".

(9) Subparagraph (L) of section 6416(b)(2) is amended to read as follows:

"(L) in the case of any tire or inner tube taxable under paragraph (1) or (2) of section 4071(a), sold to any person for use as described in section 4221(e)(3)(A);".

(10) Subparagraph (M) of section 6416(b)(2) is amended by striking out "paragraph (4)" and inserting in lieu thereof "paragraph (3)".

(11) Subparagraoh (D of section 6416(b)(3) is amended by striking out "section 4071(a)(4)" and inserting in lieu thereof "section 4071(a)(3)".

(12) Paragraph (3) of section 6416(b) is amended by striking out subparagraph (E), by adding "or" at the end of subparagraph (D), and by redesignating subparagraph (F) as subparagraph (E).

(13) Subparagraph (A) of section 6416(b)(4) is amended by striking out "section 4071(a)(4)" and inserting in lieu thereof "section 4071(a)(3)".

(14) Paragraph (3) of section 9502 (b) is amended—

(A) by adding "and" at the end of paragraph (1),

(B) by striking out "; and " at the end of paragraph (2) and inserting in lieu thereof a period, and

(C) by striking out paragraph (3).

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to articles sold on or after April 1, 1983.

SEC. 115. TAX ON SYNTHETIC LUBRICATING OIL.

(a) IN GENERAL.—Section 4092 (relating to definitions) is amended by adding at the end thereof the following new subsection:

"(c) SYNTHETIC LUBRICATING OILS.—For purposes of this subpart, the term 'lubricating oil' includes any synthetic lubricating oil.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply with respect to articles sold after the date of the enactment of this Act.

SEC. 116. PERIOD TAXES AND EXEMPTIONS IN EFFECT.

(a) PERIOD TAXES IN EFFECT.—

(1) SPECIAL FUELS TAX.—

(A) Subsection (a) of section 4041 (as amended by this Act) is amended by adding at the end thereof the following new paragraph:

"(3) TERMINATION.—On and after October 1, 1989, the taxes imposed by this subsection shall not apply."

(B) Subsection (e) of section 4041 is hereby repealed.

(2) TIRES AND TREAD RUBBER.—Subsection (d) of section 4071 is amended to read as follows:

"(d) Termination.—On and after October 1, 1989, the taxes imposed by subsection (a) shall not apply."

(3) GASOLINE.—Subsection (b) of section 4081 is amended to read as follows:

"(b) TERMINATION.—On and after October 1, 1989, the taxes imposed by this section shall not apply."

(4) HIGHWAY USE TAX.—Sections 4481(e) and 4482(c)(4) are each amended by striking out "1984" each place it appears and inserting in lieu thereof "1989".

(5) FLOOR STOCKS TAXES.—Paragraph (1) of section 6412(a) (relating to floor stocks refunds) is amended—

(A) by striking out "1985" each place it appears and inserting in lieu thereof "1990" and

(B) by striking out "1984" each place it appears and inserting in lieu thereof "1989".

(6) OTHER PROVISIONS.—Paragraph (2) of section 6156(e) (relating to installment payments of tax on use of highway motor vehicles) and subsection (h) of section 6421 (relating to tax on gasoline used for certain nonhighway purposes or by local transit systems) are each amended by striking out "1984" and inserting in lieu thereof "1989".

(b) TERMINATION OF EXEMPTIONS.—

(1)(A) Subsection (f) of section 4041 is amended by adding at the end thereof the following new paragraph:

"(3) TERMINATION.—On and after October 1, 1989, paragraph (1) shall not apply."

(B) Subsection (g) of section 4041 is amended by adding at the end thereof the following new sentence: "Paragraphs (2) and (4) shall not apply on and after October 1, 1989."

(2) Subsection (a) of section 4221 (relating to certain tax resales) is amended by adding at the end thereof the following new sentence: "In the case of taxes imposed by section 4051, 4061, 4071, or 4081, paragraphs (4) and (5) shall not apply on and after October 1, 1989."

(3) Section 4483 (relating to exemption for highway use tax) is amended by adding after subsection (d) thereof the following new subsection:

"(e) TERMINATION OF EXEMPTIONS.—Subsections (a) and (c) shall not apply on and after October 1, 1989."

(4) Section 6420 (relating to gasoline used on farms) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

"(h) TERMINATION.—This section shall apply only with respect to gasoline purchased before October 1, 1989."

(5) Section 6427 is amended by redesignating subsection (l) as subsection (m) and by inserting after subsection (k) the following new subsection:

"(l) TERMINATION OF SUBSECTIONS (a), (b), (c), AND (d).—Subsections (a), (b), (c), and (d) shall only apply with respect to fuels purchased before October 1, 1989."

SEC. 117. TREATMENT OF CERTAIN MOTOR CARRIER OPERATING AUTHORITIES ACQUIRED BY TAXPAYERS OTHER THAN CORPORATIONS.

(a) GENERAL RULE.—Paragraph (2) of section 266(c) of the Economic Recovery Tax Act of 1981 (relating to stock acquisitions of motor carrier operating authorities) is amended by redesignating subparagraph (B) as subparagraph (C) and by inserting after subparagraph (A) the following new subparagraph:

"(B) TREATMENT OF CERTAIN NONCORPORATE TAXPAYERS.—Under regulations prescribed by the Secretary of the Treasury or his delegate, and at the election of the holder of the authority, in any case in which—

:"(i) a noncorporate taxpayer or group of noncorporate taxpayers on or before July 1, 1980, acquired in one purchase stock in a corporation which held, directly or indirectly, any motor carrier operating authority at the time of such acquisition, and

"(ii) the acquisition referred to in clause (i) would have satisfied the requirements of subparagraph (A) if the stock had been acquired by a corporation,

then, for purposes of subparagraphs (A) and (C), the noncorporate taxpayer or group of noncorporate taxpayers referred to in clause (i) shall be treated as a corporation. The preceding sentence shall apply only if such noncorporate taxpayer (or group of noncorporate taxpayers) on July 1, 1980, held stock constituting control (within the meaning of section 368(c) of the Internal Revenue Code of 1954) of the corporation holding (directly or indirectly) the motor carrier operating authority."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years ending after July 30, 1980.

SEC. 118. EXTENSION OF PAYMENT DUE DATE FOR CERTAIN FUEL TAXES.

(a) IN GENERAL.—The Secretary shall prescribe regulations which permit any qualified oil jobber whose liability for tax under section 4081 of the Internal Revenue Code of 1954 is payable with respect to semi-monthly periods to pay such tax on or before the date which is 15 days after the close of such semi-monthly period if such payment is made by wire transfer to any government depository authorized under section 6302 of such Code.

(b) QUALIFIED OIL JOBBER DEFINED.—For purposes of this section—

(1) IN GENERAL.—the term "qualified oil jobber" means any wholesale distributor who—

(A) has made an election to be treated as a producer under section 4082(d) of such Code, and

(B) for the semi-monthly period, has sold 2,000,000 gallons or less of gasoline which is taxable under section 4081 of such Code.

(2) AGGREGATION OF SALES.—The sales of gasoline taxable under section 4081 of such Code of—

(A) all trades or businesses (whether or not incorporated) which are under common control with the distributor (within the meaning of section 52(b)), and

(B) all members of any controlled group of corporations of which the distributor is a member,

for any semi-monthly period shall be included in the sales of the distributor for such period. The Secretary shall prescribe regulations which provide attribution rules that take into account, in addition to the persons and entities described in the preceding sentence, taxpayers who engage in wholesale distribution of gasoline through partnerships, joint ventures, and corporations.

(3) CONTROLLED GROUP OF CORPORATIONS.—The term "controlled group of corporations" has the meaning given to such term by section 1563(a), except that—

(A) "more than 50 percent" shall be substituted for" at least 80 percent" each place it appears in section 1563(a)(1), and

(B) the determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of section 1563.

Subtitle C—Floor Stocks Provisions

SEC. 121. FLOOR STOCKS TAXES

(a) 1983 TAX ON GASOLINE.—On gasoline subject to tax under section 4051 which, on April 1, 1983, is held by a dealer for sale, there is hereby imposed a floor stocks tax at the rate of 5 cents a gallon.

(b) 1983 TAX ON TIRES AND TREAD RUBBER.—On any article which would be subject to tax under paragraph (1) or (2) of section 4071(a) if sold by the manufacturer, producer, or importer on or after April 1, 1983, which on April 1, 1983, is held by a dealer and has not been used and is intended for sale, there shall be imposed a floor stocks tax equal to the product of—

(1) the number of pounds, multipled by

(2) the excess of the rate in effect under section 4071(a) on April 1, 1983, over such rate in effect on March 31, 1983.

In the case of tread rubber, the tax imposed by this subsection shall not apply in the case of any person if such person establishes, to the satisfaction of the Secretary of the Treasury or his delegate, that all tread rubber held by him on April 1, 1983, will be used otherwise than in the recapping or retreading of tires which are of the type used on highway vehicles (as defined in section 4072(c)) and which weigh more than 50 pounds.

(c) 1983 TAX ON TRUCK PARTS AND ACCESSORIES.—On any article which would be subject to tax under section 4061(b) if sold by the manufacturer, producer, or importer, on or after April 1, 1983, which on April 1, 1983, is held by a dealer and has not been used and is intended for sale, there shall be imposed a floor stocks tax equal to 4 percent of 90 percent of the price for which the dealer purchased such article.

(d) TAX ON SYNTHETIC LUBRICATING OILS.—On any synthetic lubricating oil which would be subject to tax under section 4091(b) if sold by the manufacturer, producer, or importer, on or after the date of the enactment of this Act (and on which no tax was imposed on or before such date), which on such date of enactment is held by a dealer and has not been used and is intended for sale, there shall be imposed a floor stocks tax equal to six cents per gallon.

(e) OVERPAYMENT OF FLOOR STOCKS TAXES.—Section 6416 shall apply in respect to the floor stocks taxes imposed by this section, so as to entitle, subject to all provisions of section 6416, any person paying such floor stocks taxes to a credit or refund

thereof for any of the reasons specified in section 6416.

(f) DUE DATE OF TAXES.—The taxes imposed by this section shall be paid at such time after May 15, 1983, as may be prescribed by the Secretary of the Treasury or his delegate.

(g) TRANSFER OF FLOOR STOCKS TAXES TO HIGHWAY TRUST FUND.—For purposes of determining the amount transferred to the Highway Trust Fund for any period, the taxes imposed by this section shall be treated as if they were imposed by section 4061, 4071, 4081, or 4091 of the Internal Revenue Code of 1954, whichever is appropriate.

SEC. 122. FLOOR STOCKS REFUNDS

(a) GENERAL RULE.—

(1) IN GENERAL.—Where, before the day after the date of the enactment of this Act, any tax-repealed article has been sold by the manufacturer, producer, or importer and on such day is held by a dealer and has been used and is intended for sale, there shall be credited or refunded (without interest) to the manufacturer, producer, or importer an amount equal to the tax paid by such manufacturer, producer, or importer on his sale of the article if—

(A) claim for such credit or refund is filed with the Secretary of the Treasury or his delegate on or before October 1, 1983, based on a request submitted to the manufacturer, producer, or importer before July 1, 1983, by the dealer who held the article in respect of which the credit or refund is claimed, and

(B) on or before October 1, 1983, reimbursement has been made to the dealer by the manufacturer, producer, or importer in an amount equal to the tax paid on the article or written consent has been obtained from the dealer to allowance of the credit or refund.

(2) LIMITATION ON ELIGIBILITY FOR CREDIT OR REFUND.—No manufacturer, producer, or importer shall be entitled to credit or refund under paragraph (1) unless he has in his possession such evidence of the inventories with respect to which the credit or refund is claimed as may be required by regulations prescribed by the Secretary of the Treasury or his delegate under this subsection.

(3) OTHER LAWS APPLICABLE.—All provisions of law, including penalties, applicable with respect to the taxes imposed by section 4061 or 4071 (whichever is appropriate) shall, insofar as applicable and not inconsistent with paragraphs (1) and (2) of this subsection, apply in respect of the credits and refunds provided for in paragraph (1) to the same extent as if the credits or refunds constituted overpayments of the tax.

(b) REFUNDS WITH RESPECT TO CERTAIN CONSUMER PURCHASES OF TRUCKS AND TRAILERS.—

(1) IN GENERAL.—Except as otherwise provided in paragraph (2), where after November 28, 1982, and before the day after the date of the enactment of this Act, a tax-repealed article on which tax was imposed by section 4061(a) has been sold to an ultimate purchaser, there shall be credited or refunded (without interest) to the manufacturer, producer, or importer of such article an amount equal ot the tax paid by such manufacturer, producer, or importer on his sale of the article.

(2) LIMITATION OF ELIGIBILITY FOR CREDIT OR REFUND.—No manufacturer, producer, or importer shall be entitled to a credit or refund under paragraph (1) with respect to an article unless—

(A) he has in his possession such evidence of the sale of the article to an ultimate purchaser, and of the reimbursement of the tax to such purchaser, as may be required by regulations prescribed by the Secretary of the Treasury or his delegate under this subsection,

(B) claim for such credit or refund is filed with the Secretary of the Treasury or his delegate on or before October 1, 1983, based on information submitted to the manufacturer, producer, or importer before July 1, 1983, by the person who sold the article (in respect of which the credit or refund is claimed) to the ultimate purchaser, and

(C) on or before October 1, 1983, reimbursement has been made to the ultimate purchaser in an amount equal to the tax paid on the article.

(3) OTHER LAWS APPLICABLE.—All provisions of law, including penalties, applicable with respect to the taxes imposed by section 4061(a) shall, insofar as applicable and not inconsistent with paragraph (1) or (2) of this subsection, apply in respect of the credits and refunds provided for in paragraph (1) to the same extent as if the credits or refunds constituted overpayments of the tax.

(c) CERTAIN USES BY MANUFACTURER, ETC.—In the case of any article which was subject to the tax imposed by section 4061(a) (as in effect on the day before the date of the enactment of this Act), any tax paid by reason of section 4218(a) (relating to use by manufacturer or importer considered sale) with respect to a tax-repealed article shall be deemed to be an overpayment of such tax if tax was imposed on such article after, November 28, 1982, by reason of section 4218(a).

(d) TRANSFER OF FLOOR STOCKS REFUNDS FROM HIGHWAY TRUST FUND.—The Secretary of the Treasury shall pay from time to time from the Highway Trust Fund into the general fund of the Treasury amounts equivalent to the floor stocks refunds made under this section.

SEC. 123. DEFINITIONS AND SPECIAL RULES.

(a) IN GENERAL.—For purposes of this subtitle—

(1) The term "dealer" includes a wholesaler, jobber, distributor, or retailer.

(2) An article shall be considered as "held by a dealer" if title thereto has passed to such dealer (whether or not delivery to him has been made) and if for purposes of consumption title to such article or possession thereof has not at any time been transferred to any person other than a dealer.

(3) The term "tax-repealed article" means any article on which a tax was imposed by section 4061(a) or 4061(b) as in effect on the day before the date of the enactment of this Act, and which will not be subject to tax under section 4061(a) or 4061(b) as in effect on the day after the date of the enactment of this Act.

(4) Except as otherwise expressly provided herein, any reference in this subtitle to a section or other provision shall be treated as a reference to a section or other provision of the Internal Revenue Code of 1954.

(b) 1983 Extension of Floor Stocks Refund to Tires.—

(1) IN GENERAL.—In the case of an article on which a tax was imposed by section 4071(a) as in effect on March 31, 1983, and which will not be subject to tax under such section as in effect on April 1, 1983, such article shall be treated as a tax-repealed article for purposes of subsection (a) of section 522.

(2) ALLOWANCE OF REFUND.—In the case of a tax-repealed article to which paragraph (1) applies, subsection (a) of section 522 shall be applied by treating March 31, 1983, as the date of the enactment of this Act.

Subtitle D—Highway Trust Fund; Mass Transit Account

SEC. 131. EXTENSION OF HIGHWAY TRUST FUND.

(a) EXTENSION.—Subsections (c) and (f) (3), (4), (6), and (7) of section 209 of the Highway Revenue Act of 1956 (23 U.S.C. 120 note) are amended as follows:

(1) by striking "October 1, 1984" each place it appears and inserting in lieu thereof "October 1, 1989", and

(2) by striking "September 30, 1984", each place it appears and inserting in lieu thereof "September 30, 1989", and

(3) by striking "July 1, 1985" each place it appears and inserting in lieu thereof "July 1, 1990".

(b) CONFORMING AMENDMENTS.—

(1) MANAGEMENT OF TRUST FUND.—Subsection (e)(1) of section 209 of the Highway Revenue Act of 1956 is amended by striking "Commerce" and inserting in lieu thereof "Transportation", and by striking "up to and including the fiscal year ending September 30, 1985".

(2) EXPENDITURES FROM TRUST FUND.—Subsection (f)(1) of section 209 fo the Highway Revenue Act of 1956 is amended as follows:

"(1) FEDERAL-AID HIGHWAY PROGRAM.—Amounts in the Trust Fund shall be available, as provided by appropriation acts, for making expenditures before October 1, 1990, to meet those obligations of the United States heretofore or hereafter incurred which are authorized by law or which are attributable to Federal-aid highways (including those portions of general administrative expenses of the Highway Revenue Administration payable from such appropriations).".

(c) INVESTIGATION AND REPORT TO CONGRESS.—Section 210 of the Highway Revenue Act of 1956 is repealed.

(d) CONFORMING AGREEMENTS TO LAND AND WATER CONSERVATION FUND.—Subsection (b) of section 201 of the Land and Water Conservation Fund Act of 1965 (1,6 U.S.C. 4061-11) is amended as follows:

(1) by striking "October 1, 1984" and inserting in lieu thereof "October 1, 1989"; and

(2) by striking "July 1, 1985" each place it appears and in inserting in lieu thereof "July 1, 1990".

(e) INCREASE IN AMOUNT TRANSFERRED TO NATIONAL RECREATION BOATING SAFETY AND FACILITIES IMPROVEMENT FUND.—Clause (ii) of section 209(f)(5)(A) of the Highway Revenue Act of 1956 (23 U.S.C. 120 note) is amended—

(1) by striking out "$20,000,000" and inserting in lieu thereof "$45,000,000", and

(2) by striking out "October 1, 1983" and inserting in lieu thereof "October 1, 1989".

SEC. 132. MASS TRANSIT ACCOUNT.

(a) IN GENERAL.—Section 209 of the Highway Revenue Act of 1956 is amended by adding at the end thereof the following new subsection:

"(h) MASS TRANSIT ACCOUNT.—

"(1) IN GENERAL.—There is established on the books of the Treasury of the United States an account within the Highway Trust Fund to be known as the 'Mass Transit Account'.

"(2) TRANSFERS TO MASS TRANSIT ACCOUNT.—The Secretary of the Treasury shall transfer to the Mass Transit Account one-ninth of the amounts appropriated to the Highway Trust Fund under this section which are attributable to taxes under sections 4041 and 4081 imposed after March 31, 1983.

"(3) EXPENDITURES FROM ACCOUNT.—Amounts in the Mass Transit Account shall be available, as provided by appropriation acts, for making capital expenditures before October 1, 1989 (including capital expenditures for new projects) under section 22 of the Urban Mass Transportation Act of 1964.

"(4) DUTIES OF THE SECRETARY OF THE TREASURY WITH RESPECT TO THE MASS TRANSIT ACCOUNT.—It shall be the duty of the Secretary of the Treasury to manage the Mass Transit Account and to make an annual report to the Congress as provided in subsection (e) of this section. The interest on, and the proceeds from the sale or redemption of any obligation held in the Mass Transit Account shall be credited to and form a part of the Mass Transit Account.

"(5) REPAYABLE ADVANCES.—There are hereby authorized to be appropriated to the Mass Transit Account, as repayable advances, such additional sums as may be required to make the expenditures referred to in paragraph (3) of this section. Advances made pursuant to this paragraph shall be repaid and interest on such advances shall be paid to the general fund of the Treasury when the Secretary of the Treasury determines that moneys are available in the Mass Transit Account for such purposes. Such interest shall be at rates computed in the same manner as provided in subsection (e)(2) of this section for special obligations and shall be compounded annually.".

TITLE II—FEDERAL-AID HIGHWAY IMPROVEMENT

SHORT TITLE

SEC. 201. This title may be cited as the "Federal-Aid Highway Improvement Act of 1982".

REVISION OF AUTHORIZATION FOR APPROPRIATIONS FOR INTERSTATE SYSTEM

SEC. 202. Subsection (b) of section 108 of the Federal-Aid Highway Act of 1956, as amended, is amended by striking out "the additional sum of $3,225,000,000 for the fiscal year ending September 30, 1984", and all that follows through the period at the end of the sentence and by inserting in lieu thereof the following: "The additional sum of $3,625,000,000 for the fiscal year ending September 30, 1984, the additional sum of $3,800,000,000 for the fiscal year ending September 30, 1985, the additional sum of $3,800,000,000 for the fiscal year ending September 30, 1986, the additional sum of $4,000,000,000 for the fiscal year ending September 30, 1987, the additional sum of $4,000,000,000 for the fiscal year ending September 30, 1988, the additional sum of $4,000,000,000 for the fiscal year ending September 30, 1989, and the additional sum of $4,000,000,000 for the fiscal year ending September 30, 1990.".

HIGHWAY AUTHORIZATIONS

SEC. 203. (a) For the purpose of carrying out the following provisions of title 23, United States Code, the following sums are authorized to be appropriated out of the Highway Trust Fund:

(1) For the Federal-aid primary program not to exceed $1,700,000,000 for the fiscal year ending September 30, 1983, $2,100,000,000 for the fiscal year ending September 30, 1984, $2,400,000,000 for the fiscal year ending September 30, 1985, and $2,400,000,000 for the fiscal year ending September 30, 1986, and $2,600,000,000 for the fiscal year ending September 30, 1987.

(2) For the Federal-aid rural program not to exceed $614,520,548 for the fiscal year ending September 30, 1983, and $700,000,000 for the fiscal year ending September 30, 1984, $700,000,000 for the fiscal year ending September 30, 1985, $700,000,000 for the fiscal year ending September 30, 1986, and $700,000,000 for the fiscal year ending September 30, 1987.

(3) For the Federal-aid urban program not to exceed $629,041,096 for the fiscal year ending September 30, 1983, and $800,000,000 for the fiscal year ending September 30, 1984, $800,000,000 for the fiscal year ending September 30, 1985, and $800,000,000 for the fiscal year ending September 30, 1986, and $800,000,000 for the fiscal year ending September 30, 1987.

(4) For forest highways not to exceed $50,000,000 for the fiscal year ending September 30, 1983, $50,000,000 for the fiscal year ending September 30, 1984, $50,000,000 for the fiscal year ending September 30, 1985, and $50,000,000 for the fiscal year ending September 30, 1986, and $50,000,000 for the fiscal year ending September 30, 1987.

(5) For public lands highways not to exceed $50,000,000 for the fiscal year ending September 30, 1983, $50,000,000 for the fiscal year ending September 30, 1984, $50,000,000 for the fiscal year ending September 30, 1985, and $50,000,000 for the fiscal year ending September 30, 1986, and $50,000,000 for the fiscal year ending September 30, 1987.

(6) For parkways and park highways $75,000,000 for the fiscal year ending September 30, 1983, and $100,000,000 per fiscal year for each of the fiscal years ending September 30, 1984, September 30, 1985, September 30, 1986, and September 30, 1987.

(7) For bridge replacement and rehabilitation under section 144 of title 23, United States Code, not to exceed $1,700,000,000 for the fiscal year ending September 30, 1983, and $1,700,000,000 for the fiscal year ending September 30, 1984, $1,800,000,000 for the fiscal year ending September 30, 1985, and $2,000,000,000 for the fiscal year ending September 30, 1986, and $2,000,000,000 for the fiscal year ending September 30, 1987.

(8) For the highway safety improvement program not to exceed $316,657,534 for the fiscal year ending September 30, 1983, and $400,000,000 for the fiscal year ending September 30, 1984, $400,000,000 for the fiscal year ending September 30, 1985, and $400,000,000 for the fiscal year ending September 30, 1986, and $400,000,000 for the fiscal year ending September 30, 1987.

(9) For Indian reservation highways $75,000,000 for the fiscal year ending September 30, 1983 and $100,000,000 per fiscal year for each of the fiscal years ending September 30, 1984, September 30, 1985, September 30, 1986, and September 30, 1987.

(b) The unapportioned or unallocated balance of sums authorized by sections 4 and 5 of the Federal-Aid Highway Act of 1982 is rescinded.

(c)(1) For each of the fiscal years 1984, 1985, 1986, 1987, and 1988, no State, including the State of Alaska, shall receive less than one-half of 1 per centum of the total apportionment for the Interstate System under section 104(b)(5)(A) of title 23, United States Code. Whenever amounts made available under this subsection for the Interstate System in any State exceed the estimated cost of completing that State's portion of the Interstate System, and exceed the estimated cost of necessary resurfacing, restoration, rehabilitation, and reconstruction of the Interstate System within such State, the excess amount shall be eligible for expenditure for those purposes for whch funds apportioned under paragraphs (1), (2), and (6) of such section 104(b) may be expended.

(2) Subsection (g) of section 144 of title 23, United States Code, is amended as follows:

"(g) Of the amount authorized per fiscal year, for each of the fiscal years ending September 30, 1983, September 30, 1984, September 30, 1985, September 30, 1986, and September 30, 1987, all but $300,000,000 for fiscal years 1983, 1984, 1985, 1986, and 1987 shall be apportioned as provided in subsection (e) of this section; $300,000,000 for fiscal years 1983, 1984, 1985, 1986, and 1987 of the amount authorized shall be available for obligation on the date of each such apportionment in the same manner and to the same extent as the sums apportioned on such date except that the obligation of such sums shall be at the discretion of the Secretary and shall be only for projects for those highway bridges the replacement and rehabilitation cost of each of which is more than $10,000,000 and for any project for a highway bridge replacement or rehabilitation cost of which is less than $10,000,000 if such cost is at least twice the amount apportioned to the State in which such bridge is located under subsection (e) of this section for the fiscal year in which application is made for a grant for such bridge. Not less than 15 per centum of the amount apportioned to each State in a fiscal year shall be expended for projects to replace or rehabilitate bridges located on public roads, other than those bridges on public roads functionally classified as arterials or major collectors. The Secretary after consultation with State and local officials may, with respect to a State, reduce the requirement for expenditure for bridges not on public roads functionally classified as arterials or major collectors when he determines that such State has inadequate needs to justify such expenditure.".

(d) Of the sums apportioned to each State under subsections (a)(1), (a)(2), and (a)(3) of this section, beginning with fiscal year 1984, not less than 60 percentum of such program funds shall be expended by the States on projects for resurfacing, restoring, rehabilitating, and reconstructing existing highway facilities for the purpose of preserving or enhancing the operational integrity, efficiency, and safety of such existing highways unless the State certifies to the Secretary that such percentage of funds are in excess of the resurfacing, restoring, rehabilitating, and reconstructing needs of existing highways in the State and the Secretary accepts such certification.

DISCRETIONARY BRIDGE CRITERIA

SEC. 204. The Secretary of Transportation shall develop a selection process for discretionary bridges authorized to be funded under section 144(g) of title 23, United States Code, and shall propose and issue a final regulation no later than six months after the date of enactment of this Act, including a formula resulting in a rating factor based on the following criteria for such process. Such criteria shall give funding priority to those discretionary bridges already eligible under section 144(g) of title 23, United States Code. Eligible bridges after the issuance of a final regulation shall only include those with a rating factor of one hundred or less, based on a scale of zero to infinity. The criteria for such additional bridges which the Secretary shall consider are:

(1) sufficiency rating computed as illustrated in appendix A of the Recording and Coding Guide for the Structure Inventory

and Appraisal of the Nation's Bridges, USDOT/FHWA (latest edition);

(2) average daily traffic using the most current value from the national bridge inventory data;

(3) average daily truck traffic;

(4) defense highway system status;

(5) the State's unobligated balance of funds received under section 144 of title 23, United States Code, and the total funds received under section 144 of title 23, United States Code;

(6) total project cost; and

(7) special consideration should be given to bridges closed to all traffic or restricted to loads less than ten tons. Other unique considerations and the need to administer the program from a balanced national perspective should also be considered.

INTERSTATE SYSTEM RESURFACING APPORTIONMENT

SEC. 205. (a) Section 104(b)(5)(B) of title 23, United States Code, is amended (1) by striking the number "55" and inserting in lieu thereof "60" and (2) by striking the number "45" and inserting in lieu thereof "40"

(b)(1) The Secretary of Transportation shall make a full and complete study regarding the procedures for distributing Federal financial assistance for resurfacing, restoring, rehabilitating, and reconstructing routes on the Interstate System in order to maintain a high level of transportation service. The study shall analyze current conditions and factors including, but not limited to, volume and mix of traffic, weight and size of vehicles, environmental, geographical, and meteorological conditions in various States, and other pertinent factors that can be utilized to determine the most equitable and efficient method of apportioning available Interstate 4R funds to the several States. In conducting the study the Secretary shall consider such criteria as need, national importance, impact on individual State highway programs, structural and operational integrity, and any other relevant criteria, to determine the most equitable method of distribution.

(2) In conducting this study the Secretary shall consult with other agencies of the Federal Government, the States and their political subdivisions, and other interested private organizations, groups, and individuals.

(3) The Secretary shall report to Congress not later than six months after the date of enactment of this section the results of such study together with recommendations for necessary legislation.

INTERSTATE SYSTEM RESURFACING AUTHORIZATION

SEC. 206. Section 105 of the Federal-Aid Act of 1978 is amended to read as follows: "In addition to any funds authorized to be appropriated, there is authorized to be appropriated out of the Highway Trust Fund, not to exceed $175,000,000 per fiscal year for each of the fiscal years ending September 30, 1980, and September 30, 1981, not to exceed $275,000,000 for the fiscal year ending September 30, 1982 not to exceed $800,000,000 for the fiscal year ending September 30, 1983, not to exceed $1,800,000,000 for the fiscal year ending September 30, 1984, not to exceed $2,400,000,000 for the fiscal year ending September 30, 1985, not to exceed $2,800,000,000 for the fiscal year ending September 30, 1986, not to exceed $3,200,000,000 for the fiscal year ending September 30, 1987, not to exceed $3,400,000,000 for the fiscal year ending September 30, 1988. Such sums shall be obligated for projects for resurfacing, restoring, rehabilitating, and reconstructing routes of the Interstate System designated under sections 103 and 139(c) of title 23, United States Code (other than those on toll roads not subject to a Secretarial agreement provided for in section 105 of the Federal-Aid Highway Act of 1978), except that where a State certifies it the Secretary that any part such sums are in excess of the needs of such State for resurfacing, restoring, rehabilitating, and reconstructing the Interstate System and the Secretary accepts such certification, such State may transfer sums apportioned to it under section 104(b)(5)(B) to its apportionment under section 104(b)(1) of title 23, United States Code. Such sums may also be obligated for projects for resurfacing, restoring, rehabilitating, and reconstructing a toll road which has been designated as a part of the Interstate System if an agreement satisfactory to the Secretary of Transportation has been reached with the State highway department and any public authority with jurisdiction over such toll road prior to the approval of such project that the toll road will become free to the public upon the collection of tolls sufficient to liquidate the cost of the toll road or any bonds outstanding at the time constituting a valid lien against it, and the cost of maintenance and operation and debt service during the period of toll collections. The agreement referred to in the preceding sentence shall contain a provision requiring that if, for any reason, a toll road receiving Federal assistance under this section does not become free to the public upon collection of sufficient tolls, as specified in the preceding sentence, Federal funds used for projects on such toll road pursuant to this section shall be repaid to the Federal Treasury."

INTERSTATE SUBSTITUTION AUTHORIZATION

SEC. 207. (a) In addition to any funds authorized to be appropriated out of the general fund, there is authorized to be appropriated, out of the Highway Trust Fund, for substitute highway projects under section 103(e)(4) of title 23, United States Code, $500,000,000 for fiscal year ending September 30, 1983, $600,000,000 for the fiscal year ending September 30, 1984, and $650,000,000 for the fiscal year ending September 30, 1985, and $650,000,000 for the fiscal year ending September 30, 1986, and $650,000,000 for the fiscal year ending September 30, 1987. Funds authorized to carry out this section shall be available for obligation in the same manner and to the same extent as if such sums were apportioned under chapter 1 of title 23, United States Code.

(b)(1) The first sentence of section 103(e)(4) of title 23, United States Code is amended by striking "which is within an urbanized area or which passes through and connects urbanized areas within a State and".

(2) The second sentence of Section 103(e)(4) of title 23, United States Code is amended by striking "which will serve the urbanized area and the connecting nonurbanized area corridor from which the interstate route or portion thereof was withdrawn, which are selected by the responsible local officials of the urbanized area or area to be served, and which are submitted by the Governor of the State in which the withdrawn route was located." and inserting in lieu thereof, "which will serve the area or areas from which the interstate route or portion thereof was withdrawn, which are selected by the responsible local officials of the area or areas to be served, and which are selected by the Governor or the Governors of the State or the States in which the withdrawn route was located if the withdrawn route was not within an urbanized area or did not pass through and connect urbanized areas, and which are submitted by the Governors of the States in which the withdrawn route was located.".

(c)(1) The second sentence of section 103(e)(4) of title 23, United States Code, is amended by inserting in the second sentence after the words "approved by Congress" the words "or up to and including the approved 1983 interstate cost estimate, whichever is earlier,".

(2) The second sentence of section 103(e)(4) of title 23, United States Code, is amended by striking in the second sentence the phrases "the date of enactment of the Federal-Aid Highway Act of 1976 or" and "whichever is later, and in accordance with the design of the route or portion thereof that is the basis of the latest cost estimate,".

(3) The second sentence of section 103(e)(4) of title 23, United States Code, is amended by inserting in the second sentence after the words "approval of each substitute project under this paragraph," the words "or the date of approval of the 1983 interstate cost estimate, whichever is earlier,".

(d) Section 103(e)(4) of title 23, United States Code, is amended by adding at the end of such subsection the following: "Any route or segment thereof added to the Interstate System after March 7, 1978, pursuant to specific legislation will not be eligible for withdrawal and substitution under this subsection.".

(e) The first sentence of section 120(d) of title 23, United States Code, is amended by inserting after the words "traffic control signalization," the following: "including traffic control signalization projects under section 103(e)(4) of this title, notwithstanding the provisions of the fifth sentence of section 103(e)(4),".

FEDERAL-AID PRIMARY PROGRAM

SEC. 208. (a) Section 104(b)(1) of title 23, United States Code, is amended by (1) striking out "and priority primary routes" in the first sentence, and by (2) striking out "(other than the District of Columbia)" in the second sentence.

(b) Section 147 of title 23, United States Code, is repealed.

(c) Effective on October 1, 1982, any unobligated amount authorized under subsection (c) of section 104 of the Federal-Aid Highway Act of 1978 shall be apportioned by the Secretary of Transportation in the same manner as funds apportioned under section 104(b)(1) of title 23, United States Code, for the Federal-aid primary system, and shall thereafter remain available for obligation for the same period as such apportionment.

(d) The analysis of chapter 1 of title 23 is amended by deleting

"147. Priority Primary Routes."

and inserting in lieu thereof

"147. Repealed.".

FEDERAL-AID URBAN PROGRAM

SEC. 209. Section 103 of title 23, United States Code, is amended by deleting subsection (d) and inserting in lieu thereof the following:

"(d) The Secretary may approve Federal-aid urban programs in urban areas which programs shall be selected by the appropriate local officials so as to serve the goals

and objectives of the community, with the concurrence of the State highway department, as provided in section 105 of this title. The programs shall facilitate transportation in the urban area and include projects to: reduce congestion and improve the flow of traffic on arterial and collector routes, aid integration of different transportation modes to and from airports and other terminals and business districts, support clean air and energy conservation objectives, make highway capital improvements, improve highway safety, eliminate safety hazards and roadside obstacles, implement transportation systems management activities and serve other national goals and objectives. All public roads in urban areas are eligible except those on the primary system and the Interstate System. The applicable provisions of chapters 1 and 3 of this title, including provisions applicable to Federal-aid systems, shall apply to urban programs, except those provisions determined by the Secretary to be inconsistent with this subsection. The Secretary shall not waive the applicability of the planning requirements of section 134 of this title.".

FEDERAL-AID RURAL PROGRAM

SEC. 210. Section 103 of title 23, United States Code, is amended by deleting subsection (c) and inserting in lieu thereof:

"(c) The Federal-aid rural program shall be selected by the State highway agencies and the appropriate local road officials in cooperation with each other, subject to approval by the Secretary as provided in subsection (f) of this section and section 105 of this title. In making such selections, the needs of agriculture roads, rural mail routes, public school bus routes, local rural roads, airport and water port access roads, and goods movements shall be considered. All public roads, except those on the primary system, the Interstate System, and those in urban areas are eligible. Projects to improve highway safety and nonurbanized public transportation projects, including facilities and technical assistance, are also eligible for assistance under this section. The applicable provisions of chapters 1 and 3 of this title, including provisions applicable to Federal-aid systems, shall apply to rural programs, except those provisions determined by the Secretary to be inconsistent with this subsection.".

TRANSFERABILITY

SEC. 211. Paragraphs (1) and (2) of subsection (d) of section 104 of title 23, United States Code, are amended by striking out "50" each place it appears and inserting in lieu thereof at each such place "100".

HIGHWAY SAFETY IMPROVEMENT PROGRAM

SEC. 212. (a) Section 151 of title 23, United States Code, is amended to read as follows:

"§ 151. Highway safety improvement program

"(a) The Secretary, in cooperation with the States, shall establish a highway safety improvement program for projects on any public road or street in rural or urban areas. Assistance shall be available under this program for highway safety improvement projects, as defined in subsection (a) of section 101 of this title; for railway-highway crossing projects as provided for in section 130 of this title; for the implementation of highway-related safety requirements and guidelines issued by the Secretary under section 402 of this title; and for the development, implementation, and evaluation of the highway safety improvement program required under subsection (b) of this section.

"(b) Each State shall develop and implement on a continuing basis a highway safety improvement program including procedures for the planning, implementation, and evaluation of highway safety improvement projects on all highways, with the specific objective of reducing the number and severity of highway traffic accidents. Each State shall have a process for collecting, maintaining, and analyzing accident, traffic, and highway data; for conducting engineering studies of hazardous locations, sections and elements, for assigning priorities to the various types of hazards identified; for implementing safety improvement projects in accordance with the priorities developed; and for the evaluation of the safety benefits obtained.

"(c) Of the funds authorized to carry out this section each State shall expend 35 per centum of the sums apportioned for projects under section 203 of the Highway Safety Act of 1973 unless the State requests the Secretary to waive this minimum and the Secretary finds other safety projects are of a higher priority.

"(d)(1) Funds authorized to carry out this section shall be available for expenditure for projects on any public road (other than the Interstate System).

"(2) The Federal share payable on any project under this section shall not exceed 90 per centum of the cost thereof except that the Federal share of safety improvement projects for the elimination of hazards of rail-highway crossings shall not exceed that as provided in section 120(d) of this title.

"(3) The unobligated balance of contract authority established prior to enactment of this section for carrying out section 402 by the Federal Highway Administration shall remain available for obligation as provided prior to enactment of this section and shall lapse not later than September 30, 1984.

"(e) Funds authorized to be appropriated to carry out this section shall be apportioned to the States as follows: 60 per centum in the ratio which the population of each State bears to the total population of all States, and 40 per centum in the ratio which the public road mileage in each State bears to the total public road mileage in all States. The annual apportionment for each State shall not be less than one-half of 1 per centum of the total apportionment. Such sums shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under section 104(b)(1), except that the Secretary is authorized to waive such provisions of this title that he deems inconsistent with the purposes of this section.

"(f) In any State wherein the State is without legal authority to construct or maintain a project under this section, such State shall enter into a formal agreement for such construction or maintenance with the appropriate local officials of the county or municipality in which such project is located.

"(g) One-half of 1 per centum of funds authorized for carrying out this section shall be made available to the Secretary of the Interior, who shall exercise the responsibilities assigned to States under subsection (b) of this section in carrying out this section on Indian reservations. Such funds shall be subject to a deduction of not to exceed 5 per centum for the necessary costs of administering the provisions of this section.

"(h) Each State shall report ot the Secretary of Transportation not later than December 30 of each year, on the progress being made to implement the highway safety improvement program and the effectiveness of safety improvements in reducing the number and severity of accidents. The Secretary of Transportation shall submit a report to the Congress not later than April 1 of each year on the progress being made by the States in implementing the highway safety improvement program.".

(b) Section 152 of title 23, United States Code, is repealed.

(c) The analysis of chapter 1 of title 23, United States Code, is amended by deleting

"151. Pavement marking demonstration program.", and

"152. Hazard elimination program.",

and inserting in lieu thereof

"151. Highway safety improvement program.", and

"152. Repealed.".

(d) Section 203(e) of the Highway Safety Act of 1973 (Public Law 93-87), as amended by the Congressional Reports Elimination Act of 1980 (Public Law 96-470), is repealed.

HIGHWAY BRIDGE REPLACEMENT AND REHABILITATION PROGRAM APPORTIONED FUNDS

SEC. 213. (a) Subsection (e) of section 144 of title 23, United States Code, is amended to read as follows:

"(e) Funds authorized to carry out this section shall be apportioned among the several States on October 1 of the fiscal year for which authorized according to the following formula: All deficient bridges will be divided into four categories: (1) Federal-aid system bridges, and bridges on public roads functionally classified as arterials or major collectors, eligible for replacment, (2) Federal-aid system bridges, and bridges on public roads functionally classified as arterials or major collectors, eligible for rehabilitation, (3) off-system bridges, and bridges on public roads not functionally classified as arterials or major collectors eligible for replacement, and (4) off-system bridges and bridges on public roads not functionally classified as arterials or major collectors eligible for rehabilitation. The square footage of deficient Federal-aid system bridges, or bridges on public roads functionally classified as arterials or major collectors, both those eligible for replacement and those eligible for rehabilitation, shall be multiplied by a factor of two. The square footage of deficient bridges in each category shall be mutiplied by the average national unit cost, on a State-by-State basis, as determined by the Secretary; and the total cost of each State divided by the total cost of the Nation's deficient bridges shall yield the apportionment factors. No State shall receive more than 9.25 per centum or less than 0.25 per centum of the total apportionment for any one fiscal year. The Secretary shall make these determinations based upon the latest available data, which shall be updated annually. Funds authorized to carry out this section which are apportioned under this section shall be available for expenditure for three years after the close of the fiscal year for which they are authorized.".

(b) Notwithstanding any other provision of law or Federal regulation, any new bridge which is to be constructed pursuant to section 144 of title 23, United States Code, in tandem with any existing major structure built after June 28, 1969, with no more than 2.7 miles of highway between them need not carry a roadway width in excess of 69 feet.

FEDERAL LANDS HIGHWAYS PROGRAM

SEC. 214. (a) Section 202 of title 23, United States Code, is amended to read as follows:

"SEC. 202. ALLOCATIONS.—(a) On October 1 of each fiscal year, the Secretary shall allocate the sums authorized to be appropriated for such fiscal year for forest highways according to the relative needs of the various elements of the national forest system as determined by the Secretary, taking into consideration the need for access as identified by the Secretary of Agriculture through renewable resource and land use planning, and the impact of such planning on existing transportation facilities.

"(b) On October 1 of each fiscal year, the Secretary shall allocate the sums authorized to be appropriated for such fiscal year for forest development roads and trails according to the relative needs of the various national forests. Such allocation shall be consistent with the renewable resource and land use planning for the various national forests.

"(c) On October 1 of each fiscal year, the Secretary shall allocate the sums authorized to be appropriated for such fiscal year for public lands highways among those States having unappropriated or unreserved public lands, nontaxable Indian lands or other Federal reservations, on the basis of need in such States, respectively, as determined by the Secretary upon application of the State highway departments of the respective States. The Secretary shall give preference to those projects which are significantly impacted by Federal land and resource management activities.

"(d) On October 1 of each fiscal year, the Secretary shall allocate the sums authorized to be appropriated for such fiscal year for park roads and parkways each according to the relative needs of the various elements of the national park system, taking into consideration the need for access as identified through land use planning and the impact of such planning on existing transportation facilities.

"(e) On October 1 of each fiscal year, the Secretary shall allocate the sums authorized to be appropriated for such fiscal year for Indian reservation roads according to the relative needs of the various reservations as jointly identified by the Secretary and the Secretary of the Interior.".

(b) Section 204 of title 23, United States Code, is amended to read as follows:

"SEC. 204. FEDERAL LANDS HIGHWAYS PROGRAM.—(a) Recognizing the need for all Federal roads which are public roads to be treated under the same uniform policies as roads which are on the Federal-aid systems, there is established a coordinated Federal lands highways program which shall consist of the forest highways, public lands highways, park roads, parkways, and Indian reservation roads as defined in section 101 of title 23, United States Code.

"(b) Funds available for forest highways and public lands highways shall be used by the Secretary to pay for the cost of construction and improvement thereof. Funds available for park roads, parkways, and Indian reservation roads shall be used by the Secretary of the Interior to pay for the cost of construction and improvement thereof. In connection therewith, the Secretary and the Secretary of the Interior, as appropriate, may enter into construction contracts and such other contracts with a State, or civil subdivision thereof as deemed advisable. In the case of Indian reservation roads, Indian labor may be employed in such construction and improvement under such rules and regulations as may be prescribed by the Secretary of the Interior.

"(c) Before approving as a project on an Indian reservation road or bridge any project on a Federal-aid system in a State, the Secretary must determine the obligation of funds for such project is supplementary to and not in lieu of the obligation, for projects on Indian reservation roads and bridges, of a fair and equitable share of funds apportioned to such State under section 104 of this title.

"(d) Cooperation of States, counties, or other local subdivisions may be accepted in construction and improvement, and any funds received from a State, county, or local subdivision shall be credited to appropriations available for the class of Federal lands highways to which such funds were contributed.

"(e) Construction of each project shall be performed by contract awarded by competitive bidding, unless the Secretary or the Secretary of the Interior shall affirmatively find that, under the circumstances relating to such project, some other method is in the public interest.

"(f) All appropriations for the construction and improvement of each class of Federal lands highways shall be administered in conformity with regulations and agreements jointly approved by the Secretary and the Secretary of the appropriate Federal land managing agency.

"(g) The Secretary shall transfer to the Secretary of Agriculture from appropriations for forest highways such amounts as may be needed to cover necessary administrative expenses of the Forest Service in connection with forest highways.

"(h) Funds available for each class of Federal lands highways shall be available for adjacent vehicular parking areas and scenic easements.".

(c)(1) The definition of "park roads and trails" in section 101(a) of title 23, United States Code, is amended to read as follows: "The term 'park road' means a public road that is located within or provides access to an area in the national park system.".

(2) The term "Indian reservation roads and bridges" in section 101(a) of title 23, United States Code, is amended to read as "Indian reservation roads"; and the definition of such term is amended by deleting the words "and bridges" each place they appear and by inserting the word "public" before "roads" the first place it appears.

(3) Section 101(a) of title 23, United States Code, is amended by adding after the definition of the term "forest development roads and trails" the following new definition: "The term 'Federal lands highways' in accordance with section 204 of this title means forest highways, public lands highways, park roads, parkways, and Indian reservation roads which are public roads.".

(d) Sections 206, 207, 208, 209, and 214(c) of title 23, United States Code, are repealed.

(e) The analysis of chapter 2 of title 23, United States Code, is amended by deleting the following headings:

"202. Apportionment or allocation.";
"204. Forest highways.";
"206. Park Roads and trails.";
"207. Parkways.";
"208. Indian reservation roads."; and
"209. Public lands highways.".

and inserting in lieu thereof:

"202. Allocations.";
"204. Federal Lands Highways Program.";
"206. Repealed.";
"207. Repealed.";
"208. Repealed."; and
"209. Repealed.".

(f) Section 203 of title 23, United States Code, is amended by striking out the term "park roads and trails" wherever it appears and inserting in lieu thereof the term "park road".

PROGRAM CONSOLIDATION

SEC. 215. (a)(1) Sections 143, 148, 155, and 156 of title 23, United States Code, are repealed.

(2) Section 163 of the Federal-Aid Highway Act of 1973, as amended, is repealed.

(b)(1) Any unobligated balance of contract authority established by any Act prior to enactment of subsection (a) of this section for carrying out sections 143 and 148 of title 23, United States Code, shall remain available for obligation under the conditions applicable prior to such enactment.

(2) The unexpended balance of sums appropriated prior to enactment of subsection (a) of this section for carrying out sections 155 and 156 of title 23, United States Code, and section 163 of the Federal-Aid Highway Act of 1973, as amended, shall remain available for expenditure under the conditions applicable prior to such enactment.

(3) The unappropriated balance of sums authorized prior to enactment of subsection (a) of this section for carrying out sections 148, 155, and 156 of title 23, United States Code, is rescinded.

(c) The analysis of chapter 1, United States Code, is amended by striking

"143. Economic growth center development highways."

and inserting in lieu thereof

"143. Repealed.";

by striking

"148. Development of a national scenic and recreational highway."

and inserting in lieu thereof

"148. Repealed.";

by striking

"155. Access highways to public recreation areas on certain lakes."

and inserting in lieu thereof

"155. Repealed.";

and by striking

"156. Highways crossing Federal projects."

and inserting in lieu thereof

"156. Repealed.".

CARPOOL AND VANPOOL PROJECTS

SEC. 216. (a) Section 120(d) of title 23, United States Code, is amended by inserting before the words "may amount to 100 per centum" the words "or commuter carpooling and vanpooling".

(b) The Secretary of Transportation is authorized and directed to expend such sums as are necessary out of the administrative funds authorized by subsection (a) of section 104, title 23, United States Code, to carry out the provisions of subsection (d) of section 136 of the Federal-Aid Highway Act of 1978.

PUBLIC TRANSPORTATION

SEC. 217. Section 142 of title 23, United States Code, is amended as follows:

(1) In subsection (a)(1) delete in the first sentence the words "bus lanes" and insert in lieu thereof the following: "high occupancy vehicle lanes" and delete the words "bus and other" and insert in lieu thereof the following: "high occupancy vehicle and".

(2) In subsection (b) delete the word "bus" and insert in lieu thereof "high occupancy vehicle".

(3) In subsection (f) delete the words "public mass transportation systems" and

insert in lieu thereof "high occupancy vehicles".

FRINGE AND CORRIDOR PARKING

SEC. 218. Section 137 of title 23, United States Code, is amended by inserting the following new subsection (f):

"(f)(1) The Secretary may approve for Federal financial assistance from funds apportioned under section 104(b)(5)(B) of this title, projects for designating existing facilities, or for acquisition of rights of way or construction of new facilities, for use as preferential parking for carpools, provided that such facilities (1) are located outside of a central business district and within an interstate highway corridor, and (2) have as their primary purpose the reduction of vehicular traffic on the interstate highway.

"(2) Nothing in this subsection, or in any rule or regulation issued under this subsection, or in any agreement required by this subsection, shall prohibit (1) any State, political subdivision, or agency or instrumentality thereof, from contracting with any person to operate any parking facility designated or constructed under this subsection, or (2) any such person from so operating such facility. Any fees charged for the use of any such facility in connection with the purpose of this subsection shall not be in excess of the amount required for operation and maintenance, including compensation to any person for operating the facility.

"(3) For the proposes of this subsection, the terms 'facilities' and 'parking facilities' are synonymous and shall have the same meaning given 'parking facilities' in subsection (c) of this section".

EMERGENCY RELIEF

SEC. 219. (a)(1) The first sentence of subsection (a) of section 125 of title 23, United States Code, is amended by striking the first sentence thereof and inserting in lieu thereof the following: "An emergency fund is authorized for expenditure by the Secretary, subject to the provisions of this section and section 120 of this title, for the repair or reconstruction of highways, roads, and trails which the Secretary shall find have suffered serious damage as the result of (1) natural disaster over a wide area such as by floods, hurricanes, tidal waves, earthquakes, severe storms, or landslides, or (2) catastrophic failures from any external cause, in any part of the United States. In no event shall funds be used pursuant to this section for the repair or reconstruction of bridges which have been permanently closed to all vehicular traffic by the State or responsible local official because of imminent danger of collapse due to structural deficiencies or physical deterioration.".

(2) Subsection (a) of section 125 of title 23, United States Code, is further amended by inserting in the second sentence, as that sentence read prior to the amendments made by paragraph (1) of this subsection, after the word "appropriated" the words "from the Highway Trust Fund".

(b) Notwithstanding any other provision of law, all expenditures made unde section 125 of title 23, United States Code, prior to the fiscal year ending September 30, 1978, are authorized to have been appropriated from the Highway Trust Fund.

(c) Subsection (a) of section 125 of title 23, United States Code, is amended by inserting in the second sentence after the words "after September 30, 1976," the words "and not more than $100,000,000 is authorized to be expended in any one fiscal year commencing after September 30, 1980,".

(d) Subsection (b) of section 125 of title 23, United States Code, is amended by striking the period at the end of the first sentence, inserting a colon in lieu thereof, and by adding the following: "*Provided*, That obligations for projects under this section, including those on highways, roads, and trails mentioned in subsection (c) of this section, resulting from a single natural disaster or a single catastrophic failure shall not exceed $30,000,000 in any State.".

(e) The amendments made by subsection (d) of this section shall apply to natural disasters or catastrophic failures which the Secretary finds eligible for emergency relief subsequent to the date of enactment of this section.

(f) Subsection (f) of section 120 of title 23, United States Code, is amended to read as follows:

"(f) The Federal share payable on account of any repair or reconstruction provided for by funds made available under section 125 of this title shall not exceed 75 per centum of the cost thereof: *Provided*, That the Federal share payable on account of any repair or reconstruction of forest highways, forest development roads and trails, park roads and trails, parkways, public lands highways, public lands development roads and trails, and Indian reservation roads may amount to 100 per centum of the cost thereof. The total cost of a project may not exceed the cost of repair or reconstruction of a comparable facility. As used in this section with respect to bridges and in section 144 of this title, 'a comparable facility' shall mean a facility which meets the current geometric and construction standards required for the types and volume of traffic which such facility will carry over its design life.".

(g) All obligations for projects resulting from a natural disaster or catastrophic failure which the Secretary finds to be eligible for emergency relief subsequent to the date of enactment of this subsection shall provide for the Federal share required by subsection (f) of section 120 of title 23, United States Code, as amended by this section.

(h)(1) Subsection (b) of section 125 of title 23, United States Code, is amended by striking the words "the Federal-aid highway systems, including the Interstate System" and by inserting in lieu thereof the words "the Interstate System, the Primary System, and on any routes functionally classified as arterials or major collectors," in the two places the stricken words appear.

(2) Subsection (c) of section 125 of title 23, United States Code, is amended by striking the words "on any of the Federal-aid highway systems" and inserting in lieu thereof the words "routes functionally classified as arterials or major collectors".

BICYCLE TRANSPORTATION PROGRAM

SEC. 220. Section 217 of title 23, United States Code is amended—

(1) by striking in the first sentence of subsection (a), the words "and the multiple use of highway rights-of-way" and "on or in conjunction with highway rights-of-way";

(2) by inserting after the first sentence in subsection (a) the following: "Federal-aid highway projects may include nonconstruction programs or projects which can reasonably be expected to enhance the safety and use of bicycles.";

(3) by striking out in subsection (b) the words "that provided in section 120 of this title" and inserting in lieu thereof "100 per centum"; and

(4) by striking out subsection (e).

HIGHLAND SCENIC HIGHWAY

SEC. 221. Section 161(f) of the Federal-Aid Highway Act of 1973, as amended by section 21 of Public Law 96-106, is further amended to read as follows:

"(f) The Highland Scenic Highway as authorized by subsection (a) of this section and all associated lands and rights-of-way shall be managed as part of the Monongahela National Forest for scenic and recreational purposes. Vehicle use shall be confined to passenger cars, recreational vehicles, and limited truck traffic to the extent such use is compatible with the purpose for which the highway was constructed. Commercial use by trucks shall be limited and controlled by permit.".

ALLOCATION OF URBAN FUNDS

SEC. 222. Section 150 of title 23, United States Code, is amended by adding the following sentence at the end thereof: "Funds allocated to an urbanized area under the provisions of this section may, at the request of the Governor and upon approval of the appropriate local officials of the area and the Secretary, be transferred to the allocation of another such area in the State or to the State for use in any urban area.".

CERTIFICATION ACCEPTANCE

SEC. 223. (a) Subsection 117(a) of title 23, United States Code, is amended by striking out "projects on Federal-aid-systems, except the Interstate System," and inserting in lieu thereof "Federal-aid projects on systems other than the Interstate System" and by adding at the end thereof the following new sentence: "Notwithstanding the above, the Secretary may discharge any of his responsibilities under this title relative to the physical construction phase of Interstate resurfacing, restoration, rehabilitation, and reconstruction projects using the procedures of this section.".

(b) Subsection 117(b) is amended by striking out "make a final inspection of each subject project upon its" and inserting in lieu thereof "establish procedures for the inspection of such projects upon".

(c) Subsection 117(f)(1) is amended by striking out the words "the Federal-aid secondary system," when they first appear and inserting in lieu thereof "projects, as defined by the Secretary and which are not on the Interstate System," and by striking out "all projects on the Federal-aid secondary system" and inserting in lieu thereof "such projects".

(d) Subsection 117(f)(3) is revised to read as follows:

"(3) Paragraphs (1) and (2) of this subsection shall not be construed to relieve the Secretary of his obligation to establish procedures for the inspection of such projects upon completion and to require an adequate report of the estimated and actual cost of construction as well as other information as he determines necessary.".

(e) Subsection 105(b) of title 23, United States Code, is amended by striking out "projects on the Federal-aid secondary system" and inserting in lieu thereof "projects, as defined by the Secretary and which are not on the Interstate System except for the construction phase of Interstate resurfacing, restoration, rehabilitation, and reconstruction projects".

(f) Subsection 106(b) of title 23, United States Code, is amended to read as follows:

"(b) In addition to the approval required under subsection (a) of this section, proposed specifications for projects for construction, as defined by the Secretary and which are not on the Interstate System except for the construction phase of Interstate resurfacing, restoration, rehabilitation and reconstruction projects, except in

States where all public roads and highways are under the control and supervision of the State highway department, shall be determined by the State highway department and the appropriate local road officials in cooperation with each other.".

(g) Subsection 112(e) of title 23, United States Code, is amended by striking out "projects on the Federal-aid secondary system" and inserting in lieu thereof "projects, as defined by the Secretary and which are not on the Interstate System except for the construction phase of Interstate resurfacing, restoration, rehabilitation, and reconstruction projects,".

DEFENSE ACCESS ROAD

SEC. 224. Section 210(c) of title 23, United States Code, is amended by striking "Not exceeding $5,000,000 of any funds appropriated under the Act approved October 16, 1951 (65 Stat. 422)", and inserting in lieu thereof "Funds appropriated for defense maneuvers and exercises."

MAINTENANCE

SEC. 225. (a) Subsection (a) of section 116 of title 23, United States Code, is amended by striking the second sentence.

(b) Subsection (b) of section 116 of title 23, United States Code, is amended by striking "constructed on the Federal-aid secondary system or within a municipality,".

(c) The second sentence of subsection (c) of section 116 of title 23, United States Code, is amended to read as follows: "If, within ninety days after receipt of such notice, such project has not been put in proper condition of maintenance, the Secretary shall withhold approval of further projects of all types on one or more of the Federal-aid systems or programs in the State highway district, municipality, county, other political or administrative subdivision of the State, or the entire State, in which such project shall be located, as the Secretary deems most appropriate until such project shall have been put in proper condition of maintenance.".

(d) Section 109 of title 23, United States Code, is amended by striking subsection (m) and by relettering subsection (n) as (m).

(e) Section 116 of title 23, United States Code, is amended by adding subsection (f) as follows:

"(f) The Secretary shall issue guidelines describing the criteria applicable to the Interstate System in order to insure that the condition of these routes is maintained at the level required by the purposes for which they were designed.".

(f) Section 119 of title 23, United States Code, is amended by striking subsection (b).

(g) Section 116 of title 23, United States Code, is amended by adding subsection (g) as follows:

"(g) Not later than one year after the date of issuance of initial guidelines under subsection (f) of this section each State shall have a program for the Interstate System in accordance with such guidelines. Each State shall certify on January 1 of each year that it has such a program and the Interstate System is maintained in accordance with the program. If a State fails to certify as required or if the Secretary determines a State is not adequately maintaining the Interstate System in accordance with such program, the next apportionment of funds to such State for the Interstate System shall be reduced by amounts equal to 10 per centum of the amount which would otherwise be apportioned to such State under section 104 of this title. If, within one year from the date the apportionment for a State is reduced under this subsection, the Secretary determines that such State is maintaining the Interstate System in accordance with the guidelines the apportionment of such State shall be increased by an amount equal to the reduction. If the Secretary does not make such a determination within such one year period, the amount withheld shall be reapportioned to all other eligible States.".

CONSTRUCTION

SEC. 226. (a) Subsection (a) of section 114 of title 23, United States Code is amended to read as follows:

"(a) The construction of any highways or portions of highways located on a Federal-aid system or under a Federal-aid program shall be undertaken by the respective State highway departments or under their direct supervision. The construction work and labor in each State shall be in accordance with the laws of that State and applicable Federal laws. Except as provided in section 117 of this title, the Secretary shall establish procedures for the inspection and approval of such construction. Construction may begin as soon as funds are available pursuant to subsection (a) of section 118 of this title. The State highway department shall not erect any informational signs other than official traffic control devices conforming with standards developed by the Secretary on any project where actual construction is in progress and visible to highway users.".

(b) Subsection (a) of section 113 of title 23, United States Code, is amended to read as follows: "The Secretary shall take such action as may be necessary to insure that all laborers and mechanics employed by contractors or subcontractors on the construction work performed on highway projects on the Federal-aid systems, the primary as well as its extensions in urban areas, and the Interstate System, or under the Federal-aid programs, authorized under the highway laws providing for the expenditure of Federal funds upon the Federal-aid systems and programs, shall be paid wages at rates not less than those prevailing on the same type of work on similar construction in the immediate locality as determined by the Secretary of Labor in accordance with the Act of August 30, 1935, known as the Davis-Bacon Act (40 U.S.C. 267a)."

(c) Subsection (c) of section 121 of title 23, United States Code is amended by striking the words "following inspections".

RESEARCH AND PLANNING

SEC. 227. (a) Subsection (c) of section 307, title 23, United States Code, is amended by adding paragraph (5) as follows:

"(5) The sums provided pursuant to paragraph (2) of this subsection shall be combined and administered by the Secretary as a single fund which shall be available for obligation for the same period as funds apportioned under section 104(b)(1) of this title.".

(b) Subsection (c)(2) of section 307, title 23, United States Code, is amended by striking "1964" and inserting in lieu thereof "1983", and by striking "section 104" and inserting in lieu thereof "sections 104 and 144".

(c) Section 120 of title 23, United States Code, is amended by adding a subsection (i) as follows:

"(i) The Federal share payable on account of any project financed under section 307(c) of this title shall be 85 per centum, except that in the case of any State containing nontaxable Indian lands, individual and tribal, and public domain lands (both reserved and unreserved) exclusive of national forests and national parks and monuments, exceeding 5 per centum of the total area of all lands therein, the Federal share shall be increased by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State is of its total area, except that such Federal share payable on any project in any State shall not exceed 95 per centum of the total costs of any such project.".

(d) Section 307(c)(1) of title 23, United States Code, is amended by adding in the last sentence after "highways and highway systems" the words "and for study, research and training evaluation and accreditation of inspection and testing.".

NONDISCRIMINATION

SEC. 228. (a) The first and third sentence of subsection (a) of section 140 of title 23, United States Code, are amended by striking the words "or national origin" and inserting in lieu thereof the words "national origin or sex".

(b) Section 140 of title 23, United States Code, is amended by adding new subsection (c) as follows:

"(c) The Secretary, in cooperation with any other department or agency of the Government, State agency, authority, association, insititution, corporation (profit or nonprofit), or any other organization or person, is authorized to develop, conduct, and administer training programs and assistance programs in connection with any program under this title in order that minority businesses may achieve proficiency to compete, on an equal basis, for contracts and subcontracts. Whenever apportionments are made under subsection 104(a) of this title, the Secretary shall deduct such sums as he may deem necessary, not to exceed $10,000,000 per fiscal year, for the administration of this subsection. The provisions of section 3709 of the Revised Statute, as amended (41 U.S.C. 5), shall not be applicable to contracts and agreements made under the authority herein granted to the Secretary notwithstanding the provisions of 41 U.S.C. 252(e).".

(c) The title of section 140 of title 23, United States Code, is amended to read:

"§ 140. Nondiscrimination"

and the analysis of chapter 1 of title 23, United States Code, is amended by striking out

"140. Equal employment opportunity."

and inserting in lieu thereof

"140. Nondiscrimination.".

INTERAGENCY AGREEMENTS

(SEC. 229. (a) Chapter 1 of title 23, United States Code, is amended by adding after section 156 the following new section:

"§ 157. Interagency agreements

"Not later than one hundred and eighty days after the date of enactment of this section, the Secretary shall enter into agreements with the Secretaries of the Departments of Interior and Defense, the Administrator of the Environmental Protection Agency, and the heads of such other Federal departments, agencies, and instrumentalities as the Secretary determines, to minimize, to the greatest extent possible, duplication, paperwork, and delays in the development and approval of projects under this title and any other provision of law relating to the Federal Highway programs. Notwithstanding any other provision of law, such agreements shall provide that actions on ap-

plications or requests for permits, licenses, findings, and other approvals and determinations required for such projects will be fully coordinated by the Department of Transportation with the review process established under the National Environmental Policy Act of 1969, as amended, and, to the greatest extent practicable, that a decision with respect to each such application or request will be made contemporaneously with approval of the environmental impact statement, finding of no significant impact, or categorical exclusion required for such project, but in no event later than one hundred eighty days after the date of approval of such environmental review document.".

(b) The analysis of chapter 1 of title 23, United States Code, is amended by adding at the end thereof the following:

"157. Interagency agreements".

OBLIGATION LIMITATION AND ALLOCATION FORMULA

SEC. 230. (a) Notwithstanding any other provision of law, the total of all obligations for Federal-aid highways and highway safety construction programs for fiscal year 1983 shall not exceed $12,000,000,000, for fiscal year 1984 shall not exceed $12,800,000,000, for fiscal year 1985 shall not exceed $13,600,000,000, for fiscal year 1986 shall not exceed $14,500,000,000, and for fiscal year 1987 shall not exceed $14,900,000,000. These limitations shall not apply to obligations for emergency relief under section 125 of title 23, United States Code, section 9 of the Federal-Aid Highway Act of 1981, and section 118 of the Union Station Redevelopment Act of 1981. No obligation constraints shall be placed upon any ongoing emergency project carried out under section 125 of title 23, United States Code.

(b) For the fiscal years 1983, 1984, 1985, 1986, and 1987, the Secretary shall distribute the limitation imposed by subsection (a) by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bears to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(c) During the period October 1 through December 31, 1982, no State shall obligate more than 35 per centum of the amount distributed to such State under subsection (b), and the total of all State obligations during such period shall not exceed 25 per centum of the total amount distributed to all States under such subsection.

(d) Notwithstanding subsections (b) and (c), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which have been apportioned or allocated to a State, except in those instances in which a State indicates its intention to lapse sums apportioned under section 104(b)(5)(A) of title 23, United States Code;

(2) after August 1, 1983, August 1, 1984, August 1, 1985, August 1, 1986, and August 1, 1987, respectively, revise a distribution of the funds made available under subsection (b) if a State will not obligate the amount distributed during that fiscal year and redistribute suffecient amounts to those States able to obligate amounts in addition to those previously distributed during that fiscal year. In revising such distributions, the Secretary shall give priority to those States which, because of statutory changes under these amendments and under P.L. 97-134, have experienced substantial proportional reductions in their apportionments and allocations; and

(3) not distribute amounts authorized for administrative expenses and forest highways.

CERTIFICATION OF STATE PROCEDURES

SEC. 231. (a) The Secretary of Transportation in cooperation with the State of Vermont shall carry out a project to demonstate the feasibility of reducing the time and the cost required to complete highway projects, other than projects on the Interstate System in areas that require improved access between rapidly growing suburban areas and established urban core areas, by extending the coverage of State certifications under section 117(a) of title 23 of the United States Code, to any Federal law, regulation, or policy that applies to such projects.

(b) In implementing this section, the Secretary shall review applications for projects submitted by the State of Vermont with respect to which the State agrees to assume the responsibility of the Secretary with regard to any such Federal law, regulation, or policy. The Secretary shall be deemed to have fulfilled his responsibility under such law, regulation, or policy, provided that—

(1) the Secretary finds that the State has procedures which are sufficient to assure that the project will be carried out in accordance with the provisions of such law, regulation, or policy;

(2) the State highway department is authorized and consents to accept the jurisdiction of the Federal courts in any suit brought to enforce any such Federal law or regulation; and

(3) the State highway department certifies that the project has been carried out in accordance with the procedures specified under subsection (b)(1) of this section.

(c) In carrying out the demonstration project authorized under this section, the Secretary may continue to discharge his responsibilities directly with respect to those laws, regulations, and policies for which he finds State procedures are not sufficient.

(d) In implementing this section, the Secretary shall consider the procedures developed pursuant to section 141 of the Federal-Aid Highway Act of 1976, as amended, and shall encourage the State to carry out its responsibilities in cooperation with appropriate political subdivisions of the State.

(e) There is authorized to be appropriated out of the Highway Trust Fund to carry out the project authorized under this section a sum not to exceed $50,000,000.

(f) Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be 100 per centum of the total cost thereof and such funds shall remain available until expended.

(g) Not later than six months after the completion of such project, the Secretary shall submit a report to Congress which includes, but is not limited to, a description of the methods used to accomplish the project and the changes, if any, required to adopt expanded certification. The report should also contain recommendations for applying the methods to other highway projects, and any changes to existing law which may be necessary to permit more widespread use of expanded certification acceptance.

ALASKA HIGHWAY

SEC. 232. (a) Subsection (a) of section 218 of title 23, United States Code, is amended by adding after the second sentence the following: "In addition to such funds, the State of Alaska is authorized to expend on such such highway any Federal-aid highway funds apportioned to the State of Alaska under this title as its Federal share. Notwithstanding any other provision of law any obligation limitation enacted for fiscal year 1983 or for any fiscal year thereafter shall not apply to projects authorized by the previous sentence.".

(b) This amendment shall be effective upon the date of the enactment of this Act.

TERRITORIAL HIGHWAY PROGRAM

SEC. 233. (a) Section 215 of title 23, United States Code, is hereby repealed.

(b)(1) The unobligated balance of sums appropriated prior to enactment of subsection (a) of this section for carrying out section 215 of title 23, United States Code, shall remain available for obligation under the conditions applicable prior to such enactment.

(2) The unappropriated balance of sums authorized prior to enactment of subsection (a) of this section for carrying out section 215 of title 23, United States Code, shall remain available until expended under the conditions applicable prior to such enactment.

(c) Section 120(i) of title 23, United States Code, repealed.

(d) Section 401 of title 23, United States Code, is amended by deleting the second sentence thereof.

(e) The sixth sentence of section 402(c) of title 23, United States Code, is amended to read as follows: "The annual apportionment to each State shall not be less than one-half of 1 per centum of the total apportionment.".

(f) The analysis of chapter 2 of title 23, United States Code, is amended by deleting:

"215. Territories highway development program."

and inserting in lieu thereof:

"215. Repealed.".

ACCELERATION OF BRIDGE PROJECTS

SEC. 234. Section 147 of the Surface Transportation Assistance Act of 1978, as amended by section 15 of Public Law 96-106 (93 Stat. 798) is repealed. Funds previously set aside in accordance with such section 147 shall be available for obligation for a period of two years from the date of enactment of this Act. Such funds may be obligated under the same conditions which existed prior to the repeal of such section 147. Funds not obligated within that period of availability shall be permanently withdrawn and such funds shall be apportioned by the Secretary to the several States in accordance with section 144(e) of title 23, United States Code.

LAKE ROAD EROSION DEMONSTRATION

SEC. 235. (a) The Secretary of Transportation is authorized to carry out demonstration projects in and around Devils Lake, North Dakota, for the purpose of demonstrating construction techniques to prevent wave erosion on closed basin lakes with grade level highway crossings.

(b) The Secretary is authorized to reimburse from funds authorized by subsection (c) the State of North Dakota for funds previously expended on projects described in subsection (a).

(c) There is authorized to be appropriated, out of the Highway Trust Fund, to carry out this section not to exceed $4,500,000 for the fiscal year ending September 30, 1983.

(d) Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall not exceed 75 per centum of the total cost thereof and such fund shall remain available until expended.

TRUCK SAFETY DEMONSTRATION

SEC. 236. The Secretary of Transportation, in cooperation with the State of Idaho, shall conduct a project on a primary segment of highway experiencing a high incidence of truck accidents. The study shall include an analysis of factors contributing to truck accidents such as weather conditions, sight distance, road curvature, roadway width, and gradient. The study shall also include an analysis of the benefit-cost ratio of certain safety improvements implemented to correct hazards contributing to truck accidents.

(b) There is authorized to be appropriated, out of the Highway Trust Fund, to carry out this section not to exceed $6,500,000.

(c) Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this subsection shall be 100 per centum of the total cost thereof and such funds shall remain available until expended.

(d) The Secretary of Transportation shall submit to Congress a report on the results of the demonstration project not later than one hundred eighty days after completion of such project.

DEFINITION

SEC. 237. The definition of the term "construction" in section 101(a), title 23, United States Code, is amended by striking the period at the end thereof and inserting in lieu thereof the following: "and also includes costs incurred by the State in performing Federal-aid project related audits which directly benefit the Federal-aid highway program.".

REPORTS

SEC. 238. (a) Section 307 of title 23, United States Code, is amended by adding a new subsection (e) as follows:

"(e) The Secretary shall report to the Congress in January 1983, and in January of every second year thereafter, estimates of the future highway needs of the Nation."

(b) Section 3 of Public Law 89-139, 79 Stat. 578, August 28, 1965, and section 17 of the Federal-Aid Highway Act of 1968 are hereby repealed.

CONSTRUCTION BY STATES IN ADVANCE OF APPORTIONMENT

SEC. 239. (a) Section 115(a) of title 23, United States Code, is amended to read as follows:

"(a)(1) When a State has obligated all funds apportioned or allocated to it under sections 103(e)(4), 104, or 144, of this title, other than Interstate funds, and proceeds to construct any highway substitute, Federal-aid system or program or bridge project, other than an Interstate project funded under section 104(b)(5) of this title, without the aid of Federal funds in accordance with all procedures and all requirements applicable to such a project, except insofar as such procedures and requirements limit a State to the construction of projects with the aid of Federal funds previously apportioned to it, the Secretary is authorized to pay to such State the Federal share of the costs of construction of such project when additional funds are apportioned to such State under sections 103(e)(4), 104, or 144 of this title if—

"(A) prior to the construction of the project the Secretary approves the plans and specifications therefor in the same manner as other projects, and

"(B) the project conforms to the applicable standards adopted under section 109 of this title.

"(2) The Secretary may not approve an application under this section unless an authorization is in effect for the fiscal year for which the application is sought beyond the currently authorized funds for such State. No application may be approved which will exceed the State's expected apportionment of such authorizations.".

(b) Section 115(c) of title 23, United States Code, is amended by striking "104" and inserting in lieu thereof "103(3)(4), 104, or 144".

DESIGN AND CONSTRUCTION QUALITY ASSURANCE STUDY

SEC. 240. (a) The Secretary of Transportation is directed to coordinate a study with the National Bureau of Standards, the American Society for Testing and Materials, the Office of Technology Assessment, and other organizations as deemed appropriate, (1) to determine the existing quality of design, construction, products, use, and systems for highways and bridges; (2) to determine the need for uniform standards and criteria for design, processing, products, and applications, including personnel training and implementation of enforcement techniques; and (3) to determine the manpower needs and cost of developing a national system for the evaluation and accreditation of testing and inspection agencies.

(b) The Secretary shall submit such study to the Congress not later than one year after the date of enactment of this section.

VENDING MACHINES

SEC. 241. Notwithstanding section 111 of title 23, United States Code, before October 1, 1983, any State may permit the placement of vending machines in rest and recreation areas and in safety rest areas constructed or located on rights-of-way of the National System of Interstate and Defense Highways in such State. Such vending machines may only dispense such food, drink, and other articles as the State highway department determines are appropriate and desirable. Such vending machines may only be operated by the State. In permitting the placement of vending machines under this section, the State shall give priority to vending machines which are operated through the State licensing agency designated pursuant to section 2(a)(5) of the Act of June 20, 1936, commonly known as the Randolph-Sheppard Act (20 U.S.C. 107(a)(5)). The costs of installation, operation, and maintenance of vending machines under this section shall not be eligible for Federal assistance under title 23, United States Code.

RELOCATION OF UTILITY FACILITIES

SEC. 242. (a) Section 101(a) of title 23, United States Code, as amended by section 107 of this Act, is amended by inserting the phrase "and utility appurtenances," after the word "crossings," in the definition of "construction".

(b) Section 123 of title 23, United States Code, is amended—

(1) by striking in subsection (a) "the Federal-aid primary or secondary systems or on the Interstate System, including extensions thereof within urban areas," and inserting in lieu thereof "a Federal-aid system or under a Federal-aid program,"; and

(2) by adding a new subsection (d) at the end thereof to read as follows:

(d) When a State relocates utilities solely to correct hazards to the traveling public from utility appurtenances on or near the right-of-way of Federal-aid projects, the Secretary may waive the provisions of subsection (a) of this section to the extent such provisions restrict Federal participation in such work if the Secretary determines such waiver would serve a public purpose by facilitating the State's safety improvement program.".

TECHNICAL AMENDMENTS

SEC. 243. (a) Section 101(a) of title 23, United States Code, is amended as follows:

(1) In the tenth sentence, by inserting the words "or under one of the Federal-aid programs" immediately after the words "Federal-aid systems";

(2) In the nineteenth sentence, by striking the period at the end thereof and adding the words "or under the Federal-aid programs.";

(3) In the thirtieth sentence, by deleting the words "secondary system" and inserting in lieu thereof the words "rural program", and by deleting the word "system" and inserting in lieu thereof the word "program";

(4) In the thirty-first sentence, by deleting the word "system" each time it appears and inserting in lieu thereof the word "program"; and

(5) By adding after the twenty-eighth sentence the following sentence: "The term 'Federal-aid program' means any one of the Federal-aid highway programs described in section 103 of this title.".

(b)(1) Section 103 of such title is amended by adding to the title the words "and programs" after the words "Federal-aid systems";

(2) Section 103(a) is amended to read as follows:

"For the purpose of this title, the Federal-aid systems, which consist of the primary system and the Interstate System, along with the Federal-aid programs, which consist of the Federal-aid rural program and the Federal-aid urban program, are established and continued pursuant to the provisions of this section.";

(3) Section 103(f) is amended to read as follows:

"The Secretary shall have authority to approve in whole or in part the Federal-aid primary system, the Federal-aid rural program, the Federal-aid urban program, and the Interstate System, as and when such systems and programs or portions thereof are designated, or to require modifications or revisions thereof. No Federal-aid system or program or portion thereof shall be eligible for projects in which Federal funds participate until approved by the Secretary.";

(4) Subsections (g) and (h) of section 103 are repealed; and

(5) The analysis of chapter 1 of title 23 is amended by deleting

"103. Federal-aid systems."

and inserting in lieu thereof

"103. Federal-aid systems and programs.".

(c) Section 104 of such title is amended as follows:

(1) In subsections (a) and (b)(1), by inserting the words "and programs" immediately after the words "Federal-aid systems" each time they appear;

(2) In paragraph (2) of section 104(b), by deleting the words "secondary system" and inserting in lieu thereof the words "rural program";

(3) In paragraph (6) of section 104(b) by deleting the word "system" and inserting in lieu thereof the word "program";

(4) In subsection (c)(1), by deleting the phrase ", commencing with the apportionment of funds authorized to be appropriated under subsection (a) of section 102 of the Federal-Aid Highway Act of 1956 (70 Stat. 374),"; and

(5) In subsection (f)(1), by inserting the words "and programs" immediately after the words "Federal-aid systems".

(d) Section 105 of such title is amended as follows:

(1) In the first sentence of subsection (a) by inserting the words "and programs" after the words "Federal-aid systems", and by deleting in the third sentence the comma and all that follows and inserting a period after the word "part"; and

(2) In subsection (d) by deleting the words "programs for", and by deleting the words "on the Federal-aid urban system" and inserting in lieu thereof the words "under the Federal-aid urban program".

(e) Section 106 of such title is amended as follows:

(1) Section 106(b) is amended by striking the word "on" and inserting in lieu thereof the word "under," and by striking the word "system" each place it appears and inserting in lieu thereof the word "program".

Section 106(d) is amended by inserting the words "or under any Federal-aid program" immediately after the words "Federal-aid system".

(f)(1) Section 108(a) of such title is amended by inserting the words "or under any of the Federal-aid highway programs," immediately after the words "Interstate System," the first time they appear, and by inserting the words "and programs" immediately after the words "Federal-aid highway systems" the second time they appear;

(2) Section 108(c)(2) is amended by inserting the words "or under any Federal-aid program" immediately after the words "Federal-aid system"; and

(3) The last sentence of section 108(c)(3) is amended by inserting the words "or under the Federal-aid program" immediately after the words "Federal-aid system".

(g)(1) Section 109(a) of such title is amended by inserting the words "or under any Federal-aid program" immediately after the words "Federal-aid system";

(2) Section 109(2) is amended by deleting the words "Projects on the Federal-aid secondary system" and inserting in lieu thereof the words "Federal-aid program projects";

(3) Section 109(e) is amended by deleting the phrase "No funds shall be approved for expenditure on any Federal-aid highway," and inserting in lieu thereof the following phrase: "No funds shall be approved for expenditure on any highway on the Federal-aid highway system or under the Federal-aid highway program,";

(4) Section 109(h) is amended by inserting the words "or under any Federal-aid program" immediately after the words "Federal-aid system";

(5) Section 109(i) is amended by inserting the words "or under any Federal-aid program" immediately after the words "Federal-aid system" each time they appear in the first and second sentences, by inserting the words "or under a Federal-aid program" immediately after the words "Federal-aid system" in the third sentence, by inserting the words "or program" immediately after the words "Federal-aid system"; in the fifth sentence, and by inserting the words "or under" immediately after the word "on" in such sentence; and

(6) Section 109(l)(1) is amended by inserting the words "or under any Federal-aid program" immediately after the words "Federal-aid system".

(h)(1) Section 113(a) of such title is amended by deleting the words "the primary and secondary, as well as their extensions in urban areas, and the Interstate System, authorized under the highway laws providing for the expenditure of Federal funds upon the Federal-aid systems," and inserting in lieu thereof the words "the primary as well as its extensions in urban areas, and the Interstate System, or under the Federal-aid programs, authorized under the highway laws providing for the expenditure of Federal funds upon the Federal-aid systems and programs,"; and

(2) Section 113(b) is amended by inserting the words "or under any of the Federal-aid programs" immediately after the words "Federal-aid systems".

(i) Section 115(a) of such title is amended to read as follows:

"(a) When a State has obligated all funds for the primary system or for any of the Federal-aid programs, other than the Interstate System, apportioned to it under section 104 of this title, and proceeds to construct any projects without the aid of Federal funds, including one or more parts of any project, on the primary system or under any of the Federal-aid programs in such State, other than the Interstate System, as that system may be designated or any of those programs may be comprised at that time, in accordance with all procedures and all requirements applicable to projects on the primary system or under any such program, except insofar as such procedures and requirements limit a State to the construction of projects with the aid of Federal funds previously apportioned to it, the Secretary, upon application by such State and his approval of such application, is authorized to pay to such State the Federal share of the costs of construction of such project when additional funds are apportioned to such State under section 104 of this title if—

(1) prior to the construction of the project the Secretary approves the plans and specifications therefor in the same manner as other projects on the Federal-aid system or under the Federal-aid program involved, and

(2) the project conforms to the applicable standards adopted under section 109 of this title.

The Secretary may not approve an application under this section unless an authorization is in effect for the fiscal year for which the application is sought beyond the currently authorized funds for such State and taht no application may be approved which will exceed the State's expected apportionment of such authorization.".

(j) Section 118(d) of such title is amended by inserting the words "or under a Federal-aid program" immediately after the words "Federal-aid system".

(k)(1) Section 120(a) of such title is amended by deleting in the first sentence all of the words between "(a)" and "(A)" and inserting in lieu thereof the words "Subject to the provisions of subsection (d) of this section, the Federal share payable on account of any project, financed with primary, rural, or urban funds, on the Federal-aid primary system, under the Federal-aid rural program, and under the Federal-aid urban program shall either"; and

(2) Section 120(g) is amended by deleting the words "Federal-aid highways" and inserting in lieu thereof the words "Federal-aid projects".

(l) Section 121(c) of such title is amended by inserting the words "or under a Federal-aid program" immediately after the words "Federal-aid system".

(m) Section 123(a) of such title is amended by deleting the words "the Federal-aid primary or secondary systems or on the Interstate System, including extensions thereof within urban areas," and inserting in lieu thereof the words "a Federal-aid system or under a Federal-aid program,".

(n) Section 124(a) of such title is amended by inserting the words "or under any of the Federal-aid programs," immediately after the phrase "including the Interstate System,".

(o) Section 129 of such title is amended as follows:

(1) In subsection (c), by inserting the words "and programs" immediately after the words "Federal-aid highway systems";

(2) In subsections (f) and (g)(2), by inserting the words "or programs" immediately after the words "Federal-aid systems" each time they appear; and

(3) In subsection (i), by deleting the words "Federal-aid system, other than the Interstate System" and inserting in lieu thereof the words "Federal-aid project other than one of the Interstate System,".

(p) Section 135(b) of such title is amended by placing a period after the word "flow" and deleting the remainder of the sentence.

(q) Section 137(a) of such title is amended by deleting the words "project on the Federal-aid urban system" and inserting in lieu thereof the words "project under the Federal-aid urban program".

(r) Section 140(a) of such title is amended by inserting the words "or under any of the Federal-aid programs" immediately after the words "Federal-aid systems".

(s) Section 141(b) of such title is amended to read as follows:

"(b) Each State shall certify to the Secretary before January 1 of each year that it is enforcing in accordance with section 127 of this title all State laws respecting maximum vehicle size and weights permitted on all roads receiving funds under the Federal-aid program, including the primary system, the Interstate System, and is a route functionally classified as an arterial or major collector.".

(t) Section 142 of such title is amended as follows:

(1) In subsection (a)(1) by inserting the words "and highways under the Federal-aid programs" immediately after the words "Federal-aid systems", and by deleting the words "as a project on any Federal-aid system";

(2) In subsection (a)(2) by deleting the words "project on the Federal-aid urban system" each place it appears and inserting in lieu thereof "project under the Federal-aid urban program"; and

(3) In subsection (e)(2) by deleting the words "projects on the Federal-aid urban system" and inserting in lieu thereof "projects under the urban program".

(u) Section 149 of such title is amended by inserting the words "or under any Federal-

aid program" immediately after the words "Federal-aid system".

(v) Section 150 of such title is amended as follows—

(1) By deleting the word "system" in the title and inserting the word "program" in lieu thereof.

(2) By amending the analysis of chapter 1 of title 23, United States Code, by deleting:

"150. Allocation of urban system funds.".

and inserting in lieu thereof:

"150. Allocation of urban program funds.".

(w) Section 302(b) of such title is amended by deleting the words "on the Federal-aid secondary system," and inserting in lieu thereof the words "under the Federal-aid rural program", and by deleting the words "secondary funds," and inserting in lieu thereof the words "rural funds,".

(x) Section 304 of such title is amended by inserting the words "and highways under the Federal-aid programs" between the word "systems" and the comma.

(y) Section 317(d) of such title is amended by inserting the words "or under a Federal-aid program" immediately after the words "Federal-aid system".

(z) Section 320(a) of such title is amended by inserting the words "or programs" immediately after the words "highway systems" in the second sentence.

(aa) Section 322 of such title is amended as follows:

(1) In subsection (c)(1) by deleting the words "any Federal-aid system," and inserting in lieu thereof the words "the Interstate System, the Primary System, or is a route functionally classified as an arterial or major collector,"; and

(2) In subsection (c)(2) by deleting the words "any Federal-aid system," and inserting in lieu thereof the words "the Interstate System, the Primary System, or is not a route functionally classified as an arterial or major collector,".

(bb) Section 402(d) of such title is amended by inserting the words "and programs" immediately after the words "Federal-aid systems".

TEMPORARY MATCHING FUND WAIVER

SEC. 244 (a) Notwithstanding any other provision of law, the Federal share of any qualifying project approved by the Secretary of Transportation under section 106(a), of title 23 United States Code, and of any qualifying project for which the United States becomes obligated to pay under section 117 of title 23, United States Code, during the period beginning on the date of enactment of this Act and ending September 30, 1983, shall be such percentage of the construction cost as the State highway department requests, up to and including 100 per centum.

(b) For purposes of this section, the term "qualifying project" means a project approved by the Secretary of Transportation under section 106(a) of title 23, United States Code, or a project for which the United States becomes obligated to pay under section 117 of title 23, United States Code, for which the Governor of the State submitting the project has certified, in accordance with regulations established by the Secretary, that sufficient funds are not available to pay the cost of the non-Federal share of the project.

(c) The total amount which may be obligated for qualifying projects in any State under subsection (a) shall not be greater than the excess of—

(1) The amount of obligation authority distributed to such State for fiscal year 1983 under section 104(b) of this Act, over

(2) the amount of obligation authority distributed to such State for fiscal year 1982 under section 3(b) of the Federal-Aid Highway Act of 1981.

(d) The total amount of such increases in the Federal share as are made pursuant to subsection (a) for any State shall be repaid to the United States by such State on or before September 30, 1984. Such payments shall be deposited in the Highway Trust Fund and such repaid amounts shall be credited to the last apportionment made for the category of funds for which the money so used was originally apportioned.

If a State has not made the repayment as required by subsection (d) of this section, the Secretary shall deduct from funds apportioned to a State under section 104(b) of title 23, United States Code, except for section 104(b)(5)(A), in each of the fiscal years ending September 30, 1985, and September 30, 1986, a pro rata share of each category of such apportioned funds, the total amount of which shall be equal to 50 per centum of the amount needed for repayment.

SEC. 245. (a) On October 1, the Secretary of Transportation shall allocate among the States, as defined in title 23, United States Code, amounts sufficient to insure that a State's percentage of apportionments in each such fiscal year of primary, secondary, Interstate, urban, bridge replacement and rehabilitation, hazard elimination, and rail-highway crossings funds under sections 104(b), 144 and 152 of title 23, United States Code and section 203 of the Highway Safety Act of 1973, as amended, shall not be less than 85 per centum of the percentage of estimated tax payments attributable to highway users in that State paid into the Highway Trust Fund, excluding the Mass Transit Account, in the latest fiscal year for which data is available.

(b) Amounts allocated pursuant to subsection (a) of this section shall be available for obligation when allocated for the year authorized plus three fiscal years, shall be subject to the provisions of title 23, United States Code, and may be obligated for primary, secondary, Interstate, urban, bridge replacement and rehabilitation, hazard elimination, and rail-highway crossings projects. Obligation limitations for Federal-aid highways and highway safety construction programs established by this Act or any subsequent Act shall not apply to obligations made under this section except where the provision of law establishing such limitation specifically amends or limits the applicability of this sentence. Sums allocated pursuant to this section shall not be considered to be sums allocated for purposes of section 104(b) of this Act.

(c) In order to carry out this section there is authorized to be appropriated, out of the Highway Trust Fund, excluding the Mass Transit Account, $526,000,000 for the fiscal year ending September 30, 1983, and such sums as may be necessary for each of the fiscal years ending September 30, 1984, September 30, 1985, September 30, 1986 and September 30, 1987.

COMMERCIAL MOTOR VEHICLE SIZE AND WEIGHT

SEC. 246. Section 127 of title 23, United States Code, is amended by striking the words "that such overall gross weight may not exceed eighty thousand pounds," following "*Provided*" and inserting in lieu thereof the following—

(1) "That each State shall establish a maximum gross weight of eighty-thousand pounds, a single axle weight of twenty thousand pounds, a tandem axle weight of thirty-four thousand pounds,"; and

(2) By striking the words "thereof that could" immediately following "combinations" and insert "which the States determined could".

INNOVATIVE TECHNOLOGIES

SEC. 247. (a) The Congress hereby finds and declares that it is in the national interest to encourage and promote untilization by the States of highway and bridge surfacing, resurfacing, or restoration materials which are produced from recycled materials or which contain asphalt additives to strengthen the materials. Such materials conserve energy and reduce the cost of resurfacing or restoring our highways.

(b) The Secretary of Transportation is hereby authorized for each of the fiscal years through September 30, 1985, to increase the Federal share as provided in sections 119, 120 and 144 of title 23, United States Code, by five percentum of any project submited by the State highway departments which contains in the plans, specifications, and estimates submitted pursuant to section 106 of title 23, United States Code, the use of the materials described in subsection (a). To be eligible for such supplemental Federal assistance, significant amounts of asphalt additives or recycled materials must be used in each project approved by the Secretary.

ENERGY IMPACTED ROADS

SEC. 248. (a) Section 105 of title 23, United States Code, is amended by adding at the end thereof the following new subsection—

"(h) In preparing programs to submit in accordance with subsection (a) of this section, the State highway department may give priority to projects for the reconstruction, resurfacing, restoration, or rehabilitation of highways which are incurring a substantial use as a result of transportation activites to meet national energy requirements and which will continue to incur such use, and in approving such programs the Secretary may give priority to such projects.".

(b) Section 120 of title 23, United States Code, is amended by adding at the end thereof the following new subsection—

"(k) Notwithstanding any other provision of this section, the Federal share payable on account of any project under this title to reconstruct, restore, and rehabilitate any highway which the Secretary determines, at the request of any State, is incurring a substantial use as a result of transportation activites to meet national energy requirements and will continued to incur such use is 85 per centum of the cost of such project.".

DEMONSTRATION PROJECT—DOWNTOWN CONGESTION RELIEF

SEC. 249. (a) The Secretary of Transportation is authorized to carry out a demonstration project on the Federal-aid urban system for the construction of a high level bridge over a high volume intercoastal waterway segment. The project shall demonstrate the reduced congestion resulting in the downtown area from the construction of such a bridge which serves a major port. Such project shall be subject to the provisions of chapter 1 of title 23, United States Code, applicable to highway projects on the Federal-aid system.

(b) There is authorized to be appropriated to carry out this section, out of the Highway Trust Fund, not to exceed $23,000,000 for the fiscal year ending September 30, 1983. Funds authorized to carry out this section shall be available in the same manner and to the same extent as if such funds were apportioned under Chapter 1 of title

23 U.S. Code, except that such funds shall remain available until expended. Obligations for this project shall not be subject to any obligation limitation for Federal-aid highways.

(c) In carrying out this section, the Secretary shall consult with the Secretary of the Army and the Commandant of the Coast Guard concerning permit procedures which will expedite completion of this bridge.

(d) The Secretary shall report to Congress upon completion of the project the results of this demonstration project, together with any recommendations the Secretary deems necessary.

DEMONSTRATION PROJECT

SEC. 250. (a) The Secretary is authorized to carry out a demonstration project in the vicinity of East Baton Rouge, Louisiana, for the purpose of demonstrating the efficacy of reducing traffic congestion in the immediate vicinity of a partial-diamond, partial-cloverleaf interchange which connects an east-west highway on the Interstate System and a four lane highway not on such system by providing a direct access ramp to, and a travel lane on, the Interstate highway and by eliminating a crossover which is used for access to the Interstate highway.

(b) There is authorized to be appropriated to carry out this section, out of the Highway Trust Fund, not to exceed in the aggregate $5,000,000 for the fiscal years beginning after September 30, 1982.

(c) Funds authorized by this section shall be available for obligation in the same manner and to the same extent as if such funds were apportioned under chapter 1 of title 23, United States Code, except that the Federal share of the cost of any project under this section shall be 100 per centum of the total cost of such project, and such funds shall remain available until expended.

TITLE III—MASS TRANSIT

SHORT TITLE

SEC. 301. This title may be cited as the "Federal Public Transportation Act of 1982".

AMENDMENTS TO SECTION 3 CAPITAL GRANT PROGRAM

SEC. 302. (a) Section 3(a)(2)(A) of the Urban Mass Transportation Act of 1964 (hereinafter in this title referred to as the "Act") is amended—

(1) by striking out "and" at the end of clause (i);

(2) by striking out the period at the end of clause (ii) and inserting in lieu thereof "; and"; and

(3) by adding at the end thereof the following:

"(iii) sufficient capability to maintain the facilities and equipment.".

(b) Section 3(a) of the Act is amended by adding at the end thereof the following:

"(5) The Secretary shall take into account the adverse effect of decreased commuter rail service in considering applications for assistance under this section for the acquisition of rail lines and all related facilities used in providing commuter rail service which are owned by a railroad subject to reorganization under title 11, United States Code."

DIRECT TRANSIT ASSISTANCE FUND

SEC. 303. (a) The section heading of section 4 of the Act is amended to read as follows:

"DIRECT TRANSIT ASSISTANCE FUND".

(b) Section 4(b) of the Act is repealed.

(c) Section 4 of the Act is amended—

(1) by striking the second sentence in subsection (a) and inserting in lieu thereof the following: "The Federal grant for any project to be assisted under section 3 which involves the construction of a new fixed-guideway system or an extension to an existing system (other than an exclusive facility for buses) shall be in an amount equal to 60 per centum of the net project cost. The Federal grant for any other project to be assisted under section 3 shall be in amount equal to 70 per centum of the net project cost. Notwithstanding the preceding two sentences, the Federal share of the total project cost of any project covered by a full funding contract, letter of intent, or letter of commitment in effect on the date of enactment of the Federal Public Transportation Act of 1982, or those projects within the federally agreed upon scope for the Washington, District of Columbia, metropolitan area transit system (as of such date), shall not be altered.";

(2) by redesignating subsection (a) as subsection (b); and

(3) by inserting after "Sec. 4." the following:

"(a)(1) To finance assistance under sections 3, 8, 9, 16(b), and 18 of this Act, and to finance assistance under subsection (e) of this section, there are authorized to be appropriated not to exceed $3,130,000,000 for the fiscal year ending September 30, 1983; $3,130,000,000 for the fiscal year ending September 30, 1984; and $3,130,000,000 for the fiscal year ending September 30, 1985. Amounts appropriated for the purposes of sections 3, 8, 9, 16(b) and 18 of this Act and subsection (e) of this subsection shall remain available until expended.

"(2) Of the amount appropriated pursuant to this subsection, the Secretary shall make available for the purposes of sections 6, 10, and 11 of this Act, and for administrative costs, including salaries and necessary expenses, not to exceed $75,000,000 for the fiscal year ending September 30, 1983, $75,000,000 for the fiscal year ending September 30, 1984, and $75,000,000 for the fiscal year ending September 30, 1985. Amounts appropriated for the purposes of sections 6, 10, and 11 shall remain available until expended.

"(3) Of the remaining amount appropriated pursuant to this subsection, the Secretary shall make avaialable—

"(A) 24 per centum (10 per centum beginning with the fiscal year ending September 30, 1985) for grants and loans under section 3(a) of this Act;

"(B) 67.25 per centum (79.63 per centum beginning with the fiscal year ending September 30, 1985) for grants under section 9(a)(2) of this Act for urbanized areas with populations of two hundred thousand or more;

"(C) 6.5 per centum (7.7 per centum beginning with the fiscal year ending September 30, 1985) for grants under section 9(a)(3) of this Act for urbanized areas with populations under two hundred thousand; and

"(D) 2.25 per centum (2.67 per centum beginning with the fiscal year ending September 30, 1985) for grants under section 18 of this Act.

"(4) Of the funds available for obligation under section 3 $50,000,000 shall be used for the purposes of section 8 of this Act. Nothing herein shall prevent urbanized areas from using additional funds available under this subsection for planning purposes.".

(d) Subsections (c), (d), (e), and (f) of such section are repealed.

(e) Subsection (g) is redesignated as subsection (c) and is amended by adding at the end thereof the following: "Notwithstanding the preceding sentence or any other provision of this Act, the total amount authorized to be appropriated under this Act and under Public Law 96-148 may not exceed $3,495,000,000 for the fiscal year ending September 30, 1983; and $3,495,000,000 for the fiscal year ending September 30, 1984.".

(f) Subsection (h) of such section is redesignated as subsection (d).

(g) Subsection (i) of such section is redesignated as subsection (e) and is amended by striking out "available pursuant to section 4(c)(3)(A)" and inserting in lieu thereof "appropriated for the purpose of section 3".

FORMULA CAPITAL AND OPERATING ASSISTANCE PROGRAM

SEC. 304. (a) the Urban Mass Transportation Act of 1964 is amended by inserting immediately after section 8 the following new section:

FORMULA CAPITAL AND OPERATING ASSISTANCE PROGRAM

"SEC. 9. (a)(1) Grants under this section shall be available to finance the planning, acquisition, construction, improvement, and operating costs of facilities, equipment, and associated capital maintenance items for use, by operation or lease or otherwise, in mass transportation service. As used in this section, the term 'associated capital maintenance items' means any equipment and materials each of which costs no less than 1 per centum of the current fair market value of rolling stock comparable to the rolling stock for which the equipment and materials are to be used.

"(2) To provide grants to urbanized areas which populations of two hundred thousand or more, the Secretary shall apportion for expenditure for each fiscal year the sums authorized and appropriated pursuant to section 4(a)(3)(B) as follows:

"(A) 68 per centum of such sums shall be apportioned among urbanized areas as follows:

"(i) 75 per centum shall be made available for expenditure in only those urbanized areas or parts thereof with a population of one million or more, and on the basis of a formula under which such urbanized area or parts thereof will be entitled to receive an amount equal to the sum of—

"(I) 50 per centum of the amount available under this paragraph multiplied by the ratio which the total bus revenue vehicle miles operated in or directly serving such urbanized areas or part thereof bears to the total bus revenue miles in all such urbanized areas;

"(II) 25 per centum of such amount multiplied by the ratio which the population of such urbanized area or part thereof, as designated by the Bureau of the Census, bears to the total population of all such urbanized areas as shown by the latest available Federal census; and

"(III) 25 per centum of such amount multiplied by a ratio for that urbanized area determined on the basis of population weighted by a factor of density, as determined by the Secretary; and

"(ii) 25 per centum shall be made available for expenditure in only those urbanized areas or parts thereof with a population of less than one million and on the basis of a formula under which such urbanized areas or parts thereof will be entitled to receive an amount equal to the sum of—

"(I) 50 per centum of the amount available under this paragraph multiplied by the ratio which the total bus revenue vehicle miles operated in or directly serving such urbanized area or part thereof bears to the

total bus revenue vehicle miles in all such urbanized areas;

"(II) 25 per centum of such amount multiplied by the ratio which the population of such urbanized area or part thereof, as designated by the Bureau of the Census, bears to the total population of all such urbanized areas as shown by the latest available Federal census; and

"(III) 25 per centum of such amount multiplied by a ratio for that urbanized area determined on the basis of population weighted by a factor of density, as determined by the Secretary; and

"(B) 32 per centum of such sums shall be made available for expenditure on the basis of a formula under which such urbanized areas or parts thereof will be entitled to receive an amount equal to the sum of—

"(i) 60 percent of the total amount so apportioned multiplied by a ratio for that urbanized area determined on the basis of fixed guideway revenue vehicle miles, as determined by the Secretary; and

"(ii) 40 percent of the total amount so apportioned multiplied by a ratio for that urbanized area determined on the basis of fixed guideway route miles, as determined by the Secretary.

No urbanized area providing commuter rail service and having a population of seven hundred and fifty thousand or more shall receive less than 0.75 per centum of the sums made available under this subparagraph (B). Under this subparagraph, fixed guideway revenue vehicle or route miles provided, and passengers served thereby, in an urbanized area of less than two hundred thousand population, where such revenue vehicle miles or route miles and passengers served could otherwise be attributable to an urbanized area with a population of 1,000,000 or more in an adjacent State, shall be attributable to the public body in the State in which such urbanized area of less than two hundred thousand population is located as if the public body were an urbanized area of two hundred thousand or more so long as such public body contracts, directly or indirectly, for such service. For the purpose of this subparagraph, the terms, 'fixed guideway revenue vehicle miles' and 'fixed guideway route miles' shall include ferry boat operations directly or under contract by the designated recipient.

"(3) To make grants to urbanized areas with populations of less than two hundred thousand, the Secretary shall apportion for expenditure for each fiscal year the sums authorized and appropriated pursuant to section 4(a)(3)(C) as follows:

"(A) 50 per centum of the amount available under this paragraph multiplied by the ratio which the population of such urbanized areas in the State bears to the total population of all such urbanized areas in all States as shown in the latest available Federal census; and

"(B) 50 per centum of such funds multiplied by a ratio for such urbanized areas determined on the basis of population weighted by a factor for the average density for urbanized areas in such State as determined by the Secretary.

"(4)(A) The Federal grant for any construction project under this subsection shall not exceed 80 per centum of the net project cost of such project. The Federal grant for any project for operating expenses shall not exceed 50 per centum of the net project cost of such project. The remainder shall be provided in cash from sources other than Federal funds or revenues from the operation of public mass transportation systems. Any public or private transit system funds so provided shall be solely from undistributed cash surpluses, replacement or depreciation funds or reserves available in cash, or new capital.

"B) The amount of funds apportioned under this section which may be used for operating assistance shall not exceed 80 per centum of the amount of funds apportioned in fiscal year 1982 under paragraphs (1)(B), (2)(B), and (3)(B) of section 5(a) of this Act to an urbanized area with a population of one million or more, 90 per centum of funds so apportioned to an urbanized area with a population of two hundred thousand or more and less than one million population; and 95 per centum of funds so apportioned to an urbanized area of less than two hundred thousand population. Notwithstanding the preceding sentence, an urbanized area that became an urbanized area for the first time under the 1980 census may use not to exceed 40 per centum of its apportionment under this section for operating assistance.

"(5)(A) Notwithstanding the provisions of paragraph (4)(B), any recipient may, in fiscal years 1983 and 1984, transfer the use for operating assistance a portion of its apportionment under this section that otherwise is available only for capital assistance, except that the recipient's total operating assistance under this section (including any amounts transferred from its capital apportionment) for the fiscal year in which the transfer occurs shall not exceed the amount of Federal funds such recipient was apportioned under sections 5(a)(1)(A), 5(a)(2)(A), and 5(a)(3)(A) of this Act for the fiscal year ending September 30, 1982. The total operating assistance under this section (including any amounts transferred from its capital apportionment) for a recipient in an urbanized area that became an urbanized area for the first time under the 1980 census may not exceed 50 per centum of its apportionment under this section.

"(B) Any recipient that intends to carry out a transfer under this subsection shall, at the time it submits a statement of activities to the Secretary under subsection (b)(1)(B)—

"(i) certify that it has provided public notice of its intent to transfer its capital apportionment (including notice of the funding reductions resulting from utilization of this subsection and other requirements of this subsection) and provided an opportunity for public comment; and

"(ii) certify that it has developed a three-year plan to assure that in the fiscal year ending September 30, 1985, it will not need to use and will not use its capital apportionment for operating assistance.

"(C) Whenever any recipient transfers its capital apportionment for operating assistance in accordance with the requirements of this subsection, two-thirds of the amount transferred shall be available to the recipient for operating assistance and the remaining one-third amount shall be available to the Secretary to make discretionary grants under this section. In making such discretionary grants, first priority shall be given to any urbanized area that is apportioned an amount under this section in fiscal year 1983 which is less than the amount such urbanized area was apportioned under section 5 of this Act for the fiscal year ending September 30, 1982. Any amounts remaining shall be available for discretionary construction grants under this section subject to the second and third sentences of section 4(b).

"(D) The authority of recipients to use the provisions of this paragraph shall terminate on September 30, 1984.

"(6)(A) The Governor, responsible local officials, and publicly owned operators of mass transportation services in accordance with the planning process required under section 8 of this Act shall designate a recipient or recipients to receive and dispense the funds appropriated under this section that are attributable to urbanized areas of two hundred thousand or more population. In any case in which a statewide or regional agency or instrumentality is responsible under State laws for the financing, construction and operation, directly, by lease, contract or otherwise, of public transportation services, such agency or instrumentality shall be the recipient to receive and dispense such funds. As used in this section, the term 'designated recipient' shall refer to the recipient selected according to the procedures required by this section.

"(B) Sums apportioned under this subsection not made available for expenditure by designated recipients in accordance with the terms of subparagraph (A) shall be made available to the Governor for expenditure in urbanized areas or parts thereof with populations of less than two hundred thousand.

"(7) The Governor may transfer an amount of the State's apportionment under paragraph (3) to supplement funds apportioned to the State under section 18(a) of this Act, or to supplement funds apportioned to urbanized areas with populations of 300,000 or less under this subsection. The Governor may make such transfers only after consultation with responsible local officials and publicly owned operators of mass transportation services in each area to which the funding was originally apportioned pursuant to paragraph (3). The Governor may transfer an amount of the State's apportionment under section 18(a) to supplement funds apportioned to the State under paragraph (3). Amounts transferred shall be subject to the capital and operating assistance limitations applicable to the original apportionments of such amounts.

"(8) Sums apportioned under this section shall be available for obligation by the Governor or designated recipient for a period of three years following the close of the fiscal year for which such sums are apportioned. Any amounts so apportioned remaining unobligated at the end of such period shall be added to the amount available for apportionment under this section for the succeeding fiscal year.

"(9) As used in this subsection, the term 'density' means the number of inhabitants per square mile, and the term 'population' means population as designated by the Bureau of the Census as shown by the latest available Federal census.

"(b)(1) To receive a grant under this section for any fiscal year, a recipient—

"(A) shall comply with title VI of the Civil Rights Act of 1964 in the use of funds under this Act, and subsections (e), (f), and (g) of section 3 of this Act, and section 13 of this Act;

"(B) shall, within the time specified by the Secretary, submit a statement of activities to be funded under this section prepared pursuant to subsection (d), a description of its proposed use of funds, and the certifications required by this subsection; and

"(C) shall provide satisfactory assurances, in such manner and form as may be required by the Secretary and in accordance with such terms and conditions as the Secretary may prescribe, that the rates charged elderly and handicapped persons during nonpeak hours for transportation utilizing

or involving the facilities and equipment of the project financed with assistance under this subchapter will not exceed one-half of the rates generally applicable to other persons at peak hours, whether the operation of such facilities and equipment is by the applicant or is by another entity under lease or otherwise.

"(2) Upon receipt of the statement, description, and certifications required by this section, after finding that a recipient is in compliance with paragraph (1), and after compliance with the National Environmental Policy Act of 1969 using the provisions of subsection (e) or otherwise, the Secretary shall make the amounts determined pursuant to this section available to the recipient.

"(c) To receive a grant under this section, the recipient must certify that the recipient—

"(1) has or will have the legal, financial, and technical capacity to carry out the proposed project;

"(2) has the authority to apply for the grant under this subsection;

"(3) will carry out the project in compliance with the Uniform Relocation Assistance and Land Acquisition Policies Act of 1970 and section 7 of this Act;

"(4) will have satisfactory continuing control, through operation, lease, or otherwise, over the use of the facilities or equipment assisted under this Act and will maintain such facilities and equipment;

"(5) in carrying out procurements under this subsection, will use competitive procurements (as defined or approved by the Secretary), will not use procurements utilizing exclusionary or discriminatory specifications, and will carry out procurements in compliance with section 401 of Public Law 95-599;

"(6) will comply with the National Flood Insurance Act of 1968;

"(7) has complied with the requirements of subsections (d) and (e);

"(8) has available and will provide funds from other than Federal sources as required by section 4 of this Act and has complied with the requirements of sections 8, 16, and 19 of this Act; and

"(9) has a locally developed process to solicit and consider public comment prior to raising fares or implementing a major reduction of transit service.

"(d) Each recipient shall—

"(1) make available to the public information concerning the amount of funds available under this subsection and the range of activities that the recipient proposes to undertake with such funds;

"(2) develop a proposed statement concerning activities to be funded in consultation with interested parties, including private transportation providers;

"(3) publish a proposed statement in such a manner to afford affected citizens, private transportation providers, or as appropriate, local elected officials an opportunity to examine its content and to submit comments on the proposed statement and on the performance of the recipient; and

"(4) hold one or more public hearings to obtain the views of citizens on activites to be funded under this subsection.

In preparing the final statement to be submitted to the Secretary, the recipient shall consider any such comments and views, particularly those of private transportation providers, and shall, if deemed appropriate by the recipient, modify the proposed statement. The final statement shall be made available to the public. Compliance with this paragraph will satisfy the requirements of subsection (d) of section 3.

"(e)(1) In order to assure that the National Environmental Policy Act of 1969, and other provisions of law which further the purposes of such Act (as specified in regulations issued by the Secretary), are effectively implemented in connection with the expenditure of funds under this subsection, and to assure to the public undiminished protection of the environment, the Secretary, in lieu of the environmental protection procedures otherwise applicable, may, under regulations issued by him, provide for the release of funds to recipients who assume all of the responsibilities for environmental review, decisionmaking, and acting pursuant to such Act, and such other provisions of law as the regulations of the Secretary specify, that would apply to the Secretary were he to undertake such projects as Federal projects. The Secretary shall issue regulations to carry out this section only after consultation with the Council on Environmental Quality.

"(2) The Secretary shall approve the release of funds in accordance with the procedures authorized by this subsection only if, at least fifteen days prior to such approval and prior to any commitment of funds, the applicant has submitted to the Secretary a request for such release accompanied by a certification which meets the requirements of paragraph (3). The Secretary's approval of any such certification shall be deemed to satisfy his responsibilities under the National Environmental Policy Act of 1969 and such other provisions of law as the regulations of the Secretary specify insofar as those responsibilities relate to the application and release of funds for projects to be carried out pursuant thereto which are covered by such certification.

"(3) A certification under the procedures authorized by this subsection shall—

"(A) be in a form acceptable to the Secretary;

"(B) be executed by the chief executive officer or other officers of the applicant qualified under regulations of the Secretary;

"(C) specify that the applicant has fully carried out its responsibilities as described under paragraph (1); and

"(D) specify that the certifying officer—

"(i) consents to assume the status of a responsible Federal official under the National Environmental Policy Act of 1969 and each provision of law specified in regulations issued by the Secretary to the extent that as the provisions of such Act or other such provisions of law apply pursuant to paragraph (1); and

"(ii) authorizes and consents on behalf of the applicant and himself to accept the jurisdiction of the Federal courts for the purposes of enforcement of his responsibilities as such an official.

"(f) The Secretary shall not approve a grant for a project under this section unless he finds that such project is part of the approved program of projects required by section 8 of this Act.

"(g) As soon as practicable after receiving the submissions required in this section, the Secretary shall enter into an annual projects agreement with the Governor, his designee, or the designated recipient of each urbanized area.

"(h)(1) Each recipient of assistance under this section shall submit to the Secretary annually, at a time determined by the Secretary, a statement concerning the use of funds made available under this section together with an assessment of how such use compares to the statement of activities identified under subsection (d). The Secretary shall, at least on an annual basis, conduct, or require the recipient to have independently conducted, reviews and audits as may be deemed necessary or appropriate by the Secretary to determine whether—

"(A) the recipient has carried out its activities submitted in accordance with subsection (b)(1)(B) in a timely and effective manner and has a continuing capacity to carry out those activities in a timely and effective manner; and

"(B) the recipient has carried out those activities and its certifications and has used its Federal funds in a manner which is consistent with the requirements of this Act and other applicable laws. Audits of the use of Federal funds shall be conducted in accordance with the accounting standards of the General Accounting Office.

"(2) In addition to the reviews and audits described in paragraph (1), the Secretary shall, not less than once every three years, perform a full review and evaluation of the performance of a recipient in carrying out the recipient's program, with specific reference to compliance with statutory and administrative requirements, and consistency of actual program activities with the statement of proposed activities required under subsection (b) of this section and the planning process required under section 8.

"(3) the Secretary may make appropriate adjustments in the amount of annual grants in accordance with the Secretary's findings under this subsection, and may reduce or withdraw such assistance or take other action as appropriate in accordance with the Secretary's review, evaluation, and audits under this subsection.

"(i) the provisions of section 1001 of title 18, United States Code, apply to any certification or submission under this section. In addition, if any false or fraudulent statement or related act within the meaning of section 1001 ot title 18, United States Code, is made in connection with a certification or submission under this subsection, the Secretary may terminate and seek appropriate reimbursement of the affected grant or grants directly or by offsetting funds available under this subsection.

"(j) A recipient may request the Secretary to approve its procurement system. If, after consultation with the Office of Federal Procurement Policy, the Secretary finds that such system provides for competitive procurement, the Secretary shall approve such systems for use for all procurements financed under this subsection. Such approval shall be binding until withdrawn. A certification from the recipient under subsection (c)(5) is still required.".

LETTERS OF INTENT

SEC. 305. Section 3(a)(4) of the act is amended—

(1) by inserting after the first sentence thereof the following: "At least thirty days prior to the issuance of a letter of intent under this paragraph, the Secretary shall notify, in writing, the Committee on Public Works and Transportation of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate, of the proposed issuance of such letter of intent.";

(2) by striking out "in section 4(c)" and inserting in lieu thereof the following: "to carry out section 3"; and

(3) by adding at the end thereof the following: "Funding for projects covered by letters of intent or letters of commitment issued, and full funding contracts executed, prior to the date of enactment of the Feder-

al Public Transportation Act of 1982 shall be given priority in making grants under this section after the date of enactment of such Act. None of the terms and conditions of any such letter of intent and full funding contract may be altered unless agreed to by all parties to the contract. The Secretary may not, directly or indirectly, take any action with respect to future available budget authority except as provided by this paragraph.".

AMENDMENTS TO SECTION 5 URBAN MASS TRANSIT PROGRAM

SEC. 306. Section 5 of the Act is amended—

(1) by adding immediately after subsection (c)(4) the following:

"(5) Apportionments for fiscal year 1975 shall be deemed to have lapsed on September 30, 1977, and apportionments for fiscal year 1976 shall be deemed to have lapsed on September 30, 1978."; and

(2) by adding at the end thereof the following new subsection:

"(o) Notwithstanding any other provision of this section, sums authorized, appropriated, and apportioned pursuant to this section that have not lapsed shall remain available as initially apportioned to the urbanized areas or parts thereof for expenditure in accordance with the provisions of this section until September 30, 1985.".

AMENDMENTS TO SECTION 12

SEC. 307. Section 12(c)(1) of the Act is amended by inserting before the semicolon the following: ", and such term also means any bus rehabilitation project which extends the economic life of a bus five years or more".

(b) Section 12(c)(2) of the Act is amended by inserting before the semicolon the following: "and any public transportation facility which utilizes a right-of-way rail usable by other forms of transportation and also means a public transit facility which utilizes a fixed catenary system".

AMENDMENTS TO THE REPORTING SYSTEM

SEC. 308. Section 15(b) of the Act is amended by striking out "section 5" and inserting in lieu thereof "section 5 or 9".

AMENDMENTS TO FORMULA GRANTS FOR NONURBANIZED AREAS

SEC. 309. (a) Section 18(a) of the Act is amended by striking out "section 4(e)" and inserting in lieu thereof "section 4(a)(3)(D)".

(b) Subsection (c) of such section is amended by striking out "three years" in the first sentence and inserting in lieu thereof "two years".

(c) Subsection (c) of such section is amended by inserting after the first sentence thereof the following: "After September 30, 1982, any amounts remaining unobligated at the end of such period or which are deobligated at the end of such period shall be added to the amount available for apportionment under section 4(a)(3)(D).".

AMENDMENTS TO SECTION 16

SEC. 310. Section 16(b) of the Act is amended by striking out "section 4(c)(3) of this Act, 2 per centum; and inserting in lieu thereof "section 4(a)(3)(A) of this Act, 3.5 per centum".

INTERCITY BUS SERVICE/TERMINAL DEVELOPMENT PROGRAM

SEC. 311. Sections 21 and 22 of the Act are repealed.

WATERBORNE TRANSPORTATION DEMONSTRATION PROJECT

SEC. 312. Section 320(b) of the Surface Transportation Assistance Act of 1978 (Public Law 95-599) is amended by adding at the end thereof the following: "No funds are authorized to be appropriated to carry out the provisions of subsection (a) after September 30, 1982.".

REPEAL OF SAFETY AUTHORITY

SEC. 313. Section 107 of the National Mass Transportation Assistance Act of 1974 (Public Law 93-503) is repealed.

TRANSIT CAPITAL INFRASTRUCTURE PROGRAM

SEC. 314. (a) In addition to amounts authorized under section 3 (a) of the Urban Mass Transportation Act of 1964, there are authorized to be appropriated from the Transit Account of the Highway Trust Fund not to exceed $550,000,000 for the fiscal year ending September 30, 1983, and $1,100,000,000 per fiscal year for each of the fiscal years ending September 30, 1984, and September 30, 1985. Notwithstanding the preceding sentence, the amount authorized to be appropriated for any fiscal year shall not exceed the amount as estimated annually by the Secretary of the Treasury to be received in the Transit Account of the Highway Trust Fund including interest thereon in each such fiscal year from subsections (a) and (b) of section 4041 of the Internal Revenue Code of 1954 and section 4081 of the Internal Revenue Code of 1954.

(b) Using sums available pursuant to subsection (a) the Secretary is authorized to make grants under this section to finance urban transit capital infrastructure projects for fiscal years 1983 and 1984. The Secretary shall award grants under this section to applicants with projects which can begin construction or manufacturing within the shortest possible time. The Secretary may not limit grants under this section for bus purchases if the Secretary finds that qualified bus manufacturers do not have capacity to meet the requirements of the preceding sentence. To the extent practicable the Secretary shall emphasize projects which are labor intensive.

(c) The Secretary shall, to the extent practicable, provide for a fair and equitable distribution among all States of funds appropriated pursuant to this section. In any fiscal year, amounts so distributed to recipients in any State shall not be less than one-half of one percent of the funds available under this section in that fiscal year. The Secretary is authorized to withdraw funds made available under this section for use for transit capital infrastructure projects and to use those funds to make grants for eligible highway projects under title 23, United States Code. The Secretary shall not approve a grant for such a highway project unless he has received assurances from the Governor, on behalf of urbanized areas of less than 200,000 population, made after consultation with operators of publicly owned mass transportation systems in such areas, or the designated recipient, in an urbanized area of 200,000 or more population, made after consultation with mass transportation providers in such urbanized areas, that there are not a sufficient number of qualified transit capital infrastructure projects within that fiscal year within such State or urbanized area to use the funds distributed by the Secretary under this section. The aggregate amount of such nontransit grants shall not exceed 15 per centum of the total funds available under this section in any fiscal year.

(d) As used this section, the term "transit capital infrastructure development project" means any project in an urbanized area or portion thereof involving the acquisition, rehabilitation, and replacement or rolling stock, the construction, rehabilitation, and modernization of commuter rail and fixed guideway systems, the construction, rehabilitation, modernization, and replacement of bus facilities and related equipment, the renovation and improvement of historic transportation facility with related private investment, and intermodal terminals.

(e) The Federal share for projects approved under this section shall be 80 per centum.

(f) The limitations contained in subsection (b), (c), (d), and (e) shall expire on September 30, 1984. After that date funds authorized under subsection (a) shall be available under the requirements of section 3 (a) of the Urban Mass Transportation Act of 1964.

(g) Except as otherwise provided by this section, a grant under this section shall be subject to the same terms and conditions as are applicable to grants under section 3 of the Urban Mass Transportation Act of 1964.

TITLE IV—COMMERCIAL MOTOR VEHICLE SAFETY

DEFINITIONS

SEC. 401. For purposes of this title, unless the context otherwise requires, the term—

(1) "commerce" means trade, traffic, or transportation within the jurisdiction of the United States between a place in a State and a place outside of such State, or which affects trade, traffic, or transportation between a place in a State and a place outside of such State;

(2) "commercial motor vehicle" means any self-propelled or towed vehicle used on the highways in commerce principally to transport passengers or cargo—

(A) if such vehicle has a gross vehicle weight rating of 10,000 or more pounds;

(B) if such vehicle is designed to transport more than 10 passengers, including the driver; or

(C) if such vehicle is used in the transportation of materials found by the Secretary to be hazardous for the purposes of the Hazardous Materials Transportation Act, as amended (49 U.S.C. 1801 et seq.);

(3) "employee" means—

(A) a driver of a commercial motor vehicle (including an independent contractor while in the course of personally operating a commercial motor vehicle);

(b) a mechanic;

(C) a freight handler; or

(D) any individual other than an employer; who is employed by a commerical motor carrier and who in the course of his employment directly affects commercial motor vehicle safety, but such term does not include an employee of the United States, any State, or a political subdivision of a State who is acting within the course of such employment;

(4) "employer" means any person engaged in a business affecting commerce who owns or leases a commerical motor vehicle in connection with that business, or assigns employees to operate it in commerce, but such term does not include the United States, any State, or a political subdivision of a State;

(5) "person" means one or more individuals, partnerships, associations, corporations, business trusts, or any other organized group of individuals;

(6) "Secretary" means the Secretary of Transportation; and

(7) "State" means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Is-

lands, American Samoa, Guam, or the Commonwealth of the Nothern Marianas.

DUTIES

SEC. 402. Each employer and employee shall comply with the safety and health rules, regulations, standards, and orders issued pursuant to this title which are applicable to his own actions and conduct.

REGULATORY AUTHORITY AND STANDARDS

SEC. 403. (a) The Secretary shall establish and revise such rules, regulations, standards, and orders as may be necessary in order to further the purpose of this title. The Secretary shall where practicable consider costs and benefits before revising existing rules, regulations, standards, and orders or before promulgating new rules, regulations, standards, or orders, Such rules, regulations, standards, and orders shall be directed toward assuring that—

(1) commerical motor vehicles are safely maintained, equipped, loaded, and operated;

(2) the responsibilities imposed upon drivers of commercial motor vehicles do not impair a driver's ability to operate safely;

(3) the physical condition of drivers of commercial motor vehicles is adequate to enable them to drive safely; and

(4) the operation of commercial motor vehicles does not create deleterious effects on the physical condition of such drivers.

(b)(1) The Secretary shall promulgate any such rule or regulation within a period of 1 year after the date of commencement of any proceeding respecting such rule or regulation. If the Secretary determines that any such promulgation will not be completed within such time period, the Secretary shall immediately notify the Congress and shall furnish the reasons for the delay, information regarding the resources assigned, and the projected completion date, for any such proceeding. If such rule or regulation has not been promulgated within 1 year after the date of the commencement of any proceeding with respect to such rule or regulation, the Secretary shall supply the Congress with current data regarding the information specified in the preceding sentence, and shall provide the Congress with such information at the end of every 60-day period thereafter during which the proceeding remains incomplete.

(2) All rules, regulations, standards, and orders issued under this section shall be promulgated in accordance with section 553 of title 5, United States Code (without regard to sections 556 and 557 of such title), except that the time periods specified in paragraph (1) of this subsection shall apply to such promulgation.

(c) The Secretary may waive in whole or in part application of any rule, regulation, standard, or order established under this section with respect to any person or class of persons if he determines that such waiver is in the public interest and is consistent with the safe operation of commercial motor vehicles. Any waiver permitted under this subsection shall be published in the Federal Register, together with the reasons for such waiver. Any final agency action taken under this section is subject to judicial review as provided in chapter 7 of title 5, United States Code.

(d)(1) The Secretary and the Director of the National Institute for Occupational Safety and Health shall, in consultation with the Secretary of Labor, undertake a study of health hazards to which employees engaged in the operation of commercial motor vehicles are exposed, and shall develop such materials and information as are necessary to enable such employees to carry out their employment in a place and manner free from recognized hazards that are causing or are likely to cause death or serious physical harm. The study shall include recommendations regarding the most appropriate method for regulating and protecting the health of operators of commercial motor vehicles. Such study shall be submitted to the Congress within 1 year after the date of enactment of this title.

(2) There are authorized to be appropriated out of the Highway Trust Fund to the Secretary for fiscal year 1984 not to exceed $1,500,000 for purposes of carrying out the provisions of this subsection.

(e) The Secretary, the Director of the National Institute for Occupational Safety and Health, and the Secretary of Labor shall coordinate their activities to insure adequate protection of the safety and health of operators of commercial motor vehicles. Such Secretaries and Director shall attempt to minimize paperwork burdens, to assure maximum coordination, and to avoid overlap or the imposition of undue burdens on persons subject to such rules, regulations, standards, and orders.

GENERAL POWERS

SEC. 404.(a) The Secretary is authorized to conduct, directly or indirectly, such research, development, demonstrations, and training activities as are considered appropriate to develop rules, regulations, standards, and orders authorized to be promulgated under section 403 of this title, to design and develop improved enforcement procedures and technologies, and to familiarize affected persons with such rules, regulations, standards, and orders.

(b) In carrying out his functions under this title, the Secretary is authorized to perform such acts including conducting investigations and inspections, compiling statistics, making reports, issuing subpenas, requiring production of documents, records, and property, taking depositions, holding hearings, prescribing recordkeeping and reporting requirements, and carrying out and contracting for such research, development, testing, evaluation, and training as he determines necessary to carry out the provisions of this title, or rules, regulations, standards, or orders issued pursuant thereto. With respect to the provisions of this title, if the Secretary approves a plan pursuant to section 411 of this title, the Secretary may delegate to a State such functions respecting the enforcement (including investigations) of the provisions of this title or rules, regulations, standards, or orders issued pursuant thereto as he determines appropriate to carry out the provisions of this title.

INSPECTIONS AND WARRANTS

SEC. 405. (a)(1) To carry out the Secretary's responsibilities under this title, agents of the Secretary are authorized to enter upon, inspect, and examine facilities, equipment, operations, and pertinent records without advance notice, in accordance with the provisions of paragraph (2) of this subsection. Any such agent of the Secretary shall display proper credentials when requested and may consult with employers and employees and their duly authorized representatives, and shall offer them a right of accompaniment.

(2)(A) A warrant under this paragraph shall be required for any entry or administrative inspection (including impoundment of motor vehicles or motor vehicle equipment) authorized by this section, except if such entry or inspection is—

(i) with the consent of the employer or agent of the employer in charge of the business, establishment, or premises;

(ii) in situations involving inspection of motor vehicles where there is reasonable cause to believe that the mobility of the motor vehicle makes it impractical to obtain a warrant;

(iii) in any other exceptional or emergency circumstance where time or opportunity to apply for a warrant is lacking;

(iv) for access to and examination of books, records, and any other documentary evidence which can be easily altered, manufactured, or falsified; and

(v) in any other situations where a warrant is not constitutionally required.

(B) Issuance and execution of adminstrative inspection warrants shall be as follows:

(i) Any judge of the United States or of a State court of record, or any United States magistrate, may, within his territorial jurisdiction, and upon proper oath or affirmation showing probable cause, issue warrants for the purpose of conducting administrative inspections authorized by this section and of impoundment of motor vehicles or motor vehicle equipment appropriate to such inspections. For the purposes of this section, the term "probable cause" means a valid public interest in the effective enforcement of this title, or rules, regulations, standards, or orders issued thereunder sufficient to justify administrative inspections of the area, establishment, premises, records, or motor vehicles, or contents thereof, in the circumstances specified in the application for the warrant.

(ii) A warrant shall be issued only upon an affidavit of an officer, or representative of the Secretary having knowledge of the facts alleged, sworn to before the judge or magistrate and establishing the grounds for issuing the warrant. If the judge or magistrate is satisfied that grounds for the application exist or that there is a reasonable basis for believing they exist, he shall issue a warrant identifying the area, establishment, premises, or motor vehicle to be inspected, the purpose of such inspection, and, where appropriate, the type of property to be inspected, if any. The warrant shall—

(I) identify the items or type of property to be impounded, if any;

(II) be directed to a person authorized under this section to execute it;

(III) state the grounds for its issuance and the name of the person or persons whose affidavit has been taken in support thereof;

(IV) command the person to whom it is directed to inspect the area, establishment, premises, records, or motor vehicle identified for the purpose specified, and where appropriate, shall direct the impoundment of the property specified;

(V) direct that it be served during the hours specified in it; and

(VI) designate the judge or magistrate to whom it shall be returned.

(iii) A warrant issued pursuant to this section must be executed and returned within 10 days of its date unless, upon a showing by the Secretary of a need therefor, the judge or magistrate allows additional time in the warrant. If property is impounded pursuant to a warrant, the person executing the warrant shall give the person from whom or from whose premises the property was taken a copy of the warrant and a receipt for the property taken or shall leave the copy and receipt at the place form which the property was taken. The return of the warrant shall be made promptly and shall be accompanied by a written inventory

of any property taken. The inventory shall be made in the presence of the person executing the warrant and of the person from whose possession or premises the property was taken, if they are present, or in the presence of at least one credible person other than the person making such inventory, and shall be verified by the person executing the warrant. The judge or magistrate, upon request, shall deliver a copy of the inventory to the person from whom or from whose premises the property was taken and the applicant for the warrant.

(iv) The judge or magistrate who has issued a warrant under this section shall attach to the warrant a copy of the return and all papers filed in connection therewith and shall file them with the clerk of the district court of the United States for the judicial district in which the inspection was made.

DUTY TO INVESTIGATE COMPLAINTS; PROTECTION OF COMPLAINANTS

SEC. 406. (a) The Secretary shall timely investigate any nonfrivolous written complaint alleging that a material violation of any rule, regulation, standard, or order issued under this title is occurring or has occurred within the preceding 60 days. The complainant shall be timely notified of findings resulting from such investigation. The Secretary shall not be required to conduct separate investigations of duplicative complaints.

(b) Notwithstanding the provisions of section 552 of title 5, United States Code, the Secretary shall not disclose the identity of complainants unless it is determined that such disclosure is necessary to prosecute a violation. If disclosure becomes necessary, the Secretary shall take every practical measure within his authority to assure that the complainant is not subject to harassment, intimidation, disciplinary action, discrimination, or financial loss as a result of such disclosure.

PENALTIES

SEC. 407. (a) If the Secretary finds that a violation of sections 402 through 417 of this title has occurred, the Secretary shall issue a written notice to the violator. Such notice shall describe with reasonable particularity the nature of the violation found and the provision which has been violated. The notice shall fix a reasonable time for abatement of the violation, specify the appropriate civil penalty, if any, and specify the actions which the Secretary proposes to be taken in order to avoid subsequent similar violations. The notice shall indicate that the violator may, within 15 days of service, notify the Secretary of his intention to contest the matter. In the event of a contested notice, the Secretary shall afford such violator an opportunity for a hearing, pursuant to section 554 of title 5, United States Code, following which the Secretary shall issue an order affirming, modifying, or vacating the notice of violation.

(b) Except as hereinafter provided, any person who is determined by the Secretary to have committed an act which is a violation of recordkeeping requirements issued by the Secretary pursuant to this title shall be liable to the United States for a civil penalty not to exceed $500 for each offense. Each day of a violation shall constitute a separate offense, except that the total of all civil penalties assessed against any violator for all offenses relating to any single recordkeeping violation shall not exceed $10,000. If the Secretary determines that a substantial health or safety violation exists or has occurred which could reasonably lead to, or has resulted in, serious personal injury or death, he may assess a civil penalty not to exceed $10,000 for each offense: *Provided, however,* That except for recordkeeping violations, no civil penalty provided under this title shall be assessed against an employee for violations of this title unless the employee is an operator of a commercial motor vehicle and the Secretary determines that such employee's actions constituted gross negligence or reckless disregard for safety, in which case such employee shall be liable for a civil penalty not to exceed $1,000. The amount of any civil penalty, and a reasonble time for abatement of the violation, shall by written order be determined by the Secretary, taking into account the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violation, the degree of culpability, history of prior offenses, ability to pay, effect on ability to continue to do business, and such other matters as justice and public safety may require. In each case, the assessment shall be calculated to induce further compliance.

(c) The Secretary may require any violator served with a notice of violation to post a copy of such notice or statement thereof in such place or places and for such duration as the Secretary may determine appropriate to aid in the enforcement of this title.

(d) If, upon inspection or investigation, the Secretary determines that a violation, or combination of violations, poses an imminent hazard to safety, the Secretary shall order a vehicle or employee operating such vehicle out of service or order, an employer to cease all or part of his commercial motor vehicle operations. In making any such order, the Secretary shall impose no restriction on any employee or employer beyond that required to abate the hazard. Subsequent to the issuance of such order, opportunity for review shall be provided in accordance with section 554 of title 5, United States Code, except that such review shall occur not late than 10 days following issuance of such order.

(e) Any person other than an employee who knowingly and willfully violates any provision of this title or who knowingly and willfully makes any false statement or representation required under this title shall, upon conviction, be subject for each offense to a fine not to exceed $25,000 or imprisonment for a term not to exceed 1 year, or both: *Provided, however,* That if such violator is an employee he shall only be subject to penalty if while operating a commercial motor vehicle his activities have led or could have led to death or serious injury, in which case he shall be liable, upon conviction, for a fine not to exceed $2,500.

(f) The Secretary shall promulgate regulations establishing penalty schedules designed to induce timely compliance for persons failing to comply promptly with the requirements set forth in notices and orders.

(g) Any aggrieved person who, after a hearing, is adversely affected by a final order issued under this section may, within 30 days, petition for review of the order in the United States court of appeals in the circuit wherein the violation is alleged to have occurred or where he has his principal place of business or residence, or in the United States Court of Appeals for the District of Columbia Circuit. Review of the order shall be based on a determination of whether the Secretary's findings and conclusions were supported by substantial evidence, or otherwise not in accordance with law. No objection that has not been urged before the Secretary shall be considered by the court, unless reasonable grounds existed for failure or neglect to do so. The commencement of proceedings under this subsection shall not, unless ordered by the court, operate as a stay of the order of the Secretary.

(h) The Secretary may obtain enforcement, including injunctive relief, or any penalties or orders issued under this section by applying to the United States district court for the district where the violation occurred or where the cited party has his principal place of business or residence. In addition to granting enforcement, the district court may assess an appropriate penalty for noncompliance and award such further relief as justice and public safety may require.

(i) All penalties and fines imposed under this section shall be deposited into the Treasury as miscellaneous receipts.

(j) In any action brought under this section, subpenas for witnesses who are required to attend a United States district court may run into any other district.

(k) In any proceeding for criminal contempt for violation of an injunction or restraining order issued under this section, trial shall be by the court, or, upon demand of the accused, by a jury, conducted in accordance with the provisions of rule 42(b) of the Federal Rules of Criminal Procedure.

REPRESENTATION BEFORE THE COURTS

SEC. 408. Except as provided in section 518(a) of title 28, United States Code, relating to litigation before the Supreme Court the General Counsel of the Department of Transportation may appear for and represent the Secretary in all proceedings and in any civil litigation brought under this title. Prior to making any such appearance and representation, the General Counsel of the Department of Transportation shall consult with and inform the Attorney General of the United States of his activities pursuant to this section.

PROTECTION OF EMPLOYEES

SEC. 409. (a) No person shall discharge, discipline, or in any manner discriminate against any employee with respect to the employee's compensation, terms, conditions, or privileges of employment because such employee (or any person acting pursuant to a request of the employee) has filed any complaint or instituted or caused to be instituted any proceeding under or related to this title or other authorities of the Secretary relating to commercial motor vehicle safety, or has testified or is about to testify in any such proceeding, or because such employee has exercised, on behalf of himself or others any right afforded by this title.

(b) No person shall discharge, discipline, or in any manner discriminate against an employee with respect to the employee's compensation, terms, conditions, or privileges of employment for refusing to operate a vehicle when such operation constitutes a violation of any Federal rules, regulations, standards, or orders applicable to commercial motor vehicle safety or health, or because of the employee's reasonable apprehension of serious injury to himself or the public due to the unsafe condition of such equipment. The unsafe conditions causing the employees's apprehension of injury must be of such nature that a reasonable person, under the circumstances then confronting the employee, would conclude that there is a bona fide danger of an accident, injury, or serious impairment of health, re-

sulting from the unsafe condition. In order to qualify for protection under this subsection, the employee much have sought from his employer, and have been unable to obtain, correction of the unsafe condition.

(c)(1) Any employee who believes he has been discharged, disciplined, or otherwise discriminated against by any person in violation of subsection (a) or (b) of this section may, within 180 days after such alleged violation occurs, file (or have filed by any person on the employee's behalf) a complaint with the Secretary of Labor alleging such discharge, discipline, or discrimination. Upon receipt of such a complaint, the Secretary of Labor shall notify the person named in the complaint of the filing of the complaint.

"(2)(A) Within 60 days of receipt of a complaint filed under paragraph (1) of this subsection, the Secretary of Labor shall conduct an investigation and determine whether there is reasonable cause to believe that the complaint has merit and notify the complainant and the person alleged to have committed a violation of this section of his findings. Where the Secretary of Labor has concluded that there is reasonable cause to believe that a violation has occurred, he shall accompany his findings with a proposed order providing the relief prescribed by subparagraph (B) of this paragraph. Thereafter, either the person alleged to have committed the violation or the complainant may, within 30 days, file objections to the proposed order and request a hearing on the record. Such hearings shall be expeditiously conducted. Where a hearing is not timely requested, the proposed order shall be deemed a final order which is not subject to judicial review. Upon the conclusion of such hearing, the Secretary of Labor shall issue a final order within 120 days. In the interim, such proceedings may be terminated at any time on the basis of a settlement agreement entered into by the Secretary of Labor, the complainant, and person alleged to have committed the violation.

(B) If, in response in a complaint filed under paragraph (1) of this subsection, the Secretary of Labor determines that a violation of subsection (a) or (b) of this section has occurred, the Secretary of Labor shall order (i) the person who committed such violation to take affirmative action to abate the violation, (ii) such person to reinstate the complainant to the complainant's former position together with the compensation (including back pay), terms, conditions, and privileges of the complainant's employment, (iii) compensatory damages, and (iv) where appropriate, exemplary damages. If such an order is issued, the Secretary of Labor, at the request of the complainant, may assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorney's fees) reasonably incurred, as determined by the Secretary of Labor, by the complainant for, or in connection with, the bringing of the complaint upon which the order was issued.

(d)(1) Any person adversely affected or aggrieved by an order issued after a hearing under subsection (c) of this section may obtain review of the order in the United States Court of Appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred, or the circuit in which such person resided on the date of such violation. The petition for review must be filed within 60 days from the issuance of the Secretary of Labor's order. Such review shall be in accordance with the provisions of chapter 7 of title 5, United States Code, and shall be heard and decided expeditiously.

(2) An order of the Secretary of Labor, with respect to which review could have been obtained under this section, shall not be subject to judicial review in any criminal or other civil proceeding.

(e) Whenever a person has failed to comply with an order issued under subsection (c)(2) of this section, the Secretary of Labor shall file a civil action in the United States district court for the district in which the violation was found to occur in order to enforce such order. In actions brought under this subsection, the district courts shall have jurisdiction to grant all appropriate relief, including injunctive relief, reinstatement, and compensatory and exemplary damages. Civil actions brought under this subsection shall be heard and decided expeditiously.

GRANTS TO STATES

SEC. 410. Under the terms and conditions of this title, and subject to the availability of funds, the Secretary is authorized to make grants to States for the development or implementation of programs for the enforcement of Federal rules, regulations, standards, and orders applicable to commercial motor vehicle safety and compatible State rules, regulations, standards, and orders.

STATE ENFORCEMENT

SEC. 411. (a)(1) The Secretary shall formulate procedures for any State to submit a plan whereby the State agrees to adopt, and to assume responsibility for enforcing, rules, regulations, standards, and orders in compliance with this title. Such plan shall be approved by the Secretary if, in his judgment, the plan is adequate to promote the objectives of this title, and the plan—

(A) designates the State motor vehicle safety agency responsible for administering the plan throughout the State;

(B) contains satisfactory assurances that such agency has or will have the legal authority, resources, and qualified personnel necessary for the enforcement of such rules, regulations, standards, and orders;

(C) gives satisfactory assurances that such State will devote adequate funds to the administration of such plan and enforcement of such rules, regulations, standards, and orders;

(D) provides a right of entry and inspection sufficient to enforce the provisions of this title;

(E) provides civil penalty procedures, rights, and remedies comparable to those set forth in section 407 of this title;

(F) provides that all reports required pursuant to this title be submitted to the State agency, and that such agency make available upon request to the Secretary all such reports;

(G) provides that such State agency will adopt such uniform reporting requirements and use such uniform forms for recordkeeping, inspections, and investigations as may be established and required by the Secretary; and

(H) requires registrants of commercial motor vehicles to make a declaration of knowledge of applicable Federal and State safety rules, regulations, standards, and orders.

(2) If a plan submitted under paragraph (1) of this subsection is rejected, the Secretary shall provide the State a written explanation of his action and shall permit the State to modify and resubmit its proposed plan for approval, in accordance with the procedures formulated in such paragraph.

(b) The Secretary shall, on the basis of reports submitted by the State agency, and on his own inspections, make a continuing evaluation of the manner in which each State with a plan approved under this section is carrying out such plan. Whenever the Secretary finds, after affording due notice and opportunity for comment, that a State plan previously approved is not being followed or that it has become inadequate to assure the enforcement of rules, regulations, standards, or orders issued under this title, he shall notify the State of withdrawal of approval of such plan. Upon receipt of such notice, such plan shall cease to be in effect. Any State aggrieved by a determination of the Secretary pursuant to this subsection may seek judicial review pursuant to chapter 7 of title 5, United States Code. The State may, however, retain jurisdiction in any case commenced before the withdrawal of the plan whenever the issues involved do not directly relate to the reasons for the withdrawal of approval of the plan.

(c) The Secretary shall not approve any plan under this section which does not provide that the aggregate expenditure of funds of the State and political subdivisions thereof, exclusive of Federal funds, for commercial motor vehicle safety programs will be maintained at a level which does not fall below the average level of such expenditures for its last 2 full fiscal years preceding the date of enactment of this title.

STATE REGULATIONS

SEC. 412. (a) Except as may otherwise be provided in this or any other law, any State agency may adopt additional or more stringent safety rules, regulations, standards, or orders for commercial motor vehicle safety if such rules, regulations, standards, or orders are not inconsistent with the Federal rules, regulations, standards, and orders issued under this title.

(b) Nothing in this title shall affect existing hour-of-service regulations of any State applying to commercial motor vehicle operations occurring wholly within that State, unless the Secretary affirmatively finds upon review of a State's hours-of-service regulations that such regulations (1) materially diminish commercial motor vehicle safety or the health and safety of employees, (2) are not required by compelling local conditions, or (3) unduly burden interstate commerce. If the Secretary makes such an affirmative determination, he may require such State to adopt Federal hours-of-service regulations.

FEDERAL SHARE OF COSTS

SEC. 413. By grants authorized under this title, the Secretary shall reimburse any State an amount not to exceed 80 percent of the costs incurred by that State in that fiscal year in the development and implementation of programs to enforce commercial motor vehicle rules, regulations, standards, or orders adopted pursuant to this title. The funds of the State and political subdivisions thereof which are required to be expended under section 411(c) of this title shall not be considered to be part of the non-Federal share. The Secretary is authorized to allocate, among the States whose applications for grants have been approved, those amounts appropriated for grants to support such programs pursuant to such criteria as may be established.

AUTHORIZATIONS

SEC. 414. To carry out the purposes of sections 410 and 411 of this title, there is authorized to be appropriated out of the Highway Trust Fund not to exceed $10,000,000 in the fiscal year ending September 30, 1984, not to exceed $20,000,000 in the fiscal year ending September 30, 1985, not to exceed $30,000,000 in the fiscal year ending September 30, 1986, not to exceed $40,000,000 in the fiscal year ending September 30, 1987, and not to exceed $50,000,000 in the fiscal year ending September 30, 1988. Appropriated funds authorized by this section shall be used to reimburse to States the Federal pro rata share of cost incurred. Grants made pursuant to the authority of this title shall be for periods not to exceed 1 fiscal year, ending at the end of a fiscal year.

ANNUAL REPORT

SEC. 415. As part of the Secretary's annual report to the Congress required by section 12 of the Department of Transportation Act (49 U.S.C. 1658), the Secretary shall make a written report to the Congress concerning his efforts and his current plans to upgrade the safety and health of operators of commercial motor vehicles. The report shall include, but not be limited to, an evaluation of commercial motor vehicle safety of health programs of the Department of Transportation, an outline of problem areas and appropriate steps to alleviate them, and recommendations for closer coordination and cooperation among agencies of the Federal Government and between the Federal Government and the States to enforce the rules, regulations, standards, and orders issued pursuant to this title.

APPLICABILITY

SEC. 416. Nothing in this title shall apply to the operation of any vehicle engaged in farming activities and logging operations as defined by the Secretary.

COMMERCIAL MOTOR VEHICLE SAFETY ADVISORY COMMITTEE

SEC. 417. (a)(1) Not later than 12 months after the date of enactment of this title, the Secretary shall establish a Commercial Motor Vehicle Safety Advisory Committee and appoint the initial members of the Committee. The Committee shall be composed of the Secretary and 15 members, each of whom shall be experienced in the safety regulation of commercial motor vehicles or technically qualified by training, experience or knowledge to evaluate commercial motor vehicle rules or regulations. The Committee shall be appointed by the Secretary, after consultation with public and private agencies and organizations concerned with commercial motor vehicle safety. Members shall include representatives of State governments, the motor carrier industry, shippers, union drivers and independent owner-operators, and the public.

(2) A Chairman shall be selected by a majority of the members of the Committee.

(3) Each member appointed by the Secretary shall hold office for a term of 3 years, except that (A) any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed shall be appointed for the remainder of such term; (B) the terms of office of members first taking office after the date of enactment of this title shall expire as follows: Five at the end of 1 year after the date such Committee members are appointed by the Secretary; five at the end of 2 years after the date such Committee members are appointed by the Secretary; and five at the end of 3 years after the date such Committee members are appointed, as designated by the Secretary at the time of appointment; and (C) the term of any member shall be extended until the date on which the successor's appointment is effective. None of the members appointed by the Secretary who has served a 3-year term, other than Federal officers or employees, shall be eligible for reappointment within 1 year following the end of this preceding term.

(4) Members of the Committee other than Federal employees may be compensated at a rate to be fixed by the Secretary, but not to exceed the daily equivalent of the maximum annual rate of basic pay then currently payable under the General Schedule under section 5332 of title 5, United States Code, for each day (including traveltime) when engaged in the actual duties of the Committee. All members, while away from their homes or regular places of business, may be allowed travel expenses, including per diem in lieu of subsistence as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently. Payments under this section shall not render members of the Committee employees or officials of the United States for any purpose.

(b) The Advisory Committee shall advise, consult with, and make recommendations to the Secretary on matters relating to the activities and functions of the Department in the field of commercial motor vehicle safety. The Committee is authorized to review research projects or programs submitted to or recommended by it in the field of commercial motor vehicle safety and recommend to the Secretary any such projects which it believes show promise of making valuable contributions to human knowledge with respect to the cause and prevention of commercial motor vehicle accidents. The Committee is also authorized to review, prior to issuance, rules, regulations, standards, and orders proposed to be issued by order of the Secretary under the provisions of this title and to make recommendations thereon. Such recommendations shall be published in connection with the Secretary's determination or order.

(c) The Committee shall meet with the Secretary (or his designee) at least once every year.

(d) There are authorized to be appropriated for each of the fiscal years ending on September 30, 1984, 1985 and 1986 not to exceed $125,000 for purposes of carrying out the provisions of this section

AUTHORIZATION OF APPROPRIATIONS

SEC. 418. For the purposes of carrying out the provisions of title 23, United States Code, the following sums are hereby authorized to be appropriated out of the Highway Trust Fund:

(1) for carrying out sections 307(a) and 403 of title 23, United States Code (relating to highway safety research and development) by the Federal Highway Administration, $13,000,000 per fiscal year for each of the fiscal years ending September 30, 1985, September 30, 1986, September 30, 1987, and September 30, 1988;

(2) for carrying out section 402 of title 23, United States Code (relating to highway safety programs) by the National Highway Traffic Safety Administration, $100,000,000 per fiscal year for each of the fiscal years ending September 30, 1985, September 30, 1986, September 30, 1987, and September 30, 1988; and

(3) for carrying out section 403 of title 23, United States Code (relating to highway safety research and development) by the National Highway Traffic Safety Administration, $31,000,000 per fiscal year for each of the fiscal years ending September 30, 1985, September 30, 1986, September 30, 1987, and September 30, 1988.

APPORTIONMENT

SEC. 419. (a) Section 401 of title 23, United States Code, is amended by striking the second sentence.

(b) Section 402(c) of title 23, United States Code, is amended by striking ", except that the apportionments to the Virgin Islands, Guan, and American Samoa shall not be less than one-third of 1 per centum of the total apportionment".

NATIONAL UNIFORM STATE REGULATION

SEC. 420 (a) There is established in the Department of Transportation a working group, composed of the Secretary (or an official of the Department appointed by the Secretary) and not to exceed 51 members to be appointed by the Secretary. The Secretary shall select the Chairman of the Committee from among the Committee members. The appointed members shall be selected from among representatives of various State governments concerned with vehicle registration, fuel tax, and third structure tax requirements of States. The term of members shall not exceed 18 months.

(b)(1) The working group shall advise, consult with, and make recommendations to, the Secretary regarding uniform State regulations of interstate motor carriers. The working group is authorized to develop and recommend to the Secretary standards for uniform State regulation of interstate motor carriers in regard to vehicle registration, fuel tax, and third structure tax requirements. These standards shall include:

(A) standardized procedures and forms;

(B) base State certification;

(C) single State unit for filings, applications, and permits;

(D) payment to the base State of fees and taxes due other States;

(E) equitable distribution of revenues; and

(F) a limit on fees paid for identification stickers, plants or other indicia.

Such standards shall not define or include the amounts of any State registration fees, fuel taxes, or third structure taxes.

(2) The working group shall also:

(A) define an approach to resolve any discrepancies in States' implementation of standards ultimately promulgated by the Secretary;

(B) identify permanent bodies to develop and recommend future modification to such standards; and

(C) consult with public and private interests contributing to, affected by, or concerned with State motor carrier requirements during the development of the standards.

(c) Members of the working group who are not officers or employees of the United States shall, while attending meetings or conferences of such working group or otherwise engaged in the business of such working group, be entitled to receive compensation at a rate fixed by the Secretary, but not exceeding $100 per diem, including travel time. While away from their homes or regular places of business, members of the working group may be allowed travel expenses, including per diem in lieu of subsistence, as authorized in section 5703 of title 5, United States Code, for persons in the Government service employed intermittently. Payments under this subsection shall not render mem-

bers of the working group employees or officials of the United States for any purpose.

(d) The recommendations required by subsection (b) of this section shall be submitted to the Secretary within 18 months of the date of enactment of this title.

(e) The Secretary may initiate rulemaking after the Secretary has received such recommendations in order to implement those recommendations found acceptable and in compliance with the criteria defined in subsection (b)(1) of this section.

(f) If the working group fails to make such recommendations within 18 months after the date of enactment of this title, the Secretary may develop such standards and initiate rulemaking to promulgate regulations implementing those standards.

MINIMUM FINANCIAL RESPONSIBILITY FOR MOTOR CARRIERS

SEC. 421. (a) Section 30(a)(2) of the Motor Carrier Act of 1980 (Public Law 96-296; 94 Stat. 820) is amended to read as follows:

"(2) The minimum level of financial responsibility established by the Secretary under paragraph (1) of this subsection for any vehicle shall not be less than $750,000, except that the Secretary may by regulation reduce such amount for any class of vehicles or operations if the Secretary finds that such reduction will not adversely affect public safety and will prevent a serious disruption in transportation service.".

"(b) Section 30(b) of the Motor Carrier Act of 1980 (Public Law 96-296; 94 Stat. 821) is amended to read as follows:

"(b)(1) The Secretary shall establish regulations to require minimum levels of financial responsibility sufficient to satisfy liability amounts (to be determined by the Secretary) covering public liability, property damage, and environmental restoration for the transportation of hazardous materials (as defined by the Secretary), oil or hazardous substances (as defined by the Administrator of the Environmental Protection Agency), or hazardous wastes (as defined by the Administrator of the Environmental Protection Agency) by motor vehicle in interstate commerce, foreign commerce, or intrastate commerce.

"(2) The minimum level of financial responsibility established by the Secretary under paragraph (1) of this subsection for any vehicle transporting in interstate commerce, foreign commerce, or intrastate commerce—

"(A) hazardous substances (as defined by the Administrator of the Environmental Protection Agency), in cargo tanks, portable tanks, or hopper-type vehicles, with capacities in excess of 3,500 water gallons;

"(B) in bulk Class A and B explosives, poison gas, liquefied compressed gas, or compressed gas; or

"(C) a large quantity of radioactive materials;

shall not be less than $5,000,000, except that the Secretary may by regulation reduce such amount for any class of vehicles or operations if the Secretary finds that such reduction will not diversely affect public safety and will prevent a serious disruption in transportation service.

"(3) The minimum level of financial responsibility established by the Secretary under paragraph (1) of this subsection for any vehicles transporting in interstate, foreign, or intrastate commerce any material, oil, substance, or waste not subject to the provisions of paragraph (2) of this subsection shall not be less than $1,000,000, except that—

"(A) the Secretary may by regulation reduce such amount for any class of vehicles or operations if the Secretary finds that such reduction will not adversely affect public safety and will prevent a serious disruption in transportation service;

"(B) in the case of any class of vehicles transporting any such material, oil, substance, or waste in intrastate commerce other than in bulk, the Secretary, by regulation, may reduce such amount if the Secretary finds that such reduction will not adversely affect public safety; and

"(C) in the case of any class of vehicles transporting any such material, oil, substance, or waste in interstate commerce in quantities less than those requiring placarding under the Department of Transportation's hazardous materials regulations, the Secretary may by regulation reduce such amount if the Secretary finds that such reduction will not adversely affect public safety.

"(4) If, at the end of the one-year period beginning on the date of enactment of this Act, the Secretary has not established regulations to require minimum levels of financial responsibility as required by paragraph (1) of this subsection for any class of transportation of hazardous materials, oil, hazardous substances, or hazardous wastes by motor vehicle in interstate, foreign, or intrastate commerce, the levels of financial responsibility for such class of transportation shall be the $5,000,000 amount set forth in paragraph (2) of this subsection or the $1,000,000 amount set forth in paragraph (3) of this subsection, as the case may be, until such time as the Secretary, by regulation, changes such amount under this subsection.".

(c) Section 30(f) of the Motor Carrier Act of 1980 (Public Law 96-296; 94 Stat. 323) is amended to read as follows:

"(f) This section shall not apply to motor vehicles having a gross vehicle weight rating (GVWR) less than 10,000 pounds, if such vehicles are not used to transport any quantity of Class A or B explosives, any quantity of poison gas, or a large quantity of radioactive materials in interstate or foreign commerce.".

COMMERCIAL MOTOR VEHICLE LENGTH LIMITATION

SEC. 422. (a) No State shall establish, maintain, or enforce any regulation of commerce which imposes a vehicle length limitation of less than 48 feet on the length of the semitrailer unit operating in a truck tractor-semitrailer combination, and of less than 28 feet on the length of any semitrailer or trailer operating in a truck tractor-semitrailer-trailer combination, on any segment of the National System of Interstate and Defense Highways or any other qualifying Federal-aid highway as designated by the Secretary, except with respect to such qualifying Federal-aid highways designated pursuant to subsection (e) of this section.

(b) Length limitations established, maintained, or enforced by the States under subsection (a) of this section shall apply solely to the semitrailer or trailer(s) and not to a truck tractor. No State shall establish, maintain, or enforce any regulation of commerce which imposes an overall length limitation on commercial motor vehicles operating in truck-tractor semitrailer or truck tractor semitrailer, trailer combinations. No State shall establish, maintain, or enforce any regulation of commerce which has the effect of prohibiting the use of trailers or semitrailers of such dimensions as those that were in actual and lawful use in such State on December 1, 1982. No state shall establish, maintain, or enforce any regulation of commerce which has the effect of prohibiting the use of existing trailers or semitrailers, of up to 28½ feet in length, in a truck tractor-semitrailer-trailer combination if those trailers or semitrailers were actually and lawfully operating on December 1, 1982, within a 65-foot overall length limit in any State.

(c) No State shall prohibit commercial motor vehicle combinations consisting of a truck tractor and two trailing units on any segment of the National System of Interstate and Defense Highways, or any other qualifying Federal-aid highways as designed by the Secretary, except with respect to such qualifying Federal-aid highways designated pursuant to subsection (e) of the section.

(d) The Secretary is authorized to establish rules to implement the provisions of this section, and to make such determinations as are necessary to accommodate specialized equipment (including, but not limited to, automobile transporters) subject to subsections (a) and (b) of this section.

(e) Subsections (a) and (c) of this section shall not apply to qualifying Federal-aid highways or segments of highways which are:

(1) designated by any State, in conformity with guidelines promulgated by the Secretary setting forth those specific factors that would significantly and adversely affect public safety on any such highways or segments of highways where subsection (a) or (c) of this section would otherwise be applicable; or

(2) specifically designated by the Secretary on the basis that public safety would be significantly and adversely affected if subsection (a) or (c) of this section were applicable to such specific highways or segments of highways.

(f) For the purposes of this section, "truck tractor" shall be defined as the noncargo carrying power unit that operates in combination with a semitrailer or trailer, except that a truck tractor and semitrailer engaged in the transportation of automobiles may transport motor vehicles on part of the power unit.

(g) The provisions of this section shall take effect 180 days after the date of enactment of this title.

COMMERCIAL MOTOR VEHICLE WIDTH REGULATION

SEC. 423. Notwithstanding any other provision of law, a State (other than the State of Hawaii) shall permit trucks or combinations thereof having a width of not more than 102 inches to operate over interstate highways, National Defense Highways, or any other qualifying Federal-aid highway as designated by the Secretary, with traffic lanes designed to be a width of 12 feet or more.

SAFETY-RELATED DEVICES

SEC. 424. The length and width limitations described in section 422 and 423 of this title shall be exclusive of safety-related appenages, such as rear view mirrors, turn signal lamps, marker lamps, steps and handholds for entry and egress, flexible fender extensions, mudflaps and splash and spray suppressant devices, load-induced tire bulge, energy conservation devices or designs, refrigeration units or air compressors, which the Secetary may interpret as necessary for safe and efficient operation of commercial moter vehicles.

ACCESS TO THE INTERSTATE SYSTEM

SEC. 425. No State may enact or enforce any law denying reasonable access to commerical motor vehicles subject to this title to and from the Interstate Highway System, Defense Highways, and any other qualifying Federal-aid highway as designated by the Secretary to the Federal-aid primary system and loading and unloading terminals and facilities for food, fuel, repairs, and rest.

ENFORCEMENT

SEC. 426. Tthe Secretary, or, on the request of the Secretary, the Attorney General of the United States, is authorized and directed to institute any civil action for injunction relief as may be appropriate to assure compliance with the provisions of this title. Such action may be instituted in any district court of the United States in any State where such relief is required to assure compliance with the terms of this title. In any action under this section, the court shall, upon a proper showing, issue a temporary restraining order or preliminary or permanent injunction. In any such action, the court may also issue a mandatory injunction commanding any State or person to comply with any applicable provisions of this title or any rule issued under authority of this title.

SPLASH AND SPRAY SUPPRESSANT DEVICES

SEC. 427. (a) The Congress declares that visibility on wet roadways on the Interstate System should be improved by reducing, by a practicable and reliable means, splash and spray from truck tractors, semitrailers, and trailers.

(b) The Secretary shall—

(1) within one year after the date of the enactment of this title, establish minimum standards with respect to the performance and installation of splash and spray suppression devices for use on truck tractors, semitrailers, or trailers;

(2) within two years after the date of the enactment of this title, require that all new truck tractors, semitrailers, and trailers operated on the Interstate System be equipped with any splash and spray suppression device which satisfies the standards established pursuant to paragraph (1) of this subsection; and

(3) within five years after the date of the enactment of this title, require that all truck trailers, semitrailers, and trailers operated on the Interstate System be equipped with any splash and spray suppression device which satisfies the standards established pursuant to paragraph (1) of this subsection.

(c) For the purposes of this section, the term—

(1) "truck tractor" means the noncargo carrying power unit that operates in combination with a semitrailer or trailer(s);

(2) "semitrailer" and "trailer" mean any semitrailer or trailer, respectively, with respect to which section 422 of this title applies; and

(3) "Interstate System" has the same meaning provided in section 101 of title 23, United States Code.

REPORT REGARDING LONGER COMBINATION COMMERCIAL MOTOR VEHICLES

SEC. 428. (a) Within 1 year after the date of enactment of this title, the Secretary, after consultation with the transportation officials and Governors of the several States and after an opportunity for public comment, shall submit to Congress a detailed report on the potential benefits and costs if any, to shippers, receivers, operators of commercial motor vehicles, and the general public, that reasonably may be anticipated from the establishment of a National intercity truck route network for the operation of a special class of longer combination commercial motor vehicles.

(b) For the purposes of this section, the term—

(1) "longer combination commercial motor vehicles" means multiple-trailer combinations consisting of (A) truck tractor-semitrailer-full trailer, and (B) truck tractor-semitrailer-full trailer-full trailer combinations with an overall length not in excess of 110 feet; and

(2) "National intercity truck route network" means a network consisting of a number of controlled-access, interconnecting segments of the National System of Interstate and Defense Highways and other highways of comparable design and traffic capacity including, but not limited to, all such highways where the operation of longer combination commercial motor vehicles is authorized on the date of enactment of this section.

(c) The detailed report mandated by this section shall include, but need not be limited to, the following—

(1) a specific plan for the establishment of a National intercity truck route network, including the designation of those specific highway segments which would be required to connect the major distribution centers and markets for long-haul intercity freight service, except that the Secretary shall not include in the plan any highway segment which, because of design limitations or other factors, cannot accommodate the safe operation of longer combination commercial motor vehicles;

(2) an analysis of the intercity motor freight volume that reasonably can be anticipated to be transported by longer combination commercial motor vehicles over the national intercity truck route network if such network is established by Congress;

(3) an analysis of the fuel savings that reasonably can be anticipated in the transportation of freight by commercial motor vehicle if such network is established by Congress;

(4) an analysis of the productivity gains that reasonably can be anticipated to be achieved in the transportation of freight by commercial motor vehicle if such network is established by Congress;

(5) an analysis of the fuel conservation and productivity gains historically achieved by operators of longer combination commercial motor vehicles; and

(6) an analysis of the safety record of longer combination commercial motor vehicle operations that have been conducted prior to the date of enactment of this section.

(d) In making the findings and determinations required by subsection (c) of this section, and in making the detailed report to Congress required by this section, the Secretary shall assume that the longer combination commercial motor vehicles operating on the National intercity truck route network, if and when established by Congress, would be subject to the single- and tandem-axle weight limits imposed by section 127 of title 23, United States Code. The Secretary shall further assume that the overall gross weight of such vehicles on a group of two or more consecutive axles shall be limited by the formula set forth in such section, and only by such formula.

(e) In making the detailed report to Congress required by this section, the Secretary shall assume that longer combination commercial motor vehicles operating on the national intercity truck route network will have reasonable access to terminals, combination breakup areas, and food and fuel facilities consistent with safe operations of such vehicles.

AIRPORT AND AIRWAY DEVELOPMENT PROGRAM

SEC. 429. (a) Section 507(a)(3) of the Airport and Airway Improvement Act of 1982 (P.L. 97-248; 96 Stat. 671) is amended by redesignating the existing paragraph as subparagraph (A) and adding at the end thereof the following new subparagraph:

"(B) The amounts apportioned to the discretionary fund pursuant to subparagraph (A) of this paragraph shall be increased by apportioning from the Trust Fund additional aggregate amounts of $200,000,000 for fiscal year 1983; $400,000,000 for the fiscal years ending before October 1, 1984; and $475,000,000 for the fiscal years ending before October 1, 1985. Such additional amounts shall be distributed by the Secretary in the same manner as funds apportioned pursuant to subparagraph (A), except that (i) such additional amounts may only be distributed for projects involving new construction begun after the date of enactment of this subparagraph and not to liquidate obligations arising from construction begun before such date; (ii) the Secretary shall give preference to those projects which would increase the safety or capacity of the airport receiving such additional amounts; and (iii) such additional amounts shall not be subject to the limitations set forth in section 508(d) of this title. For the purposes of the provisions of this title (other than sections 507, and 508(d)), and all amendments made to other laws by this title, such additional amounts shall be considered to be funds authorized by or made available under section 505. If any Act of Congress has the effect of limiting or reducing the amount authorized or available to be obligated for any fiscal year for the purposes of section 505, the Secretary shall implement such limitation or reduction by reducing the amount of discretionary funds distributed in that fiscal year pursuant to this subparagraph prior to reducing any other apportionment under this section. In no event may the Secretary reduce any other apportionment under this section in order to comply with any such Congressional limitation or reduction unless all of the discretionary funds available for distribution in such fiscal year pursuant to this subparagraph have been eliminated.".

(b) Section 505(a) of such Act is amended by striking "$3,772,500,000" and inserting in lieu thereof "$3,660,000,000", and by striking "$4,789,700,000" and inserting in lieu thereof "$4,564,700,000".

(c) The first sentence of section 506(c)(2) of such Act is amended by striking everything after "section 505" and inserting in lieu thereof "(including funds made available under section 507(a)(3)(B)(A) for that fiscal year multiplied by a factor equal to 1.83 in the case of fiscal year 1983; 1.25 in the case of fiscal year 1984; 1.28 in the case of fiscal year 1985; 1.44 in the case of fiscal year 1986; and 1.51 in the case of fiscal year 1987.".

(d) The second sentence of section 507(a)(1)(E) of such Act is amended by inserting ", after complying with the provisions of subparagraph (3)(B) of this subsection," immediately after "the Secretary".

(e) Section 9502(d)(1)(A) of the Internal Revenue Code of 1954 is amended by striking "the Airport and Airway Improvement

Act of 1982", the second time it appears therein, and inserting in lieu thereof "the Surface Transportation Act of 1982".

STATE RECREATIONAL BOATING AND REFORESTATION

SEC. 430. (a) The Federal Boat Safety Act of 1971 (Public Law 92-75; 85 Stat. 213) is amended as follows:

(1) By inserting "contract with, and" immediately after "The Secretary may" in the second sentence of section 25(a) (46 U.S.C. 1474(a)) and in section 26(a) (46 U.S.C. 1475(a)) immediately after "promulgate, may".

(2) In section 26 (b) and (c) (46 U.S.C. 1475 (b) and (c)):

(A) by striking "appropriated" and inserting "authorized to be expended"; and

(B) by adding at the end thereof the following: "His action in doing so shall be deemed a contractual obligation of the United States for the payment of the proportional share of the cost of implementing the program.".

(3) In section 26(d) (46 U.S.C. 1475(d))—

(A) by striking "appropriated" in the third and fourth sentences and inserting in lieu thereof "authorized to be expended";

(B) by inserting immediately after the third sentence the following: "Approval of those elements of a combined program shall be deemed a contractual obligation of the United States for the payment of the proportional share of the cost of implementing State recreational boating safety programs pursuant to this Act."; and

(C) by adding at the end thereof the following: "Approval of those elements of a combined program shall be deemed a contractual obligation of the United States for the payment of the proportional share of the cost of implementing State recreational boating facilities programs pursuant to this Act.".

(4) In section 30 (46 U.S.C. 1479) by striking the section heading and all that follows thereafter and inserting in lieu thereof the following:

"AUTHORIZATION OF CONTRACT SPENDING AUTHORITY FOR STATE RECREATIONAL BOATING SAFETY AND FACILITIES IMPROVEMENT PROGRAMS

"SEC. 30. For the purposes of providing financial assistance for State recreational boating safety and facilities improvement programs, the Secretary is authorized to expend, subject to such amounts as are provided in appropriations Acts for liquidation of contract authority, an amount equal to the revenues accruing each fiscal year from the taxes under section 4041(b) of the Internal Revenue Code of 1954 with respect to special motor fuels used as fuel in motor boats and under section 4081 of such Code with respect to gasoline used as fuel in motor boats. Of the funds available for allocation and distribution for recreational boating safety and facilities improvement programs, one-third shall be allocated for recreational boating safety programs and two-thirds shall be allocated for recreational boating facilities improvement programs beginning with fiscal year 1983. Any funds authorized to be expended for State recreational and boating safety improvement programs shall remain available until expended and shall be deemed to have been expended only if a sum equal to the total amounts authorized to be expended under this section for the fiscal year in question and all previous fiscal years have been obligated. Any funds that were previously obligated but are released by payment of a final voucher or modification of a program acceptance shall be credited to the balance of unobligated funds and shall be immediately available for expenditure."

(c)(b) Sections 303 (d) and (e) of the Act of October 14, 1980 (16 U.S.C. 1606a (d) and (e)), are amended to read as follows:

"(d) During each of the fiscal years 1983, 1984, and 1985, the Secretary of Agriculture shall expend all amounts available in the Trust Fund (including any amounts not expended in previous fiscal years) for:

"(1) reforestation and timber stand improvement as set forth in the Congressional policy in section 3(d) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1601(d)); and

"(2) administrative costs of the Federal Government properly allocatable to the activities described in paragraph (1).

In no event may the Secretary expend less than $104,000,000 out of the Trust Fund in fiscal year 1983 for the purpose of this subsection.

"(e) It is the intent of Congress that the Secretary shall expend all of the funds available in the Trust Fund in each fiscal year. Any such funds which are not expended in a given fiscal year shall remain available for expenditure without fiscal year limitation; except that any funds not expended prior to October 1, 1985, shall, no later than April 30, 1986, be distributed to the States for use in State forestry programs pursuant to the formula set forth in the Act of May 23, 1908 (16 U.S.C. 500, P.L. 60-136).".

AMENDMENT TO SALTONSTALL-KENNEDY ACT

SEC. 431. Section 2(e) of the Act of August 11, 1939, commonly referred to as the Saltonstall-Kennedy Act (15 U.S.C. 713c-3(e)), is amended to read as follows:

"(e) ALLOCATION OF FUND MONEYS.—(1) All moneys in the fund shall be used only to promote United States fisheries in accordance with the provisions of this section. With respect to any fiscal year, the sum of all unexpended moneys carried over into that fiscal year and all moneys transferred to the fund under subsection (b) or any other provision of law with respect to that fiscal year, shall be allocated as follows:

"(A) the Secretary shall use no less than 60 percent of such funds to make direct industry assistance grants to develop new United States fisheries and to expand domestic and foreign markets for United States fishery products pursuant to subsection (c) of this section; and

"(B) the Secretary may not use more than 40 percent of such funds to finance the operations of the National Marine Fisheries Service, including, but not limited to, fisheries research laboratories, market development, quality control, export promotion, import research, administration of this section, and related programs to promote the development of United States fisheries.

"(2) It is the intent of the Congress that the Secretary should, consistent with the number of meritorious applications received with respect to any fiscal year, obligate or expend all of the funds described in paragraph (1). Any such funds which are not expended in a given fiscal year shall remain available for expenditure under this section without fiscal year limitation.".

THE MERCHANT MARINE ACT, 1936

SEC. 432. Section 1103(f) of the Merchant Marine Act, 1936 (46 U.S.C. 1273(f)), is amended by adding at the end thereof the following new sentence: "No additional limitations may be imposed on new commitments to guarantee loans for any fiscal year, except in such amounts as established in advance in annual authorization Acts.".

Mr. BAKER. Mr. President, I ask unanimous consent to have printed in the RECORD an explanation of the amendment.

There being not objection, the explanation was ordered to be printed in the RECORD, as follows:

EXPLANATION OF BAKER AMENDMENT

TITLE I

I. SUMMARY OF THE COMMITTEE AMENDMENT

Under present law, the Highway Trust Fund generally will expire after September 30, 1984. The Finance Committee amendment, the Highway Revenue Act of 1982, extends the Highway Trust Fund through September 30, 1989, provides revenue sources for it, and establishes a new transit account in the Trust Fund.

Under present law, the highway excise taxes that provide the revenues for the trust fund generally expire or revert to lower rates after September 30, 1984. The committee amendment increases the annual revenues into the trust fund by extending some of the taxes at higher levels through September 30, 1989, and repeals or modifies other provisions. In providing these tax changes and extensions for the Highway Trust Fund, the committee changed the distribution of the tax burden of highway users by shifting a larger share to the heaviest trucks on the highways and reducing the share paid by lighter trucks. These shifts of burden are generally consistent with the highway cost allocation study submitted to Congress by the Department of Transportation in May 1982.

The increases in estimated Highway Trust Fund receipts over present law are $2.2 billion in fiscal year 1983, $5.3 billion in 1984, $9.6 billion in 1985, $9.9 billion in 1986, $10.1 billion in 1987, and $10.4 billion in 1988.

In addition, trust fund receipts will be increased above the levels of a simple continuation of the present law taxes by $2.2 billion in fiscal year 1983, $5.3 billion in 1984, $5.4 billion in 1985, $5.5 billion in 1986, $5.6 billion in 1987, and $5.7 billion in 1988.

Total Highway Trust Fund tax revenues are estimated at $8.6 billion in fiscal year 1983, $12.2 billion in 1984, $12.6 billion in 1985, $13.0 billion in 1986, $13.4 billion in 1987, and $13.8 billion in 1988.

Tables 2, 3 and 4 in section IV, below, show revenue estimates of the taxes affected by the committee amendment for fiscal years 1983-1988.

The specific tax and trust fund changes contained in the Finance Committee amendment are summarized below. Table 1 contains a summary comparison of the tax provisions in present law and in the committee amendment.

TAX PROVISIONS

Motor fuels taxes.—The excise taxes on gasoline, diesel and special motor fuels used in highway vehicles currently are 4 cents a gallon; fuel used in recreational motorboats also is taxed at 4 cents a gallon. These taxes are scheduled to decline to 1½ cents a gallon after September 30, 1984.

The committee amendment increases the motorfuels excise tax rates to 9 cents a gallon, beginning on April 1, 1983, through September 30, 1989. Complete exemptions from the 9 cents a gallon tax are provided for State and local governments, nonprofit educational institutions, farm use, school buses, local transit buses, intercity buses,

off-highway business use, gasohol and 85 percent or more alcohol fuels (other than those derived from petroleum and natural gas). Exemption from the present law 4 cents a gallon excise tax is continued for qualified taxicab (through fiscal year 1984). The definition of qualified taxicab is expanded to permit certain taxicabs which can offer ride sharing under company policy, but are barred from such action by local law, to claim the fuels tax exemptions for one year, January 1 through December 31, 1983. An additional exemption, at the 9 cents rate, is created for certain vanpool vehicles. Ground applicators of fertilizers and other substances are made eligible for refunds of fuels taxes, under the farm use exemption, under the same terms as are aerial applicators. The time for payment of the gasoline tax is extended by 6 days for certain oil jobbers, if payment is made by electronic wire transfer to an authorized government depository.

All the motor fuels taxes and the exemptions from these taxes will terminate after September 30, 1989. Revenue from the 9 cents a gallon tax on recreational motorboat fuel is transferred to the Land and Water Conservation Fund, and $45 million per year up to an accumulated balance of $45 million (instead of $20 million as in present law) is the maximum amount that may be transferred to the National Recreational Boating Safety and Facilities Improvement Fund, which is extended through fiscal year 1989.

Tires, tubes and tread rubber.—These items presently are subject to a manufacturers excise tax that is levied on a per pound basis: highway tires at 9.75 cents, other tires at 4.875 cents, laminated tires at 1 cent, inner tubes at 10 cents, and tread rubber at 5 cents. After September 30, 1984, the tax on highway tires is scheduled to fall to the same 4.875 cents rate applied to other tires. The tax on inner tubes is scheduled to decline to 9 cents, and the tax on tread rubber is scheduled to expire.

Under the committee amendment, the taxes on laminated tires and all nonhighway tires are repealed. The tax on highway tires is imposed at a graduated scale depending on tire weight: 9.75 cents per pound for the first 50 pounds; 15 cents per pound for the next 50 pounds; and 25 cents per pound for each pound in excess of 100. Tread rubber is taxed as follows: 5 cents per pound for tires under 50 pounds; 8 cents per pound for tires between 50 and 100 pounds; and 16 cents per pound for tires over 100 pounds. The present tax on inner tubes is retained.

The changes in these excise taxes are effective on April 1, 1983, and the taxes will expire on October 1, 1989.

Lubricating oil.—Lubricating oil presently is taxed at 6 cents a gallon. The committee amendment retains this tax and expands it to synthetic lubricating oils, effective April 1, 1983.

Trucks and truck parts.—Truck parts and accessories are taxed at 8 percent of the manufacturers sale price under present law. Trucks and truck trailers weighing more than 10,000 pounds are taxed at 10 percent of the manufacturer's sale price. These taxes are scheduled to decline to 5 percent after September 30, 1984.

Under the committee amendment, the tax on new trucks and trailers is increased to 12 percent. In addition, this tax will be imposed at the retail level on the retail price, rather than at the manufacturers level. The weight threshold for this tax is increased from 10,000 pounds to 33,000 pounds for trucks and to 26,000 pounds for trailers. Rail trailers and vans are exempted from the tax. In addition, the tax on truck parts and accessories is increased to 12 percent and is retained at the manufacturers level, but only for parts for trucks and trailers over 33,000 pounds.

The increase in the weight thresholds for the exemptions from the taxes on trucks and truck parts are effective on the day after the date of enactment. The shift of the truck tax to the retail level and the rate increase from 10 percent to 12 percent are effective April 1, 1983, as is the increase in the tax on parts from 8 percent to 12 percent.

Heavy vehicle use tax.—The tax on heavy vehicles in present law is $3 per thousand pounds for trucks weighing more than 26,000 pounds. In its place, the committee amendment provides a graduated tax that begins at 33,000 pounds. Trucks below that weight level will pay no tax. At 33,000 pounds, trucks will pay $80, and heavier trucks will pay an additional $10 for each added 1,000 pounds up to 55,000 pounds. Trucks weighing between 55,000 pounds and 80,000 pounds will pay $300 plus $52 for each 1,000 pounds over 55,000 pounds up to $1,600, which is the maximum annual use tax on heavy trucks. The new schedule is phased-in, with one-third of the tax change effective on January 1, 1984, two-thirds on July 1, 1984, and the permanent rate schedule effective on July 1, 1985.

In addition, an exemption (or refund) will be provided for trucks that travel on highways 5,000 miles or less in a taxable period, effective on January 1, 1984.

Sunset of taxes.—All the highway user excise taxes, as well as most exemptions from the taxes, expire after September 30, 1989.

Motor carrier operating rights.—The committee amendment provides that the basis adjustments applicable under the Economic Recovery Tax Act of 1981 to corporate taxpayers acquiring certain motor carrier operating authorities shall also apply to noncorporate taxpayers acquiring such rights.

Trust fund and transit account

Highway Trust Fund.—Under the committee amendment, the Highway Trust Fund is extended through September 30, 1989. The taxes that will be deposited into the Trust Fund, and the authority to spend from the Trust Fund, will expire after September 30, 1989, except for certain statutory transfers allowed through June 30, 1990.

Mass Transit Account.—One cent a gallon of the fuels taxes is to be deposited in a new separate Mass Transit Account in the Highway Trust Fund. These deposits may be used only for mass transit capital programs, including new projects, that are authorized in section 22 of the Urban Mass Transportation Act.

TABLE 1.—COMPARISON OF CURRENT HIGHWAY USER EXCISE TAXES AND THOSE APPROVED BY THE COMMITTEE ON FINANCE

Tax	Present law (before Oct. 1, 1984)	Finance Committee approved rates
A. Fuels:		Effective Apr. 1, 1983:
Gasoline	4 cents per gallon	9 cents per gallon.
Diesel fuel	do	Do.
Special motor fuels	do	Do.
B. Lubricating oil	6 cents per gallon	6 cents per gallon.
C. Truck and truck parts:		
Trucks and trailers.	10 percent of manufacturers sale price for trucks and trailers over 10,000 lb.	12 percent of retail sales price for trucks over 33,000 lb and trailers over 26,000 lb.[1]
Parts and accessories.	8 percent of manufacturers sale price for trucks and trailers over 10,000 lb.	12 percent of manufacturers sale price of trucks and trailers over 33,000 lb.[1]
D. Tires, tubes, and tread rubber:		Effective Apr. 1, 1984:
Tires for highway vehicles.	9.75 cents per pound on all highway tires.	9.75 cents per pound for first 50 lb, 15 cents per pound for next 50 lb, 25 cents for each pound over 100 lb.
Laminated tires	1 cent per pound	Repeal.
Other tires	4.875 cents per pound	Do.
Inner tubes	10 cents per pound	10 cents per pound.
Tread rubber	5 cents per pound for tires of all weights.	5 cents per pound for use on tires below 50 lb, 8 cents per pound for tires between 50 and 100 lb, 16 cents per pound for tires over 100 lb.
E. Use tax on heavy vehicles.	$3 per 1,000 lb per year, if more than 26,000 lb.	0 to 33,000 lb: no tax. 33,000 to 55,000 lb: $80 plus $10 per 1,000 lb in excess of 33,000 lb. 55,000 to 80,000 lb: $300 plus $52 per 1,000 lb in excess of 55,000 lb.[2] Over 80,000 lb: $1,600.

[1] The increase in the weight thresholds for the exemptions for trucks and trailers is effective on the day after the date of enactment. The increase in the rate to 12 percent and the shift to the retail level for collection of the truck tax are effective Apr. 1, 1983.

[2] Phased in between Jan. 1, 1984, and July 1, 1985.

II. General Reasons for the Committee Amendment

The committee believes that extensive improvements are required in the nation's highways, bridges and mass transit systems, and that Highway Trust Fund revenues under the current tax structure are inadequate to finance them. This inadequacy is due in part to the fact that the purchasing power of trust fund revenues has been reduced by inflation, because many highway user taxes do not automatically rise with prices and the tax rates have not been adjusted for several years. The motor fuels tax, which has been fixed at 4 cents per gallon since 1959, is an example. The committee has determined that the highway user taxes should be raised sufficiently to pay for the additional expenditures that are so much needed. In addition, it believes that the Highway Trust Fund should be extended for five additional years.

Allocating highway costs to users

The committee agrees with the general principle that highway users should pay highway user taxes in proportion to the costs that result from their use. On this point, the committee recognizes the broad conclusions of the cost allocation study undertaken by the Department of Transportation and transmitted to Congress in May 1982. This study indicated that, under the current excise tax structure, users of the heaviest trucks are paying much less than their proportionate share of highway costs and users of lighter trucks are paying much more. Aware that an increase in motor fuels taxes alone would aggravate the existing problem of disproportionate tax payments, the committee modified virtually the entire highway user excise tax structure so that users of the heaviest trucks will pay a greater share of the cost. Nevertheless, the committee believes it would not be wise policy to adhere strictly to the cost allocation study

in designing the highway excise taxes: first, because it would be difficult even for a healthy industry to absorb a tax increase of that magnitude, and second, because the affected industry is currently experiencing significant economic problems. Thus, the tax increase on heavy trucks is lower than implied by the cost allocation study, and that increase is phased in over a 2½-year period.

SIMPLIFICATION OF HIGHWAY EXCISE TAXES

Another goal of the committee is to simplify the highway user excise tax system. The committee, therefore, modified several of these taxes such that the number of taxpayers or the number of taxable transactions will be reduced. In addition, the committee decided to repeal certain minor taxes, because the revenue from them is too small relative to the government's administrative costs and the taxpayer's compliance costs.

III. EXPLANATION OF THE COMMITTEE AMENDMENT

A. MOTOR FUELS TAXES

(Secs. 44E, 4041, 4081-4083, 6416, 6420, 6421, and 6427 of the Code)

Present law—Gasoline tax

A manufacturers excise tax is imposed on the sale by a producer or importer of gasoline. The present gasoline tax is 4 cents per gallon. The tax is scheduled to decline to 1½ cents per gallon on October 1, 1984 (Code sec. 4081 (a) and (b)).

The 4-cents-per-gallon tax on gasoline applies for highway, noncommercial aviation,[1] and motorboat use (other than commercial fisheries or whaling use), except that the tax is 2 cents per gallon for other nonhighway, nonaviation qualified business use.[2] Revenues from the gasoline tax generally are deposited in the Highway Trust Fund. Revenues from the tax on noncommercial aviation are deposited in the Airport and Airway Trust Fund. An amount equivalent to the revenues from the tax on motorboat gasoline is transferred to the National Recreational Boating Safety and Facilities Improvement Fund and the Land and Water Conservation Fund (discussed below).

Diesel and special motor fuels taxes

A tax is imposed on the sale or use of diesel fuel for use in motor vehicles on highways (sec. 4041(a)). The tax on diesel fuel is imposed at the retail level and is presently imposed at 4 cents per gallon. The tax is scheduled to decrease to 1½ cents per gallon on October 1, 1984 (sec. 4041(a)).

A similar retailers excise tax is imposed on the sale of special motor fuels for use in a motor vehicle or motorboat.[3] The tax on special motor fuels is presently 4 cents per gallon and is scheduled to decrease to 1½ cents per gallon on October 1, 1984 (sec. 4041(b)). The tax on special motor fuels applies both for highway and off-highway use. However, the tax is 2 cents per gallon for off-highway, qualified business use.

Motorboat fuels

As noted above, the gasoline tax and the special motor fuels tax are imposed on such fuels used by motorboats. An amount equivalent to the revenues derived from these taxes is transferred from the Highway Trust Fund to two other special funds. Amounts not exceeding $20 million per year of these revenues for fiscal years 1981-1983 are to be transferred to the National Recreational Boating Safety and Facilities Improvement Fund. However, that fund is not permitted to have a balance in excess of $20 million at any one time. The balance of the revenues from these taxes is transferred to the Land and Water Conservation Fund.

Exemptions from motor fuels taxes

Present law provides a number of exemptions from the three motor fuel taxes. Offhighway use exemptions apply to farm use (sec. 6420) and use as supplies for certain vessels or aircraft (secs. 4041(g) and 6416(b)(2)(B)).[4]

Sales for the exclusive use of State and local governments, sales for export, and sales for use by nonprofit educational institutions and certain aircraft museums are also exempt (secs. 4041(f) and 6416(b)(2)(C)-(D)).

Exemptions from the taxes are also provided for use by school buses and certain other buses providing public passenger transportation for hire (sec. 6421(b) and sec. 6427(b))[5] and for certain qualified taxicab use through 1982 (sec. 6427(e)).[6]

An additional exemption from the taxes applies through 1992 to a fuels mixture (gasohol) which contains at least 10 percent alcohol of 190 proof (secs. 4041(k), 4081(c), and 6427(f)). To qualify, the alcohol must be produced from sources other than petroleum, gas, or coal. Producers of alcohol fuels may claim a 40-cents-per-gallon income tax credit, which is reduced to the extent that the alcohol is used in gasohol for which there is an excise tax exemption is claimed (sec. 44E).[7]

The exemptions from the motor fuels taxes are accomplished by tax-free sale or allowance of a refund (or credit) for tax paid when the fuels are purchased. The exemption is usually made available only to the party using the fuel. In the case of the farm use exemption, the exemption is accomplished by means of a credit and is available only to the farm operator, tenant, or owner except in the case of aerial applicators. Aerial applicators that receive written consent of the farm owner, tenant, or operator may claim the exemption for fuels they use for farming purposes.

Time for payment of tax

Under present law, the motor fuels taxes generally are paid based upon a semimonthly period, with the tax due 9 days after the close of the period.

Reasons for change

The present excise taxes funding the Highway Trust Fund are scheduled to expire or to be reduced on October 1, 1984. Extension of the Trust Fund and modifications in these excise taxes are needed to finance the increased highway construction and maintenance programs anticipated as necessary to rebuild the nation's transportation system.

The committee determined that an increase in the present taxes on gasoline, diesel, and special motor fuels to 9 cents per gallon is necessary to achieve the required funding levels for anticipated highway and transit expenditures. These increases, when combined with the modification of the other highway-related excise taxes contained in the committee amendment, make the highway excise tax structure more consistent with the findings of the 1982 cost allocation study submitted to Congress by the Department of Transportation than is the case under present law.

The committee also examined the various exemptions from the motor fuels taxes. In general, the committee believes that these exemptions should be continued at their present levels, i.e., an amount equal to the full tax imposed on the motor fuels. In three instances, however, the committee determined that modification of the exemptions is appropriate. First, the committee amendment provides a new exemption from the special motor fuels tax, at the 9-cents-per-gallon rate, for alcohol fuels consisting of at least 85 percent ethanol, methanol, or other alcohols. The exemption is available only for alcohol fuels derived from sources other than petroleum and natural gas. The committee believes this new exemption is consistent with the policy of decreasing reliance on petroleum fuels.

Second, the committee amendment limits the present exemptions for fuels used in providing qualified taxicab services to 4 cents per gallon. The committee believes this level promotes the goal of assigning the costs of constructing and maintaining the highway system to the users of that system in proportion to the burden they place upon it. The committee amendment generally terminates the present law exemptions for fuels used in providing qualified taxicab services on September 30, 1984. The amendment expands the exemption to include taxicabs permitted to offer ride sharing by company policy in areas where local law prohibits ridesharing in certain circumstances. The expansion is effective only through December 31, 1983. These termination dates are intended to permit a more thorough examination of that exemption during the next Congress.

---

[1] Section 4041(c) imposes a retail excise tax on noncommercial aviation gasoline of 8 cents per gallon, for a total tax on noncommercial aviation gasoline of 12 cents per gallon. This rate of tax applies through 1987.

[2] In general, a qualified business use is a use in an off-highway vehicle that is used in a trade or business or for the production of income.

[3] Special motor fuels are benzol, benzene, naptha, liquefied petroleum gas, casinghead and natural gasoline, or any other liquid (other than kerosene, gas oil, fuel oil, gasoline taxed under the general gasoline tax, or diesel fuel taxed under the general diesel fuel tax). Methanol and ethanol fuels are taxed as special fuels under present law. Further, section 4041(c) imposes a retail tax of 14 cents per gallon on nongasoline fuels used in noncommercial aviation. This rate of tax applies through 1987.

[4] The term "supplies for vessels or aircraft" means fuel supplies, ships stores, sea stores, or legitimate equipment for vessels of war, vessels employed in fisheries or in the whaling business, or vessels engaged in foreign trade or trade between the Atlantic and Pacific ports of the United States or between the United States and any of its possessions. The term "vessels" also includes civil aircraft employed in foreign trade or trade between the United States and any of its possessions (sec. 4221(d)(3)).

[5] The exemption does not apply for fuel used in such buses where the transportation is not scheduled and not along regular routes unless the seating capacity of the bus is at least 20 adults (not including the driver).

[6] Qualified taxicab use means furnishing of nonscheduled land transportation for a fixed fare by a licensed operator who is not prohibited by law or company policy from furnishing shared transportation (with consent of the passengers). Model year 1978 and later taxicabs must have a fuel economy rating in excess of the average EPA rating for the type of vehicle involved to qualify for this exemption.

[7] A tariff of 40 cents per gallon is imposed on ethanol imported for use in fuels.

Third, the committee amendment adds a new exemption for vanpooling because vanpooling promotes energy conservation.

Finally, the committee determined that the present exemptions for certain off-highway uses should be increased from one-half of the otherwise applicable tax to the entire amount of the tax. The committee believes this action is appropriate because these uses of motor fuels place no burden on the highway system.

Explanation of provisions

1. Increase in motor fuels taxes: The excise taxes on gasoline, diesel, and special motor fuels are increased from their present 4-cents-per-gallon rate to a rate of 9 cents per gallon.[8]

2. Taxes on motorboat fuels: The committee amendment increases the tax rates for gasoline and special fuels used in motorboats to 9 cents per gallon to conform those rates to those for other taxable uses of the fuels. The committee amendment also increases the maximum amount that can be transferred to the National Recreational Boating Safety and Facilities Improvement Fund from $20 million to $45 million per year and extends the period for those transfers through September 30, 1989. A corresponding committee amendment is made permitting the balance of the Boating Fund to reach $45 million. (For more information on the Boating Fund, see the discussion of the Highway Trust Fund, below in H.)

3. Modification of exemptions from fuels taxes:

Gasohol.—The committee amendment retains the present exemptions from the motor fuels taxes for gasohol to exempt each gallon of gasohol from the full 9 cents of tax. These exemptions will terminate after the previously scheduled 1992 termination date.

A corresponding amendment is made to increase the 40-cent-per-gallon tariff on ethanol imported for use in fuels to 90 cents.

Alcohol fuels.—The committee amendment provides a new exemption from the special motor fuels tax, at the new 9-cent-per-gallon rate, for certain alcohol fuels. Fuels qualifying for the new exemption must consist of at least 85 percent methanol, ethanol, or other alcohols. Additionally, the fuels cannot be derived from petroleum or natural gas. Such alcohol fuels derived from coal, bagasse, or waste or other refuse will qualify for the 9-cent exemption.

The 40-cents-per-gallon income tax credit for alcohol fuel derived from sources other than oil, gas, or coal is increased to 90 cents per gallon to conform to the increase in the gasohol exemption and the new alcohol fuels exemption, and the 1992 termination date for this credit is retained. The credit for alcohol fuels is reduced to take account of any benefit provided by the new alcohol fuel exemption in the same manner as with the present gasohol exemption.

Certain buses.—The committee amendment retains the provisions of present law that provide exemption from the motor fuels taxes for certain buses. Thus, fuels used in these vehicles are entitled to a 9-cent-per-gallon exemption from any applicable motor fuels taxes.

Qualified taxicabs.—The committee amendment retains the present exemptions for motor fuels used in providing qualified taxicab services. Under the committee amendment, fuels used in providing qualified taxicab services will maintain their present 4-cents-per-gallon exemption. Thus, these fuels are subject to tax at a 5-cents-per-gallon rate. In addition, the committee amendment expands the exemption, through 1983, to fuels used in otherwise qualified taxicabs even though their offering ridesharing is prohibited in certain circumstances by local law.

Further, the committee amendment directs the Secretary of the Treasury to conduct a study of the effectiveness of this exemption in promoting energy conservation and the relationship of this exemption, if any, to the cost allocation goals relating to financing of the highway system. The results of this study, along with any recommendations of the Secretary, are to be submitted to the Congress not later than January 1, 1984.

Certain vehicles used for vanpooling.—The committee amendment includes a new exemption for vehicles used in vanpooling if certain requirements are satisfied. First, the vehicle must seat at least 8 adults (not including the driver) and at least 80 percent of its mileage must be commuting to and from work. Under the amendment, such vehicles will be exempt from the full 9 cents per gallon fuels taxes whether owned by the employer, by an owner-operator, or by a third party and leased by the employer or operator. Only fuels used in commuting are exempt from tax.

Farm use.—The committee amendment continues the provisions of present law that provide for full exemption from the motor fuels excise taxes for fuels used on farms for farming purposes.

Off-highway business use.—The committee amendment increases the present exemption for fuels used in an off highway business use from one-half of the tax imposed to the full 9-cent-per-gallon rate.

Other exemptions.—The committee amendment continues, at the new 9-cent-per-gallon tax rates, the other exemptions from tax provided in present law. Among such exemptions are those for fuels sold for the exclusive use of State and local governments, for export, for use by nonprofit educational institutions, for use as supplies for vessels or certain aircraft, and for use by certain aircraft museums.

Method of claiming exemptions.—The committee amendment does not change the method by which exemptions from the motor fuels taxes are claimed. The committee amendment does make one change, however, in the person who is entitled to the exemption on fuels used on farms for farming purposes. Under the committee amendment, certain ground applicators or pesticides, herbicides, and other farm processes are to be treated the same as aerial applicators are treated under present law. Therefore, if the owner, tenant, or operator of a farm served by these applicators consents in writing, the applicator, rather than the owner or operator of the farm, is entitled to the credit for tax paid on fuels used on the farm for farming purposes. This provision does not expand the present law circumstances in which gasoline and other motor fuels are exempt from tax.

4. Time for payment of taxes: The committee amendment permits an additional 6 days for payment of the gasoline excise tax, for a total of 15 days after the date of the semimonthly payment period. The additional period is available only to certain oil jobbers who elect, pursuant to Treasury Department regulations, to pay tax by electronic wire transfer. A qualified oil jobber is a jobber who sells 2 million or fewer gallons of gasoline during the semi-monthly period for which the additional time is granted.

Effective dates

The increases in the motor fuels tax rates are effective for fuels sold after March 31, 1983, and before October 1, 1989.

The provisions exempting certain sales of motor fuels from tax are generally effective with the changes in the rates of the taxes, and generally terminate after September 30, 1989. The exemption for fuels used in providing qualified taxicab services is effective on January 1, 1983; that exemption will expire after September 30, 1984, or December 31, 1983, in the case of taxicabs qualifying under the expansion of that provision. The provision affecting certain ground applicators is effective on April 1, 1983.

The increase in the tariff on certain imported ethanol is effective for imports after March 31, 1983.

The extension in the time for payment of tax is effective on April 1, 1983.

Revenue effect

It is estimated that the changes relating to the tax on gasoline will increase fiscal year trust fund receipts by $2,211 million in 1983, $4,442 million in 1984, $6,589 million in 1985, $6,461 million in 1986, $6,432 million in 1987, and $6,459 million in 1988.

The changes relating to diesel and special motor fuels will increase trust fund receipts by $341 million in 1983, $803 million in 1984, $1,303 million in 1985, $1,394 million in 1986, $1,496 million in 1987, and $1,607 million in 1988.

B. EXCISE TAXES ON SALE OF TRUCKS AND TRUCK PARTS

(New secs. 4051-4053 and sec. 4061 of the Code)

Present law—Trucks and truck trailers

A manufacturers excise tax is imposed on the sale of truck chassis and bodies, truck trailer and semitrailer chassis and bodies, and tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer (including related parts or accessories). The tax imposed is 10 percent of the selling price of the manufacturer, producer or importer. However, the tax does not apply to the sale of truck chassis and bodies suitable for use with a vehicle which has a gross vehicle weight of 10,000 pounds or less (as determined under regulations prescribed by the Secretary). Also, the tax does not apply to truck trailer and semitrailer chassis and bodies suitable for use with a trailer or semitrailer which has a gross vehicle weight of 10,000 pounds or less (as so determined). Additional exemptions apply to specified articles including ambulances, trash containers, house trailers and certain other articles. However, rail trailers and rail vans are not currently exempted. This manufacturers excise tax on trucks is scheduled to fall to 5 percent on October 1, 1984.

Truck parts and accessories

A manufacturers excise tax is imposed on the sale of parts or accessories (other than tires or innter tubes) for articles taxed under the manufacturers excise tax on trucks. The tax imposed is 8 percent of the selling price of the manufacturer, producer or importer. This tax on parts and accessories is scheduled to fall to 5 percent on October 1, 1984.

[8]The excise taxes on fuels used in noncommercial aviation are not changed by the committee amendment. Those taxes remain 12 cents per gallon for gasoline and 14 cents per gallon for other aviation fuels through 1987.

Reasons for change

The committee believes that a more equitable distribution of highway costs would result if both the excise tax on trucks and the excise tax on truck parts are modified to impose smaller taxes on lighter trucks and higher taxes on heavier trucks. In addition, the committee is concerned that the manufacturers excise tax on trucks, because of the amount of tax per article, is likely to create a financial hardship for retail dealers who carry inventories of tax-paid trucks for long periods before those trucks are sold at retail. Therefore, the committee believes that this tax should be imposed at the retail level, but that the tax on truck parts should continue to be imposed at the manufacturing level.

Explanation of provision

1. Trucks and truck trailers:

The committee amendment modifies the excise tax on trucks and truck trailers in several respects.

First, the exclusion from tax is extended to truck chassis and truck bodies suitable for use with a vehicle which has a gross vehicle weight of 33,000 pounds or less. The exclusion from tax also is extended to truck trailer and semitrailer chassis and bodies suitable for use with a trailer or semitrailer which has a gross vehicle weight of 26,000 pounds or less. The committee intends that the same concept of gross vehicle weight will apply as it does under present law. In addition, the committee amendment exempts from this tax rail trailers and rail vans, the chassis or body of which is designed for use both as a highway vehicle and a railroad car. For purposes of this exemption, a piggy-back trailer or semitrailer is not treated as designed for use as a railroad car.

Second, the current manufacturers excise tax will be converted to a retail excise tax and the rate of tax will be increased from 10 percent to 12 percent of the price for which an article is sold, beginning on April 1, 1983. In the case where a 10-percent manufacturers excise tax has been paid on an article taxable under the retail excise tax, the tax rate applicable to the retail sale of the article will be 2 percent. The tax will be imposed on the first retail sale of an article, which means the first sale after manufacturing, production, or importation for a purpose other than for resale. As under present law, the rebuilding of a truck will be treated as a manufacture. A person will not be treated as engaged in manufacture merely because an article is combined with an item described in Code section 4063(d). A lease will be considered a sale under rules similar to the present rules of Code section 4217. Use prior to the first retail sale (other than use in the further manufacture of a taxable article) will be treated as a taxable sale. Articles currently exempted from the manufacturers excise tax under Code section 4063(a), plus rail trailers and rail vans, will be exempt from the retail excise tax. Similarly, exemptions currently provided by Code section 4221(a) (relating to sales for further manufacture, for export, for use as supplies for vessels or aircraft, to a State or local government, or to a nonprofit educational organization) will apply under the retail excise tax.

For purposes of this tax, the retail price will include any charge incident to placing the article in condition ready for use, but will exclude (i) the amount of this tax, (ii) the retail price of tires (inclusive of any federal excise tax thereon), and (iii) the amount of any retail sales tax (if stated as a separate charge) imposed by any State, political subdivision thereof, or the District of Columbia. Retail price includes the value of any trade-in. If an article is sold otherwise than through an arm's-length transaction at less than the fair market price, the tax will be computed on the price for which similar articles are sold at retail in the ordinary course of business.

Third, the retail excise tax on trucks will expire on October 1, 1989.

2. Truck parts and accessories:

The committee amendment increases the manufacturers excise tax on truck parts and accessories from 10 percent to 12 percent. In addition, the exclusion threshold is raised to 33,000 pounds. Thus, the tax will not apply to parts or accessories suitable for use with trucks or truck trailers and semitrailers which have a gross vehicle weight of 33,000 pounds or less. Also, parts sold for resale in connection with the first retail sale of a vehicle taxable under the retail tax on trucks and trailers are exempt.

Under the committee amendment, this tax will expire on October 1, 1989.

Effective dates

The increase in the threshold weights for exclusion from the excise taxes on trucks and truck parts and the exemption of rail trailers and rail vans are effective on the day after the date of enactment. To account for the fact that these higher threshold weights will exclude certain vehicles that are currently taxable and on which the manufacturers truck tax has been paid, a credit or refund (without interest) for the tax paid will be allowed if the article has been sold to an ultimate consumer after November 28, 1982, and before the day after the date of enactment.

The replacement of the manufacturers excise tax on trucks by the retail excise tax on trucks and the increase in the tax rate to 12 percent are effective on April 1, 1983. The 12 percent tax rate for truck parts also takes effect on April 1, 1983.

Revenue effect

The provision relating to the excise tax on the sale of trucks and trailers is estimated to reduce receipts of the Highway Trust Fund by $158 million in fiscal year 1983, have no revenue effect in fiscal year 1984, and to increase receipts by $716 million in fiscal year 1985, $819 million in fiscal year 1986, $888 million in fiscal year 1987, and $965 million in fiscal year 1988.

The provision relating to the manufacturers excise tax on truck parts and accessories is estimated to decrease receipts of the Highway Trust Fund by $94 million in fiscal year 1983, $140 million in fiscal year 1984, $37 million in fiscal year 1985, $41 million in fiscal year 1986, $45 million in fiscal year 1987 and $48 million in fiscal year 1988.

C. HEAVY VEHICLE USE TAX

(Sec. 513 of the committee amendment and secs. 4481-4483 of the Code)

Present law

An excise tax is imposed on the use on the public highways of any highway motor vehicle which (together with semitrailers and trailers customarily used in connection with highway motor vehicles of the same type as the vehicle) has a taxable gross weight of more than 26,000 pounds. The rate of tax is $3 a year for each 1,000 pounds of taxable gross weight or fraction thereof. The term "taxable gross weight" means the sum of (i) the unloaded weight of the vehicle fully equipped for service, (ii) the unloaded weight of semitrailers and trailers (fully equipped for service) which are customarily used in connection with vehicles of the same type, and (iii) the weight of the maximum load customarily carried on vehicles, semitrailers and trailers of the same type.

The taxable period for the highway use tax is generally the one-year period beginning on July 1. Payment in quarterly installments is permitted. The amount of tax is prorated only when the first use of the vehicle occurs later than the first month of the taxable period. No de minimus exemption is provided under present law for vehicles used on the public highways for only a limited number of miles during a taxable period.

The highway use tax is scheduled to expire on October 1, 1984.

Reasons for change

The committee believes that the current structure of the highway use tax should be changed in order to achieve a more equitable distribution of future costs of highway construction and maintenance. As discussed in the General Reasons (above), the committee believes that the use tax should be lowered for lighter vehicles and raised for heavier vehicles, so that highway user taxes for different types of trucks will be more nearly proportionate to the costs properly allocable to their respective use of the highway system. In addition, the committee believes that an exemption should be provided to prevent the overpayment of tax in cases where the use of public highways is limited. The committee decided upon a 2½-year phase-in of the increase in this tax because the current depressed state of the trucking industry makes that industry unable to bear a sudden increase in the tax to the permanent levels provided in the amendment.

Explanation of provisions

The committee amendment modifies the use tax in four respects.

First, the highest taxable gross weight of a vehicle not subject to the tax will be raised from 26,000 pounds to 33,000 pounds. The committee amendment does not modify the definition of taxable gross weight. However, the committee amendment makes it clear that a semitrailer or trailer is to be treated as customarily used in connection with a highway motor vehicle if the vehicle is equipped to tow the semitrailer or trailer.

Second, the rate of tax will be changed from a flat amount per 1,000 pounds to a graduated amount determined by a 3-bracket structure, as follows:

If the taxable gross weight is—		The rate of tax is—
At least	But less than	
33,000 pounds	55,000 pounds	$80 per year, plus $10 for each 1,000 pounds or fraction thereof in excess of 33,000 pounds.
55,000 pounds	80,000 pounds	$300 per year, plus $52 for each 1,000 pounds or fraction thereof in excess of 55,000 pounds.
80,000 pounds		$1,600 a year.

This schedule is phased in, so that it is first fully effective for the taxable period which begins on July 1, 1985.

Third, a new de minimus exemption from the tax will apply if a vehicle is used 5,000 miles or less on the public highways during a taxable period. Provided that the owner of the vehicle furnishes such information as the Secretary may require, collection of the tax will be suspended where it is reasonable to expect that use will not exceed 5,000 miles, and no tax will be imposed if use does not in fact exceed that amount. Where the tax is paid and the vehicle is not used for

more than 5,000 miles, the amount of tax will be credited or refunded (without interest) to the owner.

Fourth, the highway use tax will expire on October 1, 1989.

In addition, the committee amendment directs the Secretary of Transportation (in consultation with the Secretary of the Treasury, State officials, motor carriers and other affected parties) to study alternative forms of the highway use tax, study plans for the better administration of the tax, and report findings and recommendations to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate before January 2, 1985. Beginning January 1, 1985, a State must require proof of payment of the highway use tax before registering trucks in the State.

Effective date

In general, the provision will be effective on January 1, 1984.

However, the new schedule of use tax rates provided by the committee amendment is phased in and is first fully effective for the taxable period which begins on July 1, 1985. The phase-in is structured so that one-third of the use tax change is introduced in the short taxable period which begins on January 1, 1984, and ends on June 30, 1984, and an additional one-third is introduced in the (regular) taxable period which begins on July 1, 1984. Thus, for a vehicle having a taxable gross weight of at least 33,000 pounds, the use tax rate for this short taxable period will be the sum of (i) one-sixth the amount determined under the new schedule and (ii) $1 per 1000 pounds (or fraction thereof) of taxable gross weight. Vehicles having a taxable gross weight under 33,000 pounds will be exempt from the use tax beginning on January 1, 1984. Also, the new de minimus exemption for this short taxable year will be for uses of 2,500 miles or less. For the taxable period beginning on July 1, 1984, the tax rate will be the sum of (ii) two-thirds the amount determined under the new schedule and (ii) $1 per 1000 pounds (or fraction thereof) of taxable gross weight.

Present law will apply to the short taxable period which begins on July 1, 1983, and ends on December 31, 1983. The tax rate for this period will be one-half the current annual rate. The Secretary shall by forms or regulation provide for appropriate installment payments with respect to the two short taxable periods provided by the committee amendment such that no more than two installment payments may be made for a taxable period.

Revenue effect

The provision is estimated to decrease receipts of the Highway Trust Fund by $82 million in fiscal year 1983, and to increase receipts by $212 million in fiscal year 1984, $694 million in fiscal year 1985, $863 million in fiscal year 1986, $925 million in fiscal year 1987 and $964 million in fiscal year 1988.

D. TAXES ON TIRES, TUBES, AND TREAD RUBBER

(Sec. 514 of the committee amendment and secs. 4071–4073 of the Code)

Present law

Excise taxes are imposed on the sale by a manufacturer, producer or importer of tires, inner tubes and tread rubber. The taxes are based on weight: tires for use on highway vehicles are taxed at 9.75 cents per pound; inner tubes for tires are taxed at 10 cents per pound; and tread rubber for use in recapping or retreading highway type tires is taxed at 5 cents per pound. On and after October 1, 1984, these taxes will decrease to the non-highway rate of 4.875 cents per pound for tires and 9 cents per pound for inner tubes; and the tax on tread rubber will expire. Tires, other than laminated tires, that are not intended for highway use are taxed at 4.875 cents per pound. (Examples of such nonhighway tires are those for aircraft, earth movers, and other nonhighway vehicles.) Laminated tires, which are tires not designed for highway use, are taxed at 1 cent per pound.

Reasons for change

The committee believes that the present highway excise taxes should be restructured, simplified, and that nuisance taxes should be repealed. As part of the restructuring of the highway excise taxes, the committee concluded that the tire and tread rubber taxes should apply on a graduated basis so that a higher rate of tax applies to the highway tires generally used by heavier trucks, and that the taxes on nonhighway-type tires should be repealed. This is generally consistent with the highway cost allocation study recommendations of the Department of Transportation and the Administration proposal. Also, the committee concluded that the tax on laminated tires should be repealed as a means of simplifying the highway excise taxes. Finally, the committee determined that the tax on inner tubes should be retained, as most inner tubes are utilized by the heavier highway tires.

Explanation of provisions

Under the committee amendment, there will be a graduated tax on highway tires with the following tax rates and brackets: 9.75 cents per pound for the first 50 pounds, 15 cents per pound for the next 50 pounds, and 25 cents per pound for each pound in excess of 100. Tread rubber will be subject to a tax of 5 cents per pound when used on tires under 50 pounds. The tax rate increases to 8 cents per pound for pounds between 50 and 101 pounds and 16 cents per pound for pounds over 100. The tax on inner tubes is retained at the present rate of 10 cents per pound. In addition, the committee amendment repeals the taxes on laminated tires and all other nonhighway tires.

Effective date

The change in the application of the excise taxes on tires, tubes, and tread rubber will be effective on April 1, 1981. The taxes will expire on October 1, 1989.

Revenue effect

The change in the tax in tires will decrease highway excise tax revenues by $6 million in fiscal year 1983 and $16 million in fiscal year 1984, and increase revenues by $381 million in fiscal year 1985, $337 million in fiscal year 1986, $350 million in fiscal year 1987, and $364 million in fiscal year 1988.

The change in the tax on tread rubber will increase highway excise tax revenues by $7 million in fiscal year 1983, $17 million in fiscal year 1984, and by $39 million per year in fiscal years 1985–1988.

The extension of the tax on inner tubes will increase highway excise tax revenues by $2 million per year in fiscal years 1985–1988.

E. TAX ON LUBRICATING OIL

(Sec. 515 of the committee amendment and secs. 4091–4093 of the Code)

Present law

The sale of lubricating oil is subject to a 6-cents per-gallon tax that is levied on the manufacturer or producer. (This tax is not scheduled to be reduced on October 1, 1984.) Exemptions are provided for oil sold for use in cutting or machining operations on metals. An exemption also applies to sales of rerefined oil. Rerefined oil must be composed of at least 25 percent used or waste lubricating oil that has been cleaned and no more than 55 percent previously unused lubricating oil.

Reasons for change

Since synthetic lubricating oil is used in motor vehicles as is regular lubricating oil, the committee concluded that the tax should be extended to synthetic lubricating oil.

Explanation of provision

The committee amendment retains the present tax on lubricating oil, and extends the tax to synthetic lubricating oil.

Effective date

The extention of the tax on lubricating oil to synthetic lubricating oil is effective for sales after March 31, 1983.

Revenue effect

This provision will increase highway excise tax revenues by less than $1 million per year for fiscal years 1983–1988.

F. FLOOR STOCKS PROVISIONS

(Secs. 521 and 522 of the committee amendment)

Present law

Floor stocks taxes are imposed on inventories of articles with respect to which a tax rate is increased. Present law includes no floor stocks taxes with respect to articles subject to the highway excise taxes. Floor stocks taxes have been imposed with respect to these articles and other articles in the past when tax rates have been increased.

Floor stocks refunds are refunds of taxes paid on inventories of articles with respect to which a tax rate is decreased. Present law includes provisions for floor stocks refunds of the highway excise taxes on trucks, tires, tread rubber and gasoline when those taxes are scheduled to be reduced, effective October 1, 1984 (Code sec. 6412(a)).

Floor stocks provisions tax or permit refunds with respect to manufacturers excise taxes because those taxes are included in the cost of inventories. On the other hand, retailers excise taxes, such as the excise taxes on diesel and special motor fuels, are not paid before sale to an ultimate purchaser, and are not, therefore, reflected in inventory costs. Accordingly, floor stocks provisions do not apply to retailers taxes.

Reasons for change

Floor stocks taxes and refunds are designed to prevent distortion of markets upon the occasion of a manufacturers excise tax increase or decrease. This distortion could result if dealers artificially increased inventories immediately before a tax increase, or in the case of a declining tax rate, if dealers chose to delay purchases until the tax rate declined. The committee believes that decisions such as when and how much inventory to maintain should not be influenced the impending changes in the rate of tax imposed on such articles.

Explanation of provisions

1. Floor stocks taxes:

The committee amendment imposes a floor stocks tax on gasoline held for sale by a dealer on April 1, 1983, if the gasoline would otherwise be subject to tax under section 4081 if held by a producer on that date. For purposes of this tax, a dealer is defined

to include a wholesaler, jobber, distributor, or retailer. An article is considered to be held by a dealer if title has passed to the dealer, whether or not the dealer has actual possession of the article.

The committee amendment also imposes floor stocks taxes on tires, tread rubber, truck parts and accessories, and synthetic lubricating oil, held for sale by a dealer on April 1, 1983, which would be subject to the excise taxes imposed under section 4071, or 4091, as amended, if held by a manufacturer on that date. For purposes of the floor stocks taxes on tires and tread rubber, the term dealer and the circumstances when a dealer is considered to hold tires and tread rubber for sale on April 1, 1983, are defined in the same manner as for the floor stocks tax on gasoline.

The floor stocks taxes are due and payable, by return, on May 15, 1983. Generally, this provides additional time for payment of this tax beyond that allowed for payment of the regular tax on gasoline.

The amount of these floor stocks taxes is equal to the excess of the new tax rates over that previously paid with respect to the articles.

Revenues from the floor stocks taxes will be transferred to the Highway Trust Fund.

2. Floor stocks refunds:

The committee amendment provides for floor stocks refunds of tax paid on articles on which the manufacturers excise taxes are repealed if certain conditions are satisfied. First, the tax-repealed articles must be held for sale by a dealer on the date the tax is repealed. Second, the manufacturer must have records to substantiate his claim that he or she paid the repealed tax on the article. Third, the manufacturer must file a claim with the Internal Revenue Service within ten months after the date on which the excise tax is repealed.

The manufacturer must also reimburse the dealer in an amount equal to the tax or must obtain the written consent of the dealer to the manufacturer's receiving the floor stocks refund. The committee intends that the manufacturer receive the written consent or possess evidence of reimbursement of the dealer before (or simultaneous with) the time any payment is made or credit granted by the Internal Revenue Service.

Tax-repealed articles include trucks with a taxable gross weight of 33,000 pounds or less, trailers with a like weight of 26,000 pounds or less, laminated tires and nonhighway tires, and parts and accessories for trucks and trailers below 33,000 pounds.

The committee amendment also provides for refunds or credits to manufacturers for tax paid with respect to certain trucks and truck trailers that are sold to ultimate purchasers between November 28, 1982, and the date of enactment. To receive these refunds or credits, manufacturers must file a claim with the Internal Revenue Service. This claim must include information similar to that required for refunds with respect to trucks held by dealers on the date of enactment, except the ultimate purchaser, rather than the dealer, must have been reimbursed for the amount of tax previously paid by the manufacturer.

Amounts equivalent to the amount of the floor stocks refunds will be transferred from the Highway Trust Fund to the general fund of the Treasury so the Trust Fund will bear the cost of these refunds.

Effective dates

The floor stocks provisions are effective on the date of the increase or repeal of the manufacturers excise taxes to which they relate.

Revenue effect

The revenue effect of the floor stocks provisions is included in the revenue changes for taxes to which they relate.

G. TERMINATION OF HIGHWAY EXCISE TAXES AND EXEMPTIONS

Present law

Some of the present Highway Trust Fund excise taxes were imposed before enactment of the Highway Trust Fund in 1956. At the time of the Trust Fund's enactment, those existing taxes were increased and new taxes imposed. Because of the special purpose for which the taxes are imposed, they have been scheduled to expire (or be reduced to their pre-trust fund levels) upon the scheduled termination of the Trust Fund.

The present motor fuels taxes (gasoline, diesel, and special fuels) are scheduled to decline from 4 cents per gallon to 1½ cents per gallon on October 1, 1984. The present manufacturers excise tax on trucks and trailers is scheduled to decline from 10 percent to 5 percent on that date, and the 8 percent tax on truck parts and accessories is scheduled to decline to 5 percent.

The tax on highway tires is scheduled to decline to 4.875 cents per pound on October 1, 1984, and the tax on tread rubber is scheduled to expire on that date. The tax on highway use of certain trucks is also scheduled to expire after September 30, 1984.

Present law also provides exemptions from these taxes for differing periods of time. (A full explanation of the scope of these exemptions can be found in the discussion of the particular tax concerned.) Some of the exemptions are of unlimited duration (e.g., the exemptions for State and local governmental and farming uses) and others are granted for only limited periods of time (e.g., the exemptions for gasohol which are scheduled to terminate after December 31, 1992).

Reasons for change

The committee believes that the highway excise taxes should terminate at the same time that the Trust Fund terminates under the committee amendment, September 30, 1989. If Congress determines that it is not appropriate to extend the Trust Fund after September 30, 1989, termination of the highway excise taxes will facilitate its consideration of which highway excise taxes, if any it is appropriate to levy without their dedication to highway and mass transit purposes.

Explanation of provisions

All of the Highway Trust Fund excise taxes continued under the committee amendment terminate, effective on October 1, 1989. The exemptions from these taxes generally are also terminated on this date. However, the exemptions for fuels used in providing qualified taxicab services (as defined under present law) terminate after September 30, 1984. Taxicabs qualifying under the amendment's expansion of the definition of qualified taxicab services are exempt only through December 31, 1983.

Certain excise taxes are repealed by the committee amendment, either in whole or in part. The taxes on laminated tires, and all nonhighway tires are repealed, effective April 1, 1983. The highway use tax on trucks with a taxable gross weight under 33,000 pounds is repealed, effective after December 31, 1983.

H. HIGHWAY TRUST FUND PROVISIONS

(Secs. 209(c) and (f) of the Highway Revenue Act of 1956)

Present law

Original enactment of the Highway Trust Fund.

The Highway Trust Fund was established in 1956 (P.L. 84-627) for a 16-year period to provide a specific source of financing for the new Interstate Highway System and continuation of other Federal-aid highway programs. The other highway-aid programs previously had been financed through the general fund.

The Highway Revenue Act of 1956 included a declaration of congressioal policy that (1) if it appears that the total receipts of the trust fund will be less than the total expenditures from the trust fund, or (2) if it appears that the distribution of the tax burden among the various classes of highway users or other beneficiaries of the highways is not equitable, then Congress is to enact legislation to bring about a balance of total trust fund receipts and expenditures or to make an equitable distribution of the tax burden. In addition, the 1956 Act provided for a 3-year highway cost allocation study (later extended for 2 additional years) to determine the fair distribution of highway-related user taxes among the various users.

The 1956 Act also contained a provision—the "Byrd amendment"—to prevent the Trust Fund from reaching a deficit position. In general, this provision originally required that if trust fund balances and estimated future receipts will be inadequate to cover obligations as they become due, a reduction of the Interstate Highway System apportionment in an amount sufficient to eliminate the difference would be required.

There were increases in 1959 and 1961 in certain of the highway excise taxes to increase the financing of the trust fund.

Subsequent extensions of the Highway Trust Fund:

The Highway Trust Fund and the related highway excise taxes transferred to the trust fund have been extended three times since 1961: a 5-year extension in the Federal-Aid Highway Act of 1970 (from September 30, 1972, through September 30, 1977), a 2-year extension in the Federal-Aid Highway Act of 1976 (through September 30, 1979), and a 5-year extension in the Surface Transportation Assistance Act of 1978 (through September 30, 1984). These trust fund extensions were added by the tax writing committees as a separate title to a highway authorization bill and involved only the extensions of existing highway excise taxes and tax rates.

In the 1978 Act, the operation of the "Byrd amendment" was modified to require that when anticipated revenues are insufficient to cover expenditures, reductions will be made on a pro rata basis to all apportioned highway funds, rather than to interstate apportionments only. Finally, two studies were required: a cost allocation study to be conducted by the Department of Transportation, with a final report to Congress by January 15, 1982; and a study of the highway excise tax structure to be conducted by the Department of Treasury, with a final report to Congress by April 15, 1982. (The highway cost allocation study was submitted to Congress on May 13, 1982. A second progress report on the excise tax study was submitted on October 1, 1981, but a final report has not been submitted.)

Highway Trust Fund expenditure purposes:

Since its enactment in 1956 and through legislation since then, the Highway Trust Fund has been used to finance construction of the Interstate Highway System, other Federal-aid highways, and for other Federal highway-aid programs. The highway programs currently supported by expenditures from the trust fund are listed below:

(1) *Interstate highway system*—(a) Construction to close gaps in the nearly completed basic Interstate system; (b) resurfacing, restoring, rehabilitating and reconstructing ("4Rs") previously completed sections.

(2) *Primary highway system*—(a) Construction and reconstruction and related planning; (b) resurfacing, restoring, rehabilitating these highways.

(3) *Urban and rural area transportation program*—Assistance in urban and rural areas in construction, rehabilitation and reconstruction of local roads, and related planning and research; public transportation capital expenditures; safety improvements and traffic system management. (Urban areas have more than 50,000 persons; rural areas less than that population.)

(4) *Bridge program*—Rehabilitating or replacing structurally deficient bridges.

(5) *Construction and other highway-related safety programs*—Establishment of safety programs and to build safety into highways during their construction, including such things as pavement marking, and elimination of roadside hazards and highway rail crossings.

(6) *Emergency highway relief programs*—Highway funds relating to disaster relief.

(7) *Administration and research through the federal highway administration*—Involving (a) coordination and direction of various public programs and requirements, (b) general program support affecting policy plans and projections and administrative support, and (c) engineering and financial assistance.

(8) *Additional programs*—The Highway Trust Fund contributes a share of costs of certain other programs, including the following:

Forest and public lands highways;
Economic growth center highways;
National scenic and recreational highways;
Railroad-highway crossing demonstration projects;
Rural highway public transportation demonstration projects;
Bicycle pathway programs;
Highway safety research and development;
Car and van pool projects;
Right-of-way revolving fund.

Reasons for change

The 5 year federal highway program authorizations (fiscal years 1983-1987) in the titles of H.R. 6211, as approved by the Committee on Environment and Public Works, and the Administration's recommendations for the same purposes, are directed at completing the Federal Interstate Highway System and maintaining that system and other parts of the Federal-Aid highway system in usable and safe condition. These continuing highway responsibilities involve completing the interstate highway system, expanding a program of resurfacing, restoring, rehabilitating and reconstructing parts of the system as conditions require, and extending the same restoration program to deteriorating portions of the Federal-Aid highway system and highway bridges.

In order that the federal highway programs may continue to be financed by the users of the highways at a rate commensurate with their use of the system, the Highway Trust Fund is extended for a period long enough to pay the financial obligations that will result from the increased spending planned for the revised highway program. The basic character of the Highway Trust Fund statute is extended without essential change, although the trust fund statute is updated to refer to the current executive agencies administering the Federal-Aid Highway Programs. However, as indicated in the next section discussing the new Mass Transit Account, the Highway Trust Fund's general purpose is expanded to include a separate account to receive a specified portion (1 cent per gallon) of the motor fuels tax revenues for mass transit capital expenditures.

Explanation of provisions

1. Extention of the Trust Fund:

The Highway Trust Fund is extended by the committee amendment for an additional 5 years, from September 30, 1984, through September 30, 1989. This is intended to correlate with the anticipated 5-year extension of Highway Trust Fund authorizations.

2. Revenues appropriated to the trust fund:

Under the amendment, amount equivalent to the taxes received in the Treasury under the provisions relating to the highway excise taxes will continue to be appropriated to the Highway Trust Fund for five more years, through September 30, 1989. These are taxes on: (a) diesel and special motor fuels (sec. 4041(a) and (b)),[9] (b) heavy trucks and trailers (sec. 4051(a) and 4061(a)), (c) trucks and truck parts (sec. 4061(b)), (d) tires, tubes, and tread rubber (sec. 4071), (e) gasoline (sec. 4081), (f) lubricating oil (sec. 4091), and (g) use of certain vehicles (sec. 4481). Taxes received after September 30, 1989, and before July 1, 1990, that are attributable to liabilities incurred before October 1, 1989, also are appropriated to the Trust Fund.

3. Expenditures and transfers from the trust fund:

Expenditures may be made from the Trust Fund before October 1, 1989, as provided by appropriation Acts, to meet obligations which have been incurred after authorization by law to be paid out of the Highway Trust Fund established by section 209 of the Highway Revenue Act of 1956. Eligible obligations are those incurred under the Federal-Aid Road Act of July 11, 1916, as amended and supplemented, including administrative expenses of the Federal Highway Administration.

Expenditures from the Highway Trust Fund for highway purposes, however, may not be made from the Mass Transit Account, which is described in section I, below.

Transfers of funds may be made from the trust fund to the general fund for amounts paid before July 1, 1990, that are for tax credits or other payments attributable to non-highway uses of motor fuels and lubricating oil and for floor stock refunds on the basis of claims filed for periods ending before October 1, 1989.

Revenues from the 9-cents-per-gallon taxes on motorboat fuels are to be transferred to the National Recreational Boating Safety and Facilities Improvement Fund through September 30, 1989. The aggregate amount transferred in any fiscal year, however, may not exceed $45 million and no transfers of these amounts may be made if they will increase the accumulated balance in the Boating Safety Fund above $45 million. Any other amounts of motorboat fuels taxes will continue to be transferred to the Land and Water Conservation Fund. Motorboat fuels taxes are defined as the taxes received from gasoline and special fuels used in motorboats.

Anti-deficit provision ("Byrd amendment")

The provision (the "Byrd amendment") that assures the Highway Trust Fund is maintained as a self financing entity is retained without change, including retention of the authority for repayable advances.

Effective date

The increase in the amount of revenues to be transferred to the National Recreational Boating Safety and Facilities Improvement Fund is effective on October 1, 1983 (for fiscal years 1984-1989). The extension of the Highway Trust Fund provisions generally is effective for October 1, 1985-September 30, 1989, except for the 9-month period (through June 30, 1990) for receipt of pre-October 1, 1989 highway excise tax liabilities and certain transfers from the trust fund.

I. MASS TRANSIT ACCOUNT

(Sec. 532 of the committee amendment and sec. 209(h) of the Highway Revenue Act of 1956)

Present Law

There is no transit account in the Highway Trust fund and no transit trust fund that receives tax receipts designated for deposit in such an account or fund.

Reasons for Change

Rail and bus transit systems move millions of people daily. They complement and are interdependent with highways in moving people and goods efficiently and economically in and around urban areas. Capital investment in these systems has not kept pace in recent decades with growth requirements or the deterioration of the existing capital structure. The Administration has estimated that capital investment needs for urban rail and bus transit could total almost $50 billion over the next decade.

In order to address transit needs, the committee amendment provides that the equivalent of one cent of the 9 cents a gallon fuels taxes in the committee amendment be available for capital improvement to mass transit through fiscal year 1989. The provision will provide about $1.1 billion each full fiscal year, and these funds will be in addition to the amounts appropriated from the general funds of the Treasury for mass transit.

Explanation of Provision

Under the committee amendment, a separate Mass Transit Account is established in the Highway Trust Fund. It consists of the revenue equivalent to the amount raised by 1 cent a gallon of the 9 cents a gallon excise taxes imposed on gasoline and diesel and special motor fuels (secs. 4041(a) and (b) and 4081). These amounts are to be transferred to the Mass Transit Account with the same regularity and under the same conditions as amounts from these taxes are transferred to the Highway Trust Fund. Interest earned as a result of investment in United States securities on the portion of amounts

[9] Revenues attributable to the fuels taxes on noncommercial aviation gasoline and other fuels (under sec. 4041(c)) continue to be transferred to Airport and Airway Trust Fund, through September 30, 1987. Amounts appropriated to the Airport and Airway Trust Fund from the tax on aviation fuels are deducted beforehand from the amounts deposited in the Highway Trust Fund.

in the Highway Trust Fund that are attributable to the Mass Transit Account shall be credited to the Mass Transit Account.

Amounts in the Mass Transit Account shall be available, as provided by appropriation Acts, for making capital expenditures (including capital expenditures for new projects) before October 1, 1989, under section 22 of the Urban Mass Transportation Act of 1964. Expenditures from the Mass Transit Account may be made only for mass transit capital purposes, and no expenditures may be made from this account for highway purposes. These also will be authority, as there is under the Highway Trust Fund generally, for repayable advances for the Mass Transit Account.

In approving capital expenditures for new transit systems, it is the committee's belief that preference should be given to projects which maximize the cost-effectiveness of the federal contribution, including use of existing infrastructure, like existing track, or substantial non-federal capital contributions.

Effective date

The provision establishing the Mass Transit Account shall take effect on April 1, 1983 (the effective date of the increased fuels taxes).

J. TREATMENT OF MOTOR CARRIER OPERATING AUTHORITIES HELD BY CORPORATIONS ACQUIRED BY NONCORPORATE TAXPAYERS

(Sec. 266(c)(2) of the Economic Recovery Tax Act of 1981)

Present law

The Economic Recovery Tax Act of 1981 provided that an ordinary deduction is allowed ratably over a 60-month period for taxpayers who held one or more motor carrier operating authorities on July 1, 1980. The amount of the deduction is the total adjusted bases of all motor carrier operating authorities either held by the taxpayer on July 1, 1980, or acquired after that date under a binding contract in effect on July 1, 1980. The 60-month period begins July 1, 1980 (or, at the taxpayer's election, with the first month of the taxpayer's first taxable year beginning after July 1, 1980).

Under the Act, adjustments are to be made to the bases of operating authorities held on July 1, 1980 (or acquired thereafter under a binding contract in effect on July 1, 1980) to reflect amounts allowable as deductions.

Under regulations to be prescribed by the Treasury Department, an election may be made by the taxpayer holding an operating authority on July 1, 1980, to allocate to the operating authority a portion of the cost basis to the acquiring corporation of stock in an acquired corporation. The election is available only if the operating authority was held directly by the acquired corporation at the time its stock was acquired or was held indirectly through one or more other corporations. In either case, a portion of the stock basis may be allocated to the operating authority only if the acquiring corporation would have been able, if it had received the operating authority in one or more corporate liquidations immediately following the stock acquisition, to allocate such portion to the operating authority under section 334(b)(2). The election applies only if the stock was acquired on or before July 1, 1980 (or pursuant to a binding contract in effect on such date) and only if, on the date the stock was acquired, the acquired corporation held, directly or indirectly, the operating authority.

In all cases, adjustments are also to be made to the basis of the acquiring corporation in the stock of the acquired corporation to take into account any allocation of the basis in the stock to an operating authority. In addition, the Treasury regulations are in all cases to provide for an appropriate adjustment to the basis of other assets.

Reasons for change

It has come to the attention of the committee that certain corporations holding motor carrier operating authorities were acquired by noncorporate taxpayers in situations where, had the purchaser been a corporation, the basis of the authority would have been increased. The committee believes that similar treatment should be afforded corporations holding authorities regardless of whether or not the purchaser of the corporation's stock was another corporation.

Explanation of provision

Under the committee amendment, if one or more noncorporate taxpayers on or before July 1, 1980, acquired in one stock purchase the stock of a corporation which, at the time of acquisition, held directly or indirectly any motor carrier operating authority, the acquisition shall be treated, for purposes of the provisions of section 266(c)(2) of ERTA (relating to certain stock acquired), as having been acquired by a single corporation. Thus, the basis of the operating authority may be adjusted to reflect the stock acquisition price. In order to qualify for these adjustments, the purchasers must have held at least 80 percent of the corporate stock on July 1, 1980.

Rules similar to the rules applicable to authorities held by corporations acquired by a corporate purchaser are to apply to authorities of corporations acquired by noncorporate purchasers.

Effective date

The provision is effective for taxable years ending after June 30, 1980.

Revenue effect

This provision is estimated to reduce fiscal year budget receipts by less than $5 million.

IV. REVENUE EFFECTS OF THE COMMITTEE AMENDMENT

The revenue effects of the committee amendment as approved by the committee are summarized in three tables.

Table 2 presents the estimated changes in Highway Trust Fund tax revenues by major component compared to receipts under current tax rates extended through 1988. Total Highway Trust Fund revenues are projected to increase by $2.2 billion in fiscal year 1983, $5.3 billion in 1984, $5.4 billion in 1985, $5.5 billion in 1986, $5.6 billion in 1987, and $5.7 billion in 1988. The table also shows the net revenue effects of the committee amendment, which take into account the decreases in income taxes resulting from higher excise taxes. The net revenue effects on budget receipts are estimated at $1.7 billion in fiscal year 1983, $4.0 billion in 1984, $4.1 billion in 1985, $4.2 billion in 1986, $4.2 billion in 1987, and $4.3 billion in 1988.

Table 3 provides comparable data but the revenue changes have been calculated from receipts that would have been collected under rate reductions or expirations scheduled for 1984. Consequently, the revenue gains shown in this table are substantially higher than those in Table 2 for fiscal years beginning with 1985: $9.6 billion in 1985, $9.9 billion in 1986, $10.1 billion in 1987, and $10.4 billion in 1988.

Finally, table 4 shows total estimated Highway Trust Fund tax revenues under the committee amendment for fiscal years 1983–1988. Total Trust Fund tax revenues will increase from $6.7 billion actual in fiscal year 1982 to $8.6 billion in fiscal year 1983, $12.2 billion in fiscal year 1984, and $13.8 billion in fiscal year 1988.

TABLE 2.—ESTIMATED CHANGES IN HIGHWAY TRUST FUND TAX REVENUES UNDER SENATE FINANCE COMMITTEE AMENDMENT COMPARED TO RECEIPTS AT CURRENT TAX RATES EXTENDED THROUGH 1988

Tax	Fiscal years—					
	1983	1984	1985	1986	1987	1988
Gasoline	2,211	4,442	4,292	4,151	4,100	4,132

TITLE II—SECTION-BY-SECTION ANALYSIS

SHORT TITLE

SEC. 201. This section provides that the title may be cited as the "Federal-Aid Highway Improvement Act of 1982".

REVISION OF AUTHORIZATION FOR APPROPRIATIONS FOR THE INTERSTATE SYSTEM

SEC. 202. This section authorizes $3.625 billion for fiscal year 1984, $3.8 billion for fiscal years 1985 and 1986, and $4.0 billion for each of fiscal years 1987 through 1990 for the Interstate Highway System construction program.

HIGHWAY AUTHORIZATIONS

SEC. 203. This section authorizes the appropriation, out of the Highway Trust Fund, of the following sums for fiscal years, 1983, 1984, 1985, 1986, and 1987.

For the Federal-aid primary program, $1.7 billion for fiscal year 1983, $2.1 billion for fiscal year 1984, $2.4 billion for each of fiscal years 1985 and 1986, and $2.6 billion for fiscal year 1987; for the Federal-aid rural program, $0.7 billion for each of fiscal years 1983 through 1987; for the Federal-aid urban program, $0.8 billion for each of fiscal years 1983 through 1987; for forest highways, $50 million for each of fiscal years 1983 through 1987; for public lands highways, $50 million for each of fiscal years 1983 through 1987; for parkways and park highways, $75 million for each year 1983 and $100 million for each of fiscal years 1984 through 1987; for Indian Reservation roads, $75 million for fiscal year 1983 and $100 million for each of fiscal years 1984 through 1987; for bridge replacement and rehabilitation (23 U.S.C. 144), $1.7 billion for each of fiscal years 1983 and 1984, and $1.8 billion for fiscal year 1985, and $2.0 billion for each of fiscal years 1986 and 1987; and for the highway safety improvement program, $0.4 billion for each of fiscal years 1983 through 1987.

Subsection (b) rescinds the unapportioned or unallocated balance of sums authorized by sections 4 and 5 of the Federal-Aid Highway Act of 1982.

Subsection (c)(1) provides a minimum apportionment of one-half of one percent of Interstate construction funds to each State, including Alaska. Whenever this amount exceeds a State's need for Interstate construction and Interstate resurfacing, restoration, rehabilitation, and reconstruction, the State may transfer the excess amount of the Primary System, the Rural Program, or the Urban Program.

Subsection (c)(2) provides for a Discretionary Bridge Fund of $300 million for each of fiscal years 1983 through 1987. Funds are available for a period of 4 years. Projects eligible for the funds are those costing more than $10 million or those costing at least twice a State's annual bridge fund apportionment. A technical amendment is also made to 23 U.S.C. 144(g) to change the requirement of expenditures on bridges off the Federal-aid systems to a requirement of at least 15 per centum of expenditures on bridges on public roads not functionally classified as arterials or major collectors. Virtually all of the present Interstate, Primary and Secondary Systems and most of the Urban System consist of roads functionally classified as arterials and major collectors. This change would permit expenditure of up to 85 per centum of the total funds on Interstate, Primary, Secondary, and Urban Systems and Off-system arterials or major collectors. The effect of the technical amendment will be to leave the law substantially unchanged. This subsection also deletes the provision of 23 U.S.C. 144(g) which prohibits the expenditure of more than 35 per centum of a State's bridge apportionments off the Federal-aid systems. This deletion will permit discretion to the States to use more of their bridge funds off-system in accord with their own priorities.

Subsection (d) requires that 60 percent of the funds expended by the States on the primary system and on the urban and rural program must be for resurfacing, restoring, rehabilitating and reconstructing roads including upgrading of existing facilities. If these sums are in excess of the States resurfacing, restoring, rehabilitation and reconstruction needs on existing facilities, the State may so certify to the Secretary.

A number of categories including forest development roads and trails, public lands development roads and trails, park roads and trails, parkway economic growth center development highways, Great River Road, safer-off-system roads, access highways, section 402 FHWA highway safety program, section 152 elimination of hazards program, rail-highway crossings, railroad-highway crossings demonstration program, and bicycle transportation and pedestrian walkways, will not receive new separate funding levels. Most of the projects now eligible in these categories will be eligible under the primary, rural, urban, and safety programs.

DISCRETIONARY BRIDGE CRITERIA

SEC. 204. This section directs the Secretary to develop a selection process for discretionary bridges authorized under section 144(g). This selection process is to include a formula resulting in a rating factor which is based on criteria including the sufficiency rating, average daily traffic, average daily truck traffic, defense highway system status and the State's unobligated balance of funds received under section 144. In addition, the Secretary is directed to give consideration to bridges that are closed to all traffic or that have a load restriction of 10 tons or less. Those bridges already eligible for discretionary bridge funds will remain eligible. After the issuance of a final regulation, eligible bridges will be limited to those with a rating factor of 100 or less, based on a scale of 0 to infinity.

INTERSTATE SYSTEM RESURFACING APPORTIONMENT

SEC. 205. This section establishes a new Interstate 4R apportionment formula. The new formula is based 60 percent on the ratio of the number of lane miles on Interstate routes (other than those on toll roads not subject to a Secretarial agreement) each State has of the total lane miles in all States, and 40 percent on the ratio each State has of the total vehicle miles traveled on those lanes on Interstate routes (other than those on toll roads not subject to a Secretarial agreement). This section also establishes a minimum one-half of one percent guarantee of Interstate 4R apportionments for each State.

The Secretary is directed to study the procedures for distributing Interstate 4R funds to the States. The purpose of the study is to analyze current conditions and factors including volume and mix of traffic, weight and size of vehicles, environmental, geographical, and meteorological conditions in various States, and any other factors that may contribute to the deterioration of the Interstate system. The Secretary shall consider such criteria as need, national importance, impact on individual State highway programs, structural and operational integrity, and any other relevant criteria, to determine the most equitable method of distribution. The Secretary is directed to report the results of the study together with recommendations for legislation not later than 2 years after the date of enactment of this section.

INTERSTATE SYSTEM RESURFACING AUTHORIZATION

SEC. 206. This section provides authorizations for Interstate resurfacing, restoring, rehabilitation and reconstructing (4R), out of the Highway Trust Fund, of $1.8 billion for fiscal year 1984, $2.4 billion for fiscal year 1985, $2.8 billion for fiscal year 1986, $3.2 billion for fiscal year 1987, and $3.4 billion for fiscal year 1988. The requirement that Interstate 4R funds be used only on lanes in use for more than five years is discontinued. The transfer of 4R funds to primary apportionments is permitted when the 4R funds are excess to resurfacing and reconstruction needs.

INTERSTATE SUBSTITUTION AUTHORIZATION

SEC. 207. Subsection (a) authorizes, in addition to any funds authorized to be appropriated out of the General Fund, $500 million for fiscal year 1983, $600 million for each of fiscal years 1984 and 1985, and $650 million for each of fiscal years 1986 and 1987, out of the Highway Trust Fund, for substitute highway projects under 23 U.S.C. 103(e)(4). The effect of this authorization is to grant contract authority for substitute highway projects. Funds for mass transit substitute projects will continue to come from the General Fund of the Treasury.

Section 207(b) amends 23 U.S.C. 103(e)(4) to allow withdrawal of, and to include as eligible for the benefits of withdrawal and substitution, any Interstate routes including those in rural areas, except those routes or segments of routes added to the Interstate System by specific legislation after March 7, 1978.

Section 207(c) provides that no adjustment will be made for inflation after September 30, 1983, for any substitute project eligible for Interstate Transfer funds.

Section 207(d) prohibits withdrawal and substitution for routes or segments of routes added to the Interstate System by specific legislation after March 7, 1978.

Section 207(e) clarifies that 100 percent Federal share shall also apply to traffic control signalization projects which might be included as part of an Interstate substitution project under 23 U.S.C. 103(e)(4). Present law now permits 100 percent Federal share for projects for traffic control signalization funded from all other Federal-aid categories.

FEDERAL-AID PRIMARY PROGRAM

SEC. 208. This section would eliminate the priority primary program (23 U.S.C. 147). Any unobligated authority for the priority primary program, effective the date of enactment of this section, would be apportioned by the Secretary of Transportation in the same manner as primary funds and would thereafter remain available for obligation for the same period as if the funds were apportioned like primary funds. Pertinent sections of title 23. United States Code, would be amended to reflect the elimination of the priority primary program. This section would also permit the District of Columbia to receive a minimum one-half of 1 percent of each year's primary apportionment.

FEDERAL-AID URBAN PROGRAM

SEC. 209. This section would establish the Federal-aid urban program. The existing Federal-aid urban system would be abolished, allowing for a wider range of transportation programs in urban areas. The changes will facilitate the achievement of goals relating to equity of programs, energy

conservation, center-city revitalization, economic development, and reindustrialization.

All public roads in urban areas would be eligible, except those on the primary system and Interstate System. Transit capital projects and transportation system management (TSM) projects would also be eligible as would projects previously catgegorized as safer-off-system. Consolidated safety programs incorporated by section 112 of this bill, the Highway Safety Improvement Program, are eligible for funding as part of the urban program.

The Certification Acceptance Procedures as provided by section 117(a) and the Secondary Road Plan procedures as provided by section 117(f) of title 23, United States Code, may be utilized by the States for projects under this program.

FEDERAL-AID RURAL PROGRAM

SEC. 210. This section amends section 103 of title 23, United States Code. It combines the secondary program and eligible projects now under the nonsafety portion of the safer-off-system program, the Great River Road program, the access to lakes program, the bridges on Federal dams program and the economic growth center program. This would result in a consolidated rural program and end the secondary system designation, thus making funds available for all rural and nonurban roads, other than primary and Interstate System roads. Projects eligible for funding would be expanded to include nonurban public transportation and projects previously categorized as safer-off-system roads. Consolidated safety programs incorporated by section 112 of the bill, the Highway Safety Improvement Program, are eligible for funding as part of the Rural Program. Consolidating the funds for the above mentioned programs and terminating the secondary system designation would increase the flexibility for use of the funds as well as simplify grant and project administration and management.

The Certification Acceptance procedures as provided by section 117(a) and the Secondary Road Plan procedures as provided by section 117(f) of title 23, United States Code, may be utilized by the States for projects under this program.

TRANSFERABILITY

SEC. 211. This section amends 23 U.S.C. 104 to permit transfers between primary system and rural program apportionments and between primary system and urban program apportionments of up to 100 percent. Current law now permits 50 percent transfers between primary and secondary systems and between primary and urban systems.

HIGHWAY SAFETY IMPROVEMENT PROGRAM

SEC. 212. This section establishes a single highway safety improvement program by combining all safety categories—Hazard Elimination, Rail Highway Crossings, Rail Relocation Projects, Safer-Off-System Roads, and highway related safety activities under section 402.

Each State must develop and implement a continuous highway safety improvement program which includes procedures for planning, implementation and evaluation of highway safety improvement projects. As part of this program, each State must have a process for inventorying and analyzing accident, traffic, and highway data, for conducting engineering surveys of hazardous locations, sections, and elements; and for maintaining and implementing a prioritized schedule of projects for the improvement of the hazards identified. Any highway safety improvement project on a public road, except the Interstate, may be funded under this section. The Federal share under this section is 90 percent except for rail-highway crossing projects, in which case the Federal share is that provided in section 120(d) of title 23, United States Code. Any remaining unobligated balance of contract authority for carrying out section 402 with respect to highway-related safety programs will remain available for obligation, and will lapse not later than September 30, 1984. Highway safety funds are apportioned to the States according to a formula based on population and road mileage.

This section also provides that each State shall expend 35 percent of the funds apportioned to it for highway safety improvements for rail grade crossing projects authorized by section 203 of the 1973 Highway Safety Act. This minimum percentage of use of such funds may be waived by the Secretary of Transportation upon application of the State if the Secretary finds that the State has demonstrated that it has other safety projects of a higher priority.

One-half of one percent of the highway safety funds is made available to the Secretary of the Interior of carrying out section 151 safety activities on Indian reservations. The section 151 funds are available as if they were primary funds except where inconsistent with the purposes of this section. In addition, primary system, urban program and rural program funds may be used for all consolidated safety projects.

The States are required to evaluate the results of the highway safety improvement program and to report annually to the Secretary. The Secretary is required to report annually to the Congress. The State's existing safety reports to the Secretary of Transportation under section 203 of the Highway Safety Act of 1973 for rail-highway crossings, the section 151 report on pavement markings and the section 152 report on hazard eliminations are repealed, as the comparable reports are now included under the one consolidated report provided by subsection (a), which contains a new section 151 (h) on highway safety improvement program reports.

HIGHWAY BRIDGE REPLACEMENT AND REHABILITATION PROGRAM APPORTIONED FUNDS

SEC. 213. This section provides for an annual apportionment starting in fiscal year 1983 based upon the following formula: All deficient bridges will be divided into four categories: (1) Federal-aid system bridges and bridges on public roads functionally classified as arterials or major collectors eligible for replacement, (2) Federal-aid system bridges and bridges on public roads functionally classified as arterials or major collectors eligible for rehabilitations, (3) Off-system bridges and bridges on public roads not functionally classified as arterials or major collectors eligible for replacement, and (4) Off-system bridges and bridges on public roads not functionally classified as arterials or major collectors eligible for rehabilitation. The square footage of deficient Federal-aid system bridges, and bridges on public roads functionally classified as arterials or major collectors, both those eligible for replacement and those eligible for rehabilitation, shall be multiplied by a factor of two. The square footage of deficient bridges in each category shall be mulitiplied by a national average unit cost on a State-by-State basis and the total cost in each divided by the total cost of the Nation's deficient bridges to yield the apportionment factors, except that no State shall receive less than one-quarter of one percent nor more than 9.25 percent of the annual apportionment. These funds are available for 4 years.

FEDERAL LANDS HIGHWAYS

SEC. 214. This section would establish a Federal Lands Highway Program which would include forest highway, park roads, parkways, Indian reservation roads, and public lands highways. This section would change existing law in the following ways.

Current section 202(a) of title 23, United States Code, provides for forest highway authorizations to be apportioned for the forest highways in the several States according to the area and value of federally owned land within the national forests therein. Revised section 202(a) would replace this apportionment formula with an allocation formula based on the relative needs of the various elements of the National Forest System as determined by the Secretary of Transportation in cooperation with the Secretary of Agriculture. The existing formula is obsolete because of the policies and directions mandated by renewable resource and land used planning legislation.

Revised section 22(b) would modify the existing allocation criteria (23 U.S.C. 202(b)) for forest development roads and trails to require that allocation of such funds be consistent with the renewable, resource and land use planning for the various National Forests. As with forest highways, this change to the allocation criteria for forest development roads and trails is necessary to achieve compliance with renewable resource and land use planning legislation. Forest development roads and trails are not included as part of the new Federal Lands Highways Program as such roads and trails are restricted to administrative use by appropriate agencies. The Federal Lands Highways Program would include public roads only.

Revised section 202(c) is a restatement of the existing allocation criteria (23 U.S.C. 202(c)) for public lands highways with one addition. A new provision, consistent with recent renewable resource and land use planning legislation, would provide that preference be given to those highway projects which are significantly impacted by Federal land and resource management activities.

New sections 202 (d) and (e) would establish criteria for allocation of funds authorized for park roads, parkways and Indian reservation roads.

Currently, no criteria is statutorily prescribed for allocation of funds authorized for park roads, parkways and Indian reservation roads. The proposed allocation criteria for these classes of highways would require distribution of funds authorized for each such class be based on the relative needs of the various elements of each such class.

This section would eliminate the separate provisions of chapter 2 of title 23, United States Code, which provide for forest highways (section 204), park roads (section 206), parkways (section 207), Indian reservation roads (section 208), and public lands highways (section 209), and establish in lieu thereof a coordinated Federal Lands Highway Program under which each such class of Federal lands highways would be continued. The substance of the separate sections which provided for forest highways, park roads, parkways, Indian reservation roads, and public lands highways is essentially restated in the new section authorizing the Federal Lands Highways Program. The significant change that the new section would

make is placing on the Secretary of Transportation the oversight and coordinating responsibility for Federal Lands Highways in order to ensure that such highways are treated under the same uniform policies as roads which are on the Federal-aid systems.

This proposal would not transfer jurisdiction of the Federal roads from the agencies that currently manage the respective Federal lands. Rather, it would involve DOT in coordination with the land managing agency, in the planning studies and program development of public Federal lands highways roads. The DOT would also provide design and construction assistance to the land managing agencies.

The Secretary must continue to determine that the Indian roads funds are spent in addition to, and not in lieu of, the States Regular Federal-aid funds.

This section would also add to title 23, United States Code, a definition of the term Federal Lands Highways, amend the definitions of the terms Indian reservation roads and park roads to include public roads only, and make technical changes to conform affected sections of title 23, United States Code, with the new Federal Lands Highways Program.

PROGRAM CONSOLIDATION

SEC. 215. Subsection (a) of this section repeals the Economic Growth Center Development program, National Scenic and Recreational Highway program, Access Highways to Public Recreation Areas on Certain Lakes program, Highway Crossing Federal Projects program, and the Railroad Highway Crossings Demonstration Project.

Subsection (b) provides that any unobligated balance of contract authority or unexpended balance of sums appropriated prior to enactment of subsection (a) will remain available for these programs under the conditions applicable prior to such enactment. The unappropriated balance of sums authorized prior to enactment of subsection (a) for the National Scenic and Recreational Highway program, Access Highways to Public Recreation Areas on Certain Lakes, and Highways Crossing Other Federal Projects is rescinded.

CARPOOL AND VANPOOL PROJECTS

SEC. 216. Subsection (a) amends section 120(d) of title 23, United States Code, to allow up to 100 percent Federal share on projects for the acquisition of vehicles for carpooling and vanpooling. The intent is to encourage more ridesharing by making it possible to acquire vehicles when local matching funds are not available.

Subsection (b) authorizes and directs the Secretary of Transportation to expend such sums as are necessary out of Federal Highway Administration administrative funds to carry out the national policy of promoting commuter modes of transportation which conserve energy, reduce pollution, and reduce traffic congestion. This is in lieu of a separate authorization as included in the Surface Transportation Assistance Act of 1978.

PUBLIC TRANSPORTATION

SEC. 217. This section amends section 142 (a)(1), (b) and (f) of title 23, United States Code, by substituting "high occupancy vehicle lanes" for "bus lanes", "high occupancy vehicle passengers" for "bus passengers", and "high occupancy vehicles" for "public mass transportation systems". The overall effect is to expand the scope of the projects eligible for funding under section 142 to include carpool and vanpool vehicles and passengers. Also, it allows such projects to include eligible facilities for carpools and vanpools only, without the presence of buses or rail transit.

FRINGE AND CORRIDOR PARKING

SEC. 218. This section amends section 137 of title 23, United States Code, by adding a new subsection (f) which allows Interstate 4R funds to be used for projects providing preferential parking for carpools. It incorporates the same restrictions as other fringe parking facilities with respect to being outside the central business district and within an Interstate corridor, and the primary purpose of reducing vehicular traffic on the Interstate highway. Other standard features concerning contracting and fees charged are also included.

EMERGENCY RELIEF

SEC. 219. Subsection (a) of this section amends subsection (a) of section 125, title 23, United States Code, to make clear that the term "catastrophic failure" means failures which are sudden, unexpected, and result from external forces, natural catastrophes in narrow or limited areas such as localized hurricane force winds, earthquakes, landslides, and the like. "Catastrophic failure", for purposes of this section, does not mean failure which is the result of structural deficiencies or physical deterioration. Bridges which are in imminent danger of collapse as a result of structural deficiencies or physical deterioration may be eligible for Federal funding under section 144 of title 23, United States Code, The Highway Bridge Replacement and Rehabilitation Program. Section 125 is intended to establish a fund which is to be held for sudden and unexpected emergencies and is not intended to be used for maintenance costs or for deficiencies, in, or the ordinary deterioration of, a structure. These latter expenses are expected to be met by the States or, to the extent a facility qualifies, with funds available under section 144 of title 23.

Subsection (a) of section 125 is also amended to delete the reference to bridges which have been closed to traffic between December 31, 1967 and December 31, 1970 inasmuch as the Committee understands that these bridges have been repaired or reconstructed and are now reopened to vehicular traffic.

Subsections (a) and (b) of this section further provide that all expenditures for emergency relief under 23 U.S.C. 125, whether past or future, shall come from the Highway Trust Fund and not from the General Fund of the Treasury. Section 125 of title 23, United States Code, now provides that 40 percent of emergency relief expenditures prior to the fiscal year ending September 30, 1978 are authorized from the General Fund of the Treasury.

Subsection (c) authorizes, from the Highway Trust Fund, $100 million per year for emergency relief projects.

Subsection (d) would amend 23 U.S.C. 125(b) to provide that expenditures for projects resulting from a single natural disaster or a single catastrophic failure shall not exceed $30 million in a State.

Subsection (e) would apply the amendment made by subsection (d) to natural disasters or catastrophic failures which the Secretary finds to be eligible for emergency relief subsequent to the enactment of this section.

Subsection (f) would amend 23 United States Code 120(f), which pertains to the Federal share for highway emergency relief projects. Under current law, the Secretary can increase the Federal share to 100 percent. Under this subsection, the Federal share would be limited to 75 percent, except for forest highways, forest development roads and trails, park roads and trails, parkways, public lands highways, public lands development roads and trails and Indian reservation roads, which would still receive 100 percent Federal funding.

Subsection (g) would apply the provisions of 23 United States Code 120(f), as amended by the bill, to all natural disasters or catastrophic failures which the Secretary finds to be eligible for emergency relief subsequent to the enactment of the bill.

Subsection (h) makes technical amendment to reflect the fact that this bill replaces the secondary and urban Federal-aid highway systems.

BICYCLE TRANSPORTATION PROGRAM

SEC. 220. This section broadens current authority to allow Federal-aid highway funds to participate in a greater variety of projects to encourage bicycle transportation and to provide pedestrian facilities. It would allow States greater flexibilty in developing federally assisted bicycle and pedestrian projects by (1) eliminating the requirement that bicycle or pedestrian projects be "on or in conjunction with highway rights-of-way"; (2) eliminating the limitation on the expenditure of Federal-aid highway funds for bicycle or pedestrain projects; and (3) specifically allowing Federal-aid highway funds to participate in nonconstruction projects that are expected to enhance bicycle safety and use. The Federal share for bicycle projects would be increased to 100 percent.

HIGHLAND SCENIC HIGHWAY

SEC. 221. This section would amend section 161(f) of the Federal-aid Highway Act of 1973, as amended by section 21 of Public Law 96-106, to remove a technical problem presently preventing the State of West Virginia from maintaining the Highland Scenic Highway, located partially within and adjacent to the Monogahela National Forest in the State. It would also allow local light truck traffic and limited commercial truck traffic on a permit basis only.
